TEN YEARS TROUBLED

With Liver Complaint and Dyspepsia—Suffered Greatly and Found No Relief in the Secres of Medicines Prescribed.

South American Nervine Was Recommended, and Before Half a Bottle Was Taken Relief Came.

Have Since Improved Rapidly, and Am Now Completely Cured—So Says Mr. David Reid, of Chesley, Ont.

What ills come to humanity from a disordered liver! Henry Ward Beecher has said that it was impossible for a man to hold correct spiritual views if his liver was out of order. The liver is so important a part of the mechanism of man that when it ceases to work with ease the whole man is unable to do his work aright. Can we not appeal to thousands, nay, tens of thousands, for a verification of this fact? Certainly it is, that Mr. David Reid, of Chesley, Ont., felt that the enjoyment of life had been taken from him, through the unhealthy condition of his liver. For ten years he says he was troubled with liver complaint and dyspepsia. Employing his own language: "At times my liver was so tender I could not bear it pressed or touched from the outside. Had tried a great many remedies without any benefit. Was compelled to drop my work, and being worse than usual, I decided as a final resort to try South American Nervine, which had been recommended to me by friends who had been cured by it. I got a bottle from A. S. Goodeve, local druggist, and commenced taking according to directions. Before I had taken half a bottle I was able to go to work again, and I have improved steadily since. I can conscientiously recommend South American Nervine to any suffering from dyspepsia or liver complaint." This is Mr. Reid's story as he tells it in his own words. Were it thought necessary it could be corroborated by a host of witnesses. Mr. Reid has lived a long time in Chesley, and his case was known to be a very bad one. But that makes no difference to Nervine. This great discovery rises equal to the most trying occasions. Let it be indigestion, the most chronic liver trouble, as with Mr. Reid, nervous prostration, that makes life miserable with so many, sick headaches, that sap all the effort out of man or woman, Nervine measures to the necessities of the case. It is a great medicine and thousands to-day in Canada are happier and healthier men and women, because of its discovery. There is no great secret about it, and yet there is an important secret. It operates on the nerve centers of the system from which emanate all life and healthfulness, or if disordered, sickness, even death. Nervine strikes promptly at the nerve centers, hence, as with Mr. Reid, where ten years' use of other medicines had done no good, less than a bottle of Nervine brought about encouraging results, and a few bottles cured.

HOW THE SUN LIFE FULFILS ITS PROMISES.

A Matured 10 Year Endowment.

Profits Paid by the SUN 21 per. cent more than the Estimates.

The following letter, which speak for itself, was received by the undersigned this morning from a gentleman in Brockville, whose ten year endowment which he held in the Sun Life Assurance Company of Canada matured last week and was paid him. The Sun is modest in promises but UNEQUALLED IN RESULTS. The public are benefitted by results, not by promises unfulfilled

BROCKVILLE, November 7th, 1895.

W. H. HILL, Mgr. Central Ontario Sun Life Assurance Company of Canada, Peterborough, Ontario:—

DEAR SIR.—I should have acknowledged the receipt of yours enclosing cheque for endowment policy No. 12,871 before, only I wanted to write something more than a mere receipt. I am pleased to hear of the continued prosperity of the "SUN" and it speaks well for your Company when the profits are greater (by 21 per cent.) than you as the Company's representative promised or rather estimated, as was the case with this policy.

I hope your Company will continue to prosper and I often regret that I do not carry more Insurance than I am doing. I might have carried twice as much as I do when at Minden without any great effort, still what little I do carry I feel is perfectly safe being in the "SUN."

I must thank you for your promptness and kindness regarding this policy just settled. I hope we will both be alive and well when the new one I now hold will be due in 19.5 and assuring you of very best wishes, I remain,

Yours Sincerely,
(Signed) F. R. C.

The above voluntary testimonial is significant and shows in a most practical way the SUN'S standing as a profit paying institution.

DEATH OF MR. ANGLIN

Driving on Saturday and Died on Sunday Morning.

MARTIN THE HORSEMAN ALSO DIED

Succumbed to His Injuries Sunday Midnight—Constable Tidsberry Who Was Shot by Robbers Anxious to Get Out and Hunt Up Evidence—Other Toronto News.

Toronto, May 4.

About 4 o'clock yesterday morning the Hon. Timothy Warren Anglin passed peacefully away at his residence, Queen-street-avenue. The deceased had undergone a long and painful illness, but was apparently recovering, and on Saturday was sufficiently well to go out in a carriage for an airing. On his return he appeared much better and was quite cheerful. During the night, however, he suffered a relapse and the end came quite unexpectedly from heart failure. All day yesterday his bereaved widow and family were receiving the sympathy of the many friends of the family.

Deceased leaves five sons and two daughters, Frank A. Anglin, of the law firm of Anglin & Mallon; Arthur W., who is with the Blake law firm; T. W. Anglin, of the Bank of Commerce; Mary, Aileen, Basil and Edward. Miss Mary Anglin, who was not at home, was apprised by telegraph of the bereavement.

Joe Martin Succumbs.

Joe Martin, the horse owner, who was so brutally assaulted by two unknown men at the Woodbine stables last Tuesday night, is dead. He never regained consciousness sufficiently to say a word that would lead to the capture of his murderers, and there is no clue at present to their identity.

There was at one time a faint hope that Martin would recover, but he grew gradually worse until noon yesterday, when he appeared a little better, but toward 7 o'clock he suffered a relapse.

At half-past 11 his brother, William, who has been in constant attendance upon him, was summoned to his bedside. On arriving at the hospital he found a lady of middle age beside his brother's cot. She explained that she was the dying man's wife and with reluctance yielded her place at the bedside to the brother. The injured man was falling rapidly and just before the clock struck the midnight hour he breathed his last.

From the outset he did not regain consciousness, but when his brother first saw him he showed faint signs of recognition.

The lady who claims the dead man's name is understood to have been a widow resident in Ogdensburg, N.Y., where Martin frequently made his home. His relatives had never heard of a marriage and are loth to accept the lady's statement without proof.

Mrs. Martin saw the newspaper account of the occurrence and telephoned from Prescott to the General Hospital on Saturday night. On learning her husband's critical condition she came right on to the city and registered at the Lakeview Hotel, Winchester and Parliament-streets, at 6.30 yesterday morning, after having first visited the hospital. After Martin's death Mr. John Ayre of the Lakeview accompanied the sorrowing woman in a cab back to the hotel. She said very little regarding herself, excepting that she was Martin's wife.

A Brakeman Killed.

Reuben Hodgson, a young man who has been residing with his mother at 58 Huron-street, met with a horrible death at Oshawa railway station on Saturday night. He was in the employ of the Pedlar Metal Roofing Co., and was going to take the train for his home in Toronto to spend Sunday. While attempting to cross the track in front of a through freight he fell and the train passed over him. Hodgson was alive when picked up, but both his legs had been cut off. Several medical men were soon in attendance, but he died an hour after the accident.

Hodgson was 23 years of age and unmarried. He had been employed in Toronto at the Douglas Galvanized Iron Works, but was recently laid off. On Wednesday last he left town to take a position with the Pedlar Co. at Oshawa.

William Hodgson, a brother of deceased, who is employed by the G.T.R., was notified of the dreadful occurrence and went immediately to Oshawa. He returned with the remains yesterday.

Deceased was a member of the Toronto Field Battery. He was known to his friends as "Robert." The funeral will take place from his mother's house to St. James' Cemetery, this afternoon.

The Wounded Constable.

Constable Tidsberry, whose plucky deed in capturing the three desperadoes near Little York, has made him the hero of the hour, in the eastern suburb, is in bed with his wounds. He passed a ferverish night and is weak from the loss of blood. The bullet that struck him in the arm, a 32 calibre, and flattened by want of correspondence in the chamber and barrel, went right through both sides of the sleeve of his undershirt and then re-entered the wound, from which it dropped when the coat was removed. The wound in his head required some 15 stitches to close it.

Hoping to find further evidence against the tramps, Constables Kennedy and Booth searched the barn where the encounter took place. They unearthed a safe-drill and a bottle containing one-half a pound of the best diamond powder, which shows what manner of tramps they were. The constables also found a bullet hole through the roof and another through the side of the barn. Tidsberry said that he thinks one of the robbers threw away a pistol in his flight and he will follow the track of the chase as soon as the doctor allows him to leave his bed.

Ayer's Pills are recommended by leading physicians and druggists, as the most prompt and efficient remedy for biliousness, nausea, costiveness, indigestion, sluggishness of the liver, jaundice and sick headache; also, to relieve colds, fevers, neuralgia and rheumatism.

WOMAN AND THE CHURCH.

A Hot Fight Ahead at the Methodist Episcopal Conference at Cleveland, O.

Cleveland, May 1.—The general conference of the Methodist Episcopal Church, which will be in session one month, was called to order in the Armory to-day. The building had been lavishly decorated. The conference was called to order by Bishop Bowman. It was opened with brief devotional exercises, and then the roll was called and the delegates were recognized and seated. There is a full attendance. The usual committees were appointed. There are four accredited women delegates to the conference, and their admission will cause one of the hottest fights ever waged in the conference. The woman question came up immediately after the appointment of committees, and the battle was commenced. From three to eight bishops will be added to the present number.

A Shameful Practice.

Many tooth preparations contain substances that speedily destroy the enamel and beauty of the teeth. For this reason the greatest care should be exercised in the selection of a dentrifrice. Ivorine for the teeth is offered with the assurance that it is absolutely free from objectionable ingredients. An admirable cleanser is Ivorine, imparting dazzling whiteness to the teeth, firmness to the gums and renders the the breath sweet and fragrant.

A WARM TIME OF IT

That is the Prediction for Mr. Joseph Chamberlain.

THE DEVELOPMENTS IN AFRICA

Bound to be the Cause of a Good Many Questions in the British Parliament—Sir Hercules Robinson Had No Prior Knowledge of Jameson's Raid.

New York, May 4.—Julian Ralph cables from London: Stormy scenes are preparing for Parliament. Politicians of all shades are piling up questions respecting recent developments in South Africa, and Mr. Chamberlain is going to have a warm time of it.

The Colonial Minister can usually give as good as he gets. This time his action from the start has been so transparently honest and straightforward that he personally will come out of the ordeal unscathed, there is no doubt, though he may offer up the accused colonial politicians on the altar of public indignation.

Britishers are at the present moment very uneasy, very anxious, and even alarmed. The following extract from to-day's Observer shows why the engagements in Egypt, the sudden death of the Shah of Persia, the complications in the far East, Venezuela, and the growing ambitions of Russia and France, furnish sufficient material for reflection by the most patriotic of orators or writers on the South African question.

Foreign affairs rarely have borne a more disquieting appearance than at the present time, and although the embroilment of England with the Boers might please Russia, France and Germany as much as it did enchant our own jingoes, a wiser policy will be followed by the Government.

If France and Russia come to a mutual agreement respecting Persia and Egypt, which is extremely likely, since their interests do not clash, and only a policy of bartering and cooperation is necessary, Great Britain would find herself on both continents in a serious predicament.

I venture to assert that this is what will happen, in which case Great Britain will probably decline to tamely submit to be ousted, and so lose her influences.

Another great trial of strength between European diplomatists is coming, and I am by no means sure of the result.

Lord Salisbury, at all events, seems to be keeping a cool and level head. He needs it.

"Chairman" Meant Jameson.

London, May 4.—In the House of Commons to-day, at the request of Mr. Labouchere, Mr. Chamberlain promised to lay upon the table of the House the Colonial Office records of communications which passed between Sir H. B. Loch (now Lord Loch of Drylaw), while he was Governor of the Cape Colony, and certain Englishmen in the Transvaal in regard to affording protection to the latter. Mr. Chamberlain also said that the Government had no information that Mr. Cecil Rhodes had given his pledge that the Imperial Government would not interfere to prevent Dr. Jameson's raid into the Transvaal. He had had no communication with Mr. Rhodes or any one else relative to the exercise of the Imperial authority in the event of a raid.

Mr. Chamberlain then alluded to the suggestion which had been made that the "Chairman" mentioned in the cipher despatches found among Dr. Jameson's effects when he was captured by the Boers and recently published by the Transvaal authorities was identical with Sir Hercules Robinson, Governor of the Cape Colony. In regard to this matter he said he had received a telegram from Sir Hercules Robinson, in which he said: "Chairman means Jameson. I never received from anyone, in any shape, even a hint of what was about to take place, and was so completely kept in the dark that I never had the slightest suspicion of what was going on or intended. The discovery on Dec. 8th that Jameson had entered the Transvaal came upon me like a thunder bolt from a blue sky. If there is any insinuation to the contrary I rely upon you to protect my character in my absence."

The reading of this telegram was received with cheers. Mr. Chamberlain added: "I place implicit confidence in Sir Hercules Robinson."

Cecil Rhodes Must Go.

London, May 4.—The directors of the British South Africa Company held a meeting to-day, at which they discussed the connection of Cecil Rhodes and Mr. Beit, officers of the company, with the projected overthrow of the Transvaal Government. It was finally decided that Messrs. Rhodes and Beit should be requested to resign.

GOSSIP FROM OTTAWA.

Several Late M.P.'s Have Got Their Reward—Their Excellencies' Gratitude in Tangible Form.

Ottawa, May 4.—(Special)—An important meeting of the council was held this afternoon. It is reported tonight that several appointments were made, among them the following, but the report lacks authoritative confirmation:

Mr. Joncas, ex-M.P. for Gaspe, to be agent of the Marine Department at Quebec, vice Gregory, superannuated.

J. H. Metcalfe, ex-M.P. for Kingston, to be warden of the Kingston Penitentiary, vice Dr. Lavell, superannuated.

Dr. Ryan, Kingston, to be surgeon of the Kingston Penitentiary, vice Dr. Strange, superannuated.

Justice Tuck, to be Chief Justice of New Brunswick, vice Chief Justice Allen, who has resigned the position.

Mr. McLeod, ex-M.P., to be Judge of the Superior Court of New Brunswick, to fill the vacancy to be created by Judge Tuck's promotion.

During the past week or ten days the Government has been in almost daily communication with the House authorities.

J. H. Marshall, ex-M.P. East Middlesex, as Postmaster at London.

D. W. Davis, ex-M.P. Alberta, as Collector of Customs for Yukon district.

The Government cruiser Petrel is already doing active and useful protective duty on Lake Erie. She was only put into commission on May 1st and Captain Dunn reports to the Department the seizure of thirteen American gill nets in Canadian waters, together with 200 cwt. of pickerel, perch, etc. The catch was made in the vicinity of Big Chicken Island.

His Excellency the Governor-General will present a new bell to Gatineau Pt. Catholic Church in commemoration of his appreciation of service rendered Her Excellency the Countess of Aberdeen at the recent unfortunate accident that might have resulted in her death. Her Excellency had every kindness shown her by the pastor of the church, the Rev. Father Champagne, and was helped out of her predicament by members of the church, which makes His Excellency's gift very appropriate and becoming.

His Excellency has also presented three gallant Gatineau Point villagers who rescued Her Excellency from the water with $20 each as a slight token of his regard for their services. The men were Treffle Bigras, Charles Carriere and Benoni Tremblay.

Col. Dan S. Lamont, United States Secretary of War, passed through Ottawa to-day en route for the Gatineau Fish and Game Club's preserve near the Pickanock, Ottawa County.

The St. Lawrence canals were opened yesterday to a number of vessels anxious to get through.

The 10th Royal Grenadiers will be represented on the Bisley team this year by Private Charles Armstrong, who won a place at Ottawa last year as Sergt.-Major of the Guelph Field Battery.

FELL DOWN THE CHIMNEY.

Three Workmen at Quebec Fall Sixty Feet But Still Live.

Quebec, May 4.—The staging around the top of a mill chimney giving away to-day, James Carleton, James Gleason and William Perkins fell into the chimney and went crashing down to the bottom, a distance of fully 60 feet. A remarkable feature of the accident is that Perkins escaped with a sprained wrist, while the other two were considerably cut and bruised, but not fatally injured.

The Hired Man May Die.

Dorchester, Ont., May 4.—Lightning struck and burned the large barn and driving shed three miles east of here this afternoon, owned by Robert Sutherland, jr. The hired man, in attempting to get a horse out of the stable, was seriously, if not fatally, burned.

TRAGEDY AT SOPERTON.

Alfred Thomas, 21, Deliberately Blows Out His Brains Because His Love Was Not Returned by Miss White.

Brockville, May 4.—An awful tragedy in real life was enacted at Soperton last night. Alfred Thomas, son of Henry Thomas, a well-to-do farmer, has been paying attention to Miss Julia White for some few months past, but being teased by several in the neighborhood because of these attentions, she refused last night to allow him to escort her from the Soperton Methodist Church, upon which Thomas drew a large horse pistol and shot himself through the brain. He expired about an hour later. He was 21 years old.

THE ONLY HELP.

A Victim of Bright's Disease for Many Years—Cured by Dodd's Kidney Pills.

Neepawa, (Special), May 4th.—Mrs. T. H. McKee, formerly of Listowel, came here as a last resort. Had suffered ten years with Bright's disease. Reported to be past help and dying. Her re-appearance on the street in apparent good health was a pleasant surprise. The explanation given was that her little boy had insisted that she should use Dodd's Kidney Pills, and prophesied that they would cure her. She says:—"From the first few doses I began to feel better, and after taking four and a half boxes I say it with heart-felt gratitude I am perfectly cured." Dodd's Kidney Pills is the only medicine in the world that has ever cured a case of Bright's Disease at such a stage.

HE SHOT HIS WIFE

And Stabbed His Innocent Babe to Death.

ED. PLANT, FORMERLY OF TORONTO

Enacts a Fearful Tragedy at Clayton, Mass.—When Hard Pressed by the Police He Took His Own Life—Left Toronto Three Years Ago.

Great Barrington, Mass., May 4.—One of the most horrible tragedies that can be charged to the account of Berkshore County, was enacted this forenoon in Clayton, when Edgar Plant, 22 years old, shot and killed his young wife, whom he was forced to marry a few weeks ago, stabbed his infant child, and then, three hours later, put a bullet through his own heart.

Clayton is a village near the town of New Marlboro, and young Plant was the son of S. J. Plant, superintendent of the Clayton White Brick and Terra Cotta Co.'s works, working for his father as a moulder. The Plants came here from Toronto, Ont., about three years ago.

The murdered woman, whose maiden name was Sanford, came here with her parents about two years ago, and ever since that time she and young Plant have been on terms of intimacy. This intimacy culminated in the birth of a child on April 14, and on the following day, under pressure brought to bear by the girl's father, Plant was forced to marry her. The birth of the child was displeasing to Plant, and since that time he has shown his displeasure in his changed manner toward his wife. His parents were opposed to the match, and after the marriage they went to board with the Sanfords, where they remained two weeks. Then they removed to the house of Daniel Condon, where they have boarded ever since.

This morning, the girl's parents decided that the young couple and their baby could come back to live with them, and sent their domestic over to the Condons' house to inform them of the fact. Plant, his wife, baby and the servant girl thereupon started for Sanford's house, taking a short cut through the woods. After going a short distance, Plant went back after the baby's nursing bottle, and after he had returned and the party had proceeded some distance further, the wife discovered that she had left her shawl behind, and the servant girl was sent back after it. It was while the latter was absent on this errand that the fiendish crime was committed, and no one will ever know the exact circumstances that led up to it.

When the servant returned she was horrified to find Mrs. Plant lying on the ground with three bullet shots in her back between the shoulder blades, while by her side lay the baby, which had been stabbed four times with a dirk.

After committing the deed, young Plant, revolver in hand, went to the factory and told his father what he had done, enquiring at the same time for Harry L. Yall, the bookkeeper, against whom he had some grudge. He was unable to find Yall, however, and then went to the bank of the river, where he lay down and ate some food that he had induced a boy to bring him.

Meantime news of the tragedy had spread and a crowd of excited townspeople attempted to capture the murderer, whose whereabouts had been quickly learned. With his revolver, however, he kept the crowd at bay. Great Barrington officers had been apprised of the murder and Deputy Sheriffs Norton, Cropper and Douglas started for the scene with all possible haste.

Plant threatened to kill the first man who attempted to lay a hand on him, but the officers closed in on him, and, seeing that capture was inevitable, he fired a bullet into his left side, fell to the ground and rolled down the bank into the river. Deputy Sheriff Cropper, not knowing the nature of his wound, called to him to come out of the water, but Plant replied that he could not and disappeared beneath the surface. When the deputy sheriff took him out a moment later he was dead.

Medical Examiner Small viewed the remains of the murderer and his victims, and the latter were taken in charge by the dead woman's parents.

Plant's mother is an invalid and all knowledge of her son's terrible crime has thus far been carefully kept from her. She was taken to Toronto this afternoon by her husband in order that the secret could be more closely guarded. Plant's remains were turned over to his nephew.

NEWS FOR BICYCLE TOURISTS.

The Modus Operandi of Bringing Bikes into Canada Free of Duty.

Windsor, May 4.—The expected order admitting bona fide members of the L.A.W. into Canada with their bicycles, without making a deposit with the Collector of Customs, was received at Windsor this morning. The membership ticket for the present year must be presented and a triplicate blank, with a full description of the wheel, the importer's full name and address, the number of his membership ticket and the date and port at which the machine is to be re-exported, filled out. The rider is given one blank, the collector at the port of entry keeps one and the other is sent to the port at which the wheel is to be exported. If the wheel is not taken out within the time specified on the permission, the authorities will camp on that particular rider's trail and make things lively for him.

THE FIRE TRAVELED DOWN

And Gutted Two Buildings in Buffalo—Loss $150,000.

Buffalo, May 4.—Two four-story brick buildings on Pearl-street in the centre of the city were gutted by fire to-night. One of the structures was occupied by the big storehouse and showrooms of the Goodyear Rubber Company, and the other as a bicycle annex by the William Hengerer Company. The blaze started in the top floor of the latter at 8 o'clock, and traveled down. It was a hard fire to stop and burned for two hours. Loss $150,000, covered by insurance.

THE IRON DUTIES.

A day or two ago we referred to the duties on iron and the effects they were to produce, as predicted by Sir Charles Tupper. But the subject is so important and so intimately associated with the success of our manufacturing industries that it will bear frequent reference and careful study. For a period of twelve years, from 1867 to 1879, pig iron was free. There was a duty of five cents on bar and wrought iron and coal was free. This was under the Mackenzie revenue tariff, and the result was that all kinds of manufactures into which iron entered, and they were the majority, were encouraged by free or lightly taxed raw material—this especially applied to agricultural implements. In 1879 we had the "protective" policy introduced, with a duty of $2 a ton on pig iron, 17½ per cent. on bar iron, etc. In 1883 we first had a bounty offered on the production of pig iron, and then, in 1887, Sir Charles Tupper, in the matter of taxation, jumped upon iron with both feet, when pig iron duties were raised to $4.50 for the long ton, with puddled bars $9, hoop iron $13 per ton and so on. We had a glowing prophecy from Sir Charles Tupper as to a wonderful growth of population and prosperity whose complete and abject failure was mentioned recently in these columns. We were to manufacture all the iron we used—and furnaces were to be set up within hailing distance all the way from New Brunswick to British Columbia. The result was not the production of iron but the result was to double the price of every piece of iron and hardware from a carpet tack up, and to seriously affect our shipping. It increased to the consumers of the country the price of almost every article into which iron enters from 50 to 100 per cent., and imposed an additional burden of taxation of between three million and four million dollars per year. Nor did it increase population or blast furnaces as predicted. There was another result. The rolling mill men used their influence—and the influence of the manufacturer under the system of high taxation has been great—to get a clause inserted in the tariff permitting scrap iron to be imported at $2 per ton duty and the result was that these rolling mill men were enabled to import scrap so cheaply that they didn't use a pound of Canadian pig iron in the manufacture of bar iron, but it was all made from foreign scrap. Then to strengthen their position these men formed wire combines, nail combines, tack combines and other combines in every branch of the steel and iron trade.

American iron has become so cheap that with the duties we cannot compete, and we almost entirely import the iron used in our manufactures, and our manufacturers are hindered and handicapped to the tune of $5 a ton on every long ton of iron they use, besides 60 cents per ton on coal. The high tax and the bounty amounting to a protection of $6 per ton on pig iron fails to protect, and we have to import the raw material of our manufactures from abroad at a price enhanced by the duty. Does this permit our manufacturers to the prosper and supply cheap goods to consumer? No. Consequently everything in which iron enters is increased in price from a hoe to a harvester. And nobody gains except the favoured manufacturers of agricultural implements, who is wealthy enough to manufacture for shipment abroad. If a mower, or harvester or plough is shipped to South America, our paternal government refunds to the manufacturer 99 per cent. of the tax on the raw material, but if sold to the Canadian farmer the full dose of taxation is forced down. The cheaper we can get our raw material the cheaper the consumer can be supplied by the manufacturers. How can we expect a Canadian manufacturer to compete, even with a stiff duty, with an American manufacturer, say, of agricultural implements, who has both his iron and coal free?

HOW THE TAXATION FALLS.

The advocate of high taxation strive to offset the gnawings of a guilty conscience by asserting that the taxes imposed by the N. P., fall chiefly on luxuries. Look at the record for a month, and in so doing mentally multiply the figures by 12, and you have some idea of the amount collected in the course of a year on "luxuries," such as the following:—During the month of December last $5,305 worth of rice was imported, on which the duty was $4,189, or over 78 per cent; 587,145 tons of coal with duty of $142,523, or 24 per cent; $13,077 cotton clothing with a duty of $4,299, or 30 per cent; $75,037 cutlery, hardware, tools and implements with a duty of $22,490, or almost 30 per cent; $16,173 boots and shoes with a duty of $4,033, or 25 per cent; $53,034 coal oil with a duty of $48,822, or over 92 per cent; $8,885 of soap with a duty of $3,111, or over 34 per cent; $18,125 of woollen clothing with duty of $6,123, or 33 per cent; $119,558 of dress goods with a duty of $35,733, or almost 30 per cent. And the high taxation enthusiasts wish to degrade on people so far and have them live so plainly, that rice, coal oil, cotton and woollen clothing, soap and dress goods are to be regarded as luxuries.

SIR OLIVER MOWAT can't expect to compete with Sir Charles Tupper. Sir Oliver is only one of the fathers of confederation which Sir Charles, according to his own claim, is the sole author of Confederation.

THE Hamilton Herald says:—Old Man Tupper is something of a financier. He let go the High Commissionership, which was worth $10,000 a year and postage stamps, but he has managed to get his hands on a job worth $8,000 a year for himself; one son gets $5,000; a nephew $7000 and another son's partner $7000. This is a total of $27,000, which, as things go in this old world, is not half bad. The only wonder is that Sir Charles was foolish enough to overlook another $3,000 for the family by not giving his son a portfolio.

BEAUTY AND VARIETY!

Satisfaction and Pleasure!

Each colour of Diamond Dyes will give from three to eight beautiful shades, varying according to the amount of goods dyed with the contents of the package. No such rich variety of colours and shades can be obtained from any of the imitation and poorly prepared dyes sold by some dealers.

There is always a satisfaction and pleasure when *Diamond Dyes* are used. The desired work is well and truly done, and old things are made as good as new.

Carefully avoid buying the crude imitation dyes that are so plentiful in the country, and sold for the sake of profit. Ask for the *Diamond Dyes* and have your work well done.

HAVELOCK.

Mr. A. R. Anderson, of Norwood, was in town on Wednesday.

Mr. G. A. Payne, of Campbellford, was in town on Wednesday.

Mr. Hiram Lawrence, of Campbellford, was in town on Wednesday.

Messrs. J. N. Kent and T. Bell, of Campbellford were in town on Tuesday.

Miss Werden, who has been sick in Campbellford for the past month, has returned to town.

Mrs. (Dr.) Fraser, of Lakefield, was the guest of Mrs. (Dr.) McClelland a few days during the week.

Mrs. (Dr.) Fowler left on Thursday for Colborne to visit friends.

Mr. J. Black has resumed his duties, after a two weeks' illness.

Miss Benor, of Campbellford, has returned to town and is again assisting in the store of her brother.

Rev. Mr. Tarrant received this week from Toronto a fine three-year-old colt, which is pronounced by all to be the most handsome beast in town.

The many friends of the Rev. Dr. McClelland will be pleased to hear that he is regaining health under his present treatment in Philadelphia, and that his return will be soon.

Mrs. Andy Corbett had the misfortune on Monday last to run a needle in her hand while washing, a piece of which was broken off in the flesh. Dr. Fowler was called in but could not locate the piece. He advised her to go to Toronto where probably the X rays will be applied.

As a result of the application made by the council of Belmont, Mr. Joseph Covert has been admitted to the home of Incurables at Toronto. The will of the late Mrs. Foley, of Norwood, provided for the keeping of one person in the above institution, for which a yearly donation of $100 was given. The conditions are that the municipality supply all clothing and pay all burial expenses. Messrs. J. B. Peoples and Chas. Chase, accompanied him to Toronto. A complete outfit of clothing was purchased for him before his departure.

A meeting of the building committee of the new Methodist church was held on Monday night for the purpose of opening the sealed tenders. As was expected the contract was awarded to Contractor Knox at a figure of $3,300. Operations will be commenced at once and in a few months will be reared on the site of the old church a structure which will be a credit to our town and a memorial of the thrift of the Methodist denomination in the early days of our village.

The old Methodist church has reached its destination and is once more anchored on a firm foundation on one of the best located lots in Havelock being situated on the corner of Oak and George streets. The Messrs. Huffman of Campbellford who had the contract of moving it, did the work in a most satisfactory manner and are certainly experts in their line of business. The building when completed will be fitted up in two first-class single stores 42 x 15 feet each. The large plate glass windows 6 x 8 feet will be put in, and when occupied will add greatly to the appearance on George street. Two years ago it was uncertain where the business places would centre but to-day it is quite evident that the tendency is to locate near the post office. A. V. Fuller, Jas. Knox, Phillips Bros., T. J. Drain, L. N. Ackerman, S. S. Joyce and H. B. R. Dryden have all erected business places within one block of the post office within the past two years, and just two blocks east has been erected by Dr. Jeffs, the most costly block in town although not so centrally located as it would have been had the erection not taken place for a year later. Havelock is without an exception the most thriving village between Toronto and Montreal, a fact which is substantiated by the commercial travelers who visit the place.—Standard.

OUR BOYS AND GIRLS.

Paine's Celery Compound Gives Them Strong Nerves, Pure Blood and Healthy Bodies.

IT PLANTS THE FEET OF THE YOUNG ON THE SURE ROCK OF HEALTH.

It is now an established fact that the majority of boys and girls who are ailing and sickly, suffer from a weakened condition of the nervous system.

It should be remembered that a boy's or girl's nervous system is exceedingly delicate, sensitive, and very easily deranged. When the young people are nervous, irritable, do not sleep well, have headache, variable appetite, sallowness of skin, and eruptions on face, be assured the blood is disordered and the nervous force weak.

When your children show signs of any of the above mentioned troubles, give them Paine's Celery Compound, as there is no other medicine so well adapted for their peculiar ailments. It will soon banish every symptom of disease, give natural appetite, sweet sleep and clear, healthy complexions.

From every part of our Dominion, fathers and mother have sent in thankful and grateful letters testifying in unmistakable language that their children were saved from disease by Paine's Celery Compound. Many cases are on record of young people snatched from the grave, whom the physicians had given up as incurable.

Dr. Phelps, upon whom colleges conferred their highest honours for his deep and valuable investigations in medicines, knew from ripe experience that his wonderful prescription, Paine's Celery Compound, was just suited for the needs of all little sufferers.

Now is the time to build up the little ones in health, so that they will be able to bear up against the hot weather when it comes. To accomplish this desirable and necessary work, Paine's Celery Compound is the only safe, sure and certain agent.

AN AWFUL COLLAPSE

Five-Story Building in Cincinnati Tumbles Down.

MANY PEOPLE BURIED IN THE RUINS

Some are Dead and Others Dying—The Calamity Caused by the Ignition of a Gasoline Tank in the Basement—The Work of Rescue.

Cincinnati, May 4.—What may prove the most disastrous calamity of the year occurred in this city to-night, when a five-story brick building, filled with people completely collapsed and fell, burying the unfortunate inmates beneath the ruins. It is impossible to say how many persons have been killed, some placing the number as high as 40 and others as low as 15. No accurate statement of the loss of life can be given until the debris shall have been cleared away, which will certainly take all night.

The building was situated on the east side of Walnut-street, just south of Fifth, the lower floor being occupied by Drach's saloon. The upper apartments were rented out to lodgers. No one knows what caused the collapse of the building. People for several blocks around where the disaster occurred were startled by a terrific explosion about 7.45 o'clock. A fire alarm was instantly turned in and in a few moments half the fire departments were on the scene. The work of rescue was instantly begun.

The explosion was probably caused by the ignition of a gasoline tank, Adolph Drach, proprietor of the saloon on the lower floor, had recently placed a gasoline engine in his cellar for the purpose of generating his own gasoline fuel.

It is almost impossible to push one's way through the throng of excited thousands gathered about the place, as late as midnight. Hundreds of anxious inquiries keep the telephones in the vicinity busy, and the hospitals and morgues are besieged with callers eager to ascertain the identity of the dead and dying.

The identified dead and the injured, so far as known, are as follows:

Dead—R. A. Davis, traveling man, Hamilton, Ohio; Adolph Drach, proprietor of saloon.

Injured—H. E. Hunwick, bookkeeper; Joseph Spriggs, colored porter; C. S. Wells, clerk; Sidney W. Johnson, barkeeper; W. D. Croaby, paper hanger; William E. Cook, clerk Avondale; J. L. Ward, racing man, Toledo; Barbara Huddfelman, domestic; John McCarthy of Cincinnati Wharf Company; Peter Burns, Charles Spill.

Of the injured it is believed several will die. Several more victims are yet beneath the ruins and everything possible is being done to secure the bodies.

Cincinnati, May 4, 2 a.m.—Four unidentified bodies have been taken from the ruins.

HIS BLOOD CALLS FOR VENGEANCE.

But No Incriminating Evidence Came Out at the Martin Inquest—The Jury Viewed the Fatal Spot.

Toronto, May 5.

No evidence to show who are the murders of Joe Martin came out at the inquest conducted by Coroner Powell at the General Hospital yesterday. The testimony shows that Martin was brutally murdered for his money and valuables, and that the dastards were interrupted before they were able to secure the object of their crime. In addition to the $2000 found in the pocketbook in the half of the vest which was left on Martin, another pocketbook was found, which contained a diamond horse shoe pin. Another similar pin was also found sewn in Martin's cravat, and it is evident that the hiding place of the latter was known to the murderers.

Present at the inquest were a number of prominent track men, and also several ladies, among them being Mrs. Martin. Crown Attorney Dewart and Detective Cuddy were there in the interest of the Crown. The jury was sworn in, with John Kane as foreman.

Dr. O'Reilly, superintendent of the General Hospital, was the first witness. He gave a general history of the patient's condition from the time of admission last Tuesday night until death on Sunday. Martin died without making any ante-mortem statement, and said but little in his rayings that could lead to capturing his assailants.

Matthew Fraser, a tailor, who lives at 11 Trinity-place, and is a cousin of deceased, testified that Martin was at his house at about 7.30 on Tuesday night, and that he left for the Woodbine. Witness could not say whether Martin carried much money about him, as he had never heard anything about it or even know it. Martin was a peaceable man, and as far as witness knew, had no enemies and did not carry firearms.

To Mr. Dewart, witness said that Martin slept in the feed room at the Woodbine for the last four weeks, but previous to that time he had stayed three nights at witness' house. Since then he often came over in the evening, and left in time to feed the horses at 9 o'clock.

William Martin, a brother of deceased, said that for the past eight or ten years Joe had always carried from $1000 to $4000 with him, and that this fact was common knowledge among the fraternity. Joe was not quarrelsome and did not drink. Witness said that he had seen people here whom he had also met on other tracks, but he suspected none of them.

Charles Boyle, the well-known turfman, had known deceased for years, and knew he was in the habit of carrying large sums. He was the first to reach the body of the wounded man after the boy Snider had given the alarm. He found Martin so covered with blood that he was unrecognizable. Under his head there was a cravat with a diamond horse shoe pin sewn into it. Witness deposed to the finding of the half of the vest which contained the pocketbook, and $2000, and also another pocketbook found near the body and containing some papers and another horse shoe diamond pin. It was a large flat pocketbook, such as would be carried in an inside pocket.

The jury and others interested in the case then went to the Woodbine and viewed the spot where the crime was perpetrated, after which the inquest adjourned.

Thomas Notley's Death.

"Accidental death" was the verdict rendered by Coroner Aikins' jury in the case of Thomas Notley, who was killed in a trolley accident in King-street subway last Wednesday. To their verdict the jury added a recommendation that the street railway company introduce a code of signals between motormen and conductors, whereby on trailer cars the brake may be applied quickly in emergencies, and that a rule be made that on all occasions cars stop at each entrance to the subway.

Sawing Wood.

A TORONTONIAN OF 85 YEARS WHO CAN STILL HANDLE A BUCKSAW.

To find a man of 85 sawing and splitting wood without any trouble would surprise most of us to whom such vigorous exercise is—to say the least—distasteful, but to hear the circumstances under which it took place but increases the wonder.

"Our representative visited Mr. John Clyne, 174½ Sackville st., City, a sufferer from kidney trouble for the past 10 years, having undergone two operations during that time. Mr. Clyne was for some 30 years engaged in the express and cartage business for such well-known firms as Swan Bros., Hugh Miller, J.P., Wm. Rennie, etc., and having been a resident of Toronto for 50 years, is well known. Mrs. Clyne was interviewed at their residence and said: 'Mr. Clyne was in a very bad state, his urine almost black with sediment and he was expecting to have another operation such as he had before. The pain in his back was at times very severe and kept him from doing any work. Mr. Clyne got a box of Doan's Kidney Pills at J. R. Lee's drug store and was relieved from the first dose; the urine is now clear, no trouble or burning sensation, and to-day you would say that although 85 years old, he has taken on a new lease of life.' Mrs. Clyne then took our reporter to the yard, and to his surprise found Mr. C. sawing wood for over Sunday. He emphatically endorsed every word Mrs. Clyne had said. 'From the very first they did me good; I am well known here and you can use my name as reference. Two weeks ago I expected to be operated on, perhaps to die—to-day I am well and strong, better than I have felt for a score of years.'"

LIGHTNING'S QUICK WORK.

Two Barns Were Burned During the Thunderstorms Yesterday.

Chatham, May 4.—During the thunderstorm this afternoon the barns on the farm of John Forsyth, seventh concession Chatham, were struck by lightning and together with contents completely destroyed. The buildings contained 500 bushels of wheat, 700 bushels of oats, 12 tons hay, 2 horses, 2 fat cattle, 2 calves, 6 pigs and all his agricultural implements, buggy, etc. Mrs. Forsyth and her niece were in the barn at the time and had a very narrow escape from death by shock. Loss about $3000; partly covered by insurance.

Osgoode Hall News.

Toronto, May 5.

Before the Divisional Court yesterday Wm. Lount, Q.C., moved for a reserve case for Michael Brennan, the condemned slayer of John Strathy of Barrie. The trial judge, Chief Justice Armour, instructed the jury that Brennan was either guilty of murder or innocent. Mr. Lount yesterday took as ground for his motion the argument that the judge should have left the question of manslaughter to the jury. Deputy Attorney-General Cartwright appeared for the Crown and leave to move for a new trial was granted, the motion to be argued next Thursday. An interesting side issue to the case is that if a second hearing is allowed and a verdict of manslaughter secured, the widow of Mr. Strathy will get $15,000 on an accident insurance policy.

Mr. Justice Street yesterday committed Sol. White of Windsor to jail for failing to furnish an account of his late father's estate, of which he is sole executor, to the heirs thereof. Mr. White is given ten days to furnish the required account before the order goes into effect.

A Great Book Free!

When Dr. R. V. Pierce, of Buffalo, N.Y. published the first edition of his great work, The People's Common Sense Medical Adviser, he announced that after 680,000 copies had been sold at the regular price, $1.50 per copy, the profit on which would repay him for the great amount of labour and money expended in producing it, he would distribute the next half million free. As this number of copies has already been sold, he is now giving away, absolutely free, 500,000 copies of this most complete, interesting and valuable common sense medical work ever published—the recipient only being required to mail to him at above address 21 one-cent stamps to cover cost of mailing ONLY, and the book will be sent post paid. It is a veritable medical library, complete in one volume. Contains 1008 pages, profusely illustrated. The Free Edition is precisely the same as that sold at $1.50, except only that the books are in strong manilla paper covers instead of cloth. Send NOW before all are given away.

Nervous

People find just the help they so much need, in Hood's Sarsaparilla. It furnishes the desired strength by purifying, vitalizing and enriching the blood, and thus builds up the nerves, tones the stomach and regulates the whole system. Read this:

"I want to praise Hood's Sarsaparilla. My health run down, and I had the grip. After that, my heart and nervous system were badly affected, so that I could not do my own work. Our physician gave me some help, but did not cure. I decided to try Hood's Sarsaparilla. Soon I could do all my own housework. I have taken

Cured

Hood's Pills with Hood's Sarsaparilla, and they have done me much good. I will not be without them. I have taken 13 bottles of Hood's Sarsaparilla, and through the blessing of God, it has cured me. I worked as hard as ever the past summer, and I am thankful to say I am well. Hood's Pills when taken with Hood's Sarsaparilla help very much." Mrs. M. M. Messenger, Freehold, Penn.

Accident on the G. T. R.

While the 4.30 p.m. train was coming from Lakefield yesterday, the engineer noticed a cow on the crossing near Nassau Mills. He applied the air brakes but before he could stop his train the locomotive had struck the fatal blow and the cow was torn into fragments. The animal belonged to Mrs. Beauvais, a widow living near Nassau Mills.

Struck by Lightning.

The barn of Mr. Oliver Buck of Otonabee was struck by lightning during the thunder storm yesterday afternoon at about five o'clock. The building was totally destroyed, and Mr. Buck himself had a narrow escape being at the time engaged in unharnessing his horses in the barn. He got all his stock safely out. The loss is placed at about $800, a number of farm implements being destroyed.

Election Notes.

Excitement runs high in political circles, and the rush still continues at the Tailoring establishment of P. Simons & Co. They show this week a few novelties in Spring and Summer Suitings. Also just opened out a consignment of the celebrated Mandelberg & Co's Waterproofs, direct from the manufacturers, which they offer to suit the pockets of everyone. Drop in and inspect these goods before purchasing. Don't forget the number, 408 George street.

THE TRENT VALLEY CANAL A BULLDOZER

How it is "Worked" in the Interests of the "Party."

ELECTORS BRAZENLY BROW BEATEN.

Must Vote the Tory Ticket or Get No Work.

BRIBERY BY CONTRACT.

The People's Money Used to Buy Up the People.

What a blessed and beneficent old fraud the N. P. is, in some respects, if not in all. The N. P. promised perpetual employment at the highest wages. The labourer was to live on the fat of the land.

Yesterday a West Peterborough elector, who has been idle for months, vainly seeking work to keep the wolf from the door, resolved to try to get employment on the Trent Valley Canal, upon which a large sum of the taxes paid by the people is being spent.

He made application to a gentleman, whose headquarters are at a leading hotel, and whose business is to employ labourers for the Canal works.

On application the prompt reply was a question:

"Have you a vote?"

"Yes."

"How do you vote?"

"I always vote the Liberal ticket."

"Then I can't give you work—unless you will promise to vote for the Tory candidate."

"I won't do that—what! sell my vote, and for such a rotten government as that, for a few days work, with a chance of getting fired after the elections—I'd starve first"—as he and thousands of others have been slowly doing for years past, for the scarcity of labour, a day now and a day then, is only a form of slow starvation—starvation of body, starvation of spirit, starvation of hope.

Now isn't this circumstance, which is substantially true, a nice state of things to exist in a Christian community? Could Turkish tyranny get a better imitation of its spirit? The bulldozing spirit of Sir Charles Tupper has entered speedily into his followers. How perfectly shameless and unprincipled it is to use the people's money—to prey upon the necessities of honest electors who ask only a chance to feed their hungry children—in order to retain in power a government that is playing the same game in every department of public works. No honest elector, be he Grit or Tory, will for a moment uphold or excuse such an infamous prostitution of the trust exercised by a government which is at present existing only on sufferance and does not enjoy the popular confidence. And this is only the beginning of a continuation in a ten-fold degree of iniquity, of the rule the people have suffered now for the past eighteen years. Electors, will you stand it any longer? Do you call yourselves men to be bought with your own money for the sake of getting a chance for honest toil? In getting work you get no favour; you give full value for what little pay you get, and the account is square. But you are expected to give away your manhood and sell your birthright as a free Briton, as a bonus to a bulldosing government.

Strength for the Aged.

As age advances the recuperative power of the body decreases. Fatigue clings like a burr to the already depleted store of energy, still further wasting and dissipating it, and in consequence, the elderly find it very hard to keep their spirits up to the "doing" point. An anchor of hope and safety is found in the energizing action of Maltine with Coca Wine, which imparts, almost magically, strength and vigor to the failing powers, and through its nutritive and tonic properties renews those functional activities upon which depend health of body and mind. Maltine with Coca Wine rapidly restores appetite, improves digestion, imparts tone and vigor to the nervous system; in a word is a strength-giver of unequalled excellence. Maltine with Coca Wine is prescribed and recommended by physicians. All druggists sell it.

SIR OLIVER MOWAT IN DOMINION POLITICS.

The uniting of the political forces of Hon. Wilfrid Laurier, the leader of the Dominion Liberals, and Sir Oliver Mowat, as set forth in the calm, dispassionate and statesmanlike letter of Sir Oliver, published in yesterday's issue, is one of the most notable and hopeful political events of the decade. That Sir Oliver will be cordially welcomed to the arena of Dominion politics, goes without saying. His career, as Premier of the Province of Ontario, has distinguished him as a statesman of the first order; his straightforward, honest, progressive administration of the affairs of the province has been attended with results that indicate a prosperity that is unexampled in history. And that he will bring to bear the prestige of such a career upon the wider field he has entered, is an additional guarantee, if any were needed, that the affairs of the Dominion will be safe in the hands of the Liberal party.

As one of the fathers of Confederation, he has personal knowledge of the meaning and spirit of the Confederation Act, which will enable him to give valuable advice on points of administration in relation to the provinces, that will prevent or greatly lessen friction that may, from time to time, arise, as, from time to time, in the past, it has arisen. Sir Oliver is distinguished for his ardent loyalty to British connection and British institutions, and he will be a powerful champion of the application of the spirit of British justice to dealing with the domestic relations of the several members of the Confederation, and to our dealings with outside political communities. He is, like Mr. Laurier, a true and patriotic Canadian, and will naturally strive for the advancement of the interests of Canada.

He is also an ardent and practical believer in Provincial Rights. His respect for provincial autonomy has led him from time to time into conflicts with the Federal authority, whenever provincial rights have been seriously assailed. He has fought a half score of battles for provincial rights, and that he has invariably come out first, is a tribute, not only to the earnestness with which he conducted these struggles, but also a tribute to his constitutional knowledge, which led him to read aright the meaning and intention of the Federation Act. His contentions in the matter of provincial rights have been invariably upheld by the highest authority in the Empire and this leads to the conclusion, that whatever ground Sir Oliver takes on the constitutional question now agitating the country, will be safe ground and that, whatever solution he proposes, will be the proper and safe one. In Sir Oliver Mowat's hands the rights of the provinces will be secure and the dangers, likely to arise from reading our constitution from the standpoint of passion or prejudice or ulterior motives, will be avoided. Thus, under his advice, the stability of Confederation will be assured and the integrity of the Empire, so far as this continent is concerned, will be preserved.

Sir Oliver Mowat's administration during the past quarter of a century has been unassailably clean, efficient and public-spirited. So perfect, humanly speaking, has his rule been, and so widely has it met popular approval and popular endorsement that his opponents have repeatedly and practically recognized the futility of attacking him on the grounds of his administrative record. Therefore they have been led to assail him on the grounds of passion and prejudice. During the last twelve years of his administration—in 1886, 1890 and 1894,—he was attacked on a side issue and sought to be convicted of extending too great favours to the religious minority. Sir Oliver, though by faith and conviction not supposed to be naturally friendly to the principles of such minority, was better than friendly; he was just. He stood by the constitution which gave certain rights to the minority, and felt it his duty to give, in the public interests of Canadian citizenship, effect to those rights. He was sustained in this position as emphatically as his administrative record had been endorsed. Then Sir Oliver's advice may be counted upon to give the minority the rights they are entitled to under the constitution, while at the same time the rights of the majority are not encroached upon.

In this age of venal statesmanship and reckless administration it is a pleasure to dwell with considerable insistence up the excellence of Sir Oliver Mowat's administrative record. It has been of such a comprehensive, statesmanlike character, and has yielded such excellent results, that it has commanded both the enthusiasm of his political followers and the practical endorsation and support of those politically opposed to him. It can not for a moment be thought that in a province, where, if anything, as judged by Federal elections, the Conservatives are in the majority, Sir Oliver Mowat has been maintained in power by the Liberals alone. On the contrary, he has received, on the grounds of his administrative record, a steady support from thousands of independent Conservatives, who, placing country before party, have aided in retaining in power a Government which aimed at, and succeeded in, legislating in the best interests of the people. And it is safe to say that the confidence thus shown to exist in Sir Oliver Mowat in his provincial capacity, will not be withdrawn from him in the new Dominion relations he has assumed. The same independent and patriotic Conservatives who have shown that they place country before party, will continue to feel, in spite of party prejudices, that a policy, which Sir Oliver Mowat's hands and head and heart too, have a share in framing, will be for the best interests of the country and will be honestly and capably administered. We know that thousands of Conservatives are disgusted with the manner in which their political leaders have mismanaged the affairs of this country; and in thousands of instances, where the balance wavers between party fealty and patriotism, the weight of Sir Oliver Mowat's presence as a factor in Dominion politics, will turn the scale in favour of patriotism.

Sir Oliver Mowat's experience and his habits of action are a guarantee, if any were needed, that nothing revolutionary will mark the reforms that the Liberal party proposes in the interests of the country. He is conservative in character and and hastens gently in the direction of reforms most clearly indicated to ordinary observers. His pronouncement in relation to the tariff is a true index to his character. In his letter to Mr. Laurier he says:

"We are, I believe, at one with respect to the tariff. I think, with you, that the introduction of the protective system was a mistake on the part of our people. So, you, like myself, are a Reformer, and not a revolutionist, and you recognize the necessity of legislation on the tariff being gradual and cautious. Adopting that policy, I am glad that you see your way meantime to changes which will be a relief to our farmers and at the same time will not injuriously affect but rather benefit manufacturers and their workmen. A Government owes a duty to all classes of the people."

With Sir Oliver's advice available, there is a guarantee, if one were needed, that caution, common sense and a due regard to all interests, will be observed in the work of tariff reform, which the people, irrespective of party, and which even the Dominion Government, feel is necessary.

It is, therefore, a source of the highest satisfaction that the moving spirit in the progressive legislation and capable administration that have placed the grand province of Ontario at the head of self-governing countries in all respects—moral, educational, social, financial and material—is to hereafter animate the councils that will on the 23rd of June be intrusted with advancing the interests of the Dominion and giving Canada the same conditions of Government that have made Ontario so conspicuously prosperous and great.

MR. HALL'S CANDIDATURE.

Mr. Hall, the Liberal candidate, is receiving the most encouraging assurances of support from all quarters of the riding. In his personal canvass throughout the town large numbers of workingmen electors, who did not support him in his last campaign, are now promising him their hearty support and the Liberals are united in their energetic efforts to place him at the head of the polls on the 23rd of June. In Mr. Hall this constituency would have a representative who would do the greatest credit to Peterborough, and it is to be hoped that all those who are desirous of improving the condition of affairs at Ottawa and throughout the Dominion generally, will render their assistance towards the accomplishment of this much desired result. Mr. Hall's committee rooms are open each evening until the close of the campaign.

At the regular meeting of the town council last evening there were present the Mayor, and Councillors Best, W. White, Hughes, Weir, Moore, Sawers, Langford, Graham, Jno. White, Denne, Phelan and Mills.

The attendance of spectators was very small indeed at the opening, as business was taken up sharp at eight o'clock—a new move which is a great improvement as the plan of not opening the council until nearly nine o'clock greatly prolongs the evening.

COMMUNICATIONS

were received and referred as appended:

From Miss Belle Griffith, asking to have work carried out on Aylmer and Antrim streets as ordered by the council—Referred to the Street and Bridge Committee.

From the Sons of England band asking for a grant—Received.

From E. Cleeves, asking for remission of taxes—Received.

From Samuel Hall, complaining of being overtaxed for the Park street drain—Referred to the Court of Revision.

From Hartley & Byrnes, asking permission to operate a riding gallery in Central Park—Received.

From W. Jones re. remission of dog tax—Granted.

From Messrs. Jas. Kendry, T. E. Bradburn and sixty-three others, asking that Mr. P. H. Green be granted a refund re. market tolls—Received.

From H. Smith re. street watering on Rubidge street—Granted.

From Wm. Blackwell and others, asking for two hydrants and one electric light to be placed on Benson avenue—Referred to the Fire, Water and Light Committee.

T. E. Bradburn and others re. watering Crescent street—Granted.

From the Town Treasurer, enclosing statement of receipts and expenditures for the month, showing the balance in the bank to be $11,075.44.—Received.

From the Bethany Mission, asking permission to pitch a tent on the Central Park this summer.—Received.

From Mark Lockington, asking to be granted a license for a shooting gallery for the sum of $1.00.—Granted.

From E. B. Edwards, enclosing by-laws to prevent the riding of bicycles on the sidewalks and to provide for grants to the West Peterborough Agricultural Society and the Salvation Army Band. Mr. Edwards, with regard to the by-law relating to the prohibition of the riding of bicycles on the sidewalks, stated that a by-law of this sort would probably be held bad on account of its discriminating against persons using bicycles on the sidewalks instead of dealing alike with all classes of persons using any kind of vehicle upon the sidewalks.—Received.

From the Rathbun Co., enclosing results of the tests of their Star Cement, and asking as home manufacturers to be allowed to tender for the supply of cement required for the sewer and bridge work in Peterborough.—Referred to the Sewerage Committee.

From the residents of College street, asking to have that thoroughfare properly graded.—Referred to the Street and Bridge Committee.

From the Sicily Asphaltum Paving Co., re paving the streets.—Referred to the Street and Bridge Committee.

From Miss M. Sheridan, asking a remission of taxes on her house.—Referred to the Court of Revision.

From Geo. H. Noble, asking permission to build a private boathouse below the Bridge Works.—Referred to the Street and Bridge Committee, with power to act.

From John Fitzpatrick, asking for a remission of taxes.—Granted.

From the Children's Aid Society, asking for a grant to aid them in carrying on their work.—Referred to the Finance Committee.

From 45 ratepayers, asking that George street, from Argyle to Victoria streets, and Water street from Argyle to the Blythe Mills be watered.—Referred to the Street and Bridge Committee.

From the residents on Boulcord street, calling the attention of the council to the condition of that thoroughfare.—Referred to the Street and Bridge Committee.

From Hall & Hayes, on behalf of the executors of the Nicholls Estate, stating that an advance of $10,000 will be made the town without interest until after July 1st next if the council agrees to hand over the next $25,000 issue of debentures at par value bearing interest at 4 per cent.—Received.

From John H. Balderson, secretary to the Minister of Railways and Canals, stating that the matter of granting the town 500 horse power from the lower dam of the proposed Trent Valley Canal, would be looked into, and when in possession of the facts the Minister would be glad to carry out his statements made to the recent deputation.—Received.

From residents of Homewood avenue, asking that the street be water tabled, and the sidewalk be carried on out to the boundary.—Referred to the Street and Bridge Committee.

From the Board of Health re depositing of rubbish in the gully on Water street, between Dublin and Antrim streets and also east of the Huffman House.—Referred to the Street and Bridge Committee.

From F. J. Goselin, asking for a refund of butcher's license, having gone out of the business.—Referred to the License Committee.

From the residents of Reid street, asking for the construction of a sidewalk on the east side from Smith street to Stewart and to have an electric light placed at the intersection of Reid and Stewart streets.—Referred to the Street and Bridge Committee.

From the County Treasurer, showing the expenditure of the Pigeon Creek bridge in 1895 to have been $210.23 and asking the town to pay its share ($73.39) of the outlay.—Referred to the Finance Committee.

From the County Treasurer, asking for a cheque for $10 81, being the town's share of outlay on Locks' Bridge.—Referred to the Finance Committee.

From Geo. A. Stimson & Co., Toronto, asking for particulars re the next issue of town debentures.—Received.

From H. L. Evans, asking for a refund of dog tax.—Granted.

From Mrs. W. J. Hamilton, asking for the construction of a drain at the north end of Aylmer street.—Referred to the Street and Bridge Committee.

From the Grand Jury of the recent sitting of the High Court, re a County Poor House.—Referred to the Joint Committee.

From North Monaghan Council, giving notice of an assessment of $800 on the powder magazine.—Referred to the Court of Revision.

The clerk stated that the writ in the suit for damages brought by T. L. Hay had been served him and turned over to the town solicitor.

THE FINANCE COMMITTEE,

through its chairman, Mr. Moore, reported as follows:

1. Your committee had a cheque issued to Messrs. Dumble and Johnson, solicitors for the plaintiff, in Mason vs. Peterborough, for the amount of the verdict, with the plaintiff's costs and the interest up to the date of issuing the cheque, and had the cheque returned from the courts on account of the deposits in the appeals deposited to the credit of the town.

2. Your committee recommend that a grant of $50.00 be made to the Salvation Army band, to be paid in equal monthly instalments on the first days of June, July, August, September, October and November, on condition that the band plays in Parks, to be named by the chairman of this committee, three nights in each month during the summer season.

3. That a grant of $100.00 be made to the West Peterborough Agricultural Society.

4. That no action be taken in the application of Mr. R. A. Green for a rebate in connection with the purchase of the market tolls last year.

5. Your committee has had Mr. Wm. Aldridge examine the list of arrears of taxes, in order to verify the descriptions and he has made a report thereon to this committee. In 1895 the town borrowed from the Nicholls Estate the sum of $15,000 for sewer contracts and other purposes, bearing interest at 5 per cent. per annum, and which amount is still unpaid. It is now stated by representatives of the Estate that the understanding was that the town would take in all $25,000 intended for the maintenance of public institutions in the town, and they have now paid to the credit of the town in the Ontario bank the balance of $10,000, and have agreed not to charge any interest on

PUBLIC LIBRARY ANNUAL MEETING.

AN ENCOURAGING REPORT PRESENTED.

Officers Elected—The New Catalogue Matter Referred to the Library Committee.

The twenty-eighth annual meeting of the Peterborough Public Library was held in the reading room last night.

There were present Dr. Burnham, chairman; John Corkery, secretary, and Messrs. Jas. English, R. Robertson, W. Manson, H. S. Macdonald, Arch. McKim, J. S. Knapman, Rev. H. Symonds, L. M. Hayes and Geo. Munro.

The President read the report of the Directors substantially as follows:—

Your Directors beg leave to report:—

The year ending April 30th, 1896, has been one in which general business has been dull, and many complaints made about hard times, but your Directors have the satisfaction to report that the Public Library has, at least, held its own in the number of members, and in every other point has made a decided advance. There was a large increase in the membership the previous year owing to the large number in the classes in drawing and engineering, but though the number attending the classes this year is much less, our membership has not suffered on that account.

The Library now contains 8,058 volumes, of which 868 have been added since our last report. For numbers of books it stands sixth on the list of public libraries in Ontario.

The 556 volumes added were of the value of $717.96. The number of volumes issued during the year was 15,748. The following books have been presented to the Library and are included in the above list. The Statistical Year Book of Canada, 1894, by Jas. Stevenson, Esq., M.P.; Wallis' Illustrated Atlas, by John Sabine, Esq., and the complete Theological Works of Swedenborg (twenty-four volumes), by a society.

For the use of the members there are two reading rooms—one for gentlemen and one for ladies. They are both comfortably furnished, heated in cold weather and well lighted with Auer light. The large number of 107 newspapers, periodicals and magazines are placed on tables or files in these rooms. This number is only exceeded by Toronto and Hamilton libraries.

We hope to be able during the present year to make further improvements. More room is required in the Library for the steady increase in the supply of books, and a new catalogue is also needed.

Connected with the Library, classes in Machine Drawing and Engineering have been held. The fees are very low to members, the object being to give youths a chance to fit themselves better for any trade in which they may be employed. These classes were not as well attended last winter as they deserved to be; but all your board can do is to supply the means and then leave to the young men of the town to make use of them.

The object of the Public Library is not to make or save money, but to do all the good possible for the members and we trust that the citizens of the town and adjacent country will show their appreciation of the efforts of your directors by giving the Library a liberal patronage.

The financial statement is appended.

All of which is respectfully submitted.

JOHN CORKERY, Sec.-Treas. GEO. BURNHAM, M. D., Chairman.

The financial statement showed that the receipts which included a credit balance at the close of last year of $93 was $1,488.44, and the expenditure, $1,321.96, leaving the handsome cash balance of $166.48.

The reports were adopted.

DIRECTORS.

The following directors were elected:—Messrs. T. A. Hay, R. Richardson, John Corkery, J. S. Knapman, R. Robertson, H. S. Macdonald, Dr. Burnham, W. H. Hill and Jas. English.

The matter of a new catalogue was referred to the Library Committee.

The meeting adjourned.

Let the Prices Speak!

They tell the story of advanced values. They explain why business is always booming at the Peterborough Bookstore. Some people's words are half battles. Every syllable means so much. What we have to say about this store and the prices of the goods, we mean to carry out.

WE MEAN BUSINESS

What is worth emphasizing is that in the lines we quote prices on to-day, we show a large variety of patterns. It is not our policy to select two or three catch lines. You get the choice of a very large stock. A New Stock selected with the utmost care and discretion, that always brings business. **It's a Grand Stock for finding just what you want. Radiant with Good Values and sparkling with Low Prices.**

WINDOW SHADES.

Our stock of 16,00 Opaque Shades, made from a composition of rubber and whitelead painted on a pure linen, ensures you the most durable shade cloth made. Guaranteed washable. But the prices are what surprise the buyers.

Strong Felt Window Shades, mounted on good spring rollers, 36 in. wide by 72 in. long, with fancy varnished gold dado.....25

Pretty Opaque Window Shades, mounted on good spring rollers, 36 in. wide, by 60 in. long, with fancy gilt dado.....45

Stylish Hand-Painted Shades, on pure linen, good spring rollers, 36 in. wide, by 60 in. long, with fringe to match.....60

Elaborate Window Shades, mounted on good spring rollers, 36 in. wide, by 72 in. long, with fringe, lace or dado, worth $1.00, and.....75

We buy in big enough quantities to make low prices sure.

CORNICE POLES.

30 different kinds to choose from with trimmings to match. The nobbiest designs in Antique Oak and Gold, Enameled White and Gold, producing rich effects for all kinds of window drapings. A little money does the business:—

Complete set with pair of Brass Ends, 10 Rings and Brackets and Fancy Enameled Oil Cloth Pole, suitable for bedrooms.....20

Complete set with pair of nobby Brass Ends, Rings and Brackets and Cherry Ebony and Antique Oak Pole, suitable for bedrooms.....25

Complete set, with Brass Cornice Trimmings, Rings and Brackets and beautiful printed Oak Pole, suitable for parlour or bedrooms.....33

Complete set, with White and Gilt Cornice Trimmings, Rings and Brackets, and White Enameled Pole, for parlours or sitting rooms.....55

These are the Cheapest Cornice Poles in Peterborough. No housekeeper, into the heart of housecleaning, should fail to inspect these poles.

YOU OUGHT TO KNOW ABOUT OUR GREAT

WALL PAPER SALE.

Now in full blast. To let a opportunity like this pass by is a big mistake. The prices all lean your way and the stock tells your present needs. Wall Papers do brighten up a home so, and comparatively few people know how cheap we are selling here. Lowest prices start at 4c. per roll.

BABY CARRIAGES.

Up-to-date Baby Carriages, new designs in elegant upholsterings; mother is not so unwise as to keep baby indoors on sunshiny spring days unless it be that she is wanting a baby carriage.

Prices are planned so that the mother with the most modest purse can find something here that will give baby an outing daily. Cheapness and quality are our twins and everybody's pets.

"After Us."

It was not intended that our Retiring from Business Sale should become so popular or prove so disturbing as to paralyze business in other stores. We only wished to be allowed to close out our business quietly, by holding this the first and only Clearance Sale we ever had. Almost every other Dry Goods Merchant in town has had his Special Sale—some as frequently as every six months—without any attempt on our part to rival them. Undoubtedly our Sale has turned out to be

A MOST UNLOOKED-FOR SUCCESS.

and, of course, it must go on now livelier than ever. We believe one week's selling will prove a big advertisement for the following week. So satisfied have buyers been with the high-class character of our goods and phenomenally low prices that many of them will be back again this week, and their neighbours and friends along with them in increasing numbers.

This Week the Most Startling Bargains Will be in Millinery, Mantles, and Capes. Everything in this Department at bare Cost.

We don't expect to get all the trade, but we do want to get out of business, and, therefore must offer the very best inducements to buyers.

We thank our customers for their friendship and very liberal patronage so far, and solicit a continuance of the same.

CARD.—We would esteem it a favour if our friends in town would do their principal shopping before Saturday, so as to leave that day for our friends from the country. It would help us to handle the crowds better.

"If Eric is in robust health, and has slept well, and is at the top of his condition at his departure from Greenland, his ships will reach Newfoundland. But, take out Eric and put in a stronger man—Biorn or Thorfin and the ships with just as much ease will reach Labrador and New England."

Emerson was right. The stronger a man is the fuller his chest is, the sounder his heart and brain and lungs are, the further he will sail on the ocean, the higher he will sail in his balloon, and the deeper he will dive into the intricacies of his business or profession. A man's glory is his strength. The world has small use for weaklings, and, it must be said, sickly people have little use for the world. But, sickness is generally an unnecessary evil. It is almost a crime against nature to be ill. If you are ill and feel repentant, anxious to undo the mischief, take Dr. Pierce's Golden Medical Discovery. Don't be despondent because your grandfather died of consumption or bronchitis, or some other equally frightful throat or lung trouble. There is no need of hereditary consumption. Purify your blood with "Golden Medical Discovery," then take more of it to thoroughly strengthen and build up your whole body through the purity and strength of your blood.

There is nothing miraculous about the "Discovery." It is a compound of curatives skillfully blended. It will cure 98 per cent. of all cases of consumption if it is honestly used.

Would you know yourself? Send 31 one-cent stamps to cover cost of customs and mailing *only*, and get Dr. Pierce's Common Sense Medical Adviser. In the reading of this book of 1008 pages is a medical education. It is a complete family doctor book, written in plain language that everybody can understand, and profusely illustrated. MR. CHARLES GAMON DEAD.

A Well-Known Citizen of Collingwood Passed Away Yesterday.

Collingwood, May 3.—The flags on the principal buildings and on the steamers in the harbor are flying at half mast to day, Mr. Charles Gamon, one of the most prominent citizens, having passed away at 3 o'clock. He was in his 74th year. Although he has attended to his law business, he has not enjoyed good health for a year, but it was not until six weeks ago he was compelled to remain indoors. His recovery was hopefully looked for until the beginning of this week, since which time he gradually sank. Mr. Gamon came to Collingwood in 1857 and has permanently resided here since. Shortly after arriving he commenced practising law, and has enjoyed a lucrative practice for many years. When Mr. Gamon came to town Collingwood was a mere hamlet. He has consequently been closely identified with the progress and growth of the town. He has always taken a prominent part in everything which tended to advance the welfare of the town. For some years he was a member of the town council and in later years has been a trustee of the Collegiate Institute. He was a staunch Conservative, being at the time of his death honorary president of the Young Liberal-Conservative Association, of which he was the founder some sixteen years ago. He has also held the position of president of the senior Conservative Association. He was a member of the Anglican Church. A wife and family of two daughters and three sons mourn his loss. The funeral will take place Tuesday afternoon.

ANOTHER GRAND TRUNK DEAL.

The Dominion Steamship Line to Run to Portland All Year Round.

Portland, Me., May 2.—There is a very good prospect that in the near future the port of Portland may be visited during the entire year by a line of European steamers, that regular trips may be established between this port and England. Yesterday the city was visited by Mr. Richards, chief owner in the Dominion Steamship Company; Joseph Hodson, chief engineer of the Grand Trunk Railroad, and John Torrance, sr., the agent for the Dominion Line in America. They visited the Grand Trunk wharves and harbor property, and looked into the prospects for extensive improvements.

The Grand Trunk and the Dominion Steamship Company have joined in this and will erect in the city one of the largest and most expensive grain elevators in the world, and thousands of dollars will be spent in making alterations and improvements. The object of all this will be to make Portland the all year-round terminal for a European line of passenger and freight steamers, as well as the winter port for Canada.

Rhodesia Going North.

London, May 3.—Earl Gray, administrator of the British South Africa Company, has telegraphed from Bulawayo to Colonial Secretary Chamberlain that the rebellious Matabeles, who were threatening that town, have retired. He adds that the lines of communication from Bulawayo to Fort Salisbury, Mafeking and the south, have been secured. The consensus of opinion is that the Matabeles are preparing for a permanent movement to the north.

A Shameful Practice

Many tooth preparations contain substances that speedily destroy the enamel and beauty of the teeth. For this reason the greatest care should be exercised in the selection of a dentrifrice. Ivorine for the teeth is offered with the assurance that it is absolutely free from objectionable ingredients. An admirable cleanser is Ivorine, imparting dazzling whiteness to the teeth, firmness to the gums and renders the the breath sweet and fragrant.

He Forgot Something.

Young Mr. Fitts came in from his daily toil and passed his wife merely a friendly nod, "I think I forgot something," she said, with a pout.

"I believe I did," said he, and then kissed her.

"Really," she said; "I wasn't thinking of that at all. I was thinking of the baking powder."

If there be any one thing more dear to the heart of woman than another it is her "evens."—Indianapolis Journal.

HEADACHE.

A SIMPLE CURE.

As a sure cure for headache, whether caused by liver, stomach, kidney or nerve trouble, Burdock Blood Bitters is the most effective medicine known. It removes the causes of headache by restoring all the organs of the system to proper action and health. Doubts disappear in view of proofs like this:—

In the spring of 1891 I got a bottle of B. B. B. for my mother who had been troubled for twenty-five years with sick headache. I got it from Mr. W. Paxton Baird, of Woodstock, N. B., who gave me two other medicines to take home and let my mother take her choice. Fortunately she choose the Burdock Blood Bitters, and I returned the other bottles. She used it for three months, and has had no headache since. We are sure it was B. B. B. cured her, as she took no other medicine.

MRS. DYER, THE WOMAN FIEND.

Evidence Against the London Baby Farmer Causes a Sensation in Court—Her Hypocritical Confession.

New York, May 3.—The Morning Journal's London special says: Mrs. Annie Dyer, the baby farmer, made a full confession at Reading in writing to the superintendent of police. She says:

"I must relieve my mind. I do know and feel my days are numbered on this earth, but I feel it is an awful thing to draw innocent people into trouble.

"I know I shall have to answer before my Maker in heaven for the awful crimes I have committed. Before God Almighty, who will be my judge in heaven, as He is on earth, neither my daughter nor her husband, I most solmenly declare, had anything at all to do with it. They never knew I contemplated doing anything until it was too late."

This she confirms in another hypocritical letter to her son-in-law, Palmer.

The evidence to-day showed awful fiendishness on the part of Mrs. Dyer in killing off babies and produced a great sensation in court. The prisoner was committed to trial. Palmer was released. Mrs. Palmer is still in custody, charged with being an accessory before the fact to one murder.

Mrs. Dyer has not yet stated how many children she killed.

As the strength of a building depends upon the solidity of its foundation, so health depends upon the condition of the blood. To expel impurities and cause the vital fluid to become vigorous and life-giving, Ayer's Sarsaparilla is the most powerful and effective medicine in use.

Winter cough, sore throat, asthma, bronchitis, croup, etc., are more quickly and easily cured by Wood's Norway Pine Syrup than by any other means.

B.B.B. FOR THE BLOOD

In Spring Time get Pure Blood by using B.B.B.

No other remedy possesses such perfect cleansing, healing and purifying properties as Burdock Blood Bitters. It not only cleanses internally, but it heals, when applied externally, all sores, ulcers, abscesses, scrofulous sores, blotches, eruptions, etc., leaving the skin clean and pure as a babe's. Taken internally it removes all morbid effete or waste matter from the system, and thoroughly regulates all the organs of the body, restoring the stomach, liver, bowels and blood to healthy action. In this way the sick become well, the weak strong, and those who have that tired, worn out feeling receive new vigor, and buoyant health and spirits, so that they feel like work. If your appetite is poor, your energy gone, your ambition lost, B.B.B. will restore you to the full enjoyment of happy vigorous life.

TURNING GRAY
AND THREATENED
WITH BALDNESS

The Danger is Averted by Using
AYER'S HAIR VIGOR

"Nearly forty years ago, after some weeks of sickness, my hair turned gray and began falling out so rapidly that I was threatened with immediate baldness. Hearing Ayer's Hair Vigor highly spoken of, I commenced using this prepara-

tion, and was so well satisfied with the result that I have never tried any other kind of dressing. It stopped the hair from falling out, stimulated a new growth of hair, and kept the scalp free from dandruff. Only an occasional application is now needed to keep my hair of good, natural color. I never hesitate to recommend any of Ayer's medicines to my friends."—Mrs. H. M. HAIGHT, Avoca, Neb.

DODD'S KIDNEY PILLS ALWAYS CURE

AFTER TEN YEARS SUFFERING

Two Box Cure

MILVERTON, 29TH JULY, 1895.

Gentlemen,—For the last ten years I had been troubled with kidney disease, being so bad at intervals that I could not lie in bed at night nor stoop to the ground.

I had tried all the remedies I could find without effect, but heard of Dodd's Kidney Pills and procured a box.

I am most happy to say it for my own sake as well as for others that I am perfectly cured after using four boxes.

JOHN H. M'CONNELL.

A Windsor Man Who is Known Everywhere.

He Speaks Very Highly of Scott's Sarsaparilla.

Used it Last Spring as a Family Tonic and Intends to Use it This Year Also —It is Wholesome, Invigorating, Strengthening He Declares.

One of the best-known men in Ontario is Mr. John H. McConnell, of Windsor. He is connected with most of the leading secret, fraternal and benevolent societies, has organized lodges in every city, town and hamlet in the province, and is probably personally acquainted with a greater number of people than any other single individual in her Majesty's Dominion of Canada.

Ask almost anyone you meet, "Who is J. H. McConnell, of Windsor?" Nine out of every ten will be able to answer the question. The opinion of such a prominent man, therefore, is valuable. Mr. McConnell usually prefers to talk about political or society events. But he can say a good word frequently for anybody or anything outside these two subjects he thinks deserving of it.

He Talks About Scott's.

When in Toronto last Monday (March 2nd, 1896) he very outspokenly expressed himself as follows to the manufacturers of Scott's Sarsaparilla:

"Scott's Sarsaparilla is a tonic I use in my family. It is one of the best spring blood purifiers I know of. I used it last spring and intend to use it this. It is very strengthening, drives away nervousness, builds up the system, and is a good all-around, wholesome medicine.

"It is pleasant to take, the children like it, and since giving it to them we have had no sickness of any kind in our house. All this I can truthfully say, and when I say a thing I mean what I say, and I don't care who knows it."

Anybody who wishes to secure Mr. McConnell's opinion can get it by writing him at Windsor.

Collector—So he has, but he's a grave digger, you know.

A Good Table Story.

Lord Tenterden one day, at his own table asked a county magistrate if he would take venison. "Thank you, my lord, boiled chicken," was the reply. His lordship had contracted an inveterate habit of keeping himself and everybody else to the precise matter in hand. "That, sir," said the judge, "is no answer to my question. I now ask you if you will take venison, and I will trouble you to say yes or no without further prevarication."

A NEW CLUB.

Name Suggested for a new Social Organization in London.

London (Special), April 27.—It has been facetiously suggested that a new social club in process of organization in this city should be entitled "The Dodd's Kidney Pill Club" as the present members are all enthusiastic advocates of that remedy and in common with many other citizens declare that in all cases of kidney trouble no other agent has been found so completely effective. Most Londoners have at their fingers' ends the particulars of the many marvellous cures through the use of this specific. In every drug store in this city the medicine is kept in large quantities and largely recommended.

ANOTHER WARLIKE REPORT.

That the British Intend to Force a Passage of the Orinoco River.

New York, April 30.—A special from Kingston, Jamaica, says the British intend to force a passage of the Orinoco River Trinidad advices report.

Venezuela is determined to resist if the attempt is made, and has reinforced the garrison of the fort at the river's mouth. If the British are repulsed at that point, it is said an attack will be made on La Guayra, the seaport of Caracas, Venezuela's capital.

Charlatans and Quacks

Have long plied their vocation on the suffering pedals of the people. The knife has pared to the quick; caustic applications have tormented the victim of corns until the conviction shaped itself—there's no cure. Putnam's Painless Corn Extractor proves on what slender basis public opinion often rests. If you suffer from corns get the Extractor and you will be satisfied.

Men who suffer from mental worry and overwork will find prompt relief in Miller's Compound Iron Pills. 50 doses, 25 cents. Sold in Peterborough by Wm. Madill.

A DEPUTATION.

A deputation from the 57th Battalion, composed of Lt.-Col. Bell, Adjutant Mason, Captain Miller, Captain Hayes, Captain Stevenson and ex-Captain Dennistoun, waited on the Council to ask for a grant to assist in entertaining the 15th Battalion, of Belleville, on the Queen's Birthday. Lt.-Col. Bell was the first speaker. He stated that a large number of visitors would be brought into town by the celebration, consequently a considerable sum of money would be expended in the town. The entertainment of the guests would be expensive and the Rangers wanted help in order to entertain the visitors as the 57th was entertained when it went out of town.

Mr. R. M. Dennistoun, Mr. E. Mason, Mr. J. W. Miller and Mr. L. M. Hayes also spoke on the subject.

The amount of the grant asked for was $300.

Councillors Moore and John White moved that $300 be granted the Rangers for the purposes required.

Councillor Sawers notified the Mayor that he would serve him with a notice not to pay over the money.

The motion was carried on the following division:—

Yeas—Councillors Best, White, Hughes, Denne, Phelan, Mills, Moore, Langford, Graham and White.—10.

Nays—Councillors Weir and Sawers.—2.

THE PROPERTY AND HEALTH COMMITTEE, through its chairman, Mr. Phelan reported that the contract for furnishing and caring for the nuisance ground for the year had been awarded to Mr. W. Forster of North Monaghan for $149.—Adopted.

THE STREET AND BRIDGE COMMITTEE, through its chairman, Mr. Langford, reported as follows:

1. We recommend that another cart be purchased for street watering and that the town be divided into four districts for street watering purposes, one to be served by the town team and contracts to be let for the other three. Also that this committee be authorized to let the contracts, and that the mayor and clerk be instructed to execute the contract on behalf of the town and that until the contracts are let this committee have authority to arrange to have the watering done.

2. We recommend that this committee advertise for the following supplies:—Square cedar 8x8 and 8x10, cedar scantling 3x5, 2 inch cedar, pine and hemlock lumber, not less than 6 inches wide, and cedar blocks and that this committee purchase what lumber, etc., is required.

3. That George McClennan be paid at the rate of 9 cents a yard for gravel furnished, the quantity to be certified to by the Street Inspector.

4. Your committee has had the town engineer give the levels for George street, from King street south across the Bay.

5. Your committee made the annual spring inspection of the streets and recommend that the following work be done:

Park street—A culvert at the boundary.

Sherbrooke street—A sidewalk four feet wide built on the north side from the bridge to Aylmer street. Also the bridge to be repaired, or rebuilt if it is found necessary to rebuild it.

King street—To be graded and covered with broken stone between George and Aylmer streets.

Dalhousie street—A sidewalk four feet wide on the north side, from the bridge to Aylmer street.

John street—A sidewalk three feet wide on the west side, about 200 feet long.

Simcoe street—Sidewalk on the north side from Aylmer street, 300 feet east.

Charlotte street—Drained and repaired west of Park street.

Hunter street—A sidewalk four feet wide on the north side from Park to Downie streets.

McDonel street—Bridge over the creek to be repaired, and the street west of Park street water tabled; crossings at Rubidge, Aylmer and Reid streets, and a sidewalk four feet wide on the north side between Stewart and Reid streets.

Park street—Sidewalk on both sides for 120 feet north of McDonel street.

Bonicord street—To be watertabled.

Gilchrist street—A sidewalk three feet wide on the east side from London street 100 feet.

Donegal street—An open ditch between London and Dublin streets on the west side. From Dublin to McDonel streets to be watertabled.

Reid street—The bridge at Hamilton's foundry to be repaired. A sidewalk three feet wide and 120 feet long, north from Dublin street. Graded from Dublin to Smith street. A sidewalk three feet wide and 100 feet long north from Smith street.

Smith street—Watertabled from railway crossing west to Communication road. Crossing at Communication road.

Aberdeen avenue—Crossing at Distin's.

Benson street—To be graded from Smith street to Dixon Park.

Water street—To be watertabled from Antrim street to Blythe Mills. To be graded and covered with broken stone from Dublin street to Simcoe.

Inverlea Street—To be watertabled.

Deuchtoun avenue—To be watertabled and gravelled.

Smith street to be watertabled from Water street to the bridge.

Harvey street—Sidewalk four foot wide on east side from McDonell to London streets and watertabled.

McDonel street—Sidewalk four feet wide on south side from Water to College streets.

Aylmer street—Graded from Hunter to Dublin streets. Sidewalk four feet wide on east side from Murray to London streets.

London street—Sidewalk on north side, from Aylmer street to about 100 feet west of Bethune street.

Bethune street—Sidewalk three feet wide on east side, from London street north to railway crossing.

London street—Water-tabled from Water to Bethune street.

Rubidge street—Water-tabled from Dublin to Edinburgh street.

Dublin street—Culvert at Reid street.

George street—Boulevard on the west side, between Murray and McDonel, streets to be removed. To be graded from King to Lake streets and covered with broken stone and the sidewalk raised to the proper level of the street.

That some portions of the sidewalk in the business portion of the town that are rough be repaired and the material used elsewhere.

Several members of the council recommended a number of additional repairs, which will be considered at a later date, as the committe has not as yet covered all the ground.

The report was adopted.

THE FIRE, WATER AND LIGHT Committee, through its chairman, Mr. Mills, recommended that it be authorized to advertise for tenders for electric lights for the municipality for street lighting and other purposes for a term of three or five years, commencing with the first of January next. The report was adopted.

Mr. Moore suggested the advisability of removing the old lamp posts which are now unused and in the way.

THE PRINTING COMMITTEE, through its chairman, Mr. J. White, recommended that a cheque for $30.00 be issued to the Howell Lithograph Co. for the bird's-eye view maps of the town, the company having agreed to accept that sum in settlement of the matter.—Adopted.

THE SEWERAGE COMMITTEE, through its chairman, Mr. Best, recommended that it be authorized to have the town engineer take the levels and prepare the plans and specifications for the sewer, of which notice has been given, and also to advertise for tenders for the construction of the sewers, the committee to report to the council after receiving the tenders.

The report was adopted.

THE INSPECTOR'S REPORT.

The Street Inspector handed in a report, showing the expenditure of moneys during the month to be as follows:—

Opening ditches and letting off water	$ 28 00
Shovelling snow and ice	32 00
Cutting ice and watching creek	12 00
Cleaning crossings	8 00

Laying new sidewalk on Waterso	9 50
Cleaning streets	226 00
Repairing sheets and sidewalks	34 00
	$451 37

BYLAWS.

Councellors Hughes and W. H. White introduced a bylaw prohibiting the riding of bicycles on the sidewalks. It passed its several readings and was signed and sealed.

The bylaw provides for the imposition of a fine, not to exceed $20,00, for the violation of the bylaw which prohibits the riding of bicycles on any street whatsoever of the town.

The bylaw for the granting of $100,00 to the Agricultural Society, $50,00 to the Sons of England Band and $50,00 to the Salvation Army Band, was introduced by Councillor Moore.

Councillor Hughes moved an amendment that these two bands be granted $25,00 each. The amendment was lost and the bylaw carried.

On motion of Councillor Langford and Denne another clause was added to the bylaw, providing for the grant to the 57th Battalion, in accordance with the resolution passed earlier in the evening.

A SENSIBLE MOTION.

Councillors Moore and Langford moved that hereafter the committee reports be not considered as minutes of the council, but be copied into a separate book for reference.—Carried.

THE WHEEL.

While the wheelmen will greatly miss the privilege of riding on the sidewalk, still owing to the manner in which a certain portion of the riders abused the tacit permission, it became necessary for the council to take immediate action before some one was seriously hurt by the hare-brained young scorchers, who went tearing around over the sidewalks of the town to the imminent danger of the life and limb of any pedestrian with whom they came in contact.

Although some action was necessary to curb this practice, yet it is questionable whether the council has taken the right step, as the town solicitor states that the bylaw in his opinion will not hold water, discriminating as it does against bicycles and not "wheeled vehicles" as a class.

Under the circumstances, a rider who would submit quietly to being fined would be foolish indeed and the town is altogether likely to be speedily involved in an expensive lawsuit. Councillor W. H. Moore pointed this fact out last evening and it was urged that the matter be quietly talked over in committee, but with the heedlessness which often characterizes it, the council rushed the bylaw through.

The Small Fish Swallow the Big.

It looks as if the little fish were going to swallow up the big ones.

While such unpretentious Dry Goods stores as ours are smoothly gliding over the waves of commercial depression, the "Great Easterns" are calling loudly for help and throwing out ballast in despair. Of a truth "All flesh is grass and all glory fades."

Too Much Style

That's the trouble. Going it blind must end seriously. We keep down expenses, living cheap, buying prudently, and the result is demonstrated every day in this store by SMALL PROFITS and QUICK RETURNS—not big profits and big blow.

We're not building factories with blood, nor conducting trade at the sword's point. Neither overloaded stocks nor syndicate interests handicap this business. Whatever the lowest prices are in any store in town, we can beat them here any day of the week. But—

NO SPASMODIC JUMPS
NO FORCED EFFORTS
NO ASSUMED SACRIFICES

RHODES NOT AFRAID.

RETURN TO ENGLAND IF WANTED

Death of Col. North, the Wealthy Nitrate King—Ate Some Oysters, After Which He Took Sick and Died Within Half an Hour.

London, May 5.—The Standard will to-morrow say that Mr. Chamberlain, the Colonial Secretary, has received a message from Cecil Rhodes, in which the latter states that he places himself unreservedly in Mr. Chamberlain's hands. Mr. Rhodes offers to resign his membership in the Privy Council, to retire from the directorship of the British South Africa Company, and to return to England if Mr. Chamberlain advises him to do so. It is understood that the matter was discussed by the Cabinet to-day and it is expected that Mr. Chamberlain will announce the decision arrived at to the House of Commons to-morrow.

THE NITRATE KING DEAD.

Col. John T. North, the Millionaire, Dies Suddenly in London—A Patron of the Turf.

London, May 5.—The Central News announces that Col. North, the "Nitrate King," died suddenly in his office in this city to-day.

Col. North died in the office of the Guano syndicate. He was seized with an illness after partaking of some oysters and died within half an hour.

The shells of the oysters which he ate were taken possession of by the police for the purpose of ascertaining if the oysters were fit to be eaten, though the general supposition is that Col. North died from heart trouble.

Col. J. T. North, the "Nitrate King," was a native of Leeds, and owed his sobriquet to the fact of his having accumulated immense wealth in nitrate mines in South America. In January, 1889, he presented Kirkshall Abbey and grounds to his native town and also made handsome contributions to the funds of the Leeds Infirmary and the Yorkshire College of Science. He received the honorary freedom of the borough on Jan. 25, 1889, Col. North was a personal friend of the Prince of Wales, and was a liberal patron of the turf.

Lightning Killed Him.

Charing Cross, Ont., May 5.—Last evening about 5.30 James Doyle, a farmer, 35 years old, of the ninth concession of Raleigh, two and a half miles from here, while driving his cows from a field to the barn, was struck by lightning and instantly killed. Mrs. Doyle went to the yard to milk shortly after and, seeing nothing of her husband, went into the field, where she was horrified to find him lying on his face with life extinct. The bolt had struck him on the breast. Deceased was highly respected. He leaves a widow and four young children.

Reported Death of the Pope.

London, May 4.—No news has been received here to support a story that reaches this city from the United States to the effect that the Pope is dead.

The Standard in its issue to-morrow will publish a despatch from Rome stating that His Holiness to-day gave audience to the Archbishop of Colombo and the Bishop of Allahabad.

TUPPER PLATFORM.

The Dictator's Manifesto to the People of Canada.

HOLDS TO REME DIALLEGISLATION

Appeal for a Reaffirmation of the National Policy—Preferential Trade Within the Empire and the Fast Atlantic Steamship Service Made Prominent Planks.

Ottawa, May 5.—Sir Charles Tupper has handed out his manifesto to the electors of Canada. After expressing his consciousness of the gravity of the issues now before the people, he goes into a comparison of the records of the two great parties, as viewed by himself. He makes the usual charges against the Liberal party, and trusts that the National Policy "may still command your hearty approbation."

Sir Charles then goes into a review of the history of Canada, and attributes the growth and development of the country to the National Policy.

Referring to preferential trade with Britain and the colonies, the Premier said :

At the Colonial Conference, which met in Ottawa in 1894, a series of resolutions was adopted in favor of closer trade relations within the Empire, involving the principle of preferential tariff arrangements. This opens a hopeful view to Canada. During the past few years, our export trade with Great Britain has undergone great expansion, and particularly in the products of the farm. Our total trade with that country has increased from $67,288,848 in 1879 to an average of $101,011,304 during the past five years, while the annual export of farm products alone has increased from $32,028,611 to $50,106,898 in the same period. With a tariff based on mutual concessions, it is reasonable to expect a still greater development of our trade in that market, and we should at the same time be rendering material assistance towards the unity and the strengthening of the Empire, without involving the lessening of protection to our industries. On patriotic and commercial grounds, therefore, this measure is worthy of your cordial support.

You have been kept well advised of the positive steps taken by the Government to secure a better steamship service on the Atlantic, between Canada and Great Britain. At the present time we are at a serious disadvantage in that respect, much of our business in freight and passenger traffic being done by way of American ports, involving heavy losses to Canadian interests and Canadian prestige. We are now engaged in concert with the British Government in establishing a service that shall be capable of competing in speed, comfort and general facilities with the best fleet of steamers now plying on that ocean, and if we are enabled to carry this plan into execution, it is certain that great benefits will accrue to Canada. We shall not only be in a position to command the trade of the Dominion without foreign help, but by reason of our geographical position and speed of the proposed service, it may be fairly assumed we shall also receive a share of the traffic of the Western States, with all the advantages attaching thereto. The boards of trade of Canada, without exception, have declared strongly in favor of an improved mail and passenger service between this country and Great Britain, and in giving effect to their demands, the Government feel they are entitled to the co-operation of the electorate at large. It is an undertaking which concerns all classes—the farmer, whose products need to be marketed abroad in the best possible condition, quite as much as the man of general affairs. In a word, Canada cannot afford any longer to occupy an inferior position in the matter of steamship service on the Atlantic.

Closely associated with the improvement of our steamship service on the Atlantic is the project of making Canada the chief highway between Great Britain and Australasia, and between Great Britain and the east. The means for accomplishing this great undertaking are at hand, and with the assistance of the Canadian people at this juncture, success is assured. At the present time our great trans-continental line of railway affords to Great Britain the best and quickest means of reaching the Pacific. From that point on our western coast two lines of steamers ply, one to China and Japan and the other to Australia. Each has clearly established the practicability of becoming the best and speediest line of communication between the metropolis of the world and the points indicated. The Imperial Government clearly grasps the importance of this fact, and has already given tangible evidence of its desire to make the plan effective by affording direct financial aid to the Atlantic link of the chain, as well as to the service between Vancouver and the Orient. Among the things which, however, remain to be done, is the laying of a cable in the Pacific, as an essential complement to the transportation facilities, and at this time Sir Mackenzie Bowell and Sir Donald Smith, the High Commissioner for Canada, aided by Mr. Sandford Fleming, have been commissioned by the Canadian Government to meet the representatives of the Imperial and Australasian Governments in London, England, for the purpose of arranging the terms upon which this very important undertaking may be carried out. It is my earnest desire that Canada should hold the proud position in which the accomplishment of this imperial scheme would place her, and towards this end I have given my best energies for many years.

It is unnecessary that I should attempt within the scope of a paragraph fully to review the position of the Government in relation to the Manitoba school question. Although shamefully misrepresented by men who have had a purpose to serve in doing so, or who have been misled by a misapprehension of the real merits of this question, the fact is recognized that the Government has taken a clear and definite stand on the constitutional aspect of the matter. We have simply done what we believed to be right in taking up the duty laid at our door by the judgment of the highest court in the realm, and in endeavoring to redress the grievances of the Roman Catholic minority in Manitoba by restoring rights and privileges guaranteed them by the constitution. Knowing that our case rests upon a sound constitutional basis and feeling we are doing right, it is our patriotic duty to adhere to the policy we have adopted in this regard, and we now appeal for vindication to the sober sense of justice of the Canadian people.

The present Government has not been unmindful of the interests of the agricultural class. For the past ten years there has been in operation a complete system of experimental farms, admirably equipped, and carried on with a view to demonstrating the most profitable methods of farming. It is believed they have been of great benefit to the farmers in all parts of the country, and that their usefulness is capable of still greater extension. The tariff, as brought into operation in 1878, has protected the home market for agricultural products and encouraged export trade, an important fact which can be easily proven. It has been the policy of the Government to provide railway and shipping facilities throughout the Dominion, so that the products of the farm may be marketed to the best advantage and with the best results to the producer. In addition to this, the Government has undertaken during the past year to establish cold storage centres, in which perishable products intended for shipment abroad may be kept in the best condition for the market and at the lowest cost to the producer.

Particular attention has been given to the development of the great dairy interests of the country. In short, the Government has left nothing undone which could assist the farmers of Canada in making the most out of their labor and skill, and this course it is proposed to follow in the future.

You are aware that the Government, realizing the relations we bear to the Empire, proposes to strengthen the national defences. For this purpose a substantial vote was asked from Parliament during its last session. The first element of a national sentiment involves a spirit of self-reliance and a readiness to make sacrifices for the common good. I propose, therefore, with the means at our disposal, to make the perfecting of our militia one of the first considerations of the Government, in order that when it is called upon to do its duty it may have all the advantage that proper training, armament and equipment can give. This step, I trust, may have your hearty approbation.

The Government fully appreciates the need of an increased population in the great farming provinces of the west, and proposes to take all practicable steps in our means to induce a large and desirable immigration.

We contemplate the resumption at an early day of the negotiations looking to the admission of Newfoundland into the Dominion, which we regard as a desirable rounding off of the great Canadian Confederation, and to attain which end we are prepared to make all reasonable concessions.

In conclusion, I ask you to rejoice with me in viewing the high credit which Canada enjoys in the great money markets of the world. Our securities stand at the highest premium as a direct result of prudent methods of administration and the confidence in our national stability. It is of the first importance that this faith in our standing and prospects should not be disturbed by exposing the country to the revolutionary policy of the Liberal party. Our credit is the measure of the financial burdens we bear, and the foreign market is the most sensitive to change. It seems to me, therefore, you will realize the part of discretion and keep the control of public affairs in the hands of the party which has done so much for the development of our great resources, and whose adherence to the sound principles followed by the late Sir John Macdonald is capable of bringing about still better results.

It has been charged as a reproach against me that I have had too much confidence in the possibilities and destiny of my country, and that I have been guilty of looking too often on the bright side of things. I do not deny the allegation. I have always cherished the deepest faith in the future of this great Confederation, and have given the best years of my life to the realization of those hopes, and now, at the allotted span of life, I return to the struggle, strong in the belief that you will help me to carry on the work of making Canada the home of a great, a prosperous and a happy people. I remain, gentlemen,

Yours very faithfully,
CHARLES TUPPER.

Ottawa General News.

Ottawa, May 5.—(Special)—The last Council meeting probably before the general elections was held this morning. The Ministers sat from 10 o'clock until 1, after which there was an immediate scattering. Sir Charles Tupper, Col. Prior and Mr. Macdonald left at 1.45 for Winnipeg. Mr. Foster and Mr Angers went out at 3 o'clock and an hour later Messrs. Desjardins and Taillon left for Montreal. The only Minister in town to-night is Mr. Costigan, but Dr. Montague is expected back to-morrow for a day or so. Mr. Costigan leaves for New Brunswick next Monday, when Mr. Foster will likely return for a few days.

At the Council meeting this morning the appointment of D. W. Davis, ex-M.P. for Alberta, to an important position in the Yukon district was definitely settled. Mr. Davis will be somewhat of a Boss Dan in the Yukon country, as his office includes that of Police Magistrate, Collector of Customs and Inland Revenue, Dominion Lands Agent.

WEDNESDAY, MAY 6, 1896.

HAVE YOU GOT IT?

The sponsors of the National Policy promised among other things to bring continuous prosperity to the country, associated with constant work and high wages. Have you got it? Has this prosperity bothered you much of late years? And the longer the N. P. lasts the less prosperity we seem to have. Yesterday a prominent builder—a good Tory, too,—said to the writer that he never saw anything like the present for dull times.

We do not say that times are dull—that we do not enjoy prosperity. But we should like to ask if the classes that were to have been so abundantly benefitted in the way of prosperity by the "National Policy," have got prosperity?

Do the carpenters, whose saws are rusting with disuse, have reason to rejoice in the prosperity they enjoy?

Do the bricklayers, who get no bricks to lay, feel rampant over the prosperity they have got?

Do stone-masons, whose mallet and chisel and trowel are out of practice, feel that they are likely to grow fat with the prosperity they have got?

Do the painters, whose brushes are hardened and whose paint pots are skinned over, feel happy over the prosperity they have got?

Does not the machinist or the moulder or the blacksmith sometimes think it would be a welcome change to have his face once more blackened with the honest toil of his trade—the honourable badge of true prosperity in his calling?

Will the merchant tell you that he is growing rich and doing anything like the thriving and paying business he was doing years ago?

Will the landlord tell you that he has to employ constables to prevent tenants invading his vacant houses, or that he is ashamed of the exorbitant rents that prosperous tenants force upon him?

We don't wish to make assertions but the N. P. promised everybody prosperity and we only call on everybody for an answer.

Is trade booming? Is industry thriving? Is employment constant and the wage high? Is the working man or the labourer well fed, well housed, well clad and are his family and friends in the same condition? How are you making the payments on the little home you are trying to buy? The N. P. promised that everybody should be prosperous. If it has made you all so, why then it is worth keeping. But if it hasn't, if it has been a mockery and a delusion and a snare, don't you think that after eighteen years of trial it's about time that it was discontinued?

Sir Charles Tupper and other statesmen in power get $25 a day out of the public chest. They tell you, dollar-a-day and 75-cents-a-day men, that you have got abundandant prosperity and they are going to give you more of the same kind. You don't need to study political economy and read long speeches. You want to do your own thinking.

Have you got it?—the prosperity the N. P. promised. If a man, unemployed workman, promised you a job and kept you eighteen years waiting for it don't you think it's about time you were looking after some other employment? The N. P. promised you prosperity. Have you got it?

SCHEDULING CANADIAN CATTLE.

Up to a recent date Canada was permitted to export live cattle into Great Britain, a privilege denied to the United States because of the existence of pleuro-pneumonia there. In July, 1893, Great Britain took away this privilege from Canada because of the bad faith and negligence of the Canadian Government. The result is tremendous loss to Canada, amounting to at least one penny a pound, as reported by the Deputy-Minister of Agriculture at Ottawa, live weight, on all cattle shipped to England or fit for the English market. This amounts to an average of $35 a head on each beast, or a loss of over $2,000,000 on the cattle actually shipped to England, and a corresponding loss on those sold in the Canadian market. Before Canada was scheduled our cattle brought pound for pound as much as the English cattle in the English market. The moment the scheduling took place our cattle dropped in price, because having to be slaughtered before passing out of the control of the Government. There are on the the Thames, near London, two cattle markets a couple of miles apart. Canadian cattle are landed at the Canadian market there, called the Deptford market, and sold there, and must be slaughtered before removal. The British cattle are brought for sale to the other market, and the prices, because of the scheduling, differ to the extent that a 1,500 pound beast will not bring within six pounds sterling, or $30, of the price of an English beast of the same weight and quality. This terrible blow to the Canadian cattle industry was brought about by the carelessness, neglect and bungling of the Dominion Government, and while we paid Sir Charles Tupper $15,000 a year to watch our interests in England he allowed the cattle embargo to be put on and to be kept on. And now Sir Charles Tupper, who with the other members of the Tupper troupe, draws $37,000 a year of the farmers money (for the farmers being the bulk of the population pay the bulk of the taxes) asks the farmers to place their interests in his keeping.

A CORRECTION.

In an article in yesterday's issue of the EXAMINER on the iron duty, the following paragraph was omitted by the compositor, which should have read after the following—"and our manufacturers are handicapped to the tune of $5 a ton on pig iron and 60 cents per ton on coal."—"These duties, however, were somewhat modified in 1894, and are now somewhat equalized in the interests of manufacturers.'

ONE HONEST MAN.

DEAR EDITOR:—Please inform your readers that if written to confidentially, I will mail in a sealed letter, the plan pursued by which I was permanently restored to health and manly vigor, after years of suffering from Nervous Weakness, night losses and weak shrunken parts.

I have no scheme to extort money from anyone whomsoever. I was robbed and swindled by the quacks until I nearly lost faith in mankind, but thank Heaven, I am now well, vigorous and strong, and anxious to make this certain means of cure known to all.

Having nothing to sell or send C.O.D., I want no money. Address JAS. A. HARRIS, Box 389 eodw Delray Mich.

THE Mail and Empire feels with deep regret that Sir Oliver's letter to Mr. Laurier "is about as weak a missive as the Ontario Premier has ever penned,"—it does not prophecy the absolute certainty of a Liberal victory. But Sir Oliver is not Sir Charles Tupper. He is a cautious, steady-going statesman, not given to flamboyant prophecies that are never fulfilled, nor windy promises that are never redeemed.

THE Conservative pledge in 1878 was that the tariff should not be increased but merely readjusted, yet the blue book shows that the customs taxation has increased from $3.13 per head in 1874 to $4.81 in 1891, the date of the census. The duty on some articles was made considerably over 100 per cent., and to-day the duty on coal oil is 93 per cent. (Sept., 1894, imports), and the duty on common glass was made as high as the duty on manufactures of and silver. The duties on iron manufactures, woollen manufactures, cottons and all the necessaries of life were increased from 17½ per cent. to 30, 40, 50 and 60 per cent.

MEETING OF THE ASHBURNHAM VILLAGE COUNCIL.

Complaints Against the Overseer—The Street Watering.

Reeve Burnham presided at the regular meeting of the village council on Monday night, and Councillors Calcutt, Craig, Rutherford and Johnston were also present.

THE FOLLOWING ACCOUNTS were presented and ordered to be paid when certified to:

THE COLLECTOR'S STATEMENT for 1895 was presented to the council as appended:

Taxes collected	$7,741 63
Returned to County Treasurer	57 33
Remitted	23 72
To be paid to Mr Peck in work	26 68
Total taxes collected	$7,579 56

Councillors Craig and Rutherford moved that John Wright be paid his salary as collector for 1896, $80.—Carried.

Councillors Calcutt and Rutherford moved that the Court of Revision on the Assessment Roll for the current year meet on Wednesday, May 27th at 8 p. m., and that the clerk give due notice thereof.—Carried.

A PETITION.

Mr. Kerr petitioned the council to allow him to keep ice in his cellar in the Market Building, and not to insist upon its removal as provided for in a resolution of the council.

Councillors Calcutt and Craig moved that after hearing the explanation of Mr. Kerr in regard to the ice stored in the Market Building, it be resolved that under the circumstances the ice be allowed to remain, and that in future no ice must be stored in the cellars of the building.—Carried.

Mr. R. J. Weir presented on account of $1.80 for work done in connection with work on the streets. He stated that he had arranged with the overseer to remove the dirt from the streets, as he wanted it for his own use, if the village would load it into his wagon for him. This had been agreed to, but when he was ready to begin the work the overseer failed to put in an appearance, and as he had hired a team he had to lose their services or engage men to load the dirt. He had pursued the latter course, and charged the overseer with neglecting to turn up because the team was not hired from him.

Mr. Craig repudiated the charge, and stated that the time for removing the earth had not been definitely settled.

As the difficulty apparently rose from a misunderstanding, it was decided to pay the account.

In the matter of the bill for eleven and a quarter days work rendered at the last meeting by Messrs. Maxwell, Whiteman and others for cleaning out a cesspool and for clearing away the ice, the reeve thought the work done was unauthorized and the account exorbitant. It was finally resolved, on motion of Councillors Johnston and Calcutt, to pay $8.75 in settlement of the account. No work in future, however, will be paid for unless undertaken by direction of the proper authorities.

Councillors Craig and Calcutt moved that the account of Archie Moore for constable's services re O'Brien be paid.—Carried.

Councillors Craig and Calcutt moved that Elizabeth street be watered from the corner of Elizabeth and Stewart streets, and that the clerk be notified to advertise for tenders for the same, commencing on May 25th and continuing to the first of October.—Carried.

The Council then adjourned.

A Great Book Free!

When Dr. R. V. Pierce, of Buffalo, N.Y. published the first edition of his great work, The People's Common Sense Medical Adviser, he announced that after 680,000 copies had been sold at the regular price, $1.50 per copy, the profit on which would repay him for the great amount of labour and money expended in producing it, he would distribute the next half million free. As this number of copies has already been sold, he is now giving away, absolutely free, 500,000 copies of this most complete, interesting and valuable common sense medical work ever published—the recipient only being required to mail to him at above address 21 one-cent stamps to cover cost of mailing ONLY, and the book will be sent post paid. It is a veritable medical library, complete in one volume. Contains 1008 pages, profusely illustrated. The Free Edition is precisely the same as that sold at $1.50, except only that the books are in strong manilla paper covers instead of cloth. Send NOW before all are given away.

How the Kidneys Talk.

They have a Language of their own.

Kidneys can't talk, but if you don't treat them rightly you will hear from them. They have a language of their own, and this is how they speak to you; You stoop or strain, ride too far, walk too much, work too hard and rest too little; then your backaches, and your headaches, and you ache all over.

Oh! you say, it's because I'm tired out. Now, this isn't true. It's because your kidneys are tired.

They can only do just so much and the lifting, stooping, straining or exciting has retarded their action.

The heart has pumped the blood into them faster than they could filter it. The filter is overtaxed and becomes clogged. They cry for assistance in the many symptoms that follow.

There is dull headache, backache, pains in various parts of the body, scalding of the urine, high colored urine, puffiness under the eyes, swelling of the legs and all the other conditions that go with kidney disorders.

Why do the kidneys thus tell you their troubles in language so plain as to be unmistakable?

So that you may be warned in time. Will you heed the warnings?

If so, you will use Doan's Kidney Pills. Nothing starts the kidneys working so quickly. Remember "Doan's." It is the original kidney pill, the most reliable kidney pill, and the pill you can place full confidence in to cure you. For sale by

A FARMER'S WIFE

TELLS A TALE OF SUFFERING AND HAPPY RELEASE.

Suffered From Rheumatism to Such an Extent That to Walk About Caused the Greatest Agony—Was Also Troubled With Sick Headache and Stomach Trouble—Her Experience Will Prove Helpful to Others.

Only those who have been afflicted with rheumatism can understand or appreciate fully the agony endured by its victims. Their days are days of pain, and their nights are nights of sleepless misery. And when one of those who have suffered thus are released from the thraldom of pain, how eager they are to let their fellow sufferers know of the means by which they secured renewed health and happiness. In such cases people who are of a retiring disposition, and who have an aversion to anything that savors of notoriety cast aside their personal feeling in the matter, and freely give their experience for the good it may do others. Such a one is Mrs. Bradford, wife of Mr. John Bradford, a much respected farmer who lives near Bishop's Mills, in the adjoining county of Grenville. She says:—"Early last autumn I was seized with pains in my knees and limbs. At first they were but slight, but gradually increased in severity until it was with the greatest difficulty I could move about. Liniments usually tried in such cases were resorted to without the least beneficial effect. On the contrary, I was continually growing worse, and at last I reached a stage where if seated in a chair it was almost impossible for me to arise, and when on my feet my limbs were so stiff that it caused me the most excruciating pain to walk. At this juncture a neighbour who had benefitted through the use of Dr. Williams' Pink Pills advised me to give them a thorough trial, and glad to grasp at any means which promised relief, I procured a supply of Pink Pills and began their use. By the time I had used three boxes there was a decided improvement, and I could walk with less stiffness and less pain than formerly. I continued taking the Pink Pills until I had used another six boxes, when I felt myself as well as ever, and feel firmly convinced that those who will give this wonder-working medicine a fair trial can soon free themselves from the thraldom of rheumatism. I can also say that it was not alone in this respect that I found the Pink Pills beneficial. I had been much troubled with a tired and languid feeling and suffered very much with sick headache, which I believe were caused by stomach troubles. All these disagreeable symptoms disappeared under the treatment of Pink Pills, and I have had no return of the trouble. Although I am now full up in years I am enjoying the best of health, and I am willing that my testimonial shall be published for the good it may bring some other sufferers.

Dr. Williams' Pink Pills strike at the root of the disease, driving it from the system and restoring the patient to health and strength. In cases of paralysis, spinal troubles, locomotor ataxia, sciatica, rheumatism, erysipelas, scrofulous troubles, etc., these are superior to all other treatment. They are also a specific for the troubles which make the lives of so many women a burden, and speedily restore the rich glow of health to sallow cheeks. Men broken down by overwork, worry or excess will find in Pink Pills a certain cure.

Sold by all dealers, or sent by mail, postpaid, at 50c. a box, or six boxes for $2.50, by addressing the Dr. Williams' Medicine Co., Brockville, Ont., or Schenectady, N.Y. Beware of imitations and substitutes alleged to be "just as good."

Charlatans and Quacks

Have long plied their vocation on the suffering pedals of the people. The knife has pared to the quick; caustic applications have tormented the victim of corns until the conviction shaped itself—there's no cure. Putnam's Painless Corn Extractor proves on what slender basis public opinion often rests. If you suffer from corns get the Extractor and you will be satisfied.

PAUL WANTS PEACE.

President Kruger Addresses His Parliament

AND REVIEWS THE YEAR'S EVENTS

Asks the Volksraad to Aid in Restoring Rest and Peace—Hopes for a Closer Union With the Orange Free State—Finances in Good Shape.

Pretoria, May 5.—The Volksraad was opened yesterday. President Kruger, in his address to the Chambers, reviewed the events of the year. He began by deploring the death of N. J. Smith, Vice-President of the Transvaal Republic, who died about a month ago, and continued by saying that recent events which had been due to malevolence and selfish objects had interrupted the rest and peace of the country. "It has ever been my object," he further said, "to promote the development and prosperity of the Republic in a peaceful manner, and I expect with the fullest confidence that during this session the Volksraad will assist in restoring rest and peace, so that through our united co-operation the country may flourish and become prosperous to the benefit of all. Despite its troubles, the country continues to be in friendly relations with foreign powers."

President Kruger also expressed hope for a closer union with the Orange Free State, and declared that the mining industries of the country were prosperous, the native affairs peaceful and the financial condition of the Republic sound.

This utterance of President Kruger was looked upon as confirming the report that negotiations have for some time been on foot for an alliance, offensive and defensive, between the South African Republic and the Orange Free State looking to the resisting of any attempt upon the part of Great Britain to interfere in the international affairs of either country.

The President afterwards referred to the etrrible dynamite explosion just outside of Johannesburg on Feb. 19, when about 120 persons were killed and thousands were rendered homeless. He acknowledged the help rendered by the Uitlanders of the Rand to the Boer authorities, the foreigners having tenderly cared for the wounded and collected about $500,000 in the first 24 hours after the explosion for the relief of the sufferers.

He then turned to the mining interest of the Republic, declaring that the mining was progressing in a prosperous manner, and that the labor question, which at one time threatened to interfere with the development of this feature of the country's resources, had now assumed a much brighter aspect.

The President said that proposals dealing with education and farming were being prepared for submission to the Volksraad. Referring to the finances of the Republic, he assured Parliament that they were in a sound condition, although the expenditures of the country were growing. This, he explained, was in view of the fact that it was necessary to keep pace with the progress of the country.

In conclusion, the President said: "No doubt, especially in these troublesome times, you will strive to fulfil your onerous duties and devote your highest powers to the earnest consideration of the cherished interests of the commonwealth."

The speech was very well received. It was considered moderate in tone, although meeting every situation firmly and squarely, without bombast or bluster. Those who read between the lines see in it a continuance of the strong, peace-loving policy which the President has followed from the first, and it is not likely that there will be any deviation from the course he was called upon to steer after the conspiracy of the British South African Company was unveiled.

The presidents of both chambers were re-elected.

THE ONLY HELP.

A Victim of Bright's Disease for Many Years—Cured by Dodd's Kidney Pills.

Neepawa, (Special), May 4th.—Mrs. T. H. McKee, formerly of Listowel, came here as a last resort. Had suffered ten years with Bright's disease. Reported to be past help and dying. Her re-appearance on the street in apparent good health was a pleasant surprise. The explanation given was that her little boy had insisted that she should use Dodd's Kidney Pills, and prophesied that they would cure her. She says:—"From the first few doses I began to feel better, and after taking four and a half boxes I say it with heart-felt gratitude I am perfectly cured." Dodd's Kidney Pills is the only medicine in the world that has ever cured a case of Bright's Disease at such a stage.

TALKED OF PISTOLS FOR TWO.

A Nice Row Between Roosevelt and Fitch in the Mayor's Office, New York.

New York, May 5.—The Mayor's office was the scene of a violent row this afternoon between Police Commissioner Roosevelt and Comptroller Fitch. The officials threatened each other with personal violence, and talked of pistols. Mayor Strong threatened both gentlemen with immediate arrest unless they kept quiet. The cause of the row was the question before the Board of Estimates of the transfer of $11,000 from the police fund for the erection of houses to reimburse policemen and detectives for the money spent in obtaining evidence against disorderly houses.

M'CARTHY FOR SELKIRK.

The Leader of the Third Party Accepts a Nomination in Manitoba.

Winnipeg, May 5.—(Special)—A convention of Independent Conservatives, held at Souris to-day, tendered the nomination for the Commons to D'Alton McCarthy. That gentleman thankfully accepted and promised to address a number of meetings in the constituency. This turn of affairs has caused a complication of the situation, but the probability is the Liberal candidate will retire, leaving Mr. McCarthy, the Patrons and the straight candidates to fight it out, the Liberals, of course, supporting McCarthy.

Burned in His Saloon.

Ludington, Mich., May 5.—The State road saloon was destroyed by fire at 3 o'clock this morning. Martin Kohl, the proprietor, was burned to death. The saloon, which had been closed for a year, was to open to-day and the fire is believed to have been incendiary.

Can Keep as well as Grow.

Mr. E. B. Edwards has left at the EXAMINER Office a sample of grapes preserved to the present in excellent shape. The flavour seems to be as crisp and natural as if they had been on the vines six hours ago, instead of having been plucked six months ago. Mr. Edwards is an enthusiastic and successful fruit grower, and the sample of grapes before us shows that he knows as much about keeping grapes as growing them. He is always willing also to lend a helping hand in the way of advice or practical suggestion to other fruit growers, and has done very much for the promotion of the interests of fruit growing in Peterborough and vicinity.

Mercer's

A NEW COLLEGIATE INSTITUTE.

The Board of Education Discussed the Erection of One.

The major part of the session of the Board of Education last night was occupied in a discussion of the Inspector's report, which, as seen in another column, speaks forcibly on the question of the present over-crowding of the schools.

Although an addition was made to the South Ward School to relieve the overcrowding, last year, the school attendance has so increased that at present another eight-roomed school could easily be filled. Even the new South Ward Central School is overcrowded and the basement of the St. John's Mission may again have to be rented.

The members of the Board are not in favour of enlarging the West Ward School, as the site is generally conceded to be an unhealthy one and the edifice itself is not built with regard to proper hygenic principles, the ceilings being low and the rooms ill ventilated. Just what will be done in the West Ward is therefore hard to say. In one of the rooms where there were but 35 pupils at the opening of the school term there are now over 90.

The relief proposed is the erection of a new Collegiate Institute, when the present building would revert to the Public Schools.

It is suggested that the Central Park would form a most beautiful and appropriate site for a Collegiate Institute, and a committee has been appointed to look into the matter. As, however, it will be fully two years before this building would be completed, the Board will have its hands full in providing accommodation for the new scholars which are daily coming into the schools.

As Mr. Hamilton stated, last evening, the fame of the Peterborough schools is continually drawing new people to the town, for the purpose of giving their children good education.

Already the half day system has had to be adopted in some of the rooms, a portion of the children attending in the morning and the balance in the afternoon. Some other provision, however, will have to be made, as satisfactory progress under such conditions would be impossible.

BATTALION NOTES.

The Boys in Red Paraded Last Evening—They Will Attend the George Street Church.

The Rangers participated in their first marchout of the season last night, when they turned out strong, with both brass and bugle bands in attendance, as well as the pioneer and ambulance corps.

After marching down George, to Simcoe, to Aylmer, to Hunter, to Water, to Charlotte, to George, to the Central Park, battalion drill was indulged in for an hour or so, when the men proved themselves well up in the various manœuvres. Upon returning to the drill shed the following orders were read:

HEADQUARTERS,
Peterborough, May. 5th, 1896.

Orders by Lt. Col. R. W. Bell, commanding the 57th Battalion of Infantry, Peterborough Rangers:

No. 1. Leave of absence is granted Major F. Brennan for six months from March 1st, 1896.

No. 2. Capt. G. A. Schofield is permitted to resign his commission and to retain the rank of Captain on retirement. To be Captain, Lieut. Edward B. Clegg, vice Schofield retired. To be Lieutenant, Vernon Clare McGill, vice Hayes promoted.

No. 3. The annual meeting of the Non. Com. officers mess will be held at the mess rooms, Wednesday, May 6th, on Hunter street, and all Non-Com. officers are expected to attend or provide a good excuse.

No. 4. The Battalion will parade with both bands, pioneer and ambulance corps on Sunday afternoon at 3.30, and march to the George street Methodist church for divine service.

No. 5. The rifle range will be open on Saturday afternoon for target practice.

By order,
E. F. MASON, Capt.,

GEORGE'S CALF.

A Wonderful Freak of Nature Which has Just Been Mounted.

Mention was made in the EXAMINER some weeks ago of a monstrosity in the shape of a calf which was secured by George Hopkins, near Campbellford. The animal has just been mounted by taxidermist Elcombe, and it is certainly one of nature's strangest freaks. It was given birth to by a cow, and slightly resembles a calf in general appearance. The legs however, are those of a pig and being very short would never have been of sufficient length to support the animal if it had lived, as they do not reach below the body. The fore legs are bowed like a bulldog's and the face is emphatically emblematic of the bull dog, the snout being blunt and slightly turned up and the jaws rounded. The skeleton is also being prepared and mounted, and the bones bear out the statement that the animal was certainly a cross between the dog, pig and cow. The monstrosity ought certainly to bring a big price from some showman.

A QUIET WEDDING.

Nuptials of Mr. Wm. Irvine, of Buckhorn, and Miss Elizabeth Stewart, of Town.

A very pretty marriage ceremony was performed, last evening, in the presence of a few friends, at the family residence, 199 Murray street, when Miss Elizabeth Stewart was united in the holy bonds of matrimony to Mr. Wm. Irvine, a prosperous young farmer of Buckhorn.

The ceremony was performed by Rev. H. Symonds, of St. Luke's church, Ashburnham.

The bride, who looked most attractive, was attended by her sister, Miss Maggie J. Stewart, and the groomsman was Mr. Gutter.

A large number of valuable presents were received and the young couple left for their new home during the evening, the guests extending wishes for a long and happy life.

A Hot Contest.

The enterprising firm of H. LeBrun & Co. have put on an interesting competition to find out the views of the electors as to the majorities of the successful candidates in East and West Peterborough at the coming Dominion elections. By reference to an advertisement in another column it will be seen that this firm offer $60 in prizes for the correct or nearest to the correct estimation of the majority of the winning candidate. The competition begins on Monday, 11th instant, after the names of the candidates are all known and will close the day previous to the polling. The ladies will be afforded an opportunity to thrown in their influence and hand in their estimations as well as the gentlemen. The likelihood is that there will be a hot contest for the prizes. THE INDEPENDENT ELECTORS MEET.

ADDRESS BY THE INDEPENDENT CANDIDATE.

Remarks by the Chairman and Mr. W. A. Shaw—The Question of Remedial Legislation Dealt With—Much Enthusiasm Manifested—A Mass Meeting to be Soon Held.

Last night a meeting of the electors who call themselves independents was held in True Blue Hall, Simcoe street. The meeting was late in convening, and at the opening with not a large attendance, but as the meeting progressed the audience augmented till the seating capacity of the hall was overflown.

Mr. Robert Weir occupied the chair, and upon the platform with him at the opening of the meeting were M. J. H. Cobb, Mr. W. A. Shaw, Mr. John Sawers, and Mr. Robert C. Newman, the independent candidate. The chairman said they had met to discuss the principal issues of the day, of which the most important by far was the Manitoba School Question. The Dominion Government was not compelled to interfere, but the action they took was voluntary. He pointed out the duty of the electors at this juncture, to support their candidate Mr. Newman.

Mr. W. A. Shaw made a brief but vigorous address. They were not present, he said, to laud either party. If either party candidate had declared himself explicitly opposed to the coercion of Manitoba, the independents would not have sought a candidate. The refusal of either of the old parties to put up a candidate committed to the platform of the independent party, would make them responsible for what injury they might receive in the campaign from an independent candidate. The Independent Protestants, Mr. Shaw asserted, had no confidence in either party.

MR. NEWMAN'S ADDRESS.

Mr. R. S. Newman, the independent candidate, made a long speech which was vigorous and unmistakable in its tone of hostility to coercion of Manitoba. He began by stating that it was necessary for him to correct certain statements made as to his attitude. He intended to conduct this campaign as a gentleman. He took the same stand here as he had done in West Huron. He favoured the selection of a local man, but had been urged and had accepted the candidature for West Huron, not knowing that there was any other than the Conservative candidate, pledged to remedial legislation nominated. After he had accepted he learned that an anti-remedial candidate had been nominated also, one pledged to his own policy of "Hands off Manitoba!" Under the circumstances he had felt it his duty to retire. The speaker criticised a suggestion of the EXAMINER that he would lose his deposit, though it might be no personal loss. The speaker felt that this was an insult—implying that he was unable to put up his deposit money. He was approached by neither Liberal or Conservative candidate to retire from the field or to remain. Referring to the Review's remarks, that he was in the field to defeat the Conservative candidate, the speaker said that paper never said a truer thing—he was in the field to defeat both candidates. (Loud cheers.) He was against the present Government as the tool of the hierarchy of Quebec. He criticized the Quebec wing of the new Cabinet and said the Cabinet as a whole was unworthy to represent loyal Canadians. (Cheers.) Speaking in reference to a mandement the clergy was preparing, Mr. Newman said that if Quebec is to cast a corporate vote at the dictation of the clergy, the Protestants of Ontario should unite to oppose any measure not in the interests of Canadians, and to oppose the coercion of any province even if it "shook Confederation to its foundations." (Cheers.) He believed that a plebiscite of Ontario on the Remedial Bill would show that 99 per cent. of the population were opposed to it. The Conservatives claim that they are the party to look after the interests of the country, and in illustration of the manner in which this was done he cited the case of a National Policy advocate, Hon. Frank Smith, or the Company he was President of, importing workmen from Buffalo to build a boat in Toronto, when there were scores of as good workmen standing around idle in the streets of the city. The speaker said something more was needed than the establishment of industries — we wanted them protected. The necessity of independent party politics was insisted upon. Reference was made to the fact of Sir Charles Tupper reading good honest Conservatives out of the party—men who had dared to be independent. What right had he to do this? Did he think that all the brains of the country were in his head? But what could we expect from such a source? The Tupper family and the hierarchy, as far as the cabinet was concerned, owned the country. In referring to the necessity of independence the speaker said he was willing to retire if they could get a local man, and he would work hard for him as for himself in the interests of the destruction of the domination of the hierarchy. As to the settlement of the Manitoba question by commission, the speaker was in favour of the settlement of the question suggested to the Dominion Government commission by the Manitoba Government. Referring to the rumour that Laurier and Greenway were in collusion, the speaker asked why then did Manitoba answer the Remedial Order by demanding an investigation? The Manitoba Government answer to the practical demand of the Dominion Government for the re-establishment of Separate Schools, was the offer to secularise the public schools entirely. The speaker vigorously attacked the Separate school system as productive of illiteracy and other great evils. The spirit of civil and religious liberty was that every child should have an equal chance for education. The speaker elicited great enthusiasm by a glowing laudation of the Hon. N. Clarke Wallace and D'Alton McCarthy as representative of the classe of men that should control the destinies of Canada. The exclusion of Clark Wallace from full Cabinet position, and the giving of the same to his more pliant successor, was denounced as an insult to every Protestant in Canada, for Wallace was excluded because he was a true Protestant. The Remedial Order was prepared almost before the ink was dry on the decision of the Privy Council, showing the anxiety of the Government to please the hierarchy. The history of England was cited to show that Whig and Tory united against Romish domination and this was the time that Grit and Tory should so unite (cheers). Reference was made to the noble stand taken by many French members in the remedial debate and the closing sentences of Mr. Laurier's speech were read as worthy of being taken to heart by every lover of fairplay and liberty. The speaker, however, did not endorse Mr. Laurier. It was charged that if he had a chance he would pass a stronger Remedial Bill. However that might be, the speaker said here is where the independent electors came in to remove the possibility of any party betraying public trust. The speaker quoted speeches of members to show that the Government was not compelled to give remedial legislation. The speaker, after denouncing the rewarding at the people's expense of members who slavishly supported the government, said that the education of our children was of more importance than questions of trade and commerce. Train up children properly and they would see that we were well governed. New Brunswick and Prince Edward Island wiped out Separate Schools and there was no remedial legislation, and yet the representatives of these provinces try to force Separate Schools on Manitoba. (Cheers.) After all these things would his hearers remain true to the old parties who were racing with each other to catch the Catholic vote. If the hierarchy won in the impending battle they would not stop till the inquisition was fastened on Canada. (Cheers.) The speaker scored the Orangeman who had denied their faith by supporting the Remedial Bill, paying particular attention to ex-whip Taylor and Sam Hughes, who had declared out of the House that they were opposed to it. The Remedial Bill was not dead unless every candidate were pledged to oppose both Laurier and Tupper. (Cheers.) The speaker quoted figures to show that Quebec Separate Schools (as he said the Catholic schools were, properly speaking,) were inefficient and that a large percentage—sixty—of both male and female teachers were without diplomas. The objection to Manitoba schools was that teachers had to have diplomas. Ontario Separate Schools were also criticised as inefficient. The speaker concluded his address by saying, that if the electors could secure a local candidate, he would retire and assist in his election, but if he were retained as the candidate, he would go into the fight to win. (cheers)

Mayor Yelland, who was present at the latter part of the meeting, was urged to say something. After a few preliminary formalities, Mr. Yelland said, that if the things had gone as he had expected, he might have filled the gap occupied by Mr. Newman.

A voice—The gap is still open.

Mr. Yelland continuing said, that he had passed his word that if Mr. Hall became a candidate he would not oppose him and he related an incident to show how impossible it would be for him to depart from his pledged word.

A hearty vote of thanks, moved in a brisk little speech by Mr. W. A. Shaw and seconded by Mr. J. H. Cobb. was passed to Mr. Newman for his able and patriotic address.

Mr. Newman in reply said that arrangements would be made to hold a mass meeting within a few days and that he would place the platform he had explained that night in a more compact form before the electors.

A subsequent meeting of the Executive Committee was held Mr. Newman's candidature ratified and arrangements made for pushing a vigorous campaign.

Strength for the Aged.

As age advances the recuperative power of the body decreases. Fatigue clings like a burr to the already depleted store of energy, still further wasting and dissipating it, and in consequence, the elderly find it very hard to keep their spirits up to the "doing" point. An anchor of hope and safety is found in the energizing action of Maltine with Coca Wine, which imparts, almost magically, strength and vigor to the failing powers, and through its nutritive and tonic properties renews those functional activities upon which depend health of body and mind. Maltine with Coca Wine rapidly restores appetite, improves digestion, imparts tone and vigor to the nervous system; in a word is a strength-giver of unequalled excellence. Maltine with Coca Wine is prescribed and recommended by physicians. All druggists sell it.

INSPECTOR'S REPORT.

PETERBOROUGH, May 5th, 1896.

To the Chairman and Members of the Board of Education :

GENTLEMEN.—The regular course of work in the Public Schools has been interrupted during April by the Easter Holidays, and the large influx of new pupils on the re-opening of schools has occasioned some loss of time while the classes were being organized. After due allowance has been made for hindrances from these causes, the progress has on the whole been quite satisfactory.

The teachers, with a few exceptions, are doing all in their power to advance the work and render the schools efficient. Their efficiency, however, though owing much to the ability and tact of the teachers, is largely dependent upon other conditions such as the adequacy of the accomodation, and the efficiency of the equipment and sanitary arrangements. Partly owing to the fact that the town has outgrown the schools, and partly to the unusually large increase in the attendance of late, the buildings no longer afford sufficient accommodation for the pupils in attendance and some of them fail in many important particulars to meet the requirements of modern education in point of efficiency and comfort.

In submitting the following particulars regarding the needs of the schools, I have mentioned only these which, in my opinion, from their importance and urgency require immediate attention. I would, therefore, respectfully plead for an early consideration of them by the Board of Education.

The accompanying statement of attendance shows that the enrollment has increased 135 since last month, making the total number of pupils entered on the register of 10 departments 1,586. Placing the number of pupils who will leave school by passing to the Collegiate Institute and by permanently retiring at 165 (75 will probably be nearer the truth) and offsetting these by an equal number of incoming pupils from the usual sources, the number of pupils for whom it will be necessary to provide accommodation will be about 1,600. Now, experience shows that 45 pupils to the teacher is the greatest number consistent with efficiency. The estimates give 35 departments as the necessary number, or an increase of 6 beyond the number now available, and in making the estimate no account has been taken of the growth of school population during the time the additional rooms are in course of construction.

The central school is ill provided with apparatus to aid in teaching and illustrating the work. Wooden models with which to illustrate the work in teaching form and drawing are urgently needed, and a complete set of maps to replace those destroyed by fire in 1894 is an actual necessity. The departments under the charge of Misses Peters and Ames are considerably over crowded, and the number of pupils is daily increasing. Both of the Public school departments in the basement have inadequate air space for the pupils in attendance, the capacity being sufficient to afford but half the 250 feet required by statute for each pupil.

In the south central school three of the divisions are overcrowded. In the rooms under charge of Miss Marks the number of pupils (61) greatly exceeds the seating capacity, and many of the pupils are unprovided with desks. Eighty four pupils are enrolled in the primary departments, while desks for but fifty are provided, rendering the adoption of the objectionable half day system necessary. In the Kindergarten the enrollment is fifteen in excess of the limit of efficiency. The ventilation in all the rooms, except the four new ones, is deficient.

The Park street school is sadly deficient in many respects. The system of heating is bad. The rooms are low, small, and without ventilation. In two of them the seats are no longer fit for use. And worst of all the capacities of the departments are not equal to the demand of supplying sufficient pure air to the pupils crowded in them. The regulations governing school accommodation make it obligatory upon school boards to provide rooms sufficiently large that each pupil shall have at least 250 cubic feet of air space. The following statement giving the capacity of each of the four rooms of this school, together with the air space per pupil in attendance will serve to show their inadequacy in this respect.

Primary room 8400 cubic feet, 60 pupils, space per pupil 140 c ft

Second room 8400 c ft, 55 pupils, space per pupil 152 c feet.

Third room 8064 c ft, 45 pupils, space per pupil 179 c ft.

Fourth room 8064 c ft, 60 pupils, space per pupil 134 c feet.

The accommodation in the Barnardo Ave. School is not at present overtaxed, the rooms being all comfortably filled. The classes in the two highest rooms have suffered somewhat from the change of teachers consequent upon Miss Davidson's illness. They are now however rapidly regaining the ground lost and provided there is no further change bid fair to stand well at coming promotion.

All of which is respectfully submitted.

ALEX WHERRY, Inspector.

The report was referred to a committee of the whole Board.

After considering the Inspector's report in a committee of the whole, the Board reassembled and on motion of Trustees Hill and Bamford authorized the Property Committee to ascertain upon what terms the Central Park was now held and the facilities for procuring it as a site for a Collegiate Institute.

On motion of Dr. Burnham and Mr. J. J. McBain, the Property Committee was also instructed to secure rooms in the vicinity of the schools to relieve, if possible, the present over-crowding.

PETERBOROUGH RIFLE ASSOCIATION ANNUAL MEETING.

The Monthly Matches Begin To-morrow Morning at Six O'Clock—The New Officers.

At the annual meeting of the Association the following officers were elected for the ensuing year :—

President—Lt.-Col. Bell.
Vice-President—Rev. V. Clementi.
Second Vice-President—H. Max Dennistoun.
Sec.-Treasurer—E. B. Clegg.
Council—C. Curtis, D. Cameron, George Fitzgerald.

Two teams, a Martini and a Snider, have been entered for the League matches. There are to be four matches on the following dates : May 14th and 28th, and June 11th and 25th. Shooting to commence at 6 a.m.

Monthly matches will be held. The first once will take place to-morrow, May 7th, at 6 a.m., and the remainder will be shot in July and August, on the first and third Thursday in each month. It is desirable that all the members should be at the first monthly match to-morrow morning so as to get in one practice before shooting in the League.

SIR CHARLES TUPPER'S MANIFESTO.

Sir Charles Tupper has issued his campaign manifesto found in another column. It is of Tupper, Tuppery. He begins by insulting popular intelligence in warning the people of Canada not to substitute the "revolutionary" policy of the Liberals for "the prudent methods of administration" of his party and Ministry. This must be "writ sarkastic" of a man and a Government that has added one hundred and thirteen millions to our debt in eighteen years—about six millions a year—resulting in an annual bill for interest of twelve and a half millions, and has hoisted our annual expenditure from twenty-three and a half millions to thirty-eight millions, nearly a million dollars a year. This, from the most reckless, extravagant and corrupt public man of our history, is refreshing in its colossal impudence. No man has made more reckless promises, all but all unfulfilled, than Sir Charles Tupper, and now he is out with a fresh batch of promises of the great things he is to do for this country. In the face of a normally decreasing population, of great commercial stagnation, Sir Charles has the assurance, or rather cheek, to gloat over the prosperity the N. P. has brought to Canada, and to promise us another dose, all the more bitter because the dose is stirred with the finger of the "high priest of corruption," as one of his own political friends calls him. Beyond vague windy promises of great things, such as preferential trade with Great Britain, which in the present temper of British statesmen is about as possible as a railway to the moon, we have nothing saure but a continuation in increased ratio of extravagant and corrupt methods. We all remember the N. P. promises of 1878 of Sir Charles Tupper that it was to create a great home market. That promise has, not only, not been fulfilled, but our exports to foreign markets have increased and are increasing, and instead of a home market, meeting our needs, we are spending millions to push our trade to countries thousands of miles away. The people have been too often fooled by Sir Charles Tupper's promises to warrant them in trusting him again, especially as he has associated with him a "nest of traitors" who will be willing to abet Sir Charles in all his schemes of extravagance, that form an integral part of his political creed and methods.

"Trust him, not, he is fooling thee."

PERSONAL.

Dr. Herb Bell is home from Trinity University.

Mr. A. Brignall, of Belleville, is in town visiting his brother-in-law, Mr. Alex. Elliott.

Mr. Thomas Kelly returned to town yesterday from Toronto, where he attended the funeral of the late Alexander Gough.

Mr. H. McConaghy, who is in business with W. H. Bennett, M. P., Midland City, was in town yesterday, the guest of Mr. Joseph Armstrong, Stewart street.

Mr. Fred Wilson, who will be remembered as the very witty maker of announcements with the Marks Bros. Company, and who is also an artist of considerable repute, is putting in a holiday in town.

Dr. J. H. Eastwood, late of Pickering, who has purchased the medical practice of Dr. Goldsmith, has arrived in town and will at once enter upon the practice of his profession, occupying the office of Dr. Goldsmith, Brock street. The latter will remain in town till May 24th, when Dr. Eastwood will assume full possession of the office and residence lately occupied by Dr. Goldsmith. Dr. Eastwood is a graduate of the Toronto School of Medicine, and comes well recommended by the fact of having conducted for ten years a large and successful practice in Pickering, where he was highly respected as a citizen as well as physician, shown in part by his receiving a complimentary address and presentation on his departure. The EXAMINER cordially welcomes Dr. Eastwood to Peterborough.

ROBERT HALL'S SALE

GOES ON, ALL THE SAME.

Nothing can stop it. The outburst of Bargains has given such a momentum to our Sale, that has started it off at a lively gait this week. We are in it to stay until stocks are cut out clean.

LEVELING PRICES

On all the floors and in all the departments, and mowing down the profits, so that nothing but the bare cost is left, is the sum and substance of our daily routine these days. But the strongest attractions this week is the

Merciless Sacrifices in Millinery and Mantles.

The offerings include the whole of our special display of Trimmed Millinery in all the very latest tints and styles from Paris, London and New York—Newest fancies in Feathers, Flowers and Trimmings—Spring styles in Ladies' and Misses' Mantles, Capes and Jackets. It seems too bad that such beautiful goods should be sacrificed in this way, but we've put our hands to the plow and we can't turn back.

Perhaps more than half the folks who come here have looked all around the other stores. We hope so. We believe in intelligent comparisons and welcome them and if at any time you buy anything here that isn't exactly right bring it back and get your money. The Bargains have not been equalled—nor are they likely to be. Not a line should escape your notice. We're getting out of business, sure.

Agent Butterick's Patterns.

A woman never really knows the meaning of happiness and content until she is the mother of a healthy, happy child. She never reaches the full degree of womanly development until she has felt the pleasing responsibilities of maternity. All this happiness may be marred or may be turned into misery if the child is not a healthy child. The health of the child depends on the health of the mother, both before and after birth. Heredity is strong, and it is every woman's duty to give her children the best possible chance in life. Nothing that she could possibly give them can be as valuable as health. Wealth cannot be enjoyed without health. Nothing can be enjoyed without health. Health is life. People who are not healthy are only half alive. The child who starts out with a robust body and vigorous, virile health, has everything to be thankful for and nothing to be afraid of. You cannot expect such a child to spring from a weak and sickly mother. Most all of woman's weakness and particularly the weakness that most strongly influences the health of children, comes from some derangement or disease of the distinctly feminine organs. All such trouble is as unnecessary as it is terribly distressing. Dr. Pierce's Favorite Prescription will cure all troubles of this nature. There is no guess-work about this statement, and there is no qualification. The "Favorite Prescription" should be used promptly and persistently until the symptoms entirely disappear. In every case, it restores perfect health and strength and assists in the healthful and regular performances of all the natural functions. The "Favorite Prescription" should be taken regularly by every woman during the entire period of gestation. It gives strength to all the organs involved, lessens the pains and danger of childbirth and insures the health of both mother and child.

If you care to know all about the "Favorite Prescription," and to read the testimony of hundreds of grateful women, send 31 one-cent stamps to cover customs and mailing *only*, and receive a free a copy of Dr. Pierce's Common Sense Medical Adviser — 1008 pages, profusely illustrated. MUSCLE V. STEAM.

Athletic Bicyclists to Race Against the Empire State Express.

New York, May 4.—One of the most extraordinary races on record is scheduled for the 5th of next month. On that date six athletic cyclists, headed by Dan Cabanne of St. Louis, all riding on one machine, called a "sextuplet," will endeavor to beat the Empire State Express, which is the fastest railway train in the world.

The race is to be over one mile, at a point where the huge flying locomotive may safely crowd on its greatest speed. In order to test the claims of the makers of the "sextuplet" that, with their machine, the unaided muscles and sinews of man can carry him more rapidly than the most perfected application of the powers of steam, a five mile track is to be laid at the side of the New York Central Railroad, near Poughkeepsie, and here the test will be made.

It is necessary that the track should be five miles in length, as the full speed of the sextuplet cannot be attained in less than two miles, and it takes two more to come to a stop, so that the six riders may alight safely. The race will, therefore, be over the third or centre mile of the track. The start will be so timed that both train and cyclists will commence the racing mile together, and then both will be sent along at the utmost speed.

Chauncey M. Depew is greatly interested in the coming race.

"I doubt if the riders can beat our train," he said. "If they do, they will have to cover the mile in less than 47 seconds. Every facility will be afforded them. The track to be laid, I understand, will be as smooth as a billiard table. It is easy to understand that at such a speed as they expect to make the smallest inequality might upset the machine, and the consequences would be disastrous. The railway company will probably run a special train to the scene of the race, as it is anticipated that the affair will excite much interest among wheelmen, and there will probably be a large attendance of spectators.

"The Empire State Express leaves New York at 8.30 a.m., and arrives at Albany 11.10. The race will probably, therefore, take place about 10 o'clock. I understand that the proprietors of the sextuplet are confident of success, as they estimate their machine, with a flying start, can be ridden a mile in about 37 seconds."

The sextuplet is a bicycle in every sense of the word. It has only two wheels, but it has seats and pedalling gear for six riders. In the hands of the front man only is the steering apparatus, and in front of him is a wedge-shaped aluminum "air-cutter." The whole machine is built of aluminum, and though it is 156 inches long overall with a wheel base of 125 inches, it only weighs 137 1-2 pounds. The gear is compounded to 153, and the strength of the machine is said to be such that it could bear a weight of 20,000 pounds.

The men selected to ride in the race will be all trained athletes and cyclists. The average weight of each will not be less than 170 or 180 lbs. About a dozen men from all parts of the country are already in training.

SUPERSTITION IN SPAIN.

The People of Madrid Carrying the Remains of a Dead Saint Through the Streets - They Want Rain.

Madrid, May 4.—This city was the scene to-day of an imposing religious ceremony, the object of which was to procure the intercession of St. Isidro, the patron saint of Madrid, who lived in the thirteenth century, to bring about the end of the long drought that has done great damage throughout the country and also to effect the suppression of the Cuban rebellion. The remains of the saint enclosed in a silver casket were carried through the streets and escorted by 800 priests, thousands of members of religious congregations and the civil and military officials. All carried lighted tapers and the scene was most impressive, even to those who had no faith in the emcacy of the ceremony. There were a great number of choristers, who chanted litanies as the procession moved slowly through the principal streets of the capital.

The route was lined with thousands of people, who knelt as the remains of the saint were borne past them. The houses were decorated in honor of the occasion. Nothing similar to to-day's ceremony has been seen in Madrid since the seventeenth century. Services will be held for nine days in the cathedral, their object being the same as that of to-day's procession. The Queen-Regent and other members of the royal family and the ministers will attend. Similar functions have been or will be held in all the towns of the country.

A PLEA FOR SHOP GIRLS.

The Consumers' League Gives Advice to Women About Making Purchases.

New York, May 4.—In the annual report of the Consumers' League of this city, the following advice is given to shoppers: Shop during reasonable hours; when possible, early in the morning when saleswomen are fresh and not tired out and nervous. Avoid making purchases Saturday afternoon, so that eventually the shops may all give a half holiday. If at any time you feel irritated or annoyed by apparent indifference or carlessness of saleswomen, stop and consider what it means to be on one's feet from ten to fourteen hours a day, in a crowded space, shoved and pushed about, lifting heavy boxes at times, waiting on impatient customers who wish to be helped to know their own minds, keeping account of sales and stock, taking addresses often given hurriedly and carelessly, and find in many instances if written down incorrectly; and all this for salaries ranging from $3 to $8 per week, and obliged to dress neatly and fairly well, and to pay out of it for one's board, lodging, clothing and car fare.

OIL STRUCK AT HIGH FALLS.

A Find Which Has Put Verona in a State of Excitement

Kingston, May 4.—There is great excitement at Verona because oil has been struck at High Falls, near there, where boring has been going on for some time. Oil was reached at a depth of 1200 feet. It is said the entire district is rich in this product, but the Standard Oil Co. has secured possession of the greater part of it. Arrangements have been made to sink wells at Sharbot Lake and other places in the locality. B. W. Folger, sr., remarked: "If the strikes prove a rich and paying one, which there is no doubt it will, Kingston's fortune is made."

VEZINA MADE ILLICIT WHISKY.

The Excise Officers Got After Him With Disheartening Results to the Culprit.

Quebec, May 4.—George Vezina, a resident of Quebec, was convicted to-day on a charge of distilling and rectifying spirits without a license, and was condemned to one month's imprisonment and a fine of $100 and costs, or six months additional in default of payment. Having previously been convicted of having a still in his possession illegally, he was further fined $500 and costs or one month, in pursuance of the revised statutes, which imposes a fine of double of excise and license duties, amounting to $250 each in such a case.

A Shameful Practice

Many tooth preparations contain substances that speedily destroy the enamel and beauty of the teeth. For this reason the greatest care should be exercised in the selection of a dentrifrice. Ivorine for the teeth is offered with the assurance that it is absolutely free from objectionable ingredients. An admirable cleanser is Ivorine, imparting dazzling whiteness to the teeth, firmness to the gums and renders the the breath sweet and fragrant.

HOLMES LAST SUNDAY.

Murderer Grows Silent and Depressed as the Day Set for His Execution Approaches.

Philadelphia, May 4.—H. H. Holmes, the murderer, spent his last Sunday on earth preparing for death. As the day of his execution draws near Holmes becomes more silent and depressed. The horror of his deeds seems now only to impress itself upon him, and he is just realizing what death means.

This realization brings with it melancholia, and instead of the apparently light-hearted, careless prisoner that he was until about two weeks ago, he is crushed and cheerless. His change of spirits has caused the death watch to be doubled, and day and night he is under the watchful eye of a prison keeper.

When the prisoners in Moyamensing awoke this morning, Holmes was already up and dressed. He passed a restless night, finding more peace in chatting with his death watch than in lying down. After breakfast he was visited by Father Daly, of the Church of the Annunciation, who prayed with him and gave him some spiritual advice. This was his only visitor all day.

The applications for cards to the hanging are unusually numerous, but Sheriff Clement is careful that none but those entitled by law shall witness Holmes' death. But one representative of the daily local papers will be permitted in the prison, and all artists and cameras will be barred.

Plant a Tree.

Grander than any dead granite is the more lasting monument of a living tree; sweeter than any chiseled words is the rustling of its leaves: better than the lifeless formula "Here lies the body" is the fact that somehand, now perhapsn, alsa, for it! only dust, planted long, long ago that the living might rejoice in its beauty and worth.—American Agriculturist.

HEADACHE.

A SIMPLE CURE.

As a sure cure for headache, whether caused by liver, stomach, kidney or nerve trouble, Burdock Blood Bitters is the most effective medicine known. It removes the causes of headache by restoring all the organs of the system to proper action and health. Doubts disappear in view of proofs like this :—

In the spring of 1891 I got a bottle of B. B. B. for my mother who had been troubled for twenty-five years with sick headache. I got it from Mr. W. Paxton Baird, of Woodstock, N. B., who gave me two other medicines to take home and let my mother take her choice. Fortunately she choose the Burdock Blood Bitters, and I returned the other bottles. She used it for three months, and has had no headache since. We are sure it was B. B. B. cured her, as she took no other medicine.

Children Cry for Pitcher's Castoria.

An Old Joke.

Here is a joke which is at least 100 years old. It is printed to show our ancestors were not unlike their descendants, and could on compulsion grind out a pun with due elaboration: "In a disputed land boundary case, which was tried in an Essex county town the other day, the counsel for the plaintiff, in pointing out the boundary, said: 'We lie on this side.' The opposing counsel said: 'And we lie on this side.' A juryman cried out unconsciously: 'If you lie on both sides, how are we to tell which is the best liar?'"—Boston Transcript.

A merchant alone in a desolate store
Sang, "Willow, tit-willow, tit-willow!"
I said to him, "Why are you pacing the floor,

"I thought it was nonsense to advertise,
And now I've no custom at all but the flies,
Oh, willow, tit-willow, tit-willow!"

Weak Women

In the spring suffer more severely that at any other season. Scott's Sarsaparilla would soon make them healthy, strong, active and vigorous. A weak, debilitated, played out, run down, suffering and complaining woman can build herself up so that her friends will hardly know her. Her sprightly carriage, cheery laugh and snappy conversation will make her welcomed, admired and appreciated wherever she goes.

MADE STRONG

by Scott's Sarsaparilla, the blotches and pimples cleared from her complexion, that tired feeling gone, no longer nervous, irritable and cross grained, she becomes a real new woman.

"I was so run down that I could not attend to my work," writes Miss M. J. Gould, Lloydtown, Ont. Mr. W. S. Bond, our storekeeper, recommended Scott's Sarsaparilla. I tried it. One bottle cured me and I am again strong and vigorous, wholly made so

HOW THE SUN LIFE FULFILS ITS PROMISES.

A Matured 10 Year Endowment.

Profits Paid by the SUN 21 per. cent more than the Estimates.

The following letter, which speak for itself, was received by the undersigned this morning from a gentleman in Brockville, whose ten year endowment which he held in the Sun Life Assurance Company of Canada matured last week and was paid him. The Sun is modest in promises but UNEQUALLED IN RESULTS. The public are benefitted by results, not by promises unfulfilled

BROCKVILLE, November 7th, 1895.

W. H. HILL, Mgr. Central Ontario Sun Life Assurance Company of Canada, Peterborough, Ontario :—

DEAR SIR,—I should have acknowledged the receipt of yours enclosing cheque for endowment policy No. 12,871 before, only I wanted to write something more than a mere receipt. I am pleased to hear of the continued prosperity of the "SUN" and it speaks well for your Company when the profits are greater (by 21 per cent.) than you as the Company's representative promised or rather estimated, as was the case with this policy.

I hope your Company will continue to prosper and I often regret that I do not carry more Insurance than I am doing. I might have carried twice as much as I do when at Minden without any great effort, still what little I do carry I feel is perfectly safe being in the "SUN."

I must thank you for your promptness and kindness regarding this policy just settled. I hope we will both be alive and well when the new one I now hold will be due in 1905 and assuring you of very best wishes, I remain,

Yours Sincerely,
(Signed) F. R. C.

The above voluntary testimonial is significant and shows in a most practical way the SUN'S standing as a profit paying institution.

TURNING GRAY
AND THREATENED
WITH BALDNESS
The Danger is Averted by Using
AYER'S HAIR VIGOR

"Nearly forty years ago, after some weeks of sickness, my hair turned gray and began falling out so rapidly that I was threatened with immediate baldness. Hearing Ayer's Hair Vigor highly spoken of, I commenced using this preparation, and was so well satisfied with the result that I have never tried any other kind of dressing. It stopped the hair from falling out, stimulated a new growth of hair, and kept the scalp free from dandruff. Only an occasional application is now needed to keep my hair of good, natural color. I never hesitate to recommend any of Ayer's medicines to my friends."—Mrs. H. M. HAIGHT, Avoca, Neb.

DODD'S KIDNEY PILLS ALWAYS CURE

AFTER TEN YEARS SUFFERING

Two Box Cure

MILVERTON, 29TH JULY, 1895.

Gentlemen,—For the last ten years I had been troubled with kidney disease, being so bad at intervals that I could not lie in bed at night nor stoop to the ground.

I had tried all the remedies I could find without effect, but heard of Dodd's Kidney Pills and procured a box.

I am most happy to say it for my own sake as well as for others that I am perfectly cured after using four boxes.

SOME FREAK RIVERS.

NATURE'S CHEMISTRY TURNS ONE RIVER INTO WINTRY FLUID.

How the Sources of Rivers are Best Found—The Mississippi Not Now the Largest River on the North American Continent—"China's Sorrow."

It is a recognized fact in science that very few great rivers have been thoroughly explored by going up stream. For nearly 2000 years travelers and explorers endeavored, to discover the sources of the Nile by ascending that wonderful river. But by the time they had reached the difficult part of the stream their supplies and energy were exhausted, and they could go no further. It is only by seeking the sources of rivers by overland routes that explorers meet with success. It was in this manner that Henry M. Stanley traced the route of the Congo in Africa. In this way of procedure Frederick Schwatka was enabled to float down to Yukon, and Speke found the secret of the river Nile.

One of the most curious rivers that has come to the knowledge of men is the Webbe Shebyll of Eastern Africa, a deep and rapid stream, abounding in strange fish and ferocious crocodiles. Although it flows for hundreds of miles through fertile lands the immense volume of water never reaches the sea. A short distance north of the equator the river is lost in a desert region, a few miles from the Indian Ocean.

Some of the more recent explorers of Alaska and British America claim that the Mississippi can no longer be regarded as the largest river on the North American continent. This distinction is claimed for the great Yukon River. According to Ivan Petroff, who spent over two years in Alaska, collecting materials for the last census, the Yukon empties into Norton Sound about one-third more water than the Mississippi pours into the Gulf of Mexico. The Yukon basin comprises the larger part of Northern Alaska, and 600 miles from its mouth the river is a mile in width. Many centuries before it was discovered by white men it very likely served as the water highway into the interior, for tribes whom we believe to have crossed from Asia to the American continent. The Yukon River is over 2000 miles in length.

Travelers report that in Algeria there exists a small stream which the chemistry of nature has turned into ink. It is formed by the union of two rivulets, one of which is very strongly impregnated with iron, while the other, meandering through a peat marsh, imbibes large quantities of gallic acid. Letters have been written with the natural compound of iron and gallic acid, which forms this small, yet wonderful stream.

The Rio de Vinagre, in Columbia, is a stream, the waters of which, by admixture with sulphuric acid, become so sour that the river has been appropriately named the Rio de Vinagre, or Vinegar River

The Orange or Garieh River, in Southern Africa, rises in the mountains which separates Natal from the Orange River Free State. The length of this stream is 1000 miles. Its banks abound in various valuable woods, and around it are found rich copper ores. In this stream are many varieties of fish which are found until the river passes through a rocky region containing copper, below which the water is said to be poisonous, almost instantly killing the fish that venture near it.

"China's Sorrow," a curious name for a river, is the title bestowed upon the great Hoang Ho, which rises in the mountains of Thibet and follows a wonderfully circuitous channel for 2500 miles to the Yellow Sea. The waywardness of this mighty volume of water makes the river a constant source of anxiety and anger to the 170,000,000 of people inhabiting the central plain of Asia. It is known to have suddenly changed its course nine times. It has moved its mouth four degrees of latitude each time, emptying its vast floods in different directions, and finding a new channel for itself, where scores of towns and villages have stood. The river has greatly changed the physical character of a wide area, converting fertile regions into a sandy desert or making shallows of them. Whether it is within the powers of modern science to save this great plain from disastrous overflow and changes of the river's bed, is a question which during late years, has been widely discussed, especially in the scientific circles of Paris and London.

Another remarkable river is the Indus, a great stream in Hindustan. It rises in Thibet, and its course is a wonderful one. On reaching Sussi, its most northern point, it turns southward, loses itself in the hills and reappears at Takot in Kohistan. The Indus is 1700 miles in length. After receiving the waters many tributaries its chanel grows narrow, and here it is divided into many channels, some of which never return to the parent stream. It abounds in fish and crocodiles.

That classical river, the Ganges, is erratic in its course, like the Hoang Ho. It is prominent both in religion and the geography of India. It varies not only from season to season, but from year to year, and frequently exchanges old passages for new ones. It has been said that the Ganges delivers into the sea every year 534,000,000 tons of mud, sand and other solid matter.

WOODBINE TRAINERS BUSY.

Segram's Horses Do a Little Fast Work Baseball News.

Toronto, May 5.

The death of Trainer Joe Martin threw a gloom over the race track yesterday morning, and much sorrow was felt by his fellow-horsemen. The funeral will take place this afternoon to St. Michael's Cemetery. His horse, Strathol, which really belongs to Willie Martin, brother of the deceased turfman, has been placed in the hands of Mike Gorman, who will prepare him for the summer campaign.

The heavy track at Woodbine yesterday prevented any fast time, though the majority of the trainers gave their charges strong work, and the performances of several of the candidates were remarkably good, considering the conditions of the track. The threatening weather had a tendency to lessen the crowd of spectators, and only the regulars were on hand to see the horses put through their facings. Mr. Jim Hendrie was among the number present, and watched the work of the Hamilton contingent with much interest. Cardinal and Melcha stepped half a mile in 54 sec., while Glen Gowrie and Fiddle covered the same distance a half second slower.

About the best work of the morning was accomplished by Saragossa, Connoisseur and Harding, the trio going a mile handily in 1.53¾, and covered the cup distance in 2.23. Joe Miller, accompanied by Millbrook, went a mile in 1.54, and Stonemason, Musselman and Eulalon the same distance in a little better than a two-minute gait.

The Boyle representatives were nearly all given strong gallops, Havoc covering a mile in 1.57, Loorum 6 furlongs in 1.22½, Lord Nelson a mile in 1.59, Strathroy, Ellesmere and Spaghetti the same distance in 1.57. The stable jockey, Joe McGlone, arrived at the track yesterday morning.

John Nixon's rank-going little Woodcraft caused a sensation by stumbling and rolling over the boy, though fortunately neither horse nor rider was hurt. The Nixon jumpers were given strong gallops at long distances.

Somnambulist, accompanied by Cinders, worked three-quarters in 1.22.

Mr. Sass breezed a half in 50 sec., and Vicar of Wakefield negotiated a mile in 1.59.

A list of the entries for the races that closed May 1, will be given to-morrow. They are:

Queen's Plate (additional), Juvenile Scurry, Red Coat Race No. 1, Street Railway Steeplechase Handicap, Waterloo Handicap, Dominion Handicap, Woodstock Plate, Ontario Plate.

THE EASTERN LEAGUE.

Syracuse, N.Y., May 4.—The attendance to-day was about 800, and the game warranted a much greater crowd. Dunn was a trifle wild, but pitched great ball. Toronto had a great chance to win in the eighth, when the bases were filled and no outs, but luck was not with them. A strike-out, a foul fly captured by Hess and a skyer to centre saved the day for the home team. Paddeu and Stuart for Toronto had most of the work, and gave a rattling exhibition of skilful infield work. The score:

PLASTER OF PARIS HELD HER ARM.

How Little Marie Izzo's Father Tortured Her for Greed.

Chicago, May 4.—A remarkable case of brutality and greed was brought to the knowledge of the police here to-day.

Marie Izzo, aged 8, a supposed one-armed girl, was arrested with her father for violating a city ordinance in regard to street musicians.

When the girl was examined at the Harrison-street Police Annex, it was found that her arm was bandaged, and plastered to her side beneath her dress. A coating of plaster of paris held the arm securely by her side.

The child gave a great cry of relief when the instrument of torture was removed. The father will now have to account to the Humane Society.

A NEW CLUB.

Name Suggested for a new Social Organization in London.

London (Special), April 27.—It has been facetiously suggested that a new social club in process of organization in this city should be entitled "The Dodd's Kidney Pill Club" as the present members are all enthusiastic advocates of that remedy and in common with many other citizens declare that in all cases of kidney trouble no other agent has been found so completely effective. Most Londoners have at their fingers' ends the particulars of the many marvellous cures through the use of this specific. In every drug store in this city the medicine is kept in large quantities and largely recommended.

MEETING OF THE LOCAL UNION.

The Sunday school room of the George street Methodist church was crowded on Monday night. The local union held their quarterly rally on this occasion. The programme consisted of papers on "Grow Up" by Miss Robinson, "Look Up" by Mr. A. Mitchell, George street society; "Write Up" by Mr. T. H. Martin, St. Paul's society; "Read Up" by Miss Taylor, Murray street Baptist; "Talk Up" by Mr. Bert Geraus, St. Paul's society; "Sing Up" by Miss Forsyth, St. Andrew's society; "Brush Up" by Miss Smith, Mark street society; "Build Up" by Mr. Pady, Park street society; "Lift Up" by Mr. Godwin, Charlotte society; and "Sum Up" by the retiring president, Mr. H. P. Kennedy. These topics were all presented in a very spirited way and many good points were presented. Space will not allow us to publish any of these papers this week. At the close of the programme the president, Mr. H. P. Kennedy, presented a report of the Nominating Committee. The following officers were elected for the ensuing year:

Hon. Pres.—Rev. Dr. Torrance.
Pres.—Mr. A. E. Stanley.
1st Vice-Pres.—Mr. Beer.
2nd Vice-Pres.—Miss Rae.
Secretary—Miss M. Sherlock.
Treasurer—Mr. A. J. Johnston.

The Presidents of all Societies and Junior Superintendents are members also of the Executive.

While the collection was being taken Miss Montgomery and Mrs. Mein sang a duet that was pleasing to listen to.

Mr. Kennedy announced that Miss Quinn, who was present at the meeting, was with them for the last time, as she had decided to offer herself for mission work. He held that Miss Quinn had been one of the most faithful workers in the Union, and the standing of the Union today was due to efforts put forward by a few workers, of which Miss Quinn was the most energetic. He believed she had helped all who had had the pleasure of working with her. He would allow a few minutes for others to say a few words.

Mr. Pady, Rev. Mr. Young, Rev. Mr. Rae, Mr. Dayman and others spoke highly of Miss Quinn. All felt sorry to lose her as a friend and co-worker, but under the circumstances would wish her God-speed.

Miss Quinn thanked them for their many kindnesses, and held that honour was due only to the Master, and not to her. She then briefly spoke along the line of "Hold Up." They should hold up the pastors of their respective Societies, their convenors, and the officers of the Local Union, who had many discouragements to contend with; and lastly hold up by prayer those in mission fields — they above all others needed help. The meeting closed by singing "God be with you."

St. Paul's Society furnished the music for the evening.

ST. PAUL'S JUNIOR SOCIETY.

On Saturday afternoon last the members through a kind invitation given by Miss Woodgate, assembled together on the beautiful grounds at Hazel Brae. Miss Quinn entertained them with games, and Miss Stalker treated them to apples and sweets. Dr. Torrance, through the flour committee, gave each a plant to be cared for during the summer. In the fall they to bring them to their annual flower show. During the afternoon Mr. Green came on the grounds with his camera and secured a first class negative of the society and its workers. At the close they gathered around the verandah and sang hymns turn about with the children of the home, after which they dispersed, as happy a lot of Juniors as ever met together, each carrying a plant and a heartfull of thanks that they wished to bestow upon those who had been so kind to them. On Tuesday afternoon they met again immediately after school to say good-bye to Miss Quinn who has been their superintendent for years. Hymns were sung and Miss Helen Hall stepped forward and read the following address:

DEAR MISS QUINN,—We the members of St. Paul's Society of Junior Endeavour, having learned that you are about to leave us to enter upon work in a wider sphere, feel we cannot let you go without expressing our feeling of sorrow that you are no longer to be with us.

Our association together has been close and endearing. We have learned not only to esteem you very highly for your work's sake, but to love you for your own, and we realize how hard it will be to find one who will take your place amongst us and help us as you have done. It is our earnest desire and prayer that in the wider sphere to which you intend to devote yourself, you may have the presence and blessing of the Master, and that many, through your influence, be led to rejoice to our common Saviour.

We should like you to take with you the accompanying photograph, which may help to remind you of your young friends in Peterborough, who will always hold you in loving and grateful remembrance.

Signed on behalf the society,
REGINALD THOMPSON, Secretary.
ETHEL WHITE, Secretary.

Riggie Thompson on behalf of the Society then presented Miss Quinn with a photograph of the group of the society neatly framed.

Miss Quinn thanked the Juniors for this kindness, saying that they could not if they tried a whole year, give her anything that she would appreciate more. Of all the organizations she was connected with, she felt more sorrow at leaving her own boys and girls. She hoped they would endeavour to help those who followed her, and that if she ever came back she would find them all grown up doing a work for the Master. She said she would remember them continually and asked them to pray for her. All sang "God be with you." Each member bid their superintendant adieu with many tears in their eyes.

This week the Endeavour circles in this county have to bid farewell to one of its most enthusiastic workers. Most of you know that that Miss Quinn has offered herself for missionary work. She leaves on Wednesday morning for New York, where she will enter a training school to fit herself for the higher calling. She has not received any call but has made application through the board of the Presbyterian Woman's Foreign Missionary Association for active work in foreign fields.

To say Miss Quinn will be missed is putting the matter lightly. She has taken such an active part in all branches of the C. E. work that there is no department but will feel the loss. She has worked hard to advance junior work. She has devoted much time to bring about a true interdenominational feeling among the Endeavourers and, in looking over the past, one has to say Miss Quinn has led many a committee through what appeared dark surges. No worker has had more discouragements to contend with than she has and through it all she comes out stronger and braver than ever and not without helping others to be strong also. Every society in the county will miss her. She was known by all. The boys and girls will miss her. She was their dearest friend. The County and Local Unions will feel the loss. But none will feel it so much as St. Paul's society. If we feel sorry at losing her as a friend and co-labourer we also glory with her in the prospect she has before her of going forward to the front to do the greater work of the Master, and the very least we can extend is our heartfelt sympathies and most earnest prayers for her future maintenance in the glorious work she has undertaken.

THE COUNTY EXECUTIVE.

A meeting of the county Executive will be held in the Y. M. C. A. parlour, on Saturday, May 16th, at 10 o'clock a. m. This will be the first meeting of the new Executive, therefore the committee should be fully represented, as the plan of county work for the ensuing year will be discussed and also the appointing of a delegate to the International convention.

SALEM SOCIETY.

For some time past reports from our society have been few and far between, but we expect to be able to give a little better account of ourselves in the future. Our society is now doing good work. We have almost every member of our society doing some line of committee work, thereby utilising their talents for the upbuilding of character. For the past couple of months our topics have been conducted by committees, each member taking some part of the work, which has had very beneficial results.

On last Tuesday evening the Literary Committee had the topic in charge, which was "Choose the Good Part," and was very ably handled, showing to all the necessity of choosing to serve Christ early in life, and the having made their choice to be steadfast unto the end of life, when all will receive their reward. It being also business night, a considerable amount of business was transacted. Our motto is "Onward, upward, heavenward, for Christ and the church.

Low Rents
Make Low Prices.

Panic-stricken merchants may puzzle their heads as much as they like about the way we draw the trade to our store Our customers know we are cutting the life out of "departmental" and ornamental high priced establishments. What with their notorious 30 and 40 per cent. profit, part for the landlord, part for all the modern conveniences, and part for high living; is it any wonder that they are always in trouble how to get along.

Talk About Low Prices

in Millinery and Dry Goods of every kind, as advertised by the high renters. Pshaw! it's only a fairy tale compared with what we are offering this week in every department.

Ladies Blame Themselves

almost every day. They read exaggerated announcements and go next day to secure some of the wonderful bargains, but, as they say, we come to Miss Rudkins and find she has the exact same goods marked 10 to 15 per cent. cheaper—and that is what annoys us. We waste our time thinking we are saving money, when we are really losing money and time also.

Under no circumstances will we be undersold by any store in Dry Goods, Millinery or Mantles.

Come here, get our prices. Make any comparison you like.

No furniture given away—but all the value in your Dry Goods purchases.

London Papers on President Kruger's Speech.

THEY REGARD IT AS UNFRIENDLY

Sentence Imposed on the Reformers to be Reduced—Tenders for Canadian Fast Line Steamships—Madrid People Believe Their Prayers Were Answered.

London, May 6.—The Standard, in its editorial on President Kruger's address, takes the same grounds as The Times, that President Kruger's speech is unfriendly, that the Reformers' sentences have not been revised, and that the presence of Cecil Rhodes is necessary to crush the Matabele uprising. It advises the Government not to recall Rhodes.

The Daily Telegraph says that the Government will not accept the proposal to refer the conduct of Cecil Rhodes and Dr. Jameson to a parliamentary committee. This paper favors a tribunal similar to the Parnell Commission, but says that the Radicals will not agree to this unless Mr. Cecil Rhodes is recalled.

The Daily Mail, a new London paper, says it understands that Colonial Secretary Chamberlain has asked Mr. Rhodes to return to England and that his answer is expected to-morrow. "Meanwhile," says The Mail, "it has been practically decided to recall Sir J. A. De Wett, British agent at Pretoria, and to replace him by a member of the Government. We are also in a position to state that the South African Republic contemplates making Dr W. J. Leyds, at present Secretary of State of the Transvaal, its consul at London."

WOULD TAKE 50,000 MEN

To Conquer the Transvaal—Sir Hercules Robinson Suggests That the British Government Sit Still and Wait.

New York, May 6.—Ballard Smith, who cables from London, hears that President Kruger has in his possession altogether 54 incriminating telegrams, of which he has so far published only about a dozen. Many of those still unpublished are understood to be innocuous, but of the others, several will provide very striking revelations. The critical character of the situation as between Great Britain and the Transvaal, before President Kruger's masterly use of the captured cipher despatches, may be gauged from advices recently given by Sir Hercules Robinson to the Imperial Government, which had invited an opinion from him on the policy adopted. He replied that there were two courses open to the Imperial Government, either to sit still and wait Kruger's action, towards the Uitlanders, or to take immediate warlike measures. He favored the former policy, because it would take 50,000 men to conquer the Transvaal, to say nothing of the consequential troubles and complications it would entail.

LAURIER AND ROSS.

Magnificent Demonstration at Old Quebec.

GRAND WELCOME TO THE LEADER

The Trade and School Questions Dealt With—Hon. G. W. Ross Tells of the Solid Unanimity of the Liberals of the Province of Ontario and Predicts Victory.

Quebec, May 6.—Mr. Laurier opened the campaign in the district of Quebec to-day under the most favorable circumstances. The demonstration on his arrival and the meeting of English electors in the Academy of Music in the evening were ample warrant for his own statement that he had never appeared before the people of Quebec with greater certainty of success. Additional interest attached to the demonstration from the presence of Hon G. W. Ross, Minister of Education in the Cabinet of Sir Oliver Mowat. The meeting in the Academy was composed principally of the English business men. For them the trade question was the most important, and every reference to it was received with the greatest attention. On the platform were several manufacturers, who had hitherto voted Conservative, but in this contest they are with Mr Laurier. The declaration of Mr. G. W. Stephens, M.L.A., one of the hard-headed baineas men of Montreal, that the Liberal policy was not *revolution*, but *reform* of the tariff, was receied with the heartiest applause. Mr. Laurier himself was in splendid form, forcible, eloquent, and convincing, and the meeting was keenly responsive. His declaration that the National Policy was the curse and the bane of the Canadian people was received with prolonged cheering. Quebec is particularly interested in the possibilities of preferential trade wth England, which would restore some of its pristine glory, but he showed that it was possible only on the basis of a revenue tariff, and utterly unattainable under protection. Every reference of Mr. Laurier to Sir Oliver Mowat or Mr. Ross was enthusiastically applauded, and his declaration that if the Liberals won they would see the great days of Baldwin and Lafontaine, because the first man in his administration would be Sir Oliver Mowat, called forth loud cheers. Mr. Ross appeared before the people of Quebec for the first time. Indeed, with one exception, he had never addressed a public meeting in the province before. He was witty, eloquent, sarcastic, and although he began late and did not finish until 11.30 o'clock, not a soul in the audience left.

At Point Rouge Mr. Laurier and Mr. Ross were met by a deputation of Quebec Liberals, consisting of Ald. Gaspard Rochette, Ald. Drolet and Messrs. J. E. Martineau, G. Barbeau and J. Archer, who explained the arrangements made for their reception. About 1500 electors gathered at the Quebec station and hearty cheers rent the air when the distinguished gentlemen alighted from the train.

The Mayor presented Mr. Laurier with an address on behalf of the city. Mr. Laurier, in the course of his reply, referred to the fact that Sir Oliver Mowat would be a member of his Cabinet, and declared that Sir Oliver's name was the synonym of success. He (the speaker) was now chief of the Opposition, but when he next appeared before them he would be Prime Minister of Canada. Every sentence of Mr. Laurier's brief address was punctuated with applause, the names of Sir Oliver Mowat and Mr. Ross being most heartily received, then formed, and, headed by a band, A procession of about 50 carriages was proceeded through the principal streets of the city to the Chateau Frontenac.

In the evening a meeting for the English-speaking electors was held in the Academy of Music. It was handsomely decorated with flags, and among the mottoes around the walls were: "The Country Before Party," "Liberals Vote for Liberal Mowat," "Vote Liberal for Honest Government," "Equal Justice for All," "G. W. Ross." As early as 7 o'clock people began to arrive, and half an hour later the hall was completely filled. One side of the gallery was reserved for the ladies and they turned out in great force. Before 8 o'clock even standing room was at a premium, and hundreds were unable to gain admittance.

When Mr. Laurier, accompanied by Mr. Ross and other prominent Liberals, entered the hall shortly after 8 o'clock, there was an outburst of applause which threatened the roof. It was renewed again with vigor when they appeared on the platform. Mr. Richard Turner, president of the Liberal Club, then presented to Mr. Laurier, the patron of the club, a eulogistic address.

Mr. Laurier was received with a great burst of applause when he rose to speak. Advancing to the very edge of the stage he thanked the people of Quebec for their kindness and warmth. In a sense he was not surprised, for it was dear old Quebec, and this was only another of the many acts of kindness he had received in the past at the hands of the entire population. Everywhere was a feeling that the Government at Ottawa had been weighed and found wanting, that there must be a change of Administration. This feeling was to be found among the farmers, who never felt the pinch so much as at present; among mechanics, who had been waiting for eighteen years for the promised increase of wages; among manufacturers, who expected to gain what they had not found under the National Policy. It was to be found on the tempestuous shores of the Atlantic, the balmy shores of the Pacific, the prairies of the west, the broad and fertile plains of the lakes and the St. Lawrence., That the elections were now at hand was not due to the Government, for they would have waited till the Angel Gabriel appeared in the Heavens, calling living and dead to their account.

Mr. Laurier, in pointed terms, showed the shortcomings of the Government, and in reference to the National Policy, said:

"I take issue with Sir Charles Tupper. We arraign the National Policy by its results.

"Here I may be asked, and I will answer the question. What shall you substitute for it? What have you to offer a instead if it? We are told by way of reproach that we are going to introduce free trade as they have it in England, I am sorry, for my part, being a free trader, that we cannot have free trade as they have it in England, at present; but, while we cannot have it, we intend to have an must have a revenue derived from customs duty, but with this difference between us and the Conservative party: The Conservative party agree that the main basis of revenue must be derived from a customs tariff, but we disagree on the point. They levy their duties not to raise revenue but to favor special interests. Our object will be to raise revenue from customs duties, but to favor the whole Canadian people by taxing everybody equally—(cheers)—by placing an even burden on all shoulders, making the deifference only that those who are wealthy should pay more and those who are poorer should pay less, and by making raw materials as far as possible free. (Applause.) This is the aim and purpose we have in view."

Mr. Laurier, taking up the question of preferential trade, and Mr. Chamberlain's idea of an Imperial zollverein, said: No man but could see the immense possibilities of this policy. If Canada were to have for her products a preference in the English markets, however slight, her products to Britain would treble. To-day England was her best customer for agricultural products. The one condition on which she could have this preference was that against England she should not have any undue preference. Have a tariff for revenue in Canada, and they had it in the words of Mr. Chamberlain and The Times, that England would give her the preference for her products in the English markets.

Coming to the question of the day, Mr. Laurier said: If there is one question above all others on which the Government showed such an utter lack of statesmanship it is the burning question of the Manitoba schools. If there had been at the head of affairs courageous men they would have known it was impossible to settle that question satisfactorily, to give satisfaction to the minority without vexing the majority, if they tried to pander to the prejudices of either party. Sir, there are moments in the life of every man when he has to stand before his God and his Maker for the rights of conscience, whatever the consequences may be. (There was prolonged and renewed cheering at this declaration and it was nearly a minute before the chief could proceed.) We never had such men at Ottawa, for if we had, the moment the complaint of the minority came before them they would have disposed of it, because they would have known that wherever the sentiment of religion comes in, the longer a settlement is postponed, the more difficult a settlement becomes. Instead of settling it at once they endeavored to please those who asked for these rights at the same time that they tried to please those who were opposing the granting of these rights, and they succeeded in doing nothing but displeasing everybody. (Hear, hear.)

Having summarized the historical facts of what was done in the case, Mr. Laurier continued: The Government finally introduced a bill, which was such a miserable thing that, though it was called a Remedial Bill the principle of Remedial Legislation was not within its four corners. (Hear, hear.) If I had been at the head of affairs, though it may seem like boasting to say so, by this time the question would be settled to the satisfaction of the minority without vexing the majority. (Cheers.) My reasons for believing so are these: I am a Catholic, though perhaps not so good a Catholic as I might be, but I would think very little of myself if I thought that I had not as much religion in my heart as those who make a parade of it. Let my words reach Manitoba and every part of the Dominion. I am not in favor of Godless schools. I believe in the teaching of religion in schools. My friend, Mr. Ross, the Minister of Education in the Government of Sir Oliver Mowat—(great cheering)—is with me here on this platform and he agrees with me—(Mr. Ross—Hear, hear)—that there should be religious teaching in the schools. I go one step further. I say to my fellow-countrymen within my hearing, and I wish this hall were filled with Conservatives, that, knowing the people of Manitoba as I do, they, too, are in favor of religion being taught in the schools.

Mr. Laurier continued: But before we try such extreme measures as the constitution provides, let us fall back on the Methods which Sir Oliver Mowat is such a master of. I am proud of the fact that if the Liberals win this next election, as I believe they will—(cheers)—we shall see once more the great days of Baldwin and Lafontaine, because the first man that will come into the Liberal Administration, into the Laurier Administration, will be Sir Oliver Mowat. (Cheers.)

Mr. Laurier predicted victory on the 2rd June and concluded amid loud and prolonged cheering.

Hon. George W. Ross, Minister of Education in Ontario, blamed the Conservative Government for having no policy. He took as an example the conduct of the Bowell and Tupper Administration on the remedial order, its indecision and uncertainty in its Manitoba school policy. It would be hard for anyone to-day to give a definition of it. What a difference with the Liberal doctrine, which is investigated and conciliation. There are about 1,000,000 French-Canadians in Ontario, and they live happily. They are as good loyal subjects of the Queen, although they have their French schools and they speak French wherever they please.

Speaking of the National Policy, Mr. Ross said that the present policy of the Conservatives would cause a revolution in France; such a like policy almost caused one in England, and Wellington foresaw that something had to be done to avoid the crash and the repeal of the Corn Laws was resorted to in time. Hence it is unfair to tax cotton, flannels and other articles worn by the poor on a higher average than the silks and satins of the wealthy class. What we want is a good honest government—honesty as comprehended in the good old Saxon word "honesty." "Oh," said the speaker, "how we love our imperial institutions just for their honesty. In Ontario we are anxious for an honest government; more so now than ever before."

Hon. Frs. Langelier, M.P., and a few others spoke until a quarter to 12, when the meeting was adjourned.

Black Knot.

This is the time of year to look out for black knot on plum and cherry trees. It is regarded as an infectious disease on fruit trees, and the Ontario Act of 1893 provides that a fine of not less than $5, nor more than $20 may be imposed for every case of neglect. Cut off all knots five or six inches below the affected portion, and paint the wound with turpentine or linseed oil. Burn all prunings and affected branches which are removed. United action on the part of all fruit growers is necessary in order to secure the best results from the enforcement of these recommendations.

TO THE ELECTORS OF PETERBOROUGH

And Surrounding Distriet.

GREETING:

We have come out as independent candidates, seeking your suffrage, provided we have in our past dealings with you proved to your satisfaction our worthiness of the same.

In asking for a continuance of your patronage, we would not be unmindful of the fact that the present issues of the clothing business are of great moment and must be dealt with judiciously, all of which has our careful consideration.

Therefore we have no hesitancy in prophesying the hearty support of the people as our just reward.

A WRONG AND A RIGHT NATIONAL POLICY.

This much can be said for the so-called "National Policy," it has never had a fair chance. The best fiscal principles in the world administered with reckless disregard of economy and in disregard of the interests of the country at large, would not be a success. Taxation has been too high and unequally distributed, and perpetual extravagance has required a perpetuation of high taxes. A protective tariff does not involve the adoption of any fixed schedule of tariff rates; these must be determined by the circumstances. A tariff sufficient to produce a revenue to meet the needs of the country might be so framed that the burden of taxation would fall upon all classes and conditions alike, or nearly alike. But a tariff, high or low, that benefits one class at the expense of another is both an injustice and an injury. A tariff which almost protecting manufacturers, and bears more heavily upon raw material than upon manufactured products is, one would think, of doubtful benefit to the manufacturer, and it has the disadvantage of increasing prices to the consumer. Thus the intended beneficiary is not benefitted, and the consumer has to pay for an idea at a positive loss to himself. A national policy of the right kind is desirable, but a protective policy that does not protect and at the same time works an injustice, is an evil. There are inconsistencies in our tariff that should be reconciled. While we are protecting, and aiming at protecting, manufacturers—though they do not get the benefits in proportion to what the consumer is burdened—we should not forget protection for other classes that are larger and as important in their sphere in the political economy. The labourer and working man have no protection similar to that afforded to the manufacturer generally. He may be benefitted by getting employment but he gives as good as he gets—the employer's money is worth only the labour it pays for. But he is not protected against competition from imported labour, while a tariff of 20, 25, 30, 35, 40, 60 and as high as 90 per cent. shuts out foreign competition in the interests of our industries. The foreign labourer or workman can step off a steamer or train and walk up to a manufactory and, if he likes, underbid a Canadian workman or bring down the prices, as is always the result by the supply being increased over the demand. The average employer of labour gets his work done as cheaply as he can. If work is plenty and workmen scarce, wages are apt to be good, but if work is slack and, even, if it is brisk and the supply of labour is in excess, the rate of wages is apt to drop. The labourer is not protected. His muscle is all he has to sell and there is no duty on foreign muscle to keep out competition in his interests. But the tariff taxes his pick (35 per cent.) and his shovel (35 per cent.) in the interests of the manufacturer. This is not fair; and it should be made right; and in the direction of righting such wrongs and giving fairplay to the mechanic and workingman, the Liberal policy of tariff reform aims to work.

Then the farmer has not been considered in the scheme of taxation for protective purposes. There is a free list of 300 articles, of which no less than 113 are intended in the language of Sir Mackenzie Bowell, "for the express benefit of the manufacturers." On this list the only free articles that interest the farmer are thoroughbred stock and fowls, tea, coffee, timber, corn for ensilage, and some kinds of lumber partly manufactured. But there are scores of articles that the farmer must have that are heavily taxed, such as threshing machines, 30 per cent.; cut nails, 70 per cent.; harness, 30 per cent.; scythes, 35 per cent.; shovels and spades, 35 per cent.; iron, 45 per cent.; coal oil, 35 to 95 per cent.; and so on through a long list. It may be said that these things can be produced at home—that's what protection is for—and the duty thereby saved. That don't save the farmer; he still has to pay the piper, for Mr. Foster, in his budget speech of 1894, when the tariff was revised in the interests of the manufacturers, chiefly, said that the effect of protection was to increase the price of goods "very closely up to the measure of protection provided." "If it (protection) does not have that effect," says Mr. Foster, "why should it ever be adopted at all, and what is it good for?" Thus we have protection for the manufacturer; and the farmer is forced to pay for it without enjoying anything like protection in his industry. This is not right. Any scheme of protection based on a tariff is wrong, that does not take into account two great producing classes of our country, the working man and the farmer, as well as that other important class, the manufacturer, but, on the contrary, compels these to pay higher prices for the benefit of the protected manufacturer, without receiving any protection themselves, is unjust and wicked.

It is the policy of the Liberal party to put these things right. Unfortunately it is out of the power of the Liberals to greatly reduce taxation at the beginning. Our former rulers, who are asking for another term, have so increased the expenses of running the national household by their extravagant style of living and waste that the taxes have to be maintained (at too high a pitch,) in order to produce a revenue. But when, by the practice of economy and the stopping up of the leaks — the biggest leaks appear to be in our canals, though they cost so much—it may be possible to cut down the taxes a great deal and still afford protection to our manufacturing industries. But one thing the Liberals can and will do. They can shift the burden so that it won't rest altogether on the backs of one or two classes for the benefit of a smaller class and one better able to bear it. A national policy is all right, but it must be a national policy of the right kind that will not aim to protect the few at the expense of the many. That will not give an artificial prosperity to a few at the expense of the many, but that will distribute the benefits as well as the burdens of any protection that results from necessary taxation, so that prosperity may be generally diffused and national development be as general.

WESTWOOD.

(From Our Own Correspondent.)

The Y. P. S. C. E. meetings are well attended and the society is meeting with unbounded success.

On Sunday, April 19th, the topic, "What we should be doing to save the lost," Luke xv., 1-10, was taken by Miss M. Breakenridge, who in a well written essay, well and ably handled her subject. Among many good things brought out was the following idea:—"We are responsible as Christian Endeavour workers if we do not warn sinners of their evil ways, and that we should show by our lives a goodly example to those with whom we mingle day by day.

On Sunday, April 26th, the topic, "Choose the good part," Luke x.. 38-42, was taken by the President, Mr. Jos. A. Metcalf, who in a few well-chosen remarks, dealt with his subject in a masterly manner. The President closed his remarks by saying, "By the choice of the good part we have the promise of all required blessings in this world, and life and eternal happiness in the world beyond the grave.

The Y. P. S. C. E. meets every Sunday evening at 7.30. All are welcome.

The following is the honour roll of Westwood public school for April: Junior I—Annie Dickson, Jos. Doherty, Johnnie Drummond. Senior I—Goldon Breckenridge, Bertha Lobb, Laura McColl. Part II—May Cardwell, Fred Doherty, Annie Walsh. Second—Gracie Metcalf, Mabel Lobb, Nelson Gray. Junior third—Annie Slade, Lizzie Sharp, Albert Comstock. Senior third—Louis Comstock, Harry Comstock, James Comstock. Fourth—Mina Slade, Frank Walsh, Laura Cardwell. Fifth—Bella Sharp, Aggie McGrath.

On Arbor Day the teacher here and his pupils worked hard all day beautifying the school grounds and planting trees.

The "sucker hunt" at Squire Breckenridge's on May 1st was a great success. About one hundred took part in the sport, and all went home with suckers, delighted with the sport, and feeling that the Squire was a "jolly good fellow."

A CLOSE SHAVE

A TALK WITH THE MAN WHO EXPERIENCED IT.

People really do not know how often the angel of death hovers over them. Mr. R. P. Watkins, 173 Bay st., is a barber by trade, and gave our representative this short history of his escape from the disorder which was rapidly carrying him to his grave. Mr. Watkins is a skillful and experienced man, and is now enabled to exercise his skill from morning till night, where before he was unable to regularly follow his chosen calling. This is Mr. Watkins' story as related by himself.

"For over three years I have been troubled with what the doctors said was Bright's Disease, was getting rapidly worse, and could scarcely attend to my business. My ankles were swollen, the pain and heat in my back were almost unbearable, the urine was of a dark wine color, and it used to dribble away continually. I had to rise 9 or 10 times each night to void the urine, and consequently lost nearly all my sleep. The scalding heat and pain in passing the urine were painful and distressing beyond my feeble power to describe. People who did not know my trouble used to laugh at my frequent visits to the urinal. My hands and feet were always cold and clammy, and I suffered severely from palpitation, shortness of breath, and was, in fact, almost a total wreck. I got a box of Doan's Kidney Pills from Messrs. E. Hooper & Co., and improved at once. I have used two boxes and feel like a new man; can now work right along and at 12 p.m. feel like working right ahead. Had I not got those pills I feel that I would not have been working to-day. My words only faintly express the dreadful condition I was in, and the wonderful cure made by Doan's Kidney Pills."

GALWAY.

(From Our Own Correspondent.)

An old log barn belonging to Mr. M. Hickey was totaly destroyed by fire, last Saturday night; it was situated about half a mile from the farm upon which Mr. Hickey resides, and contained a small quantity of hay and some farming implements. Cause of the fire is a mystery.

Mr. R. J. McLaughlin, the Liberal candidate for North Victoria, held several meetings here last week. He was accompanied by Mr. Dickson, of Fenelon Falls, president of the Reform Association of North Victoria. All the meetings were well attended. The fight is going to be a triangular one between the three candidates already in the field, but there is no doubt that McLaughlin will be elected, as the idea prevails in the minds of the people that the country should have a change of government.

John McGee had a ploughing bee last Tuesday. It was the largest one of the kind that was ever in the township. Twenty-one ploughs were at work all day. Mr. McGee was well pleased with the result of the day's work. A party of young folks assembled at his residence in the evening indulging in dancing, etc., which ended the scene.

NEWS FROM OTTAWA

Preparing to Take the Census of Manitoba.

MR. ST. DENIS WILL BOSS THE JOB

Those Cases of Glanders in the Old Country—Marriage of Prof. Robertson—Young Bert Brewer Seeks Annulment of His Nuptial Contract—Notes.

Ottawa, May 6.—(Special)—E. St. Denis, assistant to the Dominion Statistician, leaves for Manitoba in a few days to make arrangements for taking the quinquennial census of the province. Commissioners will be appointed for each of the seven districts and they, as well as the enumerators, will receive their instructions from Mr. St. Denis, who will make his headquarters in Winnipeg. The time for making the enumeration will be fixed on Mr. St. Denis' arrival in Manitoba. The census will be simply one of population, information relating to origin, religious belief, etc., being left over until the decennial census of 1901. The Manitoba Government claim that the present population is 250,000, an increase of 100,000 since 1891. This year's census will demonstrate how correct Mr. Greenway's estimate is.

Fisheries Inspector Sheppard, under instructions from the Department, has visited Lake Simcoe to investigate the alleged illegal fishing, especially in Cook's Bay. He reports that some black bass had been illegally taken, but the reports on the whole were exaggerated. The local officers had already made two or three seizures, and with beneficial effect.

According to reports published in the English newspapers the outbreak of glanders in Liverpool is held to be attributable to Canadian horses landed there. At the request of the Minister of Agriculture the matter has been investigated, with the result that it has been clearly demonstrated by Liverpool vets. that the spread of glanders in that city is attributable to American horses, which are troubled with a pulmonary complaint. This has also affected English horses, and by weakening their vitality, has rendered them more susceptible to the disease.

A writ has been entered in the High Court of Justice to annul the marriage of Mr. Bert Brewer, son of Mr. R. H. Brewer, late accountant of the House of Commons. On the 17th of November, 1891, Mr. Brewer was married to Isabella Thomas, when he was but 19 years of age. It is alleged that she represented herself to be a widow, knowing at the time that she was a married woman, and her husband still alive, hence the action to have the marriage cancelled and declared null and void. The plaintiff, R. B. Brewer, is well known as a violinist and held a good social standing while he resided in Ottawa. He now lives in Orange, Mass. The case will be heard before Mr. Justice Boyd at the next High Court.

It is reported around town to-day that Mr. J. R. Booth, the well-known lumberman, will likely be the Conservative candidate for Ottawa. Failing him, the name of Mr. Hiram Robinson is mentioned. Yesterday Mr. Robillard, ex-M.P., sent a letter to the Secretary of the McVeity Association, stating that, inasmuch as the nomination tendered by that body is only representative of a portion of the Conservative party, he cannot see his way to accept it.

The marriage of Prof. Robertson, Agricultural Commissioner, to Miss Mather, daughter of Mr. John Mather, of this city, took place this afternoon. The ceremony was officiated over by Rev. W. T. Herridge. Miss Eva and Miss Jean Mather supported the bride, and Mr. Hunt of New York, a close friend of Prof. Robertson, was groomsman. The marriage was a quiet one, only the immediate friends of the contracting parties being present, among whom were Mr. John Robertson of Fredericton, father of the groom; Mr. John Robertson of Glasgow, and Mr. Robert Robertson of London, brothers. After the wedding, a reception was held, a large number of prominent citizens calling upon Mr. and Mrs. Robertson.

Letters Come.

Letters come day by day telling us that this person has been cured of dyspepsia, that person of Bad Blood, and another of Headache, still another of Biliousness, and yet others of various complaints of the Stomach, Liver, Bowels or Blood, all through the intelligent use of Burdock Blood Bitters.

It is the voice of the people recognizing the fact that Burdock Blood Bitters cures all diseases of the Stomach, Liver, Bowels and Blood.

Mr. T. G. Ludlow, 334 Colborne Street, Brantford, Ont., says: During seven years prior to 1886, my wife was sick all the time with violent headaches. Her head was so hot that it felt like burning up. She was weak, run down, and so feeble that she could hardly do anything, and so nervous that the least noise startled her. Night or day she could not rest and life was a misery to her. I tried all kinds of medicines and treatment for her but she steadily grew worse until I bought six bottles of Burdock Blood Bitters from C. Stork & Son, of Brampton, Ont., for which I paid $5.00, and it was the best investment I ever made in my life. Mrs. Ludlow took four out of the six bottles—there was no need of the other two, for those four bottles made her a strong, healthy woman, and removed every ailment from which she had suffered, and she enjoyed the most vigorous health. That five dollars saved me lots of money in medicine and attendance thereafter, and better than that it made home a comfort to me.

THE BRAVE TIDSBERRY

Likely to Receive the Medal for Bravery—The Tale of the Razors

Toronto, May 7.

County Constable Tidsberry was sufficiently recovered from his wounds yesterday to come into the city to communicate with the Detective Department in the matter of the three desperadoes arrested on May 1, just east of Little York.

The chamois case of six razors and the pair of clippers found upon their persons have been claimed by John Huntly, a barber of Glencoe, Ontario, who says they were burglarized from his store not many days before the gang arrived in the Toronto suburb. The razor blades bear the engraved name, "Swift," as stated in Huntly's letter, and though the number of instruments found falls one short of that enumerated by him, one pocket of the case, it can clearly be seen, has been cut away.

The facts of the fight and subsequent capture having come into the hands of the Royal Canadian Humane Association, Governor of Awards H.P. Dwight has expressed his determination to secure, if possible, the society's conspicuous bravery medal for County Constable Tidsberry, and, if possible, some recognition for the gallant services of Market Gardener Sidwick, his son Allan and Michael Birlow of the G.T.R. These awards are bestowed by the Canadian Society, and, if Governor Dwight succeeds in his endeavor, would be awarded by another month.

A Great Book Free!

When Dr. R. V. Pierce, of Buffalo, N.Y., published the first edition of his great work, The People's Common Sense Medical Adviser, he announced that after 680,000 copies had been sold at the regular price, $1.50 per copy, the profit on which would repay him for the great amount of labour and money expended in producing it, he would distribute the next half million free. As this number of copies has already been sold, he is now giving away, absolutely free, 500,000 copies of this most complete, interesting and valuable common sense medical work ever published—the recipient only being required to mail to him at above address 21 one-cent stamps to cover cost of mailing ONLY, and the book will be sent post paid. It is a veritable medical library, complete in one volume. Contains 1008 pages, profusely illustrated. The Free Edition is precisely the same as that sold at $1.50, except only that the books are in strong manilla paper covers instead of cloth. Send NOW before all are given away.

AN EARTHQUAKE IN ECUADOR.

Many Houses Thrown Down and People Buried Alive in the Ruins.

New York, May 6.—The Herald's correspondent in Guayaquil, Ecuador, telegraphs that the Province of Manabi suffered terribly on Sunday from an earthquake. In Puerto Viejo houses were thrown down, many persons were buried alive in the ruins and many others injured. The Province of Manabi is in the northeastern part of Ecuador.

IMPORTERS KICKING

Because the Railways Have Increased Rates for Ocean Goods.

Montreal, May 6.—The importers here and elsewhere are kicking over the fact that the Canadian Pacific and Grand Trunk have increased their through rates for ocean goods, when less than a car load is sent forward, the full car load remaining as before. Some of the dealers have complained that they sold goods based on the railway rate of last year, and were consequently down to lose money. Your correspondent interviewed the general traffic managers of the two roads, and their answer was identical. Messrs. Loud of the Grand Trunk and Bosworth of the Canadian Pacific said they regretted that the dealers had made their sales before ascertaining the rates over the railway. They added that the year's tariff expires at the close of navigation, and no one has any possible justification for supposing that the rate for 1896 shall be the same as for 1895.

JAMES J. HILL IN GREAT LUCK.

The Canadian President of the Great Northern and His Coal Bonanza.

Chicago, May 6.—A special from Duluth, Minn., says: Vast beds of anthracite coal, which are said to rival in richness and extent those in Pennsylvania, have been discovered in the northern part of the state, and James J. Hill, president of the Great Northern Railway, is their sole owner, having recently purchased 25,000 acres of the land on which the coal os located. He is now developing the property and will, it is claimed, soon extend his railroad from Park Rapids to the coal fields, which are located in the country bounded by Little Fork River, the Red Indian Reserve and the Rainy River, in the extreme northern part of the state.

SHE WILL BE A TOTAL LOSS.

The Crew of the Fearing Were Taken Off Her Early in the Morning.

Highland Light, Mass., May 6.—The steamer reported ashore on Peaked Hill bar is the British steamer Forest Holme. She worked off the bar and proceeded towards Boston at 5.40 a.m.

The vessel which went ashore at Cahoon's Hollow at Midnight is the Daniel B. Fearing. Capt. Clifford and crew of eight men were taken off in the lifeboat by Capt. Cole and crew of Cahoon's Hollow life saving station at 2 o'clock this morning, after a hard struggle with wind and sea. The vessel will be a total loss. She was in command of Capt. Clifford, and was from Philadelphia for Boston with coal. She is owned by C. B. Reynolds of Newport.

FOUR LIVES LOST—$100 DAMAGE.

A Coal Oil Stove Explodes in the Apartments of Mrs. Cohen, New York, With Awful Results.

Brooklyn, N.Y., May 5.—Four persons lost their lives this morning in a small fire in the apartments of Mrs. Rebecca Cohen, on the third floor of the four storey brick building at 234 Johnson-avenue, this city. The dead are Mrs. Cohen, Mrs. Postarnek and Mrs. Cohen's two children—Karl, 2 years old, and Solomon, 3 years.

The fire started shortly after 9 o'clock with the explosion of a small oil stove. Mrs. Cohen was standing near it, and the burning oil ignited her clothing. She attempted to extinguish the flames, but was not successful. Alarmed and frightened, she ran into the hallway and into the rooms occupied by Mrs. Postarnek. The latter made an effort to save Mrs. Cohen, but while doing so her own clothes caught fire. Both women were found in the hallway by the firemen when they arrived. They were burned about the body and head. They were carried to the street, where they expired. When the firemen entered the Cohen rooms they found the two boys lying on the floor, with their clothes a mass of flames. The burning clothes were hastily torn from them, and the youngsters were carried downstairs and taken to St. Catharines Hospital. They died shortly after their arrival. Two other children whose names could not be ascertained were also burned and had to be taken to the hospital. The fire did a damage of $100.

Charged With Embezzlement.

Donald Clarke, a bookkeeper in Mr. A. W. Carscallen's bank at Marmora, came up for preliminary hearing at Marmora, yesterday, before Justices of the Peace Nihill and Connors, on the charge of having falsified his books and also having misappropriated about $400 to his own use. He was committed for trial and was taken to Belleville and placed in jail. Clarke, it will be remembered, was arrested at the Peterborough station on the strength of a telegram from the Havelock constable, who was after the man. The prisoner had many friends in this district, who will sympathize with the family in the disgrace which has fallen upon poor Don.

AN ELEVATOR CRASH.

Two Men Have Narrow Escapes From Instant Death.

This morning as some furniture, which was stored in the third flat over the Peterborough Music Store, was being removed on the elevator, an accident occurred which very nearly cost Messrs. D. Belleghem and James Reid their lives.

The elevator has not been working well for some time and before bringing the furniture down on it Reid made some changes in the pulleys, etc., and when he thought that he had everything arranged properly signalled the men to withdraw the boards which were supporting the elevator. They did so and were horrified to see the elevator disappear in a twinkling. It traversed the distance intervening between the third and fourth floors like a flash and went crashing through the floor into the cellar.

The shock of the car coming in contact with the floor hurled Reid the whole width of the store, and when he was picked up he was almost unconscious. No bones were broken but Reid's face is badly cut and his body badly bruised.

Mr. Belleghem's narrow escape consisted in the fact that just a moment before the accident occurred, he was standing directly beneath the elevator, and at the time it fell, was not more than a foot away from the spot when it broke through the ground floor and crushed into the cellar.

RUNAWAY ACCIDENT.

Both, however, were able to go on to Lakefield after procuring a new carriage.

RAILWAY NOTES.

Sparks From the Wheels—Cinders for the Eye.

Mr. George Adams will move to Lindsay, which point will be his headquarters hereafter, as a special freight conductor.

The Globe says:—The Canadian Pacific local express from Peterborough was detained an hour yesterday morning, owing to the breaking of the eccentric of the engine.

The advantages of having a Toronto man as a District Passenger Agent on the Grand Trunk Railway is apparent in the fact that the Stony Lake region is liberadvertised this year.

It is understood in railway circles that the Canadian Pacific Railway authorities will do away with the pay car system and introduce the cheque system, the same as now in use on the Grand Trunk.

Quite a crowd watched the big C. P. R. pile driver at work this morning at the local station, under the direction of Mr. Joe. Kimberley. A large number of piles were driven into the bed of the creek to strengthen the railroad bridge spanning it at this point.

Mr. J. Walsh, who for a year past has had charge of the Grand Trunk shops at Brock street, Toronto, has been transferred to Montreal, where he will go into the car shops. Mr. Walsh came to Toronto from Brantford. Mr. John Hodgson, the assistant superintendent at Brock street, Toronto, has been appointed to the position superintendent.

Mr. Chas. Pym, of Lindsay, fireman on the Haliburton train for some time past, has taken a responsible position in the G. T. R. sheds in Peterborough, where he will have charge of the engines. The change was brought about owing to his health not being sufficiently rugged to stand the strain of firing. It is probable that Mr. C. Price, who has been firing on the Midland shunter at Lindsay, for some time, will take the position vacated by Mr. Pym.

THE WORKINGMAN'S BENEFIT?

To the Editor of the Examiner:

DEAR SIR,—Would some of the advocates of high taxation, as we have it under the National Policy, tell us how and to what extent the employees of the Peterborough Lock Works have benefitted by the National Policy? Does the benefit consist in working eight hours a day and an average of four days a week? This amounts to about 50 per cent. of what workmen should get to be fairly prosperous—32 hours a week, instead of 60 hours. And while employees are eking out a bare subsistance for themselves and families, with no rainy day nest egg possible, the company is declaring good dividends except during the period when certain financial irregularities are said to have occured. The dividend of the employee is not very large—it's got to be divided mighty small to make it go round a household. I should like some one to point out how the National Policy is benefitting the workingmen mentioned to any great extent.

Yours truly,
WORKINGMAN.

SERVICES PAID FOR.

On motion of Mr. Doris, seconded by Mr. Hickey, Miss Casey was voted the sum of $3.00 for services during the absence of Miss Ryan.

A SPECIAL COMMITTEE.

Moved by Mr. Sheehy, seconded by Mr. Gosslin that the V. Rev. Local Superintendent, the chairman and Mr. T. B. McGrath be a committee to consider the communications from the teachers of the Central school and report at the next meeting.

The motion was carried.

The Board then adjourned.

PERSONAL.

Mr. J. T. Benor, of Havelock, is in town to-day.

Mr. G. Green was up in the city yesterday on business.

Mr. J. W. Fitzgerald was in Toronto yesterday and was registered at the Rossin.

Messrs. W. J. Nealon and W. E. Raulson of Campbellford were in town this afternoon.

Mrs. Paul Stoeving arrived on the noon train to-day from Denver, to visit her parents, Mr. and Mrs. Wm. Loch, Hunter street.

Mr. Dan McCabe, who is pitching for the Farnham, Que., team this year writes to say that he is doing well there, having been provided with a situation on a newspaper.

Miss Ada Hansen, of Oshawa, whose beautiful voice has won a warm place for her in the hearts of those privileged in hearing her in Peterborough on various occasions, arrives this evening to spend a couple of weeks with Mrs. John Crave, Gilmour street. Miss Hansen will assist St. Paul's choir in a song service on Monday evening next.

NEWS NUGGETS.

Paragraphs Picked Up and Pencilled for Public Perusal.

—The maples are almost in full leaf.

—Nine tramps spent the night in the cells.

—The season for pink lemonade and excursions will soon be here.

—Over 1,100 new trees have been set out in the Nicholls Park this spring.

—The Belleville street railway proposes greatly extending its lines this year.

—Mayflowers are plentiful, and are being eagerly sought by those botanically inclined.

—The Queen's Own Battalion, of Toronto, spend the 24th in Kingston. The council has granted $300 to entertain the visitors.

—Harry Brown was given ten days this morning by the Magistrate in which to kill or get rid of a vicious dog which he owns.

—The Chief of Police has prepared a list of citizens who have neglected to take out their dog tags and summonses will be served immediately.

—A citizen was fined two dollars and costs this morning for allowing his temper to get the best of him and striking a young lad with a stick.

—The street railway is raising and placing the track in position below King street, and the whole line will doubtless soon be in operation.

—Life is real, life is earnest,
But from fate there's no appeal,
Girls will understand the reason,
When they tumble from the wheel.

—Hon. John Haggart, Minister of Railways and Canals, and Hon. John F. Wood, Controller of Customs, are expected to speak at the Conservative Convention on Saturday.

—The perfume attraction at the Golden Lion has drawn out an unusual attendance of ladies during the past two days, who have taken much interest in the delightfully delicate Harrison's perfumes.

—Several bad land slides occurred this spring in the cut on the Chemong branch near Dixon Park. A portion of the line is covered to the depth of several feet, and in another place the rails and ties are shoved out of line for some distance.

—Residents in the north end complain of the reckless driving indulged in by some young men in the evenings. They are not satisfied with making a race course of the streets but are given to hooting and yelling that would shame a Comanche Indian.

I'd like to make exchange at once,
On terms extremely low,
One dancing girl of queenly grace,
For one who'll swim and row.

I also have in stock a maid,
Who knows the tramp in whist;
I'll trade her for a hammock girl
Who wouldn't scream if kissed.

—To-morrow night, Darkest America, Al. G. Field's refined Negro Minstrel Company will appear at Bradburn's Opera House. The prices for this engagement have been lowered to 25, 35 and 50c. This is the largest Negro Minstrel Company travelling, surpassing everything ever before organized. Watch for the street parade at noon and band concert in front of the Opera House at 7.30 p.m. to-morrow.

THE INDEPENDENT CANDIDATE

WITH reference to the Third Party candidate, the Review endeavours to relieve the Conservative party of the responsibility of Mr. Newman's candidature in West Peterborough. Now any ordinary school boy knows that the disaffected Conservatives have brought the Independent candidate to Peterborough, for the reason that they could not and would not cast their votes for the corrupt and extravagant "nest of traitors" at Ottawa, calling themselves a Government. If it had not been for the bigotry and religious prejudice aroused by the Review and the Conservative party during the last two or three Provincial election campaigns, there would not have been the field that now presents itself for an appeal to the prejudices of the community and there would have been no candidate occupying Mr. Newman's platform. We all know that the basest appeals were made to the Protestant electors by every Tory heeler in the Riding, while the "Equal Rights" candidate, anticipating the bulldozing role of Sir Charles Tupper, read the intelligent Conservative Roman Catholics out of the party and said he did not want their votes. All the advantages that could be given the party by repeated meetings of Margaret L. Sheppard were only too eagerly grasped, and now Mr. Newman, an advocate of the same platform, is brought out by Conservatives—though discontented Conservatives—and then we are asked to believe that these gentlemen have acted in the interests of Mr. Hall. We all know that the discontented Conservatives referred to would not vote for the old line party candidate, and, therefore, every vote cast for Mr. Newman is a vote that would, in all probability, have gone to Mr. Hall, if only the two straight party candidates had been in the field. Tell such a story to the marines.

Muskrat Skins.

The Lindsay Post says: Several Indian trappers from Chemong village came up this morning on the Esturion with packs of muskrat skins, the open season having closed on May 1st. Mr. T. Armstrong, of Fairweather & Co., secured the bulk of the pelts, Mr. John Flurey taking the balance. In all Mr. Armstrong has purchased over 1,506 pelts this season, and thinks that the entire catch in this vicinity would total about 2,500. The price paid was higher than last season, as the fur is exceptionally good.

A woman never really knows the meaning of happiness and content until she is the mother of a healthy, happy child. The health of the child depends on the health of the mother, both before and after birth. Most all of women's weakness and particularly the weakness that most strongly influences the health of children, comes from some derangement or disease of the distinctly feminine organs. Dr. Pierce's Favourite Prescription will cure troubles of this nature. It should be taken regularly by every woman during the entire period of gestation. It gives strength to all the organs involved, lessens the pains of childbirth, and insures the health of both mother and child.

APRIL WEATHER.

Mean Temperature Higher Than the Average of Fifty-five Years—Highest Average Temperature Ever Recorded in April on the 17th—Rainfall Only About One-Third of the Average.

The weather for April, as noted at the Toronto Observatory, records the following phenomena:—

Temperature — The mean temperature was 44.10, being 3.18 higher than the average of 55 years, and 0.75 higher than April, 1895. The highest temperature, 79.7, occurred on the 17th, and the lowest, 18.3, on the 4th. The warmest day was the 17th, mean temperature, 64.32, and the coldest the 3rd, mean temperature, 22.15. On each of 21 days the mean temperature was above the average of that particular day, and below on 10 days. The extreme temperature of the 17, 80, has only been equalled three times during the previous fifty-five years—in 1842, when in was 90. in 1846, 82, and in 1881, 81. Each of these cases occurred later in the month. The 17th of the past month was certainly the warmest day (average) ever recorded (64.32) in any month of April in the history of the Observatory, the average of the day when 90 degrees was recorded in April, 1842, being 63 45.

Precipitation—Rain fell on 12 days to a depth of 0.730 inches, being 1.471 below the average; heaviest day's falls, 0.225, on 1st. The amount of the rainfall, 0.730 inches, is only about one-third of the average quantity. The years in which a small or less quantity fell, were 1879 0.690; 1881, 1.075; 1884, 0.630; and 1894, 0.620. It is a somewhat singular coincidence that the rainfalls during these years were all considerably below the average amount.

Snow fell on 2 days to a depth of 0.3 inches, being 2.2 below the average; heaviest days fall. 0.2 on the 2nd.

The mean temperature in Peterborough, was 46.34. The highest temperature was 76, on the 17th. and the lowest 13, on the 4th. The warmest day was the 17th, mean temperature 08, and the coldest day was the 4th, mean temperature 21.50.

SPORTING PASTIMES.

Wheel Talk and Items of Local and General Interest to Sportsmen.

THE WHEEL.

A bicycle cinder path between Oakwood and Lindsay is the newest thing in bicycle circles. The proposed track will be built along the side of the Oakwood road a foot in width. It is said that Lindsay and Oakwood people will each build half of the road.

Quickly to bike and quickly to spin makes a man tired, perspiring and thin.

He who mounts and rides away may make a record some fine day.

Promoters of race meets are considering several plans to abolish special pace-making and at the same time to observe some regulations favouring fast time in competition events.

A bicycle trainer who follows the racing circuit makes the following suggestion:—

Let the race meet promoter offer but $50 for mile races run in 2 20, which is the time limit, the actual prize to be $25, and for each lap a prize amounting to one half of the first prize. This is for a race run within the 2 20 limit, but slower than 2 15. No prize to be given unless the time is 2 20 or better.

For a race of 2 15 or slower than 2 10, the first prize to be $50 and the lap prizes each $25, or one-half the first prize, thus making the race worth $100. For a race of 2 10 or slower than 2 05, the prize may be $75 for first position and $37.50 for each lap, the race costing $150. For a race of 2 05 or slower than two the first prize may be $100 and the lap prizes each $50, the race costing $200. For a race of 2 00 and slower than 1.55, the first prize to be $150 and the lap prizes each $75, or $300 for the race.

Any of the races run under 2.10 without pacemakers, would be worth the investment. In a race of this kind, the man who wins a lap must keep inside the distance limit of 150 yards to the finish of the race or not receive his prize, thus keeping up the interest in the contest all through. In this way the man winning two laps of the race and staying in to the finish, receives as much as the man who wins the race. There is a still more commendable feature.

It is possible for three men to each ride a lap, or pace a third of a mile in forty seconds, and such time would mean 2 00 gait. Racing in this way is likely to pay, and the public will be more than satisfied. This system of a race will have several trials before the circuit riders come East.

Drivers of vehicles, without distinction between the handler of a pair of swell thoroughbreds, either owner or liveried coachman, and the half-drunken teamster, apparently vie with each other in their attempts to drive over cyclists. That there are exceptions to the general rule has been proven but the cases where a driver of a horse has any consideration for a rider on a bicycle are so rare that any sweeping statement in regard to the desire to run down cyclists is true of the jehus. A bicycle rider in a collision is a pigmy against the smallest horse driven vehicle. Yet this decided advantage is thought to be all right by the reckless, and often inhuman, drivers. Most drivers will when turning a corner take the left hand side and near the curb, when they should by law and custom make a detour and "go wide." With the increasing number of wheelmen their power, merely by force of membership, should compel drivers to recognize equal rights on the road.

GOLF.

The observant Hindoo on his return home from a tour abroad described billiards to his countrymen as a game in which one man struck a ball with a stick, and said "hard lines," and then another man striking another ball with a similar stick, said, "D—n." How refreshing would be the ideas of this intelligent gentleman on golf, "as she is played," could we but have them. To the onlooker, who, knowing nothing of the game, tries to find out its object from watching the players, it must present some exquisitely funny moments; there is often so tiny a morsel of result to such an intensity of effort.

If golf were not so serious an occupation it would be funnier. That seems an obvious platitude, but it is not so; for only deliberate, preconcerted, seriousness could prevent the other players from laughing at the sight of an able bodied man, stripped to his shirt and knickers, armed with a long, heavy-headed, supple-shafted club, taking deliberate aim at a little inert ball, making a calculated impressive swing, and—missing it, or only driving it, say, twenty yards, is a direction he obviously did not intend it to go. We have all laughed heartily at less many a time, but it makes one shudder to think what would follow upon even a smile on such an occasion. Often the player increases the humour of the situation by gravely explaining; as when he says, "I always think at the top of my swing." A vacuum for the intellect is evidently his desideratum. Or, "Just as I was coming down on the ball I remembered that dollar I owe you, old chap," an excuse which has the merit of being fully appreciated. "Pay it now in case you miss again," was the considerate reply.

On another part of the course you may see this same player standing knee-deep in a dirt heap, which in a normal state of mind he would go fifty yards about to avoid, and striving to extricate a ball, once white and round, by means of a number of clubs apparently made "so as yer can't do it." Nobody laughs, however. His opponent looks on quite gravely, and when the rubbish has been banged about and churned up and the ball emerges, he says, solemnly, yet with something of suppressed exultation, "That's the four more." The ordinary boy drops an old ball he has found into the same heap, and with a branch of a tree whips it out, wondering what the "four more" is.

TO A BRAKE.

"Brake, brake, brake, on thy firm, smooth tire,
O, wheel,
And I guess that my tongue best utter the
thoughts that over me steal.

"For I think of the rides I've ridden with no
other brake than feet,
Of the carts I've missed and the vans I've
escaped while skimming down the street.

"And I think of another pound of brake, or
more, as the case may be,
That will add to the burden of every ride, if
placed, my wheel, on thee."

And the wheelman sang as he sped along and whistled a merry trill,
And by and by he wheeled his wheel to the brow of a nawsty hill.

And the wheel went on, and the wheelman, too, down the declivity steep;
They landed somewhere, or thereabouts, in a languid, tangled heap.

And the wheelman uttered in a feeble voice, "I m sorry that I spoke.
Just for the lack of a pound of brake my wheel and I are broke."

(From Our Own Correspondent.)

Best of spring prospects, clover and spring wheat safe. Farmers well advanced with seeding.

Quite a number of idle men here who appear willing to work but nothing offering for them to do. Farmers say they can't pay the wages they want.

Mr. Cummings, manager of the Windsor House for Toronto Brewing and Malting Company, is keeping a quiet house—much ahead of anything in every respect in the history of this hotel.

A large number of our citizens attended the Conservative convention at Lindsay on last Saturday, and also some Reformers, with the intention of hearing Dr. Montague, who failed to turn up. Dr. Vrooman of Little Britain was the unanimous choice of the Conservative party, Chas. Fairbairn resigning to supply a Government job. The choice of a candidate caused smiles all around by the Tories. Mr. Geo. McHugh, the Reform candidate, and his party are very hopeful, more so since hearing of Sir Oliver Mowat's offered assistance.

The 24th of May celebration promises to attract quite a crowd. A baseball and football tournament amongst the county schools will be one of the leading attractions.

SALES MAY COME AND SALES MAY GO

—BUT—

ROBERT HALL'S SALE

GOES ON, ALL THE SAME.

Nothing can stop it. The outburst of Bargains has given such a momentum to our Sale, that has started it off at a lively gait this week. We are in it to stay until stocks are cut out clean.

LEVELING PRICES

On all the floors and in all the departments, and mowing down the profits, so that nothing but the bare cost is left, is the sum and substance of our daily routine these days. But the strongest attractions this week is the

Merciless Sacrifices in Millinery and Mantles.

The offerings include the whole of our special display of Trimmed Millinery in all the very latest tints and styles from Paris, London and New York—Newest fancies in Feathers, Flowers and Trimmings—Spring styles in Ladies' and Misses' Mantles, Capes and Jackets. It seems too bad that such beautiful goods should be sacrificed in this way, but we've put our hands to the plow and we can't turn back.

Perhaps more than half the folks who come here have looked all around the other stores. We hope so. We believe in intelligent comparisons and welcome them and if at any time you buy anything here that isn't exactly right bring it back and get your money. The Bargains have not been equalled—nor are they likely to be. Not a line should escape your notice. We're getting out of business, sure.

The Multi-Murderer Pays the Penalty.

Holmes, the fiend who was guilty of so many atrocious murders, paid the extreme penalty of the law at Philadelphia this morning.

Strength for the Aged.

As age advances the recuperative power of the body decreases. Fatigue clings like a burr to the already depleted store of energy, still further wasting and dissipating it, and in consequence, the elderly find it very hard to keep their spirits up to the "doing" point. An anchor of hope and safety is found in the energizing action of Maltine with Coca Wine, which imparts, almost magically, strength and vigor to the failing powers, and through its nutritive and tonic properties renews those functional activities upon which depend health of body and mind. Maltine with Coca Wine rapidly restores appetite, improves digestion, imparts tone and vigor to the nervous system; in a word is a strength-giver of unequalled excellence. Maltine with Coca Wine is prescribed and recommended by physicians. All druggists sell it.

A Conundrum.

What is the difference between a BICYCLE and a smartly dressed young man? Well, the first is always TIRED, while the latter never is, if his Suit was made by W. J. GREEN, the Merchant Tailor, Hunter street, next Toronto Bank.

YOUNG MEN, light-hearted and free, can put a couple of dollars in a Marriage License, this month and never miss it. Good return for your investment guaranteed by W. J. GREEN, Issuer of Marriage Ties.

PETERBOROUGH, April 28th.

Let the Prices Speak!

They tell the story of advanced values. They explain why business is always booming at the Peterborough Bookstore. Some people's words are half battles. Every syllable means so much. What we have to say about this store and the prices of the goods, we mean to carry out.

WE MEAN BUSINESS

What is worth emphasizing is that in the lines we quote prices on to-day, we show a large variety of patterns. It is not our policy to select two or three catch lines. You get the choice of a very large stock. A New Stock selected with the utmost care and discretion, that always brings business. It's a Grand Stock for finding just what you want. Radiant with Good Values and sparkling with Low Prices.

WINDOW SHADES.

Our stock of 16,00 Opaque Shades, made from a composition of rubber and whitelead painted on a pure linen, ensures you the most durable shade cloth made. Guaranteed washable. But the prices are what surprise the buyers.

Complete set, with White and Gilt Cornice Trimmings, Rings and Brackets, and White Enameled Pole, for parlours or sitting rooms..... .55

These are the Cheapest Cornice Poles in Peterborough. No housekeeper, into the heart of housecleaning, should fail to inspect these poles.

YOU OUGHT TO KNOW ABOUT OUR GREAT

WALL PAPER SALE.

Now in full blast. To let a opportunity like this pass by is a big mistake. The prices all lean your way and the stock tells your present needs. Wall Papers do brighten up a home so, and comparitively few people know how cheap we are selling here. Lowest prices start at 4c. per roll.

BABY CARRIAGES.

Up-to-date Baby Carriages, new designs in elegant upholsterings; mother is not so unwise as to keep baby indoors on sunshiny spring days unless it be that she is wanting a baby carriage.

Prices are planned so that the mother with the most modest purse can find something here that will give baby an outing daily. Cheapness and quality are our twins and everybody's pets.

417 GEORGE STREET.

Agent Butterick's Patterns.

THE pain that sometimes strikes a man at the most inopportune moment is due to indigestion. It may come in the midst of a dinner and make the feast a mockery. It is a reminder that he may not eat what he chooses, nor when he chooses. He is a slave to the weakness of his stomach. Frequently he doesn't ever know whether the thing he eats is going to agree with him or not. The things that please his palate most are often the worst for him to eat. Even the simplest food is likely to cause him misery and sleeplessness. His first trouble was very slight—very simple—very easy to cure. He ate something indigestible and it stuck somewhere in his digestive system. He ate more things and they stuck. Part of his digestion stopped altogether—that is constipation.

Constipation is so common that more than half the people in America are troubled with it. It is so serious that nine tenths of the sickness of the world is traceable directly to this common cause. A man's health and strength depend upon what he gets out of his food. This depends on his digestion. Constipation stops digestion. Anybody can see that. The commonest kind of common sense will tell you that. When digestion stops, nutrition stops, and the whole body is thrown out of order.

The way to start digestion is to remove the obstruction. The way to do that is to take Dr. Pierce's Pleasant Pellets. They are a positive cure for constipation and its attendant ills—headaches, sour stomach, flatulence, dizziness, billiousness and "heartburn." They are very gentle in their action. They simply assist nature. They give no violent wrench to the system. They cause no pain, nor griping, nor discomfort of any kind.

You can get a free sample of from 4 to 7 doses, by addressing World's Dispensary Medical Association, No. 663 Main Street, Buffalo, N. Y.

If a druggist tries to sell you something "just as good," transfer your trade to another store. He is sacrificing your interests to his own pecuniar advantage.

THE CINCINNATI HORROR.

Six Bodies Have Been Identified and Nine Persons are Missing.

Cincinnati, May 5.—The building inspector visited the scene of the explosion at 11 o'clock. After making an examination of the walls of the building north and south of the wreck, he ordered all the rescuers away from the spot. No more work can be done until the wall to the north is torn down. The east wall is also in a dangerous condition. The wall to the south is undermined, and this will have to be braced.

The south wall of the Koch building will have to be torn down. A gang of workmen will be put on at once. The body of Mamie Kennedy has been recovered, making the number of identified dead six. There are still nine persons missing.

Following is the corrected list: Man named Lightfoot of Newport, Ky., and an unknown friend, who were seen to enter Drach's saloon; Jos. Wirkener, William Lauth, barkeeper, for Drach; Barbara Steinkamp, Louis Flsdick, John McGarvey, Stanley Ferguson, son of E. A. Ferguson, a lawyer; Fred Andrews, president of the Ohio Wall Paper Company.

HE BROKE THE MAN'S NECK.

Westphal, of Buffalo, was Conscience-Stricken when He Realized the Fact that He was a Murderer.

Buffalo, May 5.—Oscar George Westphal this morning at 2 o'clock pounded George Bischoff to death. He then left the prostrate body lying on the sidewalk and went home. He began to undress, but remorse was too strong. He could not leave his victim lying in his own blood. In fact, he was not sure the man was dead. He slipped back into his partly removed raiment and went out into the street. He went to the scene of the fray and lifted the arm of Bischoff. He let go, and it dropped a lump of lifeless clay. He felt the face of the prostrate form. It was cold and clammy. There was blood on it. Then Westphal realized that the man was dead—that he was a murderer.

As near as can be learned the deed occurred at 2 o'clock. An hour after Westphal gave himself up to the police and acknowledged the deed. He stated that Bischoff had assaulted a boy friend of his shortly after midnight. The boy complained to Westphal who followed Bischoff and struck him several blows, knocking him down, and then left him lying on the sidewalk. He did not think at the time that Bischoff was seriously hurt. The post-mortem shows that Bischoff's neck was broken.

SIR RICHARD CARTWRIGHT

States His Approbation of the Course of Sir Oliver Mowat.

Kingston, May 5.—Sir Richard Cartwright was seen to-day and asked to state his views as to the effect upon the Liberal party of the entrance of Sir Oliver Mowat into Dominion politics.

His answer was short and emphatic. "I regard Sir Oliver's entrance into the Dominion arena with much approbation, and I think it will strengthen the Liberal party, especially in the Province of Quebec."

"What do you think of the newly-organized Cabinet, Sir Richard?" asked the reporter.

"Taken as a whole, the Cabinet appears to be extremely weak in the two chief provinces of Ontario and Quebec. I should say that the personnel was singularly ill-fitted to inspire any enthusiasm among their followers."

"What, in your opinion, will be the leading issues of the coming campaign?"

"Judging from the composition of the Quebec section, I should imagine the Government intend to make the Remedial bill the chief issue in the struggle," said Sir Richard, "while they will undoubtedly exhaust every effort of misrepresentation in persuading certain sections of the people that the victory of the Liberals would mean injury to general business of the country."

Sold in Peterborough by John McKee.

"And how do you feel with regard to the prospects of the Liberals winning this time?"

"They could hardly be better," responded the veteran emphatically. "The entire course of the Government, from the commencement to the end of last session, was calculated to discredit them, collectively and individually, in the very highest degree, and it is quite apparent that an immense number of old-time Conservatives are utterly disgusted at the treachery displayed throughout the past session. In the Province of Ontario, in especial, there seems to be no room for doubt give them a chance, would be dissenare in a very decided minority. The only thing, apparently, which would that the supporters of the Government sions in the ranks of their opponents."

HOLMES NEARING DEATH.

The Multi-Murderer Can Hear the Carpenters Nailing the Engineery of His Doom Together.

Philadelphia, May 5.—H. H. Holmes was last night transferred from the cell in the county prison that he had occupied since the verdict of guilty was rendered against him for murdering Benjamin F. Pitezel, to a newly-fitted-up section that affords him more light and better ventilation. The doomed man is now confined in a cell that is only a few yards from the gallows, but the cell is so situated that the scaffold is removed from his vision. He can, however, hear the moving of timbers and the rapping of hammers upon the apparatus that is being constructed for his end on Thursday next.

Lawyer Rotan, who defended Holmes, stated to-day that he had not yet drafted Holmes' will, because the condemned man so frequently made changes in the document.

"Mrs. Pitezel has been given some money," Mr. Rotan continued, "and I have no doubt that she will be amply provided for. She may have some difficulty in collecting from estates that are tangled up in litigation and mortgages."

THE SPORTING WORLD.

Gossip Concerning the Coming Meeting of the O.J.C.

The entries for the seven events, which closed on May 1, and will be decided during the O.J.C. meeting, have filled remarkably well, notwithstanding that there are but few nominations from across the line. However, the Canadian stables have contributed liberally, and an excellent list is the result. In the open races P. Welsh is the only foreign representative, as A. Shields, although he resides in the United States, is looked upon still as a Canadian. In the Red Coat race there are three from across the line, Messrs. Hayes, Hitchcock and Colt. On the whole, the club is to be congratulated, as racing of a high class should result.

There were no additional entries in the Queen's Plate, and the only declarations are Donald Dinnie, Minorca and Urania II.

The committee have engaged W. J. Fitzpatrick as starter. "Fitz" was one of the best jockeys in America a few years ago; in fact, there were none who excelled the "Dare Devil," and few who equalled him. Like many others he was compelled to retire from the saddle owing to his increase in weight. He became an owner, and among his horses was that good colt, Joe Ripley. He finally took to wielding the flag, and last year held the position of starter at Saratoga, where he lives.

TORONTO DEFEATS ROCHESTER.

Rochester, May 5.—The home team lost its first game to-day. Toronto's pitcher was too much for the local club to solve, at critical points, and the visitors batted Gillon and Day for a total of 13 hits. Rochester made a desperate attempt to pull out the game in the ninth, but three hits were all they could get off Staley. In the first innings, while running across first base, Fielder Selbell sustained a sprained knee, which will compel him to stop playing for some weeks. Bottenus, who was secured from Buffalo yesterday, relieved Selbell. Stuart for the visitors put up a very ragged game at short. He is credited with one put-out, six assists and five errors. The feature of the game was the three-base hit of O'Brien in the sixth innings, which sent in two runs. Toronto's two new men, Wright and Catcher Boyle, arrived from Louisville. Owing to the absence of a league umpire, Moran of Toronto and Sweeney of Rochester officiated. Score:

JAMES WENT WITH THE CROWD.

The Clever Escape of Boyle, of Rochester, from Auburn Prison.

Auburn, N.Y., May 5.—A swarm of visitors in attendance at the State convention of the Ancient Order of Hibernians was conducted through the prison this afternoon, and in the confusion one convict escaped. The fugitive is James Boyle, who came from Rochester in November under sentence of four and one-half years for robbery. It is believed he disguised himself and went out with the crowd.

THE ONLY HELP.

A Victim of Bright's Disease for Many Years—Cured by Dodd's Kidney Pills.

Neepawa, (Special), May 4th.—Mrs. T. H. McKee, formerly of Listowel, came here as a last resort. Had suffered ten years with Bright's disease. Reported to be past help and dying. Her re-appearance on the street in apparent good health was a pleasant surprise. The explanation given was that her little boy had insisted that she should use Dodd's Kidney Pills, and prophesied that they would cure her. She says:—"From the first few doses I began to feel better, and after taking four and a half boxes I say it with heart-felt gratitude I am perfectly cured." Dodd's Kidney Pills is the only medicine in the world that has ever cured a case of Bright's Disease at such a stage.

Utilizing Stale Bread.

Bread should always be mixed as soft as it can be handled. It will rise sooner and higher, be lighter and more digestible and will keep fresh longer. To utilize stale bread, dry it thoroughly in a warm oven and then roll it. To a pint or more of crumbs add a lump of butter and seasoning of salt, pepper and herbs. Moisten with milk and bake 30 minutes. In the absence of turkey or chicken, serve with meat and gravy.

Public Debts of Europe.

According to the latest statistics, the public debt of the European nations aggregate $32,320,000,000, or about $64 per capita for the whole population. The heaviest per capita indebtedness, $160, is the Portugal. France comes next with $135. England's rate is about $106. Switzerland is the smallest, $5.

CANCER CURED
—AND A—
LIFE SAVED
By the Persistent Use of
Ayer's Sarsaparilla

"I was troubled for years with a sore on my knee, which several physicians, who treated me, called a cancer, assuring me that nothing could be done to save my life. As a last resort, I was induced to try Ayer's Sarsaparilla, and, after taking a number of bottles, the sore

began to disappear and my general health improve. I persisted in this treatment, until the sore was entirely healed. Since then, I use Ayer's Sarsaparilla occasionally as a tonic and blood-purifier, and, indeed, it seems as though I could not keep house without it."—Mrs. S. A. Fields, Bloomfield, Ia.

DODD'S KIDNEY PILLS ALWAYS CURE

After Ten Years Suffering

Two Box Cure

Milverton, 23rd July, 1895.

Gentlemen,—For the last ten years I had been troubled with kidney disease, being so bad at intervals that I could not lie in bed at night nor stoop to the ground.

I had tried all the remedies I could find without effect, but heard of Dodd's Kidney Pills and procured a box.

I am most happy to say it for my own sake as well as for others that I am perfectly cured after using four boxes.

ARCHDUCHESS MARIA THERESE OF AUSTRIA AND HER STRENGTH.

She Can Lift a Man and Hold Him Aloft Arm-High—The Daring Athletic Feats of Other Royal Women—An Empress's Curious Feats.

You may not have heard, but it is true, that Empresses and Queens have often achieved distinction by equestrian feats that one does not expect to witness except in a circus. A certain royal lady won renown as one of the foremost conjurers of Europe. It was reserved, however, for the tall, and statuesque Archduchess Maria Therese of Austria, consort of that brother of the Emperor, who is the next heir to the throne, to earn fame by feats of muscular strength that savor somewhat of the variety show.

Two years ago she was losing the elegance and elasticity of her fine figure, and began a course of calisthenics. She soon acquired a remarkable proficiency with the Indian clubs, dumb bells, etc. This led her to other methods of developing the muscles, such as punching the bag, wrestling and putting the hammer and the shot. Austrian journals, official and semi-official, say that she has now developed such an astonishing amount of strength that she is able to raise a full-grown man from the ground by one hand, and to hold him aloft on her extended arm for several seconds.

The Archduchess once rode horseback from Reichenau to Gunz and back, a distance of considerably more than 100 miles, without stopping. A court dignitary ventured to remonstrate with the Emperor about the matter, urging that the Archduchess was by such imprudences endangering not only her health but also the succession to the crown. "Ah, it is easy to see that you are not a married man," was the reply of His Apostolic Majesty.

The Archduchess is a bold mountaineer, and unaided by professional guides she has made some exceedingly difficult ascents in Austria and in Switzerland. She paints beautifully, too, sculptures well, writes cleverly and is singularly well fitted mentally and physically to become the Empress of a sport-loving people.

Empress Elizabeth of Austria, once a performer of daring circus feats of equestrianism, has been compelled to cease riding because of her health, and she now walks for exercise, often however, covering distances that would weary an amateur pedestrian.

Queen Henriette of Belgium, by birth an Austrian Archduchess, continues, in spite of her snow-white hair and rank as a grandmother, to occupy her time with circus riding. A year ago she gave in the riding school of the Royal Palace at Brussels, a semi-public performance in which she and her daughter Clementine put their horses through all kinds of fancy paces and trick riding with the skill of professionals. They leaped their horses through burning hoops and over flaming hedges, and Her Majesty jumped a pet horse over a dinner table covered with flowers and lighted candelabras. Then she drove a team of twenty-in-hand, herself mounted on her favorite mare.

The Queen is a wonderfully clever conjurer, too, having been instructed by the great magic-professor Hermann, now dead.

The widowed Comtesse de Paris, so astonishingly masculine in all her tastes and manners, shares with her son-in-law, the King of Portugal, a passion for bull fighting, and on her estate near Seville she enjoys organizing bull fights, she herself, armed with a lance, taking the part of a picador.

Her son-in-law, King Carlos, is as skillful and courageous a torrero as she is a picador, and in the presence of his court has laid low many a bull. While the Comtesse de Paris tackles the bulls on horseback, the King daringly assails them on foot. He is not the first King of Portugal to achieve fame as a bull fighter; for one of his ancestors, King John V., surnamed "The Magnificent," was in the habit of descending in the arena himself once in a while to show his subjects his dexterity as a torrero.

Queen Marguerite of Italy's sister-in-law, the young Duchess of Genoa, is the old red-haired Princess of the blood in Europe. Her time is devoted to fencing, tennis, calisthenics, horizontal-bar practice and sprinting. She has achieved distinction by her skill in handling a boat, and by her long rides on horseback from Turin to Munich and back again on the same horse on the occasion of her annual visits to her relatives in Germany. She is a superb swimmer, too, rivaling Queen Christina of Spain and Queen Pia of Portugal. Queen Pia of Portugal wears two medals for saving life at sea at the peril of her own.

The widowed Empress of Russia excels in driving a troika, three horses abreast, the two wheelers being kept at a trot, while the third maintains a steady, unswerving canter. It sounds very easy, but is very difficult, and the Dowager Czarina is one of the few Russian women who have mastered it.

The widowed Queen of Naples is the hero of the siege of Gaeta, and the only Lady Knight of the Russian Order of St. George, an honor conferred solely for exceptional gallantry under fire. She is a skillful sailor and alone often sails a small boat, in all sorts of weather, across the English channel from Folkestone to Boulone. Her sister, the Empress of Austria, races horses, her entries bearing the pseudonym of "Count Isolla."

HEADACHE.

A SIMPLE CURE.

As a sure cure for headache, whether caused by liver, stomach, kidney or nerve trouble, Burdock Blood Bitters is the most effective medicine known. It removes the causes of headache by restoring all the organs of the system to proper action and health. Doubts disappear in view of proofs like this:—

In the spring of 1891 I got a bottle of B. B. B. for my mother who had been troubled for twenty-five years with sick headache. I got it from Mr. W. Paxton Baird, of Woodstock, N. B., who gave me two other medicines to take home and let my mother take her choice. Fortunately she choose the Burdock Blood Bitters, and I returned the other bottles. She used it for three months, and has had no headache since. We are sure it was B. B. B. cured her, as she took no other medicine.

RUSSIA AND CHINA.

The Czar Receives Li Hung Chang in State—A Treaty With China an Annoyance to Russia.

New York, May 5.—The Herald's St. Petersburg special says: Li Hung Chang, who is to represent China at the Czar's coronation, was received yesterday on his arrival at Czarskoe, in a golden coach, with five horses. He went first to the large palace, where he put on his robes of state, including the famous peacock feather. Then he went to the smaller palace, where he was most cordially received by the Czar, to whom he presented, on behalf of the Emperor of China, the Order of the Dragon, as well as numbers of magnificent presents.

Prince Ouktoumsky, who traveled with Li Hung Chang from Port Said, writes as follows: "The Chinese envoy has gone to-day to deliver papers which signify eternal friendship between the two great neighboring states. Russia has no need of any alliance. A treaty with China would only be an annoyance to us. Russia's interest is merely to hold China intact. We shall not permit anyone to play the master in China, and we shall not permit anyone to attack the country. If Russia protects China, she protects herself."

These statements may be taken as entirely and wholly representing the truth about the much-debated relations existing between Russia and China.

A NEW CLUB.

Name Suggested for a new Social Organization in London.

London (Special), April 27.—It has been facetiously suggested that a new social club in process of organization in this city should be entitled "The Dodd's Kidney Pill Club" as the present members are all enthusiastic advocates of that remedy and in common with many other citizens declare that in all cases of kidney trouble no other agent has been found so completely effective. Most Londoners have at their fingers' ends the particulars of the many marvellous cures through the use of this specific. In every drug store in this city the medicine is kept in large quantities and largely recommended.

DIXON TOOK ROUGH ON RATS.

Found in a Barn With the Remains of the Deadly Dose Beside Him.

St. Catharines, May 5.—Edgar Dixon of Louth committed suicide yesterday by taking poison. He had been in the County Industrial Home during the winter, but left that institution about two weeks ago and went to the residence of his step-father, Mr. James Blair. During the afternoon one of the ladies went out into the barn for something and was startled to find Dixon's lifeless body lying on the floor with a box of rough on rats beside him.

THE GAMBLER'S WIFE.

Pitiful Tale of Mrs. Tufts, who was Stranded at London—Sent on to Owen Sound.

London, Ont., May 5.—A middle-aged woman named Mrs. Tufts of Toledo, O., arrived at the C.P.R. Station here last night, penniless and with two small children in her care. The woman told a pitiable tale of desertion. She said her husband was a gambler in Toledo and that two weeks ago he deserted her altogether. She managed to reach London on her way to her mother's home in Owen Sound. The relief officer gave the woman and her children a pass to Stratford, and sufficient money was collected at the C. P.R. Station to pay her fare home after reaching Stratford.

The Time for Building

Up the system is at this season. The cold weather has made unusual drains upon the vital forces. The blood has become impoverished and impure, and all the functions of the body suffer in consequence. Y.P.S.C.E. NOTES.

Paragraphs of Local Interest to Endeavourers Supplied by the County Union.

VILLIERS—OTONABEE.

At the business meeting of Villiers Y.P.S.C.E. the following officers were elected for the ensuing six months:

President—Miss E. Williams.
1st Vice-President—Miss A. Elmhurst.
2nd " —Mr. H. Lancaster.
Recording and Corresponding Secretary—Miss E. M. Weir.
Treasurer—Miss Jennie Lancaster.
Organist—Miss E. M. Nelson.
Convenor Prayer Meeting Committee—Mr. Alex. Gillespie.
Convenor Lookout Committee—Mr. Morley Nelson.
Convenor Social Committee—Miss B. Nelson.
Convenor Music Committee—Miss A. Elmhurst.
Convenor Missionary Committee—Miss E. Williams.

The topic for the 28th, "Choose the good part," was taken by Miss Beulah Nelson, who very forcibly set before her hearers that all must choose, that every day life must be a day of service to or rebellion against God. Then she compared consequences of each choice, showing how unspeakably superior is the choice for God and salvation. Then she put the question to the meeting "when shall decision be made," and the only answer was "Now is the accepted time, now is the day of salvation."

BETHEL (KEENE CIRCUIT.)

On Wednesday evening we had an interesting meeting, after the opening exercises by the President. The scripture reading was taken by Mr. Matt. Breckenridge. The topic was handled in an able manner by Miss Beulah Nelson, impressing all present with the importance of "choosing the good part" before it would be too late. The prayer meeting was led by Mr. George Byram, and after hearing the number who took part in it we were encouraged to think that so many had chosen the good part. Another interesting feature was the last business meeting for the six months' term. We had a good report from the different committees, which showed that they were not idle. We brought up several important points of business, among others the plan of systematic giving, but no action will be taken until our next business meeting. After a few closing remarks by the retiring president the meeting adjourned, and thanking God for the success we have had in the past six months and trusting Him to guide us in the future. We still endeavour to work for Christ and the Church.

The following are the officers for the ensuing six months:—

President—Mr. J. Armstrong.
Vice-President—Miss Adeline Fife.
Rec.-Secretary—Mr. Oliver Fife.
Cor.-Secretary—Miss Edith Armstrong.
Organist—Miss Louisa Fife.
Treasurer—Miss Addie Pallin.
Reporter—Miss Leah Fife.
The convenors of the committees are:—
Prayer Meeting—J. Armstrong.
Lookout—Adeline Fife.
Social—Oliver Fife.
Entertainment—Jennie Nelson.
Missionary—Willie Fife.
Temperance—Herb. Patterson.
Calling—Louisa Fife.

SPEEDING AT WOODBINE.

Stonemason Does Fast Work—The Baseball Scores.

It was a perfect morning for training operations at Woodbine Park yesterday, and the excellent conditions of the track may be judged from the performances of the various candidates that will sport silk at the coming meeting. A large crowd journeyed from the city to watch the horses at work, and, altogether, the scene presented showed that race day was close at hand. The appearance of the entries for the events, which closed Friday, gave the horsemen a new topic for discussion, and the chances of the different horses were gone over.

The feature of the morning's work was Stonemason's trial, the little selling Plater, in company with Musselman and Halfling, covering a mile in 1.48½. He was ridden by Harry Lewis, the stable jockey, and had in the neighborhood of 120 pounds up. Saragossa and Connoisseur, the two Brooklyn Handicap candidates, were sent a mile in 1.55. Eulalon led Joe Miller a mile gallop, which was covered in 1.53, while Lookout and Golden Badge did slow work.

Millbrook and Moorland, two of Mr. Seagram's Queen's Plate representatives, reeled off a mile and a quarter in 2.23, and, as the first part of the journey was very slow, their performance was considered good. Silk Gown joined Pyramis in a mile gallop, which they negotiated a shade under 1.50, and Princess May, in company with St. Vincent, made the journey in 1.54.

The Hendrie Plater, Lochinvar, was sent a mile and an eighth in 2.07, the first mile being run in 1.52½. Trainer McGarry also gave Cardinal and Melcha strong work, the pair negotiating a mile in 1.52. Mr. Charley Boyle's Strathroy and Ellesmere also went a mile in 1.52, and Spaghetti led Dissipation half a mile in 54½ sec.

Mr. T. P. Phelan's *hunters, Jodan* and Ebils, reeled off a mile in 1.54½, the son of Joe Daniels being in front at the finish, though he pulled up sore, and it is doubtful if he will face the starter this spring.

Charlie Fhair sent his jumper Rover a mile in 1.55. If the Jockey Club give a hurdle race Rover will likely be seen among the starters, but otherwise will not figure at the races this spring. Bob Neely, in the same stable, worked a mile and a half at a two-minute gait.

Allie aGtes' pair of timber-toppers, Epplewortth and Vicar of Wakefield, stepped a mile in 1.54, the Englishman going on another quarter, covering the entire distance in 2.25.

Sonnambulist and Cinders worked six furlongs a shade better than a two-minute clip, while Tom Nye went a mile in 1.57½.

Muscovite and All Blue were sent through the field, both performing cleverly.

Some of the horses at the track will leave for Windsor to-day or to-morrow.

CHESTER CUP FOR THE RUSH.

London, May 6.—The principal event of the Chester meeting to-day was the race for the Chester Cup, of 2200 sovs., for 3-year-olds and up ward,s nearly two miles and a quarter, which was won by Mr. Dobell's The Rush, with the Duke of Westminster's Baddiley in second place and C. J. Blake's Rockdove third. C. J. Blake's Bowline, Mr. James Jolley's Tyranny, Col. G. Perry's Tambour, Leopold de Rothschild's Flesole, A. L. Duncan's New Court, John Craigg's The Russian, Capt. H. T. Fenwick's Blenalmond, and Mr. A. Cohen's Vic also started.

ROCHESTER DEFEATS TORONTO.

Rochester, N.Y., May 6.—Toronto put Pitcher Moran in the box to-day because Rochester is his home, and the local team used him so roughly that Manager Buckenberger had to call him out of the box in the second innings, when there were four runs scored and three men on bases, with only one out. McPartlin relieved him, and the young pirate put up an excellent game. Toronto's two runs were scored in the sixth on errors by Shannon and Dooley. Umpire Linden officiated, as it is rumored that Gaffney is suspended for non-appearance yesterday. Buckenberger left for Toronto to-night. Score:

Men's Hats and Furnishings.

A certificate of character goes with every Hat we sell. Money does not come so easy to every man now that he should pay Hatters fancy prices for Felt Hats. Ours are the latest spring importations—and not the accumulations of a last years moth-eaten business. No Hatter would be content with our little marginal profit on first cost. Our New Spring Dollar Derby is the regular $1.75 Hat at the Hatters.

Low Rents
Make Low Prices.

Panic-stricken merchants may puzzle their heads as much as they like about the way we draw the trade to our store Our customers know we are cutting the life out of "departmental" and ornamental high priced establishments. What with their notorious 30 and 40 per cent. profit, part for the landlord, part for all the modern conveniences, and part for high living; is it any wonder that they are always in trouble how to get along.

Talk About Low Prices

in Millinery and Dry Goods of every kind, as advertised by the high renters. Pshaw! it's only a fairy tale compared with what we are offering this week in every department.

Ladies Blame Themselves

almost every day. They read exaggerated announcements and go next day to secure some of the wonderful bargains, but, as they say, we come to Miss Rudkins and find she has the exact same goods marked 10 to 15 per cent. cheaper—and that is what annoys us. We waste our time thinking we are saving money, when we are really losing money and time also.

Under no circumstances will we be undersold by any store in Dry Goods, Millinery or Mantles.

Come here, get our prices. Make any comparison you like.

No furniture given away—but all the value in your Dry Goods purchases.

THE POLITICAL FIELD

A Red-Hot Convention in East Toronto.

REMEDIAL VERSUS ANTI-REMEDIAL

One-Third of the Delegates Withdraw and Organize an Indignation Meeting—Mr. Coatsworth Chosen by the Government Supporters Who Remained.

Toronto, May 8.

The Conservative convention to nominate a candidate for East Toronto at St. Lawrence Hall last night was the liveliest of the many lively meetings for which the riding is noted. It was confidently anticipated that there would be fun, and there was fun, fast and furious, up to the point when a large number of delegates withdrew in a body. The trouble principally arose from the manner of electing delegates from No. 2 Ward, the Ward Association at its meeting having appointed all its members as delegates, but when the members received their credentials, every fourth man found himself supplied with a pink or substitute's ticket, which practically disfranchised him so far as the convention was concerned.

The greatest precautions had been taken to prevent the entrance of any but delegates or substitutes who could present their credentials, signed by the secretary of the convention, and the ward president. Inspector Stephens and a squad of police confronted every applicant for admission at the entrance to the building on King-street. Having passed the outer sentinel's careful scrutiny of the ticket, delegates had again to present their tickets at the door of the hall for inspection of the inner guard, who also had the powerful assistance of two sturdy police officers. The delegates were placed on the floor of the hall, the substitutes being relegated to the gallery, where, although they were entitled to no voice in the meeting, they frequently made themselves heard.

The chairman called the meeting to order shortly after 8 o'clock, and obtained the absolute silence he asked for. He said that it would be necessary to see that the right number of delegates elected to vote were present, and he would therefore call over the representation, to which each ward was entitled.

The president asked that those in the body of the hall be counted according to the districts they represented, in order to see if the proper representation for each was present.

This work occupied considerable time, and when it was completed Ward 2 was found to be 30 delegates short. To make up the deficiency Chairman McPherson called on the substitutes in the gallery sent from No. 2 to come downstairs.

The invitation was responded to in a manner which resembled the storm of a citadel. Every substitute in the gallery was anxious to be chosen, and was bound that his neighbor should not get ahead of him. The door keeper was taken off his feet, and the substitutes piled pell-mell into the body of the hall, only to find that their rush was somewhat premature.

While they were on their way downstairs the chairman recalled his invitation, on the ground that the regularly-appointed delegates might come later and in time to vote. The substitutes were accordingly asked to retire. They did not take kindly to this, and several of them refusing, something in the nature of an engagement took place about the door. They were all got out, finally, however, and the proceedings were resumed.

Dr. Beattie Nesbitt then instituted an objection to the manner in which the delegates from Ward 2 had been elected. He criticized very strongly the manner in which the meeting in that ward had been conducted.

Mr. McPherson said that at this convension it was impossible for him to decide whether a man had been propedly elected or not. If his certificate were rightly made out that was all that could be asked for.

Dr. Nesbitt intimated that there might be fraud or personation.

The Chairman said that at this rtage of the proceedings he could not be asked to decide whether a certificate had been forged or not; but he would read over the names of the delegates, and any who were not what they represented themselves to be could be challenged and made to produce their credentials.

The chairman replied that if they were duly elected delegates he could not prevent them from voting. He then said that names would be received for the filling up of the vacancies in the representation from Ward 2.

Mr. John Hewitt moved the following resolution, seconded by R. R. Davies: "That, although we heartily endorse the National Policy, we regret and must condemn the action of the Government on the Manitoba school question, and to impress the leaders of our party and the people of this country, and especially the voters of East Toronto, that we are earnest on this great question, that we resolve and agree to only support and vote for a candidate, who is now and has been opposed to Remedial measures for Manitoba, and who will by his voice and vote oppose every effort that may be made to coerce Manitoba or any other province in educational matters, and that his line of action in the next session of Parliament shall be that of Clarke Wallace's in the last."

The chairman ruled that the motion was out of order at this stage of the meeting.

Mr. Hewitt enquired when the chair would accept the motion and stated that he was in the position that unless the candidate of the convention would accept the motion he would be compelled to work and vote against him. He therefore desired the matter to be decided before the candidates were balloted for, so that if the convention rejected it, he and his friends could retire from the convention before a candidate was selected.

The chairman intimated that before the ballot was taken every delegate would be pledged by a standing vote to support the nominee. Those delegates who were dissatisfied could then give expression to their objections.

The nominations were made in this order:

John Greer, proposed by George Kappele and John Kane.

Dr. R. A. Pyne, proposed by P. H. Drayton.

William Laidlaw, proposed by James Baird.

Ald. Davies, proposed by D. A. Mackenzie and Dr. McFaul.

Dr. S. G. Thompson, proposed by John Hewitt and W. Fitzgerald.

Em. Coatsworth, jr., proposed by Dr. Pyne.

W. J. Hambly.

Dr. W. Beattie Nesbitt.

George Kappele.

C. C. Robinson, proposed by T. A. E. World and T. Wright.

Of these candidates, John Greer, Dr. Pyne and W. J. Hambly retired in favor of Mr. Coatsworth.

William Laidlaw and George Kappele also withdrew without naming their choice.

C. C. Robinson withdrew, as he would be a candidate in West Toronto, where he resides.

Ten-minute addresses were allowed to the candidates.

Ballots were then distributed to those who remained and afterwards collected, the chairman appointing as scrutineers Mr. Kappele, Mr. Greer, Mr. P. W. Ellis, Mr. C. A. B. Brown, Mr. John Massey, Mr. John Laxton, Ald. Lamb and Mr. E. P. Pearson.

The counting of the ballots was quickly done, and the scrutineers reported that 213 ballots had been cast, of which Mr. Coatsworth got 197 and Ald. Davies 16.

The chairman declared Mr. Coatsworth the choice of the convention.

"That this meeting protest and condemn the arbitrary conduct of Mr. W. D. McPherson, chairman of the convention, in refusing to put the resolution of John Hewitt, and we contend that the convention was not legally held in the interests of East Toronto. The delegates were elected by the machine.

"That persons were there who were minors and were not members and never were members of the association, and that the majority of those who remained at the convention were officials of the post office, custom house and other fat fed parasites at the public trough, or those who wished to be, and that the officers of the association dared not publish the names of the delegates."

The foregoing is the resolution moved by Dr. Noble, and seconded by John Armstrong, that was unanimously adopted by the delegates to the East Toronto convention and "substitutes" who left St. Lawrence Hall and adjourned to Vance's fruit store and held an impromptu meeting for the purpose of choosing a candidate opposed to the Remedial Bill.

MR. LAURIER AT QUEBEC.

Another Rousing Meeting Addressed by the Coming Premier.

Quebec, May 7.—Thousands of people gathered at the Chateau Frontenac at an early hour to-night to escort Hon. W. Laurier to the Jacques Cartier Hall, where a meeting in French was convoked. Fully 10,000 men filled Jacques Cartier-square as the leader of the Opposition arrived there. The city police force had hard work in keeping circulation open. Of course Mr. Laurier was cheered to the echo upon taking his place on the stage. A charming little girl, the daughter of Alderman Roy, presented Mr. Laurier with a magnificent bouquet. This was the signal for an ovation.

The meeting was under the auspices of the Mercier Club. Aldermen Gaspard and Rochette presided at the meeting.

Hon. Sir Henry De Lotbiniere opened the meeting with a vigorous speech, in which he endeavored to show that the Protestant minority of Manitoba were not moved by hatred or prejudice against the Catholic minority, but their antagonism was due to the Protestant majority's ignorance of the Catholic religion.

Mr. Turgeon, M.L.A. for Bellechasse, was the next speaker, and he was followed by Hon. W. Laurier, who on walking to the front of the platform received a very enthusiastic ovation. He regretted the absence of Hon. G. W. Ross, who had to leave the city to go west to-day. Mr. Laurier then said: "Let me thank you right here for the spontaneous expression from your generous hearts. If you elect me again it will not be, I am sure, as leader of the Opposition, but rather as the Prime Minister of Canada." (Cheers). The speaker then attacked the protective tariff of the Conservative administration, which he said has been disastrous to the city of Quebec in particular. Certain industries which existed 17 years ago have now disappeared. Monopoly has killed another portion of the industries which used to make of Quebec a prosperous city, and as an example Mr. Laurier took the Quebec cordage factory, which had been closed by a cordage combine. The proprietor receives a salary of $6000 a year to keep his rope-walk shut, while hundreds of workingmen were out of employment. "Our programme," continued Mr. Laurier, "is based on the revenue tariff." He would not leave his hearers under the impression that he meant to govern the country without levying taxes; taxes were necessary; they required to be manipulated in such a way as to relieve the laboring class, which was crushed beneath its weight. National and religious intolerance still existed in this country. The Tories of Ontario, not having any pretext to attack the leader of the Opposition, tried to hinder his political progress by calling him "French Laurier" or "Catholic Laurier." Intoleration must disappear from this country, and it is on a fair way to oblivion, as the Liberals of Ontario, headed by the venerable Sir Oliver Mowat, were already leading the movement toward toleration, protection and equal rights for all. Speaking of the Manitoba Catholic schools, Mr. Laurier said that the question would not be settled until the minority had obtained its rights, all its rights, as the friends of the weak and of the unprotected would keep the question ever alive in the political arena. He felt convinced that the Tupper administration would never succeed in settling this burning question, as its principal aim was to avoid it.

On the conclusion of his address Mr. Laurier was again wildly cheered.

BOTHWELL IS ALL RIGHT.

Hon. David Mills Will Have a Larger Majority Than Ever

Bothwell, May 7.—Mr. Robert Ferguson, M.L.A. for East Kent, in company with the Hon. David Mills, M.P. for Bothwell, have during the past week made personal canvass of the eastern portion of the riding, and found matters in a very favorable condition for the return of the present popular member by a larger majority than ever. Everywhere they were enthusiastically and cordially received, and not only was Mr. Mills pledged the hearty support of Reformers generally, but a great many prominent Conservatives signified their intention of supporting the Liberal candidate in the coming election, and those who would not promise to support him agreed not to work against him in the event of the Conservative candidate, Mr. Clancey, remaining in the field. There is every likelihood of the Conservatives withdrawing their man before polling day and allowing Mr. Mills to go in by acclamation. The general opinion seems to be that no opposition should be offered to the present member with regard to the report that Mr. Mills was seeking the nomination in South Middlesex, it is given the most emphatic denial.

THE NIAGARA SYNOD

Will Meet on Tuesday Next to Select a New Bishop.

Hamilton, May 7.—(Special)—Next Tuesday the Synod of Niagara will meet in Christ Church Cathedral to elect a bishop to succeed Bishop Hamilton, and there promise to be interesting times in making the choice, the evangelical and ritualistic factions both endeavoring to have a man of their views at the head of the diocese. The evangelical party have issued a circular, giving pointers as to the steps necessary to insure the election of their man. The circular is signed by Thomas Burns, secretary of the Laymen's Association, and countersigned by John Hoodless.

Mrs. Buchanan, wife of the late Hon. Isaac Buchanan, passed away at her residence, James-street south, at 3 o'clock this afternoon, and at her bedside were Peter, Harris, James, Robert, sons, from Pittsburg, Pa.; Mrs. Harris Buchanan and Mrs. Douglas Buchanan, Pittsburg; and Miss Jane Milligan Buchanan, Miss M. D. Buchanan, and Miss Helen Buchanan.

Patrick Taylor appeared before Judge Jelfs this morning, charged with shooting Thomas and James McKelvy last night with intent to kill, but was remanded till to-morrow, when he will probably be admitted to bail. James McKelvy was around town to-day, but Tom was taken to St. Joseph's Hospital, as the bullet has not yet been removed from his leg.

Trade in Ontario

According to Bradstreet's retail trade throughout Ontario has felt the favorable influence of seasonable weather during the past week. Good selling by retailers of spring goods of all kinds is reported. Sorting trade at wholesale houses is fair, but purchases are of the hand to mouth character. The uncertainty incident to the elections tends to prevent the sale of round amounts of goods and to diminish the number of future contracts. Navigation is now open on the St. Lawrence and grain is moving freely all along the Canadian water route from Port Arthur. Freight engagements at Montreal are reported to be large and prices for space are firm. Prices of grain show little change in the past week. Wheat, oats, corn and barley are slightly easier. Peas and rye are firm. On the Canadian stock exchanges values have had a declining tendency. High rates for money and difficulty in arranging loans has had an adverse effect. Money continues firm at Toronto at 5 1-2 to 6 per cent. for call loans and 6 to 7 per cent. for commercial loans. In Montreal call loans are quoted at 5 to 5 1-2 per cent. and commercial discounts are quoted at 6 to 7 per cent.

A Shameful Practice

Many tooth preparations contain substances that speedily destroy the enamel and beauty of the teeth. For this reason the greatest care should be exercised in the selection of a dentrifrice. Ivorine for the teeth is offered with the assurance that it is absolutely free from objectionable ingredients. An admirable cleanser is Ivorine, imparting dazzling whiteness to the teeth, firmness to the gums and renders the the breath sweet and fragrant.

TO THE ELECTORS OF PETERBOROUGH

And Surrounding District.

GREETING:

We have come out as independent candidates, seeking your suffrage, provided we have in our past dealings with you proved to your satisfaction our worthiness of the same.

In asking for a continuance of your patronage, we would not be unmindful of the fact that the present issues of the clothing business are of great moment and must be dealt with judiciously, all of which has our careful consideration.

Therefore we have no hesitancy in prophesying the hearty support of the people as our just reward.

THE TRENT VALLEY CANAL.

WITH the same brazen effrontery that characterized the Review in its denial of a deficit in the town finances and with a similar lack of knowledge of the facts, our contemporary denies that the Trent Valley Canal is being used, as it is, and that in the most barefaced manner, as a political engine to assist the return of the Government candidates. It publishes the denial of two gentlemen connected with the Trent Valley Canal, purporting to show that the statement made by the EXAMINER was unfounded, when it is a byword on the streets, that not only is the EXAMINER'S statement in regard to the specific case mentioned substantially correct, but that this case is one of many similar. In addition to the statement made by the EXAMINER it is to be said that in that case the person attending to the employment of the man in question was allowed to proceed so far that the polling sub-division of the applicant for work was taken down (in his book for that special purpose) and arrangements suggested to permit him to leave work on the Canal before the day of polling, in time to reach his destination in Northumberland County, where he had a vote.

It is not necessary, though it can be done, to parade the name of a man who is depending on his daily labour for his daily bread, before the world; nor have we any desire to publish a document which would furnish written proof of the correctness of the charge made that the canal was used to advance the political interests of the party, in so far as finding out the political complexion of applicants for work and making their voting "right" a condition of employment. If our contemporary is as anxious as it seems to get the name of the person who was asked to vote right, as the price of being employed, he will find the name recorded in the archives of the canal officer, on Water street, with the polling sub-division in which the applicant had a vote.

If the Review is so deep in the councils of the Trent Valley Canal, will it not inform the hundreds of men in this riding and vicinity, who are eating the bread of idleness, when the work on the Peterborough section is to begin? We hear good Conservatives kicking because the work is not going on, while the weather is so favourable, and so many men are wanting employment. Can the reason be that it is too long till election day, or what is the reason? If we had the information, as our cotem. claims to have, we should give it to the public. The canal is a public work on which the public money is being spent, and the public are certainly entitled to the courtesy of being supplied with some information of a different character from that we have felt it our duty to supply in relation to the prostitution of a Government work to the promotion of party interests. The money spent on the canal is the people's money, and so long as a labourer does his work well it is nobody's business how he votes.

The EXAMINER only claims that, though in error in one or two unimportant details, as must obviously be the case in such matters, its information was substantially correct so far as to the general facts and absolutely correct so far as the disgraceful fact of a public work, the Trent Valley Canal, being used as a bulldozing instrument for the coercion of needy workingmen in the matter of casting their votes. An error was made in placing the employing or negotiating party at a hotel—and here it is fair to say that there was no reference either to Mr. Aylmer, the contractor, or to the hotel at which he lodges. What adds to the exceedingly gross impropriety of the coercion act in question, is the fact that the bulldozing was not perpetrated in a hotel, but in a government office. This brings the responsibility to the government directly and adds to the shameful character of the affair. The EXAMINER has nothing, in relation to the main fact, to take back—more, it is our duty to repeat the chief features of our charge, and to defy disproof.

MR. IVES, Minister of Trade and Commerce, speaking at Brockville, used a strange argument in reference to trade extension. He practically advocated generous subsidies to steamship lines to extend trade to the Antipodes, and the imposition of a high tariff to prevent these steamers bringing agricultural produce from the Austral-Asian Colonies.

HON. T. M. DALY was not made Minister of the Interior in Sir Charles Tupper's Cabinet, but he manages to keep the inside track. He can't get a judgeship at present, but he has been made a boss imigration agent, the avant courier of Sir Charles' vigourous immigration policy. There are so many of them, they can't all get fat offices.

IT is remarkable that several Conservative members of Parliament when confronted by their angry constituents and reproached with their vote on the Remedial Bill, shelter themselves behind the plea that to vote against the bill would have been to place Mr. Laurier in power, No earthly or heavenly religious or moral consideration can make these people relinquish their hold on office. Office before principle; office before patriotism.

THE Toronto World, an uncompromising advocate of a national policy of high protection, editorially approves of "the proposal to afford relief to unemployed by improving the streets for bicycle traffic." Thus the civic authorities of Toronto become the means of employing labour which a "national" policy was to provide without stint. Therefore, the workmen of Toronto are indebted to the civic, not "national," policy for employment. Is there anything out of gear?

SIR CHARLES TUPPER in his manifesto asserted in reference to the trade question that Liberal victory meant a "disastrous revolution." This is senile nonsense. In 1846 England jumped from protection into free trade at one bound, without the slightest disturbance in financial circles. And can there be any danger of a "revolution" in Canada by a return to a revenue tariff from a national policy of high taxation? And with the necessities for revenue set by the extravagant rate of our predecessors in the government, the rate of taxation will have to continue some time at a higher point than would under all circumstances be desirable.

FROM SOUTH AFRICA

"Let the Resignation Wait," Says Cecil Rhodes.

MRS. HAMMOND MEETS KRUGER

And Touchingly Pleads the Cause of Her Husband and Other Prisoners—The B.S.A. Company Claimed to be Free From Complicity in the Raid.

London, May 7.—In the House of Commons to-day Sir Ellis Ashmead Bartlett, Conservative, asked if it were true, as alleged, that Cecil Rhodes had placed himself in the hands of the Government, and offered to return to England and meet the charges which had been made against him of having instigated the raid of Dr. Jameson into the Transvaal.

Mr. Chamberlain replied: "I have not addressed to nor have I received from Mr. Rhodes any communication whatever since he left this country."

RUTHERFORD HARRIS RESIGNS.

The Secretary of the Chartered Company in South Africa Gives Up.

London, May 7.—The Daily Mail asserts that Rutherford Harris, the secretary in Cape Colony of the Chartered South African Company, has tendered his resignation. He was one of those implicated in the Jameson raid by the "Transvaal Cryptograms."

A Paris despatch to The Standard says that The Temps Pretoria correspondent reports that papers are about to be submitted to the Transvaal Volksraad which contain an extract from the English instructions to Jameson's troopers. Proofs exist, says The Temps correspondent, that the Rhodesia Horse were ordered to be in readiness for the raid.

The Daily News will to-morrow say that the solicitor of the British South Africa Company and Cecil Rhodes in London, telegraphed on Monday last to Mr. Rhodes who is now in Gwelo en route to Buluwayo, informing him of the excitement caused by the publication of the cipher telegrams by the Boers, at the time of Dr. Jameson's raid into the Transvaal, which, it is claimed, show that Mr. Rhodes and other officials of the company were concerned in the conspiracy to overthrow the Transvaal Government. The solicitor added:

"In view of the altered situation in Rhodesia, the directors of the company hesitate to accept your resignation. What is your view?"

On Wednesday Mr. Rhodes replied: "Let the resignation wait. We fight the Matabeles again to-morrow."

According to The Daily News the directors met to-day and decided to defer their acceptance of Mr. Rhodes' resignation. Previous to arriving at this decision, the directors conferred with Mr. Chamberlain, the Colonial Secretary, who declined to advise them as to the course they should pursue, but who, in view of the debate on South African affairs that will take place in the House of Commons to-morrow, desired to be furnished with a definite statement by the directors of the decision they finally arrived at.

The resignation of Messrs. Rhodes, Beit and Harris, as officers of the company were tendered to the directors on Monday last.

The Telegraph will to-morrow publish a despatch from Pretoria, the capital of the Transvaal, saying that the wife of John Hays Hammond, the American member of the Johannesburg Reform Committee, who was sentenced to death, has had a long and touching interview with President Kruger, with whom she pleaded the cause of her husband and the other convicted prisoners.

President Kruger promised that he would consider all the arguments that Mrs. Hammond had submitted, and said he hoped the matter would be settled by the end of the week. The outlook now seems to be most hopeful. The prisoners, with a few exceptions, have signed detailed statements relative to the agitation.

The despatch adds that Jonkherr Schack, chairman of the first Volksraad, has received a comunication from Sir Hercules Robinson, British High Commissioner in South Africa, to the effect that Earl Grey, Administrator of the British South Africa Co., believes the Matabele rebellion to be broken, and had, therefore, requested him not to send Imperial troops to Buluwayo, and so increase the difficulty of providing supplies there. Sir Hercules added that the British troops, numbering 700, would remain at Mafeking, on the Transvaal frontier, pending the receipt of further orders.

Dr. Hawksley, writing to the Duke of Abercorn, chairman of the British South Africa Co., tendering the resignation of Mr. Rhodes, emphatically asserted that the company was free from any complicity in the disorders in the Transvaal, or in Dr. Jameson's raid. He added that he was expressly authorized by Dr. Jameson to announce the latter's wish to confirm this statement.

Matabeles Attack the Scouts.

Cape Town, May 7.—Advices bearing date of May 5, from Gwelo, about 100 miles north of Buluwayo, are to the effect that a strong force of Matabeles attacked a scouting party near Marvin. The scouts did not return the fire of the natives, but retreated to Gwelo, without sustaining any loss.

THAT NEW GREYHOUND SERVICE.

Hon. A. J Balfour Makes a Statement in the Imperial House.

London, May 7.—In the House of Commons today, the Right Hon. A. J. Balfour, First Lord of the Treasury, stated in response to a question that the negotiations with the Canadian Government for the establishment of a fast steamship service between Great Britain and Canada had not yet been completed. Tenders had been advertised for a service the steamers of which should make not less than 20 knots an hour. The vessels would call at a port in Ireland, and would carry the Australian mails.

CHRONIC HEADACHE.

The change in my Mother's condition marvellous.
Scott's Sarsaparilla is a Boon.

MONTREAL, August 29th, 1895.

GENTLEMEN:—There is such a change in my mother's health that I cannot restrain myself from writing you. She suffered for years past with a chronic headache, accompanied with a disordered stomach. She was weak and irritable, and we thought she was going into a decline. For three weeks she has been taking a course of Scott's Sarsaparilla, which was recommended to her by Mr. McGale, Druggist, Montreal. Her headache is now but a memory, her appetite is good, and she has gained five pounds in weight in twelve days. She is a different woman, and I feel that you, in God's hands, have been the means of restoring her to health. I shall always recommend Scott's Sarsaparilla to sufferers from head or digestive troubles. Thanking you again, I close.

Yours sincerely,
Hortense Gavilliere.

Scott's Sarsaparilla is a concentrated extract, pleasant to the taste, and is taken in small doses. It is the finest remedy for disorders of the stomach and liver, palpitation, scrofulous sores, eczema and skin diseases arising from impurities of the blood. It builds up the weak, the strong it maintains in health. $1 of all druggists.

"ALMIGHTY VOICE"

The Indian Buck Who Shot Sergeant Colebrooke.

POLICE ARE NOW HOT ON HIS TRAIL

A Reward of $300 for His Capture—The New Ammunition is Deadly—Mr. Wakeham Back From Washington—Royal Society Meeting—Ottawa News.

Ottawa, May 7.—Reports have reached the Mounted Police Department to the effect that the young Indian buck, Almighty Voice, who shot Sergeant Colebrooke last fall, is hiding somewhere in the vicinity of Nut Lake or Birch Hills. The police have been hot on his trail two or three times, and were successful in finding the Indian's horse in one camp, but through the help of his friends, Almighty Voice got away. The Government has offered a reward of $500 for the arrest of the Indian.

A few days ago Col. Panet, Deputy Minister of Militia, inspected the rifle range at Levis. Some of the regulars have been using the new 303 ammunition, the penetrative powers of which are so great that bullets were found to have passed through a bank three feet thick and a board fence six inches thick. Under the circumstances Col. Panet ordered the range to be closed until an iron sheeting could be put up, so as to avoid the possibility of accident.

Dr. Wakeham, International Fishery Commissioner, returned from Washington, where he has been engaged for the past two months in conjunction with his United States co-commissioner at their report of their fishery investigation of the past three years, extending from the Atlantic to the Pacific. The commissioners have been given until the end of December in which to report to their respective Governments, but it is expected their work will be completed before that time. Dr. Wakeham thinks on all the essential points an agreement will be reached by the commissioners. He leaves on Monday for the Maritime Provinces to take command of his old vessel, La Canadienne, and during the summer months will be joined by Mr. Rathbone, when the two commissioners will suend some time in further watching the mackerel run.

The program of the annual meeting of the Royal Society, which commences May 18, has been issued. Dr. Selwyn's presidential address will be on "The Origin and Evolution of Archiean Rocks," with remarks and opinions on other geological subjects, being the results of personal work on both hemispheres, from 1845 to 1895. The French literary section only shows a program of three papers, while in the English there are ten. Among the contributors to the latter will be Dr. Bourinot, Dr. Brymner, Prof. Prince, Dr. Dawson, W. W. Campbell and J. M. Lemoyne. In the mathematical and physical science section there are four papers, and in the geological and biological science section 18. Among the social attractions of the gathering will be a garden party at Government House, and a reception at Mrs. Bourinot's.

The fish merchants of Montreal are again pressing for the appointment of a fishery officer in that city; to watch the markets and fish stores, so as to prevent the sale of fish illegally caught. It is likely that the request will be granted.

Mr. W. C. Gordon, late private secretary to Sir Charles Tupper, has been appointed private secretary to Sir C.H. Tupper, the position which he formerly held.

The City Clerk has received a letter from F. Stainer of Christiania, Norway, enquiring as to the development of electricity in Ottawa. He has heard that Ottawa was one of the foremost electrical towns in the world, and wanted the information for the development of electricity in Christiania from waterfalls.

Hon. Mr. Costigan is acting Premier at the Capital.

Mr. J. M. McDougall, Q.C., received the unanimous nomination of the Liberal-Conservatives of Wright, held at Hull today. His opponent will be Mr. C. R. Devlin, the late member for Ottawa County.

A JEALOUS MAN'S KNIFE

May Cause the Death of David Richmond, a Gibraltar Farmer—Walking With Another Man's Girl.

Collingwood, May 7.—Near Gibraltar, a hamlet 11 miles from here, David Richmond, a farmer, went out walking last night to see Catherine Peavoy to her father's home. They met Frank Woodyard, farm hand at Peavoy's, who had been recently paying attention to Miss Peavoy.

The sight of his sweetheart with Richmond maddened him. They bade him good evening as they passed, and the next moment Woodyard, who had a jackknife in his hand, turned and stabbed Richmond seven times, once in the cheek, five times in the chest, penetrating the lungs, and once in the abdomen.

Richmond is dangerously wounded, and Woodyard will be arrested. Richmond had never seen him before. Woodyard came here recently from Georgetown. His brother is married to Miss Peavoy's sister.

DO THE SPANISH REPORTS LIE?

The Insurgents Won a Great Victory and Now Weyler Turns on His Own Men.

Havana, May 7.—Details of the Cacaraplara fight show that the Cubans won a great victory, and were not defeated, as the Spanish official report stated. The insurgents numbered 2000 under Delgado and Borcarras, and occupied a strong fortified position. Their position was attacked by Spaniards, under Gen. Inian, who were repulsed repeatedly. Finally the insurgents charged and drove the Spaniards back, the latter retreating to Bahia Honda and being continually harassed. The Spanish loss was about 200 killed and nearly 300 wounded. The insurgent loss was slight. Gen. Bernail has been recalled, and it is said will be court-martialed for failing to arrive in time to aid Gen. Inian. The fire at Punta Brava was very destructive. The entire town was burned. Two forts surrendered to the insurgents. The Spanish commander has arrived, per Weyler's orders, and will be court-martialed and shot.

A Great Book Free!

When Dr. R. V. Pierce, of Buffalo, N.Y. published the first edition of his great work, The People's Common Sense Medical Adviser, he announced that after 680,000 copies had been sold at the regular price, $1 50 per copy, the profit on which would repay him for the great amount of labour and money expended in producing it, he would distribute the next half million free. As this number of copies has already been sold, he is now giving away, absolutely free, 500,000 copies of this most complete, interesting and valuable common sense medical work ever published—the recipient only being required to mail to him at above address 21 one-cent stamps to cover cost of mailing ONLY, and the book will be sent post paid. It is a veritable medical library, complete in one volume. Contains 1008 pages, profusely illustrated. The Free Edition is precisely the same as that sold at $1.50, except only that the books are in strong manilla paper covers instead of cloth. Send NOW before all are given away.

GOMEZ CLEARS THE WAY.

He Orders That All Towns and Villages on His Line of March be Destroyed Without Delay.

New York, May 7.—The Journal has the following from Havana, via Key West:

"To Col. Jose Aguirre, Cuban Liberating Army, Zone of Guanabaco:

"You will proceed immediately to destroy all towns and villages within your jurisdiction; leave nothing undestroyed. Do not fail to commence executing this order instantly upon receipt of this authority. Gomez."

This order was received at the camp of Los Palos, April 20, and Aguirre immediately gave notice to the people of the towns in his jurisdiction that the order would be carried out to the letter. It means that Gomez wants a clear path across the province of Havana for his westward march.

N. Y. CHAMBER OF COMMERCE.

The 128th Annual Meeting for the Election of Officers Yesterday.

New York, May 7.—The rooms of the Chamber of Commerce were crowded to-day, the occasion being the 128th annual meeting of the Chamber. The annual election of officers for the ensuing year also took place. There was no contest and the officers were elected unanimously as follows: President, Alexander E. Orr; vice-presidents, Henry Hentz, Augustus D. Juillard, John L. Riker; treasurer, Solon Humphreys; secretary, George Wilson. Executive Committee, G. S. Smith, chairman; John H. Inman, Woodbury Langdon, Charles A. Hoyt, J. Kennedy Tod. Resolutions were adopted asking the Senate to pass the Torrey Bankruptcy Bill recently passed by the House.

CHINAMEN BOUND FOR CUBA.

They are Now Traveling from China Via Vancouver and Halifax.

Halifax, N.S., May 7.—There are 115 Chinamen at Halifax from Hong Kong, via Victoria, B.C., waiting to take passage for Havana, Cuba, in the steamer Delta. One Chinaman died on the way of consumption. The body was put off at Winnipeg to be embalmed, and is now on its way back to China on one of the C.P. steamers. Hitherto all these Chinamen have gone out to the West Indies via New York, but owing to the difficult bonding requirements in the United States, the C.P.R. have now commenced to utilize Halifax.

THROUGH THE "SOO" CANAL.

The Tremendous Traffic From the Great West to the East During Navigation.

Sault Ste. Marie, Mich., May 7.—The annual report of the American and Canadian ship canals at this point for last year shows that the largest volume of commerce passed through in the history of the Soo. The amount of freight carried was 15,062,580 net tons, an increase of 14 per cent. over 1894. The average cost per ton for carrying freight was 94 1-2 cents. A total of 877 registered craft used the canal, 523 steamers and 355 sails, having a total valuation of $42,892,800.

Canadian freight was 3 3-4 per cent. of the whole.

As the strength of a building depends upon the solidity of its foundation, so health depends upon the condition of the blood. To expel impurities and cause the vital fluid to become vigorous and life-giving, Ayer's Sarsaparilla is the most powerful and effective medicine in use.

When Baby was sick, we gave her Castoria,
When she was a Child, she cried for Castoria.
When she became Miss, she clung to Castoria.
When she had Children, she gave them Castoria.

Mrs. T. S. Hawkins, Chattanooga, Tenn. says, "Shiloh's Vitalizer saved my life, I consider it the best remedy for a debilitated system I ever used. For dyspepsia, liver or kidney trouble it excells. Price 75 cts. Sold by John Nugent, 289 George street.

"And age is a time of peace
So it be free from pain."

Old Age
AND ITS
Infirmities.

The descent of the hill of life should be gradual and easy. The decline of life should be free from care and sickness and pain. So it would be in the great majority of cases were the prime of life lived according to Nature's rules. But in the struggle for wealth and fame, swimming against the strong tide of competition, health is neglected. We live too fast, work too hard, drink too much, sleep too little, keep our nerves on the jump all the time.

Then the Kidneys give out. They can't stand the terrible strain to which they are being subjected.

As a result the blood is not properly filtered. It passes through the system unpurified, and carries disease to every organ of the body.

That terrible affliction of old age, Rheumatism, seizes on the joints and makes life unendurable with suffering.

Muscular weakness, tiredness, depression, irregular heart action, and shortness of breath follow in its train.

Perhaps there is suppression of urine, frequently it scalds, and often there are brick red deposits in it.

The remaining years of life instead of being peaceful, happy and free from pain, are one continuous round of suffering.

Is there no help or hope this side the grave?

A thousand times YES.

Doan's Kidney Pills are the great remedy for all those ailments that arise through diseased or disordered kidneys.

They're the old people's friend. They relieve their sufferings, cure their diseases, and infuse new health and hope and happiness into their life.

But always see that you get Doan's; other pills are almost sure to disappoint. For sale by

PREFERENTIAL TRADE.

A Buffalo Journal Wonders Why This Has Not Been Adopted Long Ago.

Buffalo, May 7.—Commenting on Sir Charles Tupper's address to the Canadian electorate, The Enquirer says today: Sir Charles Tupper suggests adding to the policy of protection the scheme for a preferential tariff for Great Britain and its possessions; and it is a mystery to us that the plan was not adopted long ago. There is something very incongruous in clinging to the skirts of England, as a province, and yet levying protective duties to shut out her manufactures. This question interests us more than either free trade or protection on the part of our neighbors, as a preferential tariff would give the manufacturer of England an advantage in Canada, and the natural products of Canada an advantage in England.

ONE HONEST MAN.

DEAR EDITOR:—Please inform your readers that if written to confidentially, I will mail in a sealed letter, the plan pursued by which I was permanently restored to health and manly vigor, after years of suffering from Nervous Weakness, night losses and weak shrunken parts.

I have no scheme to extort money from anyone whomsoever. I was robbed and swindled by the quacks until I nearly lost faith in mankind, but thank Heaven, I am now well, vigorous and strong, and anxious to make this certain means of cure known to all.

Having nothing to sell or send C.O.D., I want no money. Address JAS. A. HARRIS, Box 2-9 sodw Delray Mich.

Boils

It is often difficult to convince people their blood is impure, until dreadful carbuncles, abscesses, boils, scrofula or salt rheum, are painful proof of the fact. It is wisdom now, or whenever there is any indication of

God Save the Queen

The entire entertainment proved to be a most unqualified success, every feature being greatly appreciated.

A DIP IN THE CREEK.

An Ashburnham man Tries to Walk the Railing of the Dalhousie Street Bridge.

Last night as half a dozen young men were larking down on Dalhousie street, one of them, a trifle more reckless than the others, dared his companions to follow him, as he sprang up on the railing of the bridge across the creek and executed a fandango, as he pranced across it.

A loud splash told the tale of the result of his mad prank of the Ashburnhamite. As the other five gently drew him ashore a moment afterwards, and assisted him in wringing out his soaked clothing, they were quite content with being wet inside and not outside as well.

A VOCALISTS' REHERSAL.

The Members of the Town Choirs Again Called Together.

The united choirs of the town are once more invited to assemble and take up the work which was discontinued last fall.

A band concert will be given on the evening of the 24th and the choirs have been asked to prepare the programme which they were working on for the musical festival last year, before that scheme unfortunately fell through.

It is to be hoped that Peterborough's vocalists will permanently organize for mutual benefit, as the result of being again called together by Mr. G. W. Mulligan. The first rehereal will take place on Tuesday evening in the Y.M.C.A. Hall.

TOWN POLLING SUB-DIVISIONS.

The Number to be Considerably Increased.

Mr. R. A. Morrow, Returning Officer, is by the consent of the Government, rearranging the polling sub-divisions in the several wards of the town. The existing sub-divisions are much larger than they should be, in case of a heated contest, the large number of votes will be recorded with difficulty—hence the re-arrangement. Instead of thirteen polling sub divisions, as at present, there will be about double. The change is in the interests of all concerned, and for the benefit of the electors. THE EXAMINER will publish a list as soon as it can be procured from the Returning Officer.

24th MAY CONCERT Bradburn's Opera House — two military bands and chorus of over 200 voices. Watch for particulars.

THE PETERBOROUGH CONSERVATORY OF MUSIC.

An Effort Being Made to Establish Such an Institution in the Town.

Mr. G. W. Mulligan has a scheme on foot for the establishment of a Conservatory of Music in Peterborough, on similar lines to those existing in Toronto. Specialists will be engaged to conduct the various departments, if capital is forthcoming to put the institution on a sound financial footing. It is thought that all Eastern Ontario could easily be cut off from Toronto by the establishment of such an institution. An effort would be made to secure Herr Klingenfeld to conduct the violin instruction.

CARD OF THANKS.

Mr. W. Aldridge desires to thank the Fire Brigade for its prompt attendance and effectual work, on Sunday night, April 25th. Also the neighbours and friends, through whose kind assistance his furniture was moved out and replaced with comparatively little injury.

OUR PUBLIC PARKS.

Improved and Made Ready for Summer Use—The Nicholls Park East. Bicycle Track now in Prime Shape and Ready for Use—General Park Improvements.

The series of parks generously presented by the late Mrs. Nicholls to the town, were put into good shape last summer, and this year they have received attention that adds greatly to their attractiveness.

The Nicholls Park, East, has been thoroughly cleaned up, the drives have been put into good order and the new bicycle track has been put into splendid shape and is ready for use to-day. It is now in first rate fettle for the wheel. This track is a third of a mile in length. It is largely being used by ladies who are still in the somewhat experimental stage of biking.

A thousand trees have been planted this spring in this park. Of these five hundred elms have been placed bordering the drives; the others are mixed—maples, ashes, etc.

Nicholls Park, west, has also been subjected to great improvements. The grounds have been thoroughly raked, levelled and improved in many ways, and new seats, many of them stationary, have been added. In fact, additional seating accommodation has been provided for all the parks.

Jackson Park will receive attention next; but as the scheme of permanent improvement was pretty well completed last season, there is little to be done besides the annual clearing up. The water will be let into the lake next week.

The work has been done under the supervision of Mr. Richard Hall, upon whom, as resident trustee, in the absence of Mr. McGill, the whole work comes, and he has shown a laudable energy in making Mrs. Nicholls' liberality in the matter of park gifts available for the use and enjoyment of the public. The actual work has been in charge of Mr. Pillar. In the Nicholls series of parks the people have the prospect and opportunities of a long summer of enjoyment before them.

AT THE RIFLE BUTTS.

The Scores Which Were Made at the First Practice.

The first practice of the riflemen was held yesterday morning, but as the hour at which the shooting took place was very early the attendance at the butts was not as large as usual. The following scores were made:—

NEWS NUGGETS.

Paragraphs Picked Up and Pencilled for Public Perusal.

—A new Court of the Canadian Order of Foresters will be instituted in Millbrook this evening.

—Some people are only getting rid of la grippe after wrestling with it for three months or more.

—Buds and blossoms on fruit trees have not yet been injured by frost, and it is hoped they will escape blight in this way this year.

—Now the blythe refrigerator
Doth oppress the weary soul,
Eating ice as ravenously
As the furnace once ate coal.

—A lady lost her mink neck ruff last on the Peterborough road between Nassau and Lakefield. The finder will be suitably rewarded by leaving it at this office.

—The whip-poor-will was heard a few evenings ago, which reminds one of the saying that when the note of this bird is heard, there will be no more frost during the season.

—The close season for bass and maskinonge commenced on the 15th of April, and continues up to the 15th of June. In Rice Lake fishing for maskinonge may be done on the 2nd of June.

—The Campbellford Herald says: Andrew Stillman, son of Mr. Andrew Stillman, of Seymour west, left here last week for Fowler's Corners, in Peterborough county, where he has secured a situation at cheese making.

—To-night, Al. G. Field's Darkest America, appears at Bradburn's Opera House. This is one of the finest Negro Minstrel Company travelling. Don't miss the fun. Prices 25, 35 and 50c. Band concert in front of the Opera House at 7.30 p. m.

—One of the residents of Seymour township returned home last week from a trapping expedition in Peterborough. He is now after rats in Percy township, and expects to bag numerous skins which now have a market value of 18 cents each.—Campbellford Herald.

PERSONAL.

The Hastings Star says that Miss Grace Londerville, of Peterborough, spent a few days of last week at her former home in that village.

A capital half tone of Miss Gibbs, of Hazel Brae, seated in a buggy at the front entrance of the Home, is published in this month's "Ups and Downs," the official organ of the Barnardo work. The likeness is indeed a striking one.

Mr. E. B. Robinson, president of the Ontario Association of the Blind, Toronto, is in town for a few days. He is author of a work entitled "The True Sphere of the Blind," in which he maintains that the withdrawal of vision renders possible a more intense mental life.

Mr. J. J. Grafton, of the well-known firm of Grafton & Co., clothing manufacturers, has been with us the last few days, visiting their branch here. He reports that he is well pleased with the way that business is increasing and that they have been very busy in all their branches this spring, going far ahead of last season. They have large and extensive factory and warehouses in Dundas and branches in Hamilton, London, Peterborough, Owen Sound, Orillia and Dundas.

THE WHEEL.

Trainer Bain is again in town and has already secured seven men, whom he will look after at the track. Doubtless this number will be largely augmented as the season advances.

There are already fourteen men who have signified their intention of entering the novice race on the 24th. As all are local boys it will be a dash worth witnessing.

LACROSSE.

All lacrossists are urged to turn out for practice to-night on the P.A.A.A. grounds in order that the first team can get in shape for the Queen's Birthday tournament, which takes place on the afternoon of the 24th, at the Driving Park.

Brer Wilson, of the Lindsay Post, passed through town to-day and gave the EXAMINER the pleasure of a call. Mr. Wilson wheeled to Port Hope from Peterborough.

HONOURING A DEPARTING CITIZEN.

Address and Presentation to Dr. J. H. Eastwood—How a Well-known Citizen was Honoured—The Address, and Handsome Presents.

At Dole's Hall, Pickering, on Saturday evening last, a large and representative gathering of the many friends of Dr. Eastwood gathered to say good bye before his leaving for Peterborough. Rev. A. McAuley was appointed to the chair. After stating the object of the meeting, Dr. and Mrs. Eastwood were called forward, when Mr. Barker, manager of Spink's mill, read the following address:—

Dr. J. H. and Mrs. Eastwood:

DEAR FRIENDS,—It was with feelings of deep regret that, a few days ago, we learned that you were about to leave our village for a larger sphere of usefulness.

We, your friends and well-wishers, could not think of having you depart without in some way expressing to you the large place you have in the hearts of the people of Pickering.

Nine years ago you came here, a young graduate, to begin the practice of the profession you have since so much honoured. At the beginning you had to face difficulties of a formidable character.

The public said you were young and inexperienced; you were also a comparative stranger. In the face of these difficulties, by faithful, hard and *persistent* work you have won for yourself a place second to none as a family physician.

Of yourself, personally, nothing but the kindest words with expressions of regret at your departure are heard from all who employed you as their family doctor.

As a citizen and a professional man, of you it can be said truly, no one more thoroughly attended to his own business. We are pleased to say that your highly esteemed wife has won an equally good place, and our prayer is that she may be long spared to second your noble efforts.

We congratulate the people of Peterborough *on the acquisition of so worthy a family* and the patrons of Dr. Goldsmith on so excellent a successor to their former medical adviser.

Before you leave us please accept from your Pickering friends, you, Dr. Eastwood, this gold watch, and you, Mrs. Eastwood, this silver piece, as a small expression of our appreciation of you both. Look not upon them for their intrinsic value, but as a memento of your many friends and the days you spent here.

We all wish you continued success in your new home and in your larger field of practice. We wish you and your family the healing blessings of the great physician above, under whose care we all are.

Signed on behalf of committee:
MR. BARKER,
W. LOGAN,
REV. A. MCAULEY.

Dr. Eastwood was greatly affected but made a suitable reply, thanking his friends for the kind words and well wishes.

Short addresses were then made by Rev. L. Perrin, Georgetown, W. Logan, Mr. Sparks, Richardson Marjach and others, all speaking in loud praise of Dr. Eastwood and his wife.

The meeting was brought to a close by singing a verse of "Blest be the tie that binds," followed with prayer by Rev. Mr. Perrin.

Dr. Eastwood, as mentioned yesterday, is in town, and we heartily welcome a gentleman who has the qualities that won the high respect he enjoyed in his late home.

Charlatans and Quacks

Have long plied their vocation on the suffering pedals of the people. The knife has pared to the quick; caustic applications have tormented the victim of corns until the conviction shaped itself—there's no cure. Putnam's Painless Corn Extractor proves on what slender basis public opinion often rests. If you suffer from corns get the Extractor and you will be satisfied.

Winter cough, sore throat, asthma, bronchitis, croup, etc., are more quickly and easily cured by Wood's Norway Pine Syrup than by any other means.

Crossley and Hunter.

Messrs. Crossley and Hunter, the well-known evangelists, write under date of May 4th from Yarmouth, N. S.:—"We are in the midst of a gracious revival in this old town of Yarmouth, N. S. The Baptists, Methodists, Presbyterians and Congregationalists are heartily united in the work. The town is moved, the tide is rising higher daily. Even politics have to take a second place. As usual the churches are too small to hold the crowds."

Tent Caterpillars.

Young tent caterpillars are being hatched, as may be seen from the numerous webs on the branches of trees. They are now in prime condition for gathering, and the removal of one web and stamping it under foot will exterminate, perhaps, several hundred. They should be destroyed without delay, as soon they will break away from their silky enclosure and crawl everywhere over garden and field, on their mission of destruction. During the week a number of them have been burned out of the trees with flaming pine knots.

Something for Nothing.

Gough's novel way of advertising. Buy one of our $1 shirts for 75c and one of our 50 cent ties for 25 cents, and besides receive a free ticket to Cosgrove's big funny show, at the Opera House, Wednesday evening.

A New Swindle.

The latest swindle is accomplished by means of a double fountain pen, one end filled with good ink, the other with ink that fades away in a day or two. The sharper's plan is to call on farmers or others, make a bargain so advantageous to them that they are willing to agree to it, write the contract or agreement with the ink that fades, then manage so that the victim signs it [illegible] the ink that lasts. Then, in a few [illegible] they have the name on a sheet of [illegible]per, on which any sort of note can be written. People who read the papers are careful how they sign their names to any document offered by a stranger. Others are caught by this new trap.

A Baby Girl Discarded.

On Thursday morning, early, a family in Hastings was the recipient of a find, in the porch, in the form of a real, live baby girl. The child is about a month old, was well and comfortably dressed, and supplied with clothing for some time to come. Even the nursing bottle was provided. Along with was a letter, asking the parties to take good care of the child and adopt it as their own and they would be remunerated; that the writer had come a long distance and had to return before daylight, and for the present dare not let himself be known. All day the house was crowded by lady visitors to see the present, the gentlemen being conspicuous for their absence. It was quite a relief when no resemblance in town could be located. It has fallen into good hands and the village fathers relieved of a foster parentage.

Pilgrimage to Lourdes.

The arrangements for the third annual pilgrimage to Lourdes, France, have been completed by W. L. J. Rivet, who successfully organized the two previous ones. Rev. E. Latulippe, curate of the Cathedral of Pembroke, Ont., has been entrusted with the spiritual direction of the present one. A fixed sum of $275 will this year cover the entire voyage, comprising first-class ocean passage, railway fares, excellent hotel board throughout, and even including steward's fees and gratuities generally, thus relieving the pilgrims of many of the annoyances of a first European trip. The departure will take place by the Beaver Line steamship Lake Superior on Wednesday, the 1st of July next, and the tour is expected to extend to about seven weeks. Pilgrims may be enrolled on application to Mr. A. J. Boucher, music publisher, 1,632 Notre Dame street, where any further information desired will be cheerfully communicated.

HOW IS THE WORKINGMAN HELPED?

To the Editor of the Examiner:

DEAR SIR,—I see by your paper, yesterday, that a Workingman inquires about what very great benefit the workingmen have got from the National Policy, as it works with the Lock Works. But he might have asked other questions that would have been as much, if not more, to the point. Before ever there was a National Policy we had flourishing manufactories, and some of them have disappeared almost as completely as if the earth had opened and swallowed them up. If the N.P. was a benefit, it took a queer way of showing it. I should like those that preach high taxation as a way of helping manufacturing, to tell me what the N. P. has done with the large number of flourishing carriage making establishments we once had in Peterborough, that were doing a good, thriving business till the N. P. helped them out of existence? Where are the large numbers of citizens of the town who were employed in them at good wages supporting families in comfort? Where are the bills for hardware, paint, etc., that they used to run up at our hardware stores? Where is the flourishing business that was done in these lines? What has become of the brisk business that was carried on by Fitzgerald & Stanger, by T. Fitzgerald, by Douglass & Logan, by Lockhart & Chown, by the Metheralls and Mills? Where are the long rows of waggons and buggies that used to stand in front of Wm. Yelland's establishment? Will any one dare to say that these establishments, that is such of those as the N. P. has left us, are anything like as prosperous as they were ten or fifteen years ago? And all this has happened under the N. P., that was to boom factories and make workmen rich. What's the reason? Will some of the politicians tell us? Is it because the buggy combine which the N. P. has encouraged, has put the buggy making business in a few big and wealthy establishments? Something's the matter; what is it? We pay a big price for protection and wouldn't mind so much if it worked as recommended. But I, for one, can't see much good in a protection that almost wipes out a business that was at one time a thriving one in Peterborough, and gave employment to scores of workmen where ones are now employed. Will some one kindly give me an explanation? Under the N. P. I've almost forgotten how to handle a spokeshave. How does that happen?

Thanking you for space for these few questions, I remain

Yours truly,
ANOTHER WORKINGMAN.

Here's a Stunner.

A REVENUE TARIFF FOR MANUFACTURERS.

A MANUFACTURER FAVOURS IT.

Mr. George Bertram's Sensible Address—He and Others Engaged in Manufacturing Better Off Under a Revenue Tariff—The Cart Before the Horse—Raw Material More Protected Than Finished Products.

At a meeting of the Liberals of the Fourth Ward, Toronto, last night, among the speakers was Mr. George Bertram, brother of Mr. John Bertram, ex-M.P., West Peterborough, who dealt with an economic side of the trade issue, in a manner to show that Hon. Mr. Laurier's system of tariff reform is the true national policy to adopt.

Mr. Bertram is reported thus:—

Mr. George Bertram, whose name has been spoken of as a possible candidate in Centre Toronto, was called on to speak, and was received with prolonged applause. The Liberals of the Dominion, he said, were proud of their leader, Mr. Laurier. (cheers.) When that gentleman was selected as leader he had doubts as to whether Mr. Laurier was big enough. There was no longer any doubt. (Cheers.) If ever there was a man who had grown in the affections and confidence of the Liberal party, that man was Mr. Laurier. (Cheers.)

Another thing that they might well be proud of was that Liberals were a united party from the Atlantic to the Pacific. That was something when one looked at the other side. (Laughter.) The Conservative party was falling to pieces. (Applause and a voice, "A nest of traitors.") The Liberal party should be proud also of the united policy with which they went to the country. They were united on the tariff issue. By force of circumstances and by reason of the extravagant expenditure of the Conservative Government it was no longer possible to get back to the 17½ per cent. tariff of Mackenzie's time. The tariff must be higher than that, and, although considered as a revenue tariff pure and simple, it so happened that such a tariff as must be levied by the Liberal party, perhaps 10 per cent. added to the Mackenzie tariff, would give the manufacturers all the protection that they had a right to expect. (Applause.) Speaking as a manufacturer, as one who had almost everything he had in the world invested in manufacturing in this city, he wished to say that he was not afraid of the Liberal policy. (Cheers.) A number of the leading manufacturers of the city were really carrying on business under what was in effect a revenue tariff. Take the Massey Company. The demand for reduction in the duty on agricultural implements became so insistent that the Government reduced the duty to 20 per cent. When it was remembered that the duty on the raw material, iron and steel, was from 40 to 60 per cent., it must be apparent that the protection on the raw material was far greater than on the finished product, and that the company was not getting anything like the benefit it formerly got. The Gurney industry was being carried on at an average duty of 25 per cent. or less. The Massey Company, the Gurney Company and the Bertram Engine Company, all employing a large number of men, would, in his belief, be better off under a tariff framed by Mr. Laurier than at present (applause)—because if reduction was made in the tariff on their products a like reduction, or a greater, would be made in the raw material entering into these products. He proposed during the campaign to state these views at greater length, and to show that a tariff for revenue, such as Mr. Laurier proposed, would be in the best interests of the manufacturers themselves. (Applause.) In conclusion, Mr. Bertram warmly eulogized the honest government of Sir Oliver Mowat, and said the time had come to put the Liberals in power and secure a like honest government in the Dominion. Everyone was saying the Government at Ottawa have been in too long. Turn them out. (Cheers.)

THE CONSERVATIVE CONVENTION.

The Convention of the Conservatives is called for to-morrow, to select a candidate to contest the representation of the riding in opposition to Mr. Hall, and, ostensibly, the third party candidate. The personnel of the candidate is still a matter of conjecture. It is generally understood that the chance lies between Messrs. Stevenson, Kendry and Bradburn. Mr. Stevenson's friends are making strenuous efforts to secure his nomination. However, it is likely that all doubt will be set at rest before the Convention meets, the candidate being settled by a caucus, the usual way our friends have of doing these things. Mr. George Taylor, of Gananoque, ex-whip, and Mr. A. F. Wood, Controller of Customs, are expected to be present to deliver addresses.

Later information has been received to the effect that Hon. Mr. Wood will be unable to be present to-morrow, and therefore the evening meeting is cancelled. It is expected, however, that Mr. Taylor, the Conservative whip, will be here.

LAYING THE "WHIP" ON A LADY.

Mr. George Taylor, ex-Conservative whip, who will deliver an address here to-morrow, comes to us as a Conservative, but there must be some mistake in labelling him—he is so broad and magnanimous in his views, that a title suggestive of the narrow gauge principles of Toryism seems to be a misnomer. Speaking at Brockville on Monday, Mr. Taylor "jumped" upon Mr. Dalton McCarthy; though the EXAMINER has no special love for Mr. McCarthy, still it believes in common decency in the treatment of a public man. Among other things Mr. Taylor said:

"The second evidence of Mr. McCarthy's unfitness to lead the hosts of Protestantism was the fact that his step-daughter, who is his house keeper, takes her two children to the Roman Catholic church every Sunday."

Aside from the question of the good taste of dragging a gentleman's domestic affairs into the public arena of politics, the fact of Mr. Taylor degrading public discussion by implied insult to a defenceless lady is to be severely condemned. The fact that a Christian lady attends a Roman Catholic church does not, as Mr. Taylor would have us believe, constitute a reason for ostracising her and making her a social and religious Pariah. Properly enough, in a country of mixed religions, Roman Catholics have seats in the Dominion Cabinet; and if a Roman Catholic is good enough to be a Cabinet Minister, it should be a reproach to no Canadian gentleman, unfitting him for a public trust, that he should have a Roman Catholic lady to direct the affairs of his household. Mr. Taylor, who visits us to-morrow, will find that it will be from a very insignificant source that will come approval for such sentiments of bigotry. We are a community where Protestants and Roman Catholics live together in harmony; and if not in perfect harmony, it is owing to the work of such firebrands as Mr. Taylor, who would deny to any class the rights of civil liberty, courteous treatment, and social consideration to which their commendable discharge of the duties of citizenship, and their contribution to the respectability and moral worth of the community, entitle them. No, Mr. Taylor, you can't wield your "Conservative whip" in Peterborough.

SALES MAY COME AND SALES MAY GO

—BUT—

ROBERT HALL'S SALE

MUST GO ON, ALL THE SAME.

Nothing can stop it. The outburst of Bargains has given such a momentum to our Sale, that has started it off at a lively gait this week. We are in it to stay until stocks are cut out clean.

LEVELING PRICES

On all the floors and in all the departments, and mowing down the profits, so that nothing but the bare cost is left, is the sum and substance of our daily routine these days. But the strongest attractions this week is the

Merciless Sacrifices in Millinery and Mantles.

The offerings include the whole of our special display of Trimmed Millinery in all the very latest tints and styles from Paris, London and New York—Newest fancies in Feathers, Flowers and Trimmings—Spring styles in Ladies' and Misses' Mantles, Capes and Jackets. It seems too bad that such beautiful goods should be sacrificed in this way, but we've put our hands to the plow and we can't turn back.

Perhaps more than half the folks who come here have looked all around the other stores. We hope so. We believe in intelligent comparisons and welcome them and if at any time you buy anything here that isn't exactly right bring it back and get your money. The Bargains have not been equalled—nor are they likely to be. Not a line should escape your notice. We're getting out of business, sure.

WHAT AM I?

I am spelt with nine letters,
A child spells me with three,
I'm well known, I hope, reader,
Both to you and to me.

I am found on the hillside,
Or out 'mid the heather,
In the glad summer sunshine,
Or clear frosty weather.

I am found in the dairy,
Or away in the wood,
On the far distant prairie,
Where the cattle find food.

Some have found me at Stepney,
And in many a home,
But some seldom can find me,
Though far they may roam.

I am never in hiding
To an honest true mind
Who in love's way abiding,—
Cares to seek till he find.

I am ever so near you,
Almost within reach,
Yet but few can detain me,
And still fewer can teach.

How to capture the fleeting
Yet solid grand thing
That I wish for you always,
And of which I now sing.

Strength for the Aged.

As age advances the recuperative power of the body decreases. Fatigue clings like a burr to the already depleted store of energy, still further wasting and dissipating it, and in consequence, the elderly find it very hard to keep their spirits up to the "doing" point. An anchor of hope and safety is found in the energizing action of Maltine with Coca Wine, which imparts, almost magically, strength and vigor to the failing powers, and through its nutritive and tonic properties renews those functional activities upon which depend health of body and mind. Maltine with Coca Wine rapidly restores appetite, improves digestion, imparts tone and vigor to the nervous system; in a word is a strength-giver of unequalled excellence. Maltine with Coca Wine is prescribed and recommended by physicians. All druggists sell it.

Let the Prices Speak!

They tell the story of advanced values. They explain why business is always booming at the Peterborough Bookstore. Some people's words are half battles. Every syllable means so much. What we have to say about this store and the prices of the goods, we mean to carry out.

WE MEAN BUSINESS

What is worth emphasizing is that in the lines we quote prices on to-day, we show a large variety of patterns. It is not our policy to select two or three catch lines. You get the choice of a very large stock. A New Stock selected with the utmost care and discretion, that always brings business. **It's a Grand Stock for finding just what you want. Radiant with Good Values and sparkling with Low Prices.**

WINDOW SHADES.

Our stock of 16,00 Opaque Shades, made from a composition of rubber and whitelead painted on a pure linen, ensures you the most durable shade cloth made. Guaranteed washable. But the prices are what surprise the buyers.

Complete set, with White and Gilt Cornice Trimmings, Rings and Brackets, and White Enameled Pole, for parlours or sitting rooms.....55

These are the Cheapest Cornice Poles in Peterborough. No housekeeper, into the heart of housecleaning, should fail to inspect these poles.

YOU OUGHT TO KNOW ABOUT OUR GREAT WALL PAPER SALE.

Now in full blast. To let a opportunity like this pass by is a big mistake. The prices all lean your way and the stock tells your present needs. Wall Papers do brighten up a home so, and comparatively few people know how cheap we are selling here. Lowest prices start at 4c. per roll.

BABY CARRIAGES.

Up-to-date Baby Carriages, new designs in elegant upholsterings; mother is not so unwise as to keep baby indoors on sunshiny spring days unless it be that she is wanting a baby carriage.

Prices are planned so that the mother with the most modest purse can find something here that will give baby an outing daily. Cheapness and quality are our twins and everybody's pets.

Agent Butterick's Patterns.

Cupid breaks his bow at the sight of a face full of pimples and blotches. Hollow cheeks, sunken eyes, and a sallow complexion will defy his best intentions. Beauty is more than skin deep. The skin is merely the surface on which is written in plain characters the condition of the body. The skin is not a thing by itself, and skin diseases are frequently not skin diseases at all. All the lotions and bleaches and creams and powders in the world won't make a good complexion if the digestion is wrong. If the stomach is sour, and the liver torpid, and the bowels constipated, the skin will show it. No use trying to treat the skin for such a condition. The only way to relieve it is to cleanse the system and purify the blood. As long as the heart is pumping impurities to every part of the body, just so long these impurities will show through the skin.

Dr. Pierce's Golden Medical Discovery is good for the complexion because it makes the whole body healthy—because it clears and purifies the blood, makes the digestion strong and clears out impurities of all kinds By increasing the ability to assimilate nutritious food, and by the infusion of its own ingredients, it enriches the blood and so makes *solid, healthy* flesh. It fills out the hollows, rubs out wrinkles and substitutes for sallowness a rosy, healthy glow. There is no mystery about it. It isn't a miracle. It is merely the result of a combination of rational, natural common sense with expert medical knowledge. It cures diseases of the lungs, liver, stomach, bowels, skin and scalp, simply because all these diseases spring from the same cause—a disordered digestion and consequent impure blood. Don't let prejudice and scepticism cheat you out of your health. Dr. Pierce's Golden Medical Discovery will positively cure you, if suffering from diseases named above.

If you want to know hundreds of great medical truths, send 21 one-cent stamps to cover customs and mailing *only*, and we will send you FREE a copy of Dr. Pierce's 1008 page book, "Common Sense Medical Adviser." Address, WORLD'S DISPENSARY MEDICAL ASSOCIATION, Buffalo, N. Y.

FORCED TO SHUT DOWN.

Barney Barnato Says He Can't Work His Mines Because His Best Men are in Jail.

Cape Town, May 6.—Barney Barnato, in an interview at Johanesburg, said he wished to manifest no hostility to the Transvaal in closing down his many mines. He said he was personally friendly with President Kruger, who knew he never assisted or helped in the late trouble. He was acting under commercial necessity.

Mr. Barnato, who has control of scores of paying mines, says that his most reliable men are in prison, and he has no one competent to look after his mines.

The Barnato companies have spent $15,000,000 in working their mines.

Johannesburg, May 6.—The Diggers' News says the sentences imposed upon the convicted members of the Reform Committee will be reduced to nominal figures, that part of the sentences prescribing imprisonment and subsequent banishment being revoked.

ST. ISIDORE SENT RAIN.

A Saint's Remains Carried Through the Streets of Madrid by Superstitious People Who Wanted a Shower.

Madrid, May 6.—Copious showers of rain fell in Madrid and throughout the adjoining provinces yesterday, a circumstance ascribed by the people to the beneficence of St. Isidro, Madrid's patron saint, to whom the populace appealed for rain and for the suppression of the Cuban rebellion. Thousands of persons visited the cathedral for the purpose of offering praises of thanksgiving, and were admitted to the shrine of St. Isidro, where their implicit belief in the intercession of the saint in response to their prayers was manifested by their destroying part of his silver coffin and carrying away the fragments for relics. Had it not been for the interference of the police the entire coffin would have been carried away piecemeal.

Before the rain came the city was the scene of an imposing ceremony, the object of which was to procure the intercession of St. Isidro, who lived in the 13th century, to bring about the end of the long drought throughout the country, and also to effect the suppression of the Cuban rebellion.

The remains of the saint, enclosed in a silver casket, were carried through the streets, escorted by eight hundred priests, thousands of members of religious congregations and the civil and military organizations. All carried lighted tapers, and the scene was most impressive, even to those who had no faith in the efficacy of the ceremony. There was a large number of choristers, who chanted litanies as the procession moved slowly through the principal streets of the capital. The route was lined with thousands of people, who knelt as the remains of the saint were borne past them. The houses were decorated in honor of the occasion, and an enormous quantity of flowers were thrown from the balconies into the path of the procession. Nothing similar to this ceremony has been seen in Madrid since the 17th century.

HEADACHE.

A SIMPLE CURE.

As a sure cure for headache, whether caused by liver, stomach, kidney or nerve trouble, Burdock Blood Bitters is the most effective medicine known. It removes the causes of headache by restoring all the organs of the system to proper action and health. Doubts disappear in view of proofs like this :—

In the spring of 1891 I got a bottle of B. B. B. for my mother who had been troubled for twenty-five years with sick headache. I got it from Mr. W. Paxton Baird, of Woodstock, N. B., who gave me two other medicines to take home and let my mother take her choice. Fortunately she choose the Burdock Blood Bitters, and I returned the other bottles. She used it for three months, and has had no headache since. We are sure it was B. B. B. cured her, as she took no other medicine.

TAYLOR USED A GUN.

A Shooting Affray at Hamilton Last Night in Which James and Thomas McKelvey Were Intended Victims

Hamilton, May 6.—(Special)—James and Thomas McKelvey, two well-known sports, were shot about 9 o'clock to-night at the corner of Bold and Caroline-streets, by Patrick Taylor, a nephew of Mrs. Taylor, who keeps a grocery and liquor store at the corner of Bold and Caroline-streets, but the wounds are not serious. To-night the probabilities are that both men will recover. The bullet entered Tom McKelvey in the left thigh, close to the main artery, but it only grazed Jim's leg. The McKelvels live across from Taylors and are well-known characters. Shortly before the shooting took place they entered the liquor store and proceeded to kick up a disturbance between themselves, and then attacked Taylor. The latter says he had heard they were going to assault him, and prepared himself with a 22 calibre revolver. The McKelveys picked up bottles and fired them at Taylor, who stood behind the counter, and he says to protect himself he fired, not intending to kill, but to scare his assailants away. Drs. Rennie and Griffin were summoned and attended to the injured men, but did not remove the bullet from Tom McKelvey's leg to-night. Taylor was arrested.

HOLMES DIES TO-DAY.

Five Hundred Dollars Offered for Tickets to See the Hanging.

Philadelphia, May 6.—H. H. Holmes, who will be hanged in the county prison to-morow, for the murder of Benjamin F. Pitezel, his fellow-conspirator in the insurance frauds, was wakeful last night. With the exception of short naps, sleep has evidently forzake nthe condemned man, and his next to last night on earth was largely spent in talking with his death watch, and in reading religious works, his choice of reading is varied to his changing moods, and, although he seems to find the greatest consolation in the Bible, he frequently casts that book aside in a petulant manner and picks up a newspaper, in which he has marked articles bearing upon his case.

After Holmes had eaten his breakfast to-day he was visited by Rev. Father Dailey, his spiritual adviser, who was in the cell for over an hour preparing him for the end to-morrow. Holmes, according to Father Dailey, is fully prepared for his fate, and is sincere in his repentance for the numerous crimes he has committed.

Holmes will receive the sacrament at 8 o'clock to-morrow morning from Father Dailey. Father Dailey will be assisted by Father McPake and possibly Very Rev. Abbott Leoni, provincial of the Dominican Order in New York. These clergymen will remain with Holmes from the time of giving him the sacrament until his death.

The execution will take place about 10 o'clock. In all, not above seventy people will be present. Sheriff Clement has been besieged by several thousand applicants to witness the execution, and for the past three days he has been literally driven from his office to escape this mob of morbidly curious people. So eager have some been to see the hanging that they have offered some $200, some $300 and one man $500 for a ticket. Those at the hanging will be the Sheriff, the sheriff's officers, the prison officials, the sheriff's jury, which will consist of 12 prominent business men, a few whom Sheriff Clement has invited and one representative from each of the Philadelphia newspapers and the Press Association.

THE ONLY HELP.

A Victim of Bright's Disease for Many Years—Cured by Dodd's Kidney Pills.

Neepawa, (Special), May 4th.—Mrs. T. H. McKee, formerly of Listowel, came here as a last resort. Had suffered ten years wath Bright's disease. Reported to be past help and dying. Her re-appearance on the street in apparent good health was a pleasant surprise. The explanation given was that her little boy had insisted that she should use Dodd's Kidney Pills, and prophesied that they would cure her. She says :—"From the first few doses I began to feel better, and after taking four and a half boxes I say it with heart-felt gratitude I am perfectly cured." Dodd's Kidney Pills is the only medicine in the world that has ever cured a case of Bright's Disease at such a stage.

The Man Who Shot at Albert Hodgins Goes Up for Trial.

Lucan, May 6.—Freeman Blackwell, the Biddulph farmer, who shot at Albert Hodgins, of this village on May 1st, eluded the officers for three days, but on Monday morning came to town and gave himself up. He was arraigned before Squire Armitage and Justice of the Peace O'Neil, and pleaded not guilty to the charge of shooting with intent to kill. Three witnesses for the prosecution swore to having seen him point the revolver in the direction in which Hodgins was running, when he fired the shot. He was sent for trial and bailed in the amount of $1500.

HOW THE SUN LIFE FULFILS ITS PROMISES.

A Matured 10 Year Endowment.

Profits Paid by the SUN 21 per. cent more than the Estimates.

The following letter, which speak for itself, was received by the undersigned this morning from a gentleman in Brockville, whose ten year endowment which he held in the Sun Life Assurance Company of Canada matured last week and was paid him. The Sun is modest in promises but UNEQUALLED IN RESULTS. The public are benefitted by results, not by promises unfulfilled

BROCKVILLE, November 7th, 1895.

W. H. HILL, Mgr. Central Ontario Sun Life Assurance Company of Canada, Peterborough, Ontario :—

DEAR SIR,—I should have acknowledged the receipt of yours enclosing cheque for endowment policy No. 12,871 before, only I wanted to write something more than a mere receipt. I am pleased to hear of the continued prosperity of the "SUN" and it speaks well for your Company when the profits are greater (by 21 per cent.) than you as the Company's representative promised or rather estimated, as was the case with this policy.

I hope your Company will continue to prosper and I often regret that I do not carry more Insurance than I am doing. I might have carried twice as much as I do when at Minden without any great effort, still what little I do carry I feel is perfectly safe being in the "SUN."

I must thank you for your promptness and kindness regarding this policy just settled. I hope we will both be alive and well when the new one I now hold will be due in 1905 and assuring you of very best wishes, I remain,

Yours Sincerely,
(Signed) F. R. C.

The above voluntary testimonial is significant and shows in a most practical way the SUN'S standing as a profit paying institution.

CANCER CURED
—AND A—
LIFE SAVED
By the Persistent Use of
Ayer's Sarsaparilla

"I was troubled for years with a sore on my knee, which several physicians, who treated me, called a cancer, assuring me that nothing could be done to save my life. As a last resort, I was induced to try Ayer's Sarsaparilla, and, after taking a number of bottles, the sore

began to disappear and my general health improve. I persisted in this treatment, until the sore was entirely healed. Since then, I use Ayer's Sarsaparilla occasionally as a tonic and blood-purifier, and, indeed, it seems as though I could not keep house without it."—Mrs. S. A. Fields, Bloomfield, Ia.

DODD'S KIDNEY PILLS ALWAYS CURE
After Ten Years Suffering

Two Box Cure

Milverton, 29th July, 1895.

Gentlemen,—For the last ten years I had been troubled with kidney disease, being so bad at intervals that I could not lie in bed at night nor stoop to the ground.
I had tried all the remedies I could find without effect, but heard of Dodd's Kidney Pills and procured a box.
I am most happy to say it for my own sake as well as for others that I am perfectly cured after using four boxes.

344 Rubidge St. LOUIS MAJOR,

HER ENGAGEMENT.

A very pretty gray team and a rather old-fashioned basket phaeton stood in front of a large, cream-brick house on Clifton-avenue, one Tuesday morning in late June. The air and sunshine and sky were perfect. A most tempting morning for a drive.

The owner of the turnout, Col. Baker, was within the mansion soliciting Miss Hazel Traft's company for a drive. The young lady had not the slightest objection to going with him. He was an old friend of her father's, an amusing story-teller and very fond of his horses. He was called "Colonel," not from any connection with military life, but it was a title received in his early boyhood days and it had clung to him as nicknames and titles of this sort often do.

As for Miss Hazel, she was an unspoiled child of 16, with a merry laugh, bright, brown eyes and hair that "fuzz'ed" about her face, cheeks where the color came and went like the rose flush in an evening sky. She had no extraordinary talents and gave promise of none, except the talent of being charmingly girlish and exceedingly feminine in all her tastes. She was at that happy stage of young life—just beginning to have "admirers." Her dear friend, Effie Longstreet, had said at parting the week before on graduating day: "Now, dear, at the first symptom of an engagement you write me, and I'll do the same to you; and be sure and accept your first offer. It always brings good luck in the end, and even if it isn't just what you desire, you know it is always easy to break an engagement." With this sage advice reposing in her mind, Hazel kept her eyes open to the possible advent of a lover, though she felt very shy, and in fact dreaded a proposal outside of her own dreams.

The Colonel she did not regard in the light of an admirer. He was older than her father, and had been married twice already, which ought to be enough for any sane man, she thought.

Presently they came out of the house and he helped her into the carriage. Very lovely she looked in a pale ecru dress, and a hat to match with a flaming bunch of poppies low down on one side.

So they went spinning along unfrequented drives and lovely shady places. The Colonel prided himself on the rapid, even gait of his favorites.

On the way down the avenue they met Dr. Whitbeck, driving slowly, and bent over in his seat, meditatively eyeing the dashboard, as if profoundly considering some scientific theory or studying the latest "treatment of a case." The moment he looked up and saw them, he grasped his whip. The horse gave a start, which nearly threw the Doctor over backward, and went furiously up the street.

"D— that Colonel!" he muttered under his breath. "What business has he to be driving her out so much?" Then with a grim smile and a long-drawn breath, "It's none of my business, though, whatever, if she rides to the end of the earth with him."

This young man had met Hazel the summer before while visiting a school friend. He was proud, poor, reserved and ambitious—a self-made man—but uncomfortable in society.

It was a singular fact that in the sick-room he never felt any of these sensations, but was self-possessed, calm masterful. Many ladies who considered Dr. Whitbeck dull and disagreeable on a first introduction, modified their ideas at once on seeing his tenderness and skill with a patient.

Hazel first saw him, by accident, binding up the broken leg of a dog one day when she was out for a walk in the country. His goodness to this little stray creature touched her heart, and his manly form and open face beaming intelligence and kindness as he arose from his cramped position on the ground impressed her strongly. She went up to him like a child, without embarrassment or hesitation, and spoke of what he had been doing.

It followed in the conversation that he knew her friends with whom she was stopping, and walked home with her. They were introduced, though, as Hazel said, "it was entirely superfluous after such an extensive acquaintance." Almost every day during the remainder of the summer they were companions riding, walking, fishing, sailing.

Dr. Whitbeck was more at his ease in the open air. His scientific knowledge often came into use, and he grew to be a sort of hero—a skilled hero in her eyes; she thought there was nothing he did not know and could not do.

To him, the child-woman grew more charming every day. Her innocence and open admiration for him was quite too much for his reserve, which melted, completely away in the sunshine of her presence. She was such a lovable little maiden, with her merry laugh and ready sympathy. He did not realize how he had opened his heart to her and the strength of his passion until it was too late. When he did see his danger with strange fatuity he said to himself: "She does not know it. I'll make no resistance now, but go on and be happy in the present, as I shall probably never again know happiness in my life." So they had parted without one word of love being spoken.

The following winter Dr. Whitbeck had commenced practicing in the same city where Hazel lived. She met him occasionally and invited him to call, but he was always busy and a strange coolness grew up between them. He actually seemed to avoid her. She thought with a woman's sensitiveness, that she had been silly and foolish, and he regarded her as too trifling a piece of humanity to be worthy of his attention, so with equal coolness she studiously avoided him.

The summer days slipped away, she and the Colonel enjoying many a drive in Sylvan Park. She made a visit to Effie and came home looking prettier, if possible, than ever. With her thoroughly hopeful disposition and perfect health she seemed to radiate happiness.

Autumn came and early winter, still she had received proposals—not one. Her young gentlemen friends did not find it easy to make advances with her in spite of her frankness and seeming pleasure in their society. The only person who really enjoyed her confidence was the Colonel, whom she regarded as a sort of father-confessor.

However, the fatal day came at last. She and the Colonel had been out for one of their numerous drives. They had been unusually merry, the Colonel behaving much like a young boy. On bringing her home, he came in ostensibly to "get warm." Standing with his back to the fire and his hands folded behind him, and his feet wide apart, he regarded Hazel in an abstracted way as she threw off her wraps, dropping her cloak on a chair, her hat on a sofa, dragging a scarf over a stand and leaving a mitten on the floor.

Suddenly bringing his heels together with a click and raising himself up on his toes, and letting himself down again, he said:

"Come here, child, I want to tell you something."

Hazel came over to where he was standing, and, dropping into a chair, looked up with expectation in her eyes.

The Colonel took a step, wheeled around facing her and said in a deprecating way, "I don't know how to tell you, I am not an eloquent man—not much of a man anyway—but I—I love you, have loved you since you were a wee child. Perhaps—I suppose I do seem old to you, but I feel younger than I did at 20. I do so long to devote the remainder of my life to you, darling; could you? Do you think *you could be my wife?*"

Hazel, at first dumfounded and feeling a strong inclination to laugh and cry both, tried in vain to collect her wits. Her first offer! And Col. Baker, with his queer ways and bald head standing there with that ridiculous quaver in his voice! It was too much!

"No," she cried, springing up. "How could you ever think I would consent to such a thing?"

Then a sense of all his goodness and worth—it mingled a feeling of pity at his distress—came over her, and clasping the palms of her hands together, she said brokenly: "Oh! you are so good. I like you. I am very sorry, but I am sure—no—I don't think I could make you happy."

"My dear child," he said, with sudden courage, taking her clasped hands in his, "is there anyone whom you care more for?"

"No, no, no!" she said, blushing and then suddenly paling. "There is no one."

"Then let me have an opportunity to win your love. I can't give you up, dear. The thought of you has entered so entirely into my life that I cannot go away without a little hope. You do *not hate me, little one?*"

"No, no!" she said, in distress, "but I—"

"Never mind, don't try to explain yourself or your feelings. Let everything be just as it always has been. Remember that I love you and let me come and see you often." Pressing two fervent kisses on her hands, he shot out of the door and was off before Hazel had time to turn around.

She gathered up her things and went straight to her room. Then she threw herself into a large wicker chair and began rocking herself violently and screaming with laughter. This was succeeded by fits of crying, and again more laughter and tears, until exhausted she dropped asleep in her chair with her head resting on the broad arm. When awakened late in the day by her cramped position and a raging headache, she was too miserable to think, or offer any resistance, when her sister insisted on putting her to bed. It was so unusual for her to be ill.

In the days that followed Hazel was alternately merry and sad, very talkative or absolutely silent for hours together. She ate little anyd seemed restless and nervous in the house, would start whenever the door bell rang, and if it happened to be Col. Baker she always tried to escape to her room, and was invariably "engaged" or "not at home." She spent much time out of doors, taking long walks even on severely cold days. Her face grew pinched and lost its color.

How long this state of affairs would have continued it is impossible to say. But for the intervention of an accident, the Colonel's efforts to win her love would probably have never ceased to this day.

Hazel was coming up the street one day from the postoffice. There had been a storm of sleet and snow the day before and the walks were treacherously slippery. She was looking over her letters when suddenly, right on a crossing, her foot slipped. There was a horse coming around the corner. She never knew just what happened; she struck something and felt herself being lifted, while a well-known voice said, "My God! I have killed her Oh, my darling! My darling!" Then all sensation vanished.

Some time later, when consciousness returned, she found herself in bed with a frightened, tearful group around her and Dr. Whitbeck calmly pouring something down her throat. He had just put her displaced shoulder in order, and she felt a terrible dizziness in her head. Then he ordered everybody out of the room and lowered a window, saying she must have more air. He wrote out his prescriptions and was ready to leave. He stepped to the side of the bed. Hazel's eyes were closed., but the tears were running down her temples. He set his teeth together, but it was no use.

"Forgive me!" he said, in a tone of agonized entreaty. "Oh, God! I might have killed you."

Hazel opened her eyes very wide. She gave him a look which said plainly: "I love you," and with a faint smile closed her eyes again.

In a moment he was on his knees beside the bed, and, quivering with long repressed passion, he exclaimed:

"Hazel, Hazel, my darling! Do you love me? Do you? Tell me, love! Oh!" he went on, "I never meant to tell you this; not until I had someting more to offer than an empty hand; but I love you with all the strength of my being. Do you fogive me?"

She smiled again and said. "There is nothing to forgive, dear."

Then he bent over and kissed her again, oh, so fondly. "Tell me, dearest, that you will be mine some day. I must hear you say it."

"Oh," she answered with a little sigh of happiness, "I am entirely yours."

There is little more to tell. Her recovery was rapid, with a physician and lover in one. The Colonel found out his mistake. But at the wedding Hazel whispered to her first-bridesmaid, Effie, that she thought first proposals lucky. The Colonel had sent her a lovely diamond bracelet for a wedding present.

A NEW CLUB.

Name Suggested for a new Social Organization in London.

London (Special), April 27.—It has been facetiously suggested that a new social club in process of organization in this city should be entitled "The Dodd's Kidney Pill Club" as the present members are all enthusiastic advocates of that remedy and in common with many other citizens declare that in all cases of kidney trouble no other agent has been found so completely effective. Most Londoners have at their fingers' ends the particulars of the many marvellous cures through the use of this specific. In every drug store in this city the medicine is kept in large quantities and largely recommended.

GOOD PRICES OBTAINED.

Canadian Stock Steers Sold in the United States at Good Prices in Spite of the Duty.

"A free exchange of national products with the United States, it is evident would be of equal value to both countries and would injure no interest in either"—Mr. George Hague, General Manager Bank of Montreal.

An exceedingly practical illustration of the benefit which would be conferred upon the farmers of Ontario by freedom of trade in natural products with the United States comes from Owen Sound. Messrs. John Scott and J. Spiers of that town have a contract to supply Canadian stock steers for feeding purposes to the 6,000 acre farm at Genesee, N. Y., 60 miles from Buffalo, which is owned by Mr. J. W. Wadsworth, member of Congress. Mr. Wadsworth has the privilege of exemption of quarantine regulations, and the cattle are sent in through Buffalo direct without transhipment to his farm, where they are kept in seclusion. Messrs. Scott and Spiers, who have the contract of supplying these cattle, sent last autumn two carloads of 48 cattle, and this spring ten loads of 258 cattle. One load more of 26 cattle is to be sent. Of these cattle about one-third were brought in the Toronto market, and the rest direct from the farmers. On the 48 cattle sent in the autumn $212 duty was paid. On the 236 sent this spring, $830 has been paid, and from $75 to $80 will be paid on the 26 cattle which are to go. In addition to this the United States Consuls' fees and the veterinary fees amounted to about $25. In all, then, there will be paid on these 330 cattle about $1,150. In spite this tax, Messrs. Scott and Spiers have been able to sell these cattle at a margin of profit to the American farmer.

RAILWAY NOTES.

Sparks From the Wheels—Cinders for the Eye.

The mechanical superintendent of the G. T. R. has, after a severe examination, promoted Messrs. C. Miron, S. Tufts, W. R. Wensley, W. Young, W. H. Huff, F. Palmer, H. Wilson, J. P. Walker, J. Robinson and W. B. Rowe, of Belleville, from the position of cleaners to that of spare firemen. The position of even cleaner, and it is from them the engineers are made, is difficult to procure, and a rigid examination is made of each man. To secure such a place the candidate must be five feet seven inches in height and measure at least thirty-four inches chest measure. He must not be under 19 or over 25 years of age and must be physically sound. His eyesight and hearing are severely tested. He must be well recommended and have a common school education. After his time has been served as a cleaner and probationary fireman, he is subjected to another severe examination, in which the eyesight and hearing are again carefully examined and tested. After passing the tests, the examiner instructs them in their duties and lays particular stress on the special need of following rules carefully. The men who have the lives of passengers and the property of the company in their hands cannot be too carefully chosen, and it is for this reason the examinations are so so strict.

LASHWADE.

From Our Own Correspondent.

Everything is flourishing around here at present. Mother earth has her beautiful green carpet on, which affords an abundance of feed for stock of all kinds.

The Messrs. Snelgrove have purchased a fine young team of horses from Mr. G. Airhart, which can go along at a two forty clip in the sand.

Mrs. Wm. Dingman of this place, is supposed to be one of the lawful heirs to the immense fortune, eighty million dollars, that was left by Jasper Cronk, of Holland.

Mr. W. Bound and G. McGinnes took the fleeces off C. N. Dingman's sheep on Saturday. They were large ones.

Mr. John and Alexander McFadden have gone on the drive.

Mr. Lowery spent a few days in this place, last week, renewing old acquaintances and making new ones.

Mr. McLean had the misfortune to step on a board that had a nail in it. The nail went through his foot, causing a painful wound. We are glad to see him able to walk to school again.

Rev. Mr. Lord, of St. Paul's church, has commenced his meetings again in the church, of this place.

Elder Gould has commenced services again in the church.

The farmers of this place are hustling their spring work. It stands them in hand, too, for I hear there was a man seen on the road with a feed of green grass in his wagon, for his team.

Mr. Thomas Wilson, jr., left on the 27th of April to join his two brothers, George and Willie. His many friends feel sorry to lose his company, as he is such a jolly young man. We all join in wishing him success in a foreign country.

The Chandos cheese factory is to commence operations on the 11th. The same milk drawers are hired, except Wm. Bush has taken F. Wheeler's route.

CLYDESDALE.

(From Our Own Correspondent.

Miss Annie Gooley, of Peterborough, is visiting friends in Chandos for a few weeks.

Mr. Con. Ryan and Mr. Patrick O'Brien, of town, were with us on business for a few days this week.

Mrs. Edward Gooley has gone to Peterborough to see her friends.

Mr. Allan Caldwell and Mr. Hugh Cleary have purchased farms in the northern part of Anstruther, and have gone back to put in their spring crops.

Our new cheesemaker, Mr. James Hogan, is expected to arrive in a few days and will begin operations as soon as possible.

The logs will surely be driven well to their destination this year. Three of the Hobbins boys, with Edward Goulais and his son Peter, left last week to spend the spring on the river.

Mr. Michael Hobbins has cleared a large part of his new farm, and rumour has it that he is about to build a house and quit his bachelor life.

The patrons of the cheese factory are bracing themselves for another year's work. Last year they were not very successful, but now, with a president, new directors and a new cheese maker, they expect to make a far better showing.

A woman never really knows the meaning of happiness and content until she is the mother of a healthy, happy child. The health of the child depends on the health of the mother, both before and after birth. Most all of women's weakness and particularly the weakness that most strongly influences the health of children, comes from some derangement or disease of the distinctly feminine organs. Dr. Pierce's Favourite Prescription will cure troubles of this nature. It should be taken regularly by every woman during the entire period of gestation. It gives strength to all the organs involved, lessens the pains of childbirth, and insures the health of both mother and child.

Send 31 one-cent stamps to cover cost of mailing only, and receive free a copy of Dr. Pierce's Medical Adviser. Address,—World's Dispensary Medical Association, Buffalo, N. Y.

HE WANTS OTHERS TO KNOW.

DEAR EDITOR:—Please state in your journal, that if any sufferer from Nervous Debility, Seminal Weakness, Lack of Energy and Ambition, Lost Manhood, Night Losses, etc., will write me in confidence, I will inform him by sealed letter, free of charge, how to obtain a perfect cure. I ask for no money, having nothing to sell. I know how to sympathize with these sufferers and am only too glad to be able to assist them. I promise everyone absolute secrecy and as I do not, of course, wish to expose myself either, I do not give my name. If you desire to get well, send stamp and address simply: P. O. EAST CHANDOS.

From Our Own Correspondent.

We are having fine weather for seeding. Some of the farmers are about through with their spring work with the exception of planting.

Mr. John Kirby passed through here on Tuesday last with a gang of men for the drive on Jack's Lake.

Mr. Wm. Shaw, of Stirling, was in this part of the county looking after his farm this week.

Several of our supple young men have gone to the drive on Jack's Lake.

Mr. C. A. Prouty's house caught fire on Monday last from a defective stove pipe. It gave the roof a bad scorching, but they succeeded in quenching the fire before any serious damage was done.

The township assessor has delivered up his books. We understand the valuation is about the same as last year.

The road across the big swamp is getting very bad; is is sadly in need of repairs.

Mr. Chester Hoard, of the Ridge, was the guest of Mr. Wilson Hoard on Sunday.

Mr. John Baskin has started his mill again for the summer. He has several thousand logs to cut. It is giving employment to a number of men.

Men's Hats and Furnishings.

A certificate of character goes with every Hat we sell. Money does not come so easy to every man now that he should pay Hatters fancy prices for Felt Hats. Ours are the latest spring importations—and not the accumulations of a last years moth-eaten business. No Hatter would be content with our little marginal profit on first cost. Our New Spring Dollar Derby is the regular $1.75 Hat at the Hatters.

Low Rents

Make Low Prices.

Panic-stricken merchants may puzzle their heads as much as they like about the way we draw the trade to our store Our customers know we are cutting the life out of "departmental" and ornamental high priced establishments. What with their notorious 30 and 40 per cent. profit, part for the landlord, part for all the modern conveniences, and part for high living; is it any wonder that they are always in trouble how to get along.

Talk About Low Prices

in Millinery and Dry Goods of every kind, as advertised by the high renters. Pshaw! it's only a fairy tale compared with what we are offering this week in every department.

Ladies Blame Themselves

almost every day. They read exaggerated announcements and go next day to secure some of the wonderful bargains, but, as they say, we come to Miss Rudkins and find she has the exact same goods marked 10 to 15 per cent. cheaper—and that is what annoys us. We waste our time thinking we are saving money, when we are really losing money and time also.

Under no circumstances will we be undersold by any store in Dry Goods, Millinery or Mantles.

Come here, get our prices. Make any comparison you like.

No furniture given away—but all the value in your Dry Goods purchases.

CLARKE AND OSLER

Chosen as the Conservative Candidates for West Toronto.

Toronto, May 9.

The Conservative convention of West Toronto last night was a large one. Mr. E. F. Clarke was nominated on the first ballot. Ald. Graham dropped out and a second ballot resulted in the election of Mr. E. B. Osler over Mr. C. C. Robinson. Then the defeated candidates moved for unanimity, and the convention closed amid cheers.

Huron's War Horse Renominated.

Dungannon, May 8.—The largest and most enthusiastic Liberal convention ever held in West Huron was held here to-day. Every municipality was fully represented, and President McGillicuddy occupied the chair. Mr. M. C. Cameron, the old member was nominated by J. T. Garrow, M.L.A., seconded by ex-Warden Garven. Mr. Cameron acceded to the will of the convention, and his statement that he would once more be the candidate was received with enthusiasm, and addresses were made by Messrs. Pedley, McKenzie, Garrow, Gaunt, Griffin, Farran, Stewart, Harry Morris and Thomas Sloan, after which the meeting adjourned with cheers for Cameron, Laurier, Mowat and the Queen.

CONTROLLER WOOD WAS BUSY.

He Did Not Meet Mr. McCarthy at Prescott Yesterday—Charges Denied.

Prescott, May 8.—Mr. John F. Wood did not follow up the attack that he made upon Mr. D'Alton McCarthy in Brockville on Wednesday night. The Third party leader yesterday notified the Controller of Customs that he would have an opportunity at Prescott to-day of meeting him face to face and repeating the statements that he had made behind his back. Mr. Wood did not come to Prescott, but he sent the following message to Mr. McCarthy:

Campbellford, Ont., May 8.

D'Alton McCarthy, Prescott, Ont.:

Your telegram received while at Warkworth. My engagements prevent me being in Prescott to-morrow afternoon. JOHN F. WOODS.

Mr. McCarthy, while ignoring the hard words that Mr. Wood had applied to him, denied the truth of the two more serious accusations that he had made. He said that he had never been employed as counsel for the Dominion Government and that he had received no portion of the subsidy voted for the construction of the Northern Pacific Junction Railway between Gravenhurst and North Bay. The meeting in the interest of the Third party addressed by Mr. McCarthy this afternoon was only fairly well attended, but the audience, composed largely of farmers, was interested and was appreciative.

THE FIGHT IN HAMILTON.

Messrs. Buchanan and Stewart to Run as McCarthyites—General Notes.

Hamilton, May 8.—(Special.)—It was said to-day that the McCarthyite candidates in this city would be W. W. Buchanan and A. D. Stewart. The former will run anyway as a temperance candidate, and when Mr. Stewart was interviewed to-day he said he would not run with a man like Buchanan, but added that he could drink the whiskey and Buchanan the water. It is now understood that A. T. Wood and T. H. McPherson will be the Reform team, and Ald. Colquhoun and Samuel Banker the Conservative pair.

A Horse and Buggy Stolen.

Hamilton, May 8.—(Special)—James Doxeter was arrested to-night charged with stealing J. D. Foreman's horse and buggy standing on Walnut-street north of King this afternoon. P. C. Moore made the arrest.

TUPPER'S POLICY.

The First Gun of His Campaign Fired at Winnipeg.

AID TO THE HUDSON BAY RAILWAY

His Pronouncement on the School Question—Mr. Hugh John Macdonald on the Same Topic—Clarke and Osler Nominated for West Toronto.

Winnipeg, May 8.—To-day was a field day here with the Manitoba Conservatives. The day opened with a session of the Manitoba Provincial Conservative Association, at which Sir Charles Tupper, Hon. Hugh John Macdonald, N. F. Davin and others made speeches, and ended with a mass meeting at the Brydon rink. The convention was well attended, as it had been so long heralded in all parts of the province, and the announcement that the Premier would fire his first campaig shot in Winnipeg attracted many from adjacent towns. The delegates were most enthusiastic in their receptions of Sir Charles Tupper and Hon. Hugh John Macdonald.

The large Brydon rink, which two years ago was crowded to suffocation by Winnipeggers to hear Hon. Wilfrid Laurier enunciate his Liberal policy, was again filled to its utmost capacity this evening, when the Conservative mass meeting was called to order by Mr. J. H. Brock. It is estimated that fully 4000 people crowded into the large building, while many were turned away. The entrance of Sir Charles Tupper and Hon. Hugh J. Macdonald was greeted with long and continuous cheers. But the heartiest cher of the night was given when the expression national schools was used by Mr. Macdonald. Prominent Conservatives from the Province and Territories occupied seats on the platform.

At half-past eight Sir Charles and the Hon. Hugh John arrived, and their appearance was the signal for tremendous cheering, while the band played "See the Conquering Hero Comes."

J. H. Brock of Winnipeg presided and called upon J. S. Aikens, who presented to Hugh John Macdonald requisitions, signed by 2000 citizens, asking him to be their candidate. The remarkable personal popularity of Hugh John, "the Old Man's son," was made manifest when he rose to make a speech, accepting the Conservative nomination. The ovation he received was one that all will long remember.

Hugh John Macdonald then declared until Sir Charles took the helm he had not the remotest intention of re-entering politics, but Sir Charles had been the true and trusted friend of his father, and had stood with him through good repute and evil repute, and when Sir Charles asked him to join his Government he could not refuse. He felt that with Sir Charles as his chief he could render valuable service to his adopted Province, and feeling so, his duty was clear. Then Hugh John took up the questions of the day, dealing first with the school question, which he carefully reviewed. He was now, and always had been, a supporter of National schools and while he had protested against the brutal manner in which they had been brought about, he had felt they were a move in the right direction. But when the Privy Council of England decided that an injustice had been done the Catholics, that they had suffered under a grievance, he had taken the position that they were entitled to reasonable redress. The Manitoba Catholics had been done an injury and the Manitoba Government should have given the remedy. But because the Manitoba Government found it could make capital out of the question, it refused to give justice. If Manitoba refused to give justice, the Federal Government was forced to.

On Hugh John taking his seat he was cheered for several minutes, the band playing "He's a Jolly Good Fellow."

Sir Charles Tupper acknowledged the welcome given him the previous night, after which he went into history, and charged that the five years in which the Liberals held office was a period of misrule, marked by incapacity. Coming to the National Policy, he said that from 1867 to 1873 Canada was fairly prosperous. We had a low tariff, but we enjoyed magnificent protection in the condition of the labor market of the United States, owing to the disorganization in that country consequent upon the war. But these conditions soon changed, and in 1875 and succeeding years, we pointed out to the Government of the day what was necessary in order to insure our prosperity. You know, however, that Sir Richard Cartwright, who was then Minister of Finance, labors under the singular hallucination that he knows more than anybody else. (Laughter.) The commercial men of Montreal went to him and explained the ruin that was coming upon them owing to the policy he was pursuing, but he laughed at them with contempt that is always engendered in men who feel that they know it all. (Laughter and cheers.) We formulated the National Policy. We pressed it upon Mr. McKenzie's Government in vain, and pointed out that under the policy of free trade slaughtered goods from the United States were extinguishing every market in Canada. We pointed out how under the circumstances the money of Canada went to the United States, and that where the money goes the people follow after it. We said to the people of the Dominion that when we were clothed with power we intended to introduce the policy of fostering the industries Canada was capable of. We had hope in the country when free from the incubus of the maladministration of the Mackenzie Government, of which Sir Richard Cartwright was the chief offender. We were brought back to power by an overwhelming majority. I mention that here to-night because I am bound to tell you that if it was not for that National Policy you would not have the C.P.R. to-day: you would have no access to this country. As I said before on three previous occasions, the people, the electors, have knowledge that the National Policy is the policy which brought prosperity to this country, and this is evident by the way in which Canada has survived the depression which has lately been prevalent all over the world.

Then Sir Charles took up the questions of the Hudson Bay Railway and the improvement of Red River navigation, and aroused great enthusiasm by his references to these matters, which reference he prefaced by a challenge to any man to point to any pledge made to his countrymen in his forty years of public life he had not fulfilled. The Canadian Pacific Railway, he said, had found its greatest friend in him, and as such a friend, he could point to the fact that soon the Canadian Pacific would be helpless to handle the vast grain production of the Canadian West. He could see Hudson's Bay Railway was rapidly becoming a necessity. It was a work that demanded immediate attention, and he pledged his Government to aid it.

He also promised to improve Red River navigation, and declared that the Government would have made a grant for it last session but for senseless opposition, which came from the last quarter it had been looked for, the opposition of Winnipeg's own representative.

The Premier then went into figures in an effort to prove the benefits of Conservative rule, after which he dealt with preferential trade, the fast steamship service, the defences, and spoke on the school question as follows:

On the question of Manitoba schools, Sir Charles declared he was prepared to speak on this as on all other questions, fearlessly and honestly. The act of 1871 had given Catholics the privilege of their own schools, and the act of 1890 had taken this privilege from them. That they had suffered a grievance in this respect, was undoubted. The Privy Council of England declared they had a grievance, and this grievance, in all honor and justice, should be remedied. Under the Canadian constitution, Catholics had the right to claim redress. They had this claim under a clause which had been placed in the constitution at the request from a Protestant source for Protestant protection. Because we had hostility to the Separate school system, we could not say we could tear up the leaf in the constitution which gave the Catholics the right to claim redress. Sir Charles said he appealed for the feeble Catholic minority of Manitoba no matter what the opinion was in regard to Separate schools. Had the Protestants of Quebec been treated as were the Catholics of Manitoba to-day, it would have been the other ox that was gored, and every Protestant pulpit in the land would have rung with denunciation. Where was there a man with a head on his shoulders and brain in that head, who would say that in the interests of National schools, it was wise to turn out the present Government and put in power a Roman Catholic and Frenchman as Premier?

He appealed to the people of Manitoba to exercise toleration and a spirit of justice in this school question. He earnestly desired its settlement, for it was doing the country incalculable harm and giving envious enemies of the Dominion in other lands a weapon to strike a blow at Canada's progress. He would never consent to do injustice to any of his fellow-citizens, be they Catholic or Protestant.

DOMINION REPORTS.

Promising Prospects in Many Places, Especially in Province of Ontario

The Dominion Meteorological Service has just issued the weather map for the month of April. It states that in the Province of Ontario the mean temperature of the month has been decidedly above the average. In the Maritime Provinces and Quebec the departures from the average were slight, while in Manitoba, the Territories and British Columbia the temperature ranged from three to six degrees below average.

The weather in Ontario was generally cool up to About April 13. At this time, however, the temperature suddenly rising from 15 to 20 degrees, vegetation made exceptionally rapid strides, more especially in the districts bordering on the Georgian Bay, where the mean temperature for the month was about ten degrees above average.

The following is a summary of the reports received regarding the various counties in Ontario:

"In the counties of Wellington, Grey, Bruce and Huron the season is probably a week or ten days in advance of last year, and excepting in a few places where fall wheat has been winter killed it looks exceedingly well. Very favorable reports also are received of pasture lands, and of unusually fine weather for seeding. Middlesex, Elgin and counties to the westward: What has been said of the counties above will also apply to this district, excepting that reports of wheat are even more favorable. On April 30 peach, cherry and plum trees were in full bloom in many localities, and apple trees just blooming. The dates of the arrival of birds and the flowering of wild plants are exceptionally early. Perth, Waterloo, Wentworth and counties to the southward: In these counties, although all plant life is equally forward with that in counties last mentioned, reports of winter wheat are not so favorable, it apparently having been partly killed in many localities. Simcoe, Dufferin and [illegible], and counties eastward to Hastings: All reports from these counties regarding the crops are most favorable, winter wheat and grass looking well and the weather being excellent for ploughing and seeding. Plant life generally may be said to be five or six days, and in the north part of Simcoe rather more, in advance of last year. Hastings, Prince Edward and counties eastward: Favorable reports generally have been received from these counties, the season being open and seeding well advanced. Fall wheat and clover, however, appear to have been partly winter killed in some districts. Algoma: It would appear from the few reports received from this district that the season is about normal, the rivers being open about the middle of April, and the leaves on the trees were just appearing on the last day of the month. Parry Sound, Muskoka and Haliburton: The season in these districts is exceptionally early, the dates of flowering of wild plants being in most cases earlier than in districts much further south. No unfavorable reports have been received regarding the crops, and the weather is regarded as most favorable to seeding."

GREETING:

We have come out as independent candidates, seeking your suffrage, provided we have in our past dealings with you proved to your satisfaction our worthiness of the same.

In asking for a continuance of your patronage, we would not be unmindful of the fact that the present issues of the clothing business are of great moment and must be dealt with judiciously, all of which has our careful consideration.

Therefore we have no hesitancy in prophesying the hearty support of the people as our just reward.

JUG HANDLED "PROTECTION."

THE high taxationists used to have a great deal to say about "jug handled free trade." Now a word about jug handled protection. Conservative journals with more zeal than discretion assert that the "N.P." protects the workingman and lays the burden of taxation on luxuries and frees the necessaries of life and so has made Canada a free country to live in." Let us examine how the "N.P." protects the workingman. Here is an example:—A short time ago in Toronto the Gurney Company notified their employees that they must accept a reduction of wages. The men protested. But Mr. Gurney, who is a protected manufacturer, and who was among the first to cry for "protection" that he and others might "protect" their employees, refused to pay the usual wages and the men went out. He advertised at once for foreign labour in a Buffalo paper—he got his foreign workmen in—there's no duty on imported mechanics or labourers—and they are there to-day, receiving wages that Canadian taxpayers should receive. That is simply a sample of the protection the workingman gets under the N.P. The manufacturer is protected in this case 35 per cent., and labour is free to move in and out as it pleases. The workingman must compete with the world—against labour imported free of duty.

As to the burden of taxation being laid on the luxuries of life and the necessaries being free, let us also examine a little. Compare this little list with such an absurd and misleading statement:—Duty on rice, 70 per cent., diamonds free. Duty on woollen socks, 35 per cent.; on silks, 30 per cent.; duty on coal oil, 90 per cent.; on champagne, 35 per cent.; duty on rolled steel, 5 per cent.; on labourers' shovels 35 per cent.; duty on steel rails, nothing; on sewing thread, 25 per cent.; duty on lace collars, 30 per cent.; workingmen's overalls, 35 per cent., and so on a whole column down.

Manufactured goods, the necessaries of life, from 20 to 90 per cent in the interests of the manufacturer. Imported labour, free of duty, for labour is a necessary of life, and, according to these blind leaders of the blind, should be free; but socks, shovels, sewing thread, etc., according to these same, have brained theorist are luxuries (and they are sometimes under the N. P.) and should be heavily taxed. What do you think now of jug-handled protection?

THE TEST OF PROSPERITY.

The Conservative stumpers assure the taxpayers of Canada that they are enjoying rampant prosperity (without knowing it.) Now the truest test of national prosperity is growth, especially, of population. Apply this test and what will be the result. Let the government answer the question themselves. The representatives of the country has been changed in conformity with changes in the population to re-adjust the representation. Enjoying the great prosperity that Conservatives say that we enjoy, one would think that our number of representatives—representation being based on population, would have largely increased in the past ten years. But here are the facts. The last House of Commons was composed of 215 representatives, but by the new census there will be only 213, owing to the falling off in the population of some of the provinces. During the session of 1892 a Redistribution Act was passed, which fixed the representation for the new Parliament. The comparison between the old and the new Parliament is as follows:

	No. of Representatives.		Population to each member.	
Provinces.	Now.	Under new act.	Now.	Under new act.
Ontario	92	92	22,993	22,993
Quebec	65	65	22,900	22,900
Nova Scotia	21	20	21,447	22,520
N Brunswick	16	14	20,080	22,947
Manitoba	5	7	20,501	21,783
Br Columbia	6	6	16,269	16,269
P E Island	6	5	18,180	21,815
N. W. T's	4	4	16,700	16,700
	215	213	22,477	22,699

AN ALARMING FEATURE.

The increase in the Dominion debt is one of the most alarming features in the political situation. The figures for the census years of 1871, 1881 and 1891 are as follows:

	Pop.	Debt	Net debt per head	Int.
1871	3,518,411	$ 77,706,317	$22 08	$4,165,301
1881	4,324,810	156,395,780	36 00	7,591,144
1891	4,833,239	257,787,540	49 40	9,763,978

In ten years at the present rate of progress the charges upon the national debt will effectively bar all attempt at radical financial reform. There are 921,043 families in the Dominion, and each of these families is paying over $10 yearly as interest on the public debt. The average income of the workmen of Ontario is slightly under $400 yearly. The payment of the interest bill of the Dominion absorbs the entire proceeds of the labour of 24,400 Ontario workmen employed continually.

AT a Conservative convention for East Northumberland, held Thursday at Warkworth, Mr. Cochrane was unanimously chosen as the candidate in the general elections. Mr. Cochrane is the man to "bridge" the split in the Conservative party.

THE Mail sneeringly remarks, apropos of nothing, that Mr. Laurier began political life as a protectionist. Sir Charles Tupper began politics as a free trader or free lance or something of that sort. Which has made the best repentance? Mr. Laurier favours tariff for revenue and Sir Charles advocates protection that does not protect—simply high taxation, in the light of a source for boodle.

HON. J. F. WOOD, Controller of Customs in the Tupper-Tisdale Cabinet, made a statesmanlike defense of the Conservative gerrymander of Brockville. He said he had had Kitley township tacked on instead of one of the Yonges and that had "saved his (Mr. Wood's) bacon." This action savours enough of the political hog to make "saving his bacon" an appropriate term. At the same time the braggart justification of the shameful action is about on a par with Caron's boast that he "would do it again."

DR. MONTAGUE is Minister of Agriculture, and can't be accused of neglecting the farmers just now. He is making them pay for carrying Tory campaign literature through the mails. Every ratepayer, urban as well as rural, is sent as much campaign rubbish as a big official envelope will hold paid for by the people of Canada. The farmers have paid a high price for protection for 18 years, without getting anything for what they paid in and Dr. Montague is evidently anxious that they should pay for what they get in the case of his campaign literature.

Kalamazoo, Mich., is famous for celery. See Thos. Slater's advertisement on page 3.

TALKED TO MR. FOSTER.

The People of St. John, N.B., Get After the Finance Minister on the Fast Atlantic Service Ports.

St. John, N.B., May 8.—Finance Minister Foster had quite a lively time today with winter port delegations, wishing to have St. John made a port of call or terminus of the fast Atlantic service. The delegation embraced many city merchants and was private. After hearing several speeches, the Minister told the gentlemen that the time for receiving tenders could not be extended and that it had been finally decided that mails and passengers would go to Halifax in winter, but St. John would receive the freight service, the subsidy for the latter being that now paid to the Allans for running to Portland, Me., namely, $120,000. Next winter this subsidy for the St. John-Liverpool direct line would be divided between the Beaver, Dominion, Allan, Elder-Dempster, Donaldson and Furness boats, and after that, commencing 1898, the fastest of these lines would receive the subsidy.

But while this satisfied some of the delegates some were greatly disappointed to learn that St. John was not in it for the fast Atlantic service with Halifax. The delegation next drew the Minister's attention to the report of the proposed transfer of the I.C.R. to the C.P.R.

Mr. Foster did not say this transfer would not take place, but he said in his opinion it was not at all probable because a large part of both Nova Scotia and New Brunswick was hostile to it.

The French line matter was next discussed and the Minister was asked why the Elders allowed the steamer to call at both St. John and Halifax after the line was promised to St. John. His answer was that this was a misunderstanding. The line had never been promised to St. John and the original tenders named both ports. He said the tenders had been let and the steamers would be built at once. During the course of the discussion it came out that the Elders-Dempster, which are expected here next month, would have proper cold storage accommodations.

That

Extreme tired feeling afflicts nearly everybody at this season. The hustlers cease to push, the tireless grow weary, the energetic become enervated. You know just what we mean. Some men and women endeavor temporarily to overcome that

Tired

Feeling by great force of will. But this is unsafe, as it pulls powerfully upon the nervous system, which will not long stand such strain. Too many people "work on their nerves," and the result is seen in unfortunate wrecks marked "nervous prostration," in every direction. That tired

Feel-

ing is a positive proof of thin, weak, impure blood; for, if the blood is rich, red, vitalized and vigorous, it imparts life and energy to every nerve, organ and tissue of the body. The necessity of taking Hood's Sarsaparilla for that tired feeling is, therefore, apparent to every one, and the good it will do you is equally beyond question. Remember that

BLOWHARD NAVY MEN.

A Scrap Between the Sailors of a British and a U.S. Gunboat.

San Francisco, May 8—A morning paper says: Fighting with champagne bottles as a beginner, and finishing with knives, a dozen or so of the tars of the United States gunboat Petrel whipped a number of British sailors at Shanghai, shortly before that vessel sailed for this port, where she arrived last week. The little gunboat was made sport of by the big British cruiser Spartan, and while a marine battle was averted by a prompt apology, the sailors of the two war ships took up the matter ashore. The British consul held an official enquiry into the affair, and the court decided against the Spartan's crew. It assessed the ship the cost of the damage, which amounted to several thousand dollars.

Has been written—and believed about Blood Purifiers.

WHAT PURIFIES THE BLOOD?
THE KIDNEYS PURIFY THE BLOOD And THEY Alone.

If diseased, however, they cannot, and the blood continually becomes more impure. Every drop of blood in the body goes through the kidneys, the sewers of the system, every three minutes, night and day, while life endures.

WARNER'S SAFE CURE

puts the kidneys in perfect health, and nature does the rest.

The heavy dragged-out feeling, the bilious attacks, headaches, nervous unrest, fickle appetite, all caused by poisoned blood, will disappear when the kidneys properly perform their functions.

There is no doubt about this. Thousands have so testified. The theory is right, the cure is right and health follows as a natural sequence.

THE WORLD'S GREAT LEADER!

Used by the High and Wealthy and Those in Humbler Circumstances.

PAINE'S CELERY COMPOUND THE CHOSEN MEDICINE IN ALL WELL REGULATED HOMES.

Keep a Watch on the Substituter and Imitations.

The world's great leader, Paine's Celery Compound, has no equal for feeding exhausted nerves and building up the weak and shattered body.

The greatest of modern medical men—Prof. Edward E. Phelps, M. D., LL.D., after years of hard practice and close scientific research, gave Paine's Celery Compound to millions who were suffering. The wonder-working Compound has astonished rich and poor, learned and unlearned, by its marvellous cures.

The glad news has spread to all civilized lands that Paine's Celery Compound surely and permanently cures even cases too desperate for the physician's skill. Proofs of such cures in the testimonial form are received every week from happy and grateful men and women saved from the dark grave.

Paine's Celery Compound has fully proved its power as a banisher of dyspepsia, indigestion, rheumatism, neuralgia, kidney and liver troubles, and all diseases arising from impure and poisoned blood. Thousands of men and women, tired out, run-down, sleepless, nervous, morose and despondent, have regained perfect health, strength and buoyancy of spirits, by the well-advised use of nature's own medicine. It has given a new and brighter existence to a vast number of human beings who were tired of life and its many burdens.

If, from the winter weather, and the variable days of early spring, you are left with nervous debility, headaches, insomnia, languidness and nerves all out of order, do not hesitate a day longer; use Paine's Celery Compound, which is specially adapted for your case, and you will avoid future misery and suffering.

Paine's Celery Compound does not belong to the worthless families of nervines and sarsaparillas that are made public by newspaper advertising, and that alway deceive unwary and too confiding people. Paine's Celery Compound is a truly scientific prescription recommended by the best medical men, chemists and professional men in the world. To give an idea of the popularity and great eminence that Paine's Celery Compound has reached, it is only necessary to state that millions of well-regulated homes have made it their chosen medicine.

As popular goods are always imitated by unscrupulous men, buyers of Paine's Celery Compound should see that they get the only genuine celery in the world. Look for the trade mark—the name Paine's and the stalk of celery—on every bottle you are offered by dealers. Avoid all merchants who would substitute something that they call just as good; there is no other medicine that can take the place of Paine's Celery Compound; it is what you most urgently require to make you well.

Mr. Chamberlain Speaks in Favor of Cecil Rhodes

IN THE BRITISH HOUSE OF COMMONS

The Colonial Secretary Says the Result of Jameson's Raid Has Been to Jeopardize British Predominance in South Africa—Mr. Kruger Was Not Threatened.

London, May 8.—The House of Commons was crowded with members and the press and strangers' galleries were filled with visitors to-day, upon the occasion of the presentation of the colonial estimates.

Sir William Harcourt, the leader of the Opposition, reminded the Government that an enquiry had been promised, with the object of ascertaining whether the British South Africa Co. was in the hands of fit and proper persons to be entrusted with the administration of the affairs of the company's territory. Continuing, he said that the trial of the members of the Johannesburg Reform Committee in Pretoria had disclosed important circumstances, and the Government now owed the country an authoritative statement. In the present condition of affairs, he said, he would confine his remarks to the position of the Chartered Company, into which enquiry was absolutely necessary, because it affected the relations between Great Britain and the South African Republic, and the relations between the English and the Dutch in South Africa. In the light of the recent disclosures, the case of Dr. Jameson had fallen directly into the background. What the Government had to consider was the matter of instructions under which Dr. Jameson had acted. From the cipher telegrams which had been interpreted and published, he declared, it was obvious that the whole affair had been conducted between Johannesburg and Cape Town, by the principal and responsible direction of the British South Africa Co.

Sir William said that the whole story was an inexpressibly revolting, sordid and squalid picture of stock jobbing imperialism. He admitted that Mr. Chamberlain had been surrounded by difficulties, and had shown courage and decision worthy of his position, but the question was, what was the Government going to do?

Mr. Chamberlain, Colonial Secretary, said that the deplorable result of Jameson's raid had been to jeopardize English predominance in South Africa, and it had also delayed the concord of the two races, which was England's main policy. He was convinced, he said, that there had been faults on both sides, but until they had got to the bottom of the matter, the Government could not properly judge the merits of the case. There had been frequent Boer invasions, he said, not merely into territory outside the Transvaal, but into British territory. Furthermore, the Boers had shown a great want of consideration for the rights of the Uitlanders.

Mr. Chamberlain further said that a harmonious settlement of the question of the rights of the Uitlanders had long been Mr. Rhodes' dearest object. If he could only have found a coworker in President Kruger, the results would have been beneficent in promoting the federation of the South African States, wherein local rights would have been fully regarded. Though recent events had sadly interfered with these objects, their accomplishment still remained the Government's chief aim. President Kruger's refusal to come to England at the Government's request, to modify the convention of 1884, had ended the prospects of a private conference upon the leading difficulties. What, then, he asked, ought to be the right step? It had been suggested that the Government ought to have sent an ultimatum to President Kruger. This would certainly have been rejected, and would have led to war. The Government, he declared, could not think of resorting to war in order to enforce internal reforms in the Transvaal. This declaration was received with cries of "Hear, hear."

Mr. Chamberlain further said that he had not threatened President Kruger at all, but had claimed the right to make friendly representations. President Kruger promised to consider these representations, and the Government awaited the fulfilment of his promise. In the meantime the Government had asked Sir Hercules Robinson, Governor of the Cape Colony, to come to England, but the request for him to come was not intended as a recall. In regard to the Chartered Company, he said he did not dispute the authenticity of the cipher telegrams which the Transvaal authorities had published, although there were as yet no legal proofs that they indicated complicity on the part of the directors of the company. (Hear, hear.) But, he continued, as regarding the actual invasion of the Transvaal there was reason to believe Mr. Rhodes had expressed his disapproval and had endeavored to stop the raid. Did the Opposition, he asked, demand the punishment of Mr. Rhodes? Whatever may have been Mr. Rhodes' errors he had also rendered great service which could not be forgotten. Mr. Rhodes was now deprived of power for mischief and the directors of the Chartered Company had shown their confidence in him by deferring their acceptance of his resignation. Considering the disturbed state of Rhodesia and the influence of Mr. Rhodes in that territory he did not blame the directors for their show of confidence. (Cheers.) The Government, Mr. Chamberlain went on to say, were opposed to making a promise that a searching inquiry would be made into the action of the Chartered Company at the present time. Such an inquiry, he said, must not be opened until the judicial proceedings connected with the Transvaal raid were ended. Then, he said, he would propose an inquiry by a joint committee of both Houses.

The truly gifted engineer always makes one part of his work fit into another, and no energy is ever wasted. A wealthy engineer who had set up a very fine place in the country, where he had carried out many pet country, where he had carried out many pet constructive projects, was visited there by an old friend.

The visitor had so much difficulty in pushing open the front gate that he spoke about it to the proprietor.

"You ought to fix that gate," said the guest. "A man who has every thing just so should not have a gate that is hard to open."

A FAMOUS MAN!

What His Researches Have Done for the World.

DR. CHASE.

All successful and distinguished men have imitators, and Dr. Chase, the well-known author of Chase's Recipe Book, proved no exception to the rule. Dr. Chase's discoveries have many pretended rivals, but no equals.

Long scientific researches produced Chase's Kidney-Liver Pills and Chase's Ointment, the first a certain cure for all kidney, liver, stomach, bladder and rheumatic troubles; the latter an absolute specific for chronic and offensive skin diseases. Among his other discoveries were Chase's Catarrh Cure and Chase's Linseed and Turpentine for colds and bronchitis.

During 1895 the Canadian manufacturers, Edmanson, Bates & Co., 45 Lombard street, Toronto, gave away free 500,000 samples of Chase's Kidney-Liver Pills and 100,000 samples of Chase's Ointment. The return they brought proved how much they were appreciated. The same free distribution of samples will be continued during 1896. Those at a distance should enclose a 5-cent stamp and also receive a sheet of the latest music in return.

KILLED ON THE RAIL.

AN OLD MAN RUN DOWN AT NOON TO-DAY.

His Ribs were Crushed in, and he Died ten Minutes after being taken to the Nicholls Hospital.

A most deplorable accident occurred on the Lindsay branch of the Grand Trunk shortly before noon to day when the express from Toronto, due in Peterborough at 11 45 a.m., ran down Mr. Clemence, an old gentleman who is visiting his son, Mr. Chris. Clemence, of No. 61 Bonacord street.

Mr. Clemence, it seems was walking down the track just in the rear of Mr. Geo. Roger's residence and being very old, did not, apparently, hear the incoming express as it came dashing around the curve. He did not at any rate make any effort to get off the track until he was struck by the engine and hurled into the ditch.

The train was immediately slowed up and stopped and the old man, in an unconscious condition, taken aboard and brought to the depot, from which he was instantly taken to the Nicholls Hospital in a hack.

He only survived the shock a very short time, dying about ten minutes after his arrival at the Hospital. An examination showed his left side to be horribly injured, all of the ribs being crushed in. His face, head and hand were also badly cut.

Engineer Young states that he reversed his engine and fairly made the welkin ring with his whistle warnings to the old gentleman, but that the latter made no effort to leave the track.

The train was in charge of Conductor Riley.

Coronor Dr. Bell states, that after making the fullest inquiry, he deems an inquest unnecessary.

The Summer Route.

Tourists and campers who go to Stony Lake to spend their holidays in the summer will be pleased to learn that a first-class train and boat service will now be had. Arrangements have been made between the Grand Trunk authorities and the steamboat owners, whereby the steamers will connect with both morning and afternoon trains from Peterborough. This will be a great convenience to parties coming from a distance, as heretofore they had to remain in Peterborough over night and catch the morning train, while now they can go right through without a stop.

Leaving Peterborough.

The announcement that Mr. and Mrs. W. J. Drope are contemplating leaving town and taking up their residence in Grimsby, will be a matter of surprise and regret to their many friends in Peterborough. Mr. Drope has for some time been considering the practicability of establishing a boys' school, and his plans have now matured to such an extent that his resignation will be handed in to the Board of Education at its next meeting. The school will be established, it is understood, on the premises of Mr. S. A. Nelles, Mrs. Drope's father, at Grimsby. The buildings and grounds in question are admirably suited for the purposes to which it is now proposed to devote them. Success should certainly attend his efforts, as during his residence in Peterborough Mr. Drope has won for himself deserved credit as an instructor in the Collegiate Institute, and has received most favourable mention at all times in the reports of the Provincial examiners. The physical development of the boys will be well looked after, too, as cricket and football has had no more ardent supporter in Peterborough than Mr. Drope. Citizens, as a whole, will greatly regret to hear of his departure from town, but will join with the EXAMINER in wishing him all success in his new venture.

She Had to be Turned in Bed With Sheets.

"My wife," says Mr. Thomas Crosbie, of Lisle, Ont., was laid up with rheumatism for months, and for two weeks the pain was so intense that she had to be turned in bed with sheets. I saw an advertisement in the Alliston, Ont., Herald, saying that South American Rheumatic Cure would give relief in fifteen minutes, and quickly cure. I at once took the train for that place, and secured one-half dozen bottles from Mr. J. R. Hipwell, druggist. My wife began the use of it, and in 24 hours she was out of bed, and has not been troubled with rheumatism since. This remedy is a wonder worker, and I believe will prove a great blessing to anyone suffering from rheumatism."—Sold by H. S. Macdonald.

THE CONSERVATIVE CONVENTION.

Mr. Stevenson the Conservative Candidate.

The convention of the Conservatives of West Peterborough, was held in the Opera House this afternoon. There was a fairly good attendance, but Liberals, who attended out of curiosity, formed a considerable portion of the audience. The chair was taken by Mr. W. H. Moore, President of the Association, who selected the following gentlemen from the audience and asked them to seats on the platform:—

W. Sallsbury, Jas. Stevenson, ex-M.P., J. H. Burnham, W. Cluxton; W. O'Connor, Ennismore; R. Mulholland; Paul Costello, Ennismore; C. W. Sawers, T. Kelly, J. W. Garvin; Jos. Clark and Robt. Fisher, South Monaghan; Thos. N. Willan, H. C. Winch, T. E. Bradburn, R. C. Strickland, L. M. Hayes; R. Nurse, South Monaghan; W. Croft, A. P. Poussette.

The chairman said that he had called the meeting together to perform the very responsible function of selecting a candidate—to consider who is the strongest man—and urged those present to make the selection without fear, favour or affection, from party and not personal motives. He felt that with the right man in the field the Conservatives would win by the old time majority. He thought the Government had done nothing in the past five years to forfeit the confidence of the electors of this riding. He announced that after a few remarks from Mr. Stevenson, the candidate would be selected by ballot.

Mr. James Stevenson addressed the electors, thanking them for past confidence. It was for the people to say whether he had done his duty. He was sent to support Sir John Macdonald. Since that time there had been several changes, some caused by death and some by other causes. The present government, he declared, was one of the best Governments we ever had in Ottawa. (No cheers.) He lauded Sir Charles Tupper who had had things said against him, but so had Sir John Macdonald. Sir Charles Tupper and Sir John Macdonald had built the C P.R., which was a route of travel to and from the east. The Government are doing all they can for this part of the country. He made a reference to the Trent Valley Canal and indicated what active efforts the Government was making to push this work. The C.P.R. is not costing the country anything now. He defended protection and believed in a retaliatory tariff; if the United States put a tariff on he would meet it with an opposing tariff. We were willing to put down our tariff to meet their tariff—high or low. The greater part of taxes had come from tobacco and whisky. Luxuries are largely taxed, and necessaries lightly or free. We paid nothing on woollen or cotton goods. They were not called to get the best men, but the one that would carry the most votes. He would do his best to elect the man who would carry out the policy of the Government. He had done all he could do for the electors, and some he had failed to please, but one thing he had done was to get the Canal. (Cheers.) Within six years a million and a half would be spent in this section. The speaker said the tariff made the difference between 76 cents for wheat in Canada, against 60 in Buffalo, and went on to show that the Londonderry iron mines created a home market for all our rough produce. Mr. Stevenson prophesied what great developments the iron duties would produce, and generally lauded the effect of a policy of high taxation.

NOMINATIONS.

Several persons were nominated, among them being the three gentlemen whose names has been most intimately associated with the candidature, Messrs. Stevenson, Kendry and Bradburn. Mr. Kendry retired in Mr. Bradburn's favour, and the ballot between Mr. Stevenson and Mr. Bradburn resulted in the selection of Mr. Stevenson by a majority of 3 out of a total of 209 ballots.

On motion of Mr. Bradburn, the nomination of Mr. Stevenson was made unanimous.

Mr. Stevenson will give a decided answer as to his accepting the candidature on Tuesday.

C. P. R. Summer Tours.

The EXAMINER has received a copy of a beautifully illustrated book "Summer Tours of the Canadian Pacific Railway." As the warm weather settles upon us we all feel the humour for an outing, and as our tastes and financial conditions differ, there are many things to be reckoned with. But this book takes us by the hand and points out to us the thousands of beautiful resorts and resting places between the Atlantic and Pacific, to which you can be whirled in the palatial cars of the C. P. R., near at home or far as taste or purse suggests. The descriptive matter is clearly and strongly written, breaking out at times into eloquence—such as the grandeur of the subjects often excuses. It is understood that to Mr. C. E. McPherson, Assistant General Passenger Agent, Toronto, the public is largely indebted for a book interesting in the reading itself—apart from its admirable features as a guide book to summer pleasure resorts, unequalled and unreached in such variety and number by any other means of travel, than the C.P.R., which in its grasp of the summer beauty spots of Canada, may be fittingly called the Transcontinental Octopus. Send or call for a copy of "Summer Tours," C.P.R.

WHICH?

A prominent Conservative this morning remarked to a representative of The EXAMINER, in reference to the Conservative nomination in the afternoon, that it was better to have "a poor man the party could unite on than a good candidate the party could not unite upon." In the light of this principle of solution, is the party united on the candidate or have they simply selected a "good man?"

WHAT HELP DOES THE WORKINGMAN GET?

To the Editor of the Examiner:

DEAR SIR,—I noticed with interest in your recent issues, letters from workingmen. These letters though not perhaps in the highest literary style, were to the point and full of truth. Will you give space to another workingman, who wishes to know from another standpoint how the high protective tariff benefits him? I may not be so directly affected, but at the same time I submit that the so-called protective tariff is an injury to me, through the burden it imposes on my employer. I am engaged in helping to manufacture agricultural implements, and I would be glad to learn how the so-called "protective" tariff benefits me. My employer is compelled to buy raw material in the shape of iron and steel that is taxed on an average of forty to sixty per cent., and other raw material is also heavily burdened. At the same time there is only 20 per cent. "protection" on the implements produced from the heavily taxed raw material. Now I want to know how my employer, who is a fair man and would do the fair thing by his workmen in the way of wages, if he had the power to give me and my fellow workmen as good wages as if the conditions of manufacture were made cheaper and easier. The duty on raw material so hampers the Ontario manufacturers that the manufacturers of the United States, with free iron and steel and free coal, are able to ignore the duty of 20 per cent. and undersell the Ontario men in the Manitoba and Northwest market, which should be our best market for agricultural implements and farm machinery. Hence, how does this arrangement benefit me? My employer cannot compete against free raw material, and sell his goods at a profit large enough to enable him to give me as good wages as if his profits were greater.

Then we workingmen are taxed heavily on almost all the goods we consume, to pay the interest on the many million of dollars that the Northwest Territories and the Canadian Pacific Railway, etc., have cost us. I am not now condemning the wisdom of these expenditures, but I feel that such a vast expenditure, which should have given us a grand home market for the manufactured products of the older provinces, brings no benefit such as it should bring to the workingmen. With heavily taxed raw material the manufacturer is forced, if he sells implements in that market to sell them at a figure that leaves so small a margin of profit that the wages of his workmen must be reduced in proportion to keep things going.

Now, don't you think that if we had a revenue tariff, say of 17½ or 20 per cent., that bore equally on all classes, with a free or lightly taxed raw material, that we could better compete with American manufactures in the Northwest than with a 20 per cent. protection on manufactured goods and a heavy duty on raw material? And if our employers did a better paying business, could they not afford to pay better wages? Surely with a little common sense these things could be improved. Some change in the tariff might be made that would help both employers and workingmen.

Yours truly,
ANOTHER WORKINGMAN.

—GREAT—
EMERGENCY SALE

Is still going on with greater Bargains than ever. The only way to judge the success of a sale is by the loads of parcels going out and the amount of money in the "till" each evening.

This sale has been a success. We mean it shall continue to be such for the next few weeks, when our buyer leaves for Europe. There is nothing the matter, we are simply selling without profit for a little while, in order to raise a certain amount of cash in a given time. As we buy for cash and sell for cash, we can afford to do this to make things lively about "Peterborough's Great Store."

Free Information.

The ladies of Peterborough are invited to attend the Free Baking School to be opened in the Young Women's Christian Association rooms, 414½ George street. Opening Tuesday morning, 9 o'clock, continuing for ten days, morning and afternoon, under the direction of Miss C. V. McLean, graduate of English School of Cooking.

About Tubers.

A farmer remarked the other day that the utter demoralization of prices for potatoes last season will probably serve a good purpose for all by teaching those who have heavy land, suited for cereals, to leave the potato-growing to the farmers on light land. It is not likely that the potato crop will be nearly so large this year. A proportionate reduction of acreage in each farm will ensure better prices this fall.

Tall Fall Wheat.

Mr. Thomas Eason, lot 8, con. 1, Asphodel, left at THE EXAMINER office this morning a stock of fall wheat, containing about a dozen stems, which measured the extraordinary length of 29 inches. Whether any farmer can beat this is doubtful, but it is a pleasure to say that scores of farmers can nearly equal it. Generally the fall wheat is looking well and the country, as a whole, never looked better at this time of year.

An Evening for all.

Friday night at George street church, will afford an opportunity to see something of English scenery and learn something about Shakespeare. Mr. R. M. Roy will show a series of beautiful views and Rev. Mr. Young will give a descriptive talk or lecture on Shakespeare. The entertainment will be very interesting and instructive as well, to both young and old. Bring the children out and come yourself. The admission is only 10 cents. Friday evening, May 15th, at George street church. 1d

The Peterborough Trip.

The Belleville Intelligencer says.—The Peterborough council have made an appropriation to aid in entertaining "our boys" at Peterborough on the 24th and 25th of May, and every preparation has been made by the officers and men of the 57th to welcome the 15th. In addition to the other sports, there will be a baseball match, in which the prizes offered are a gold breast pin (set with pearls) to each member of the winning team. Bicycle races for men in uniform only will also be held. Three officers go to Peterborough next week to arrange for the catering of the men at the various hotels and arrange for them comfortable camping. Let the ranks be filled up at once.

A Shameful Practice

Many tooth preparations contain substances that speedily destroy the enamel and beauty of the teeth. For this reason the greatest care should be exercised in the selection of a dentrifrice. Ivorine for the teeth is offered with the assurance that it is absolutely free from objectionable ingredients. An admirable cleanser is Ivorine, imparting dazzling whiteness to the teeth, firmness to the gums and renders the the breath sweet and fragrant.

ARBOR DAY IN ASHBURNHAM.

How Our Transfluminous Neighbours Observed the Occasion.

The threatening clouds on Friday morning cast a gloom over the usually happy faces of the pupils of Ashburnham Public School, but when the sunshine appeared the long faces soon assumed a new appearance, their owners knowing that the Arbor Day celebration would not then be interfered with.

The forenoon was spent in cleaning up the school grounds, planting trees, making flower beds and otherwise adding to the good appearance of the school and its surroundings.

In the afternoon all reassembled at school and proceeded to Mr. T. G. Hazlitt's grove, the use of which was kindly given for the occasion, as in the past two years. The thanks of the school are due to Mr. Hazlitt for his kindness in this respect; it is appreciated. After running off a programme of sports, the lunch baskets were emptied of their contents, much to the satisfaction of all present, and then a couple more hours were spent in playing baseball and other games, in which all joined heartily.

The happy crowd then proceeded homewards, tired but well pleased with the afternoon's outing, regretting only that it comes but once a year.

The winners of the sports were as follows:

RACES.

Boys under 7—Fred. Wyatt, Robbie Patterson, Charlie Graham.
Girls under 10—Ethel Pogue, Greta Symonds, Bella Long.
Boys under 10—Bruce Gillespie, Melville Moore, Eddie Blaine.

Strength for the Aged.

As age advances the recuperative power of the body decreases. Fatigue clings like a burr to the already depleted store of energy, still further wasting and dissipating it, and in consequence, the elderly find it very hard to keep their spirits up to the "doing" point. An anchor of hope and safety is found in the energizing action of Maltine with Coca Wine, which imparts, almost magically, strength and vigor to the failing powers, and through its nutritive and tonic properties renews those functional activities upon which depend health of body and mind. Maltine with Coca Wine rapidly restores appetite, improves digestion, imparts tone and vigor to the nervous system; in a word is a strength-giver of unequalled excellence. Maltine with Coca Wine is prescribed and recommended by physicians. All druggists sell it.

SALES MAY COME AND SALES MAY GO
—BUT—
ROBERT HALL'S SALE
MUST GO ON, ALL THE SAME.

Nothing can stop it. The outburst of Bargains has given such a momentum to our Sale, that has started it off at a lively gait this week. We are in it to stay until stocks are cut out clean.

LEVELING PRICES

On all the floors and in all the departments, and mowing down the profits, so that nothing but the bare cost is left, is the sum and substance of our daily routine these days. But the strongest attractions this week is the

Merciless Sacrifices in Millinery and Mantles.

The offerings include the whole of our special display of Trimmed Millinery in all the very latest tints and styles from Paris, London and New York—Newest fancies in Feathers, Flowers and Trimmings—Spring styles in Ladies' and Misses' Mantles, Capes and Jackets. It seems too bad that such beautiful goods should be sacrificed in this way, but we've put our hands to the plow and we can't turn back.

Perhaps more than half the folks who come here have looked all around the other stores. We hope so. We believe in intelligent comparisons and welcome them and if at any time you buy anything here that isn't exactly right bring it back and get your money. The Bargains have not been equalled—nor are they likely to be. Not a line should escape your notice. We're getting out of business, sure.

When a baby comes to the house real happiness comes. Worry and work and care and anxiety count for nothing against the smoothly dainty, clinging touch of the little hands and the sound of the little voice. The highest function given to human beings is bringing healthy, happy children into the world. Nothing equals that—nothing compensates for the loss of it. The woman who has not borne a child has never come to the real fullness of womanhood. Over thirty years ago the needs of women appealed to Dr. Pierce, now chief consulting physician to the Invalids' Hotel and Surgical Institute, of Buffalo, N. Y. The result of his study improved by thirty years of practice is embodied in Dr. Pierce's Favorite Prescription. It serves but one purpose. It strengthens, purifies and makes healthy the organs distinctly feminine. It gives weak women the strength and health necessary for the production of healthy children and it makes the bearing of those children easy. It is sure to cure any weakness or derangement peculiar to women; stops pain, soothes inflammation, strengthens, purifies, invigorates. Thousands of homes have been made happy by its use. Thousands of letters like this one from

Mrs. W. P. Cain, of *Clinton, Allegheny Co., Pa.*, who writes: "I was affected with all sorts of female trouble. I tried three doctors, and seven kinds of patent medicine, and found no relief. My husband said 'try Dr. Pierce's medicine.' I told him I might as well throw his money in the fire as to try anything more. I had lost all hope. I had not taken more than half a bottle, when I could eat and sleep well. I took four bottles of Dr. Pierce's Favorite Prescription, and several vials of his 'Pellets.' One year after I gave birth to a fine baby girl. I got along so much better than when my other child was born. Three of my friends are taking your medicines, and are improving." Yours truly.

Mrs. W. P. Cain.

Dr. Pierce's Common Sense Medical Adviser, a 1008 page doctor book, profusely illustrated, of which 680,000 have been sold at $1.50 a copy will be sent FREE on receipt of 21 cents to cover customs and mailing *only*. World's Dispensary Medical Association, 663 Main Street, Buffalo, N. Y.

A DOUBLE RESCUE.

TWO YOUNG LADIES BROUGHT BACK TO HEALTH AND STRENGTH.

One Was Threatened With Consumption Following an Attack of Pneumonia—The Other was in an Advanced Stage of Anæmia—Dr. Williams' Pink Pills Restore Health After Other Medicines Fail.

From the Truro, N. S., News.

Among the residents of Truro there are none better known or more highly esteemed than Mr. and Mrs. Jas. Turner. Mr. Turner is an elder in the Presbyterian church) and a man whose word is as good as his bond. In his family reside two young ladies, Miss Maud Christie, an adopted daughter, and Miss Jessie Hall, a sister of Mrs. Turner. Both young ladies are known to have had trying illnesses, and were said to have been restored to health by a popular medicine, the name of which is a household word from the Atlantic to the Pacific. Judging that their story would be of popular interest, a reporter called upon them and asked for such information as they might choose to make public. Both young ladies were averse to publicity, but when it was pointed out that their experience might be helpful to some other sufferer, gave a statement for publication. Miss Christie, whose case is perhaps the most remarkable, is given precedence. She said: "I am now nineteen years of age and have never been very strong. On the 26th of July last I was attacked with pneumonia, brought on by a severe cold. I was confined to bed for almost eight weeks, when I was able to get up once more. During these weeks I was under treatment by our physician, and still continued taking his medicine. I did not appear to recover my strength much, however, and on the 14th of November was again forced to take to my bed, this time suffering from great weakness and nervous prostration. The doctors' medicine now seemed to do me no good, and I grew gradually worse. I became so low that it seemed hardly possible that I could live long. The doctor said that I was in consumption and that medicine was of no more use to me. At this time an article was published in the paper concerning the cure of a young lady in Toronto by the use of Dr. Williams' Pink Pills, and Mr. Turner at once bought some. After I had used about six boxes I began to get gradually better, my strength began to return, my appetite improved, and I had sound refreshing sleep at night. I have now used fifteen boxes of Pink Pills and have no hesitation in saying that they have effected a wonderful cure in my case.

In the case of Miss Hall the Pink Pills have also accomplished marvels. She was attacked with dizziness, severe headaches and fainting spells, followed later by swelling of the feet and limbs, together with other symptoms of anæmia. After having been treated by a physician for some time without any noticeable improvement she decided to give Dr. Williams' Pink Pills a trial. After using a few boxes of the pills there was a decided improvement in her condition, and with the continued use of the medicine full strength, health and activity returned, and Miss Hall is now feeling as well as ever she did in her life. Both Mr. and Mrs. Turner were present during the interview, and strongly endorsed what the young ladies said, and expressed their thanks for what Pink Pills had done for them.

The experience of years has proved that there is absolutely no disease due to a vitiated condition of the blood or shattered nerves, that Dr. Williams' Pink Pills will not promptly cure, and those who are suffering from such troubles will avoid much misery and save money by promptly resorting to this treatment. Get the genuine Pink Pills every time and do not be persuaded to take an imitation or some other remedy from a dealer which for the sake of the extra profit to himself, he may say is "just as good." Dr. Williams' Pink Pills cure when other medicines fail.

Men who suffer from mental worry and overwork will find prompt relief in Miller's Compound Iron Pills. 50 doses, 25 cents. Sold in Peterborough by Wm. Madill.

WHY THIS CHANGE?

Mr. Chapleau Congratulated Sir Charles

AFTER HIS CAPE BRETON VICTORY

Then He Declined to Enter the Cabinet, Whereat There is Much Gossip in Montreal—Mr. Taillon's Peculiar Expressions at Sherbrooke About It.

Montreal, May 8.—(Special.)—Hon. Mr. Chapleau's refusal to join the Ottawa Government on the plea of ill-health is a fruitful topic of conversation to-day, from the fact of it having leaked out that the Lieutenant-Governor had previously offered his services to the Prime Minister. It appears that a day after Sir Charles Tupper, Bart., had won his signal victory in Cape Breton, Hon. Mr. Chapleau wrote the Cumberland War Horse and warmly congratulated him upon his splendid triumph. His Honor did more. He intimated to Sir Charles that when he formed his Ministry the occupant of Spencerwood would be willing to leave that retreat, don once more the old armor and take command of the French Conservatives of the Province of Quebec. This was all Sir Charles desired, and the good news of Chapleau's return to political life soon became public property among the coming Prime Minister's close friends at the capital. When Sir Mackenzie Bowell retired, his successor thought of course all he had to do would be to summon His Honor from Atlantic City and once more the man of destiny would be in the saddle. Great, however, was Sir Charles Tupper's chagrin at the refusal, and some of the Premier's intimate friends in Montreal declare that never again will Hon. Mr. Chapleau be offered a *portfolio* in a Tupper Ministry.

Hon. Mr. Taillon's words at Sherbrooke yesterday go a long way towards confirming what is written above. The Postmaster-General said: "I gave up the premiership almost like a deserter. I did not have time to consult my colleagues except the two who were in Montreal. Sir Charles Tupper had been counting on Mr. Chapleau, who stated that his poor health precluded him from accepting office. Sir Charles had been at work, and on the fourth day Mr. Angers came to Montreal and said: 'The Premier has been counting on Mr. Chapleau in vain, and if the French section of the Cabinet is not complete by to-morrow we are threatened with disaster.' At this I accepted, and here I am, a member of the Ottawa Government."

La Patrie publishes the following: "Will Mr. Angers, who poses as the champion of Separate schools, have the kindness to let the religious authorities know if his son still frequents a Protestant school and for what reason?"

THE ONLY HELP.

A Victim of Bright's Disease for Many Years—Cured by Dodd's Kidney Pills.

Neepawa, (Special), May 4th.—Mrs. T. H. McKee, formerly of Listowel, came here as a last resort. Had suffered ten years with Bright's disease. Reported to be past help and dying. Her re-appearance on the street in apparent good health was a pleasant surprise. The explanation given was that her little boy had insisted that she should use Dodd's Kidney Pills, and prophesied that they would cure her. She says:—"From the first few doses I began to feel better, and after taking four and a half boxes I say it with heart-felt gratitude I am perfectly cured." Dodd's Kidney Pills is the only medicine in the world that has ever cured a case of Bright's Disease at such a stage.

CALLED THEM "BUFFOONS."

Mr. Henderson of Halton Refers Thusly to Messrs. McCarthy and Wallace.

Glen Williams, May 8.—A largely attended public meeting in the interest of the Independent candidate in Halton, was held here this evening. Mr. Bell a prominent farmer, acted as chairman. Mr. Alex Karr of Toronto and Mr. George Hume of Milton addressed the meeting in the interest of the Independent party, and Mr. Henderson, who was present, endeavored to explain in an hour's speech, his course in Parliament in reference to the Remedial Bill. During the course of his remarks, he designated D'Alton McCarthy, N. Clarke Wallace and their followers who opposed the bill on its third reading as "buffoons." Although Glen Williams is a place that has always given Mr. Henderson a large majority, it is stated that some of his strongest supporters are deserting.

THE PAIN IMMEDIATELY LEFT ME.

So Says Mrs. W. T. Rundle, of Dundalk, After Using Dr. Agnew's Cure for the Heart.

How difficult it is for those afflicted with heart disease to get relief, and to get it quickly. The pain hangs on, and is suggestive of the most terrible results, for heart disease cannot be trifled with. Here was Mrs. W. T. Rundle, the wife of a well-known cattle dealer in Dundalk, who suffered so severely from pain in the region of the heart that, to quote her own words:—"I was for some time unable to attend to my household duties. I was induced to try Dr. Agnew's Cure for the Heart, and I must say the result was wonderful. The pain immediately left me after the first day, and I have had no trouble since." Strong testimony, and yet Mrs. Rundle stands along with thousands of others who can say the same thing. Sold by H. S. Macdonald.

Brennan May Not Hang.

The Divisional Court yesterday reserved judgment on the application for a new trial for Michael Brennan, under sentence to be hanged on May 29, for the murder of John Strathy of Barrie. Mr. Lount, Q.C., pled for a new trial on the ground that Chief Justice Armour, the trial judge, erred in taking the question of manslaughter from the jury. Of the three Divisional Court judges Mr. Justice Rose and Mr. Justice MacMahon agreed that there was a doubt as to whether Brennan had provocation to commit the deed he did, which would make it manslaughter, but Chief Justice Meredith spoke in a contrary vein. Judgment was reserved.

Death of Dr Rae

Dr. Rae, for 14 years a member of the Provincial Board of Health, died suddenly at his home in Oshawa yesterday. He once stood in the Liberal interests in Ontario for the Local House, and was, only three weeks ago, in consideration of his able services to the Reform party, appointed registrar of Ontario County. Only last week Dr. Rae attended a meeting of the Board of Health at Dr. Bryce's office in the Parliament Buildings. He then enjoyed the best of health and talked of the years of rest which lay before him in his new Government office. Death was caused by apoplexy, of which he had had one former stroke.

Two Box Cure

MILVERTON, 29TH JULY, 1895.

Gentlemen,—For the last ten years I had been troubled with kidney disease, being so bad at intervals that I could not lie in bed at night nor stoop to the ground.

I had tried all the remedies I could find without effect, but heard of Dodd's Kidney Pills and procured a box.

I am most happy to say it for my own sake as well as for others that I am perfectly cured after using four boxes.

STRAIGHT AS AN ARROW

B.B.B.

TO THE MARK.

In all diseases that affect humanity there is some weak link in the chain of health, some spot that is the seat of the trouble. It may be the liver, it may be the stomach; perhaps it is the bowels or the kidneys; most likely it is the blood. Burdock Blood Bitters goes straight to that spot, strengthens the weak link in the chain, removes the cause of the disease, and restores health, because it acts with cleansing force and curative power upon the stomach, liver, kidneys, bowels and blood.

With good red blood health is assured, without it disease is certain to come and Burdock

BLOOD BITTERS

is the only remedy that will positively remove all blood poisons. In ulcers, abscesses, scrofula, scrofulous swellings, skin diseases, blotches, old sores, etc., B.B.B. should be applied externally, as well as taken internally according to directions.

LIFE SAVED
By the Persistent Use of
Ayer's Sarsaparilla

"I was troubled for years with a sore on my knee, which several physicians, who treated me, called a cancer, assuring me that nothing could be done to save my life. As a last resort, I was induced to try Ayer's Sarsaparilla, and, after taking a number of bottles, the sore

began to disappear and my general health improve. I persisted in this treatment, until the sore was entirely healed. Since then, I use Ayer's Sarsaparilla occasionally as a tonic and blood-purifier, and, indeed, it seems as though I could not keep house without it."—Mrs. S. A. Fields, Bloomfield, Ia.

A M C.R. Special Made Great Time Between Windsor and the Bridge.

Bridgeburg, Ont., May 7.—The Cornelius Vanderbilt special made great time on the run from Windsor to International Bridge. The special, consisting of three cars, left Windsor at 1.19.01 p.m. and arrived at St. Thomas at 3.02.05, covering the 111 miles in 103 minutes four seconds. The second stretch of 118 miles, between St. Thomas and this station, was run, leaving St. Thomas 3.06.45, arriving here at 4.54.00, the entire distance of 229 miles in 220 minutes 19 seconds.

Results Tell the Story.

A vast mass of direct, unimpeachable testimony proves beyond any possibility of doubt that Hood's Sarsaparilla actually does perfectly and permanently cure diseases caused by impure blood. Its record of cures is unequalled and these cures have often been accomplished after all other preparations had failed.

Hood's Pills cure all liver ills, biliousness, jaundice, indigestion, sick headache.

ONE HONEST MAN.

Dear Editor:—Please inform your readers that if written to confidentially, I will mail in a sealed letter, the plan pursued by which I was permanently restored to health and manly vigor after years of suffering from Nervous Weakness, night losses and weak shrunken parts.

I have no scheme to extort money from anyone whomsoever. I was robbed and swindled by the quacks until I nearly lost faith in mankind, but thank Heaven, I am now well, vigorous and strong, and anxious to make this certain means of cure known to all.

Having nothing to sell or send C.O.D., I want no money. Address Jas. A. Harris, Box K9 eodw Delray Mich.

BASEBALL RECORD.

Toronto Won From Rochester—The National League.

Rochester, May 7.—Lovett's lack of speed and general ease, a costly error by Shannon, and possibly some questionable decisions by Lyndon cost Rochester the game to-day. Members of both teams joined in trying to beat Lyndon all through the game, making a disgusting exhibition, which should have caused him to retire some players and fine others. Some of the decisions were questionable, but it was evident that he meant to do r gut, and after the first four innings he made some decisions which affected the visitors, although not so seriously as they had done Rochester in the first, yet with five runs earned out of seven and an error by Shannon letting in another, the responsibility appears to rest on the home team: Score:

Rochester	0 2 0 0 0 1 0 2 0—5
Toronto	3 0 0 3 1 0 0 0 *—7

BURNS WAS MARRIED.

Springfield, Mass., May 7.—Manager Burns was married this afternoon just as the team was taking a game from Wilkesbarre. He would not have had the victory for a wedding present if the visitors had not played very rocky ball in the fourth innings, when Springfield scored 6 runs. A balk by Luckey was responsible for one of them, and he made a wild throw directly after, which accounted for another. Keenan was substituted and after this inning Springfield did not tally again.

SLUGGING AT PROVIDENCE.

Providence, May 7.—Providence took both games from Scranton this afternoon by heavy hitting. In the first game Druhby sent the ball over the left centre fence, one of the longest hits made on the grounds. Chiles also made a home run. In the second Druhby made a home run over the fence, but was called out for not touching second base. Providence made three three-base hits in succession in the fourth innings and tied the score, which remained tied until the seventh, when another home run by Murray and errors by Scranton let in three runs. Chiles made another home run over the centre field fence in this innings.

A NEW CLUB.

Name Suggested for a new Social Organization in London.

London (Special), April 27.—It has been facetiously suggested that a new social club in process of organization in this city should be entitled "The Dodd's Kidney Pill Club" as the present members are all enthusiastic advocates of that remedy and in common with many other citizens declare that in all cases of kidney trouble no other agent has been found so completely effective. Most Londoners have at their fingers' ends the particulars of the many marvellous cures through the use of this specific. In every drug store in this city the medicine is kept in large quantities and largely recommended.

ARE YOU?

Are you honest in your heart,
True and through in every part?
Are you "proper" in your mind?
Are your inner thoughts refined?
Are you sound and deep and broad,
Or a hollow, whitewashed fraud?
Are you big and brave and high,
Or a little, creeping lie?

Laughed on the Day of His Birth.

There are several recorded accounts of children who are able to walk or talk on the very day of their birth, or who were provided with from two to ten teeth, but mention is made of but one which laughed aloud on the first day of its earthly existence—Zoroaster, the great philosopher. Of him Pliny says: "He was heard to laugh on the very day of his birth; his brain, also, is said to have throbbed so violently that no hand could be laid on his head."

HEADACHE.

A SIMPLE CURE.

As a sure cure for headache, whether caused by liver, stomach, kidney or nerve trouble, Burdock Blood Bitters is the most effective medicine known. It removes the causes of headache by restoring all the organs of the system to proper action and health. Doubts disappear in view of proofs like this:—

In the spring of 1891 I got a bottle of B. B. B. for my mother who had been troubled for twenty-five years with sick headache. I got it from Mr. W. Paxton Baird, of Woodstock, N. B., who gave me two other medicines to take home and let my mother take her choice. Fortunately she choose the Burdock Blood Bitters, and I returned the other bottles. She used it for three months, and has had no headache since. We are sure it was B. B. B. cured her, as she took no other medicine.

What She Wanted.

"I want proposals—"

The new woman with the old face paused, glancing in surprise at the startled countenances of the men about her.

"I want proposals—"

At first they were unable to believe their ears, but now their worst fears were realized.

"As I said before, gentlemen, I want proposals—"

The assembled men arose in haste and unanimously broke down the door.

"For bids for the construction of my new house," she continued.

But all about her was the stillness of the grave—stillness unbroken save by the patter of many feet swiftly dying away in the distance.—New York World.

"A Suicide Job."

"Eddie" Farrell, a San Franciscan politician, whose death was announced this week, was at one time employed in the mint—"a suicide job," he called it, "at $8 a day." He would enter a saloon, and after a stimulated spell of coughing, would put his hand to his mouth and show to the astonished bystanders a small gold nugget. He always carried it with him. Then, with a sigh, he would remark: "My lungs are all coated with gold from working in that mint. It's a regular suicide job."

EDWARD BLAKE'S SUCCESSOR IN DURHAM.

Robt. Beith, M. P. for Durham, Ont., is Another who Recommends Dr. Agnew's Catarrhal Powder.

The observing public are commencing to ask, who has not a good word to say for Dr. Agnew's Catarrhal Powder? Certainly the best citizens the Dominion over are talking its praises, and not without cause. Mr. Robert Beith, member in the Commons for Durham, the old constituency of Hon. Edward Blake, is another addition to the prominent citizens who have used this medicine, and from their own experience can say that for cold in the head, catarrh in its different phases, and hay fever, there is no remedy to equal this. It never fails to relieve in ten minutes. Sold by H. S. Macdonald.

unfortunate

Cod-liver oil suggests consumption, which is almost unfortunate.

Its best use is before you fear consumption; when you begin to get thin, weak, run n; then is the prudent to begin to take care, and the best way to take care is to supply the system with needed fat and strength. Scott's Emulsion of cod-liver oil, with hypophosphites, will bring back plumpness to those who have lost it, and make strength where raw cod-liver oil would be a burden.

A substitute only imitates the original.

ST. TELEMACHUS.

Had the fierce ashes of some fiery peak
Been hurl'd so high they ranged about the globe!
For day by day, through many a blood-red eye
In that fou- hundredth summer after Christ,
The wrathful sunset glared against a cross
Reared on the tumbled ruins of an old fane
No longer sacred to the Sun, and flamed
On one huge slope beyond, where in his cave
The man, whose pious hand had built the cross,
A mean who never changed a word with men,
Fasted and prayed, Telemachus, the Saint.
Eve after eve that haggard anchorite
Would haunt the desolate fane, and there
Gaze at the ruin, often mutter low
"Vicisti Galilee," louder again,
Spurning a shatter'd fragment of the God,
"Vicisti Galilee," but—when now
Bathed in that lurid crimson—ask'd "Is earth
On fire to the west? or is the demon-god
Wrath at his fall?" and heard an answer, "Wake,
Thou deedless dreamer, lasing out a life
Of self-suppression, not of selfless love.
And once a flight of shadowy fighters crost
The disk, and once, he thought, a shape with wings
Came sweeping by him, and pointed to the west,
And at his ear he heard a whisper 'Rome'
And in his heart he cried 'The call of God!'
And, call'd, arose, and slowly plunging down
Through that disastrous glory, set his face
By waste and field and town of alien tongue,
Following a hundred sunsets, and the sphere
Of westward-wheeling stars; and every dawn
Struck from his own shadow on to Rome,
Foot-sore, way-worn, at length he touch'd his goal,
The Christian city. All her splendour fail'd
To lure those eyes that only yearned to see,
Fleeting betwixt her column'd palace walls,
The shape with wings. Anon there past a crowd
With shameless laughter, Pagan oath and jest,
Hardy Romans brawling of their monstrous games:
He, all but deaf thro' age and weariness,
And muttering to himself "The call of God"
And borne along by that full stream of men,
Like some old wreck on some indrawing sea,
Gained their hugh Colosseum. The caged beast
Yell'd, as he yell'd of yore for Christian blood.
Three slaves were trailing a dead lion away.
One, a dead man. He stumbled in, and sat
Blinded; but when the momentary gloom,
Made by the noonday blaze without, had left
His aged eyes, he raised them and beheld
A blood-red awning waver over head,
The dust send up a stream of human blood,
The gladiators moving to and their fight,
And eighty thousand Christian faces watch
Man murder man. A sudden strength from heaven,
As some great shock may wake a palsied limb
Turn'd him again to boy, for up he sprang,
And glided lightly down the stairs, and o'er
The barrier that divided beast from man
Slipt, and ran on, and flung himself between
The gladiatorial swords, and called "Forbear
In the great name of Him who died for men,
Christ Jesus." For one moment afterward
A silence follow'd as of death, and then
A hiss as from a wilderness of snakes,
Then one deep roar as of a breaking sea,
And then a shower of stones that stoned him dead,
And then once more a silence as of death.
His dream became a deed that woke the world,
For while the frantic rabble in half-amaze
Stared at him dead, thro' all the nobler hearts
In that vast oval ran a shudder of shame.
The Baths, the Forum gabbled of his death,
And preachers linger'd o'er his dying words,
Which would not die, but echo'd on to reach
Honorius, till he heard them, and decreed
That Rome no more should wallow in this old lust
Of Paganism, and make her festal hour
Dark with the blood of man who murdered man.

A woman never really knows the meaning of happiness and content until she is the mother of a healthy, happy child. The health of the child depends on the health of the mother, both before and after birth. Most all of women's weakness and particularly the weakness that most strongly influences the health of children, comes from some derangement or disease of the distinctly feminine organs. Dr. Pierce's Favourite Prescription will cure troubles of this nature. It should be taken regularly by every woman during the entire period of gestation. It gives strength to all the organs involved, lessens the pains of childbirth, and insures the health of both mother and child.

The Young's Point Football Club drove over to Bridgenorth and played a friendly game with the club of that place the other day. After an hour's exciting play the Young's Pointers succeeded in scoring a goal, which was the only one scored during the game. The team only needs a little practice when they will be able to make it interesting for the clubs around this part.

QUOITS.

The quoit pitchers are slow in turning out this year, and so far comparatively few practices have been held. This grand old game has a host of admirers in Peterborough, but they have never organized and consequently the game is becoming a back number. On excursions and picnics, however, opportunities often occur to show that the hands of the old players have not lost their cunning. As the trustees of the Nicholls estate have offered to prepare a ground as soon as a club is organized, it is hoped that an effort to this end will be made next week. The trustees have offered to make provisions for bowling on the green as soon as organization is effected of a club.

THE WHEEL.

They are several kinds of fool wheelmen in the world, says the Globe, and among them are three classes which are particularly dangerous to the life and limb of the pedestrian. One may belong to all three classes, as is probably most often the case. They afford a most excellent field for the fool killer to labour on, and if he were to go boldly about his deadly work the public and wheelmen in general would rise up en masse and bless his name. The wheelmen referred to are the class which persist in following the fire engines and hose carts to fires at a breakneck pace; the class which scorches along beside the street cars and the class which ignores the laws of the land and common sense and rides on the wrong side of the street, causing consternation and confusion to other wheelmen and drivers of vehicles.

A hundred miles in ten hours necessitates the possession of a greater amount of endurance and speed than is concealed about the clothes of the average rider, and there has been no little grumbling on the part of those wheelmen who are not endowed with the attributes necessary to sustain them in a ride of that length at the rate of ten miles an hour, or a mile every six minutes, which is required by the Century Road Club under the new regime before a wheelman can become a member of the association, which is enjoying its second lease of life. It was argued at the meeting when the subject was under consideration that ten hours was excessive and meant a hard grind from beginning to end. It was pointed out that it would operate to the disadvantage of the association, inasmuch as it would deter many riders from becoming members. The committee which has charge of the task of drawing up the rules and regulations will not meet until the early part of next week, and it is altogether likely that they will increase the limit to 11 hours, which is a reduction of three hours from the time required last year.

Dress Well and Stylishly and Save Money.

The Problem Solved.

Diamond Dyes have saved hundreds of thousands of dollars to the intelligent people of this country, for by their aid old and faded clothes have been home dyed to look like new.

Diamond Dyes save money in every home; they are true to name, and stand at the head of all dye-stuffs in the world. Diamond Dyes are the only original and only reliable package dyes, and have never had an equal. They are the true preventives of hard times, and will solve the vexatious problem of how to make small incomes cover increasing family demands.

There are vile and worthless imitations of Diamond Dyes; therefore see that your dealer supplies you with the "Diamond." Common dyes are sold for the sake of large profits.

Kicked by a Horse.

On Friday last Mr. George Johnston of Smith, met with an accident which will lay him up for some time. It appears he was working in a field with his horses, when one of them got his foot over the trace, and Mr. Johnston went to the horse to put it back again. When trying to lift its foot the horse made a kick, kicking Mr. Johnston on the cheek, cutting and bruising it considerably. He was taken to Lakefield, and received medical aid, and he is now doing nicely.

NOW COMES THE TUG OF WAR!

Gough Bros. on Their Mettle.

A THUNDERING RACKET IN

HATS!

When it comes to a question of Leadership we've got something to say that will show what we can do. Trouble in the Hat trade has commenced. Just as the Farmer sometimes forced to sell his wheat at 60 cents and lose on it, so the Hat makers have to sell at a loss, and glad to get a good buyer.

This week, we negotiated for a big raft of English and American Hats, in smart and popular selling styles of Felts and Straws, for Men, Youths, Boys and Children. The wholesaler who had stuck on the rock of hard times, seeing we could handle his whole stock and come to his rescue, reluctantly took our bid—a price that puts us in the very best form to sell

TWO HATS FOR THE PRICE OF ONE.

This stock shall not remain long on our hands. The Dollar Hat for **50c.** and the Fifty cent Hat for **25c.**, is the most forcible way we can indicate the general run of prices for the next month in any Hat Department. When you look you'll see a brand-new Hat stock of the latest styles, fresh from the Makers, as big as an ordinary Hat Store—and TWO FOR THE PRICE OF ONE—without a grumble.

BUDDING WITH BARGAINS IN OUR CLOTHING DEPARTMENT.

Men point the finger at us and say—There's the store that sells the most Clothing. What's the cause? did you say. Just look at our $7.50 Suits for example, just marked down. Place them side by side with any $12 Suit in the market and you'll buy ours in preference and save $4.50. And so on all through our mammoth stores. You can put us to the test in Suits, Vests, Trousers, Hats, Boots, Neckwear and Furnishings. There's nothing in town can touch us.

SOMETHING FOR NOTHING.—With every purchase of $1 worth of goods, from now until Wednesday, we will present the purchaser with a free ticket to the Cosgrove company of entertainers show to see how many tickets we can distribute. We have marked our goods at special prices for Saturday Night. $1 Shirts for 75c and 50c Ties for 25c, and a free ticket to Cosgrove's big funny show, at the Opera House, Wednesday evening.

RAILWAY NOTES.

Sparks From the Wheels—Cinders for the Eye.

Some of the corn in transit from Chicago to the New England States, is now passing through to Belleville via Peterborough and Port Hope.

In consequence of general orders having gone forth to provide plenty of cars to move the grain from the Midland elevator expeditiously, nearly all of the sidings on this division are filled with empties.

Between Wednesday and Saturday of last week 250,000 bushels of corn were loaded from steam barges at Midland into the elevator there. It is said to have been the fastest job of unloading ever done at that point.

A number of our prominent local railway men will be present at the opening of the new Union station at Toronto on Monday next, when there will be a notable gathering of Canadian and American railway magnates. Sir Charles Rivers-Wilson, president of the Grand Trunk, will also be present.

Mr. J. Harkom, G.T.R. assistant master of motive power, whose headquarters are in Toronto, and who has charge of all the men in the G.T.R. shops between Portland and Toronto, was in Lindsay for a couple of days this week conducting an examination for the passing of firemen to the grade of enginmen, and cleaners to the grade of firemen. Messrs. Harry and Will Dolby, Lindsay; Thos. Tatton, Midland; and A. E. Edmonds, Peterborough, passed the stiff exam. set for engineers with flying colours; and Messrs. J. Wetheridge and J. Madison, of Midland; and A. Gall and W. H. Lytle, of Lindsay, were passed as firemen.

RECEIVED $100 WORTH OF GOOD FROM EACH BOTTLE.

The Words of the Rev. James Murdock, of St. John, N. B., Concerning South American Kidney Cure.

This clergyman never spoke truer words. He had suffered for a long time from kidney trobble, and commenced to think—as will certainly become the case if a remedy is not secured—that he was fated to die of Kidney disease. He read the claims of the manufacturers of South American Kidney Cure, with scepticism, perhaps. But he tried the medicine and felt much benefitted within two days, and using his own language: "I have taken in all four bottles and consider that I have received $100 worth of good from each bottle." The figure is not nearly high enough, for when kidney disease is not stayed, death quickly follows. Sold by H.S. Macdonald.

Low Rents

Make Low Prices.

Panic-stricken merchants may puzzle their heads as much as they like about the way we draw the trade to our store Our customers know we are cutting the life out of "departmental" and ornamental high priced establishments. What with their notorious 30 and 40 per cent. profit, part for the landlord, part for all the modern conveniences, and part for high living; is it any wonder that they are always in trouble how to get along.

Talk About Low Prices

in Millinery and Dry Goods of every kind, as advertised by the high renters. Pshaw! it's only a fairy tale compared with what we are offering this week in every department.

Ladies Blame Themselves

almost every day. They read exaggerated announcements and go next day to secure some of the wonderful bargains, but, as they say, we come to Miss Rudkins and find she has the exact same goods marked 10 to 15 per cent. cheaper—and that is what annoys us. We waste our time thinking we are saving money, when we are really losing money and time also.

Under no circumstances will we be undersold by any store in Dry Goods, Millinery or Mantles.

Come here, get our prices. Make any comparison you like.

No furniture given away—but all the value in your Dry Goods purchases.

JAMESON'S POPULARITY IS GONE

Talk of Lord Salisbury's Retirement on Account of Ill-Health—Great Britain Has Another Trouble on Hand in the Situation in Persia.

New York, May 10.—Mr. Harold Frederic cables from London to The Times: Rumors of Lord Salisbury's ill health are about again, and I have even heard a circumstantial story that the Duke of Devonshire is going to take over the Foreign Office, but I am quite unable to say what likelihood there is that the report is true. For the moment, the new situation in Persia is occupying the attention of Downing-street, and of Asiatic experts generally, to the exclusion of other aspects of the international outlook. The new Shah is known to be in Russian hands, and it is assumed that Persia, under him, will become a sort of Russian Afghanistan, while England's practical supremacy in the Persian Gulf will be called in question by France. It is whispered about that very disquieting reports have come from the British political resident at Bushire, on this gulf, not only as to the general situation, but as to the actual safety of himself and his suite, for they are again menaced with personal violence. There is no way of verifying these reports, but all the old Indians I know say the position there is critical. Unhappily, British relations abroad are critical at so many points that one added cause for alarm hardly counts.

Mr. Isaac N. Ford cables from London to The Tribune: Sir John Tenniel portrays the main political situation with unerring accuracy in this week's Punch. The subject of his cartoon is the fencing bout between President Kruger and Mr. Chamberlain, with the latter disarmed and looking sheepish. In the background stands Lord Salisbury as a veteran maitre d'armes with a critical eye, and exclaims: "Hum! Joe's style's a trifle too open. There's something to be said for the old school, after all." The Colonial Secretary's style has been too open; the Transvaal blue-book shows that President Kruger has been merely playing with the Colonial Office. Assuming that England had no right to interfere in the internal affairs of the Transvaal, he has demanded the abrogation of Article 4 of the London Convention, and has proposed a new treaty of peace and commerce with England. He was willing to attend a round table conference at which the control of the foreign alliances of the Transvaal should be surrendered, and the absolute charter of Boer independence signed; otherwise he had nothing to gain and would stay away. Mr. Chamberlain naturally did not want him to accept the invitation on those terms, so diplomacy is suspended. Sir Hercules Robinson is coming to England without Kruger, and Sir Jacobus de Wet will soon be pensioned off.

Dr. Jameson would not now be able to command a cheer anywhere in London. The opinion is generally expressed that, with the cipher despatches available as evidence of deliberate and premeditated conspiracy, he will plead guilty on the issue of fact. Whatever indemnity is demanded by the Transvaal will have to be paid by the Chartered Company from financial responsibility for the raid. This makes it inconvenient for the directors to accept resignations. Mr. Chamberlain, moreover, having failed completely in his negotiations with Kruger, naturally does not want to shift the burden of indemnity from the treasury of the Chartered Company to the British taxpayers. He insists upon having Rhodes and the stock-jobbing millionaires pay the bills and does not wish to take away the charter prematurely or commit himself recklessly to summary processes of investigation. The ultimate doom of the Chartered Company is certain. The system of enlarging the British Empire and multiplying Imperial responsibilities by powerful corporations, officered at home by titled figureheads and controlled abroad by ambitious colonial statesmen who have made fortunes in the London Stock Exchange, affronts the moral instincts of Englishmen. It is well described by The Economist to-day as "Chartered Libertinism."

GRAVE FEARS OF CHOLERA

An Outbreak in Epidemic Form Seems to be Certain in Alexandria—Impossible to Stamp Out the Disease.

Cairo, May 10.—The sanitary authorities and medical specialists here regard the increase in cholera, after the unsuccessful efforts made last winter to stamp out the disease, as indicating an approaching epidemic. The chance of an outbreak is increased by the present heat and the falling of the Nile.

An official bulletin reports 19 new cases in Alexandria, and grave fears are entertained respecting many others. Of 20 deaths reported to-day, 13 were discovered by officials when inspecting dwelling houses, as the natives superstitiously conceal the cases that occur and thus render the suppression of contagion impossible.

Additional police are being sent to Alexandria. Rogers Pacha, director-general of the Sanitary Department, left here yesterday with assistants for Alexandria. Further army enlistments there have been suspended and it is feared that the Mahmudiyeh Canal, from which is drawn Alexandria's water supply, has been infected. There have been two doubtful cases in Cairo.

RUSSIA HAS NERVE.

She Threatens to Seize a Stretch of the Foreshore at Chefoo.

London, May 9.—The People publishes a despatch from Shanghai stating that the Russian consul threatens to forcibly seize a stretch of the foreshore at Chefoo, to which Great Britain has a long standing claim. The British Minister has protested against the threatened seizure and it is understood that China also objects. Four Russian warships are off Chefoo landing, apparently to support the consul.

WHO'S THIS WOMAN?

The New York Police are Trying to Find the Identity of "Mrs. Everett of Boston," a Suicide.

New York, May 10.—Who is "Mrs. Everett of Boston"? is a question that the police and press of the city are trying to solve. Her corpse is lying in the Morgue, an unknown suicide.

Wednesday afternoon last a pretty young woman registered at the Colonnade Hotel.

She was a little brunette, who might be 23 years of age, and who might be 30 years. She had laughing black eyes of rare lustre, wavy hair, that was black as jet, a white transparent skin and lips that were curved in an almost continuous smile, revealing small, even teeth.

Her dress was a short waist of maroon velvet, with an Antoinette collar, trimmed with rich white lace, fastened at the neck with a brooch of gold and black enamel in which nine small diamonds were set. Two small diamond rings sparkled on her little finger. Her skirt was of turquoise silk and she wore a hat that was evidently an Easter creation. It was of mixed straw, trimmed with tulle in pink and green effects, and with a scarlet peony. She wore a very gauzy black dotted veil.

Friday morning the chambermaid went to Mrs. Everett's room a couple of times, found the door locked, and concluded the occupant was sleeping. In the afternoon she tried the door again and found it locked. She walked around on a balcony, found the window open and entered the room. Mrs. Everett was lying dead, with a bullet wound in her head.

A coroner was summoned, who made an investigation. All her clothing throughout was of the finest and richest material, but on nothing that she wore or had in her trunk could be found the slightest mark of identification. The name of the maker of her hat, boots, gloves, etc., had been carefully scratched out with a knife. The only marks that may lead to identification were the letters J. B. She had two small diamond rings on her little finger. An envelope containing a note and $89 was found on the mantel. The note read: "Hereditary insanity. Please cremate and pay landlord for damages, etc. Have no family, so beg my wishes to be observed."

Did She Come From Toronto?

New York, May 10.—The body of the woman who shot herself at the Colonnade Hotel Thursday night is still unidentified at the Morgue. A young man, who looked like an actor, told the Morgue keeper that one day last week he made the acquaintance of a woman. He believes that woman and the suicide were identical. He says she was training for the operatic stage, and that she had been a pupil of the Boston Conservatory of Music. She told him also that she had just arrived from Toronto, Can.

Another Lumber Conflagration.

Marquette, Mich, May 9.—The village of L'Anse, Mich., on Keewana Bay, nine miles west of Marquette, is threatened with total destruction by fire, which started at 5 o'clock this afternoon in the mill of the L'Anse Lumber Company. For several days the mill hands have been on strike, and it is alleged the strikers applied the torch to the mill. The mill was destroyed, and the high wind carried the flames into the business centre, and they now have full sway. The loss will approximate $500,000.

A JEALOUS MAN CAUGHT.

Frank Woodyard, Who Stabbed David Richmond, Now in the Toils.

Collingwood, May 10.—Frank Woodyard, who stabbed David Richmond near Gibraltar on Wednesday night, was arrested at Caledon East yesterday. He will be brought to Thornbury for a preliminary trial. Richmond was removed to the General and Marine Hospital on Thursday evening. He will recover.

DRUGGIST BOTSFORD USED A GUN

He Got Into a Boat and There Fired the Fatal Shot—Mad Acted Queerly—Conductor Sedgewick Took an Overdose of Morphine and Died

Toronto, May 11.

The body of O. F. Botsford, druggist, 1094 Queen-street west, is lying in the Morgue with a bullet wound in the head, the effects of a revolver fired by himself.

On Friday night the deceased attended a social gathering in the west end, and acted so strangely as to draw considerable attention to himself. Since then little was seen of him until yesterday morning, when J. H. Hilts, watchman at the Canada Paint Works, foot of Leslie-street, saw him wandering around. About 3.30 in the afternoon, when Hilts went down to use his boat, which he keeps moored near the factory, he found the body of a man lying in the bottom of the boat, with the head resting on the seat, and a revolver grasped in the right hand. The ball had entered the head just above the right ear and come out at the left side.

The deceased was addicted to the use of cocaine, and for some time kept a loaded revolver in the store, much to the discomfort of his clerk and customers.

Botsford was a nephew of C. S. Botsford, the dry goods man, and has a brother, N. F., who is a traveler. Besides these he leaves two, sisters, a wife and child.

Coroner Greig will hold an inquest Tuesday afternoon at 3 o'clock.

A CONDUCTOR'S DEATH

From Too Big a Dose of Morphine Administered by Himself.

Toronto, May 11.

John W. Sedgwick, a conductor employed by the Street Railway Company, and residing at 2 Spadina-avenue, died in the General Hospital shortly before noon yesterday as a result of an overdose of medicine administered by himself. Deceased was 25 years of age and has not been enjoying good health lately. He was a typhoid patient in the General Hospital for nearly three months at the latter part of last year and has not since been thoroughly well. He went out on Saturday night and on his return at 11.40 complained of pains in his stomach. He went to bed and when his mother went in to awaken him at about 9.30 yesterday morning, he was unconscious.

Dr. J. C. Ray and Dr. H. McFaul were immediately summoned and found that Sedgwick showed symptoms of morphine poisoning. After working upon him for some time the medical men decided that it was best that he should be removed to the General Hospital.

Beside the bed in which Sedgwick lay, an empty druggist's envelope was found. It came from the Osgoode Pharmacy and had contained eight powders. Part of the ingredients of the powders was morphine, one quarter of a grain of which was in each powder—in all two grains. Whether deceased had taken all of the powders is not known.

R. F. Sedgwick, a brother, who is also a conductor on the T.S.R., accompanied him in the police ambulance to the hospital, but notwithstanding the strenuous efforts of the hospital doctors the unfortunate fellow succumbed an hour after being admitted to the institution.

STABBED TO THE HEART.

Jacob Hill, a Brant Indian, Near Cathcart, Instantly Kills His Son-in-Law, Abraham Claws.

Brantford, May 10.—Jacob Hill, an Indian living in the neighborhood of Cathcart, while quarrelling with his step-son, Abraham Claws, to-day, drew a butcher knife and stabbed him to the heart, killing him instantly. Hill is now in jail in this place.

SIX IN A BATCH.

Mrs. Fries Heinsnit Presents a Half a Dozen Brand New and Bouncing Babies to Her Husband.

Fowler, Ind., May 10.—Fries Heinsnit, a farmer, had, last night a family consisting of a wife and three children. This morning he has nine children, six of them being less than a day old.

About midnight he was sent after the doctor in a hurry, and, as he went, he reflected upon the fact that, less than two years ago, his wife presented him with two bouncing girls and a boy.

The doctor drove hastily to the Heinsnit home, and when there took charge of six brand new babies—three boys and three girls—all bright and well developed and able to cry lustily. The mother is doing well.

She was born in Germany 27 years ago, was the youngest of a family of 14 and is the only surviving member. She came here when 8 years old, with an aunt, who died three years ago at the age of 103 years. Mr. and Mrs. Heinsnit were married in Pennsylvania in 1890 and have been living in this State since 1893.

One of the Five Dead.

Mayfield, Ky., May 10.—John Lyons, one of the five boys born last week to Mr. and Mrs. Oscar Lyons, of this city, is dead. The four living are enjoying fine health. The mother is grief-stricken over the child's death.

GREETING:

We have come out as independent candidates, seeking your suffrage, provided we have in our past dealings with you proved to your satisfaction our worthiness of the same.

In asking for a continuance of your patronage, we would not be unmindful of the fact that the present issues of the clothing business are of great moment and must be dealt with judiciously, all of which has our careful consideration.

Therefore we have no hesitancy in prophesying the hearty support of the people as our just reward.

HOW MOWAT MET MANITOBA.

Once on a time the Province of Ontario had a dispute with Manitoba over the boundary line. Did Sir Oliver Mowat as Premier of the stronger Province try to bulldoze the weaker, Manitoba? No. That is a Tupper patent upon which infringement is not likely to be made by a statesman in touch with the advanced ideas of political civilization. When Sir Oliver returned from England he found the provinces flying at each others' throats, with signs of bloodshed, the Winnipeg field battery having been ordered to Rat Portage. Did Sir Oliver make hostile preparations? He might have called on our present gallant Minister of Militia, Lieut.-Col. Tisdale, who won his spurs by putting down a prize fight in days of yore, to bring the Manitobans to time. No, he took the summery way of conciliating and issued the following characteristic remedial order:—

TORONTO, May 21, 1883.

To the Hon. Attorney-General Miller, Winnipeg, Man.

What is the use of Manitoba and Ontario quarrelling? I wish you would meet me here to try our hands at an arrangement.

OLIVER MOWAT.

A few days after Hon. Mr. Miller came to Toronto the matter was talked over in a quiet business-like way and peace reigned till Sir Charles Tupper's bulldosing methods were tried with the result that a Province and the central authority are at daggers drawn—blood has almost been shed over it—East Toronto and West Peterborough—over a matter which two well disposed and sensible representatives of the parties to the difficulty could amicably settle in a few hours.

THE EFFECTS OF THE TARIFF.

How the Farmer is Interested—Has it Advanced the Price of Farm Products?—Have Agricultural Conditions Improved?—The Decrease of Population.

The farmer is deeply interested in the tariff. He was induced to vote for protection in 1878 by promises which it may be well to examine briefly in the light of ascertaining results. First, it was to augment the selling price of his wares. Mr. Haggart, now Minister of Railways, said in Parliament (Hansard, March 1, 1878):

"What they contended was that by a protective tariff they could so arrange matters that the produce raised by our agriculturist would be greatly increased in value."

This was the burden of all the protectionist speeches and of resolutions introduced in the House. Prices were to be increased by keeping out cheap American produce and by creating an all consuming home market within Canada. Cheap American produce, so Mr. Haggart contended in the same speech, was the bane of Canadian agriculture, and he gave examples which others on the same side multiplied. In saying this the protectionists, as any one can see, were blasting their own argument, for if a long trial of protection in the United States had left the American farmer without an all-consuming home market, so that instead of obtaining high prices at his own door he was obliged to export his oats, pork, wheat and corn for what he could get to revenue tariff countries like Canada, what sense was there in the Canadian farmer trying so worthless a remedy?

We all know that the price of farm products has not increased since 1879. Canada like the United States is an exporting country, and the prices of the staples is determined by the law of supply and demand abroad, which is as much beyond the jurisdiction of protectionist legislators as the phase of the moon. The reports of Mr. Giffen, statistician of the Government Board of Trade in England, notably that issued in 1888 ("Recent changes in the prices of Exports and Imports,") are interesting reading in this connection. Going back to the Crimean war, a halcyon period for the Canadian farmer, the average price of the wheat imported into the United Kingdom in 1854 and 1855 was 16¼ shillings per 112 lbs., of oats nearly 10 shillings, wheat flour 28 shillings, hams 63 shillings and so on. The price of wheat and flour has never been so high since. In the three years preceding the adoption of protection in Canada the price of wheat was as follows, per 112 lbs:

	Shillings.
1876	10 43
1877	12.49
1878	10.99

In 1880 the price rose, and Canadian protectionists made themselves believe that it was their work, but in 1882 it fell to 10.67 shillings and has since gone lower. In the calendar year 1894 the declared value of the British imports of wheat (total imports 70,126,231 cwts., value £18,760,5[illegible] was under 5.4 shillings per cwt. The all-absorbing home market has also disappointed us. In 1878 we exported $32,000,000 of animals and farm produce raised within Canada, whereas in 1894 the exports were $52,000,000. So far from protection creating a secure home market for the farmer he is more dependent than ever upon the foreign market where competition is unrestrained.

The answer of protectionists is that if cash prices are lower than they were the cost of factory goods has declined, so that the farmer is better or no worse off than before, and they even suggest, some of them, that protection has brought about the decrease in the price of factory goods. But this is quite another question than that under consideration just now, which is Mr. Haggart's promise that "the produce raised by our agriculturalists would be greatly increased in value." The meaning intended to be conveyed by "greatly increased in value" was that the cash price would be exalted, as plainly appeared from the speeches made in parliament and from the famous cry, "I am for a policy that has raised wheat to $1.40."

It is not necessary to dwell on the change for the worse in the state of agriculture due to the shrinkage in prices. All over the world it is in a bad way till it has adjusted itself to the new condition of production and transportation. In Ontario, according to the census reports, there was a decrease in the wheat area between 1880 and 1890 of 509,000 acres—from 1,980,000 to 1,430,000—in Quebec, Nova Scotia and New Brunswick of over 80,000. The selling value of farm lands has depreciated 25 per cent. in the choicest districts. The chattel mortgage returns, the loan company returns, the decay in rural districts evidenced by actual loss of population, and the consequent paralysis of many of the smaller towns and villages, are facts too notorious to be argued out of existence.

The Ontario return (part 6 Municipal Statistics) already quoted from, brings the population down to a later date than the Dominion census. For the organized rural townships they are as follows:

1891	1,118,000
1892	1,102,000
1893	1,095,000

The total assessed values in the townships were $452,097,000 in 1886; $451,629,000 in 1893. It may be as some allege, that the farmers of Ontario, one of the most fertile regions on the continent are better off than the farmers of New England, one of the least fertile. But that, after all, is cold comfort. Here, as in the older states, agriculture is in the agony of a new birth, and it is at this time of all others that protection, with its combines and monopolies enhancing the cost of production, has been saddled upon the farmer.

"SOMEBODY seems," says the Hamilton Herald, Independent, "to have cracked Sir Charles Tupper's pocket looking glass. In his election manifesto he only uses the expression me, my and I thirty times."

THE debt of Canada amounts to $253,000,000. The annual charges on this debt amount to $12,000,000. The total annual expenditure of the country is $38,000,000. That is to say, nearly a third of the annual expenditure of the country goes to pay the interest on the national debt. If a business man found one-third of his income going to pay interest on his debts, would he consider that the National Policy had made him *rich*?

On Tuesday the Montreal Gazette (Tory) had the following cablegram:

Liverpool, May 5.—The Mercury of this city prints a communication from the Carpenters and Joiners Union of Winnipeg, Man., in which mechanics and labourers are advised against emigrating to Manitoba. The communication speaks disparagingly of the country generally.

Oddly enough, the Hamilton Times had this editorial paragraph the previous day:

Can any one tell why it is that under the N.P. our population has increased *so slowly*, even the offer of free farms of the finest land in the world not enticing immigrants, while in the States the opening of an arid reservation has invariably been the signal for a life-and-death struggle for possession of claims? It is not the country's fault; it must be the fault of its administration."

No; it is not the country's fault, says the Montreal Herald; it is the fault of the high tariff policy of the Conservatives.

Maltine With Coca Wine Feeds the Nerves.

Are you all run down! Are you tired in body? weary in mind? Does lassitude burden and unfit you for mental or physical labor? Does sleeplessness rob you of mental force? make your days a weariness and night a torment? In brief, is life rapidly becoming a burden to you? Thousands are living in this miserable condition while relief from this worst of physical and mental conditions may be speedily obtained by the use of Maltine with Coca Wine. It is a real tonic, for it builds up mind and body, supplies pure, rich blood, restores appetite, and adds wonderfully to the digestive power of the stomach. Maltine with Coca Wine renews every fibre of the body, gives mental activity. Maltine with Coca Wine is a builder—builds nerve, builds muscle, builds bone. It gives vim and nerve. It braces, not as a stimulating agent; it braces because it cures. That is what you need.

Winter cough, sore throat, asthma, bronchitis, croup, etc., are more quickly and easily cured by Wood's Norway Pine Syrup than by any other means.

The Sentencing of U.S Citizens to Death Will Make Trouble With Spain.

Washington, May 9.—The passage of the death sentence on the men caught on the filibuster Competitor, it is stated, is liable to bring about a crisis in the relations between Spain and the United States. It is understood that this Government will not allow the executions to take place without an earnest and vigorous protest against the summary manner in which the trial was conducted. Of the five men convicted and sentenced, two are native born American citizens, and a third, William Kinlea, described as an Englishman. He is understood to be a naturalized citizen of this country.

Unable to Walk, owing to excruciating pain.

After ten years' terrible torture, Cured by Scott's Sarsaparilla.

A. H. Christiansen, writing from the Clifton House, Niagara Falls, says: "I owe you more than I can ever pay. For ten years I suffered the tortures of the damned with rheumatism. Father had it before me, and I believe it is an hereditary disease. My knee joints would get inflamed and if I was out in any "weather" I was sure to be laid up, which to a travelling man is a calamity. In a score of Canadian towns local doctors treated me, some giving relief, others none. I read that Sarsaparilla was a rheumatic cure, and I asked a druggist for "a bottle of the best Sarsaparilla on the market." He gave me Scott's, remarking that it was an improvement on all others, and that he could honestly recommend it. I have taken four bottles, and am as free from pain as a man can hope to be. I was out in a rainstorm two days ago and never felt a twinge. As I said before, to Scott's Sarsaparilla I owe more than I can ever repay."

The best remedy for rheumatism, sciatica, and neuralgic pains—all arising from the presence of poison in the blood—is Scott's Sarsaparilla, a modern concentrated medicine, prompt in its curative effects. Doses from one half to one teaspoonful. At $1 per bottle of your druggist.

THE TRUTH TOLD

About the Tupper Meeting at Winnipeg.

FEELING AT THE PRAIRIE CAPITAL

The Telegraphic Reports Sent Out Were Greatly Exaggerated in Regard to the Enthusiasm—Mr. Martin Thinks the Visit Has Done Him Good.

Winnipeg, May 10.—Information has reached Winnipeg that grossly-exaggerated and highly-colored reports of the enthusiasm attendant upon Sir Charles Tupper's reception and meeting have been circulated broadcast over eastern Canada and the lower Provinces, wholly misrepresenting the feelings and convictions of Winnipeg and the west, and making it appear that there is sympathy with the National policy and the school policy of the Administration. Nothing could be farther from the truth than to say that there was what might be called an outburst of popular enthusiasm at the depot on the arrival of Sir Charles. It was with great difficulty that a stranger to Winnipeg, Mr. W.W. McDonald, ex-M. P., of Assiniboa, could raise a cheer for the Premier, notwithstanding that thousands of people had congregated for the purpose of gratifying curiosity and looking at the man who had the hardihood to attempt to infringe once more upon what is looked upon as the right of the province to manage, with justice, to all classes, her own school laws. The statement that there were 5000 people walking in the procession in the middle of the street, is simply a plain falsehood. There were not a dozen people, nor half a dozen, in the procession as it moved past the postoffice, less than five-eighths of a mile from the deport, and en route to the Manitoba Hotel.

The reception given to Sir Charles Tupper and the subsequent meeting cannot be compared with that given to Hon. Wilfrid Laurier on his recent visit here. And it can already be seen that Sir Charles Tupper's visit here has done no good to the party, in which respect it is in marked contrast to the result of Mr. Laurier's visit.

Hon. Joseph Martin, Liberal candidate for Winnipeg, makes the following statement: "I consider that Sir Charles Tupper's visit to Winnipeg has been of decided advantage to me. His statements on the school question have made it perfectly clear beyond a shadow of doubt that the policy of his Goernment is the passing of a Remedial Bill. His attempt to purchase the vote of Winnipeg in favor of coercion by promising to construct the Hudson Bay Railroad and improve St. Andrew's Rapids will be resented by the electors of Winnipeg. Very few of them have any faith in promises like this made on the eve of an election, and besides that, the people here look upon the school question as a matter of principle, as to which they are not prepared to trade off their votes for any material advantage. I attendede the meeting last night, and I believe that more than half of those present were supporters of mine, who went out of curiosity to hear the Premier. I noticed particularly that all references to the National Policy were received in silence. Mr. Hugh John Macdonald's speech on the school question was, I believe, most unsatisfactory to National school men, who would for other reasons like to support him. (Signed) Joseph Martin."

Hon. J. D. Cameron, Provincial Secretary, says, in his opinion, Sir Charles Tupper's visit has had little or no influence on the electors, and he predicts Mr. Martin's return by an increased majority.

Hon. D. H. McMillan, Provincial Treasurer, says: Had Mr. Macdonald arrived alone, the welcome would have been heartier. Sir Charles Tupper's speech and the address of Mr. Macdonald, he says, settled the election, which from the start has been decidedly in favor of Mr. Martin.

Mayor Jameson, Major Mulvey and others expressed similar sentiments.

Mr. Martin and Mr. Isaac Campbell addressed a large meeting on Saturday night and pointed out the gross misstatements and untruths in Sir Charles Tupper's speech.

Sir Charles left for the east this afternoon, about 50 friends seeing him off. Eastern Canada may rely upon it that Manitoba is going to be true to herself in this campaign.

Mr. Angers to Leave the Senate.

Montreal, May 10.—(Special)—It seems about settled that the Hon. Mr. Angers will resign his seat in the Senate and run for Dorchester, where the party managers hope to capture the seat from Mr. Vaillancourt.

Sir Hector Langevin will be called to the Senate in place of the Hon. Mr. Angers.

The Hon. Thomas Chase Casgrain will either run in Montmorency against Charles Langelier or in Quebec Centre against F. Langelier.

An Independent in West Huron.

Goderich, May 9.—The convention of the West Huron Independents, held to-day at Carlow, nominated Mr. Kilty, teacher, of Summerhill, Township of Hullett, to represent the Independent party at the approaching election for the Dominion House.

POLITICAL NEWS NOTES.

West Peterboro Conservatives on Saturday chose Mr. James Stevenson, the late member, as their candidate.

At Picton, on Saturday, Mr. W. Boulter was chosen as the Conservative candidate. He is opposed by W. V. Pettit, Patron.

W. L. Walsh, barrister, of Orangeville, has been selected as the Conservative candidate for Cardwell. James Snell and R. Allen, farmers, were nominated, but Mr Walsh won in the balloting.

A. H. Pettit of Grimsby was the choice of the South Wentworth Conservative convention at Hamilton on Saturday. C. D. Potts, T. A. Wardwell and Col. Gwynn went to the ballot, and on the third count Mr. Pettit was elected. It was charged that the ballot box was stuffed. Mr. Pettit supports the Government in Remedial legislation, as well as the other planks of the platform.

ELECTRICITY

Its marvellous advances.

An interview with a prominent electrician and inventor.

Mr. D. C. L. Ferguson, of the Eclipse Electric and Manufacturing Co'y, 211 Church st., Toronto, consented to be interviewed by our representative the other day. Mr. Ferguson said: "To see me now you would not fancy that I had undergone severe hardships and battled with disease, yet such is the case, and were it not for the events I am about to relate I would not now be able to prosecute further scientific researches.

"I have been troubled with my kidneys and liver for the past 10 years. During the last 4 years I have been growing worse rapidly, until I was almost unable to work. I have been treated by doctors and taken a large variety of medicine without benefit. I had constant pain across my back, at times almost unbearable, especially at night. My urine was wine color as if mixed with blood, and with much sediment, burning sensation when venting. I felt tired and dragged, and it was with the utmost effort I was able to work at all. Seeing the Doan Kidney Pill Co. advertisement, I thought I would try one box of their pills on the principle that it would do no harm to try again, so I got one from W. S. Robinson, Druggist, 393 Yonge st. I have not quite finished that first box, but am happy to say it has proved the best experiment of my life. I improved from the start and there has been a rapid improvement daily, until I am to-day a well man. Pain all gone. Urine natural in color, no sediment. I am stronger, and able to work as well as ever I did. I cannot be too thankful for the result of my trial of Doan's Kidney Pills. I would be glad to tell anyone who suffers as I have done, how I was before, and how I am after taking Doan's Kidney Pills, if they will call at my place."

DISFIGURED FOR LIFE.

Hattie Richardson of the Wilbur Opera Company Badly Bitten by a Dog.

Troy, May 10.—Hattie Richardson, a member of the Wilbur Opera Co., was attacked by St. Omar, the prize St. Bernard dog exhibited in the living pictures while a rehearsal was in progress at Griswold Opera House here yesterday, and seriously injured. The dog seized her by the face and tore one cheek so badly that six stitches had to be taken to close the wound. She will be disfigured for life.

Who's the Heartless Mother?

Collingwood, Ont., May 10.—Yesterday afternoon about half-past two o'clock an infant a few hours old was discovered by some boys while playing in the lot in the rear of the general store of R. T. Conn. The child was lying in the sand under the burning rays of the sun. Chief of Police Lewis was notified, and had the child placed in charge of a lady in town. No clue to the heartless mother has been discovered.

A woman never really knows the meaning of happiness and content until she is the mother of a healthy, happy child. The health of the child depends on the health of the mother, both before and after birth. Most all of women's weakness and particularly the weakness that most strongly influences the health of children, comes from some derangement or disease of the distinctly feminine organs. Dr. Pierce's Favourite Prescription will cure troubles of this nature. It should be taken regularly by every woman during the entire period of gestation. It gives strength to all the organs involved, lessens the pains of childbirth, and insures the health of both mother and child.

ONE HONEST MAN.

DEAR EDITOR:—Please inform your readers that if written to confidentially, I will mail in a sealed letter, the plan pursued by which I was permanently restored to health and manly vigor after years of suffering from Nervous Weakness, eight lost vital and weak shrunken parts.

I have no scheme to extort money from anyone whomsoever. I was robbed and swindled by the quacks until I nearly lost faith in mankind, but thank Heaven, I am now well, vigorous and strong, and anxious to make this certain means of cure known to all.

Having nothing to sell I send C.O.D., I want no money. Address Wm. A. Harren, Box 239 Adrian, Mich. Delray Mich.

THEY COUNT BY THE SCORE

Yea, By the Hundreds, Those Who Have Been Cured of Dire Disease By South American Nervine.

A Remedy Widespread and Universal in Its Application.

Where Other Medicines Have Failed and Doctors Have Pronounced the Cases Beyond Cure, This Great Discovery Has Proven a Genuine Elixir of Life.

The Same Verdict Comes From Old and Young, Male and Female, Rich and Poor, and From All Corners of the Dominion.

If it is the case that he who makes two blades of grass grow where only one had grown before is a benefactor of the race, what is the position to be accorded that man who by his knowledge of the laws of life and health gives energy and strength where languor, weakness and anticipation of an early death had before prevailed? Is not he also a public benefactor? Let those who have been down and are now up through the use of South American Nervine give their opinions on this subject. John Boyer, banker, of Kincardine, Ont., had made himself a hopeless invalid through years of overwork. At least he felt his case was hopeless, for the best physicians had failed to do him good. He tried Nervine, and these are his words: "I gladly say it: Nervine cured me and I am to-day as strong and well as ever." Samuel Ziya, of Meaford, was cured of neuralgia of the stomach and bowels by three bottles of this medicine. Jas. Sherwood, of Windsor, at 70 years of age, suffered from an attack of paralysis. His life, at that age, was despaired of. But four bottles of Nervine gave him back his natural strength. A victim of indigestion, W. F. Bolger, of Renfrew, says: "Nervine cured me of my suffering, which seemed incurable, and had baffled all former methods and efforts." Peter Esson, of Paisley, lost flesh and rarely had a good night's sleep, because of stomach trouble. He says: "Nervine stopped the agonizing pains in my stomach the first day I used it. I have now taken two bottles and I feel entirely relieved and can sleep like a top." A representative farmer, of Western Ontario, is Mr. C. J. Curtis, residing near Windsor. His health was seemingly completely destroyed through la grippe. No medicine did him any good. "To three bottles of Nervine," he says, 'I attribute my restoration to health and strength." Neither man or woman can enjoy life when troubled with liver complaint. This was the sentiment and feeling of W. J. Hill, the well-known bailiff of Bracebridge, "I was so bad," says he, "that one of my medical attendants said that I was dying, but, thank God, I am not dead yet. From the first few doses I took of Nervine I commenced to feel better, and am to-day restored completely to my usual health." A resident of the Maritime Provinces, in the person of S. Jones, of Sussex, N.B., says: "For twelve years I was a martyr to indigestion, constipation and headache. The treatment of several physicians did not help me. I have taken a few bottles of Nervine, and can truthfully say that I am a new man."

A shrewd observer of human nature has said: "The hand that rocks the cradle moves the world." How important it is, then, that health and strength should be made the lot of the mothers of this country. The women of Canada are ready by scores to tell of the benefits that have come to them through the use of South American Nervine. Mrs. R. Armstrong, of Orillia, wife of the colporteur, of the Bible Society of that town, suffered for six years from nervous prostration. Medical assistance did not help. "In all," she says, "I have taken six bottles of Nervine, and can truthfully say this is the one medicine that has effected a cure in my case." Mrs. John Dinwoody has been for 40 years a resident of Flesherton, and has reached the allotted three-score years and ten. Three years ago her system sustained a severe shock through the death of a daughter. Nervine was recommended. She perseveringly took 12 bottles of medicine, with the result that she is to-day again strong and hearty. Hundreds of women suffer from impoverished blood and weakened nerves. "All vitality," says Mrs. J. Hallis, of Brampton, "seemed to have forsaken my system. I was unable to get relief from any source until I commenced taking South American Nervine. The results are most satisfactory—greater far than I could have hoped for." It came within the way of Mrs. H. Stapleton, of Wingham, to treat under the best physicians, both in Canada and England, for heart disease and nervous debility, but she failed to get any relief. "I was advised," she says, "to take South American Nervine, and must say I do believe that if I had not done so I would not be alive to-day."

Newspaper space is too valuable to permit of further additions to these earnest words of testimony from those who know just what they are talking about. In the common language of the day, they have been there, and are speaking from the heart. The dozen or more witnesses that here speak have their counterparts by the hundreds, not only in the province of Ontario, but in every other section of the Dominion. South American Nervine is based on a scientific principle that makes a cure a certainty, no matter how desperate the case may be. It strikes at the nerve centers from which flows the life blood of the whole system. It is not a medicine of patchwork, but is complete and comprehensive in its application.

HOW THE SUN LIFE

FULFILS ITS PROMISES.

A Matured 10 Year Endowment.

Profits Paid by the SUN 21 per. cent more than the Estimates.

The following letter, which speak for itself, was received by the undersigned this morning from a gentleman in Brockville, whose ten year endowment which he held in the Sun Life Assurance Company of Canada matured last week and was paid him. The Sun is modest in promises but UNEQUALLED IN RESULTS. The public are benefitted by results, not by promises unfulfilled

BROCKVILLE, November 7th, 1892.

W. H. HILL, Mgr. Central Ontario Sun Life Assurance Company of Canada, Peterborough, Ontario:—

DEAR SIR,—I should have acknowledged the receipt of yours enclosing cheque for endowment policy No. 12,871 before, only I wanted to write something more than a mere receipt. I am pleased to hear of the continued prosperity of the "SUN" and it speaks well for your Company when the profits are greater (by 21 per cent.) than you as the Company's representative promised or rather estimated, as was the case with this policy.

I hope your Company will continue to prosper and I often regret that I do not carry more Insurance than I am doing. I might have carried twice as much as I do when at Minden without any great effort, still what little I do carry I feel is perfectly safe being in the "SUN."

I must thank you for your promptness and kindness regarding this policy just settled. I hope we will both be alive and well when the new one I now hold will be due in 1905 and assuring you of very best wishes, I remain,

Yours Sincerely,

(Signed) F. R. C.

The above voluntary testimonial is significant and shows in a most practical way the SUN'S standing as a profit paying institution.

Almost a Fatality.

Mrs. Cornelius Wall had a narrow escape from drowning Saturday afternoon at a place on the Dixon Co's. raceway, Ashburnham, commonly known as the "Head Gates." It appears that she, accompanied by a lady friend, was out for a walk, and was crossing a plank when it tilted and Mrs. Wall was precipitated into the water which is very deep at this point. After some difficulty her companion succeeded in bringing her to shore by means of a pole lying close by. Had it not been for this a fatality might have resulted, as there were no others present at the time of the accident.

Lop-Sided Fishery Fines.

On Saturday Mr. J. McBride, of Cavan, was brought before the Police Magistrate charged with an infraction of the Fishery Laws. A fine of $20 and $3 10 costs was imposed. With respect to the fine imposed the EXAMINER has nothing to say; the defendant was no doubt guilty of a breach of the law and must be prepared to meet the penalty. But what does need explanation is the circumstance that a fine of $20 is considered the proper thing for illegal fishing on waters below the locks, while above Lakefield $1 is considered sufficient. Why should a person detected in the lower waters illegally fishing be fined $20, while a similar offender by paying a nominal sum of $1 to an overseer is allowed to be fully relieved from all further responsibility to the law. Whether $20 or $1 is the right figure is not the question, but the fact is that a breach of the same law should have the same penalty for a corresponding offence, whether the offence is committed north or south of Peterborough. There should be at least an approximation to uniformity in the penalties imposed in the administration of the Fishery Laws. We have one law for all and we should have one punishment for all who break the law—and not make fish of one and victims of another. Even-handed justice should be meted out to all. An overseer has no right to have favourites—the law is made for all, and all should be required to have an equal responsibility in respect of its infraction.

OBITUARY.

Sad Death of Miss Bertha Mason—A Young Life Cut Short in Its Prime.

The announcement of the demise of Miss Bertha Mason, eldest daughter of the late Mr. W. J. Mason, yesterday morning, will be received with sincere regret in Peterborough.

Miss Mason's death has been expected almost daily for some weeks, as she never rallied from a severe attack of la grippe contracted some years ago and developing into consumption and heart trouble. Although, therefore, her death was not unexpected, the blow will be felt none the less by her sorrowing relatives and friends.

The deceased possessed all the attributes of a sincere Christian character, and was greatly beloved by all with whom she came in contact during the brief twenty seven years of her life. For a number of years she was connected with the George street Methodist Sunday School, first as a willing pupil and afterwards as an earnest teacher of the Great Truth.

The funeral will take place from the family residence, Murray street, at 3 o'clock to-morrow afternoon, interment taking place in the Little Lake cemetery.

Mr. Albert Moore, of Cleveland, who was recently summoned to the bedside of his sister, is still in town, although he intended returning to his home Saturday.

KILLED BY HIS FATHER.

A Sad Accident Near Apsley Last Week.

A very sad accident happened at Cheddar on Saturday, of last week, by which little Roy Hughey, a son of Mr. David Hughey, of that place, lost his life.

While Mr. Hugey was pitching manure out of his stable, Roy who had gone to the house for a box of salve for one of the horses, returned unseen by his father just as he was throwing a forkful out of the door, and received the full force of the blow in the face.

One tine of the fork entered near the left eye and penetrated to the brain. The grief of the unhappy parent was terrible. Dr. Calwell, of Apsley, was called in and pronounced the case hopeless. The poor little fellow went into a semi-unconscious state a few minutes after the accident, and remained so until Thursday evening when he passed peacefully away. The occurrence has cast a gloom over the entire neighbourhood.

Roy, who was an exceedingly bright and active boy, had just completed his tenth year, and was a general favourite among his school fellows. What makes it all the harder for the afflicted parents to bear, is that he was the only boy of a family of seven. Mr. Hughey and family have the sympathy of all in their sad bereavement.

Going to Woodstock.

Mr. Frank Mercer will shortly leave Peterborough to assume a responsible position in one of Mr. Robert Nell's branch boot and shoe establishment in Woodstock. Mr. Mercer has had a practical experience in Mr. Nell's extensive Peterborough business, which will specially fit him for the new position he goes to fill. Mr. Mercer's numerous friends in town with whom he has made himself very popular, will miss him in the various social as well as business relations in which they were accustomed to meet him. All, however, will join with the EXAMINER in congratulating him on his preferment and well earned promotion, and in wishing him a successful record in his new sphere in one of Ontario's live and progressive towns.

SUMMER WOOD.

Dry Hemlock, Slabs and Edgings. THE RATHBUN CO.

DISGRACEFUL ROW AT THE TORY CONVENTION.

THE HOUSE DECLARED TO BE "PACKED FOR BRADBURN."

Mr. C. W. Sawers Protests Against the Ballot Being Taken Under the Circumstances—The Quarrel Between the Stevenson and Bradburn Parties Continued in the Street.

At the conclusion of Mr. Stevenson's address, as reported in Saturday's issue, Messrs. Paul Costello, of Ennismore, and Henry LeBrun, of Peterborough were elected Vice-Presidents of the Association on the motion of Messrs. Hampden Burnham and James Kendry.

Nominations were then called for by President Moore.

Mr. Wm. Claxton rose and nominated Mr. James Stevenson, stating that if he had paid as much attention to his own affairs as he had to those of the riding, whilst sitting as a member, it would have been far better for him and worse for the country.

The nomination was seconded by Mr. J. W. Miller, who distributed the "Green Eye-Opener" at the last provincial elections. He took occasion to wave the old flag with a great deal of energy.

Mr. James Kendry then placed the name of Mr.

T. E. BRADBURN IN NOMINATION,

stating that he thought his nomination, if accorded the support of the convention, would prove as good a representative as it was possible to bring out in the town. He then denied the report that there was not harmony amongst the Conservatives of the riding. They were never more united.

Mr. R. Sheeby seconded the nomination, strongly urging Mr. Bradburn's claim, as being the strongest possible man in the riding.

Mr. Langford nominated Mr. James Kendry, stating it as his opinion that that gentleman would be the strongest man whom the Liberal Conservatives could bring out in the county.

Reeve Fisher, of South Monaghan, was nominated by Mr. C. W. Sawers.

Mr. J. W. Garvin was nominated by Mr. C. W. Sawers.

Mr. Poussette nominated Mr. R. M. Dennistoun, dilating on his fitness to carry the constituency. Mr. Thos. Willan seconded the nomination.

Mr. Robert Mulholland was nominated by Messrs. J. W. Garvin and Joseph Mills.

The name of Mr. Hampden Burnham was also placed in nomination.

Mr. J. H. Burnham in speaking, stated that in his opinion the name of Mr. T. E. Bradburn was the only one which should have gone to the convention.

A YOUNGER MAN WAS NEEDED

than Mr. Stevenson to carry the Conservative banner successfully in the present election, which promised to be most hotly contested as the Liberals had without doubt girded themselves for a most desperate struggle. At this acute stage of Canadian politics a man other than Mr. Stevenson was needed to represent West Peterborough at Ottawa. Mr. Burnham withdrew his name in favour of Mr. Bradburn.

Mr. Mulholland then withdrew his name, championing the cause of Mr. Stevenson in a few words.

Mr. R. M. Dennistoun also briefly declined the nomination, but expressed no preference for either candidate.

Mr. J. W. Garvin withdrew his name in favour of Mr. Jas. Stevenson, and then took advantage of the good nature of the audience to start on an exhaustive review of the public questions of the day. The exodus from the hall stopped him.

Mr. Fisher endorsed Mr. Stevenson's nomination, withdrawing his own name.

Mr. James Kendry stated that he thought he was doing the best thing in the interests of the party in retiring.

Mr. Frank Weir—"I think so."

Continuing, Mr. Kendry stated that no matter who was selected by the convention he would stand by him. Mr. Stevenson

HAD NO BETTER FRIEND

in town than himself (Mr. C. W. Sawers—"Oh! oh!"), but he thought a new man was wanted, and would, therefore, retire in favour of Mr. Bradburn, his nominee.

Mr. T. E. Bradburn accepted the nomination, very briefly thanking the convention for the honour done him.

Mr. Stevenson did not speak again, accepting the nomination by tacit understanding.

The ballots were then distributed to the Liberal Conservatives in attendance at the convention, all others who were present being requested not to vote.

It was at this juncture that a most disgraceful row occurred, proving undoubtedly that there is an absence of harmony in the Conservative ranks.

Mr. John Sawers applied to Mr. George Bennett for a ballot and was refused one on the ground that he was

NOT A CONSERVATIVE ELECTOR.

Mr. Sawers was very indignant over the occurrence, as the incident was witnessed by all in attendance. He appealed to the President of the Association, his brother-in-law, Mr. W. H. Moore, as to whether or not he was entitled to vote.

Mr. Moore said that he certainly was and gave him a ballot.

This proved but the beginning of Mr. Sawers' troubles, however, as at the ballot box he was confronted by his brother Mr. C. W. Sawers, who stated that he would not allow the ballot to be cast. Words rose high, Mr. C. W. Sawers charging Mr. Bradburn's supporters with packing the convention with the object of carrying the meeting in favour of their candidate. At this insinuation Mr. Kendry and others closed in around Mr. Sawers. Cries of "throw him out! throw him out!" were heard, as a rush was made for the platform.

Mr. John Sawers was allowed to vote by the scrutineers and the tumult quieted down to be revived a moment later, however, when Mr. C. W. Sawers protested against Mr. Joseph Jones being allowed to vote, as he was a backer of Mr. Newman.

Mr. Jones had many friends in the audience who evidenced a disposition to resent the insult and another rush was made for Mr. Sawers, who was hustled behind the scenes by his partizans, crying out that he protested the ballot as the house was packed for Bradburn.

The discord attending the convention did not end with the adjournment, but in the streets afterwards some very aggravating epithets were used towards one another by representatives of the Bradburn and Stevenson parties.

As announced in Saturday's EXAMINER the result of the ballot gave Mr. Stevenson a majority of three of the 210 ballots cast, of which one was for Mr. R. C. Newman, the Independent candidate.

Nearly every line of business is hampered to a very great degree by unprincipled competition, but the piano business is particularly so. If nothing existed but good pianos; if there were no catch-penny affairs, no dishonourable solicitors, then the public would fare better. It is mainly on account of the number of unworthy workers in this field, that honourable piano men deem it necessary to use every possible effort to place a clearly defined moral wall between themselves and those who tend to degrade the business.

The first requisite insisted upon by the R. S. Williams & Sons' Piano Company in their representatives is honesty—absolute honesty. Their men must reflect the high character of the company and their pianos in their own individuality; men who must be personally qualified to inspire the degree of confidence necessary between the prospective buyer and their firm.

To this fact can be attributed much of the long-standing confidence and popularity, which the people of Canada and other countries have bestowed on the instrument turned out by the Company. It might have been easy to have doubled the enormous output of their piano factory during the last half century, if the only qualification of the Williams Company travellers was to take orders, no matter how or where, or under what circumstance—the main idea being to secure an order, and secure it "sharply." But the crowning achievement of the piano business in Canada can be pointed to in the mammoth factory of the R. S. Williams Company, built a few years ago in Oshawa—at once the largest and best equipped establishment of the kind on the continent, the foundation of which came as the result of moral backbone at the back of high class pianos.

In addition to the honest business principles of the R. S. Williams & Sons Company there is an artistic elegance very captivating to the true lover of the piano in the instruments built by this firm. The million dollar capital of the company enables them to procure rare and choice material, of which a mammoth stock is kept in the "seasoning" process years ahead of their requirements.

Prospective piano buyers in and around Peterborough have a very convenient opportunity afforded them of judging of the truthfulness of these facts by visiting the local branch warerooms of the Williams Piano Company, now established in our town at No. 372 Water street. The pianos on exhibition there are samples of the regular output of their factory, and a selection can be just as easily made and with equal satisfaction, as if the head-warerooms in Toronto were visited. Geo. E. Dies the local manager, has a regular staff of efficient and reliable assistants, who can give you honest service. Easy installment terms afforded when required.

Five Dollar Facts.

There is more than pleasure in having your suits made to order at Gough Bros., the Wonderful Cheap Men—there's economy, too. While the backbone of our business is superior Ready-made Clothing, keep in your mind that Ordered Clothing is a strong leader. To still further demonstrate to fine dressers that superiority and economy go hand-in-hand here, we give a few prices as an index of our suits made to order:—Gentlemen's Fine Light Tweed Suits, $12.75; Serge Suits, $13.50; Black Worsted Suits, $15.00. So many new faces greet us—men who never bought here before—and compare the dressy style of our own tailor-mades with what they have been accustomed too, and can see clearly a full $5.00 saving in their favour. Duncan Cameron is our cutter, who takes the greatest pains to please you.—GOUGH BROS., the Wonderful Cheap Men. d

EMERGENCY SALE

Is still going on with greater Bargains than ever. The only way to judge the success of a sale is by the loads of parcels going out and the amount of money in the "till" each evening.

This sale has been a success. We mean it shall continue to be such for the next few weeks, when our buyer leaves for Europe. There is nothing the matter, we are simply selling without profit for a little while, in order to raise a certain amount of cash in a given time. As we buy for cash and sell for cash, we can afford to do this to make things lively about "Peterborough's Great Store."

St. Luke's Church Notes.

Thursday next being Ascension Day there will be a celebration of the Holy Communion at 8.00 a.m., and evening prayer with address at 8.00 p.m.

On Sunday evening next there will be a flower service in St. Luke's church. The children will bring flowers, which will be presented during the service and despatched on Monday morning to the Sick Children's Hospital, Toronto. This institution is Provincial and treats free of cost children from all parts of the Province. The public is invited to attend this service.

A Fine Hedge Injured.

At noon to-day Mr. John Gilchrist noticed that a fire which had been started in the Misses Dickson's orchard, on Murray street, was rapidly spreading through the grass. He sent in an alarm, and, turning on the water, played the garden hose on the flames with such effect that the fire was extinguished before the arrival of the brigade. Unfortunately about twenty or thirty feet of a fine cedar hedge was destroyed before the flames could be checked. The fire was unnoticed by the Misses Dickson, as they were in the front part of the house, and but for Mr. Gilchrist's promptitude a serious conflagration might have resulted.

A Mother's Memory.

The mother is the wise one of the family in clothing matters. It may never have occurred to the father that the important ceremony of first communion for the boys is near at hand, but the mother knows all about it. She it is who is anxious to see her boys appear for the first time to have this blessing conferred upon them. We want the mothers to bring in their boys and look at our pretty little suits for the occasion. They are very neat and made either stitched or bound and in sizes to fit the little fellows from eight years upwards. Good cloth, good thread, good buttons, good work, and prices are such as to suit the most economical purses.—GOUGH BROS., the Wonderful Cheap Men.

A Rumour Corrected.

The rumour has been circulated and printed in a morning paper to the effect that Mr. L. M. Hayes sustained a severe accident through the breaking of his bicycle while descending Armour's Hill. The report is entirely incorrect. Mr. Hayes' bicycle is all right and he was not hurt. All that happened to him was, that like thousands of other bicyclists, owing to some fault of the road he dismounted from a momentary loss of balance, but he was uninjured, as was also his wheel. If every little mishap of this kind that happened to a rider on his first season, or to older riders were noticed volumes would be required to chronicle them.

NEWS NUGGETS.

Paragraphs Picked Up and Pencilled for Public Perusal.

—G. T. R. carpenters have received an advance in wages.

—The number of lady bicycle riders in town is increasing daily.

—Canoes and steam launches were down the river by the dozen yesterday.

—The suckers can be seen in thousands along the shore near Burleigh.

—The air is fragrant with the odor of the blossoms of lilacs and fruit trees.

—The lawn at the Grand Trunk depot is looking very neat this year.

—Port Hope intends spending $10,000 for a new school. The lowest tender received was $2,000 over the mark. A Peterborough contractor is after the job.

—The melody of the mosquito is again heard—in fact he has been very much in evidence around residences with shade trees near by during the last few evenings.

—The Belleville Health Officer is inspecting the cellars of merchants, and has found many of them in a most unsanitary condition. How are the cellars of Peterborough?

—The strong wind of yesterday caused the canvas to collapse over Byrnes & Hartley's riding gallery. No damage of any consequence was done beyond the breaking of a few ropes.

—"Alvin Joslin" is an established comedy favourite. Charles L. Davis who made it the great success it is by his creation of Uncle Alvin, will be the attraction at Bradburn's Opera House next Friday night. Prices, 25, 35 and 50c. Two front rows of reserved seats 75c. Plan now open at Ormond & Walsh's Drug Store.

ANNIVERSARY SERMONS IN ST. PAUL'S CHURCH.

REV. D. C. HOSSACK, OF PARKDALE, DISCOURSES ELOQUENTLY.

Both the Morning and Evening Sermons Largely Attended Yesterday—Two Most Interesting Sermons.

The anniversary services in St. Paul's church were well attended yesterday. Rev. D. C. Hossack, of Parkdale, preached both morning and evening. In the morning he took his text from St. John, 20 chap., 24 ver. "But Thomas, one of the twelve, called Didymus, was not with them when Jesus came." The speaker pointed out the great blessing Thomas missed by not being present when Jesus came.

In the evening his text was found in Hebrews, 12th chapter, first verse and part of the second. "Wherefore seeing we also are compassed about with so great a cloud of witnesses, let us lay aside every weight, and the sin which doth so easily beset us, and let us run with patience the race that is set before us, looking unto Jesus, the author and finisher of our faith." The word "witness," said the speaker, is used to give several different expressions. A witness may be an on looker, or any person who testifies to seeing certain things in a court of law. In this case it is not applied in either of these ways, but it means heroes and martyrs. The eleventh chapter is a muster roll of heroes.

If we want to do certain things merely for pleasure we should stop and ask "will it influence my brother wrongfully?"

St. Paul in this text is speaking to a nation, not speaking of any particular personal sin,

BUT OF POPULAR SINS,

which drag down great multitudes. Look to Jesus for help, He will never fail you. In the world to-day and of old the people had been aiming at some ideal. Some hope to become better, and be better. Long ago the savage would make a musical instrument out of a palm, but the moment he heard an organ it became his ideal. He desired to possess a better instrument than that which he had.

The Bible and several other things have helped to to make our nation what it is, but ideality has done still more—the desire to become something better higher and nobler. It is the ideal which makes our soldiers so brave. They think of what Oliver Cromwell did, and they want to surpass him, and it thus spurs them on. It also works backwards as well as forwards. It is a great principle. Bruce was brave because Wallace was brave. Look how this feeling has influenced the Jews. There is not a nation which has undergone the persecution and bloodshed which they have, and yet they are in existence and always cling to each other. St. Paul, as a Jew, addresses the Jewish race, and he talks of the

GREAT HEROES AND HEROINES

of the race, until he has the people excited with his eloquence, and then he utters the the one name he has desired to utter all along—"Jesus." He did not think the people would like it very well, but nevertheless he did it, and it answered his purpose exactly. He used the words of the text to them. If there were clouds of witnesses in St. Paul's time we have clouds of them yet—men and women who have become martyrs for their faith in the true God.

Let us apply this to ourselves. What are our popular sins?

Hypocrisy is one of them, which God hates the most. He hates the man or woman who will tell a lie with a smile on their face.

Pride is another great sin. There may be some in the congregation who say, "I have no pride." You may not have pride about dress, but you may be proud to tell that your great grandfather was an earl. That is a very foolish kind of pride.

Another mistake or sin is that we have no fixed aim in life. We are drifting about with the tide. Instead of doing this we should determine what we are going to do or be, and try our very best to attain the end we have in view.

MANY A YOUNG FELLOW

is ruined by not having something to aim at—he has no great purpose in life. He is like a ship without a rudder, drifting about everywhere. Years ago in England there was a gentleman plowing in his field, and there was also a little boy seven years old beside him. The gentleman was telling him how at one time all that land for miles around belonged to his family. The little fellow unhesitatingly made a resolution that he would win it back into the family again. He went to college and studied hard and got promoted step by step after he had left the college until he was Governor General of India and he always kept that resolution in view and eventually gained back the lands. That little lad was Warren Hastings. Each and everyone has a work which God expects us to do to the best of our ability.

Another popular sin is "wishing we were in the position of other men."

We were all different. No two are exactly alike in stature, thoughts and action and therefore we are not qualified to fill any but our own position. Some young men have a kind of pride which tells them that they are better than everybody else and over-rate their abilities, and thus make a failure of life. Do not hope for an easy victory. Prepare for a sharp fight and be

ABLE TO STAND THE STORM.

Aim high in your ambition. It is the best way. Be like the lordly eagle, who delights to soar to great heights in the balmy air and likes freedom. Young men, put on the armour of true manhood, then when He appears we shall be ready to see Him as He is.

Then, there are too many of us who despise the little things.

Life is made up of little things as a lake is of tiny drops of water. Think more of the little things—and let us all, none of whom are perfect, put our trust in God and come to Him.

Both sermons preached by the eloquent Toronto divine commanded the closest attention and were heard with the keenest pleasure. Those fortunate enough to be present in the morning were again in attendance in the evening, when the other congregations of the town were largely represented in the church.

Miss Hansen's beautiful solo, "Cast Thy Bread Upon the Waters," was exquisitely rendered, her perfectly rounded voice being heard to peculiar advantage in the selection.

The Fools Not All Dead Yet.

Even a blind man can see that more clearly than daylight, or else why should so many continue to use ill smelling, oily, and often useless preparations for the relief of pain, when a preparation just as cheap, elegant, more powerful and penetrating as *Nerviline* is, can be purchased from any dealer in medicine? Nerviline instantly cures aches and pains. Nerviline is the most efficacious remedy for internal aches and pains. Nerviline applied externally subdues the most intense pain almost at once.

That hacking cough can be quickly cured by Hagyard's Pectoral Balsam. Price 25c.

Mr. E. W. Hazlett, Reeve of Chatham township, Kent county, Ont., says: "My daughter has been very weakly for some years; she was very pale and always felt tired; she was prevailed upon by a friend to take a box of Miller's Compound Iron Pills. I must say it was a good investment; she at once began to grow stronger and is now quite well." Sold in Peterborough by Wm. Madill, druggist.

SALES MAY COME AND SALES MAY GO
—BUT—
ROBERT HALL'S SALE
MUST GO ON, ALL THE SAME.

Nothing can stop it. The outburst of Bargains has given such a momentum to our Sale, that has started it off at a lively gait this week. We are in it to stay until stocks are cut out clean.

LEVELING PRICES

On all the floors and in all the departments, and mowing down the profits, so that nothing but the bare cost is left, is the sum and substance of our daily routine these days. But the strongest attractions this week is the

Merciless Sacrifices in Millinery and Mantles.

The offerings include the whole of our special display of Trimmed Millinery in all the very latest tints and styles from Paris, London and New York—Newest fancies in Feathers, Flowers and Trimmings—Spring styles in Ladies' and Misses' Mantles, Capes and Jackets. It seems too bad that such beautiful goods should be sacrificed in this way, but we've put our hands to the plow and we can't turn back.

Perhaps more than half the folks who come here have looked all around the other stores. We hope so. We believe in intelligent comparisons and welcome them and if at any time you buy anything here that isn't exactly right bring it back and get your money. The Bargains have not been equalled—nor are they likely to be. Not a line should escape your notice. We're getting out of business, sure.

NOWADAYS, when women are trying to do everything it is not strange that many things are over-done. It is not strange that there are all kinds of physical and mental disturbances. If the woman who is a doctor, or a lawyer, or a journalist, or in business would not try to be a society woman too it might be different; but the woman who knows when she has done a day's work has yet to be born. Usually a woman's way is to keep doing until she drops.

Working in this way has manifold evils. As an old colored Aunty used to say: "There's always somethin' the matter. If it isn't one thing it's two." The most common trouble resulting from over-exertion, either mentally or physically, is constipation of the bowels, with all its attendant horrors.

There is no human ailment that so saps the energies, so deadens the ambitions, as that coming from the bowels forgetting their vocation, or the liver only working about eight hours out of the twenty-four.

Dr. Pierce's Pleasant Pellets are the most effectual remedy in the market. They work upon the system easily, naturally. There is no unpleasant nausea after taking them. No griping—no pain—no discomfort. They are composed of materials that go through the system gradually, collecting all impurities and like the good little servants that they are, disposing of them effectually.

MRS. ROSANNA M. BLISS, of *Colosse, Oswego County, New York*, says:

"I had suffered much with dizziness, sometimes faintness from too much mental work. Over exertion physically caused constipation of the bowels. I tried liver pills. They gave temporary relief. Two years ago I began using Dr. Pierce's Pleasant Pellets. I have, at intervals, used three bottles, and I am now enjoying uninterrupted good health."

Yours truly,

Rosanna M. Bliss.

Very Little Fast Going at Woodbine—Mr Seagram Watches the Work

Toronto, May 9.

It was somewhat of an off-day at Woodbine Park yesterday, and very little fast work was indulged in. The weather was perfect, and the track in capital order, while a large number of turfites were on hand. Mr. Joseph Seagram was among the spectators, and saw several of the Waterloo representatives put through their facings. About the best work was accomplished by Millbrook and Joe Miller, the pair covering a mile in 1.50, the first quarter being run in 29½, the half in 54 and the three-quarters in 1.23. Silk Gown led Springal a mile, which the black mare negotiated in 1.51. Pyramis reeled off six furlongs in 1.22, very easily.

Mr. Hendrie's Plater, Lochinvar, worked a mile in 1.52, while the hunter Royal Bob went a mile and a half in 3.05. Cardinal and Glen Gowrie were sent a half in. 52½.

Armada and Steppingstone, two of Mr. Joseph Duggan's string, breezed a mile in 1.52.

Wooderaft, in the Nixon stable, galloped a mile in 1.57.

Mr. Charley Boyle's Detroit Derby candidate, Strathroy, breezed six furlongs in 1.25½. This comprised all the work of any importance.

ROCHESTER DEFEATS TORONTO.

The Eastern League baseball season was formally opened in this city yesterday by a game between Toronto and Rochester, in which the visitors came out victorious, and succeeded in whitewashing the local players, the score standing at the close 6 to 0. The management made great pre-

THE CANADIAN CREES.

Uncle Sam Will Spend $5000 in Bringing Them to Our Boundary.

Washington, May 8.—Mr. Cannon (Rep., Ill.), introduced a bill in Congress appropriating $5000 to enable the President, by the use of the army or otherwise, to deport the Canadian Cree Indians in Montana and deliver them to the Canadian authorities at the international boundary. Mr. Cannon explained that the Canadian authorities had agreed to receive and become responsible for them if delivered at once on the border. The bill was passed.

THE ONLY HELP.

A Victim of Bright's Disease for Many Years—Cured by Dodd's Kidney Pills.

Neepawa, (Special), May 4th.—Mrs. T. H. McKee, formerly of Listowel, came here as a last resort. Had suffered ten years with Bright's disease. Reported to be past help and dying. Her re-appearance on the street in apparent good health was a pleasant surprise. The explanation given was that her little boy had insisted that she should use Dodd's Kidney Pills, and prophesied that they would cure her. She says:—"From the first few doses I began to feel better, and after taking four and a half boxes I say it with heart-felt gratitude I am perfectly cured." Dodd's Kidney Pills is the only medicine in the world that has ever cured a case of Bright's Disease at such a stage.

Burdock Pills, small, safe and sure, regulate the liver and cure constipation.

WHO GETS THE HONORS?

Her Majesty's Birthday Decorations are Being Looked Forward to With Much Interest Owing to Exciting Times.

London, May 10.—Any amount of intrigue is now proceeding at Court, and most of the Government departments have in view the obtaining of some sort of decoration on the occasion of the Queen's birthday. The throne being constitutionally the fountain of honor, it is the custom to emphasize this fact at every birthday of the Sovereign by recognizing military, naval and civil service to the state and encouraging the arts and sciences. The list is awaited this year with more than average curiosity, as many stirring events have brought quite a crowd of men into prominence since May last year; but even undoubted merit has to be pushed, so great is the competition, and hence intrigue is as necessary as ever.

It is said that the Queen has been so pleased with some of Mr. Alfred Austin's courtly verses that she has resolved to make the new poet laureate a knight.

A gentleman who is more certain of royal favor is Mr. Fairfax, the head of the South African Department at the Colonial Office, a far-sighted man, who, suddenly, a couple of days before Dr. Jameson's raid, startled Secretary Chamberlain by suggesting that that very event might happen. Mr. Fairfax has been Mr. Chamberlain's right-hand man throughout the crisis, and he will certainly be gazetted a Knight Commander of the Bath, which is the summit of a British civil servant's ambition.

BAD NEWS FOR ONE WIFE.

Mrs. Alexander Mackenzie's Husband Was Poisoned by Lottie Hayman at Cleveland Yesterday.

This message was received at Police Headquarters at 1 o'clock this morning:

Chief of Police, Toronto,—Notify Mrs. Alex. Mackenzie, Bartha-avenue, that her husband is dead. He was poisoned here to-day by a woman named Lottie Mackenzie, whose right name is Lottie Hayman. His life is said to be insured for $2000. What is to be done with the body?

DR. ARBUCKLE, Coroner, Cleveland.

There is no Bartha-avenue in Toronto and the police were unable to deliver the message or identify the man mentioned in the foregoing despatch.

The Woman Charged With Murder.

Cleveland, O., May 10.—Alexander Mackenzie, a clerk in the offices of the Pennsylvania Railroad, was found dead in bed this morning and Mrs. James Everingham, the woman with whom he was living, was drunk in the same bed. The man had died from a dose of sulphate of zinc which the woman had given him. She was placed under arrest charged with murder. The woman was pardoned from the penitentiary four weeks ago. She was serving a term for bigamy. She came here four weeks ago and was living with Mackenzie, leading the neighbors to suppose they were man and wife. The reason for the crime is thought to be an insurance policy in her favor.

ALMOST A DUEL

Desperate Encounter at Collingwood—One Man's Jaw Broken The Other May Die From a Knife Wound

Collingwood, May 10.—James Woolner, a young man about 18 years, is lying in the General and Marine Hospital, hovering between life and death, the result of a stab he received in a row late last night.

His assailant, James McPherson, is a laborer, a strong, active man and about 30 years old.

The row is said to have started in an hotel on Hurontario-street, where McPherson and Woolner commenced quarreling. The former struck the latter on the face with his hand, after which they went out on the street. McPherson started south, and Woolner followed. When in front of the Greaves property Woolner pulled a picket from the fence, with which he struck McPherson a terrible blow in the face breaking his jaw and inflicting a number of other injuries. A tussle ensued, in which Woolner received his wound. McPherson immediately walked to Dr. McKay's office to have his injuries attended to. Woolner was found lying in a pool of blood near the Salvation Army barracks, and was removed to the hospital, where Dr. McKay made an examination.

The cut, which was made in the back betwen the shoulder blades, severed an artery in the lung. He bled profusely and remained unconscious for some hours. His recovery is uncertain.

FORCE OF HABIT.

London People have become Used to the Great Specific Remedy.

London, May 11th.—The despatch from Detroit with reference to the cure from Bright's disease and blood poison of Mr. Langley of this city by the use of Dodd's Kidney Pills, has recalled the wonderful facts of the case to the citizens, among whom Mr. Langley is well known. It has reminded them that Mrs. Langely, among others, also made an equally wonderful recovery. The use of the pills, however, has become so universal here, and there have been so many instances in which they have been used with beneficial results that a similar case would hardly excite as much interest now as it did then when the medicine was less known.

A New Orange Country.

Orange growing in Arizona is declared to have passed the experimental stage, and will become an important industry in the territory. This year's crop in the Salt river valley, where most of the experimental groves are situated, is large and of excellent quality. THE CROP OUTLOOK.

What the Ontario Government's Spring Bulletin Will Say.

Toronto, May 9.

The Ontario Department of Agriculture will shortly issue a spring bulletin on crops. It will say that the prospects for fall what are not of the best; clover fair. Vegetation has been remarkably early in nearly every section. In live stock, horses have come through the winter in fair condition, though fodder has been scarce. Horned cattle are in better shape than was to be expected. Farm supplies are reported plentiful. While hay shows a shortage, oats are still amundant, and the early growth of the grass has been a great benefit. Wheat is said to be rather scarce, but some correspondents say an offer of $1 a bushel would bring out a surprisingly large quantity There are more farm hands than required and wages are low.

Cures, absolute, permanent cures have given Hood's Sarsaparilla the largest sales in the world and the first place among medicines.

Shiloh's Cure

is sold on a guarantee, it cures Incipien Consumption. It is the best Cough Cure. Only one cent a dose. 25 cts., 50 cts., and $1.00. Sold by John Nugent, 399 George street.

"I was troubled for years with a sore on my knee, which several physicians, who treated me, called a cancer, assuring me that nothing could be done to save my life. As a last resort, I was induced to try Ayer's Sarsaparilla, and, after taking a number of bottles, the sore

began to disappear and my general health improve. I persisted in this treatment, until the sore was entirely healed. THERE IS NO UNBELIEF.

There is no unbelief!
Whoever plants a seed beneath the sod
And waits to see it push away the clod,
Trusts he in God.

There is no unbelief!
Whoever says, when clouds are in the sky,
He patient heart, light breaketh by and by,
Trusts the most high.

There is no unbelief!
Whoever sees 'neath Winter's fields of snow
The silent harvests of the future grow
God's power must know.

There is no unbelief!
Whoever lies down on his couch to sleep
Content to lock each sense in slumber deep,
Knows God will keep.

There is no unbelief!
Whoever says to-morrow, the unknown,
The future trusts that power alone,
He, dare drown.

There is no unbelief!
The heart that looks on when dear eyelids close
And dares to live when life has only woes,
God's comfort knows.

There is no unbelief!
For thus by day and night unconsciously
The hurt lives by that faith the lips deny,
God knoweth why.

Hawaiian Mythology.

The ancient Hawaiians at one time believed in and worshipped a Trinity called Kane, Ku, and Lono, equal in nature, but distinctive in attributes; the first was considered the superior. They formed a triad commonly referred to as Ku-Kan-Akahilit. "Ku" stands for "alone," or the one established. They were all jointly worshiped under one grand and mysterious name, and existed from eternity, from and before chaos, from the time of darkness. By an act of their will these gods dissipated or broke into pieces the existing surroundings of Po, which was night or chaos, by which light entered into space.

Then they created the heavens—three in number, differing numerically from the Hebrew legend—as a place for themselves to dwell in, and the earth to be their footstool. Next they created the sun, moon and stars, and a host of angels or spirits, to minister to them. Last of all they created man in the model of Kane. The body of the first man was made of red earth and the saliva of the gods, and his head of whiteish clay, which was brought from the four ends of the world by Lono. When the earth image of Kane was ready, the three gods breathed into its nose and called on it to rise, and it became a living being. Afterwards the first woman was created from one of the ribs of the man while asleep, and these two were the progenitors of all mankind.—Abraham Fornander, in Lippincott's.

Roraima, the Mysterious.

Among the many objects of interest that have been brought to light by the Anglo-Venezuelan dispute there is, perhaps, none that claims quite as much attention from the scientific world as the so-called Mountain of Roraima. Situated in the southwestern corner of Sir Robert Schomburgk's alleged boundary between British Guiana and Venezuela, this wonderful geographical phenomenon, although long known, has elicited but little interest. In point or fact, however, it is a veritable scientific sphinx, the message of whose riddle has come down intact and unread from far geological epochs to the present time.

This stupendous mountain, or isolated table-land, which the native Indians call "Roraima," or the mysterious, rises high in solitary grandeur above the surrounding mountain system; its perpendicular rocky sides rendering it absolutely inaccessible to the foot of man or beast. Crowning this impregnable fortress of nature is a tract of territory estimated to contain upward of 140 square miles. Unlike other inaccessible mountain summits of the world, this elevated region is no mere wilderness of snow-capped ridges. On the contrary, all the indications, including the positive evidence of the telescope, point to its being covered with forests, intersected with rivers, fed from lakes, and to possess a climate that must, in the nature of things, be temperate—that is, neither wintry, despite its altitude, nor tropical, despite its equatorial position.—New York Times.

A Glimpse of Juan Fernandez.

The island is accurately described, and the visitor who is familiar with Robinson Crusoe can find the cave, the mountain paths and other haunts of the hero without difficulty. It is covered with beautiful hills and lovely valleys, the highest peak reaching an elevation of nearly 3000 feet. After her independence in 1821 Chilli made Juan Fernandez a penal colony, but thirty years after the prisoners mutined, slaughtered the guards and escaped. Then it was leased to a cattle company, which has now 30,000 head of horned cattle and as many sheep grazing upon the hills. There are fifty or sixty inhabitants, mostly ranchmen and their families, who tend the herds and raise vegetables for the Valparaiso market.

Great care has been taken to preserve the relics of Alexander Selkirk's stay upon the island, and his cave and huts remain just as he left them. In 1868 the officers of the British man-of-war Topaz erected a marble tablet to mark the famous lookout from which Mr. Crusoe, like the ancient mariner, used to watch for a sail, "and yet no sail from day to day."

HEADACHE.
A SIMPLE CURE.

As a sure cure for headache, whether caused by liver, stomach, kidney or nerve trouble, Burdock Blood Bitters is the most effective medicine known. It removes the causes of headache by restoring all the organs of the system to proper action and health. Doubts disappear in view of proofs like this:—

In the spring of 1891 I got a bottle of B. B. B. for my mother who had been troubled for twenty-five years with sick headache. I got it from Mr. W. Paxton Baird, of Woodstock, N. B., who gave me two other medicines to take home and let my mother take her choice. Fortunately she choose the Burdock Blood Bitters, and I returned the other bottles. She used it for three months, and has had no headache since. We are sure it was B. B. B. cured her, as she took no other medicine.

FOUND AN APT PUPIL.

An Aged Dog Teaches a Terrier Pup How to Guard a House.

The following story is told by a resident who has an old dog, a spaniel, that for nearly 20 years has been the most faithful of guardians. Summer or winter, fair weather or foul, as soon as the key was turned in the lock of the back door he had taken his position at the threshold, and not the slightest sound escaped his investigation during the night, asserts The Detroit Journal. The faithful old fellow is becoming decrepit, and his master recently carried home a bull terrier pup with a pedigree of great length and the bluest of blood. That was three months ago, and the pup is now five months old. For a time the old brown spaniel had no use for the frisky little white-haired fellow, so entirely unlike himself, that ran under him, jumped over and upon his back, grabbed his long and silky ears, and attempted to run away with them, but after a time it was a clear case of grandfather and the youngest baby.

This is the situation now: When the key is turned it is the pup that takes the position at the threshold, while the old dog, confident of the faithfulness of his proxy sentinel, retires to his piece of carpet and snores the night through. Not only does the terrier remain on duty all night, but the moment some one is astir in the house she retires to her bunk for sleep, just as the old dog did for so many years. The owner has tip-toed down to the door at all hours, but has never found her napping.

"Three months ago," says the master, "this pup knew absolutely nothing, except how to play and eat. Its sole companion has been the old dog, and to-day the pup knows all that the old dog knows, and the old dog knows the pup knows it, and has retired from business full aware that his duties have been left to a competent and faithful successor."

THE 57TH RANGERS ATTENDED CHURCH.

REV. W. R. YOUNG ADDRESSES THE MEMBERS OF THE BATTALION.

The Attendance Was Above the Average, Notwithstanding the Intense Heat—An Eloquent Discourse.

The men and officers of the 57th Battalion turned out strong yesterday for their annual church parade. Headed by the brass and bugle bands, the battalion marched along Murray to Water street, to Hunter, to George, to the George street Methodist church, where they were addressed by Rev. W. R. Young. The attendance of men was above the average at a function of this nature.

THE SERVICE.

The volunteers occupied the middle range of seats and were conspicuous for the earnest and hearty manner in which they entered into the spirit of worship, especially in the singing.

Preliminary to the sermon, Rev. Mr. Young, on behalf of the trustees, very cordially welcomed the battalion to the church and he was sure all would exceedingly regret the circumstances that prevented the presence of the honoured adjutant of the battalion, and that all would prayerfully sympathise with him in his grievous affliction.

The speaker selected as his text the last clause of the 20th verse, of the 7th chapter of the book of Judges, "The sword of the Lord and of Gideon." The familiar story suggested by the text, was the victory of Gideon over the Midianites. Gideon was the chosen instrument of the God of Israel to deliver his chosen people from the bondage of Midian. The Lord always raised up men to deal with the exigencies of the time. Such a man was Gideon, who was especially commissioned for his work, and he, like many of God's greatest men, was chosen from a humble walk of life; qualified for being a leader by possessing common sense, patriotism, and therefore unable to be bought—modest, yet courageous and enthusiastic. Gideon's army was composed of volunteers who were subjected to a test—"he that is fearful let him return"—and this test reduced his army of 32 000 to 10,000. The speaker doubted if such a test would so decimate an army of Canadians under similar circumstances, but the Canadians had not been oppressed by an enemy as had the Israelites for seven long years. Then the speaker called their attention to the need of brave, courageous men to battle with the spiritual foes that confront us to-day. God needed such men. His church, society, politics, business, needed such men—men of courage and honesty. Another test was applied to Gideon's army—the way they drank water. 300 with their eye on the foe dipped water from the brook with their hands and drank, while the others, to satisfy their selfish instincts, unbuckled their armour and prostrated themselves and drank from the brook. Victory over self was the first condition of victory over our enemies. Gideon's diminished army, trusting to God, won the victory and saved their country. He urged his hearers to put God first, to put on his armour and fight under his banner. In again welcoming the volunteers the speaker hoped that they would never be called upon to fight any more serious battle than they were engaged upon to-day—a church parade. He prayed God that it would never be necessary for our citizen soldiers to spring to arms to crush a foreign foe, but insisted on his belief that if the country were threatened by a foreign enemy, that not only volunteers but thousands of others would range themselves under the grand old flag and fight for their home and country.

The music for the occasion was appropriate and spirited. The special music included the quartette, "Soldiers of Christ Arise," sung with good effect by Messrs. Squires and Steers and Messrs. Shelton and Gordon.

The obligato soprano solo in the anthem was very pleasingly sung by Miss Clara Belleghem.

The volunteers returned directly to the drill shed where Lt.-Col. Bell briefly addressed them, thanking them for their attendance, which was only a repetition of the creditable manner in which they always turned out to church parade.

"Ten men out of a dozen are invalids," says a recent medical authority. At least eight out of these ten, it is safe to allow, are suffering from some form of blood-disease which a persistent use of Ayer's Sarsaparilla would be sure to cure. Then, don't be an invalid.

SPORTING PASTIMES.

Wheel Talk and Items of Local and General Interest to Sportsmen.

THE WHEEL.

The country roads fairly swarmed with wheelmen yesterday at as early an hour as half past six o'clock.

By ten o'clock fully a hundred wheels were hustling away to the country. A party went over to Lindsay and another to Millbrook, whilst eleven bicyclists took dinner with John Holmes at Burleigh.

A pleasant trip for a day is to start early, before the heat becomes oppressive, take breakfast in Lakefield and dinner in Burleigh. On the return trip by leaving Burleigh at about five o'clock, when the heat the day is somewhat abated, a pleasant ride to Young's Point can be enjoyed and tea partaken of, after which the trip home, in the evening, over the excellent road, is one to be enjoyed and remembered. The road between Peterborough and Lakefield is as smooth as a billiard table and almost as hard as asphalt and is undoubtedly the best leading out of the town.

The timed record for the run from Lakefield to town will have to take place soon, as every day a new record is being set. The best run known so far is that made from Whalen's to the corner of George and Hunter streets in 22 minutes.

Many accidents occurred on the road yesterday and the bicycle hospitals are full of patients this morning.

LACROSSE.

The District C.L.A. meeting for the purpose of arranging a schedule of matches is to be held in Port Hope on the 15th. It behoves Peterborough to have a man there.

Moran Strikes Out Eight Men.

It was Toronto's game all the way Saturday afternoon over the Don. Pitcher Moran was in great fettle, and for eight innings kept his opponents down to two hits. When Rochester came in for the last of the ninth the score stood 12 to 1. Then the strategic south-paw let up or weakened, and three singles, a double, two bases on balls and Stuart's fumble allowed five runs. The left-hander showed a capability of extricating himself from nasty tangles at different stages, notably in the fourth innings, when he filled the bases by bad balls and then retired the next three men without a tally.

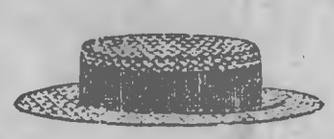
A THUNDERING RACKET IN

HATS!



When it comes to a question of Leadership we've got something to say that will show what we can do. Trouble in the Hat trade has commenced. Just as the Farmer sometimes forced to sell his wheat at 60 cents and lose on it, so the Hat makers have to sell at a loss, and glad to get a good buyer.

This week, we negotiated for a big raft of English and American Hats, in smart and popular selling styles of Felts and Straws, for Men, Youths, Boys and Children. The wholesaler who had stuck on the rock of hard times, seeing we could handle his whole stock and come to his rescue, reluctantly took our bid—a price that puts us in the very best form to sell

TWO HATS FOR THE PRICE OF ONE.

This stock shall not remain long on our hands. The Dollar Hat for **50c.** and the Fifty cent Hat for **25c.**, is the most forcible way we can indicate the general run of prices for the next month in any Hat Department. When you look you'll see a brand-new Hat stock of the latest styles, fresh from the Makers, as big as an ordinary Hat Store—and TWO FOR THE PRICE OF ONE—without a grumble.

BUDDING WITH BARGAINS IN OUR CLOTHING DEPARTMENT.

Men point the finger at us and say—There's the store that sells the most Clothing. What's the cause? did you say. Just look at our $7.50 Suits for example, just marked down. Place them side by side with any $12 Suit in the market and you'll buy ours in preference and save $4.50. And so on all through our mammoth stores. You can put us to the test in Suits, Vests, Trousers, Hats, Boots, Neckwear and Furnishings. There's nothing in town can touch us.

SOMETHING FOR NOTHING.—With every purchase of $1 worth of goods, from now until Wednesday, we will present the purchaser with a free ticket to the Cosgrove company of entertainers show to see how many tickets we can distribute. We have marked our goods at special prices for Saturday Night. $1 Shirts for 75c and 50c Ties for 25c, and a free ticket to Cosgrove's big funny show, at the Opera House, Wednesday evening.

Low Rents
Make Low Prices.

Panic-stricken merchants may puzzle their heads as much as they like about the way we draw the trade to our store. Our customers know we are cutting the life out of "departmental" and ornamental high priced establishments. What with their notorious 30 and 40 per cent. profit, part for the landlord, part for all the modern conveniences, and part for high living; is it any wonder that they are always in trouble how to get along.

Talk About Low Prices

in Millinery and Dry Goods of every kind, as advertised by the high renters, Pshaw! it's only a fairy tale compared with what we are offering this week in every department.

Ladies Blame Themselves

almost every day. They read exaggerated announcements and go next day to secure some of the wonderful bargains, but, as they say, we come to Miss Rudkins and find she has the exact same goods marked 10 to 15 per cent. cheaper—and that is what annoys us. We waste our time thinking we are saving money, when we are really losing money and time also.

Under no circumstances will we be undersold by any store in Dry Goods, Millinery or Mantles.

Come here, get our prices. Make any comparison you like.

No furniture given away—but all the value in your Dry Goods purchases.

POLITICAL PRELATE.

Carrying the Firebrand From Parish to Parish.

ARCHBISHOP LANGEVIN AT WORK

At La Prairie He Goes Fully Into the School Question—Urges the Electors to Support Only Candidates Pledged to the Remedial Bill—Political Notes.

Montreal, May 12.—Archbishop Langevin will provoke a conflict in this province which will have far-reaching consequences if he continues his present courses. He is carrying the fiery cross from parish to parish, doing his utmost to destroy Mr. Laurier politically, and advocating the Tupper Government in the most open manner. The Liberals will be more than human if, finding that their protests are of no avail, they do not defend themselves. This week he is making a dead set on his native county, La Prairie. On Sunday he preached a sermon at the church in St. Constant. So strong and so partisan were his remarks on the school question that the Liberals of La Prairie village where he was announced to preach to-night, determined to appeal to Archbishop Fabre of Montreal, the head of the diocese. A deputation accordingly went to the palace here to-day, but the Archbishop of Montreal was not at home. His representative, Canon Archambault, however, received the deputation kindly, and as a result of the conference it is probable that Archbishop Langevin will be warned of the use which the Conservatives are making of his sermons. In the meantime he keeps on stumping for the Government. To-night the church at La Prairie was crowded. After saying how happy he was to be among his old fellow-citizens of the County of La Prairie and after recalling the memories of his youth, Archbishop Langevin said: I am now going to speak on an extraordinary subject. Some may think it strange that a bishop should speak on a question which has been so generally discussed and which has become a political ball which each party throws at the other party's head, but is it not just that you who might be fooled by untrue statements should hear from the lips of one who represents the minority of Manitoba what that minority expects of you and of the whole country? I will not enter the political arena. What do I care if one party or another falls and passes away? I do not come to you in the name of any particular political party or at the request of any particular group of politicians, nor am I urged by any vile interest. I despise from the bottom of my heart any insinuation to the contrary. I will condense what I have to say into two points: After having suffered for six years the French minority knew one day that there was to be a Remedial bill. I want to tell you what I think of that bill, and what I will expect from you. A bill was proposed by the Government at Ottawa, and that bill was the consecration of the two principles of the right of the minority to the schools and of the intervention of the Federal Government. The speaker then explained what the Catholic Separate schools were, and continued: That bill was constitutional, and opposing the bill was to attack the principle of Separate schools. The bill also consecrated the principle of the intervention of the Federal Government. The Privy Council declared that we had the right to appeal to the Governor-in-Council. The Government said: "At the demand of the minority we will give them back their Separate schools." Such was the judgment of the Privy Council, and it will be the same in two months hence after the elections, and we, the Catholics of Manitoba, believe that all means of conciliation are exhausted. We asked for our schools, and they answered that they had nothing to give us. You brethren, as well as all the Catholics of the Dominion, sent a petition, and they refused again. When the bill was presented it was greeted with joy by the minority. "At last we will have our schools," cried the Catholics; "at last we will be able to be free in this country of ours." Unfortunately we soon learned the sad tidings. The Catholics instead of being united had divided.

Now you must know the truth. That bill was satisfactory to us with some amendments which could have been adopted. Before I accepted that bill I consulted a number of most competent men of all creeds as to its legality. Those men declared that the bill was practicable, and they were of the opinion that if we can get it, so much the better for us. It is not that the bill was perfect. On the contrary, it was imperfect, but to approve the bill would not be necessarily to approve all that was defective, and that bill was practicable for us, and satisfied us. To vote for it and then amend it was just what was done. I may say that all those who voted for the bill and for enforcing the judgment of the Privy Council, did their duty as loyal subjects of Her Majesty, but more especially have they done their duty as Catholics and friends of the minority of Manitoba. Some say the bill was not satisfactory. Well, it should have been very simple to amend it. Our friends tried to do so, and we have friends in both parties who made it an affair of conscience above all party considerations. There has been an outcry that the bill only gave us the crumbs. What constitutes the crumbs? Does it not depend on the control? And we would have had that control of our schools. It is said that the bill did not give us any subsidy for the maintenance of the schools. Well, they could have got the House to vote one. All the members who voted for the bill are the friends of the Catholic minority. Those who voted against the bill—here the Archbishop paused and shrugged his shoulders, that French shrug which is so expressive—well, I did not say anything about them. It is for you to draw your own conclusions. I know that people will be angry at me, but I can suffer for the good cause. I have spoken because I thought it my duty to life up my voice to defend the rights of the minority.

His Grace pathetically appealed to his hearers, saying: "If one of your children was wronged you would life up your voice to defend his rights, as I am now doing." He then went over the history of the Privy Council's judgment and said: What do we find when we examine the situation? We find that there were some schools before 1890 and that there are none to-day. There is no need of an enquete to establish that fact. The enquete was held by the highest court of the empire. The enquete has already been held. There is also a right, and that is to repair an injustice, which will only be repaired when we get our schools. It belonged to the Local Government to do it, but for six years they refused to listen to an appeal, and how can we expect that they will do so now, when they held their elections on that question and were returned to power? How could they go back on the electors' decision? They have refused it for six years, and we have the right to ask for a law which would settle the question once for all. That is what we want. After Confederation the Protestant minority of Quebec got a law. Why do they not give the same rights to the minority of Manitoba as to the minorities of the two Provinces of Ontario and Quebec?

In the present election ask the candidates if they are or are not in favor of the Remedial Bill. Assure yourselves of the disposition of the leaders, and find out if they are of the same opinion as their candidates, for it is they who command.

His Grace finished by warning the electors that their votes might have disastrous consequences.

SIR CHARLES TUPPER

Says Some Things About Mr. Laurier and is Called to Time.

Port Arthur, May 12.—Sir Charles Tupper, speaking in Fort William last night on the Manitoba school question, said: "I am speaking now not to the Liberals, for it is no use speaking to them, but to the Conservatives, and ask can you vote to turn out the present Government and put in a French Roman Catholic Premier?" He followed this up by saying that Mr. Laurier, in a speech made in Quebec within a week, said that when he (Mr. Laurier) came into power he would introduce a bill to restore Separate schools in Manitoba. Sir Charles Tupper was here interrupted, and asked: "Where is the speech?" He replied: "It is in a paper which I thought I had here, but I must have left it in Winnipeg." He did not remember the name of the paper, but would get a copy of it and send it to the chairman of the meeting. There were nearly 500 in the audience, over a third being Liberals, and Sir Charles Tupper gave an almost verbatim repetition of his Winnipeg speech. His reception by Port Arthur and Fort William Conservatives was not wholly successful, there being a decided split in their ranks owing to the coercion bill.

PROTEST AGAINST COERCION.

A Strong Resolution Passed by the Guelph District Meeting.

Guelph, May 12.—This motion was passed by the Guelph district meeting at its session held here to-day: Moved by the Rev. T. W. Jackson, Fergus, and seconded by Mr. Isaac Schnyder, that this district meeting, while disclaiming in any way to direct the vote of citizens in the choice of members for the House of Parliament, and believing in the right of each man to worship God according to the dictates of his conscience, yet we regard the effort to force Separate schools on the Province of Manitoba as a serious interference with the liberties of the Province and giving the Church of Rome advantages we think they should not possess.

A Worthy Manifesto.

London, May 12.—The Globe in an article on the new Administration in Canada says that the great and comprehensive policy defined by Sir Charles Tupper in the manifesto which he has just issued is worthy of that statesman's long and honorable career.

RUSSIA SEIZES IT.

Coolly Takes Possession of the Chee-Foo Coast.

GREAT BRITAIN'S CLAIMS IGNORED

A High-Handed Proceeding Which Must be Regarded in England as Unfriendly—The Result is Awaited With Intense Anxiety—An Act of Coercion.

London, May 12.—A despatch from Shanghai to a London news agency says that the Russians, through the medium of American Agent Smith, have taken possession of the disputed territory of Chee Foo, over which the British maintain claims. The despatch says that six Russian warships and four United States warships are lying at Chee Foo.

A despatch from Shanghai to The Globe confirms the news agency advices that the Russians have taken possession of the disputed territory of Chee Foo. The despatch adds that the seizure was made in defiance of England's legal rights.

The ascertained facts of the Chee Foo affair, in which the Russians are represented as having seized disputed territory upon which England had a claim, are these: The Russian Steam Navigation Company secured a tract of foreshore belonging to the English firm of Fergusson at Chee Foo and proposed to build a pier thereon. Other firms objected to the Russian company having possession, whereupon the Russian Government intervened and compelled the Chinese authorities to accede to the full transfer of the property to the Russian Company.

The Globe, in a special article on the subject, says that England is bound to regard the affair as an unfriendly act and that the result will be awaited with the greatest anxiety.

IN THE IMPERIAL HOUSE.

The Amount of Subsidies to the Fast Line to Canada Unknown.

London, May 12.—In the House of Commons to-day Mr. George N. Curzon, Under Foreign Secretary, replying to a question by Mr. James O'Kelly, said that there was a man claiming to be a British subject among the prisoners captured on board the Cuban filibuster Competitor, but he added, if he had become a naturalized citizen of the United States, he had lost his title to British nationality. The British Charge d'Affaires in Madrid, he said, had telegraphed that the Spanish Government had ordered the suspension of the sentences of the Competitor prisoners and had also ordered that the papers relating to the case be sent to the home Government for full examination.

Sir Matthew White Ridley, Home Secretary, replying to an inquiry by Mr. G. B. Clarke, member for Caithness, said that the Home Office refused to reopen the case of the convicted murderess Florence Maybrick, or to appoint a commission of inquiry into the alleged new phases thereof.

Right Hon. R. W. Hanbury, Financial Secretary to the Treasury, in reply to an inquiry by Mr. G. B. Wolff, member for Belfast East, said that the amount of the subsidies granted by England and Canada to the new Canadian line of steamers could not be stated until the matter of the tenders for vessels was decided.

PRESIDENT KRUGER OBJECTS

Because Great Britain Takes the Side of Cecil Rhodes.

Pretoria, May 12.—President Kruger has declared his unbounded astonishment at the British Government's defence of Cecil Rhodes and the British South Africa Company in the British House of Commons during the debate on the colonial estimates last Friday, and has expressed the wish that he had been personally present in order to refute the arguments of Mr. Chamberlain. The alleged intrigues between the Transvaal Government and Germany, he declares, are the merest soap bubbles. The South African Republic, President Kruger says, wishes to be friendly with all peoples, but those who engineered the recent plot against the Transvaal must be punished, and there will be no rest in South Africa until this is done.

Dr. W. J. Leyds, Secretary of State for the Transvaal Republic, has addressed a message to Sir Hercules Robinson, Governor of Cape Colony, in which he notes the partiality shown by Great Britain towards the directors of the British South Africa Company, and declares that the British South Africa Company, as at present controlled, is a source of danger to the whole of South Africa.

LEFT JAMESON IN THE LURCH.

Rhodes, It is Said, Wanted the Refugees to Revolt Under the Union Jack.

London, May 12.—The Daily Courier to-day confirms the report that Dr. Jameson's raid into the Transvaal failed because Cecil Rhodes wished the refugees to revolt under the Union Jack, while the latter insisted upon the Transvaal flag. It also appears to be confirmed that all arrangements were made to proclaim Charles Leonard President and John Hays Hammond State's Attorney, but they refused to alter their plans and consequently left Dr. Jameson in the lurch.

Expostulated With Kruger.

London, May 12.—The Standard will to-morrow say it is rumored that Colonial Secretary Chamberlain has expostulated with President Kruger for delaying the announcement of the sentences that will finally be imposed upon the convicted members of the Johannesburg Reform Committee.

The Telegraph will publish a despatch from Pretoria stating tat the wife of President Kruger is seriously ill.

Elected a Conservative.

Edinburgh, May 12.—Mr. Priestly, Conservative, has been elected without opposition to the seat in the House of Commons for Edinburgh and St. Andrew's Universities, made vacant by the acceptance of a judgeship by the former member, Sir Charles J. Pearson.

It Means Hard Fighting

London, May 12.—The Times' correspondent at Havana telegraphs that he has carefully examined the trocha, the fortified line from Mariel to Majana, and declares it to be a good position that is strongly held. He adds that any attempt by the rebels to force the line will result in severe fighting.

WEDNESDAY, MAY 13, 1896.

SIR CHARLES TUPPER'S PROMISES.

Sir Charles Tupper opened his campaign in Winnipeg for the triumph of Conservative principles by promising Government aid towards building the Hudson Bay Railway and deepening St. Andrew's Rapids. These promises have been made before many a time, and their redemption would require the expenditure of perhaps ten million dollars.

He comes to Montreal this week. He will promise us, if we are good and vote for Dr. Roddick and the other ultramontane candidates, to give us half a million dollars for our exhibition.

The Quebec people will have the promissory notes for the St. Lawrence bridge, which have long been outlawed, renewed.

In Cumberland County the Chignecto Ship Railway will be again used for all it is worth, and the "Great Stretcher" will picture to his hearers the great ships of the sea scooting over the dry land and raining golden largesse on the adjacent counties.

Halifax will be regaled with the thirty-year-old fairy tale that it is to become the chief Canadian sea port by the establishment of a line of steamships.

In Cape Breton, the map that Sir Charles displayed through the constituency in the bye-election, showing branch railways radiating in all directions, will do duty again.

In Prince Edward Island the tunnel scheme will no doubt be revived, and, in addition, the island, which may thank the National Policy for only five constituencies, has been already promised seven branch railways.

Two or three days before the death of Parliament, subsidies, granting aid to local railways in all parts of Canada to an aggregate extent of nearly two million dollars, were brought down to the House. There was no intention of putting them through, but in every constituency included in the list the shameless exploiting for election purposes of the proposed grant is being made.

The list of public bribes will be swelled as the campaign goes on, and Tupper finds the current running against him, for he believes that every locality has its price, and he would rather run the public debt up to five hundred million dollars than suffer defeat.

Abraham Lincoln once said:—"You can fool all of the people some of the time, and some of the people all the time, but you can't fool all the people all the time. But if Canada, on June 23rd, rises to the stale bait which the ancient fisherman is now trailing through the water the saying will have to be revised so far as the Canadian people are concerned.—Montreal Herald.

A SLUGGISH DEPARTMENT.

Under the above heading The Hardware and Metal Merchant publishes the following:—

"The deliberate manner in which the customs department at Ottawa disposes of business that it has in hand would make even a snail turn green with envy.

"Some time last summer Hardware and and Metal pointed out that there was a difference of opinion between the importers of Scotch drain pipe and the department regarding the latter's estimate of the proper market price in Scotland. The importers contended that the scale on which the duty was assessed was based on abnormal values prevailing during the extended labour troubles in 1894-95. Accordingly they paid their duties under protest and have continued doing so ever since.

"The department, after repeated urgings for a hearing, made up its mind to send another officer across the water to investigate again. It took until late last fall, or over four months, to arrive at this decision, and though the officer has returned for some time the trade have not been notified at all as to the tenor of his report.

"Three weeks ago a leading Montreal importer wrote, asking when the Government proposed to act, and did not receive any reply. He decided then to write the hon. Minister of Trade and Commerce, and now hopes that it will have the effect of arousing the department officials from the leisurely course they have pursued so far in this matter.

"If an ordinary business firm transacted business in such a way it would not exist a year.

"It only emphasizes what has been repeatedly urged in these columns—send more business men to Parliament."

THE Hamilton Herald (Independent) says,—"They say that when Sir Charles Tupper was in England he used to try to boast that he was worth £2,000,000, every penny of which he had made out of his medical practice before he entered politics. From all accounts there is no doubt that he is worth this money which is equivalent to $5,000,000 of our money, but that he made it out of the pills and powder business in the backwoods of Canada is a little too thin. Tupper might tell that to the folks in England, but he would never have the cheek to circulate such stories in Canada. There are too many people here who remember him when he had hardly money enough to buy red herrings and soda biscuits with. Fancy a doctor making £2,000,000 by practising his profession in Canada! One might as well argue the possibility of a dog making £2,000,000 by baying at the moon."

THE fact is suggestive that Sir Charles Tupper is the only Canadian politician who has become rich by politics. The sacrifices he has made for the country are very like his offer to die for the Remedial bill—he died for it by concocting and carrying out a plot to discredit it and though he wishes to have the credit of trying it, it did not suit his purposes to have it become law last session—he wished to use it as a fomenter of religious and racial discussion in the interests of his own political success.

WORLD'S CHRISTIAN ENDEAVOUR PRAYER CHAIN.

"The whole round world is every way

Subject of prayer for May:—"For Our Homes—That we may all show more of the Spirit of Christ in our home lives, so that our brothers and sisters and family friends may be won to Jesus by our example."

CHARLOTTE STREET SOCIETY.

The Charlotte street Society held their regular monthly consecration service on Monday evening last. The topic, "Serving Christ in our Homes," was taken up by Mr. D. D. C. Dawe, after which the roll call was responded to in an encouraging manner, as nearly all members were present. We were much pleased to welcome several visitors in addition to our usual good attendance.

Next Monday evening there will be a union service of the junior and senior societies which promises to be of the most interesting character. Programme to commence at 7.30 o'clock. The services of Rev. S. T. Bartlett, of Cobourg, has been secured to address the meeting and perform the graduation service for several junior members who are to be promoted to the senior society on that evening. There has also been prepared a complete musical programme which will be rendered during the evening. We will be glad to welcome all who can make it convenient to attend. Collection will be taken at close of service.

SALEM E. L. OF C. E.

This week we held our regular consecration meeting, at which we were very much pleased to meet our pastor, Rev. Mr. Beer, who addressed us upon the topic in a very earnest manner. The roll was then called by the secretary, and we were sorry to hear many names called to which there was no response, owing to absence. We were, however, glad to hear so many responses, and hope for a fuller attendance in future.

ST. PAUL'S SOCIETY

held their weekly meeting on Sunday evening at 6.30 o'clock on account of the choral service held in the church on Monday evening. The attendance was not large, but the meeting was bright and profitable. Mr. F. Robinson, secretary of the Lindsay Y.M.C.A., was present, and spoke briefly on the subject. Monday evening next will be business meeting, when reports will be presented and committees appointed for the ensuing term. The Junior Society arranged their committees on Sunday morning. This work will be conducted by a committee hereafter.

This week we will publish a paper read by Miss Taylor of Murray street Baptist Society, at the last Local Union Meeting held in the George street Methodist Sunday school:—

"READ UP."

I apprehend that when the above subject was selected the thought was that emphasis should be given to those lines of reading which will best serve to make us useful and intelligent endeavourers. I will, therefore, very briefly, state what I believe to be the proper nature of the reading matter and the order in which it should be read.

Paul says "Study to show thyself approved unto God, a workman, that needeth not to be ashamed, rightly dividing the word of truth." And again, "All Scripture is given by inspiration of God and is profitable for doctrine, for reproof, for correction, for instruction in righteousness; that the man of God may be perfect, thoroughly furnished unto all good works."

Therefore I would place the word of God first in this list. The Christian Endeavourer, who has named the name of Jesus as his Saviour, should make this book, the Bible, the foundation of all his reading, for through it God has revealed unto us, not only the way of life, but the various means by which that life is nourished and made strong. Without making use of its priceless treasures we will never be intelligent Christian Endeavourers.

Next on the list I would place denominational literature, such as the recognized organs of our different church homes, reports, missionary information, etc.

We are all members of this one great society, but to be intelligent members of it we must be in close and sympathetic touch with everything that affects our individual church life. "Read up" your denominational news, and keep it read up to date, that you may know all the joys and successes of the work, all the pains and disappointments, that you may know where your help is most needed, that you may praise God for his blessings upon the work.

And last, and I fear many of us make the mistake of placing this first, "Read up" the distinctive news of the society. Get into touch with the great throbbing pulse of the movement, and keep up to date by learning the methods and new ideas in carrying on the work.

Maltine With Coca Wine Feeds the Nerves.

Are you all run down! Are you tired in body? weary in mind? Does lassitude burden and unfit you for mental or physical labor? Does sleeplessness rob you of mental force? make your days a weariness and night a torment? In brief, is life rapidly becoming a burden to you? Thousands are living in this miserable condition while relief from this worst of physical and mental conditions may be speedily obtained by the use of Maltine with Coca Wine. It is a real tonic, for it builds up mind and body, supplies pure, rich blood, restores appetite, and adds wonderfully to the digestive power of the stomach. Maltine with Coca Wine renews every fibre of the body, gives mental activity. Maltine with Coca Wine is a builder—builds nerve, builds muscle, builds bone. It gives vim and nerve. It braces, not as a stimulating agent; it braces because it cures. That is what you need.

Mrs. D., says:—For years I have been nervous and weakly. I took one dollar's worth of Miller's Compound Iron Pills, and am now quite well and strong." Sold in Peterborough by Wm. Madill, druggist.

Burdock Pills, small, safe and sure, regulate the liver and cure constipation.

The Bowels.

A constipated condition of the bowels causes the accumulation of waste and effete matter, which poisonously impregnates the whole system by being taken up by the blood. Hence Bad Blood, Headache, Biliousness, Fevers, Foul Humors, Pimples, Blotches, etc. Burdock

BLOOD BITTERS

acts thoroughly on the bowels, removing all effete and waste matter, and cleansing the entire system.

It heals all sores, ulcers, abscesses and broken out surfaces of the skin so completely that not even a scar is left. In all skin diseases it should be taken internally and applied externally, according to directions.

HEALTH-GIVING DIET.

The change of season demands a change of diet, and we are right in line with sensible people who must have Fresh Fruit, Fish and Vegetables every day.

New Tropical Fruits, New Bananas, New Cocoanuts, New Oranges, New Lemons, Early Vegetables, Fresh White Fish, Fresh Salmon Trout, Fresh Cured Goods, Pickles and Relishes, Evaporated and Californian Fruits.

New Rhubarb, Onions, Asparagus and Lettuce, and other early Vegetables, tender and cooling.

MANITOBA CENSUS.

Commissioner St. Denis Has Left for Winnipeg.

WORK TO COMMENCE ABOUT MAY 26

Spanish Sailors Rewarded for Saving Lives of Canadians—Outbreak of Black Plague at Hong Kong—A Demand for Good Butter Makers—Ottawa Notes.

Ottawa, May 12.—(Special)—Mr. E. H. St. Denis, Chief Census Commissioner, Manitoba, left for Winnipeg to-day to complete arrangements for the taking of the census. Work will actually commence about the 26th inst. Seven commissioners, one for each of the different constituencies in Manitoba, have been appointed, as follows: A. McMicken, Winnipeg; Joseph Baril, Provencher; William Cranston, Clearwater, Lisgar; William Ferguson, Hamiota, Marquette; Norman Matheson, Kildonan, and Robert Adams, Virden, Brandon. The enumeration will not take more than two weeks.

The Government have awarded handsome binocular glasses to Captain J. Calle of the Spanish steamship Cadagua of Bilbao, for rescuing the crew of the shipwrecked schooner Annie G. O'Leary of Halifax, on Nov. 30th last. To the first officer, a gold watch is presented, and to each of four seamen $10.

The Department of Agriculture was notified to-day of the death of Dr. McNaughton Jones, chief quarantine officer for Canada on the Pacific Coast, with headquarters at Williamshead Quarantine Station. Dr. Duncan of Victoria is acting officer in the meantime.

Advices have been received by the Department of Agriculture of another outbreak of bubonic, or black plague, in Hong Kong. This will necessitate increased vigilance on the part of the quarantine officers on the Pacific Coast.

Mr. Thomas Macfarlane, chief analyst of the Inland Revenue Department, leaves for Europe on Saturday on official business. As is generally known, Mr. Macfarlane is an ardent imperialist, and when in England he will put himself in communication with the British Empire League, the Navy League, and the United Empire Trade League, with a view to inducing these organizations to adopt a positive policy in their efforts towards Imperial Federation.

The Agricultural Commissioner is repeatedly asked to recommend reliable parties as butter makers, and to-day applications were received at his office from Regina, and Saskatoon, from the managers of the creameries, asking for good men. Prof. Robertson always keeps on hand a list of valuable men, and can fill applications of this kind almost at a moment's notice.

Alex. McKay, ex-M.P., was to-day sworn in by Chief Inspector McMichael as Inspector of Customs for Ontario, with jurisdiction for the present in the eastern part of the province. The Board of Customs was in session again to-day, and, following a new practice, a number of deputations were received, certain parties challenging the rulings of appraisers at different points. Among the different subjects which were brought before the board by deputations to-day were the duty on tea packages, surgical instruments and walnut veneers for piano making.

The Marine Department has been notified that the range light on Rainy River was swept away by ice last week. It will be replaced almost immediately.

No information has been received at the Militia Department in reference to the proposed reopening of the case of Col. Hamilton, commandant of the Q.O.R., in connection with his difference with his officers.

The lobster hatchery at Pictou was opened on the 8th inst., with prospects of a splendid season.

Some 300,000 whitefish from the Ottawa Hatchery were deposited in the Rideau Lakes last Saturday.

The deputy heads of the different departments will to-morrow present Sir Mackenzie Bowell with a beautifully illuminated address and other marks of their esteem, previous to his departure for Europe.

The analysts of the Inland Revenue Department are at work on a bulletin on maple syrups. So far as the examination goes, there is very little evidence of adulteration by glucose.

The cornerstone of the new Methodist Church on McLeod-street was laid last evening. Six years ago the cornerstone of the present church was laid by Sir John Macdonald, and so rapidly has the congregation grown that a new edifice is necessary.

The program for the artillery matches at Shoeburyness, in which a Canadian team is to take part this year, have been received by the secretary of the D.R.A.

The Inland Revenue receipts last month fell off over $100,000.

THOSE DEATH SENTENCES.

Findings of the Court Martial at Havana Made Public—A Rebel Shot.

Havana, May 12.—The findings of the court martial, before which were tried the five men who were captured on the filibustering American schooner Competitor, were published here to-day for the first time. As already cabled all of the accused were convicted and sentenced to death. It has been ordered that proceedings be instituted for the confiscation of the Competitor. Florentino Herrera, convicted of the crime of rebellion, was shot at Matanzas this morning. It is rumored that Maximo Gomez, with a strong force of rebels, has re-entered the Province of Matanzas. His vanguard is said to be near the town of Baro.

To be Tried Again.

London, May 12.—The Standard will to-morrow print a despatch from its Madrid correspondent saying that Spain and the United States have arrived at an amicable understanding regarding the men captured on the Competitor. The prisoners will be tried again, this time by a civil court, under the provisions of the existing treaties between the two countries.

The Allans Will Tender.

Montreal, May 12.—In conversation with a member of the firm of H. & A. Allan, your correspondent was informed that the Allan line would tender for the Canadian fast line service, and, although no boasting was indulged in, your correspondent was given to understand that the old Canadian firm did not intend to lie down and be distanced by any of the foreign companies who will no doubt endeavor to secure the contract. The tender of the Allan Line will be put in as soon as certain negotiations with parties on the other side have been concluded, and no doubt the company will be able to give a good account of itself in the future race for marine supremacy on the North Atlantic waters.

BAPTIST CLAIMS PAID.

The Chinese Authorities Pay the Full Damage by the Cheng Tu Riots.

New York, May 12.—A Tien-Tsin special cable to The World says: Consul Read, the chairman of the Cheng Tu commission, has succeeded in securing payment in full of the Baptist Missionary Union claims for property losses in the Sechuen riots. Thus all the American claims have been settled in a friendly manner, China paying the whole amount demanded.

TORONTO MARKETS.

Flour—The demand is inactive and prices nominally unchanged at about $3.40, Toronto freights, for straight rollers.

Bran—The market is unchanged, with cars quoted at $10.25 west. Shorts, $10.75 to $11 west.

Wheat—Trade quiet and prices unchanged. Cars of white wheat are quoted at 75c on Northern, and red offers at 74½c west. No. 1 Manitoba hard is held at 83c Fort William, May delivery, and at 71c Midland. No. 2 hard 82c to 83c Midland.

TORONTO LIVE STOCK MARKET.

The receipts at Western yards to-day were large and prices are lower. Offerings 80 carloads, including 2000 head of hogs, 200 calves, 100 sheep and 60 lambs. Cattle were easier. A few cars of exporters sold at 3¾c to 4c per lb. Buyers of butchers' stock held off, and a good many are left unsold. The best sold at 3½c, medium butchers' at 2¾c to 2¾c, and inferior at 2c. Cows in good demand, with many at $30 to $40 each. Calves easier, selling at $1.50 to $4 each.

Cattle freight rates are irregular at from 35s to 37s 6d. Some lines claim to be getting 40s and 42s 6d insured at Montreal.

A Glasgow cable says: "Market for cattle easy; price for the best 10c to 10½c per pound."

Sheep and lambs are steady, with limited offerings. Sheep sold at 3c to 3½c per lb. Lambs are firm, selling at 5c to 5½c per lb., the latter for choice grain-fed. Spring lambs $2.50 to $4.

Hogs generally unchanged, with receipts of 2000 head. The best sold at $3.87, weighed off cars. Thick fats are quoted at $3.50, and the demand for them is slow; stores at $3.65 to $3.75, sows at $3 to $3.25, and stags at $2.

"Should I die while I am in a position to pay my insurance premiums, my family will owe their support to Scott's Sarsaparilla. Two years ago I applied to two companies for insurance, $1000 in each. My face was a mass of pimply blotches and my urine did not stand the test. One doctor in examining me said I could not pass, but that my trouble was curable. He advised an alterative medicine, and I commenced taking Scott's Sarsaparilla. Both companies rejected me, but four months later, after I had taken five bottles of your remedy I am thankful to say both accepted me as a risk—one being a stock company, the other a mutual. The examiner who previously examined me, remarked "I never saw such a change in any man." This is indorsed by Mr. J. Todd, the popular druggist, corner Queen and Crawford Streets, Toronto.

Scott's Sarsaparilla builds up debilitated constitutions, imparts strength, vigor and vitality, clears and purifies the blood. It cures skin diseases, rheumatism, gout, indigestion and all complaints arising from poor or poisoned blood. Of all druggists, $1 per bottle.

Two Box Cure

MILVERTON, 25TH JULY, 1895.

Gentlemen,—For the last ten years I had been troubled with kidney disease, being so bad at intervals that I could not lie in bed at night nor stoop to the ground.

I had tried all the remedies I could find without effect, but heard of Dodd's Kidney Pills and procured a box.

I am most happy to say it for my own sake as well as for others that I am perfectly cured after using four boxes.

"Going to Insure."

THE Man who is simply "going to insure" is usually no better than the man who has'nt made the decision. In fact he is usually worse, because he has considered the subject and been convinced of his duty, but has not done it. "Nothing is done so long as anything remains undone." On application to either of the undermentioned gentlemen, full particulars will be furnished in regard to the Unconditional Accumulative Policy issued by the

Sour

Stomach, sometimes called waterbrash, and burning pain, distress, nausea, dyspepsia, are cured by Hood's Sarsaparilla. This it accomplishes because with its wonderful power as a blood purifier, Hood's Sarsaparilla gently tones and strengthens the stomach and digestive organs, invigorates the liver, creates an appetite, gives refreshing sleep, and raises the health tone. In cases of dyspepsia and indigestion it seems to have "a magic touch."

"For over 12 years I suffered from sour

Stomach

with severe pains across my shoulders, and great distress. I had violent nausea which would leave me very weak and faint, difficult to get my breath. These spells came oftener and more severe. I did not receive any lasting benefit from physicians, but found such happy effects from a trial of Hood's Sarsaparilla, that I took several bottles and mean to always keep it in the house. I am now able to do all my own work, which for six years I have been unable to do. My husband and son have also been greatly benefited by Hood's Sarsaparilla—for pains in the back, and after the grip. I gladly recommend this grand blood medicine." MRS. IS THE HORSE STOLEN?

The Police After John E. Britz, who has one of Moseley's Horses.

The Chief of Police has issued a card bearing the following description of John E. Britz, a suspected horse thief, whom he wishes arrested:—Age, 30; 5 feet 8 inches in height; slim; sandy moustache; light tweed suit; peak cap of same colour; accompanied by a woman of 20 claiming to be his wife. The horse which is wanted is a bay mare, 16 hands high, 8 years old, black points, small mane, and hitched to a top buggy.

Britz, who has been living in town for about three weeks, at York's, on Park street, sold a horse on his arrival here to Mr. Alex. O'Brien. The Chief had his suspicions concerning the animal, and told O'Brien he thought it was stolen. He asked Britz about it yesterday morning, but was told that the horse had been purchased in the regular way through Mr. Joseph Elmhirst, the mention of whose name in connection with the transaction, quieted all suspicion.

Hearing yesterday that Britz had taken a horse from Moseley's livery, the Chief went around there and cautioned them against hiring a horse to Britz, whom he strongly suspected of being a scoundrel.

That the chief was right in his surmise was proven when the horse was not returned last evening as promised, and was not taken to Millbrook as stated when it was hired, but on the contrary was driven through Baillieboro in the direction of Port Hope.

It is stated on the card, that there is a probability of Britz trying to sell the horse and getting across the border, and the police of the province are asked to keep a sharp look-out for him.

Several citizens it is understood will prefer charges against both Britz and the woman if they are secured. They were requested to leave Port Hope by the police prior to coming to Peterborough.

Salvation Army.

To-night we have in our midst, a band from Toronto, called the "Harmonic Hurricaneers." Amongst these is a D. M. or Doctor of Music, and other special good players. They will be at the Salvation Army to-night and to-morrow, to assist at the farewell services of Adjutant Alward who has just received his orders. The Adjutant has worked hard, both early and late, to help on the war here, and with very good success. Everyone should go and see him before he goes.

A Very Sudden Death.

The death of Mr. John McKim, of McDonnel street, occurred very suddenly, this morning, of heart failure. Mr. McKim was at work yesterday, as usual, in the Wm. Hamilton works and retired, last evening, without making any complaint. Upon arising this morning he was taken with a fit of coughing and lapsed into insensibility. His son, Robert, hastened to summon a physician. Dr. Clarke responded but on his arrival it was too late for medical aid to be of any avail and the old gentleman passed away a few minutes later. Particulars concerning the funeral will be given in to-morrow's issue.

Farewell Appearance.

"Alvin Joslin," with Chas. L. Davis in the title role, will be the attraction at the opera house next Friday night. The play abounds in ludicrous escapades, forming a pleasant relief from its exciting climaxes. The stage effects are ample and truthful, depicting high and low life in New York. This will be Mr. Davis' farewell appearance in Peterborough. Prices, 75, 35 and 50c.; two front rows reserved seats, 75c. Alvin Joslin's collection of diamonds, valued at $100,000, will be on exhibition at Clark & Gibson's jewelry store next Friday from 10 a.m., to 6 p.m.

METHODIST WOMEN'S MISSIONARY SOCIETY

MEETINGS HELD IN THE MARK STREET CHURCH.

A Large Audience of Lady Delegates in Attendance — Addresses — A Good Programme Presented — Mrs. Meharry's Report — A Successful Convention.

There was a large attendance at the Methodist Women's Missionary Society meeting last evening. Owing to the absence of Rev. W. R. Young, Rev. Mr. Beer took the chair. He said he was glad to see so many present. He thought it was an honour to see so many ladies present. As he happened to be in the convention for a few minutes he was highly pleased with what he saw and heard. The society was improving rapidly. It was organized fourteen years ago and it now had over twenty thousand members and these members had raised forty thousand dollars for mission work. In the Society the men greatly helped the women and vice versa, and they worked together with common interest in their Master's work. In the Bible special reference is made to the women in this work. It is said that the Lord gave the word, and great was the company of women who published it. So it was to-day. In conclusion he wished them every prosperity and success in their noble work.

There was a slight change made in the programme, which was as follows:—

Duet.....Misses Vina and Annie Belleghem
Recitation.....Miss Burnham
Missionary Exercise..Members of George street Methodist Band
Duet.....Misses Vina and Annie Belleghem
Recitation.....Miss Mark
Recitation.....George street Mission Band
Solo.....Mr. James Browne

Mrs. Campbell, of Hastings, gave a brief address. She said she had enjoyed the convention very much. She had done nothing but sit and listen to the programme, and now it was her turn to do her part. So in life, we must all bear a part of the burden. God doesn't want any man to say, as the selfish man does, "I will live to myself." Whilst he is doing this he is not carrying out God's law of love. The machinery of the Centennial Exposition, which was held a few years ago in the United States, was started by an unseen hand 100 miles away, which turned the electric button. Watt was stimulated to action by observing steam in a tea-kettle blow the lid off. John Wesley found out that the just shall live by faith, and he was called to preach the Gospel. Man is God's agent, through which he causes inventions to be made Then God says, "If the light that be in thee is darkness, how great be that darkness." The early church with all its faith could say "I came, I saw, I conquered." The Acts of the Apostles is full of the names of men who were fresh from the baptismal fire, and they consequently led lives of victory. They were the men who could, and did stand crucifixion and torture of all kinds, for their faith. That was the period of the rule of iron. It was in the dark ages that good Christian men were prevented from worshipping their God. The fight was fierce and long, which men led for Christian light and liberty.

Luther, in order to enlighten the people spiritually, translated the Bible out of the dead languages for them, and then they threw off the shackles of superstition. Our noble Queen of England, when asked to tell the secret of England's greatness, said "laying her hand on the Sacred Book." "This is the secret of England's greatness." Yet much remains to be done before we can crown our God, Lord of all. We have got to put down many evils which infest this age. For instance—the prize fight, the liquor traffic, gambling of all kinds and horse racing. We must try in the future to live more for God and less for self, than in the past. Truly the harvest is great and the labourers are few. Let us so represent Jesus as to lead others to the cross. The Foreign Mission is another branch of the work which is doing well. "Yes," you say, "but I could not leave home and friends and everything and go away to preach. Well, you can be the means of sending another one in your place, by giving some money and your prayers. We should ask ourselves how much do we owe to God for the privilege of being born in a free Christian country and Christian surroundings? Let us take this home with us and think and pray over it.

The musical part of the programme, also the elocutionary part, was well rendered, and the entire convention was an unqualified success.

The afternoon session of the annual meeting of W. M. S. opened with a very impressive devotional service on the ministry of the spirit conducted by Mrs. Walsh, of Millbrook. After reading minutes of the morning session a very cordial welcome was extended to the delegates by Mrs. Matchet, of Ashburnham, and pleasantly responded to by Mrs. Sexsmith, of Pontypool. A short study of the annual report followed, after which a most excellent paper on proportional giving was read by Mrs. Geo. Monro, of Peterborough. It was unanimously resolved by the meeting to ask for the publication of this paper in leaflet form by the literature and publication committee.

A solo—"All power is given unto Me"—by Miss Beer added much to the pleasure of the afternoon. An excellent and helpful paper on "Mission Band Work" was read by Miss Smith. This was followed by discussion. A very interesting letter from Miss Munro, of Japan, was read by Mrs. Kendry, for which the thanks of the society will be sent to Miss Munro.

The Question Drawer, presided over by Mrs. (Rev.) Campbell, of Hastings, was an interesting feature of the afternoon.

Mrs. Allum conducted the fellowship meeting.

The District Secretary was re-elected.

The invitation of the George street auxiliary, for the meeting of next year, was accepted.

A hearty vote of thanks was given to the ladies of Ashburnham for their generous hospitality.

A collection was taken, and the meeting was closed by Mr. Rae pronouncing the benediction.

SUMMER WOOD.

Dry Hemlock, Slabs and Edgings. THE RATHBUN CO.

NO CONSERVATIVE CANDIDATE YET.

Mr. Stevenson Retires and Still Holds On.

Last night the fourth meeting of the Conservative party within twenty-four hours was held to consider with Mr Stevenson relative to the candidature. Mr. Stevenson sent a letter which amounts to his retiring and still holding on, for it is understood that, though he has, as hinted in THE EXAMINER, been "provided for," and "more than provided for," as a member of the party says, he still insists on being a candidate. He evidently wishes to have his cake and eat it, too. Consequently the party is still at sea, and to try and reach port, a convention has been called for Wednesday next, 20th May, to consider and deal with the situation. An effort will be made to have the nomination square this time, and to checkmate the machinations of the "nest of traitors" in the local Conservative ranks. Who the candidate will be is only speculation. Mr. Bradburn is out of it. Mr. Stevenson has got his price for retiring but doesn't retire, and the nomination is between him and the proverbial "dark horse," unless Mr. Kendry consents.

THE HARMONY IN THE RANKS.

"In fact the Conservative party was never more united."—James Kendry.

If the wire-pullers of the Conservative party have so much difficulty in selecting a candidate, how can they expect the rank and file of the party to agree on voting for him when selected? If they can't select a candidate they naturally can't elect a candidate. The shilly-shally shuffling, intriguing and wire-pulling over the choice of a candidate has, a prominent Conservative estimates, already cost the party fifty votes in West Peterborough, and the policy of the Government will easily cost them the remaining 200 odd required to place the Government party in this riding in a minority. Does the machine expect that the party is going to swallow, at its bidding, any catch-as-catch-can candidate that may fluke the party nomination? A party that begins an election campaign by knifing each other at a nominating convention, cannot be expected to present a very bold front in that campaign. "How sweet and pleasant a thing it is to see brethren (political) dwell together in unity."

A Mother's Memory.

The mother is the wise one of the family in clothing matters. It may never have occurred to the father that the important ceremony of first communion for the boys is near at hand, but the mother knows all about it. She it is who is anxious to see her boys appear for the first time to have this blessing conferred upon them. We want the mothers to bring in their boys and look at our pretty little suits for the occasion. They are very neat and made either stitched or bound and in sizes to fit the little fellows from eight years upwards. MR. RICHARD HALL OPENS THE CAMPAIGN.

First Meeting at Montgomery's School House—A Good Attendance—Mr. Hall, Mr. Roger and Mr. Stratton Address the Electors—Mr. Newman, the Independent, Also Speaks—No One Present to Represent the Embryo Conservative Candidate.

Mr. Hall opened the election campaign last night by an encouraging meeting in Montgomery's school house, North Smith. The room was comfortably filled by the usual attendance of electors and the speakers of the evening were well received and the prospects are promising of a liberal support of the Liberal Candidate in this section of the riding.

Mr. —— Northey occupied the chair.

MR. ROGER'S REMARKS.

Mr. G. M. Roger stated that as they were aware the electors were being called upon to give an expression of opinion as to the way in which the government of this country had been managing their affairs for the past eighteen years. The expiring parliament was the longest parliament ever held in Canada, one year longer than was necessary and at an expense to the country of almost a million dollars and all for the purpose of endeavouring to fortify the government with the Manitoba school question, which should have been settled upon different lines long before. It was quite evident to the casual observer that the government party were afraid to appeal to the people at the proper time and they lengthened the parliament in the hope that they might be able to grasp at something to extricate them from the difficulties which their lack of administrative capacity had involved them in.

The people could not expect that a party whose leader was betrayed by his cabinet, whom the Premier described as a nest of traitors, would be able to carry on the government, when with actual mutiny in their ranks they lacked administrative capacity as well. He referred to the manner in which Sir Charles Tupper secured the leadership, condemning a subordinate official betraying his master and referred to the disintegration existing in the party, to the large number of Conservatives who were leaving that party and joining the Liberals for honest government, to the general extravagance which existed in all departments of the government, to the general condition of the country, to the divided policy of the party, and to the calibre of the men who represented them as leaders, none of whom, with one or two exceptions, were fitted for the positions which they occupied. He further referred to the National Policy, to the prosperous carriage industries and woolen industries, which had formerly existed in Peterborough, wiped out by a monopoly which gave two or three men the benefits of that industry in Canada.

In closing Mr. Roger predicted success at the polls for Mr. Hall.

MR. HALL SPEAKS.

Mr. Hall, who was the next speaker, said.

As you are all well aware, I have accepted the nomination of the Liberals to contest the representation of West Peterborough in the House of Commons.

You are also aware that I was an unsuccessful candidate at the elections of 1891, and now at the unanimous request of the Liberals of the riding and, I am glad to say, at the request of a large number of Conservatives who felt it their duty to oppose me at the last election, I have accepted the position of candidate. I have done so very largely against my personal inclinations, but I felt that this was a time for every citizen who has the welfare of his country at heart to do what he could do for the benefit of his country, and in view of the serious and expensive mismanagement of our national affairs, which has prevailed for the past fifteen or eighteen years, to assist in replacing the government, which has so mismanaged our national affairs, with an honest, capable and business like government. I do not claim to be an orator at all.—I am a plain business man, who has made business my life study, and with all modesty, I may, I think, submit, that having made my own business a fair success, I have some claim to being considered competent to assist in the management of the affairs of the country, and to have some claim to know what are the business requirements of the country. As a business man, I wish to submit one simple point to you to show the necessity of a change in the modes and results of conducting the business of the country; that fact is, that it requires the enormous sum of twelve million dollars every year to pay the interest on the national debt—a sum equal to a third of our revenue. Now I know that if I, in my business, was compelled to spend one third of my income in paying interest I should think that my business was in a very unsatisfactory, not to say ruinous condition, and I think you will say the same of the business of this country, which is in the state I have mentioned. It is to help to remedy such a condition amongst many others that I ask the assistance of the electors at this time; and I appeal to you, not as partizans, but patriotic Canadian citizens, having a common interest, with myself, in doing everything possible for the advancement of the interests of this Canada of ours, which has, with proper and economical Government, so great a future before it.

Continuing Mr. Hall said, that the two questions that are prominently before the public at the present time and upon which the public will be asked to give an expression of opinion are:

"Has the National Policy made you rich?" and "Is the Manitoba School Question being dealt with by the present government in a manner to give satisfaction?"

With regard to the former, he was quite satisfied that the condition of the country was never in a more depressed state than it is to day; that the farmers never found it more difficult to make ends meet, which can rarely be done now; that the labouring man can not get sufficient employment to keep him and his family in any degree of respectability and comfort, and that the manufacturer is handicapped by the many inequalities of the tariff.

With regard to the Manitoba School Question, he stated, that the policy of the Reform party had always been Provincial Rights—the right of each province to administer its own affairs. He was quite satisfied in his own mind that it would have been better for all classes in Manitoba had the advice of the Manitoba Legislature been followed, for investigation, instead of the remedial measure of coercion. He had no doubt that when the Liberals came into power, as they would, that the question would be removed from the political arena and that, Sir Oliver Mowat at the head of a commission, which would be able to arrange a mutual agreement that would do justice in the premises without prejudice to the majority or minority and without interference from the Ottawa combination. He hoped that the electors, irrespective of party, would give him their support in the present election. If elected, as he felt sure he would be, he would assure them that he would endeavour to represent them faithfully and with but the one object in view—the advancement of the interests of the constituency and of the country at large.

MR. NEWMAN'S ADDRESS.

Mr. Newman, who was present on behalf of his own candidature, that of the third party, occupied an hour in explaining his position, which was, as he stated himself, opposition to the Remedial Measure. He desired that the government of the Dominion should not co-erce Manitoba. "Hands off Manitoba" was his battle cry, and the settlement of the school question left to the province from which it sprung. The hand of the Romish hierarchy, he said, could be seen throughout the length and breadth of the land and it was time honourable men were elected to parliament who would do the business of the country without dictation from the clergy. He believed in the absolute separation of church and state, the religious instruction of the children to be left to their parents and the Sabbath school. He referred to the union of two parties in England to secure the overthrow of the Home Rule bill, and he thought that the time had arrived in Canada for both sides to unite to stay the hand that was dictating to governments. He said that he had been charged by Liberals with having been brought to Peterborough by the Conservatives, and the Conservatives were stating that he had been brought by Mr. J. B. McWilliams for the Liberals. He assured the audience that he had never met Mr. McWilliams until he had been introduced to him that afternoon and had never had any communication with him direct or indirect and in fact was unacquainted with that gentleman's personality until introduced. He was not the candidate of either party. He was the candidate of independent Liberals and independent Conservatives, who desire to elect a man to parliament who would carry out their views and their wishes and not a jack-in-the-box who would be swayed with party exigencies. He condemned Sir Charles Tupper's attack on Mr. Laurier, as a Frenchman and a Catholic. It was unworthy of the leader of a party to refer to Mr. Laurier in the terms which Mr. Tupper had used at Winnipeg. With regard to the Roman Catholics and their religion, he had nothing to say. It was only when they used their position unitedly to advance the interests of the church that he complained and if he was elected to Parliament he would deal out equal rights to all classes, irrespective of creed and nationality, and would grant special privileges to none.

He referred to Tupper's Ultramontane cabinet, and went into the details of the Manitoba School Question, and hoped that he would have the privilege of going more fully into the questions of the day at a meeting to be held later in his own interests. He condemned the expenditures of the Senate, which he termed a refuge for incurables.

MR. STONE SPEAKS.

Mr. E. B. Stone stated that the Conservative party in West Peterborough were in somewhat of a quandary. They had nominated a man who had been looking for the nomination, and who was seriously considering its acceptance, awaiting the promise of being provided for if he withdrew from the contest. It was a humiliating position for a party to be placed in—to see a candidate looking for office while holding the nomination in his pocket. The cry of race and creed was raised for the purpose of directing attention away from the misdeeds of the Government. If the country elected Tupper, Pa's son, nephew, sons-in-law, partner and the host of other relatives, who think that they own this country, would foreclose the mortgage which they appear to think they hold on Canada, upon which thing have been collecting a very high rate of interest in the way of fat offices since Confederation. His boast in England, of the two millions he had made out of the practice of his profession, was in keeping with the promises which he had made regarding the reducing of the expenditure and the population which would roll into Manitoba upon the completion of the construction of the C. P. R. but it was only in keeping with the way in which the business of the country was being conducted by the Government of the day. Had the Government discharged their duties faithfully and with only regard to the best interests of the country, there would have been no third candidate in the field in West Peterborough, and there would have been no Manitoba school question shattering the internal peace of our citizens, and being used as a means to retain a party in power. Had the Liberal party been in power when this question came up it would have been dealt with in a statesmanlike manner and not peddled about from court to court, arousing the latent prejudices of the people and for the purpose of creating political capital. It was true, as Mr. Newman had said, that the school question was one of the important questions of the campaign. Were the Liberals in power it would be an unimportant question. With men like Laurier and Mowat the rights of the Provinces would be respected and the matter settled in a business-like way and as amicably as Manitoba and Mowat settled the boundary dispute.

He said the policy of the Liberal party was the only correct policy to adopt. Great nations adopted conciliation rather than coercion. Large and important treats were being arbitrated upon instead of being settled by "club law," and he had no doubt but that it was a mistaken and anti-British policy to attempt to take Manitoba by the throat and say "you must" when Manitoba invites them to investigate into the facts. He had looked for an amicable and honourable settle, but it would never come through a party who had always used the School Question as a means to an end.

The general trade policy of the government was then dealt with by Mr. Stone, and its disastrous effects on the prosperity of the country, set forth in detail. The failure of that policy to keep in any respect a small percentage of its promises, was also pointed out.

He paid an eloquent tribute to the administrative ability and capacity to govern of Sir Oliver Mowat, who had joined with Mr. Laurier in the hope of securing to the people of this country an honest administration of affairs, such as Ontario had enjoyed during his long term of office. If the electors of this country returned the present administration to power they would in view of the past results of iniquitous misgovernment, deserve a bigger dose in the future. He hoped that they would give their support to Mr. Hall and secure his election.

Mr. Stratton stated that he agreed with Mr. Newman that honourable men should be elected to Parliament and one of the reasons why Mr. Hall had been selected by the Liberal party was that he was an honest, careful business man and the candidate of a party pledged to honest government. Mr. Hall did not appear before the electors as an orator, but he did appear before them as a man who was worthy of belief, whose word might be depended upon and whose voice might be heard as frequently in the legislative halls as that of the present members of either East or West Peterborough, but though it might be heard as often in Parliament, it would not be heard so frequently at the doors of the cabinet begging for offices for himself and relatives.

The public utterances of public men are their bond of fidelity to the people and it is upon the public utterances and acts of a government that they are to be judged.

Mr. Stratton then went into the promises of the government made to the people in '78, '82, '87, '91, and asked the electors if these promises had been fulfilled?

An Elector—"No."

Mr. Stratton—Nor will they ever be. It is not the policy of the Conservative party to carry out their promises. The opposite experience is the rule.

Mr. Stratton then took up the policy of the Conservative party as enunciated by Sir Charles Tupper, and that of the Liberals, and pointed out the advantages of the latter as compared with the "blow hard and do nothing" one of the Conservative party.

He pointed out the injurious effect of the tariff on the farmer as well as its injurious effect on the manufacturers and the workingman. He fittingly described the great steals which had been perpetrated in connection with the public works of the country, whereby immense sums in excess of the requirements of the public service were squandered or diverted into the pockets of contractors, to bob up again serenely in the "corruption fund" of the Conservative party.

The speaker dealt with the abuses of the superannuation system, the unsatisfactory constitution of the Senate and the rewarding of members, at the public expense, for slavish support of the Government, and appealed to the electors to support Mr. Hall and give the country the change which was so sadly needed.

The meeting, which was a very successful one, closed with cheers for the Queen and Mr. Hall, and a vote of thanks to the chairman.

The Fools Not All Dead Yet.

Even a blind man can see that more clearly than daylight, or else why should so many continue to use ill smelling, oily, and often useless preparations for the relief of pain, when a preparation just as cheap, elegant, more powerful and penetrating as Nerviline is, can be purchased from any dealer in medicine? Nerviline instantly cures aches and pains. Nerviline is the most efficacious remedy for internal aches and pains. Nerviline applied externally subdues the most intense pain almost at once.

THE doctor may be a good old man, but even so, medical examinations and the "local-application" treatment are abhorrent to every modest woman. They are embarrassing—often useless. They should not be submitted to until everything else has been tried. In nine cases out of ten, there is no reason for them. In nine cases out of ten, the doctor in general practice isn't competent to treat female diseases. They make a branch of medicine by themselves. They are distinct from other ailments. They can be properly understood and treated only by one who has had years of actual practice and experience in this particular line. This is true of Dr. R. V. Pierce, chief consulting physician of the Invalid's Hotel and Surgical Institute, at Buffalo, N. Y. Doctor Pierce's Favorite Prescription, for all derangements of the reproductive organs of women, has been in actual use for more than thirty years. It was originally sold with an absolute guarantee that it would cure every case, or that the money paid for it would be refunded. Its success has been so universal that this guarantee is no longer necessary. The "Favorite Prescription" relies now upon the thousands of testimonials from grateful and happy women, in all parts of the land, whose lives have been made worth living by its use. "Favorite Prescription" is sold by druggists.

Complete information regarding it, and testimonials from hundreds who have used it, are embodied in Dr. Pierce's Common Sense Medical Adviser, a standard medical work of 1008 pages, profusely illustrated, which will be sent free on receipt of 31 one-cent stamps to cover cost of customs and mailing *only*. This work is a complete family doctor book and should be read by both young and old. WORLD'S DISPENSARY MEDICAL ASSOCIATION, Buffalo, N.Y.

NEWS FROM OTTAWA

Mutual Fishing Rights in the St. Lawrence.

AN ACT TO AMEND THE ALIEN LAW

Passed by the New York State Assembly—Canadian Oarsmen May Now be Engaged by United States Sportsmen at the Thousand Islands—Other Notes.

Ottawa, May 11.—(Special)—The negotiations which have been pending for some time between Canada and the United States upon an amicable agreement under which there may be mutual fishing rights in the St. Lawrence, in the vicinity of the Thousand Islands, have been brought to a satisfactory conclusion. Mr. Costigan has been informed that the bill covering the agreement with Canada has passed the New York State Assembly, and is only awaiting the Governor's assent. The information comes through Mr. Vancleef, councillor at law of Poughkeepsie, who has taken a great interest in this matter. Mr. Vancleef states that the New York Senate and the House of Representatives have, in view of the Canadian concessions, unanimously passed a resolution asking Congress to amend the Alien Labor law by providing that citizens of the United States might employ foreigners and aliens as oarsmen or boatmen, to row, convey, or aid them while angling or fishing exclusively for pleasure in the waters of the St. Lawrence. Dr. Wakeham, who, on behalf of the department, made the arrangement with the Americans last summer, which now goes into effect, wrote Mr. Vancleef in the following terms to-day:

Ottawa, May 11, 1896.

My Dear Sir,—I beg to acknowledge with pleasure the receipt of your letter of the 1st inst., enclosing a copy of the bill covering the proposed arrangements between the State of New York and Canada as regards mutual fishing rights in the waters of the St. Lawrence at and about the Thousand Islands. I am directed by my Minister, the Hon. John Costigan, to say that he is extremely pleased to see that we have so readily agreed upon arrangements fair to both parties. It is particularly his wish that in all waters common to the two countries similar uniform regulations may be entered into. On the part of the Canadian Government, the terms of this present arrangement can be perfected without further legislation, except in so far as regards the matter of flues, and on this point the legislation necessary will be prepared for the next session of Parliament. Instructions covering the new regulations have already been given, so that, apart from a uniformity of penalty, the whole matter is arranged, as far as this department is concerned, and, pending such an interpretation or modification of your alien labor act as you suggest, no obstructions will be put in the way of your sportsmen in the Canadian waters covered by the arrangement. I hope that nothing may occur to mar the mutual arrangements which we have been instrumental in perfecting, and that these may be only the precursor of other and more extended agreements, which will cover the enormous fisheries in all waters common to the two countries. I think, with you, that it may be possible that further arrangements may be entered into with a view to the establishment of a national park on some of the islands between Kingston and Ogdensburg, and, though this is a question which it is not in the province of the department which I represent to settle, yet I believe I can safely say that you will find the Canadian Government as ready to do its share in furthering any proposal looking to the mutual advantage and good-will of the two countries, as they have desired to do in the matter which we have just arranged.

I am, dear sir,

Yours very sincerely,

(Signed) WM. WAKEHAM.

The following regulations will apply to the waters of the St. Lawrence between Kingston and Ogdensburg. The close season for bass, pickerel and maskinonge shall be from Jan. 1 to June 9; all bass under ten inches shall be returned alive to the waters; no one rod shall be allowed to take more than 12 bass in one day; all netting in waters between Kingston and Ogdensburg shall be prohibited, except it shall be permissible to seine minnows for bait.

It has been reported to the Postoffice Department that some uncertainty exists as to the proper rate of postage on school examination papers. Postmasters are therefore requested to note that the lowest rate at which they pass is one cent for two ounces. Prepaid at that rate, they must, of course, not contain any writing whatever of the nature of correspondence.

Sir Charles Hibbert Tupper was asked for an opinion to-day on the prohibition decision, and replied that the information obtained, so far as the decision was concerned, was far from complete and full. He would, therefore, not care to make any statement that might turn out to have been founded on wrong assumptions. He preferred to wait until the full text was received. This much, however, he was quite willing to say, that from the glance that he had taken of the matter, it appeared to him that workers in the cause of the prohibition of the liquor traffic would do well after this to bring their influence to bear on the local Governments, instead of agitating the issue as one entering into Dominion politics.

The Liberals are evidently hard put to it in connection with their campaign. Because the Colonial Secretary telegraphed his congratulations to Sir Charles Tupper, forthwith the Grit press reminded the Irishmen of Canada that Chamberlain is the enemy of Ireland. Scarcely had this done duty when Earl Spencer, who has been twice Lord-Lieutenant of Ireland, and was first Lord of the Admiralty in Mr. Gladstone's Home Rule Government, comes to Ottawa and tells the inevitable interviewer that he also is a personal friend, both of Sir Charles and Sir Charles Hibbert Tupper. It will now be in order for The Globe to ask for an explanation from Earl Spencer as to what he means.

Sir Frank Smith was in town attending a special meeting of the council, called by Mr. Costigan, before he departed for New Brunswick. The other Ministers present in addition to Mr. Costigan were Mr. Haggart and Mr. Desjardins. The principal business had reference to some informalities in connection with the issue of certain writs and it was found necessary to issue at least three new ones, those for Hants and for Shelburne and Queens, where the returning officers, being over the specified age, declined to act.

THE ONLY HELP,

A Victim of Bright's Disease for Many Years—Cured by Dodd's Kidney Pills.

Neepawa, (Special), May 4th.—Mrs. T. H. McKee, formerly of Listowel, came here as a last resort. Had suffered ten years with Bright's disease. Reported to be past help and dying. Her re-appearance on the street in apparent good health was a pleasant surprise. The explanation given was that her little boy had insisted that she should use Dodd's Kidney Pills, and prophesied that they would cure her. She says:—"From the first few doses I began to feel better, and after taking four and a half boxes I say it with heart-felt gratitude I am perfectly cured." Dodd's Kidney Pills is the only medicine in the world that has ever cured a case of Bright's Disease at such a stage.

THE BASEBALL RECORD.

Manager Buckenberger's aggregation enjoyed a good Sunday's rest, and like the good boys they are attended church, while Dan Shannon's Rawa were hustling to and from their native heath to trounce the champion Springfields. They say this hustle makes the ballplayer's life not a happy one, and puts him out of form for the fray; also that the correct way to keep in fighting trim is six days' play and a regular Sabbath rest. Well, the result yesterday over the Don was diametrically opposite. Rochester fielded perfectly, while Toronto erred inopportunely, and Hermann pitched out another victory by a majority of four unearned runs. Score:

Lost Her Hat.

Bloomer girl at restaurant—Waiter, this isn't my hat!

Waiter—Then some other young feller must have took yours, sir!

"Ten men out of a dozen are invalids," says a recent medical authority. At least eight out of these ten, it is safe to allow, are suffering from some form of blood-disease which a persistent use of Ayer's Sarsaparilla would be sure to cure. Then, don't be an invalid.

Captain Sweeney, U. S. A., San Diego, Cal. says: "Shiloh's Catarrh Remedy is the first medicine I have ever found that would do me any good." Price 50c. Sold by John Nugent, 399 George Street.

BUILT UP THE SYSTEM IN A WONDERFUL MANNER.

James A. Bell, of Beaverton, Ont., brother of the Rev. John Wesley Bell, B.D., prostrated by nervous headaches

A victim of the trouble for several years.

South American Nervine effected a complete cure.

In their own particular field few men are beter known than the Rev. John Wesley Bell, B.D., and his brother Mr. James A. Bell. The former will be recognized by his thousands of friends all over the country as the popular and able missionary superintendent of the Royal Templars of Temperance. Among the 20,000 members of this order in Ontario his counsel is sought on all sorts of occasions. On the public platform he is one of the strong men of the day, battling against the evils of intemperance. Equally well known is Mr. Bell in other provinces of the Dominion, having been for years a member of the Manitoba Methodist Conference and part of this time was stationed in Winnipeg. His brother, Mr. James A. Bell, is a highly respected resident of Beaverton, where his influence, though perhaps more circumscribed than that of his eminent brother, is none the less effective and productive of good. Of recent years, however, the working ability of Mr. James A. Bell has been sadly marred by severe attacks of nervous headache, accompanied by indigestion. Who can do fit work when this trouble takes hold of them and especially when it becomes chronic, as was, seemingly, the case with Mr. Bell? The trouble reached such intensity that last June he was completely prostrated. In this condition a friend recommended South American Nervine. Ready to try anything and everything, though he thought he had covered the list of proprietary medicines, he secured a bottle of this great discovery. A second bottle of the medicine was taken and the work was done. Employing his own language: "Two bottles of South American Nervine immediately relieved my headaches and have built up my system in a wonderful manner." Let us not deprecate the good our clergymen and social reformers are doing in the world, but how ill-fitted they would be for their work were it not the relief that South American Nervine brings to them when physical ills overtake them, and when the system, as a result of hard, earnest and continuous work, breaks down. Nervine treats the system as the wise reformer treats the evils he is battling against. It strikes at the root of the trouble. All disease comes from disorganization of the nerve centers. This is a scientific fact. Nervine at once works on these nerve centers; gives to them health and vigor; and then there courses through the system strong, healthy, life-maintaining blood, and nervous troubles of every variety are things of the past.

LIFE SAVED
By the Persistent Use of
Ayer's Sarsaparilla

"I was troubled for years with a sore on my knee, which several physicians, who treated me, called a cancer, assuring me that nothing could be done to save my life. As a last resort, I was induced to try Ayer's Sarsaparilla, and, after taking a number of bottles, the sore

began to disappear and my general health improve. I persisted in this treatment, until the sore was entirely healed. Since then, I use Ayer's Sarsaparilla occasionally as a tonic and blood-purifier, and, indeed, it seems as though I could not keep house without it."—Mrs. S. A. FIELDS, Bloomfield, Ia.

NO MORE SQUEAKY DOORS.

For the "Portal Harp" Produces Harmony in Lieu of Discord.

Here's a bit of news for the æsthetic contingent. Nothing is more trying to sensitive ears than the creaking of a door on its hinges; yet out of that noise sweet sounds may be evolved. According to London Music, this feat is accomplished by the invention of a door-harp, the sounds—and they are said to be most beautiful—being obtained by little balls striking the strings of a specially prepared instrument as the door is opened or shut. If the portal be opened abruptly, the balls fall irregularly against the strings, which resound in manifold accords, striking the ear now like æolian sounds, then like the distant ringing of bells. This harp has the additional advantage of being as easily played as a barrel organ.

Jean Ingelow, the Poetess.

It was reported a few weeks ago that Miss Jean Ingelow, the poetess, was dying, and much space was devoted in the newspapers to the charm of her personality and the beauty of her art. This rumor of the approaching demise of the delightful poetess was found to be quite false, for, although her health is feeble and her years advanced, she is certainly far from being in a dangerous condition. She is a curious character, and has a perfect horror of anything approaching publicity or notoriety. She

JEAN INGELOW.

lives with her bachelor brother in a quaint little house in Kensington, where she indulges in her special passion and pastime, the cultivation of flowers. Although her home is minute in size, the conservatories attached to it are worthy a mansion, and the roses which bloom all the year round in the glass-covered summer land are unrivaled in splendor of color and beauty of growth. Another hobby of Miss Ingelow's is birds. She has an aviary built out of the conservatory which in its turn opens into the drawing room, and nothing delights the old lady more than to set the birds free among the flowers and to watch them as she sits writing at her desk. Perhaps this taste for two of the loveliest things in nature has something to do with the freshness and youth that is a characteristic feature of her most successful poems.

Lady Beaconsfield's Serviettes.

Mr. G. D. Leslie, R.A., told Chums a story of Lady Beaconsfield which has, we imagine, the merit of being new:

I recollect once getting into conversation on a railway journey with a linen draper, who told me that when he was serving in a London shop a lady came in and asked for some satin. None being good enough, the lady volunteered the information that she wanted the satin for the purpose of making serviettes with it. The customer was Lady Beaconsfield, and she proposed to have parts of one of the speeches of her husband engraved in gold on the satin, which, when made into napkins, was to be used at a dinner party given to the most prominent members of the Conservative party.

Lady Beaconsfield, as is well known, was very proud of her husband, and no doubt the story is also true.

The "Splendid Paupers."

During the spring or early summer between 3000 and 4000 acres of the Countess of Warwick's Essex estate will be put up for sale by auction. The vast property, which includes Newenham Hall Farm, on which are three of the famous hills or barrows known as Bartlow Hills, where numerous antiquities have been found, will be submitted as a whole. But, anticipating the tendency of the times, the vendor has agreed, if not successful, to have it put up immediately afterwards in lots arranged, as far as possible, so that the tenants will have an opportunity of acquiring the freehold of their holdings.

The Possessor of Nelson's Breeches.

Miss Jane Douglas Roleley, who has just died at Swansea at the age of 86, was a daughter of the late Captain Roleley, who served with Nelson on board the Victory. A relic in her possession was the breeches worn by Lord Nelson at the battle of Trafalgar. Her grandfather kept the Mackworth Hotel at Swansea, where Nelson stayed, with the result that young Roleley entered the navy, and ultimately became possessed of the breeches.

HEADACHE.

A SIMPLE CURE.

As a sure cure for headache, whether caused by liver, stomach, kidney or nerve trouble, Burdock Blood Bitters is the most effective medicine known. It removes the causes of headache by restoring all the organs of the system to proper action and health. Doubts disappear in view of proofs like this :—

In the spring of 1891 I got a bottle of B. B. B. for my mother who had been troubled for twenty-five years with sick headache. I got it from Mr. W. Paxton Baird, of Woodstock, N. B., who gave me two other medicines to take home and let my mother take her choice. Fortunately she choose the Burdock Blood Bitters, and I returned the other bottles. She used it for three months, and has had no headache since. We are sure it was B. B. B. cured her, as she took no other medicine.

MY PRESERVER.

As Good a Dog Story as One Comes Across in a Dog's Age.

One illustration of the sagacity of my famous 18-carat dog Ben Hur will suffice. I went fishing one day and took him along. I rowed out on Staten Island Sound in a flat-bottomed boat and anchored about a mile from shore. Ben sat for more than an hour in the centre of the boat with a pained expression upon his features, now and then emitting a short, sharp cry, for which I could assign no reason, although I studied him carefully as I adjusted my bait between the intervals of fishing.

Gradually I became disgusted, as the fish refused to take anything but the bait, and I weighed the anchor and pulled slowly ashore. On reaching the sandy beach I sprang out; but, to my surprise, Ben Hur remained seated in a constrained attitude and with a doubtful look on his intelligent face. I called him, but he only emitted a low moan, which quickly changed into a howl of agony as I dragged the boat upon the beach. I examined closely and discovered that his tail was inserted into the circular hole in the bottom of the boat which is used to allow the water to run out when the boat is cleaned.

I saw it all. Somebody had removed the wooden plug from the aperture and had forgotten to replace it. Ben had noticed the deficiency at once, and, realizing that the boat would fill and sink, had promptly introduced his tail into the opening and saved my life! The poor fellow's tail had been so swollen by its long continued immersion that he was unable to withdraw it, and so tender that contact with the sandy beach caused him great suffering. I turned the boat on its side and tried to help him remove his caudal fixture, but it was impossible. I saw also that the fishes had been at it, and that accounted for his piteous squirming at times. I took a large stone and knocked the board out of the boat's bottom, and Ben carried it up to the house, where I placed him before the fire, and he sat there patiently until the tail had shrunk to its usual size, when he easily withdrew it, little damaged by the experiment. Since then I have cherished him as my preserver, and he has grown so old and toothless that we now feed him only upon chicken or sweetbread croquettes.—Walter McDougall, in New York World.

An Interruption.

Col. Gordon, commandant at Fort Myer, was relating a string of reminiscences of his western campaigns to a group of friends in the House restaurant a short time ago, and was telling his hearers how on one occasion, in 1874, the civil authorities of Salt Lake City had arrested a number of his troopers for violation of the municipal ordinances.

"These men," said the colonel, "were usually certified as deserters from the army, until one day I found a number of them working on a chain gang in the streets. The matter was laid before the war department, and we were authorized to take the men. A demand was made on the city authorities for their surrender, and the demand was curtly refused. We were determined to carry our point, however, and a squad was detailed to take them out."

Here the colonel lit a cigar, and blew out two or three puffs of smoke before resuming.

"When I broke the Salt Lake City jail," he continued; but before he could tell the rest, Tom Murrey interrupted him.

"On what side of the jail were you, colonel?" he asked in sober earnestness.

For a few minutes there was such an uproar of merriment that the colonel had difficulty in recovering the thread of his story.—Washington Post.

FORCE OF HABIT.

London People have become Used to the Great Specific Remedy.

London, May 11th.—The despatch from Detroit with reference to the cure from Bright's disease and blood poison of Mr. Langley of this city by the use of Dodd's Kidney Pills, has recalled the wonderful facts of the case to the citizens, among whom Mr. Langley is well known. It has reminded them that Mrs. Langley, among others, also made an equally wonderful recovery. The use of the pills, however, has become so universal here, and there have been so many instances in which they have been used with beneficial results that a similar case would hardly excite as much interest now as it did then when the medicine was less known.

The Old Man's Plea.

"Son-in-law," he said, as he called him into the library and locked the door, "you have lived with me now for over two years."

"Y-yes, sir."

"In all that time I haven't asked you a penny for board."

"N-no, sir."

"In all your little family quarrels I have always taken your part and decided in your favor."

"A-always, sir."

"I have even paid some of your bills."

"Y-you have, sir."

"And in every way helped you to get along."

"Y-you have been very kind, sir."

"I have tried to be, my boy, and I think you appreciate it."

"I—I do, sir."

"Then the small favor I am going to ask will no doubt be granted"

"It will, sir."

"Thanks. Kindly tell your mother-in-law that the seat checks for the French ball, which she picked up in my room this morning, were dropped out of your pocket, and we'll call it square!"—Truth.

THE WHEEL.

The general tendency to lightness in all things pertaining to the construction of bicycles has caused the cycling public partially to lose sight of the highest advantage to be derived from the use of the pneumatic tire. When pneumatics were first used, a full two inch tire was considered none too large. It was not necessary to pump it to extreme hardness in order to preserve either the tire or rim of the wheel, and its wide track and great resilience imparted to the rider a sensation of floating along in the air with a delightful ease never dreamed of in the earlier days of solid tires. For road riding a full two-inch tire is none too large. The larger size adds somewhat to the weight of the machine, but it requires relatively less propelling force to drive it over the road, notwithstanding. The average tire of to-day is one and five-eighths inches in diameter. This does very well, but it has not the elegant riding quality of the two-inch tire. Many riders who prefer to have their wheels as light as possible, ride with inch and a half tires, which, when pumped to absolute hardness, are really little better than would be wooden tires covered with sheet rubber.

On Friday next, the clubs comprising the thirteen districts of the C. L. A. will meet to schedule games in connection with the respective district championships. Since the districts have been rearranged a number of new clubs have been organized, which not included in the list already published. The secretaries have been instructed to permit all the new comers to participate in the scheduling of games.

THE BASEBALL RECORD.

The Syracuse Stars upheld their reputation of being fast fielders in the game yesterday, and, besides, batted opportunely. Their hit-and-run system was very prolific, as seven hits, three errors and three bases on balls yielded six runs. Egan, especially, was agile on the bases, once scoring on a passed ball that rolled only six feet away. Mason kept the hits well scattered, Freeman getting three of the five. The Torontos were never dangerous, not a man getting past second base. Stuart has been relieved of the captaincy. Lutenburg, accepting the honor. Score:

Toronto	.....	.....	0	0	0	0	0	0	0	0—0
Syracuse	....	.....	0	1	2	0	3	0	0	0*—6

Earned runs—Syracuse 2. First base by errors—Toronto 2, Syracuse 2. Left on bases—Toronto 6, Syracuse 5. First base on balls—Off Mason 2, off Moran 3. Struck out—By Moran 1. Two-base hits—Freeman, Smith (Syr.). Stolen base—Egan. Double plays—Egan to Moss to Carey, Carey to Egan to Carey. Hit by pitcher—By Moran 1. Passed ball—Boyle. Umpire—Gaffney. Time of game—1.20. Attendance small.

Men and Boys of Peterborough

Can save almost half from the usual cost of a suit of summer clothes by coming to Gough Bros. this week. We are determined in swelling the size of the May sales; and whilst the reliable character of our goods will not in any way be discounted, the prices have been dropped to save big money for all who will share in the transactions of this store this week.—GOUGH BROS.

NORWOOD NEWS NOTES.

From our own Correspondent.

R. Smart, who was employed as clerk in Rutherford's drug store, left last Saturday for Trenton where he has secured a position.

Messrs. F. W. Ashe and J. B. Pearce made a business trip to Coe Hill this week.

Miss Powell, of Keene, is the guest of Miss Clark this week.

Miss Ann Carmichael and her brother, Grant, of Orillia, are visiting at the home of J. B. Pearce this week.

Mrs. H. G. Buck set a gang of men at work on the rink this week. It is to be roofed with metallic shingles and the inside will be fitted up for a concert hall.

The committees having charge of the arrangements for the 25th of May are putting forth every effort to make the day a success.

Mrs. Caldwell and Bert Hawey, of Toronto, have been secured to sing at the concert in the evening of the 25th.

George Cummings left last week to occupy a situation in Flesherton.

H. Andrews, of Young's Point, spent Sunday visiting his parents here.

J. Nichol, who has been attending the school of Pharmacy in Toronto, is home for his holidays.

Last Saturday the furniture stock of P. A. Minaker was sold at public auction.

P. Cuffe, of Tweed, was in town this week.

McKellar Bros. intend moving to——— next week.

I. D. Taylor was in Peterborough last Monday, making farewell calls before he leaves for the west.

Mrs. Dr. Ford is visiting her daughter, Mrs. J. M. Jory, of Bloomfield, this week.

Miss B. Scott has returned from her visit to Toronto.

Last Monday evening the Board of Education met in the high school, and the following business was transacted:— The minutes of the last meeting were read and adopted. The chairman of the executive reported that since the last meeting of the board, owing to illness, Mr. Hill, third assistant in the High School, had sent in his resignation, which the executive had thought best to accept, and they had advertised for a teacher to fill the vacancy, with t . result that Mr. A. Dundas had been employed at a salary of five hundred dollars per year.

Moved by Mr. Brackenridge, seconded by Mr. Webster, that the action of the executive in the above case be accepted.—Carried.

An application from R. Weir, for the position of assistant during the Model term, was laid before the board.

A communication was received from Miss Brighty, asking for an increase in salary.

Moved by Thos. Rork and P. W. Stevenson, that Miss Brighty's salary be raised to $300 next year.—Carried.

Moved by Dr. Ford and W. H. Brethen, that Miss L. Lawis be appointed assistant examiner at the next entrance examinations.—Carried.

An account from Mr. F. E. Perney, of $4.75, for express charges and presiding over recent Art School examinations, was brought before the board.

Moved by Dr. Ford and Mr. Brackenridge, that the above account be paid.—Carried.

A new lot of books, by many celebrated authors, such as Henty, Ballantyne, Oliver Wendell Holmes, Carlyle, Goldwin Smith and Kingsley, have just been received at the Public Library.

Next Sunday a collection in aid of the persecuted Armenians will be taken up in the Presbyterian church here.

A woman never really knows the meaning of happiness and content until she is the mother of a healthy, happy child. The health of the child depends on the health of the mother, both before and after birth. Most all of women's weakness and particularly the weakness that most strongly influences the health of children, comes from some derangement or disease of the distinctly feminine organs. Dr. Pierce's Favourite Prescription will cure troubles of this nature. It should be taken regularly by every woman during the entire period of gestation. It gives strength to all the organs involved, lessens the pains of childbirth, and insures the health of both mother and child.

Send 31 one-cent stamps to cover cost of mailing only, and receive free a copy of Dr. Pierce's Medical Adviser. Address,—World's Dispensary Medical Association, Buffalo, N. Y.

Mr. E. W. Hazlett, Reeve of Chatham township, Kent county, Ont., says: "My daughter has been very weakly for some years; she was very pale and always felt tired; she was prevailed upon by a friend to take a box of Miller's Compound Iron Pills. I must say it was a good investment; she at once began to grow stronger and is now quite well." Sold in Peterborough by Wm. Madill, druggist.

BENSFORT.

(From Our Own Correspondent.)

The mosquitoes have again made their appearance. They seem to have been well taken care of during the winter, as they are large and fat and a good many would weigh a pound.

The majority of the farmers are done seeding. The prospects for a good crop are favourable.

Several of our local politicians are anxiously reading the papers for news of the coming election, and are selecting points in favour of their candidates.

Several of the younger members of the population may be seen almost every night enjoying a ride on bicycles. All kinds are represented, from the original bone-shaker to the latest up-to-date pneumatic. The roads are in excellent condition for wheeling now.

Mr. Thomas Armstrong, our enterprising storekeeper and postmaster, has got in his stock of goods for the summer trade. He has a rig on the road gathering hen fruit and reports business as flourishing. Tom is a hustler in every sense of the word.

The Bensfort cheese factory is again in operation. With Mr. Green as cheese-maker and his brother as assistant they intend to do a thriving business this summer. Mr. Percy Rutherford, the enterprising proprietor has a large stock of pigs which he intends feeding for the several buyers who visit this section of the country.

By the way how far does the corporation of Bensfort extend? We have the Bensfort bridge, the Bensfort Methodist church and the Bensfort cheese factory, all within a radius of from one to three miles from the centre of the town. We will soon have to incorporate Centreville as a suburb and apply for a charter to erect an electric light plant and build a street railway if it continues to grow so rapidly as it has done lately.

APSLEY.

A fire in Apsley on Saturday burned down the house occupied by Mr. Smith, also the house, blacksmith and carpenter shops and stables of Mr. James Lindsay. The neighbours had also hard work to save Mrs. Brown's big store. If the wind had come from the north the whole village would have been burned down. While Mr. Alfred Smith was at dinner the roof took fire from the stove pipe. Fred. Bullied saw it and gave the alarm. They got out all the furniture. Rev. Canon Harding had a mortgage of three hundred dollars on the house and there was no insurance. We do not know if the owners of James Lindsay's building had any insurance. Mr. Smith was burned out about two years ago and lost everything at that time.

Impoverished blood causes that tired feeling. Hood's Sarsparilla purifies, enriches and vitalizes the blood and gives vigor and vitality.

Five Dollar Facts.

There is more than pleasure in having your suits made to order at Gough Bros., the Wonderful Cheap Men—there's economy, too. While the backbone of our business is superior Ready-made Clothing, keep in your mind that Ordered Clothing is a strong leader. To still further demonstrate to fine dressers that superiority and economy go hand-in-hand here, we give a few prices as an index of our suits made to order:—Gentlemen's Fine Light Tweed Suits, $12.75; Serge Suits, $13.50; Black Worsted Suits, $15.00. So many new faces greet us—men who never bought here befors—and compare the dressy style of our own tailor-mades with what they have been accustomed too, and can see clearly a full $5.00 saving in their favour. Duncan Cameron is our cutter, who takes the greatest pains to please you.—GOUGH BROS., the Wonderful Cheap Men. d

First Communion BOYS' SUITS

Parents:—

You whose Boys are preparing to go up for their First Communion, don't say that "anything is good enough for a boy." You surely will not take that attitude towards your boy, and so cut him off from one of the manliest of virtues—personal pride, not conceit. If honest and fine conversation is good for your boy, why not honest, decent and fine clothes?

Does he not, at his young and eager age, absorb the character of the surroundings you place him in more than he will ever again in his life? Think again: Of course you are proud of your boy—of HIM, not of his clothes. Your satisfaction with him increases, when he is well dressed. It is more intense if economy is added—not the economy that keeps you worrying to save a penny by making his little suit yourself, when the Little Prices we have secured for you, will save you every penny you can possibly save by the hardest of home work.

Let us help you to surround your boy with honest, strong and fine Clothes, Hats, Shoes, Furnishings. We can help you by selling outfits cheaper than you can make them at home. We want you to bring in the boy and look at these suits. You can appreciate their good points. We have copied the Paris and London styles, have taken especial care in selecting the garments, and have a range of qualities and prices to suit everybody.

Three-Piece Suits.

These suits are very neat and pretty, made either stitched or bound. You can see for yourself they are well made—we know they are. Good cloth, good thread, good buttons, good work.

Two-Piece Suits.

Very suitable for communion. On that account we have even put more clothing value into them than in our regular make. There is something just a little better about the style and finish.

WINGHAM WHITECAPS

Sentenced for the Attack on William Fields.

THE MANSLAUGHTER CASE CLOSED

Goderich Court Room Crowded to the Doors—Prisoners Plead Guilty of Assault—Four of Them Sent to Penitentiary and the Other to the Central Prison.

Goderich, Ont., May 13.—Court opened this morning before His Lordship Chief Justice Meredith. The Wingham case, in which Charles Manser, Robert Harrison, Albert Martin, Thomas Montgomery and George Phippen were charged with manslaughter, was opened and the court room was crowded to the doors. In selecting the jury the Crown challenged thirteen and the defence six.

The Crown counsel, Mr. Eudo Saunders of Toronto, opened by outlining the case to the grand jury, after which Thomas Fields, son of the deceased, was called to give evidence. The testimony of this witness was very strong against all of the prisoners, particularly against Harrison, who, he swore, held a pistol to his head on the evening of the outrage. He recounted the circumstances that occurred and the manner in which his father had been assaulted by the mob. The morning after the assault, witness met Harrison, who told him he was sorry for what had occurred, but thought it better that the elder Fields should leave town for a week or two until the feeling against him had subsided. Witness told this to his father and drove him to Belgrave, where he took the train for London.

Cross-examined by J. T. Garrow, Q.C., witness admitted that Fields was a drinking man, and had at times suffered from rheumatism in his feet.

An effort to investigate the moral character of the deceased was not allowed by the court to be gone into fully. It was admitted by witness that the prisoners were all respectable citizens, and with one exception married and fathers of families. Thus far some seven witnesses have been examined.

While the case against the prisoners was proceeding an agreement was arrived at by which the case was taken from the jury, the prisoners having agreed to plead guilty to assault, with intent to do grievous bodily harm.

The plea being accepted, His Lordship sentenced Robert Harrison and George Phippen to three years in the provincial penitentiary; C. Manson and Thomas Montgomery to two years in the same institution, and Albert Martin to six months in the Central Prison.

SYNOD OF TORONTO AND KINGSTON.

The Report on Sunday Schools Shows That There are 41,498 Scholars Enrolled.

Collingwood, May 13.—The Synod of Toronto and Kingston resumed business this morning at 9 o'clock. Rev. J. F. McLaren, who was elected moderator last evening, presided at the sederunts held to-day. Rev. A. Gilray, J. Somerville, D.D., H. McNabb, B. D. Fraser, M.A., D. L. McRae, Ph.D., and Mr. R. Gibson were appointed a Nominating Committee to strike the standing committees.

A special committee, with Rev. D. D. McLeod of Barrie convener, was appointed to hear the appeal of Rev. W. A. Duncan of Sault Ste. Marie from the decision of the Presbytery of Algoma. Mr. Duncan protested against the rearrangement of the missions in the vicinity of Sault Ste. Marie made by the Presbytery. The committee sat during the afternoon and heard evidence on the case.

The action of the Whitby Presbytery in appointing an elder moderator was brought up, and after a discussion of some length was sent on to the General Assembly.

Rev. Dr. Robertson of Winnipeg made a very enthusiastic and encouraging address on the progress of the mission work in the Northwest, for which he was voted the thanks of the Synod.

A somewhat lengthy report on the Sunday schools was presented by Rev. W. Farquharson. A glance at the report shows the extent of the work of the schools in the bounds of the Synod. There are 41,498 scholars enrolled in 459 schools and ministered to by 4746 officers and teachers. The report was ordered to be transferred to the clerk of the General Assembly.

At 4 o'clock the Synod adjourned to accept the invitation of Manager Burton of the North Shore Navigation Company for a trip around the bay on the steamer City of Midland. On the return trip a vote of thanks was tendered to Mr. Burton.

Lindsay was chosen for the place of meeting in May, 1897.

At the evening sederunt the committee reports on the books of the different Presbyteries were presented and agreed to. The Synod will probably conclude their labors to-morrow evening.

BISHOP DUMOULIN NOW.

The Popular Toronto Prelate Will Accept the Honor Conferred

Hamilton, May 12.—(Special.)—Canon DuMoulin is now Bishop of Niagara. The Synod received a telegram from New York about 7 o'clock announcing that he had accepted his election, and the news was received with much enthusiasm. His consecration will take place about June 1, and the Synod will meet on June 24. Resolutions expressing satisfaction at Canon DuMoulin's acceptance and to make arrangements for his reception were passed.

The Standing Committee will make up the deficiency to the $75,000 endowment fund, the interest on which goes to the Bishop, and $2000 of the $4000 deficiency was guaranteed this evening, which is an evidence of the general approval of the election of the new Bishop. A committee was appointed to draft a memorial to Bishop Hamilton.

John Philip DuMoulin was born in Ireland and received his education in England. He was curate in St. James' Church, Montreal, from 1860 to 1872. He then went to Galt for a short time, and then became incumbent at St. Thomas, Hamilton. In 1875 he became rector of St. Martin's, Montreal, and in 1883 was appointed canon of St. James'.

In 1891 the degree of D.C.L. was conferred on him by Trinity University.

GOT THEIR DEGREES.

Honors Conferred Last Evening on Successful Baptist Students of McMaster University.

Toronto, May 14.

Commencement exercises of McMaster University were held last evening in Walmer-road Baptist Church. Chancellor Wallace, assisted by Prof. McKay, conferred degrees on the undermentioned graduates:

B.A. (ad eundem), on Arthur Baker, William Hunter Fursol and Alexander Robertson McDonald.

B.A. (in course)—Archibald Gillies Baker, Hawyerville, Que.; Llewellyn Brown, Belmont; Wallace Patten Cohoe; Scotland; Archibald Darroch, Arkwright; Mary Elizabeth Dryden, Brooklin; William Findlay, Toronto; Samuel Thomas Foster, Pembroke; Andrew Imrie, Brockville; Albourn Newcomb Marshall, Bridgetown, N.S.; George John Menge, Toronto; John James McNeill, Paisley; Horatio Hackett Newman, Toronto; James Baxter Paterson, Montreal; Canby Edwin Scott, New Sarum; George Nowell Simmons, Ronson, and John Charles Sycamore, Wmtby.

M.A.—Charles Aubrey Eaton (A.E.), James Ten Broeke (A.E.), George Herbert Clarke, George Cross and Philo Kilborn Dayfoot.

To Lyman Stanley Hughson's name is now affixed the degree B.D., and to the following, B.Th.: Carson John Cameron, Tiverton; William Wardley McMaster, Toronto; Bert Ward Merrill, Hartford; James Josiah Reeve, Guelph; Edward John Stobo, Quebec; and Alexander Robertson McDonald (T.B. C., 1885), Lakefield.

Besides the above degrees, diplomas were presented to the following students in theology: William Thomas Bunt, Hampton; Andrew Fuller Hammett, Mount Albert, and James William Kirkpatrick, Brownsville.

SPAIN LOSING HER GRIP.

The Spanish Volunteers Now in the Field in Cuba are Absolutely Useless—Insurgents are Well Supplied.

Madrid, May 13.—A despatch from Havana to The Imparcial says the Government troops in Cuba are being reorganized, but that none of them can be spared to conduct operations against the rebels in the interior of the Province of Pinar Del Rio, because of the risk that the towns will be burned by the insurgents if the garrisons are withdrawn. Twenty additional battalions or reinforcements for the Spaniards are urgently needed. The despatch further says the volunteers now in the field are absolutely useless. The fact that many expeditions in aid of the Cubans were successful in landing in Cuba during the month of April is suppressed by the Government. The insurgents are well supplied with munitions of war.

In a recent interview with a press representative, the despatch adds, Capt.-Gen. Weyler was very reserved in his expressions, but from what he did say, the reporter gathered that he regretted that he had not shot the Competitor prisoners, especially the Cubans, for indulging in derisive remarks in the presence of the court before which they were arraigned.

A cablegram from Madrid says: Gen. Weyler's resignation, which had been sent to the Home Government, has been withdrawn. The El Dia says Weyler is now in favor of postponing the executions, but is opposed to a pardon being granted.

Britain and Germany Object.

London, May 13.—A despatch received here from Shanghai says that the British and German Ministers at Pekin have protested against the action of Russia in occupying part of the foreshore at Chee Foo, contrary to treaty rights.

PATERSON AND HARDY

Magnificent Liberal Demonstration in Brantford.

MANUFACTURER AND WORKINGMAN

Cheer Liberal Principles as Expounded by Two of Their Ablest Exponents—Canadian Nationalism as Opposed to Corruption and Tupperism.

Brantford, May 13.—A scene which should serve as an object lesson to the people of Canada and an inspiration to the Liberal party was presented to-night on the occasion of the demonstration in honor of Mr. William Paterson, who, after having been returned six times to Parliament, is again the candidate of the Liberals of South Brant. It was an assemblage of manufacturers and workingmen, cheering Liberal principles as enunciated by two of their ablest exponents, and giving a flat contradiction to the blue-ruin prophecies of Sir Charles Tupper and his followers as to what will happen if the Government be defeated. Industrial Brantford never had a better representation than at the great meeting held in the opera house to-night, as the following list of a few of the prominent men on the platform will show: Messrs. Charles H. Waterous, president of the Waterous Engine Works Co.; William Buck of Buck's Foundry; E. L. Goold of the Goold Bicycle Company; J.E. Waterous of the Waterous Nail Company; R. M. Fullerton of the Snowdrift Company; John A. Schultz of the Schultz Manufacturing Company; Henry Yeigh of the Goold, Shapley & Muir Co.; M. Schuler of the Brantford Stoneware Comany; W. E. Wisner, Franklin E. Grobb of the Massey-Harris Company; D. B. Wood, of Wood Bros., White Flour Mills Company; Frank Cockshutt, president of the Board of Trade. The chief speakers were Hon. A. S. Hardy, Commissioner of Crown Lands, and Mr. Paterson, and never were they more effective nor better deserved the cheers of a delighted and enthusiastic audience. The chairman was Mr. W. E. Finn, president of the Brantford Liberal Association.

Before opening the meeting the chairman invited Mr. Henry, the Conservative candidate, or any gentleman representing him, to take a seat on the platform. Mr. Henry was not present, nor was he represented. Mr. Finn expressed his gratification at seeing before him so many people, and particularly so many of those veteran Liberals who had long borne the brunt of the battle in South Brant. When he alluded to the possibility of Mr. Hardy becoming Premier of Ontario upon the translation of Sir Oliver Mowat to a wider sphere of activity, there was great enthusiasm. The mention of Mr. Paterson's name provoked a second cheer. Dr. Secord, president of the South Brant Liberal Association, and one of the best-known citizens in this disthict, spoke briefly before the two lions of the evening were called upon.

When Dr. Secord alluded to Mr. Laurier a wild burst of enthusiasm betokened the warm feeling of the people towards their leader. Mr. Laurier, he said, was fighting for Canadian nationalism as against the forces of corruption and Tupperism. The Liberal policy meant expansion and not restriction of trade, conciliation and not coercion.

It was some moments before Mr. Hardy was able to respond to the invitation of the chairman to address the meeting, so prolonged was the demonstration in his honor. Mr. Hardy said that no one had pressed upon Sir Oliver Mowat more strongly than he the advice to consider thoroughly the step that he was about to take in entering the campaign, for no one would feel his loss more than he (Mr. Hardy) would. To know Mr. Laurier was to love him, to be acquainted with Mr. Paterson was to like him. The Liberal party was never more united, it never had a better cause, and South Brant never had a better man. How about the Conservative party? Internal strife, internecine conflict, disorganization from the Atlantic to the Pacific, notably in Ontario and the West. Greater disorganization had never been found in their ranks within the memory of man. Mr. Hardy commented upon the significant fact that all the so-called independent newspapers in Toronto have turned their backs upon the Tupper party and left The Mail and Empire alone to defend it. In the great Conservative city of Toronto, the political Mecca to which all Conservatives looked, not to pray but now to curse, only one candidate dared to stand upon the platform of the Conservative party. Messrs. Osler and Clarke in West Toronto had repudiated the platform, and Mr. Coatsworth in East Toronto had been nominated to support Sir Charles Tupper by a convention composed, not of freely-chosen delegates, but of the Conservative Association. Mr. Hardy mentioned among those who had deserted Sir Charles the following: E. F. Clarke, E. B. Osler, W. F. Maclean, Clarke Wallace, D'Alton McCarthy, Lieut.-Col. O'Brien, Dr Sproule, Mr. McNeill, Lieut.-Col. Tyrwhitt, E. E. Sheppard, J. N. McKendry, Dr. Nesbitt. John Hewitt, Dr. Thompson and ex-President Richard Armstrong of the Conservative Association.

Mr. Hardy commented on the abortive session, which had added an annual charge of about $40,000 upon the people, and contrasted the management at Ottawa with that of Ontario. The Government of Ontario had managed to transact the business of the province for twenty years without flying at each other's throats or calling their Premier a blamed fool. Proceeding, he recalled the time when, by common sense and a spirit of conciliation, the boundary dispute between Ontario and Manitoba had been settled amicably, and closed by resenting the attempt of Sir Charles Tupper to arouse race and religious prejudices by speaking of Mr. Laurier as a French-Canadian and a Catholic. He described Mr. Laurier as the plumed the hero of the French-Canadians, the hero of the RFrench-Canadians. They stood by a hero, and they had singled him out as the one man of their race who must be honored above all others by his compatriots.

MR. PATERSON.

THUBSDAY, MAY 14, 1896.

PROBLEMATICAL PROSPERITY.

Sir Charles Tupper is wise at times. While his supporters are quoting elaborate and carefully cooked statistics to prove that the country enjoys bounding prosperity, and when the average elector has only to put his hand in his pocket for an answer, Sir Charles is very wary. In proving that the country enjoys great prosperity, he gives no figures, but tries his favourite policy of bulldozing, by simply asserting that the prosperity of Canada is so self evident that there is no need of statistics. His simple ipse dexit does it. In his manifesto to the electors Sir Charles says:

"From 1867 until 1878 we made slow and uncertain progress. Something was wanted to give effective and general stimulation to the life of the Dominion, and that something was found in the National Policy. It was my privilege to be directly associated with its introduction and development, and in the light of results so self-evident as not to require statistical corroboration as this time, I ask you to assist me in keeping its fundamental provisions intact."

We haven't the same aversion to statistics as Sir Charles Tupper, and will submit a few which will serve to show why Sir Charles, in his own interests and that of his party, ignores the value of figures. From 1871 to 1881, including the whole period of the Mackenzie administration, the population of Canada grew from 3,635,924 to 4,324,810, an increase of 688,886, or nearly 19 per cent. From 1881 to 1891, during all of which time the N.P. was in force, the population grew from 4,324,810 to 4,833,239; an increase of 508,429, or 11 3-4 per cent. In the latter period the increase in Sir Charles Tupper's own Province of Nova Scotia was 2 1-4 per cent., as against 18 1-2 per cent. in the previous decade; and the population of New Brunswick and Prince Edward Island remained stationary.

The total expenditure of the Dominion was $13,486,092 in the first year of Confederation, and at the end of five years it had only increased to $17,599,468, with surplus revenue every year. Before going out of office in 1873, the Conservative Government had increased the estimates and voted an expenditure of $28,316,316, and in the last full year of Mr. Mackenzie's term, the expenditure was only $23,508,158. Then the Conservatives returned back to office and introduced their high taxation policy. In 1893 the expenditure reached its maximum of $39,011,612 and last year it was $38,132,005, with a deficit of $4,153,875.

Do not these figures, which are taken from official blue books, show that the National Policy of high taxation, if it has produced prosperity, that prosperity is of a brand properly labelled "blue ruin."

The subsidized organs are very fond of hurling the charge of preaching "blue ruin" against the Liberals. The Liberals had much rather lie under the imputation of "preaching blue ruin" than under the charge, which fits the Government, of practising blue ruin. Do we expect the auditor of accounts to be willing to be accused of blue ruin pessimism because he shows that the accounts he is auditing show a badly managed business? And when the Liberals in the interests of the country examine the public records and discover damning evidences of mismanagement and painful evidence of the national business running behind, if they were to hold their peace the very stones in the Langevin block would cry out.

AWAKE, ARISE.

Timely Words to the Apathetic Section of the Electorate.

The Montreal Herald, under the title of the "Sleeping Section," prints the following timely words:

Mighty as the power of wrongdoing is potent to wreck and destroy both national and individual life; there is another force, not so much thought of—and therefore the more dangerous—which is equally destructive of all true life, and that is, failure to do right. The worst and most brazen vagabond may detest to be branded as such, whilst the most sanctimonious and strait-laced may calmly omit a duty and not feel the slightest twinge of a hypersensitive conscience. The commission of wrong is denounced in thunderous eloquence from the pulpit, and by pens charged with earthquake and steeped in flame. The people are wideawake to this side of the question; but the other affords so many cosy nooks wherein one can pose as a saint and live, live "t'other thing," that it is not much dwelt upon. "We have left undone things that we ought to have done," words taken from a liturgy that voiced a nation's needs in troublous days, ought to be imprinted on the minds of all at this time, for the reason that they point out a national weakness.

We are a young people, but not too young to take our place amongst the nations of the earth; already scrape of Canadian history are beginning to find their way into the text books of foreign lands across the sea. Stories of our scenery and resources, mixed with tales of heroism, enacted on our soil are bruited abroad. The future lies in the power of the present; the present is in the hands of the people. Governments may represent, or misrepresent us, but it is our own actions that will make or unmake our land. It therefore behoves each one to face the issues of the day, to earnestly consider the questions which will be thrust upon him in the next few weeks.

The utter uselessness for good, and the potent influence for bad of the Government at Ottawa has been shown times without end. It needs no comment, a mere glance at the records of Parliament and the columns of the newspapers reveals it. But what is the effect? Setting aside the politicians who pose as friends of the people, with an enthusiasm proportionate to the material result thereof, and getting down to the nation, that is, to the people, what have we too often found? In a very large percentage of ordinary folk, it is simply this:—"The government is bad, the system is wrong; we are taxed and robbed till existence is a drudgery. We know it, but it's no use trying to do anything. We're sick of politics and everything belonging to them." Mixing with all sorts and conditions of men shows us how widespread this feeling has been. It has not been generally realized that omission to do a duty is a most helpful handmaid to the commission of wrong.

Let the battalions of men who do nothing, who are sick of politics, who are too lazy to do anything that does not immediately concern their case rise out of their apathy and join in the fray; then the incubus that stifles Canada will be shaken off once and for all. The mighty reform movements of the past that purified nations and hurled tyrants from their seats, began with the people. A united, enthusiastic and thoroughly stirred people can do anything. One autocrat can rule millions of careless apathetic people, he can devastate their homes; rob them of their earnings; load them with fetters; squeeze out their very life's blood; till they realise their own rights and rise to their responsibilities, and then he is swept away.

The great unmoved should move; the masses scattered over the Dominion should learn that to omit to do a duty is often to allow another to do wrong, and that the business of returning clean and capable men to parliament cannot be relegated to anybody, but is the plain personal duty of every man. The man who lets the fight for his country's honour surge past while he sits calmly by and will not move a finger to help, has much of the shirker and something of the coward about his make-up. How this country is to be ruled for the next five years is in the hands of the people. Shall the few manipulate whilst a solid phalanx sits still and does nothing? We fancy not. Canada has seen the last of that sort of thing, and now contains an awakened and enlightened people, ready to vote as it talks.

THERE'S PATHOS IN THIS.

Dying, Joseph Tiffany Blesses His Child's Marriage, Which Took Place at His Bedside—Sadness and Joy.

New York, May 13.—Before the sound of the marriage bells for his daughter had died away, and almost before his congratulations of the happy young couple were finished, Joseph J. Tiffany, of No. 1088 Bedford-avenue, Brooklyn, died.

Mr. Tiffany's death was not unexpected, and it was because he knew his end was near that the marriage of his daughter, Miss Anna Tiffany, to Mr. Charles Brown of Flushing, was solemnized. The ceremony was performed at his bedside.

It was the original intention that the wedding should not take place until fall, but some time ago Mr. Tiffany was taken ill. Three weeks ago he was able to be out, and attended the funeral of an old friend. His daughter and her intended congratulated him upon his advance to recovery, and the future was rosy for all. That was the last time he was able to be out. The next day he was worse, and the doctor was afraid that an operation would have to be performed.

On Friday last the operation which it was hoped would spare his life and allow him to see his favorite daughter married was performed.

After the operation the physicians knew that his death was a question of only a few days, and Mr. Tiffany, who wished to know, was told the truth. The following day he requested that the daughter and Mr. Brown be married by his bedside as soon as it could be arranged, saying that he could die happier if he saw her married, and that he had always hoped to be present when his little girl should become a wife.

In accordance with the dying man's wishes, it was arranged to have the wedding on Sunday, the doctors believing it was safe to postpone it a day. On Sunday afternoon the immediate relatives of the bride and bridegroom assembled at the house and Rev. W. W. Bellinger of St. Mary's Episcopal Church was called in to perform the ceremony.

The young couple stood by the bedside of the dying man, and with hearts filled with mingled emotions of happiness and sorrow listened to the Episcopal marriage service read by the minister.

When the words, "Who gives this woman away?" were spoken the dying man placed his daughter's hand within Mr. Brown's and said, "I do," smiling as he did so. As the couple were pronounced man and wife they knelt to receive a blessing, and were congratulated by the father, who was propped up in bed with pillows to witness the ceremony.

During the marriage the family stood about the room with bowed heads, wondering if the father would be able to stand the excitement. When the wedding was over Mr. Tiffany had the young couple sit by him for some time, and talked with them as much as his strength would permit him.

Before the day had become night the reaction set in, and he began to sink rapidly. Just before midnight he was dead.

Mr. Tiffany was for 54 years a resident of Brooklyn, and for 41 years he was connected with D. Appleton & Co., the publishers. The notice of his death and his daughter's marriage appear side by side in the newspapers.

The funeral services took place today from his late home, Rev. Mr. Bellinger officiating.

Maltine With Coca Wine Feeds the Nerves.

Are you all run down? Are you tired in body? weary in mind? Does lassitude burden and unfit you for mental or physical labor? Such are the kind that please your eyes at the expense of your foot. The shoe which does not fit your foot the first time you wear it promises little comfort for the twentieth time. It costs more money to secure the foot-fitting lasts of the Slater shoe than for some entire shoe stocks. That's why they possess more foot-comfort, wear and appearance than other shoes. Stamped on the sole $3.00, $4.00, $5.00 per pair.

PURE CANADIAN!

Scott's Sarsaparilla No Imported Decoction.

The Raw Ingredients Are Brought Here and Prepared.

Foreign Sarsaparilla Cannot Compete with it On Account of a Heavy Customs Duty—That is Why They are so Much Poorer than Scott's.

Scott's Sarsaparilla is of purely Canadian manufacture. The ingredients are imported and the medicine compounded and put up here.

That is the reason no American or foreign preparation can begin to compare with it in quality or strength.

The Canadian duty on imported patent medicines is 50 per cent. on the selling price. Hence on a bottle of imported Sarsaparilla that sells for one dollar the customs authorities collect fifty cents. Yet these imported medicines have to compete with those of Canadian manufacture which have no duty at all to pay.

Of course it is impossible for them to do so. To meet the duty without increasing the price so much less must be spent in the medium itself. Reducing the cost of the ingredients in a bottle of Sarsaparilla by fifty cents so as to cover the duty makes the medicine worthless.

Raw Sarsaparilla.

The manufacturers of Scott's under the Canadian tariff have the right to import all their raw material free. In Canada the real genuine Sarsaparilla is prepared. It is put up good and strong.

Saddled by no duty, Scott's Sarsaparilla outdistances in strength, purity and health-giving qualities anything offered on the Canadian market. Those who prefer medicines simply because they have foreign names should ponder over this. If Scott's Sarsaparilla were made in the United States and sent to Canada it could not be sold here for less than $1.50 per bottle, the extra 50 cents would be for duty. If it had to be sold at $1, as some Sarsaparillas are, the amount of the duty would have to come off the cost of the medicine.

Purely Canadian.

Scott's Sarsaparilla is made in Canada, the bottles it is sold in are made in Canada, the labels on the bottles are printed in Canada. The boxes and wrappers it is sold in are Canadian. Everything about it is Canadian, and that is the reason it has made its reputation as the best and most thorough blood purifier and spring tonic to be had anywhere. Good cleaning out medicine at this season of the year is an absolute necessity in every household. Purchasers are foolish to experiment on unknown preparations when they can get an established medicine like Scott's to whose curative properties thousands of leading Canadians testify. More tomorrow.

For Nine Years

Mr. Samuel Bryan, Thedford, writes: "For nine years I suffered with ulcerated sores on my legs; I expended over $100 to physicians and tried every preparation I heard of or saw recommended for such disease, but could get no relief. I at last was recommended to give Dr. Thomas' Eclectric Oil a trial, which has resulted, after using eight bottles, internally and externally, in a complete cure.

DARE SPAIN SHOOT THEM?

The Madrid Council to Review the Sentences Imposed on the Crew of the Filibusterer Competitor.

Havana, May 11.—It is reported here that the Home Government has requested Capt.-Gen. Weyler to send forward a process of the case of the Competitor prisoners now under sentence of death here, for revision by the General Council of War and Marine in Madrid. It is not known whether the General Council will approve the sentence of the Havana court martial.

SKIN DISEASES!

One Remedy Which has Never Failed—Tried and Tested Ointment.

Because other alleged remedies for piles, scrofula, eczematic eruptions, scald head, chafing, black heads, salt rheum and skin diseases generally have proved useless, don't condemn Dr. Chase's Ointment. It has never been known to fail. For instance, Nelson Simmons, Mayersburg, Ont., writes:

"I used Dr. Chase's Ointment for Itching Piles, and can recommend it highly. Since using it I have had perfect freedom from the disease."

Peter Vanallen, L'Amable, Que., had the eczema for three years. He tried three doctors, but received no benefit. One box of Dr. Chase's Ointment and three boxes of Dr. Chase's Pills cured him completely. Large scales covered his legs and body, but the Ointment soon removed them. He will swear to these facts.

Chase's Ointment may be had from any dealer or from the manufacturers Edmanson, Bates & Co., 45 Lombard street, Toronto. Price 60 cents.

Mother's greatest remedy for coughs, colds, bronchial and lung affections is Dr. Chase's Syrup of Linseed and Turpentine. The medicinal taste is wholly disguised making it pleasant to take. Large bottle 25 cents.

Mr. Chamberlain Tells How England Lost America.

MISTAKES WILL NOT BE REPEATED

A Member of the Cape Assembly Moves in Favor of the British South Africa Company—Chartered Company Charged With Corruption—Cable Brevities.

London, May 13.—Joseph Chamberlain, Secretary of State for the Colonies, in an address at the unveiling of a memorial window in Cordwainer's Hall, London to-day, said that England lost the American colonies, which now form the United States, by mistakes, which would not be repeated. Nevertheless, Mr. Chamberlain declared that he was inclined to think the loss a blessing to both nations, if, as he devoutly wished and prayed, the two great Anglo-Saxon nations should go forward in continued peace and amity.

WANTS THE CHARTER REPEALED.

Action Being Taken Against the B.S.A Company in the Cape Colony Assembly.

Cape Town, May 13.—In the House of Assembly yesterday Mr. Merriman, in moving a resolution in favor of repealing the charter of the British South Africa Company, maintained that the chief culprits ought to be dealt with, namely, the Chartered Company, which had been guilty of corruption. Rutherford Harris, the secretary in South Africa of the Chartered Company, ought to take his place, said Mr. Merriman, alongside of Mr. Gardner Williams, the manager of the De Beers mine, tried for supplying arms to Johannesburg, in the dock. It was a scandal, he went on, to prosecute the agents and not the principals. He denounced the way in which Rhodesia had been denuded of troops to take part in the Johannesburg raid, leaving the people there at the mercy of the Matabeles.

HARCOURT ATTACKS RHODES.

Blames the Government for Allowing Him to Remain a Privy Councillor.

London, May 13.—In an address at Tredegar, county of Monmouth, this evening, Sir William Harcourt, leader of the Opposition in the House of Commons, attacked the Government for allowing the retention of his membership in the Privy Council by Cecil Rhodes, whose conduct in connection with the recent conspiracy in the Transvaal the speaker declared had thrown the whole of South Africa into a state of confusion and danger. Sir William also denounced the British South Africa Company for retaining an agent who had been shown to be guilty of gross fraud.

Leaders Must Serve Five Years.

Berlin, May 13.—A private telegram received in this city says that the sentence of Col. Francis Rhodes, brother of Cecil Rhodes, ex-Premier of the Cape Colony; John Hays Hammond, the American mining engineer; Lionel Phillips, and George Farrar, who were condemned to death by the High Court at Pretoria, upon charges of treason, in being active members of the Johannesburg Reform Union, which was held to have instigated Dr. Jameson's raid into the Transvaal, have been commuted to imprisonment for a term of five years. Sentences of other members of the Reform Committee, who were found guilty in connection with the conspiracy and raid, and were condemned to imprisonment and banishment and to pay a fine of $10,000 each, have been reduced to one year's imprisonment. The telegram is as yet unconfirmed.

Sent on to Pretoria.

London, May 13.—The Standard will say to-morrow that Sir Graham John Bower, the Imperial Secretary at Cape Town, will go to Pretoria and remain there until a successor to Sir Jacobus De Wet, the British agent at that place, shall have been appointed.

Bitter Against the States.

Barcelona, May 12.—Owing to grave fears on the part of the authorities of a renewal of the anti-American demonstrations in this city the police and the civil guard have been concentrated, and official vigilance to prevent disturbances has been resumed. Especial precaution has been taken against attacks upon the United States Consulate, at the door of which two civil guards, with loaded carbines, have been posted.

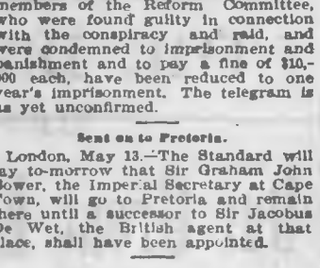
The Fools Not All Dead Yet.

Even a blind man can see that more clearly than daylight, or else why should so many continue to use ill smelling, oily, and often useless preparations for the relief of pain, when a preparation just as cheap, elegant, more powerful and penetrating as Nerviline is, can be purchased from any dealer in medicine? Nerviline instantly cures aches and pains. Nerviline is the most efficacious remedy for internal aches and pains. Nerviline applied externally subdues the most intense pain almost at once.

Horseless Carriages.



"See here, we have reached our destination. Why don't you stop?"

"I can't. I've forgotten the combination. We've got to keep going till it runs down."

Mothers

Anxiously watch declining health of their daughters. So many are cut off by consumption in early years that there is real cause for anxiety. In the early stages, when not beyond the reach of medicine, Hood's Sarsaparilla will restore the quality and quantity of the blood and thus give good health. Read the following letter:

"It is but just to write about my daughter Cora, aged 19. She was completely run down, declining, had that tired feeling, and friends said she would not live over three months. She had a bad

Cough

and nothing seemed to do her any good. I happened to read about Hood's Sarsaparilla and had her give it a trial. From the very first dose she began to get better. After taking a few bottles she was completely cured and her health has been the best ever since." MRS. ADDIE PECK, 12 Railroad Place, Amsterdam, N. Y.

A MAGNIFICENT ORDER

Received by the Canadian General Electric Works—Orders for Generators Aggregating 14,000 Horse Power—An Important Practical Tribute to the Capacity of the Works and the Excellence of Their Products.

At present the Canadian General Electric Company is unusually busy upon the current run of orders, but this morning a big order was received that will employ the works to their full capacity for months to come.

The order referred to is one from the Lachine Rapids Hydraulic and Land Company, of Montreal, and calls for twelve 1,000-horse-power generators. This immense source of electrical energy is to supply light and power to the city of Montreal and it will be able to transmit through seven miles of wire 5,000 volts. The plant, supplied by the local electric works, is said to be the second largest in the world, being only exceeded by that at Niagara Falls. It is fortunate that the capacity and resources of the company enable them to accept and carry out such an extensive order, whose completion will, in conjunction with their current orders, keep the works running at high pressure for a good part of a year, and involve the increase of the present staff of about 500 employees to over 600.

The company has also received from the Montreal Street Railway Company an order for one 2,000 horse-power generator, which is the twelfth machine made of such enormous capacity.

The Works are to be congratulated upon these evidences of the high character of their products, and of confidence—which is by no means misplaced in their capacity for promptly meeting the extraordinary demand.

COUNCIL AND BOARD OF TRADE.

These Two Bodies will Discuss the New Railway Bridge To-Night.

As has been previously mentioned, the Grand Trunk has decided to change its route to Lakefield in order to shorten the distance. At present all trains to the village have to cross at the Locks bridge and this detour consumes a great deal of time.

It is proposed hereafter to run the trains up the Chemong branch as far as Hazel Brae, and then cross at Auburn, over a new bridge to be erected, to the present Lakefield line. It is concerning this bridge that the council and the Board of Trade wish to make a request of the railway authorities to the effect that the abutments and piers be made sufficiently wide to permit of the town erecting on them a superstructure for foot passengers, and probably teams as well. The government has consented to assist in the construction of the bridge in lieu of constructing a swing over the canal where it crosses the Grand Junction. And the town will ask the government to put in wider piers so that a highway bridge may be built at the same time.

These two civic bodies will therefore meet this evening to consult on the details of the scheme, and upon the best method of approaching the authorities on the subject.

Don't forget to arrange to attend the illustrated lecture on "Shakspere" in George street Church, Friday evening next, May 15th. Pictures by Mr. R. M. Roy; Lecture by Rev. W. R. Young. Admission, 10 cents.

ASCENSION DAY AT ST. PETER'S.

First Communion of Fifty-five Children—Mass Sung and the Eucharist Administered by His Lordship Bishop O'Connor.

This being Ascension day, forty days after the resurrection of our Lord, the occasion was observed at St. Peter's by the celebration of three masses. The first was at 6 a. m., the second at 8 and the third at 10. The latter was high mass, sung by Rev. Father Fitzpatrick.

The chief interest of the day, however, centered in the mass at 8 o'clock celebrated by His Lordship, who also administered the solemn Eucharistic rite—the first communion to 55 children, boys and girls. The ceremony was a most solemn and impressive one. The young communicants were very neatly and becomingly attired and marched in procession from the convent, the boys and girls being preceded by a banner of appropriate design, and returned in the same order to the convent. His Lordship complimented those concerned on the admirable manner in which the children had been prepared by Ven. Archdeacon Casey, who is distinguished for the interest he takes in children.

PERSONAL.

Mrs. J. M. Carroll, of Lindsay, is visiting in town, the guest of Mr. J. M. Donavan, Charlotte street.

Messrs. George Edmison and George Stinson have returned from the Ontario College of Pharmacy, having finished their examinations. The results will not be known for several weeks, but the two Georges will without doubt stand high.

The Lindsay Post says:—Mr. R. Fair, formerly the agreeable and popular telegraph agent at the G. T. R. station, but at present station agent at Victoria Road, was in town to-day as the guest of Mayor and Mrs. Smyth. He was on his way to his home in Sunderland. "Bob" watched the ticker in the Peterborough station for some time.

Mrs. Fred Wilson and her charming little girl, Miss Florida, arrived in town yesterday and will spend the next few weeks here holidaying. Mr. Wilson has been here for the last week or so. Mrs. Wilson was the leading lady with Rice's comedians last season and together with Mr. Wilson and Miss Florida has been engaged for next season with a New York company.

A FIERY HOLOCAUST IN THE NORTH END.

Meldrum & McAllister's Big Mills Destroyed.

THE DAMAGE WILL AMOUNT TO OVER $100,000.

Five Minutes After the Fire was Noticed the Building was Enveloped in Flames, Which Were Entirely Beyond the Control of the Fire Brigade—Full Particulars of the Terrible Conflagration.

As the result of the most terrific conflagration the town has lately known the Blythe Mills, operated by Meldrum & McAllister, are now a heap of smouldering embers.

The fire was discovered shortly after the men resumed work at one o'clock, and in five minutes the whole upper part of the big mill was enveloped in flames. The cause of the fire is unknown, but it is thought to have been the result of spontaneous combustion. It was first noticed in one of the big blow pipes in the centre of the building and was drawn upwards in the big air chamber with amazing rapidity.

Nothing could be done to save the stock or machinery, and although the fire brigade responded with celerity to the alarm, the heavy streams of water seemed but to

ACT AS AN INCENTIVE

to the flames, which rapidly enveloped every portion of the building.

As the tin sheeting with which the building was covered became detached, it was tossed high in the air by the fierceness of the conflagration, and in many cases was flung across the river.

A portion of the Woollen Mills, which is attached to the mills at the south end, was also consumed, but not before a considerable quantity of the material which was stored therein was removed.

The sight was an awful one and will long be remembered by those who witnessed it. The telegraph, telephone and electric light poles in the immediate vicinity were speedily licked up by the greedy tongues of the flames and the flashes of electricity as the wires crossed added confusion and horror to the scene. The flames speedily leaped across the street and obtained a foothold in the storehouse and from there

SPREAD TO SEVERAL COTTAGES

in the vicinity, occupied by the mill hands.

The heat of the burning buildings was so intense that the firemen had the greatest difficulty in being able to stand close enough to throw a stream of water on the flames and the hundreds of citizens who hurried to the north end were forced to climb up on the hill to obtain a view of holocaust. The entire population of the village of Auburn, men, women and children, were on the scene, working with might and main to save the stock in the portion of the woollen mills, which were in danger, whilst many an anxious glance was thrown across the river to where the major portion of the big woollen mills lay in close proximity to the fiery furnace. Women rushed through the crowd in terror, as their homes were threatened by the destructive element, and the great black cloud of smoke, which rolled up from the conflagration, scattering sparks for miles around, spread a feeling of unrest amongst the residents, as the burning brands dropped near their domiciles.

The loss of trade, consequent upon the destruction of the mills, will be almost greater than the loss of their stock and machinery to Meldrum & McAllister.

It would be hard, indeed, to place an estimate on the entire loss at present, though it will run up over a hundred thousand dollars.

Mr. Meldrum stated to a reporter that in round figures there was about $30,000 worth of stock in the elevator and mill, to the best of his knowledge. It is only recently that $10,000 worth of machinery was placed in position for the purpose of conducting an oatmeal mill in connection with the business.

A considerable quantity of insurance is scattered among the different agencies in town.

Through Cox & Davis policies to the amount of $32,500 have been placed on the mill, elevator and machinery in the following companies: Western, Royal, North British and Mercantile, Lancashire, Guardian, Manchester, British American, Sun, Caledonian, Phœnix, Alliance and Ætna. On the stock, the Royal, North British and Merchantile and Lancashire, carry $12,500, and in other companies Cox & Davis have placed $3,900 on the woollen mill.

Through W. H. Hill the following policies have been placed.

On the machinery in the oatmeal mill—Northern, $2,500; North Union, $1,500; Queen, $2,000; London Assurance, $2,000—Total, $8,000.

On stock in flour mill and elevator—National, $4,000; Waterloo Mutual, $3,000, Total, $7,000.

On stock in oatmeal mill, Queen, $2,000

On saw mill, London Assurance, $2,000. On Hilliard Estate in the Imperial—Storehouse, $400; office, $100; dwelling, $300; dwelling, $300. Total $1,300. The total amount placed through Mr. Hill is, therefore, $20,300.

LATER.

The saw mill, also owned by the Auburn Company, and operated by Wynn & Co. is also destroyed, as well as the residence and barns on the Hilliard Estate. Four of the small cottages and Mr. Wynn's office were in flames at three o'clock.

MR. HALL'S SECOND MEETING.

A Successful Gathering at Selwyn—Addresses Delivered.

A largely attended meeting in the interests of Mr. Hall's candidature, was held in the Temperance Hall, Selwyn, last night.

Mr. F. D. Kerr, town, opened the speaking with an address in which he made a special appeal to young men to cast their vote for honest government. He also dealt with the relative merits of a high taxation policy and a tariff for revenue.

Mr. Hall, who was warmly received, spoke largely upon the lines as reported in yesterday's EXAMINER. He pointed out that the N. P. had not benefitted the farmers, as promised, failing to find them a home market and to afford them protection in proportion to that given other classes, when they have been heavily taxed on necessaries. He was in accord with the fiscal policy of Hon. Mr. Laurier—taxation for the necessities of the public service.

Mr. Newman, the Independent candidate, reiterated his determination to fight the battle of the campaign to a finish. The remainder of his speech was the same as reported heretofore in these columns. He was opposed to Remedial Legislation and a commission but in favour of secularising the Public Schools of Manitoba.

Mr. E. B. Edwards concluded the speaking by an address in favour of Mr. Hall. He exposed the fallacy of the claims of protection as a benefit to the farmer. He advocating making free raw material for manufacturers, and also the prime necessaries, and equitably adjusting taxation. Referring to the Remedial Bill question, he dealt with it from a legal point of view, and scathingly exposed the inconsistent attitudes Hon. Hugh John Macdonald had occupied on the subject.

The meeting was in every way a successful one, and Smith can be expected to accord Mr. Hall a liberal support.

AN OPEN LETTER.

To the Farmers of Peterborough.

As and old farmer I wish to lay before my brother farmers the conclusions I have come to in reference to the coming election. If there is any class of the community that should think carefully over the future government of our country it is us farmers. We work hard from one end of the year to the other, and from year to year, and they tell us that is on our labour the prosperity of the country depends. Well they get the labour, but about the prosperity I am in doubt. At any rate, so far as I am concerned, I don't want any elaborate arguments to prove that I am prosperous, for as I put my hand in my pocket I realize that there is nothing there but a dunning letter about the overdue interest on my mortgage.

Until I was fifty years old I was a Reformer and always voted with my party, for I believed they were right; but when the N. P. was raised and old Sir John, and Sir Charles Tupper too, promised better times and home market and everything rosy, why the wife and I talked it over, and we concluded that perhaps a change of Government might do us some good, and so without saying anything, I voted for the Conservative candidate and have voted for that party ever since. Now my boys are getting up in years and we trust a good deal to their judgment; and the other day the eldest one said to me, "Pa, are you going to vote for the Tupper policy?" Well I did not answer him, and at night the wife and I talked the matter over and she said, "John I am sorry you ever changed your vote; we are worse off to day than when you cast that first vote for the N. P. None of the promised prosperity has come; we have worked harder; our mortgage is bigger; and the prospects for our children are worse."

The whole country is sick of things as they are, and those goings on at Ottawa is enough to sicken a horse. I see that they cannot get any decent man in Peterborough to risk an election, and I don't wonder at it, for no one seems to like that Tupper's nasty ways. No, John. I have been thinking for a long time that things cannot be worse with the farmers, and maybe a new government might be better for the country—for there is one thing sure, it can't be worse.

Well, my wife said just what I had been thinking to myself for a long time, but I feel kind of shamed to come right out with it, but I knew the boys could not stomach that coercion of Manitoba, and some way they are always lately objecting to the taxes being put on by the Government just to suit a lot of manufacturers instead of suiting the bone and sinew of the country, and they keep saying that the talk of making every little place a manufacturing centre, and making a home market out of a village, and looking away to the West Indies and Australia for a market, when all the time we had seventy millions of people right at our door that want our stuff, is all wrong. I say that considering that it would please the boys better, and wife too, I just made up my mind that I would give my vote to Mr. Hall, who never did any dirty thing to anybody, and perhaps I can help in this way to get a change of government, for a change we must have, or the mortgage will clean us out.

And now I have come right out plump with my thoughts, and maybe there's a lot like me, so I just suggest the matter to my brother farmers—Let us try a change of government, for in my opinion the country will be the better for it.

BATTALION NOTES.

Great Need of Target Practice Amongst the Volunteers.

The Canadian Military Gazette, in an article referring to the need of target practice amongst the Volunteers, says:—"A matter that is agitating the authorities in Great Britain is the seeming indifference that is shown in regard to rifle shooting. It might well be applied to our own force, for it is a fact which cannot be got over, that too much attention is paid to the various battalion and company movements. This is splendid thing in itself, but the precision with which a rifle can be taken from the order to the slope would be of little account at the front. The drill that was given a first place would have to go second, and the handling of a rifle would take the first place. As it is at present, only two or three represent the shooting men in each of the companies. This is all very well at the annual prize meetings, but it would be of little account in warfare. Many a young volunteer, when asked if he does any shooting, immediately replies "What is the use? The crack shots pick everything." This remark is an old one and is handed down to each succeeding man as he joins the regiment. The men should have to put in so much target practice every year. Once get a young volunteer interested in rifle shooting and he will go at it right ahead into it. It is the getting them to the target that seems to be the great drawback. Officers of companies should take an interest in rifle shooting themselves and endeavour to get their men along with them. Everyone cannot be a Queen's prizeman, no more can everyone be a great artist, but if not a prize-winner, they can at least gain a knowledge of handling a rifle and the art of shooting, which cannot be found on the parade ground.

The Belleville Sun says: Of the four hundred sturdy men of Belleville who went to the front at their country's call in '66, when the Fenians were troublesome, there are said to be sixty or seventy still resident in the city. An invitation has been extended to these veterans by the 15th Battalion to accompany them to Peterborough on the Queen's Birthday.

PETERBOROUGH PRIME CHEESE.

The Board Held its First Meeting of the Season Yesterday Afternoon.

The Peterborough Cheese Board met yesterday afternoon with a good attendance. The Liverpool cable was quoted at 45s 6d for white and 41s for coloured. Twenty-three factories boarded 847 boxes as follows, being the make up to Saturday, May 9th:

FACTORY.	BOXES.
Keene	50
Warminster	70
Shearer	80
Central Smith	35
North Smith	60
Warsaw	35
Westwood	40
Oakdale	67
Norwood	45
Melrose Abbey	30
Pine Grove	30
Peterborough	15
Otonabee Union	12

Lang	50
North Dummer	25
Lakeview	30
Trewen	35
Bensfort	30
Cavanville	25
Fleetwood	50
Total	847

The bidding was opened by Mr. Fitzgerald at six cents and rapidly advanced to 7½ cents, at which price Mr. Whitton took Keene, Oakdale, Westwood, Norwood, Melrose Abbey, Warminster, Lang, North Smith and Shearer.

At 6¾ cents Mr. Fitzgerald secured Central Smith, Warsaw, Pine Grove, Peterborough, Otonabee Union, Maple Leaf, Myrtle, Young's Point, North Dummer, Bensfort, Lakeview, Trewern and Cavanville.

The Board adjourned for two weeks.

A TALK TO THE HOUSEKEEPER.

Suggestions Showing How You Can Save 20 per Cent. on the Meat Bill at John J. Howden's Meat Market.

We mean to sell meat so cheap this summer that everybody will want to send their orders to John J. Howden's cheap meat market. Instead of buying though second hands, and paying out money for commissions to people to buy cattle for us, to butcher for us, and to sell for us, we're hustling early and late to do all this ourselves. That, of course, means power to sell cheaper, and it shows to excellent advantage when we can save you 20 per cent. on your meat bills. Selling high qualities of meat at such close prices may look like a mistake to other in the business who are not practical men, and who have to engage expensive help to do what we can do ourselves. Then, again, we have worked hard for more than a quarter of a century to get our business, but it didn't cost us so much to get it as it is doing today to start a new business on the bonus plan. We can always hold and attract customers with prime meats at closest prices. That's why we do the biggest meat business in town today and on less than half the expenses that some others are doing. Why can't we, therefore, save you one-fifth of every dollar? Our hams and bacon are specially noted for their mildness and fine flavour. Our tasty corned beef is pickled in the old-fashioned wholesome way, and there is none better. Our beef is the best that is raised in the country. Our cooling rooms and refrigerator guarantees everything to be in A-1 condition. Housekeepers, note these facts. Don't pay higher prices if you are asked. Everything best quality, direct from the farm.

SPORTING PASTIMES.

Wheel Talk and Items of Local and General Interest to Sportsmen.

THE WHEEL.

A great many bicycle riders pay no attention whatever to the "law of the road," requiring them to keep to the right. As considerable fast riding is done on either side of the car tracks, a bad accident will surely result unless more attention is paid to this matter. In case of a collision the rider who was on the wrong side of the road would most assuredly have a big bill of costs to settle.

A recent number of the Scientific American contained an illustration of a bicycle tire, patented by a Kansas doctor, which will not readily puncture, and which will not collapse when punctured. The pattern is hose pipe, and the material rubber, or rubber and fabric. The tire is much thicker at its tread than at its side and inner surface, the increased thickness forming a cushion, preventing the puncturing of the tire by sharp pointed rubbish. On the inner surface of the tire are lugs, preferably made of rubber, and the lugs are connected by springs of such length that, should the air escape from the tire, the springs would hold it distended and enable the tire to be used almost as well deflated as inflated.

A sweater with a pocket has been suggested by an outfitter in wheelmen's supplies. In the country, during the very warm months, it often happens that riders do not care to wear their coats. There are some incidentals that must be carried in pockets, and one could be introduced into a sweater without much trouble, according to the outfitter.

The newest sweaters for women riders are coloured exquisitely. There are delicate shades of blue and red, and any quantity of white sweaters with gay coloured stripes. The newer designs really add to the attractiveness of a bicycle costume instead of the contrary, as was the case when the sweater was first introduced. A very good bicycle costume is of brown covert cloth. The full skirt has a large, flat box plate at the back, and two smaller ones in front. The play afforded to the knees by these two quite prevent the skirt being lifted up and down as usual.

BASEBALL.

The Montreal Star says—"Dan. McCabe, the one-armed pitcher, will be in the box for Farnham, Saturday. He is a wonderful player and his work has to be seen to be appreciated."

The pain that sometimes strikes a man at the most inopportune moment is due to indigestion. It may come in the midst of a dinner and make the feast a mockery. It is a reminder that he may not eat what he chooses, nor when he chooses. He is a slave to the weakness of his stomach. A man's health and strength depend on his digestion. Remove the obstruction by taking Dr. Pierce's Pleasant Pellets. They are a positive cure for constipation and its attendant ills—headaches, sour stomach, flatulence, dizziness, billousness and "heartburn." The "Pellets" are very gentle in their action. They simply assist nature. They give no violent wrench to the system. They cause no pain, nor griping.

A man may dress as well as his own good taste, judgment and the assistance of an artistic tailor may elect. He may take his "tubs" as regularly as the most conscientious water-cure doctor may dictate; but if his digestive organs are out of order, he will have an unwholesome appearance. His complexion and the white of his eyes will have a yellowish cast. His tongue will be coated, appetite poor, his teeth rusty, his breath abominable. He is one big, unmistakable sign of constipation.

Worst of all, his temper is as ugly and unwholesome to live with as is his person. A man who has the least appreciation of what he owes his family and friends, to say nothing of himself, will make an effort for health.

The quickest, surest, easiest way is to take Dr. Pierce's Pleasant Pellets. They are made of refined, concentrated vegetable extracts. Nothing in the least harmful enters into their composition. They hunt down all impurities, and "make them move on." They are the product of many years' study and practice. Dr. Pierce cannot afford to put forth a worthless or a spurious article. Send for a free sample. If you would know yourself and the Doctor better, send 31 cents in one-cent stamps, to pay customs and postage *only*, and get his Common Sense Medical Adviser—1008 pages profusely illustrated.

Address, WORLD'S DISPENSARY MEDICAL ASSOCIATION, Buffalo, N. Y.

"For sometime I had used Dr. Pierce's Pleasant Pellets for constipation with most satisfactory results. The winters have always been very hard on my husband. He too tried the 'Pellets.' They have made a new man of him. We have used in all, six bottles." Yours truly,

Mrs. U. A. Morey

METROPOLITAN HANDICAP.

Counter Tenor the Winner Speeding at Woodbine.

New York, May 12.—The weather was just right for racing purposes to-day, and a great throng of people journeyed to the track at Morris Park to see the first racing of the season here. The Metropolitan Handicap was the attraction, and the fact that Henry of Navarre did not start was something of a disappointment. Sir Walter was the choice of the minority, and 7 to 5 was offered and quickly taken. He was played on his good work. Counter Tenor and Dorian each had about the same number of supporters at "threes." The others were neglected by nearly everybody. The start was not a very good one. They went off, with Hornpipe in the lead, Sir Walter second, Rubicon third. Hornpipe at the quarter by a length, Sir Walter second, a length in front of Dorian. Sir Walter at the half by a head, Hornpipe second, a length in front of Dorian, a neck in front of Rubicon, St. Maxim fifth. Sir Walter still leads at the three-quarters, a length in front of Hornpipe, Dorian third, a length away, a head in front of Sir Maxim. Sir Walter at the mile, a head in front of Rubicon, a length in front of Counter Tenor, St. Maxim fourth. And they are in the stretch, running the same. Counter Tenor wins by length, St. Maxim second, a neck in front of Sir Walter.

First race—Hastings, 1 to 3, 1; Baldemore, 7 to 1, 2; Gotham, 6 to 1, 3. Time 80.

Second race, mile—Lehman, 6 to 1, 1; Brisk, 7 to 1, 2; Copyright, 8 to 5, 3. Time 1.41.

Third race, 5 furlongs—Cassophia, 8 to 1, 1; Bastian, 6 to 1, 2; Caldron, 8 to 1, 3. Time 1.00.

Fourth race, 1⅛ miles—Counter Tenor, 4 to 1, 1; St. Maxim, 20 to 1, 2; Sir Walter, 6 to 5, 3. Time 1.53.

Fifth race, ⅛ mile—Challenger, 12 to 1, 1; Fireside, 12 to 1, 2; Royal Rose, 12 to 1, 3. Time 49.

Sixth race, 1 1-16 miles—Shakespeare II., 4 to 5, 1; Sherlock, 11 to 10, 2. Time 1.47⅛. Two started.

TRIALS AT THE TRACK

Toronto, May 13.—

For the first time in many days Old Sol failed to put in an appearance at Woodbine Park yesterday morning, and the dark clouds which overhung the track threatened rain at any moment. The trainers, in consequence, worked all their horses as early as possible, the track being in excellent condition. There was a fairly good crowd present, and, though no record-breaking was indulged in by any of the thoroughbreds, some good work was recorded. Mr. Charley Boyle's Lord Nelson covered a mile in 1.48½ well in hand, while Havoc made a circuit of the course in 1.49½, under the guidance of Joe McGlone. Looram accomplished the same distance in the same time, Florence Colville and Miss Ellesline going the route in 1.54, and Strathroy in 1.50¾.

Of the Seagram horses, Connoisseur and Haifling reeled off a mile and a half in 2.50¾, while Pyramis went six furlongs in 1.19¼.

The Hendrie Plater, Lochinvar, was sent a mile and an eighth in 2.08, the first mile in 1.51. Glen Gowrie, a stable companion, covered a mile in 1.53½, while Cardinal and Fiddle worked a half in 51½ sec.

The Ottawa Platers, Dan Gordon and Boston, were sent a mile in 1.55, while Joe Doane's Guineas representative went the plate distance in 2.24.

The Kapanga colt worked a mile in 1.53, and Mr. Duggan's Chickle and Steppingstone negotiated the same distance in 1.54.

Several of the jumpers took an innings in the field, Lion Heart and Lawyer being schooled together. The latter blundered at the club house bank and lost his rider, Moxley.

The club might give a selling steeplechase during the meeting, which would undoubtedly fill well and prove a capital contest. It would give owners an opportunity of handicapping their own horses and the poorer class a chance of pulling off a race. Many owners are in favor of such an event.

An electric light has been placed in the centre of the stable yard, which trainers are very thankful for.

Trainer "Ras" Burgess arrived with the Davies horses yesterday, and took up quarters in the red brick stable opposite the track. The lot includes Kilrona, Zeal, Thorncliffe, Totis, Music, Parbuckle, Garter King, Chester and Phaeton.

The Time for Building

Up the system is at this season. The cold weather has made unusual drains upon the vital forces. The blood has become impoverished and impure, and all the functions of the body suffer in consequence. Hood's Sarsaparilla is the great builder, because it is the One True Blood Purifier and nerve tonic.

Hood's Pills become the favourite cathartic with all who use them. All druggists. 25 cents.

Rheumatism Cured in a Day.

SYNOD AT COLLINGWOOD

Was Opened by a Synodical Conference in Which Principal Caven Took a Leading Part.

Collingwood, Ont., May 12.—Between one hundred and fifty and two hundred ministers and laymen are in town attending the annual meeting of the Synod of Toronto and Kingston. The synodical conference, which precedes the Synod, opened last night in the First Presbyterian Church.

At the morning session to-day Dr. Robertson presided. Principal Caven of Knox College in a short address introduced the subject, "Are the present methods of training in our theological halls, preaching by students during session and the summer months included, the best obtainable for development of the natural qualification of candidates for the Gospel ministry?" and Dr. Dickson of Galt introduced the subject, "The reciprocal influence of pulpit and pew in promoting and sustaining spiritual life in our congregations."

Considerable discussion followed both addresses.

At the afternoon session Rev. D. D. McLeod of Barrie presided. Dr. Somerville of Barrie made the opening address, in which he discussed "Is it necessary to combine what are usually called special or evangelistic services with the work of the pastoral in order to promote the spiritual life of the church?"

A debate followed, in which many of the ministers and laymen expressed their views.

"The effect of Young People's Societies upon the spiritual life of the Church" was brought before the gathering in able manner by Rev. Dr. McTavish.

To-night the Synod proper was opened. Rev. J. R. Mullan, the retiring moderator, preached to a large congregation.

THAT NEW YORK SUICIDE

Identified by a Man Claiming to be Her Husband—He was a Liar—Who's the Toronto Girl?

New York, May 12.—The woman who committed suicide Friday at the Colonnade Hotel was identified this morning as Mrs. Julia A. Biller, 31 years of age, of 15 Summit-street, Newark, N.J. The identification was made by the woman's husband.

Biller a Liar.

New York, May 12.—(Midnight.)—On the strength of the statement made by Biller, the Morgue authorities, obeying his instructions, turned the body over to an undertaker, who prepared it for conveyance to Newark, to which city Biller had ordered its removal. The jewels and money found on the suicide would probably have been turned over to Biller, had not reporters gone to Newark and made an investigation of his story. According to Biller's sister-in-law, who lives at that place, Biller did not tell the truth. She said that Biller's wife died a year ago in Newark. Biller did not return to the undertaker's shop to which the body of the suicide had been transferred.

Among the visitors at the Morgue last night was the Rev. Father Larouche, accompanied by the brother of a girl who is missing from a convent in Toronto. They arrived from Toronto yesterday afternoon, their mission being expressely to view the Colonnade suicide's body. Father Larouche said the dead girl much resembled his pupil, but he could not be positive that it was she. The brother could not believe, he said, that the body was that of his sister.

IS IT MANSLAUGHTER?

The Coroner's Jury Which Investigated Abe Claus' Death Took a Light View of Jake Hill's Act.

Burford, May 12.—The remains of the Indian, Abe Claus, who was killed by stabbing by his stepfather, Jake Hill, on Saturday night, were buried here to-day. The coroner's inquest was held in this village this afternoon, the witnesses being chiefly relatives of the deceased man and the prisoner, Hill, who was present. Dr. Harbottle who performed the post-mortem examination gave evidence to show that the deceased was in a well nourished state of health prior to the stabbing. There were two knife wounds found on the body, one of which had penetrated the heart and which in itself was sufficient to cause death.

After hearing all the evidence the jury brought in a verdict that Claus came to his death by wounds inflicted by a knife in the hands of Jacob Hall during a quarrel.

The finding is considered here equal to manslaughter.

NO BISHOP YET.

The Voting at Hamilton Had a Strong DuMoulin Leaning.

Hamilton, May 12.—(Special)—The election of a bishop for the Niagara diocese was in progress all afternoon and evening, and to-night the Synod adjourned after six ballots had been taken without a bishop being elected, and the probabilities are that it will require many more ballots before the question has been settled.

In the last ballot taken to-night the contest was practically between Canon DuMoulin of Toronto, who is being strongly supported by the clergy, and Dean Carmichael of Montreal, who is the choice of the lay delegates. To-night it looks as if it will be a hard fight between these two men, the last ballot showing that Canon DuMoulin was winning over the support of the clergy.

Dean Carmichael's supporters are not idle, and to-night they will do a great deal of quiet work, so that no one knows what to-morrow may bring forth.

The first ballot will be taken at 9.30. Archdeacon Dixon of Guelph is presiding, and the following is a result of the balloting:

First ballot—Rev. Canon DuMoulin, Toronto, 37 clerical 21 lay; Rural Dean Armitage, St. Catharines, 9, 29; Rev. Dean Carmichael, Montreal, 4, 2; Rev. John Kerr, Montreal, 5, 0; Rev. Canon Sweeney, Toronto, 4, 1; Rev. Canon Mockridge, Toronto, 1, 1; Rev. Canon Mills, Montreal, 1, 0; Archdeacon Houston, 0, 1; lost, 0, 3. Total 61, 58.

Second ballot—DuMoulin, 42.24; Carmichael, 6, 2; Armitage, 5, 30; Kerr, 3, 0; Sweeney, 3, 1; Bishop of Athabasca, 2, 0; lost, 0, 1. Total, 61, 58.

Third ballot—DuMoulin, 42, 26; Carmichael, 8, 2; Armitage, 4, 28; Sweeney, 2, 1; Mockridge, 1, 0; Bishop of Athabasca, 2, 0; Kerr, 1, 0; lost, 0, 1. Total, 61, 58.

Fourth—DuMoulin 39, 24; Carmichael, 18, 32; Sweeney, 1, 0; Kerr, 1, 0; Houston, 1, 0; lost, 0, 2. Total, 60, 58.

Fifth—DuMoulin, 42, 35; Carmichael, 18, 31; Houston 1, 0; lost, 0, 2. Total, 61, 58.

Sixth—DuMoulin, 44, 25; Carmichael, 16, 31; Houston, 1, 0; lost, 0, 2. Total, 61, 58.

Consolation.

Many are tales of misery men and witticisms which their failing drew forth. Every one knows the story of the wealthy man who desired his son to bury with him a large portion of his fortune. The son was more astute than his father, for he drew a check for the required amount and placed it in the coffin with the remark that "the governor was always a careful man and never carried money about." Another tale is this: The departing Croesus was a clergyman who had paid more attention to the laying up of treasure on earth than in heaven. In his last days he was carefully tended by a faithful body servant. "Ah, Tom," he said to this servant, "so I must go and leave all my gold and silver behind me!"

"Ay, sir," replied Tom, "there's no help for that. But, then, you don't mind; if you'a take it it would only melt."

"Ten men out of a dezen are invalids," says a recent medical authority. At least eight out of these ten, it is safe to allow, are suffering from some form of blood-disease which a persistent use of Ayer's Sarsaparilla would be sure to cure. Then, don't be an invalid.

Captain Sweeney, U. S. A., San Diego, Cal. says: "Shiloh's Catarrh Remedy is the first medicine I have ever found that would do me any good." Price 50c. Sold by John Nugent, 399 George Street.

For Weak Backs, Lame Backs, Painful Backs or any kind of Bad Backs, Manley's Celery-Nerve Compound is the Great Back Strengthener.

Wm. Rogers, 5 Ottawa Street, Toronto, Ont., writes:—"For a number of years I have been troubled with a lame back. Some of the doctors I consulted called it Lumbago; others, Kidney Disease. I received no benefit from their treatment. Nine months ago I was lucky enough to try Manley's Celery-Nerve Compound, and, after taking two or three bottles, the pain entirely left me, and I have had no return of it for 8 months now."

TEN YEARS TROUBLED

With Liver Complaint and Dyspepsia---Suffered Greatly and Found No Relief in the Scores of Medicines Prescribed.

South American Nervine Was Recommended, and Before Half a Bottle Was Taken Relief Came.

Have Since Improved Rapidly, and Am Now Completely Cured—So says Mr. David Reid, of Chesley, Ont.

What ills come to humanity from a disordered liver! Henry Ward Beecher has said that it was impossible for a man to hold correct spiritual views if his liver was out of order. The liver is so important a part of the mechanism of man that when it ceases to work with ease the whole man is unable to do his work aright. Can we not appeal to thousands, nay, tens of thousands, for a verification of this fact? Certainly it is, that Mr. David Reid, of Chesley, Ont., felt that the enjoyment of life had been taken from him, through the unhealthy condition of his liver. For ten years he says he was troubled with liver complaint and dyspepsia. Employing his own language: "At times my liver was so tender I could not bear it pressed or touched from the outside. Had tried a great many remedies without any benefit. Was compelled to drop my work, and being worse than usual, I decided as a final resort to try South American Nervine, which had been recommended to me by friends who had been cured by it. I got a bottle from A. S. Goodeve, local druggist, and commenced taking according to directions. Before I had taken half a bottle I was able to go to work again, and I have improved steadily since. I can conscientiously recommend South American Nervine to any suffering from dyspepsia or liver complaint." This is Mr. Reid's story as he tells it in his own words. Were it thought necessary it could be corroborated by a host of witnesses. Mr. Reid has lived a long time in Chesley, and his case was known to be a very bad one. But that makes no difference to Nervine. This great discovery rises equal to the most trying occasions. Let it be indigestion, the most chronic liver trouble, as with Mr. Reid, nervous prostration, that makes life miserable with so many, sick headaches, that sap all the effort out of man or woman, Nervine measures to the necessities of the case. It is a great medicine and thousands to-day in Canada are happier and healthier men and women, because of its discovery. There is no great secret about it, and yet there is an important secret. It operates on the nerve centers of the system from which emanate all life and healthfulness, or if disordered, sickness, even death. Nervine strikes promptly at the nerve centers, hence, as with Mr. Reid, where ten years' use of other medicines had done no good, less than a bottle of Nervine brought about encouraging results, and a few bottles cured.

THE BEST

FAMILY MEDICINE

She Has Ever Known. Words of Praise from a New York Lady for

AYER'S PILLS

"I would like to add my testimony to that of others who have used Ayer's Pills, and to say that I have taken them for many years, and always derived the best results from their use. For stomach and liver troubles, and for the cure of headache caused by these derangements, Ayer's Pills cannot be equaled.

When my friends ask me what is the best remedy for disorders of the stomach, liver, or bowels, my invariable answer is, Ayer's Pills. Taken in season, they will break up a cold, prevent la grippe, check fever, and regulate the digestive organs. They are easy to take, and are, indeed, the best all-round family medicine I have ever known."—Mrs. MAY JOHNSON, 368 Rider Avenue, New York City.

THE UGLY DUCKLING.

Very Many Cases in Which It Became the World-Wide Swan.

You think the ugly duckling never becomes a swan? Rachel, who was said to have had the most expressive face of any woman in the century, and to have been the most graceful, was counted by her family an excessively ugly child. She adored beauty, and she tells in one of her letters that suddenly one day, after looking at herself, she made up her mind that she would be charming. And she said, "I studied every hour of my life to be ugly no longer." History tells how she succeeded. Adelina Patti was the ugly duckling, it being thought by her parents that her sister Carlotta was the beauty. Mary Anderson, the ideal, classical beauty of the last two decades, was considered in her own home an awkward, ordinary-looking girl, rather quiet, for she spent most of her time reading Shakespeare. George Eliot never became a beauty, but she forced those people who despised her lack of attraction as a child to recognize the great genius of the woman. The old mammies down south always scorned a pretty baby, and, oddly enough, there is wisdom in this.

The beauty of a baby consists in bright eyes, a pink and white skin, small features, a rosebud mouth and an expression of insipidity. That never results in a beautiful woman. My dear ugly duckling, all the beauty in the world is worth nothing unless you are really sympathetic, and show that sympathy by using the wonderful feminine weapon which the world calls tact. Make up your mind that you will be truthful, but if the truth will hurt your neighbor and is not needed, why should you hurt her by telling it? If the truth will help your neighbor, give it to her gracefully and gladly. To the girl who moans because her nose is not classical, give pleasure by reminding her of the brightness of her eyes.

There is no woman altogether ugly, except that one who has a hard heart and a cruel tongue. And though your mouth may be large, if only your teeth are white and well cared for it will not be noticed. If your nose is badly shaped it will be forgotten if your eyes glow with pleasure and your skin bears the stamp of good health. But if you happen to have no good feature you may yet be a swan, my ugly duckling, if you will only speak kind words, do generous acts, and make your life and the lives of those around you rich to overflowing with the love that makes a gentle, sweet, womanly woman.—Ruth Ashmore, in Ladies' Home Journal.

THE PRINCESS OF WALES.

A Popular Woman and Favorite Grandson, Prince Edward.

No lady of the royal family in England is more popular than the Princess

PRINCESS OF WALES AND GRANDSON.

of Wales. Her husband, the Prince of Wales, is probably the most popular man in England. When the Princess Alexandra of Denmark became the Princess of Wales thirty-three years ago, she was a very beautiful young woman indeed. And it is very odd that, although she is now a granddame, she is not regarded as an old woman. This is true because her beauty and freshness have been wonderfuly preserved to her. The Princess is now 52 years old, although she carries her age as lightly as if it were less by half a century. Her favorite grandchild is the baby, Prince Edward, who is the son of Prince George, the Duke of York. The delight of her maternity was recently increased by the birth of two more children to Prince and Princess George. In the event of the succession of Albert Edward to the throne of England, Queen Alexandra, as she will be then, will probably live to see the children of her children's children, even as Her Majesty, the reigning Queen, her health at present being robust.

HEADACHE.

A SIMPLE CURE.

As a sure cure for headache, whether caused by liver, stomach, kidney or nerve trouble, Burdock Blood Bitters is the most effective medicine known. It removes the causes of headache by restoring all the organs of the system to proper action and health. Doubts disappear in view of proofs like this :—

In the spring of 1891 I got a bottle of B. B. B. for my mother who had been troubled for twenty-five years with sick headache. I got it from Mr. W. Paxton Baird, of Woodstock, N. B., who gave me two other medicines to take home and let my mother take her choice. Fortunately she choose the Burdock Blood Bitters, and I returned the other bottles. She used it for three months, and has had no headache since. We are sure it was B. B. B. cured her, as she took no other medicine.

J. A. GREEN, Hartford, N. B.

When Baby was sick, we gave her Castoria,
When she was a Child, she cried for Castoria.
When she became Miss, she clung to Castoria.
When she had Children, she gave them Castoria.

THE MARQUIS OF DUFFERIN.

Great Britain's Distinguished Ambassador to France.

Out of the dust and din which England's bold proposition to conquer the Soudan has raised in France rises the form of the imperturbable Marquis of Dufferin and Ava, the most distinguished diplomat of the times. France is fighting angry with England, and the relations between the two countries are tense as a fiddle string. All England looks to the Marquis of Dufferin to smooth down the ruffled feathers of the Gallic bird, and if he fails in this amazingly difficult task it will be because the affair transcends the power of the master hand at diplomacy. The Marquis has won his honors fairly, and he has no end of them. Not even a tithe of them can be given here, but it may be said that he has occupied every lofty post in the diplomatic service of his country and its collateral interests. He is now about 70 years of age, and in his long career has been of vast service to his Government. He has been Secretary of State for India, and Governor-General of Canada. He was British Commissioner in Syria. He has been ambassador to Russia, to Rome and to Constantinople. It was while at the Turkish capital that he was intrusted by his Government with the conduct of the entire Egyptian relations, and had the settlement of all the questions that grew out of the trouble made by Arabi. It was while fresh from these works that he was made Viceroy of India. In 1891 his lordship was given his present post of the French embassy, and now, when the two Governments clash, he came to the front as peacemaker. He is personally loved in Paris, and this fact will go a long way toward a real triumph of diplomacy should he succeed in placating France and winning a victory for English advancement in Africa. Yet his present position is an exceedingly difficult one. Lord Dufferin has no end of titles. His father was the fourth Baron of Dufferin, and the son has been widely honored by many universities. He has some honorary degree from every big university in Great Britain. Harvard gave him honorary LL.D. in 1878. He is an author of note, and withal one of the most interesting personages in Europe. —Chicago Times-Herald.

Power of a Lightning Stroke.

It is no doubt interesting to express the force of a stroke of lightning in horse-power. During a recent storm which passed over Klausthal, Germany, a bolt struck a wooden column in a dwelling, and in the top of this column were two wire nails 5-32 inch in diameter. The electric fluid melted the two nails instantly. To melt iron in this short time would be impossible in the largest furnace now in existence, and it could only be accomplished with the aid of electricity, but a current 200 amperes and a potential of 20,000 volts would be necessary. This electric force for one second represents 5000 horse power, but as the lightning accomplished the melting in considerable less time, say 1-10 of a second, it follows that the bolt was 50,000 horse power.—Dr. Grottewitz, in German Review.

The World's Telegraph.

A German expert, after a careful estimate, has announced that the total length of telegraph lines in the world is 1,062,700 miles, of which America has 545,600 miles; Europe, 380,700; Asia, 67,400; Africa, 21,500, and Australia, 47,500 miles. The United States has a greater length than any other country, 403,900 miles, and Russia comes next, although European Russia has only 81,000 miles. The other countries follow in this order: Germany, France, Austria-Hungary, British India, Mexico, the United Kingdom, Canada, Italy, Turkey, the Argentine Republic, Spain and Chili. In point of proportion, however, Belgium leads, with 409 miles of wire for every 1000 square miles of territory; Germany comes next, with 350 miles; Holland is only slightly behind Germany, and the United Kingdom has 280 miles of telegraph for every 1000 miles of country.

FORCE OF HABIT.

London People have become Used to the Great Specific Remedy.

London, May 11th.—The despatch from Detroit with reference to the cure from Bright's disease and blood poison of Mr. Langley of this city by the use of Dodd's Kidney Pills, has recalled the wonderful facts of the case to the citizens, among whom Mr. Langley is well known. It has reminded them that Mrs. Langely, among others, also made an equally wonderful recovery. The use of the pills, however, has become so universal here, and there have been so many instances in which they have been used with beneficial results that a similar case would hardly excite as much interest now as it did then when the medicine was less known.

Petrified Forests.

The regions of the Little Colorado river in Arizona abound in wonderful vegetable petrifications, whole forests being found in some places, which are hard as flint, but which look as if but recently stripped of their foliage. Some of these stone trees are standing just as natural as life, while others are piled across each other just like the fallen monarchs of a real wood forest. Geologists say that these stone trees were once covered to the depth of 1000 feet with marl, which transformed them from wood to solid rock. The marl, after the lapse of ages, washed out, leaving some of the trees standing in an upright position.

In some conditions the gain from the use of **Scott's Emulsion** of cod-liver oil is rapid. For this reason we put up a 50c. size, which is enough for an ordinary cough or cold or useful as a trial for babies and children.

In other conditions gain must be slow, sometimes almost imperceptible, health can't be built up in a day. For this Scott's Emulsion must be taken as nourishment, food rather than medicine, food prepared for tired and weak digestions.

FAIRWEATHER & CO.

PATERSON AND HARDY.

(Continued from First Page.)

demonstrated its appreciation of Mr. Hady's able speech was renewed with even greater vigor when Mr. Paterson was presented. After speaking of his regret, though not complainingly, that Mr. Henry had not accepted the courteous invitation to attend, he entered upon the discussion of questions that occupy a prominent place amongst the issues of the campaign. First he recalled the disgraceful incidents with which the recent abortive session at Ottawa was begun. He said that the people of Canada demanded ordinary decency, loyalty and fair play among the men that sit around the council board and devise means for the government of the country.

After pointing out the symptoms of impending defeat of the Tory Government, and alluding to the looting of the treasury in connection with the various jobs, Mr. Paterson took up the Liberal policy as regards manufacturing industries. He said:

"I would like to have a man rise on the public platform and say before an audience here that if the Liberal party comes into power it means the destruction of the manufacturing industries of this or any other city. The Liberal party to destroy any industries in this country! Whose capital is invested in these manufacturing industries? Of what political faith are the artisans that work in these factories? Look around me, look there (pointing to the gentlemen on the platform). Do you see any men having capital invested? The great bulk, as you know, of the capital invested in Brantford enterprises is the capital of Liberals who are at my back. The majorities rolled up in the past for the Liberal party in Brantford have been rolled up because a large majority of the artisans of this town belong to the Liberal party and are found supporting the candidate of the party. Not only within the city, but throughout the whole Dominion I venture to say, the Liberal party has more capital invested in manufacturing industries and more supporters working in these industries than the gentlemen who claim to be the saviours of their country. And do you mean to tell me that they can make intelligent men believe that the advent to power of the Liberal party means the destruction of the industries of this country? No, we believe in reforming the tariff properly. In adjusting it care will be taken that the manufacturers are not burdened with too much duty on their raw material, so that the great bulk of manufacturers will be in a better position than they are to-day under the so-called National Policy. Under this protective system, when you have to protect every man, no matter how small an industry he may be engaged in, you burden some of your largest manufacturers with duties on their raw material that neutralize if they do not wipe out any protection given the manufactured article. Have the Massey-Harris works or the Verity Plow Works, or the Cockshutt Plow works been shut down because of the cut in the protection on their products which was made by the Government? I venture to say, under a revenue tariff, the manufacturers would not get such a cut as these concerns got. They had 35 per cent. protection, and they were cut down to 20 per cent. in one night. When that cut was made the raw material was left at very nearly as high a figure as it was before. Under the low revenue tariff that existed in Mr. Mackenzie's time—a tariff that you could not in the present state of the finances reach, even with the economical expenditure of the Mackenzie Administration—with pig iron free and their other iron at a low rate of duty, these men had absolutely more protection, as a matter of fact, than they have to-day. Yet the exist, and yet they are going on. Yet these men will tell you, if you touch the tariff, if you readjust it, you are gone. Tell me, if the Farmers' Binder Twine Company or the Consumers' Cordage Company have shut down in Brantford? If they have not, why not? because they were interfered with not by the Liberals but by the Tories. They had 25 per cent. protection, and the next minute it was down to 13 1-2 per cent. They did not close down, and the operatives are not on the street. Yet they will tell oyu, if the Liberals come into power, you will all be out of employment and the industries will all be shut up."

Discussing Sir Charles Tupper's assertion that the policy of the Liberals is "free trade as they have it in England." Mr. Paterson reminded his hearers that Mr. Laurier had never said that his policy was free trade as they have it in England. Mr. Laurier had said that English legislation in fiscal matters was his ideal, but Canada could not reach it. He admired it more than German or American protection, but it would be many a long year before we could reach the English system, or anything like it. Mr. Paterson advocated a fair measure of reciprocity with the United States if it could be obtained. While upon this subject he recalled the fact that Sir Charles Tupper had been obliged to confess to Mr. Blaine that during the campaign of 1891 he had spoken untruly when he told the Canadian people that the invitation to negotiate for a treaty had come from Washington. Mr. Paterson justified the policy of Mr. Laurier on the Manitoba school question.

ARCHBISHOP LANGEVIN

Spoke in Montreal But Avoided the School Question.

Montreal, May 13.—Archbishop Langevin was announced to preach tonight in the parish church of St. Anne's, the constituency of James McShane. In view of his utterances on the school question in Hull, Joliette, St. Isidor, St. Constant, Laprairie and elsewhere, it was expected that he would again attack the Liberal party. The church was crowded, and among the audience were Mr. M. J. F. Quinn, the probable Conservative candidate, and many other politicians. Much to their surprise and disappointment, the archbishop did not touch the school question at all. He announced that he had been asked by the venerable rector, the parish priest, to say a few words about the Indians in his archdiocese. He said that he gladly accepted the invitation, and took the opportunity of asking for a collection on their behalf. The sermon described the pagan life and customs, and the need of converting them to Christianity, but contained no mention of schools. This change in the course of the archbishop has occasioned a great deal of comment.

The collective mandament prepared by the Bishops of the ecclesiastical Provinces of Quebec, Montreal and Ottawa will be read in all the churches next Sunday. As the Diocese of Ottawa includes two counties in Ontario, the mandament will be read in that district as well as throughout the Province of Quebec. It is said on good authority that the mandement defines the rights of bishops to supervise and control the education of the young, and after reciting the events in connection with school legislation in Manitoba, expresses profound regret at the fact that the Catholic members of the Commons disagreed on a question of such vital interest to church and religion. It is stated that the duty of Catholics is to maintain Catholic schools, and for this purpose the faithful are instructed to exact from candidates a pledge to vote for Remedial Legislation, and to vote only for such as do so. It is decreed to be a grave error and fault and a matter of conscience for electors to vote for any candidate unpledged to support the Remedial Legislation approved of by the Bishops, or a fault for members of Parliament to refuse to vote for such.

A woman never really knows the meaning of happiness and content until she is the mother of a healthy, happy child. The health of the child depends on the health of the mother, both before and after birth. Most all of women's weakness and particularly the weakness that most strongly influences the health of children, comes from some derangement or disease of the distinctly feminine organs. Dr. Pierce's Favourite Prescription will cure troubles of this nature. It should be taken regularly by every woman during the entire period of gestation. It gives strength to all the organs involved, lessens the pains of childbirth, and insures the health of both mother and child.

THE MAY OF 1895.

I have often been inquired of regarding frost of May, 1895. The following is the list as taken from my record, with a correct account of weather and date; but bear in mind 32 degrees, being the freezing point, brings ice:—I have seen white frost on some things at 44 degrees. On the 12th, at 33 degrees flurries of snow, with frost; on the 13th, at 32 degrees, fine hail and frost; on the 14th, at 33 degrees, frost; on the 15th, at 35 degrees, slight frost; on the 16th, at 31 degrees, sharp frost; on the 17th, at 33 degrees, frost; on the 18th, at 33 degrees, frost; on the 20th, at 30 degrees, frost; on the 21st, at 33 degrees, frost; on 22nd, at 25 degrees, with hail and flurries of snow, hard frost with ice. This was the night doing most harm throughout the country, after which the month ended pleasantly.

THE ONLY HELP.

A Victim of Bright's Disease for Many Years—Cured by Dodd's Kidney Pills.

Neepawa, (Special), May 4th.—Mrs. T. H. McKee, formerly of Listowel, came here as a last resort. Had suffered ten years with Bright's disease. Reported to be past help and dying. Her re-appearance on the street in apparent good health was a pleasant surprise. The explanation given was that her little boy had insisted that she should use Dodd's Kidney Pills, and prophesied that they would cure her. She says:—"From the first few doses I began to feel better, and after taking four and a half boxes I say it with heart-felt gratitude I am perfectly cured." Dodd's Kidney Pills is the only medicine in the world that has ever cured a case of Bright's Disease at such a stage.

Winter cough, sore throat, asthma, bronchitis, croup, etc., are more quickly and easily cured by Wood's Norway Pine Syrup than by any other means.

First Communion BOYS' SUITS

Parents:—

You whose Boys are preparing to go up for their First Communion, don't say that "anything is good enough for a boy." You surely will not take that attitude towards your boy, and so cut him off from one of the manliest of virtues—personal pride, not conceit. If honest and fine conversation is good for your boy, why not honest, decent and fine clothes?

Does he not, at his young and eager age, absorb the character of the surroundings you place him in more than he will ever again in his life? Think again: Of course you are proud of your boy—of HIM, not of his clothes. Your satisfaction with him increases, when he is well dressed. It is more intense if economy is added—not the economy that keeps you worrying to save a penny by making his little suit yourself, when the Little Prices we have secured for you, will save you every penny you can possibly save by the hardest of home work.

Let us help you to surround your boy with honest, strong and fine Clothes, Hats, Shoes, Furnishings. We can help you by selling outfits cheaper than you can make them at home. We want you to bring in the boy and look at these suits. You can appreciate their good points. We have copied the Paris and London styles, have taken especial care in selecting the garments, and have a range of qualities and prices to suit everybody.

Three-Piece Suits.

These suits are very neat and pretty, made either stitched or bound. You can see for yourself they are well made—we know they are. Good cloth, good thread, good buttons, good work.

Two-Piece Suits.

Very suitable for communion. On that account we have even put more clothing value into them than in our regular make. There is something just a little better about the style and finish.

HATS—Stiff Hats, Soft Hats, Straw Hats and Caps.

TIES—In all the fashionable styles, bows in silk, satin, or cambric.

STOCKINGS, SHIRTS, GLOVES—Especially choice lines for this occasion.

HAMILTON'S CHOICE.

Messrs. A. T. Wood and T. H. Macpherson.

AND A STRONG PAIR THEY ARE

Chosen in Open Convention and Amid Great Enthusiasm—Mr. Wood Defends the Liberals Against Tory Attacks—Mr. Macpherson's Businesslike Speech.

Hamilton, May 14.—Amid tremendous enthusiasm and without a single discordant note being struck, 420 freely chosen delegates, in open convention, assembled to-night and picked out from their number two men to carry the banner of Liberalism in the electoral district of Hamilton. Their choice fell upon Mr. A. T. Wood and Mr. Thomas H. Macpherson, and there is no one who can truly say that a better selection could have been made. Both gentlemen are well-known and honored citizens, both have extensive business interests, and both are proud to be known as the advocates of Liberal principles. Mr. Wood is a manufacturer, who, while opposed to revolutionary measures, condemns the National Policy, and proclaims himself in favor of a judicious readjustment of the tariff. Mr. McPherson is a business man, who declares that the National Policy has injured and not benefited him, and that fiscal reform is necessary to the welfare of the commercial and industrial interests of the country. Twenty years ago Mr. Wood represented Hamilton in Parliament, and it is not charged against him that he ever sought anything but the welfare of his constituents and of the country at large.

Unlike the recent Conservative conventions in Toronto, there was no phalanx of policemen at the door to see that only machine-made delegates got in. The convention was wide open, and special invitations had been extended to the Conservative newspapers to send their representatives. The proceedings were thoroughly harmonious, and the convention was united and enthusiastic.

When the chairman announced that Messrs. Wood and Macpherson were the candidates there was no limit to the enthusiasm. The people rose to their feet, waved their hats in the air, and cheered their very loudest.

Mr. Wood gave fitting expression to his feelings of gratitude at this spontaneous manifestation of enthusiasm. He recalled the fact that a score of years ago he had fought under the Reform banner and twice carried it to victory.

A voice: You will do it again.

Mr. Wood expressed his pleasure at seeing so many of the veterans present ready to buckle on their armor and fight for the good cause. Likewise, he expressed his gratification at the presence of so many young Liberals. Turning to the consideration of public questions, Mr. Wood alluded to the blue-ruin prophecies of the Conservative leaders and newspapers. "Who are the people?" he asked; "who have the capital invested in the manufacturing industries and commercial interests of this country? Surely there is no one bold enough to say that Conservatives only have money invested in manufacturing industries; that they are the only parties who are able to develop the resources of this country? I know that one-half, if not more, of the capital invested in the manufacturing industries of Canada is owned by the followers of the Hon. Wilfrid Lourier. That being the case, do not you think it would be a strange thing that we would adopt a policy that would have an injurious effect upon our own interests? I think we know how to take care of our own interests just as well as the Conservatives do, and we are no more likely to bring about blue-ruin and destruction than they are. The Liberal party of Hamilton are as much interested in the welfare and success of business of all kinds throughout the country as the Conservative party are, and the manufacturers of Hamilton and of the country can trust the Reform party to deal as fairly, honestly and intelligently with the business question as the Conservative party or Government can do or have done. I am considerably interested in a manufacturing business. Whether I am in Parliament or out of Parliament I am perfectly willing to trust my interests in the hands of the Laurier party led by Mr. Laurier. I am *quite satisfied* that justice will be done to all parties, and that when the readjustment is made of the tariff it will be in the interest of all concerned. I do not believe in any very rapid changes. The changes should be made with ample notice to those interested, on the principle that was adopted in England when the free trade policy was commenced—on a sliding scale—in which case there was no hardship suffered by manufacturers or the holders of large stocks.' Speaking on the anitoba school question, he declared that Ontario had no business to interfere with the internal affairs of Manitoba.

Mr. MacPherson was greeted with a demonstration that developed into an ovation. He began by expressing the pride that he felt at being associated in the fight with such a worthy standard-bearer as Mr. Wood. He said that after the statement of Mr. Wood it was not necessary to speak at length on the trade question. He declared himself to be a free trader in principle, but with his leader he recognized the fact that that goal could only be approached gradually, and that existing conditions would have to be considered in framing the fiscal policy of the country. The Globe had been asking day after day, "Has the National Policy made you rich?" For his part he wished to say that it had not; on the other hand, he had suffered from it. It would be the duty of the Liberal party to reduce taxation and improve the condition of business throughout the country. Discussing the question of Imperial federation, Mr. Macpherson pointed out that while Sir Charles Tupper claimed it as his policy, nothing was more calculated to make it impossible than the present fiscal system. If Imperial federation were an object to be desired it *was not the Conservative policy*, but the Liberal policy, that was conducive to its realization. In regard to the Manitoba school question he felt the minority should have their rights, but there was a right way of going about it, and Sir Charles Tupper, he believed was not going the right way. He had no right to push his opinion down the throats of the Manitobans. Mr. Macpherson declared that he would give a general adherence to the platform laid down by Hon. Mr. Laurier, but he would not give a slavish support to any party or any measure that did not commend itself to his judgment.

A resolution pledging the Liberals of Hamilton to do all within their power to make Laurier the next Premier of Canada, and endorsing the platform adopted at the Ottawa convention, was *unanimously* adopted.

The singing of the national anthem brought the convention to an end.

The Winnipeg Contest.

Winnipeg, May 14.—Mr. Martin is making a house-to-house canvass of electors in Winnipeg and is meeting with gratifying success. His supporters now estimate a majority of five to six hundred. Mr. Martin will receive a strong support from the McCarthyite wing of the Conservative party, a no mean faction in Winnipeg. He will be endorsed by the Orangemen in a body and many Catholic votes will also go in his favor. His friends have started to work with a will and already one-half the city has been canvassed. The Macdonald men are also beginning to show increased signs of activity. It is Mr. Macdonald's intention to speak at Mr. McCarthy's meetings here if he is granted permission to do so.

Patron Candidate Postlethwaite positively declines to make way for Mr. McCarthy in Brandon constituency, maintaining it would be a disgrace to the order to retire at the present juncture.

OTTAWA'S CANDIDATES.

Mr. Taylor McVeity Not Very Sound—J. M. Booth Will Not Run

Ottawa, May 14.—Taylor McVeity, the nominee of a wing of the Conservative party, was sent for by the Premier to-day and asked to define his position. It is said Mr. McVeity was not very strong on protection and weaker still on Remedial Legislation. Jno. R. Booth was subsequently seen, but refused to be a candidate. It is now thought Hiram Robinson, lumberman, will run in the straight Conservative interest. The convention takes place to-morrow evening.

Conservative Ward meetings were held last night for the selection of delegates to the convention to be held this evening to nominate a straight Tory candidate. The complexion of the delegation looks like the selection of Hiram Robinson and N. Champagne. There will then be three Conservative candidates in the field.

JOHN ROSS ROBERTSON

May be the Independent Candidate in East Toronto.

Mr. John Ross Robertson is being pressed to come out as an independent candidate in East Toronto, but so far he has declined to stand, and is at present in New York, whither, it is said, he went to escape the importunities of those who want him to run.

The statement was made yesterday by a Liberal that Mr. Robertson would be nominated at the mass-meeting to be held by the independents in the Pavilion to-morrow evening. It is said that in case he does come out he will undertake to oppose the Government on every question until the Remedial Bill is dropped.

An evening paper was yesterday responsible for the assertion that the Rev. Dr. Dewart was likely to stand in the Liberal interests either in Centre or East Toronto. On enquiry, however, it is found that the ex-editor of The Christian Guardian has not been even approached by the Liberals.

Liberals in Cape Breton.

Halifax, May 14.—At the Liberal convention at Sydney, C.B., this evening, Dr. Kendall and Joseph McPherson, ex-M.L.A., were nominated as candidates for Cape Breton County; and at Yarmouth the Conservatives nominated Jacob A. Bingay.

IN MATABELELAND.

The B S.A. Company Will Pay the Troopers

FOR THE DEFENCE OF BULUWAYO

The Decision Has Quieted the People—Mr. Chamberlain Sends a Despatch to Sir Hercules Robinson Denying That Britain Champions the South Africa Company.

London, May 14.—The meeting of the troopers recently held at Buluwayo to censure Earl Grey, Administrator of the British South Africa Co., for refuting to promise that the company would compensate the troopers for time they were employed in the defence of the town against the rebellious Matabeles, has had the effect of opening the company's eyes to the value of the services rendered by the troopers. A despatch from Buluwayo to the Central News says it has been officially announced that the company will fully compensate the troopers. This has had the effect of removing the disquiet among the people of the town arising from the threat of the troopers to no longer support the company against the Matabeler.

CHAMBERLAIN V. KRUGER.

The Colonial Secretary Denies That Britain Champions the B.S.A. Co.

London, May 14.—Mr. Chamberlain, Secretary of State for the Colonies, has sent a despatch to Sir Hercules Robinson, Governor of Cape Colony and British High Commissioner in South Africa, with reference to the message recently received by Gov. Robinson from Dr. Leyds, Secretary of State for the Transvaal, in which the latter noted the partiality shown by Great Britain towards the directors of the British South Africa Co. and also with reference to President Kruger's expressed wish that he had been personally present in the House of Commons to refute the statements of Mr. Chamberlain during the debate on the colonial estimates. In his despatch Mr. Chamberlain says he is of the opinion that President Kruger has been misled by reading a summarized report of the debate. He deprecates the formation of premature judgment based on such reports. He denies that Great Britain champions the directors and announces that an enquiry will be made into the affairs of the company, until which time the Government cannot decide anything concerning the company's future.

Mr. Chamberlain adds that the Government does not see how the exercise of clemency in the case of the convicted members of the Reform Committee is or ought to be dependent upon the language of unspecified persons who are supposed to defend the raid into the Transvaal. He expressed his confidence that President Kruger will not take any such language into account, and concludes by expressing his sympathy with Mme. Kruger in her illness.

It is reported from Pretoria upon good authority that the Johannesburg Reform Committee prisoners, who are now held in custody in Pretoria, pending the decision of the authorities as to their punishment, will, with the exception of the leaders, be fined and released next week.

CHINA WARNED.

Will be Held Responsible for the Infringement of British Rights.

London, May 14.—In response to a request for information in regard to the recent cession by China to the Russian Steam Navigation Company of a portion of the foreshore at Che Foo, which was claimed by an English company, Mr. George N. Curzon, Under Secretary for the Foreign Office, stated in the House of Commons this afternoon that Her Majesty's Minister at Pekin had sent a cable despatch to the Government at London, saying that a concession had been granted by China to a Russian firm at Che Foo by which British vested rights were infringed. Mr. Curzon added that the Minister in the despatch also said that he had informed the Chinese Government it would be held answerable for all injury to British interests resulting from granting the concession.

Rhodes Must Leave First.

Berlin, May 14.—The Neueste Nachrichten's London correspondent telegraphs that President Kruger has cabled to Mr. Chamberlain, the British Colonial Secretary, saying that the release of the members of the Reform Committee will be neither cancelled nor delayed until Cecil Rhodes leaves Africa.

Fleeing From Cholera.

London, May 14.—The Chronicle will tomorrow publish a despatch from Trieste saying that 134 fugitives from Alexandria, Egypt, have arrived there on board the steamer Semiramis. They declare that cholera is severe in Alexandria.

The Sultan Fears Assassination.

Berlin, May 14.—The Vossische Zeitung publishes a despatch from Constantinople, which says that owing to the Sultan's fear that he will be assassinated as was the Shah of Persia, 200 Armenians have been arrested in the city during the last few days. It is credibly stated that the prisoners have been cruelly tortured.

DROWNED IN THE CANAL.

A Young Son of Mrs. William Bradley of Merritton Fell in.

Merritton, May 14.—A young son of Mrs. William Bradley, aged 9, was playing with a companion beside Lock 10, old canal, last evening, and fell a distance of ten feet into the lock. The other boy, who was only 7 years old, did not give the alarm at the nearest place, and before assistance arrived the little fellow was drowned. The body was recovered in about an hour. Mrs. Bradley, who is a widow, with a family of four smaller children remaining, is heart broken.

Gold for Canada.

New York, May 14.—A withdrawal of $300,000 in gold was made from the sub-treasury to-day for shipment to Canada.

MANUFACTURERS NOT AFRAID.

Politicians who found people credulous enough to believe that the N. P. would make of Canada a great nation, are still silly enough to try to make people believe that the advent of a Liberal government to power would mean ruin to our manufacturing industries. Any one knows that this is nonsense, that Liberals have enough stake in the country to prevent such a calamity. The Liberal policy is to assist manufacturers by making the tax on raw material lighter, and this will help the employes to better wages. To show that the manufacturers themselves are not afraid of such a possibility, that they do not believe the blue ruin preached by the professional politicians, organs and manufacturers who have special and undue privileges, the following suffices.

Brantford is the greatest manufacturing centre in Canada for its population, and yet at a meeting addressed by Mr. Wm. Paterson, in that city, the following prominent manufacturers occupied seats upon the platform, endorsing and applauding the Liberal trade policy as set forth by Mr. Paterson, whom the Conservatives have, with a wisdom hardly to be expected, and with a prescience begotten of funk, kindly nominated Minister of Trade and Commerce in Mr. Laurier's Cabinet that will be formed after the 23rd of June. The names and business of these manufacturers are as follows:

Mr. Charles H. Waterous, President of the Waterous Engine Works Co.

Mr. William Buck, of Buck's Foundry.

Mr. E. L. Goold of the Goold Bicycle Company.

Mr. J. E. Waterous, of the Waterous Nail Company.

Mr. R. M. Fullerton, of the Snowdrift Company.

Mr. John A. Shultz, of the Shultz Manufacturing Company.

Mr. Henry Yeigh, of the Goold, Shapley & Muir Company.

Mr. M. Schuler, of the Brantford Stoneware Company.

Mr. W. E. Wisner and Mr. Franklin E. Grobb, of the Massey-Harris Company.

Mr. D. B. Wood of Wood Bros., White Flour Mills Company.

Mr. Frank Cockshutt, President of the Board of Trade.

HIGHFALUTIN' RUMBUG.

Sir Charles Tupper in sonorous sentences extols the grandeur and glory of the preferential trade scheme and the federation of the empire. This is a dream or rather a nightmare at present and with the present Dominion Government in power. Speaking on the subject Hon. Mr. Chamberlain, the Colonial Minister in the Imperial Cabinet, says:—

"But the principle which I claim must be accepted if we are to make any, even the slightest, progress is that within the different parts of the empire protection must disappear, and that the duties must be revenue duties and not protective duties in the sense of protecting the products of one part of the empire against those of another part."

And the present Government comes out flat-footed for the old policy of high taxation called protection, and one, too, that discriminates against the mother country and favours the United States. The average tax on American imports is 12½ per cent.; the average duty which these hyper-loyal Tories levy with their protective policy on British imports is 22½ per cent—a difference of 10 per cent in favour of our Yankee neighbours. And under these circumstances Sir Charles wishes the people to become fools enough to believe that Great Britain will give the preference to Canadian imports by going back on her free trade policy by taxing the imports from other nations, in favour of Canada, which shows its loyalty to Great Britain by taxing her products 10 per cent. higher than those imported from the United States. This is nothing short of humbug, and one of Dr. Tupper's quack dodges to dose the people with wind. The only merit in this chimerical scheme is that it costs nothing but the national self-respect that a Canadian statesman can talk such high-flown absurdity. But Sir Charles' fads are not all harmless and inexpensive. While Hon. Wilfred Laurier was giving the electors of Quebec promises of economy and reduction of expenditure, Sir Charles Tupper was trying to bribe the electors of Manitoba by the promise to build the Hudson Bay Railway, which which will cost from twelve to fifteen millions of dollars, and a government commission has reported against the scheme. These two incidents are given as samples of the political character and aims of the two men—Laurier for honest and economical government.—Tupper for booms and big projects and hang the expense, more booming and more mountainous growth of the public debt. Tupper has made enough election promises so far in the campaign, to (if carried out) add *fifty millions* to the national debt.

"This will be the first time in fifty years that there has been an election without my having a hand in the fight," Sir Mackenzie is reported to have said. Sir Mackenzie's "hand" is replaced by Sir Charles Tupper's foot that kicked him out of the position of Premier.

The British Government has issued an order that the word "foreign" is not to be applied to any British possession. It implies a growing appreciation of the colonies and of the unity of the Empire. The Canadian government makes the Mother Land a "foreign" country by imposing a higher tax on her products than on those of a foreign nation to the south of us.

The population of North Brant in 1871 was 17,645, in 1891 it was 16,906, a decrease of 602; and yet this riding adjoined Brantford, the smartest manufacturing place of its size in Canada. Under the N. P. every village was to be a centre of population devoted to manufacturing, and the creation of a home market that would absorb all the farmers' small produce. Instead it seems to have absorbed the population in North Brant.

LAKEFIELD.

From Our Own Correspondent.

Messrs. Geo. Anderson, Clarence Bell, Fred. Anderson and —— Hilliard, of Toronto, passed through here on Tuesday, on their way to Stony Lake.

Prof. J. Arlington Cooke, of Oshawa, delivered an eloquent address to the Foresters of Court Lakefield, No. 43, on Thursday evening last. There was a large attendance of the members present, with their wives, who were delighted with his address on "Heads and Faces We Meet." A hearty vote of thanks was tendered the lecturer at the close for his pleasing and entertaining lecture. He remained over until Saturday, during which time a number of our citizens had Prof. Cook make a phrenological examination of their heads.

Rev. A. C. Reeves was in Havelock on Sunday last occupying the pulpit of the Presbyterian church in that place.

Rev. R. P. Mackay, of Toronto, Foreign Mission Secretary of the Presbyterian church, occupied the pulpit of the Presbyterian church here last Sabbath, preaching two eloquent sermons.

Mr. E. Crickmore and wife, of Toronto, were in the village last week, the guests of Capt. Halifax.

Miss Lily Cox, who has been visiting friends in Port Hope, returned home on Thursday.

Mr. and Mrs. Wm. Baptie left here on Monday for Fenelon Falls to resume their positions on the dredge.

Mrs. Capt. Eden, of Peterborough, is the guest of Mrs. Tate.

Mr. C. Young, of Young's Point, was in the village on Monday.

Mr. Aylmer, contractor of the T. V. C., was in the village on Tuesday.

Mr. W. W. Grant, of Peterborough, spent Sunday in the village.

Mrs. R. J. McWilliams was in the village over Sunday, the guest of her father, Mr. S. Nelson.

Messrs. E. C. Gapey, Jas. S. Williams, F. B. Callister, Munroe A. Green, C. C. Myer, of Rochester, New York, spent Monday night at the Queens hotel, and went up to Stony lake per steamer Mary Kilen, to arrange for the building of a new summer hotel at some point on Stony lake.

The steamer Golden City was put in the water Monday afternoon, and will likely make a trip up the lakes some day this week.

St. Paul's R. C. Church will hold their annual picnic on Monday May 25th.

LOCAL UNION RALLY.

The local union of Christian Endeavour, Lakefield, has secured the services of the Rev. J. McEwen, Conductor of Christian Workers' Institutes in the Province of Ontario, to lecture in the Methodist church on Friday evening, May 15th, at 8 o'clock. The lecture—"A Bird's-Eye View of History," will be illustrated by means of a chart, twenty-nine feet long by ten feet wide. The largest and most interesting chart on this subject on the continent. A cordial invitation is extended to all to be present to enjoy the intellectual treat.

The regular meeting of the Lakefield Public School Board was held on Wednesday evening of last week, at which no important business was transacted.

ADDRESS.

The Women's Foreign Missionary Auxiliary of the Presbyterian church have secured the services of the Rev. Dr. T. G. Smith of Kingston, to deliver his entertaining lecture, entitled "The Boys I knew at Home," on Monday, May 25th, in the town hall.

DISCHARGED.

On Wednesday morning last the "Black Maria" was brought into requisition by Constable Doidge to convey Alex. Ralph, who had been imbibing of the flowing bowl a little too freely, to the police cells. He was brought up before Magistrate Hull in the evening, who discharged the prisoner, telling him to leave town immediately. He did so.

R. Graham & Son have a very fine assortment of new ready-made clothing at especially low prices. Also a splendid range of tweeds for ordered clothing. They will be pleased to receive your order for a suit.

A FINE CASE.

The customers and friends of Mr. J. E. Kelly will be treated to an agreeable surprise on entering his barber shop now. He has added to the furniture of his shop a fine new cup and mirror case, which was put in this week. The case is a very handsome one, is built for two chairs, with the cup stand in the centre, and is finished in imitation of walnut. It is set off with two very fine German plate bevelled glasses which reflect a true image of oneself. The case was made by Mr. Chas. Gryils of this place, and reflects great credit on his workmanship, as he is noted for doing fine work in his line Mr. Kelly has also placed a fine new walnut chair in his shop, and he can now boast of having one of the best equipped barber shops in the country, and customers can always depend on having a smooth shave, a satisfactory hair cut and the best attention at his tonsorial parlour on Queen street.

There was no meeting of the council this week.

New flowers, new ribbons, new hats—latest designs—have been received this week at R. Graham & Son's millinery rooms.

The John Cosgrove Company spent two nights here (Monday and Tuesday), and gave two of their delightful entertainments. They give the best entertainment of any travelling company who have visited this place. They should attract large crowds wherever they go. A handsome bouquet was presented to Miss St. John, of the Cosgrove Concert Co., by Mrs. Tate.

Maltine With Coca Wine Feeds the Nerves.

Are you all run down? Are you tired in body? weary in mind? Does lassitude burden and unfit you for mental or physical labor? Does sleeplessness rob you of mental force? make your days a weariness and night a torment? In brief, is life rapidly becoming a burden to you? Thousands are living in this miserable condition while relief from this worst of physical and mental conditions may be speedily obtained by the use of Maltine with Coca Wine. It is a real tonic, for it builds up mind and body, supplies pure, rich blood, restores appetite, and adds wonderfully to the digestive power of the stomach. Maltine with Coca Wine renews every fibre of the body, gives mental activity. Maltine with Coca Wine is a builder—builds nerve, builds muscle, builds bone. It gives vim and nerve. It braces, not as a stimulating agent; it braces because it cures. That is what you need.

DOWN WITH SLANG.

And now the pupils of the Park school, Toronto, have organized a society for the suppression of slang. "Bully for them," says the Chatham Planet. "The fellow who don't know enough to shoot off his mouth right wants to be sat down upon good and hard, every time. We have a thundering sight too much of this go-as-you-please style of gassing each other. The quicker the chump who can't open his face to gab without fracturing all the rules of grammar gets jumped upon with both feet and swatted once or twice in the gob the sooner this sort of funny business in the use of the Queen's English will get a head put on it. Go for 'em, boys; pile in girls; get up a slam bang society that will knock slang into a cocked hat. We never had any sort of use anyway for a rooster who couldn't talk straight, and if you can get there by putting a spoke in the wheel of his tongue you can just bet your boots we'll see that you get the cake. That's what!"

Now wouldn't that knock your eye out.

The Fools Not All Dead Yet.

Even a blind man can see that more clearly than daylight, or else why should so many continue to use ill smelling, oily, and often useless preparations for the relief of pain, when a preparation just as cheap, elegant, more powerful and penetrating as Nerviline is, can be purchased from any dealer in medicine? Nerviline instantly cures aches and pains. Nerviline is the most efficacious remedy for internal aches and pains. Nerviline applied externally subdues the most intense pain almost at once.

That hacking cough can be quickly cured by Hagyard's Pectoral Balsam. Price 25c.

Winter cough, sore throat, asthma, bronchitis, croup, etc., are more quickly and easily cured by Wood's Norway Pine Syrup than by any other means.

ONE HONEST MAN.

Dear Editor:—Please inform your readers that if written to confidentially, I will mail in a sealed letter, the plan pursued by which I was permanently restored to health and manly vigor, after years of suffering from Nervous Weakness, night losses and weak shrunken parts.

I have no scheme to extort money from anyone whomsoever. I was robbed and swindled by the quacks until I nearly lost faith in mankind, but thank Heaven, I am now well, vigorous and strong, and anxious to make this certain means of cure known to all.

Having nothing to sell or send C.O.D., I want no money. Address Jas. A. Harris.

CHEESEMEN WRANGLE

About the Cause of Low Prices of Cheese.

LIVELY MEETING AT BROCKVILLE

Mr. Ware of Montreal Pitches Into Prof. Robertson and the Government's Policy—Mr. Derbyshire and Whip Taylor in Defence of the Government's Course.

Brockville, May 14.—The opening meeting for the season of the Brockville Dairymen's Board of Trade, held here to-day, was well attended, both by factorymen and buyers. Forty-seven factories registered 1909 cheese, of which 1100 were white and the balance colored. Sales were 451 white at 7 13-16 cents and 83 colored at 7 1-4 cents.

Among those present were Messrs. J. G. Warrington, A. W. Grant and W. T. Ware of Montreal. The gentlemen all spoke briefly and Mr. Grant gave his views as to the reasons for the low prices obtained for cheese last season. This, he contended was largely due to the fact that cheese was no longer a staple food in England. It came into competition with other and cheaper food products, and these were largely imported from various countries. He was of the opinion that low prices for cheese had come to stay.

Mr. Warrington said that to-day first-class Canadian cheese was selling retail in England at 10 cents per pound.

Mr. Ware, in the course of his remarks, said that cheese was lower in England to-day than ever before in its history. They were low, too, in Canada, and in his opinion two causes could be assigned for this fact. The first was that cheese last year came into competition with other products which were very cheap. The second and the principal cause why the cheese producers on Canada received less for their product than they should have received was due to the iniquitous action of the Dominion Dairy Commissioner in holding 25,000 boxes of Prince Edward Island cheese as a wet blanket over the business of the year. This was the reason, and there was no gainsaying it, why the farmers had been obliged to take such a low price for their cheese, as it had taken at least 1-2 a cent per pound out of every factoryman in this section. It was all right, he said, for the Government to foster the cheese industry in a legitimate way, but when they went into direct competition with the trade it was nothing short of iniquitous. There was no use of the Government trying to shirk the question of purchase, as some of the cheese had not yet been paid for and suits for payment were now being threatened.

Mr. Derbyshire defended the policy of the Government regarding the Prince Edward Island cheese. He contended that these cheese didn't come into competition with those from Ontario. He also defended the bonus to buttermakers and said he considered it the best spent money ever advanced by the Government. He hoped they would also carry out the proposed cold storage scheme by which butter could be sent across the ocean in better shape.

Mr. M. K. Everts strongly repudiated the statements made by Mr. Derbyshire as to the butter bonus, and asked, if it had been a good thing, why was Canadian creamery butter selling to-day in Montreal for 14 cents?

Mr. Derbyshire contended that 20 cents had been paid up to the 24th of April.

Mr. George Taylor, Gananoque, then took the platform in defence of the Government's action in bonusing the Prince Edward Island cheesemakers, and said it had simply acted as a banker would act in the matter. It had been decided to assist the Island makers in some way and $40,000 was voted without opposition with that object in view. The Dairy Commissioner said that if the goods didn't go forward at once the Government could make an advance on them until sold. Down at the eastern end of the Island the cheese had been held and the advance made. Every dollar was paid back and the people of the Province had suffered no loss.

Mr. Cluff was surprised to hear Mr. Taylor talking about something he evidently knew nothing about and trying to fool the public. The Prince Edward Island cheese had had a bad effect on the Canadian cheese market in England. When in England recently he had met Mr. Hodgson trying to sell their cheese for the Dominion Government. They were never sold to Hodgson, but were given to him on consignment. Hodgson was doing his best to sell the cheese, and in order to do so was underselling others in the trade. He could tell them that those in the cheese trade in England did not feel at all kindly towards Mr. Robertson. The butter bonus business was not clear through. The high price last year was on account of scarcity, not because of the bonus, by which the Government bought butter at 20 cents and sold it at 14 cents. The Prince Edward Island cheese business was not settled yet. He had seen to-day a letter from Prof. Robertson which satisfied him it was not. Prof. Robertson was acting in a very peculiar manner regarding cold storage on the steamers. In his arrangements on behalf of the Government for cold storage on steamships he had excluded the Warringtons from using it on account of some little difficulty he had had with them. The whole system adopted by the Government was rotten clear through.

Robbed of $20,000 Worth of Sparklers.

New York, May 14.—Eugene C. Akers, who keeps a confectionery store at 273 Sixth-avenue, reports to the police that on Monday night he was robbed of diamonds valued at $20,000. They were taken from a safe in his store, the combination of which was out of order. Besides the diamonds there was taken $350 in money and a cheque for $78.50. John H. Rydell, a former employe of Akers, has been arrested on suspicion. He denies all knowledge of the robbery.

Only Two Methodist Bishops.

Cleveland, May 14.—The M. E. Conference to-day decided to elect two new bishops after considerable opposition. It was at first proposed to add five bishops, one a colored man, but the proposal met with vigorous opposition and a compromise on two was adopted.

FORCE OF HABIT.

London People have become Used to the Great Specific Remedy.

London, May 11th.—The despatch from Detroit with reference to the cure from Bright's disease and blood poison of Mr. Langley of this city by the use of Dodd's Kidney Pills, has recalled the wonderful facts of the case to the citizens, among whom Mr. Langley is well known. It has reminded them that Mrs. Langely, among others, also made an equally wonderful recovery. The use of the pills, however, has become so universal here, and there have been so many instances in which they have been used with beneficial results that a similar case would hardly excite as much interest now as it did then when the medicine was less known.

MARY SEATON'S TRIAL.

The Strathroy Arson Case at London Assizes—Charles Williams Tells What the Prisoner Said.

London, Ont., May 14.—The jury disagreed at the assizes to-day in the case of William Bacon of London West, charged with highway robbery.

Mrs. Mary Seaton's trial was then proceeded with. She is alleged to have incited Charles Williams, a colored man of Sarnia, to set fire to certain properties belonging to her husband in Strathroy. Williams was the first witness called. He said Mrs. Seaton told him there was $700 in it for him if he cared to go to Strathroy and do her bidding. She would pay him $200 cash and $500 after the work was done. She had offered to buy him a railway pass. Williams admitted that he followed the life of a sport, whose business was betting on the races and playing cards. He had worked one day a year nearly every year. The grand jury has returned a true bill against William Meaden, charged with perjury.

For Nine Years

Mr. Samuel Bryan, Thedford, writes "For nine years I suffered with ulcerated sores on my legs; I expended over $100 to physicians and tried every preparation I heard of or saw recommended for such disease, but could get no relief. I at last was recommended to give Dr. Thomas' Eclectric Oil a trial, which has resulted, after using eight bottles, internally and externally, in a complete cure.

If your appetite is poor, your energy gone, your ambition lost, B.B.B. will restore you to the full enjoyment of happy vigorous life.

WAS ALICE M. HEALD

The Colonnade Hotel Victim—Believed to Have Been the Wife of George Blanchard

Worcester, Mass., May 14.—"Mrs. Everett," the woman who committed suicide in the Colonnade Hotel in New York, is believed to be Alice M. Heald, who married Geo. Blanchard in Concord, Mass. They separated. He came to Worcester, and she went to Boston. She was always known as Kitty Heald, and after her marriage as Kitty Blanchard, which may explain the initials "K.B.," found on her clothing. Her father was in the drygoods business in Lexington some years ago. He was afterwards taken to Worcester Lunatic Asylum, whre he died. This may also explain the note left by Mrs. Everett, in which she mentioned hereditary insanity.

He will take no Risks.

Shrewdness of a wellknown City Merchant.

HE KNEW WHAT WAS GOOD FOR HIM.

In winter when Canadians spend a large portion of their time indoors and cannot have the same variety of fresh food as in summer and fall, indigestion and dyspepsia afflict a majority. "If anybody will tell me that dyspepsia in its advanced stages is perfectly curable," said a Toronto merchant, "I will take his word. Personally I run no risks. As soon as I feel a sense of weight in the stomach, after a meal, I know that my blood is sluggish in circulation. In my business I cannot take much exercise, and I fight the first sign of stomach troubles with Scott's Sarsaparilla. It has never failed me, and has saved me many a doctor's bill."

Scott's Sarsaparilla possesses medicinal properties superior to all other so-called sarsaparillas made. As a remedy for indigestion, rheumatism, pimples, scrofula and all blood diseases, physicians state that its equal was never known. Sold at $1 per bottle, of all dealers.

President Isaac Lewis of Sabina, Ohio, is highly respected all through that section. He has lived in Clinton Co. 75 years, and has been president of the Sabina Bank 20 years. He gladly testifies to the merit of Hood's Sarsaparilla, and what he says is worthy attention. All brain workers find Hood's Sarsaparilla peculiarly adapted to their needs. It makes pure, rich, red blood, and from this comes nerve, mental, bodily and digestive strength.

"I am glad to say that Hood's Sarsaparilla is a very good medicine, especially as a blood purifier. It has done me good many times. For several years I suffered greatly with pains of

in one eye and about my temples, especially at night when I had been having a hard day of physical and mental labor. I took many remedies, but found help only in Hood's Sarsaparilla which cured me of rheumatism, neuralgia and headache. Hood's Sarsaparilla has proved itself a true friend. I also take Hood's Pills to keep my bowels regular, and like the pills very much." ISAAC LEWIS, Sabina, Ohio.

A Break Down.

This morning as George Henry, who has secured the contract for watering the south end of the town, was just beginning his circuit, after filling his cart, the axle broke on George street just in front of the Pullman. An examination showed that the wood had rotted through. A new set of wheels was placed on the cart, and arrangements will probably be made for the supplying of iron axles as the dripping water soon rots the wooden ones.

NOTES OF THE BIG FIRE.

Some Further Particulars Regarding the Big Conflagration.

Mr. Carnegie, of the Auburn Company, stated last evening that it was impossible to say whether the big mills would be re-erected. If Messrs. Meldrum & McAllister were willing to re-occupy the premises he thought there would be no difficulty about the rebuilding.

The Hilliard residence and barns were not destroyed, but only slightly damaged by the burning brands.

The woollen mill was saved after all by the great work of the fire brigade. At the time of going to press yesterday, it looked as though it was certainly doomed. Mr. Kendry states that the damage to it and the stock will run up to about $3,000.

In the destruction of the mills the loss to the Auburn Company in Mr. Kendry's estimation is $30,000. There were no finer equipped mills in the Dominion and a shelter was in the course of erection on the east side so that the cars could be unloaded under cover in bad weather, so that all arrangements for shipping, etc., were perfect.

An estimate of the business done by Messrs. Meldrum & McAllister may be made when it is stated that their freight bills, alone, for one month generally footed up to $2,000.

At the time of the fire the men had just commenced to unload 7,000 bushels of wheat. A few hours later and this would have been consumed also.

The Telephone Company's loss in wires, poles, instruments, etc., is about $125.00, and the Light and Power Company and Telegraph Company also stand to lose something.

It is no exaggeration to say that a thousand people were up to the scene of of the fire last evening. The street cars were crowded until eleven o'clock, and hundreds walked up to the mills.

The telephone wires to the pump house are, of course, down, and it is a good suggestion of Mr. Carnegie, that two wires should be strung by different routes to this important point, as one wire may be cut off at any time by a fire.

The Fire Brigade made a great run to Auburn. Conductor Purser says that five minutes after the alarm was sent in from the mill the hose was being attached to the hydrant—distance over a mile. The local brigade cannot be beaten in the country for prompt and effective work.

Messrs. Meldrum & McAllister state that there was about 25,000 bushels of grain in stook at the time it was destroyed and that the loss on the stock, including wheat, coarse grain, rolled oats, flour, etc., will foot up to about $26,000. The insurance on the stock is $19,500. The machinery owned by the firm was valued at $14,000 and the insurance amounts to $9,500. The actual loss to the firm, over and above all insurance is, therefore, in the neighbourhood of $11,000, and the loss in business through being unable to meet the demand for their product will also be very large, although a considerable amount of stock is on hand in the down town storehouse. At the time of its destruction the mill was running night and day, to fill orders.

Mr. McAllister is deserving of a great deal of sympathy, as this is the third time he has been burnt out, and suffered heavy losses in the last few years.

The buildings, including half the dam, were purchased by the present Auburn Company for $37,000.

THE HORSE-THIEF STILL AT LARGE.

Brits's Case now Looks Very Dark—The Police on the Alert.

Mr. Andrew Lynn, of Hastings, arrived in town last night for the purpose of ascertaining if the horse purchased from Britz, the piano tuner, by Mr. Alex. O'Brien, was not identical with the one hired from him at Hastings by Britz on Monday last.

An inspection of the animal satisfied Mr. Lynn that it belonged to him, and at this morning's session of the Police Court he was granted a search warrant, and securing the horse has left for home with the animal.

At the time of getting the horse Britz told Mr. Lynn that he might be gone a week or ten days with it travelling around the country, and so no uneasiness was felt respecting it until Britz's escapade with Mosley's horse became public, when he at once came to Peterborough.

All the police along the front have been notified, and if Britz is able to cross the line he will be a sharp one.

It has been ascertained that the young woman with him is not his wife, as that personage resides with her children in Bowmanville.

OBITUARY.

Death of Mr. Robt. Meharry of North Monaghan.

The death of Mr. Robt. Meharry occurred yesterday at the age of 67 at his home in North Monaghan. Mr. Meharry was born in the County of Cavan, Ireland, and came to Canada about 50 years ago, settling in the township of Cavan. Some twenty-two years ago he moved with his family to North Monaghan, where he has resided ever since. He leaves a wife and eight children to mourn his loss. The deceased was a brother of Mr. William Meharry, also of North Monaghan, and was a quiet, unassuming man, much respected amongst his neighbours. The funeral will take place to-morrow afternoon from the family residence, just north of Mr. T. E. Bradburn's residence. Interment will be in the Little Lake cemetery.

THE TRENT VALLEY CANAL.

The EXAMINER and Mr. Stratton care little what the Review has to say about one or the other. For the past twenty years our contemporary has pursued a policy of misquoting, misrepresenting and falsifying the position of both on divers questions.

The Review founds almost a column of eloquence upon the false premises that Mr. Stratton was on a deputation to Ottawa to promote the construction of the canal. The fact is that he never went to Ottawa on any deputation, but the one that pressed the claims to assistance of the Peterborough, Sudbury and Sault Ste Marie Railway, which the Government promised to take into its serious consideration, and have been considering ever since with no result whatever. This work would have been of the greatest benefit to to Peterborough, but the Government took no action, and will take no action, unless the political emergencies of an election campaign make the project desirable from their point of view.

Now, as to the "frog pond" affair. What Mr. Stratton did say at North Smith, was that that the Trent Valley Canal was known at Ottawa as the "frog pond," and that Mr. Stevenson's fellow members were continually chaffing him about the sums that were being spent on his "frog pond." If our contemporary objects to the title "frog pond," as applied to the Trent Valley Canal, it must reckon with Conservative members of Parliament who baptized it (with cold water) under that appellation.

Now, as to the construction of the canal; had it not been for THE EXAMINER, in the interests of this district, prodding the Government with reminders of its broken promises, the work would not have been in the stats of progress it now shows; and if the Government could have been kept to its promises the canal would have been completed from Bay to Lake long before this.

The Government deserves to be severely condemned by the electors for the indifference they have shown towards this great work. If the canal is what it has been claimed to be at every past general election period for the past twenty years, why has it not been completed years ago? Why has it not been carried on in good faith? Why has five years, singularly coincident with a general election, been allowed to elapse between the spurts of activity that marked the survey and construction of portions of the canal? Why, if it is an important public work, has it been degraded into a mere vote-catching machine? We all remember that in 1891, on March 3rd—two days before polling—Sir John Macdonald sent a telegram to Mr. Stevenson, timed to operate as a roorback in influencing votes. The telegram, which was printed in the Review, double-leaded under flaming-headlines, read as follows:

KINGSTON, March 3rd, 1891.

The Trent Valley Canal Commissioners having reported favourably on the completion of the scheme, Parliament will be asked in the estimates for a grant for the purpose.
JOHN A. MACDONALD.

Then the Trent Valley Canal was of such supreme importance that the head of the Government—and a long head he had, too—in the throes of an election contest, when he was prostrated with fatigue, arising from the work of the campaign, saw the pressing emergency of making the people believe that he meant something this time. That was nearly five years ago and the promise that was two days before polling, so pressing that it had to be sent on the wings of lightning, has taken nearly five years for beginning of fulfilment. Five years ago that specific promise was made. Fifteen years ago that government solemnly pledged itself to build the canal and it is not until the year of grace, 1896, that work has begun on the second mile of canal construction. Does the government ask the people to consider themselves fools enough to believe that the government is not using the canal—not to catch "frogs" but votes? After the specific promise of '91, five years are allowed to elapse before a pick is lifted on the promised work and now, on the eve of an election, there is a tremendous show of activity and employment is given to labourers who will vote the government ticket.

Is this an honest and bona fide way of carrying on a great public work? If the canal is going to be of public use why not push its constriction and let the present generation have some benefit from it? Two generations have passed away since the work began, and unless we can bring on a general election every six months two more generations will pass away before the canal will be completed.

One would not be surprised to see another commission appointed to decide the feasibility of the work. At any rate we have surveys being made in the southern end in several different directions, to lead each of several towns to believe that it is to be the lake terminus of the canal.

There is no reason why, if the Government had acted honestly and squarely towards the work, the canal should not have been completed years ago. The delay should not be attributed to lack of funds. There has been enough money wasted since the Government in 1882, when Sir Charles Tupper personally went over the route, pledged themselves to construct the canal, to have finished it from end to end. There have been wasted, or boodled, or spent, beyond the regular estimated cost, the following sums;—On Tay Canal, $343,460; Little Rapids Lock, $250,000; Galops Channel, (abandoned) $900,000; Sheik's Island Dam, $155,000; Langevin Block, $355,000; St. Charles Railway, $1,587,000, and so on through a list of waste and boodle that would run into millions and take too much present space to exhaust.

The Review's fears that under the Liberal the canal would lapse. Not so, on the contrary it would be continued in a business-like manner and not as an election scheme. It would be a ruinous policy to discontinue the work when so much has been expended that it is useless without further expenditure. A Liberal administration would be bound to carry out the undertakings to which its predecessors had committed the Government. This was done by Mr. Mackenzie when he came into power. It was done by Sir Oliver Mowat when he carried out the undertakings of Mr. Sandfield Macdonald. So with the Trent Valley Canal, with this difference, that a Liberal Government will not hang it up as an election bait, but carry on the work on simple business principles.

THE AUBURN BRIDGE.

It is to be hoped that the deputation representing the town will be successful in bringing the Minister of Railways and canals to our way of thinking in reference to the addition of carriage ways to the new railway bridge to be erected at Auburn in lieu of a swing bridge on the canal, where it will cross the present line of the Grand Junction. This part of the line is to be abandoned and Lakefield will be reached by the direct route via the Auburn bridge, which route will be some four miles shorter and will be a great convenience to travellers visiting or returning from Stony Lake waters.

The new bridge is a matter of mutual convenience to the government and the Grand Trunk; and Peterborough should seize the opportunity of securing at a minimum of cost the much needed and long talked of foot and carriage bridge at Auburn. If we can get the bridge for the threefold purposes indicated—for the mutual convenience of the goverment, the railway and the town, the thing should be done at wholesale rates and the town would be the gainer in the matter of price and secure a better bridge than is usually constructed under coporation auspices.

A FEW STRAIGHT FACTS.

We are still keeping up our reputation for HIGHEST QUALITY of meats, and are pleased to learn that our trade is rapidly increasing, which may easily be seen by the way it is affecting other dealers. But how could it be otherwise when "cheap meats" is their cry—enough to drive customers to where they can depend on HIGHEST QUALITY OF MEATS. A few figures may not be amiss here to prove these statements. We venture to say that the average cattle which have been dressed in the town in the near past, by some of our practical men, have not averaged over 50% of beef to the live weight. However, our experience as buyers and dealers in live cattle with some of the most successful men in the business, for the past few years, has taught us that the cattle suitable for a successful meat trade should dress 60% of beef to the live weight of the animal. And we are pleased to assert that we have been successful in securing, so far, this class of stock. Thus a beast weighing 1,200 pounds live weight, in the first instance would dress 600 pounds of beef; in the second instance a beast the same weight, alive, would dress 720 pounds of beef. 120 pounds more meat on the same bone. It does not take a very practical man, nor yet one with over a quarter of a century's experience to decide which is the most profitable meat to buy.

In fact our customers say, (as all common sense people will say,) "we can not expect YOUR QUALITY OF MEAT at any reduced prices." We simply charge what all dealers in town were charging until their trade started to drop off. We also realize that it is impossible for one man to buy his stock, butcher it and give satisfaction to his customers, for each is a trade in itself. We thoroughly understand the buying; have engaged the very best skill to do our killing, and as has been admitted, engaged expensive skill for our cutting and curing, which is sure to give the best of satisfaction.

Our customers will be pleased to learn that we still intend keeping up our reputation for the HIGHEST QUALITY of fresh beef, pork, mutton, spring lamb, the choicest corned beef, pickled tongues, etc., also a full line of cured meats, no matter what some of our more practical dealers may say.

Do not forget to-night, our "Special Bonus," a round trip on the Electric Railway free to each customer leaving us an order.

NEWS NUGGETS.

Paragraphs Picked Up and Pencilled for Public Perusal.

—The Young People's Soiree which was to have taken place last evening, has been postponed for the present.

—Mr. J. H. Cobb, this morning, placed ten new seats at Court House Park. These, with ten or a dozen old ones, will go far to supply a long required convenience.

—An entertainment will be held in St. John's School House to-morrow afternoon at 3.30, by the members of the Mission Band. Parents are invited to come and bring their little ones.

—It is a shame that the bylaw regarding the throwing of paper, etc., on the street by merchants and others, is not more strictly enforced. George street has just been cleaned up, yet inside of an hour scraps of paper are found flying around as thickly as ever.

—"Alvin Joslin," with Chas. L. Davis in the leading role, will be the attraction at the Opera House to-night. It is one of the best plays ever put before the public, having had one continued run of eighteen years. Don't miss the fun, 180 laughs in 180 minutes. Prices 25, 35 and 50c. First two front rows reserved seats, 75c.

—The West End Greenhouse of Mr. G. M. Roger is just now in a blaze of bloom and foliage. Under Mr. Blade's skilful care everything is in vigorous condition, and well advanced. And well it is so; for business is quite lively and the daily demand for plants and flowers needs ample stock to keep it going.

PERSONAL.

Dr. Lamont, of the Toronto General Hospital, is in town to-day.

Messrs. Dave Rogers, Perry Goldsmith, and Walter Stocker will go to Port Hope on Saturday to play in a district cricket eleven against the Trinity College School team.

Mr. Walter Phelan is in Port Hope to-day as the local representative at the Canadian Lacrosse Association District meeting. The schedule of games for the season is to be drawn up.

Mr. J. H. McClellan, travelling sales agent of the State line and Sullivan R. R. Co., miners and shippers of anthracite coal, of Towanda, Penn., is in town to-day arranging for the opening of a retail coal office. The business will be carried on under the name of the People's Coal Company, the office being on Charlotte street, next to the Queen's hotel. Mr. A. J. McClellan of Gananoque, will be the resident manager. The offices will be opened about July 1st.

St. John's Vestry.

At a meeting of St. John's Vestry last evening a long discussion was held on the school house project. It was decided to defer action for the present. A committee was appointed to convey congratulations to Rev. Canon Du Moulin on his elevation to the Episcopate.

Scarlet Chapter, Attention!

A meeting of the Scarlet Chapter, of West Peterborough, will be held in the Orange Hall, Peterborough, Saturday evening, May 16th, at eight o'clock, for election of officers and general business.—J. B. McWilliams, Knight Commander; R. Campbell, Scribe. 2d

Wonderful Value.

China Hall will begin on Wednesday morning, April 29th, a sale of 25c goods that will surprise everybody. The bargain will be shown in the big corner window and it will be worth looking at. Anything in the window will be sold for 25c per package or article as the case may be.

Just Received—

At A. Clegg's, a line of extension tables, oak finish, at $5, $5.50, $6 and $6.50, exceptional value. Also a lot of hall racks and medium bedroom suites, cheaper than ever. Sideboards and all other lines, a full assortment now in stock. A. CLEGG, 497 George street.

A Windmill for Montreal.

Advertising in a good paper pays. There is no doubt about it. Here is a case in point:—Mr. G. W. Green, proprietor of the Peterborough Pump and Windmill Factory, Dickson's Race, some little time ago received an inquiry from Montreal, for a large windmill outfit. The writer said, "I saw your ad in the EXAMINER last winter and filed it away for future reference." The result is that Mr. Green has received the largest order that ever came to the factory, and will ship some time this week. The erecting gang will go down on Monday night. Mr. Green is now erecting a complete summer water supply outfit for syndicate at Bobcaygeon. The hard times do not seem to affect Mr. Green for he has orders enough ahead to to keep him busy for some time. He says good goods can be sold all the time, and it doesn't hurt to advertise in the EXAMINER.

A TALK TO THE HOUSEKEEPER.

Suggestions Showing How You Can Save 20 per Cent. on the Meat Bill at John J. Howden's Meat Market.

We mean to sell meat so cheap this summer that everybody will want to send their orders to John J. Howden's cheap meat market. Instead of buying though second hands, and paying out money for commissions to people to buy cattle for us, to butcher for us, and to sell for us, we're hustling early and late to do all this ourselves. That, of course, means power to sell cheaper, and it shows to excellent advantage when we can save you 20 per cent. on your meat bills. Selling high qualities of meat at such close prices may look like a mistake to others in the business who are not practical men, and who have to engage expensive help to do what we can do ourselves. Then, again, we have worked hard for more than a quarter of a century to get our business, but it didn't cost us so much to get it as it is doing today to start a new business on the bonus plan. We can always hold and attract customers with prime meats at closest prices. That's why we do the biggest meat business in town today and on less than half the expenses that some others are doing. Why can't we, therefore, save you one-fifth of every dollar? Our hams and bacon are specially noted for their mildness and fine flavour. Our tasty corned beef is pickled in the old-fashioned wholesome way, and there is none better. Our beef is the best that is raised in the country. Our cooling rooms and refrigerator guarantees everything to be in A-1 condition. Housekeepers, note these facts. Don't pay higher prices if you are asked. Everything best quality, direct from the farm.

THE OTONABEE TO BE BRIDGED AT AUBURN.

IT WILL BE SPANNED BY A NEW RAILWAY BRIDGE.

The Town Would Like a General Traffic Bridge to be Erected in Connection with it, and will try and Make Arrangements to this End.

A special meeting of the Town Council was called by the Mayor last evening for the purpose of having the advice of the members relative to importuning the Government to construct a bridge for general traffic in connection with the Grand Trunk Railway bridge, which is to be constructed at Auburn.

A number of the members of the Board of Trade were present, and Mr. Carnegie was invited to speak on the subject. He explained the entire circumstances connected with the case very fully, stating that the Government was about to rebuild the railway bridge at Auburn for the Grand Trunk in order that the trains to Lakefield might cross the river at this point, and the line at present used on the other side of the river between the Locks and Ashburnham be abandoned. It was

ON THE CONDITION

of the abandonment of this portion of the line that the Government offered to rebuild a bridge on the old site. The reason why this offer had been made could easily be seen when it was stated that under the present conditions a swing bridge would have to be constructed across the southern section of the Lakefield-Peterborough section of the Trent Valley Canal, and a man employed to watch it night and day. The Government thought that it would be cheaper to arrange with the Grand Trunk to divert their present route to Lakefield, and as such an arrangement was perfectly satisfactory to the railway, shortening as it did, the route to the village, a bargain was easily struck. It could, therefore, be seen, also, why great haste would be used in letting the contract for the bridge, as the contractor for this section of the canal could not proceed with his work until the arrangement regarding the diverting of the railway was completed. Years ago, when the Auburn Company had given the right of way to the Grand Trunk for their line to Lakefield, they had made certain concessions to the company on the condition that if this railway bridge was ever built at Auburn, a foot bridge for the

BENEFIT OF THE PUBLIC

would be erected in connection with it. The idea now was that, as this footbridge had to be constructed in connection with the railway bridge, that the Government be asked to arrange for the construction of a bridge, that could be used for teams as well, the town to bear the additional expense. Mr. Carnegie had seen Mr. Law in reference to the matter and that gentleman had estimated that a passage for teams, eight feet wide, on both sides of the railway bridge could be built for $2,500. The draughtsmen were hurrying up the plans for the bridge and the surveyors were already out taking levels and soundings so as to be in a condition to ask for tenders for the construction of the bridge at once. Mr. Carnegie closed his explanations of the circumstances of the case by a strong appeal to the council not to let the opportunity slip of having a good bridge built at a small expense at the North End.

Councillor Moore thought eight feet would be a trifle narrow.

Councillor Hughes expressed the opinion that two nine foot passages would be quite narrow enough.

Mr. Carnegie thought that a foot or two would make no difference in the cost and explained that the railing would be low and consequently loads of hay, etc., could easily cross. He also stated that

$2,500 WAS AN OVER ESTIMATE

as the footbridge had to be constructed free.

Ex-Mayor Kendry was then invited to speak. He stated that a bridge at Auburn had been talked of for years by the council and that a footbridge at $1,800 and a general traffic bridge of $3,000 had been very nearly arranged for at different times. It would only be a very few years before a bridge in the north end would be an absolute necessity as the town was growing in that direction. The bridge now used at Auburn was kept up by the company, and it exposed the Company's property altogether too much to the public. The company in granting right of way to the railway had already given $500 towards a bridge, and the extra cost should not exceed $2,000. Such an opportunity would never present itself again. The Auburn Company was prepared to give any right of way necessary to help the matter along.

Mr. Robert Fair, representing the Board of trade, stated that if the Council took action regarding the bridge, the Board would be pleased to

APPOINT A DEPUTATION

to work in conjunction with the Council and to interview the government in reference to the matter. The bridge would be a far better and stronger one than the town would ever have built. This, he thought, was an opportunity which should not be let slip.

Mr. Robert Mulholland of the Board of Trade, stated that the erection of a bridge at Auburn had been brought before the Board years ago by the residents of the north end, who urged the Board to use its influence with the council in the matter. He thought the opportunity was one that should be grasped. As a ratepayer he endorsed the scheme.

Mr. Jas. Stevenson, ex-M.P., thought that the erection of a bridge at Auburn would be a great encouragement to the company to rebuild the mills destroyed by fire during the day, and thought that the Government would be pleased to accede to the request. He suggested that a deputation wait on the Minister of Railways and Canals at Toronto the next day, as he was in Toronto at present.

Councillor Hughes thought that there was only one opinion on the subject as it was a question of but a few years before a bridge would be erected anyway. Smith street bridge might be burned any day and Auburn would thus be almost isolated.

On motion of Councillors Moore and Weir, the following resolution was passed:—"That the Mayor and Messrs. John Carnegie and James Stevenson be requested to interview the Minister of Railways and Canals at as early an opportunity as convenient, to urge on the Government consideration of the town's interest in the construction of the new railway bridge over the Otonabee River, near the Auburn Mills, and of the adding of wagon ways on each side of it, on terms favourable to the town."

The meeting then adjourned and the deputation left on the early train this morning to interview Hon. John Haggart in Toronto.

A woman never really knows the meaning of happiness and content until she is the mother of a healthy, happy child. The health of the child depends on the health of the mother, both before and after birth. Most all of women's weakness and particularly the weakness that most strongly influences the health of children, comes from some derangement or disease of the distinctly feminine organs. Dr. Pierce's Favourite Prescription will cure troubles of this nature. It should be taken regularly by every woman during the entire period of gestation. It gives strength to all the organs involved, lessens the pains of childbirth, and insures the health of both mother and child.

THE KEY MEDICINE CO.

For sale by all Druggists.

A business man is not the most patient creature in the world. He cannot stop work every minute to bother with an irritating skin disease, or a hacking cough that insists on breaking into his bargain-making. Neither will he wait to hear any long-drawn-out story of the cause of his ailment. He doesn't care two straws about a fine spun theory of how he should treat *himself*. He may be predisposed to scrofula, or consumption. "That," he will tell you "has nothing to do with the case." He wants to be well. If he can be cured, write out a prescription and send in your bill. So, here's the first part of the proposition.

Dr. Pierce's Golden Medical Discovery is a medicine that permeates the whole body as water goes through a sponge. It is a microbe hunter and a microbe killer. It is a well-known fact that many persons of scrofulous blood, encourage the breaking out of unsightly sores, to prevent the disease going to the lungs. There is no need of living in this state of dread and discomfort. Purify the blood. It can be done. The "Golden Medical Discovery" will cure 98 per cent. of all consumptive cases, also of all other lingering, bronchial, throat and lung diseases. Don't allow a druggist to persuade you into taking something that he says is "just as good." Maybe it's better for him—better for his profits. Take the "Golden Medical Discovery"—the greatest discovery of the age. In addition, in order to know yourself better, send to the World's Dispensary Medical Association, Buffalo, N. Y., 31 one-cent stamps to cover customs and mailing *only*, and get in return, Dr. Pierce's Common Sense Medical Adviser. It is a book of 1008 pages, illustrated, and is full of *common sense* talk that any one who can read will understand.

And here is the testimony of Mrs. E. E. Enders, of *Carey, Ohio*, in regard to the "Golden Medical Discovery": "I had a troublesome skin disease. I suffered much from surface sores. Nothing helped me until I tried the 'Golden Medical Discovery.' A year or two later I had lung trouble. Again the 'Discovery' cured me."

COPPER-TIPPED BULLETS

Said to Have Been Used by the Spanish Troops in Cuba.

New York, May 14.—It is said that J. C. Creelman and Frederick B. Laurence, who have been representing New York newspapers in Cuba, and who arrived this morning on the steamer Seguranca from Havana, but are now on Hoffman Island, quarantined, have in their possession brass and copper tip bullets, which it is alleged the Spanish have been using in Cuba against the Cubans. The use of such missiles is said to be prohibited by the Geneva Treaty.

A Washington despatch says there is nothing in the Geneva treaty, or any other like convention to which the United States is a party, preventing the use of copper bullets in civilized warfare. The new United States navy bullet is copper-plated, to increase its penetrating power and destructiveness, and every United States man-of-war depends for offensive armament upon its great complement of highly explosive shells tipped with copper. Similar bullets are also the regulation in the army.

Lying Between Life and Death.

Niagara Falls, N.Y., May 14.—A peculiar accident is reported from Drummondville, Ont., which may result in the death of the victim. SPLENDID LOT OF HORSES

Entered for the Ontario Jockey Club Meeting—Baseball Record.

Toronto, May 14.

The entries for the Jockey Club Handicap, which closed on Monday, number no less than 23, and include the best lot of horses ever carded in Canada. In the list are found the names of several owners whose colors will be seen at Woodbine Park for the first time, and which have figured prominently on the American turf, such as "Billy" Barrick, the owner of the once-famous Dr. Hasbrouck, who is represented by that good colt Maurice, who finished second to Lissak in the International Derby at Detroit last year. The Schoenfeld stable, too, has such good ones among the nominations as Subito, Bounding Cecil and Sauteur, while all the prominent Canadian stables are represented. Judging from the list, the race promises to be the event of the meeting.

Jockey Club Handicap; purse, $600; 1 mile. To be run May 25:

THE WORK AT WOODBINE.

It was anything but pleasant for either trainers or horses at Woodbine Park yesterday morning, a cold wind beating across the track, which made the small army of turfites secure shelter in the stands and club house. The best work was accomplished by the black filly Silk Gown, who negotiated a mile in 1.46½, accompanied by Pyramis the first six furlongs, in 1.18½. Dandelion and Moorland were sent the Pirate distance in 2.25, while Millbrook and Joe Miller went a mile and a half in 2.54. Princess May and St. Vincent worked six furlongs in 1.20½, and Stonemason, Eulalon, Halfling and Mussulman took strong gallops, the last-named going six furlongs in 1.20.

Mr. Charley Boyle gave nearly all his horses fast work, Lord Nelson going a mile and a quarter in 2.24, Strathroy a mile in 1.51, Looram a half in 50¾, Florence Colville a mile and an eighth in 2.07, the first mile in 1.51, Havoc a mile and a quarter in 2.15½, and Strathroy a mile in 1.43½.

In the Hendrie string, Royal Bob covered a mile and a half in 2.53, Maximum a mile in 1.50½, Plover and Lord Lovell the same distance in 1.54, and Melcha in 1.50.

John Nixon's Woodcraft and Rideau went half a mile in 54.

In the afternoon Ben Pope worked Red Pat and the Salvator filly half a mile in 51½.

The hunters Ebils, Prince Charlie and Waterloo, were sent through the field, Waterloo coming to grief at the "Irish bank."

The Dymont string from Barrie arrived yesterday. The lot includes Lancashire Witch, Lightfoot, The Duchess, Rosebery, Queen of Scots, Brother Bob, Rossmayne and Superior.

Members of the club should bear in mind that this is the last day to make application for private boxes in the members' stand. The drawing takes place to-morrow.

BASEBALL RECORD.

It was a pretty game yesterday over the Don, and just close enough in the early stages to make it interesting. Dineen kept the hits well scattered, and did not allow the Stars one after the sixth. The visitors had hard luck with the stick in the fifth, when three singles and a base on balls produced one run. Toronto scored three unearned runs in the seventh and clinched the game on a base on balls, two hits and two errors. Score:

Syracuse	0 0 1 0 1 1 0 0 0—3
Toronto	1 1 0 0 0 0 1 3 0—6

Earned runs—Syracuse 2, Toronto 1. First base by errors—Syracuse 2, Toronto 2. Left on bases—Syracuse 9, Toronto 7. First base on balls—Off Dineen 4, off Delaney 5. Struck out—By Dineen 2, by Delaney 2. Sacrifice hits—Hess, Casey, Dineen. Double plays—Stuart; Delaney to Egan to Carey. Hit by pitcher—By Dineen 2, by Delaney 1. Umpires—Gaffney and Lyndon. Time of game—2.15.

HOW THE SUN LIFE FULFILS ITS PROMISES.

A Matured 10 Year Endowment.

Profits Paid by the SUN 21 per. cent more than the Estimates.

The following letter, which speak for itself, was received by the undersigned this morning from a gentleman in Brockville, whose ten year endowment which he held in the Sun Life Assurance Company of Canada matured last week and was paid him. The Sun is modest in promises but UNEQUALLED IN RESULTS. The public are benefitted by results, not by promises unfulfilled

BROCKVILLE, November 7th, 1895.

W. H. HILL, Mgr. Central Ontario Sun Life Assurance Company of Canada, Peterborough, Ontario:—

DEAR SIR,—I should have acknowledged the receipt of yours enclosing cheque for endowment policy No. 12,871 before, only I wanted to write something more than a mere receipt. I am pleased to hear of the continued prosperity of the "SUN" and it speaks well for your Company when the profits are greater (by 21 per cent.) than you as the Company's representative promised or rather estimated, as was the case with this policy.

I hope your Company will continue to prosper and I often regret that I do not carry more Insurance than I am doing. I might have carried twice as much as I do when at Minden without any great effort, still what little I do carry I feel is perfectly safe being in the "SUN."

I must thank you for your promptness and kindness regarding this policy just settled. I hope we will both be alive and well when the new one I now hold will be due in 1905 and assuring you of very best wishes, I remain,

Yours Sincerely,
(Signed) F. R. C.

The above voluntary testimonial is significant and shows in a most practical way the SUN'S standing as a profit paying institution.

THE BEST

FAMILY MEDICINE

She Has Ever Known. Words of Praise from a New York Lady for

AYER'S PILLS

"I would like to add my testimony to that of others who have used Ayer's Pills, and to say that I have taken them for many years, and always derived the best results from their use. For stomach and liver troubles, and for the cure of headache caused by these derangements, Ayer's Pills cannot be equaled.

When my friends ask me what is the best remedy for disorders of the stomach, liver, or bowels, my invariable answer is, Ayer's Pills. Taken in season, they will break up a cold, prevent la grippe, check fever, and regulate the digestive organs. They are easy to take, and are, indeed, the best all-round family medicine I have ever known."—Mrs. MAY JOHNSON, 368 Rider Avenue, New York City.

THE CANADIAN GIRL.

AS SHE IS SEEN AROUND THE SHORES OF OUR GREAT LAKES.

The Aquatic Sports and Recreations of the Fair Ladies of the Dominion of Canada—Rowing, Swimming or Fishing She is Always Good to Look Upon.

No women in the world know fresh water in all its moods or love it through storm and shine better than do the women of older Canada. The reason is written on the map in that wonderfully picturesque interspersion of land and wave which stretches from the prairie line of Manitoba to the Atlantic and the impress of which is directly traceable in many features of what is beginning to be recognized as the Canadian temperament.

In the sleepy old parent province of Quebec the habitant's dark-eyed wife has for a century past accompanied her husband in his canoe, developing the utmost skill in the management of that gleeful but skittish craft; and in recent years her more fashionable sisters, both of French and British parentage, have shown themselves equally apt at this delicate sort of navigation. But the safer rowing skiff still leads in feminine aquatics, and it is perhaps in the romantic lake-land of Ontario that midsummer finds the greatest clustering of fair oarswomen—with, of course, a due proportion of escorts.

Every indentation of old Lake Huron and Ontario, every lone lakelet that mirrors the Northern maples, is populous in its own spacious way with campers and cottagers. At night the July moonlight flashes everywhere on deftly turning oar blades, wielded oftnest by girlish hands, and from far or near, out of sight perhaps in the vague silver distance, comes that clear soprano singing which seems always to voice the very soul of a night water scene.

Few of the most beautiful, because most sequestered, resorts have yet arrived at the dignity of a big summer hotel. Community life there is, and that of the pleasantest kind, with proper regard to less convenances, for the Canadian girl, if less sedulously chaperoned than her English prototype, has yet a due guardian-angelhood, and chaperonage is a duty seldom relegated to the unqualified. The men of the camp come and go. Sometimes the women are left to their own devices from Monday till Saturday, but there is always the lake with its endless resources, and it is in these long intervals that the oarswoman perfects her steady, rhythmic stroke and practiced "feather."

On the inlets of the Georgian Bay the young people get out their boats about half-past seven in the evening, when sunset is at its richest. The breezy ripple of the summer day is settling into a glorified hush, and there is just enough motion left to pass on the splendid color splashes in kaleidoscopic procession. Unless there is thunder in the air, you can count with perfect certainty on this sweet, still mood of nature that comes with the sinking of the sun. The sailing party who have dallied too long out beyond the point, know quite well that they must wait now till 11 o'clock for the rising of a west wind, or else waft themselves home by means of that toilsome zephyr known among the initiated as a "white ash breeze." Humanly speaking, they will probably wait. As for us, we shall revel while we can in this carnival of color and so we turn toward the wooded eastern shore, leaving a mile of burnished glory between us and the scarlet west.

We are in the deep water channel, and right in the path of the great white steamer coming in laden with discuticled but happy passengers from the haunted Mackinac. A side-wheeler of the good old style, one of a very few yet left on the lakes, she makes far more commotion astern than does the stately C. P. R. liner whose long black outline is fading austerely on the northern horizon. The wash of this old timer is a terror to the amateur with oars; indeed, there is a story that her great awkward wheel once picked up a little skiff outright and drowned some of the occupants. But the slim Canadian girl who trifles with our rudder-cord has no fear.

Even if the meeting had occurred in the harbor where the swell dashes against the piers on either side and comes bounding back in a wild perplexity of cross-swells and churned eddies, she would have been little disconcerted. How close we are to the great tub-shaped relic! A passenger leaning over the rail catches sight of our steerswoman's clear profile as we lie there—our two oarswomen resting one expectant moment with poised oars ready for swift action—and lifts his cap in pleased recognition. Vivian waves her handkerchief, and instantly the big deck is a-flutter with white response like a salvation wave offering.

The young girl colors under all this publicity, but there is no time for embarrassment. We are close abreast of the great churning wheel and that grand advancing wedge of heaped up water that spreads like a fan in her wake will surely swallow us in a moment. Down go the silent oars, and the skiff leaps to meet the watery wall as if longing to be engulfed. Vivian leaning forward, the pride of achievement shining in her eyes sheers off our course so as to strike the swell at an angle of about forty-five degrees.

It is a tense moment—good to live, good to look back upon. The wall is on us, under us, flinging us up with a splendid reckless buoyancy, letting us down like a feather bed, parsing us on to the next—for it is not one wall, but many—cradling us, dandling us, embodying all delight of the senses, all energy, safety, triumph in one short three minutes. Just as sober sanity is returning round we flash at right angles, and in a moment are in the other wing of the fan, but experiencing an entirely new set of sensations. The first was all jubilance, like the moment of passion for which a soul will risk its life's content.

This—this, slow lift and fall on the subsiding slopes, among the flickering purples is heaven, long unbroken peace and the final possessive clasp of the arms we have loved best all our life. The oars are lifted dreamily. No matter how these gentle ridges find us, if broadside on, so much the better, are we cradled. So to drift through an infinite range of tender amethystine tints till the sunset is quite gone and away to the north the bleaching water glimmers white and wistful. Fifty miles away across its sleeping bosom lies the Midsummer paradise of Muskoka, reveling in its islanded beauty with campfire answering campfire like the signal of the Fiery Cross.

East of us, beyond a few miles of smiling farmland, more lakes in the starlight, and the historic site where the manly Hurons and their Jesuit missionaries yielded the last life to Iroquois' fury in 1640. Just over the bay the little mission church, now brick-veneered, where the Neewash band of Ojibways heard good Methodist doctrine in the fifties, before the white man's measles, aided by their own unfortunate practice of wading into the bay to allay their fever, had decimated the little community. All these things can Vivian rehearse very fluently; also how the forest site of a sleepy little village down the bay sold during the Franco-Prussian war for $500 an acre, to the utter ruin of its wheat-mad purchaser, with many other matters of half-forgotten local history. These things are for the day, but their memory mingles vaguely too with the mystical enfolding of the summer night.

Further south are waters as clear and a moon as tender, but there is a magic all its own in this sweet warm expanse of wave redeemed for but a few short months from the northern frosts. Now, in February, which is midwinter there, the skaters—and what skaters so lithely light as Canadian girls—cut their fantastic circles on the clear surface, where our oars trailed with their soft "osh, osh," and the white country road that skirts the bay is musical with whole orchestras of sleight-bells.

HEADACHE.

A SIMPLE CURE.

As a sure cure for headache, whether caused by liver, stomach, kidney or nerve trouble, Burdock Blood Bitters is the most effective medicine known. It removes the causes of headache by restoring all the organs of the system to proper action and health. Doubts disappear in view of proofs like this :—

In the spring of 1891 I got a bottle of B. B. B. for my mother who had been troubled for twenty-five years with sick headache. I got it from Mr. W. Paxton Baird, of Woodstock, N. B., who gave me two other medicines to take home and let my mother take her choice. Fortunately she choose the Burdock Blood Bitters, and I returned the other bottles. She used it for three months, and has had no headache since. We are sure it was B. B. B. cured her, as she took no other medicine.

J. A. GREEN, Hartford, N. B.

It Altered the Case.

In an Edinburgh school the other day an inspector, wishing to test the knowledge of a class in fractions, asked one boy whether he would rather take a sixth than a seventh part of an orange if he got his choice. The boy promptly replied that he would take the seventh. At this the inspector explained at length to the class that the boy who would choose the smaller part as this boy had done because it looked the larger fraction was very foolish; but the laugh was on the other side when the chirping voice of another urchin broke in remonstrance, "Please, sir, but that boy dsna like oranges!"

Cure for a Bad Headache.

A fellow in Muskoka gave me this nut to crack the other day :

A man married a widow who lived with her daughter-in-law. A short time after his father married his wife's daughter-in-law. This wife thus became the mother-in-law and at the same time, the daughter-in-law of his own father. His wife's daughter-in-law is now his stepmother. His stepmother, who is the daughter-in-law of his wife, recently had a son. This boy is his brother because he is the child of his father and of his stepmother, but, being also the son of the daughter-in-law, of his wife, his wife becomes the boy's grandmother, and he is himself his brother's grandfather.—Tom Swalwell, in Toronto Sunday World.

A TORONTO LADY

GETS A CHRISTMAS BOX WHICH SHE PRIZES HIGHLY.

In tracing up some of Santa Claus' good deeds this year, a lady gives us the following account of her Christmas box. The lady's name is Mrs. H. G. Ferguson, and she resides at 211 Church st. Mrs. Ferguson began as follows :—

"I have for years been a great sufferer with kidney complaint, severe pain under shoulders and across back, and latterly so weak that I could not walk out or do housework. Seven years ago the doctor told me I had Bright's Disease. A number of ph[illegible]ns told me I was past help; one d[illegible]n said I could not live a month. I have taken a great deal of medicine, but without relief, and had given up hope; in fact, told my son that I did not expect to live until spring. My son saw the advertisement of the Doan Kidney Pill Co., Dec. 3rd, and told me. I asked him to get a box and I would try them, although I had but little faith in them, because all other remedies had failed, and as a result I had given up hope. He got one box of pills at J. R. Lee's drug store and I commenced taking them. The result has been marvellous. After taking them once I experienced relief, and after taking them three times the change for the better was marked. I have only taken one box of pills, but I feel like a new woman. The pain and other symptoms of the dreadful disease are gone. I am stronger and better than I have been in many years. I am now able to do my housework and walk out without suffering any inconvenience. That box of Doan's Kidney Pills was indeed a grand Christmas box for me. I am glad to let everyone know about this wonderful cure, in the hope that some one who has suffered as I have may try the remedy and be benefited as I have been."

THE WHEEL.

About a dozen wheels were punctured on Water street north near the railway crossing yesterday afternoon. The cause cannot be ascertained. It is hoped that no evilly-disposed person has thrown tacks or pins on the road, as such an action would be too utterly contemptible for a citizen of Peterborough to indulge in. The penalty attached to such an offence in Toronto is $20 and costs, and it would probably come even higher here.

The EXAMINER published a warning yesterday to wheelmen who persisted in scorching on the wrong side of the roadway, and cited the danger of the practice. An illustration was not waited for long, as during the afternoon a rider came hustling down the left hand side of the car track on George street, and met a rider going up on the same side. The latter being in the right refused, naturally, to give way, and as the former was equally determined to hold to his place, the two wheels came together. Fortunately neither rider was hurt to any extent, but the offender against "the rule of the road" had his wheel badly damaged. As the other wheel was also injured to some extent, the case will probably be settled in court unless the said offender settles all costs of repairs.

Mr. Brundrett, of the Electric Works, met with a severe accident at the Nicholls Park the other evening when riding around the bicycle track. A dog, it seems, ran out after him and getting caught in the wheel caused an upset, with the result that the rider was thrown against the water pipe which skirts the cut inside of the track. This pipe is a great menace to riders and it is a pity that such a perfect track should be marred by this one danger to riders, one of which might easily dash his brains out if he fell and struck the pipe.

A young lady, whilst on her wheel the other day, was run down by a bicyclist and thrown to the ground. The wheel was badly damaged and the young lady severely hurt. The rider who caused all the damage has not yet had the manliness to come forward and offer to repair the broken wheel.

CRICKET

Cricket has not been taken hold of this year as it has in other seasons in Peterborough. It is too bad that this is the case, there was never a more favourable opportunity for putting a strong team in the field, with Perry Goldsmith and Dave Rogers, of Trinity University fame, being here this year.

As we look back on the past it almost makes one sigh at the loss of old friends, good old cricketers. But we must all have our day, and when old Time cries "Over" for us, let us hope some friend will be able to say we did leave behind us some record of good service done for our side in the tented field. Well, the world goes jogging along, and we must not stop to cry over the loss of old friends; we must look to the present and future, and get to work, yea, and hard work, too, bringing ourselves into the condition for helping our side in this present season.

What a pity it is we cannot make a bonfire of all the cricket nets in the world, and have nothing but practice games, where every man does his best, but net practice, I suppose, is the order of the day, so down to the nets we must go, and do let the thing be in earnest. If you are bowling, bowl your very best, try every trick you know, as if you were trying to get rid of the great Dr. himself. When you go in to bat, play as if you meant to stop there and make runs, and be careful that you have all the stumps properly up, even if they are knocked down a dozen times, balls on and creases marked out. Don't shirk your share of the fielding; field as though it was the most important match of the season, and you were trying to save half a dozen runs to win a match, the last man in and ten minutes to play. Nothing stamps the real cricketer so much as thoroughness in practice. The man who will come down and loaf about until his turn comes for batting and then slyly slink away without bowling a ball or doing a minute's fielding, is not worth his salt on your side. He plays for his own glorification, and is always keen to tell you when he has made runs, but is silent when he has failed to score. He is generally one of the abominations on a cricket field, who is forever speaking of his average and growling at his captain behind his back. In a work by Mr. Frederick Gale, "Echoes from Old Cricket Fields," there are laid down 20 "Golden rules for young cricketers." They ought to be framed and put in every cricket pavillion in Canada. I will quote part of rule six. "If you have any complaint against your captain, tell him to his face quietly what you think, but do not form conspiracies against him behind his back. The grumblers and mischief-makers are always the greatest muffs and the worst enemies of cricket." All the 20 Golden rules are excellent, and it is a thousand pities the book is out of print.

Now I want to say a word with regard to our own cricket, "Peterborough cricket." Why is it the game is so poorly patronized in our own town. Speaking from fifteen years' experience in the cricket field, though never in the first flight of cricketers, I have watched the game at Lords, and the Oval, and on many of the first-class county grounds in England. I have seen the Australian and United States *contingents* at Toronto, and therefore may be allowed an opinion on our cricket locally, and I do say that there has often been as good all-round cricket played on the old P. A. A. A. grounds as can be seen anywhere, yet it is rarely you will see more than 100 spectators at the very best matches. It must be disheartening to the management, this utter lack of interest in the grandest and noblest of all sports. It is not necessary to have a large ring of spectators to inspire great efforts in the hearts of cricketers, but it would be gratifying to the hard-working Hon. Secretary to see some keenness for the game, and it would be encouraging to the players to hear a good hearty cheer now and again. A good ring of spectators implies an interest in the game, and consequently a better list of subscriptions, and nothing can be done without the "sinews of war." The situation of the ground is surely no cause for the smallness of the attendance. The P.A.A.A. grounds are a favourite resort of all conditions of classes. Time was when cricket was well supported in the town, why cannot it be so now? The Club has some new powerful blood, and the first team should be stronger than ever. I cannot say that never before in the annals of cricket has the town been able to put a better team into the field; that remains to be proved during the present season. I wish the Club the very best of luck, and I hope my little article will be the means of arousing Peterboroughians to the fact that there is really some good cricket material amongst them. There's an excellent old Captain, of international fame, a hard-working Secretary, and I hope this season of 1896 will see the Club meet with every success and receive that support which it so richly deserves.

President O'Loughlin has had several inquiries made by players who are anxious to ascertain whether in the event of a player taking part with any club in an exhibition game previous to the championship season, and then takes out a certificate and plays for another club in a championship game, it would void such championship game certificate. The answer given by the President has been in the affirmative. No C.L.A. player, according to the rules, can play with more clubs than one, no matter whether such clubs are or are not members of the C. L. A., except in the case of a bona fide disbandment of the club a player first plays for, and then is a player permitted to play with another club only after a certain date from said disbandment. As this is an important decision, and the rule is one which has caused many protests being filed and players punished, all interested should be governed by the President's decision.

The pain that sometimes strikes a man at the most inopportune moment is due to indigestion. It may come in the midst of a dinner and make the feast a mockery. It is a reminder that he may not eat what he chooses, nor when he chooses. He is a slave to the weakness of his stomach. A man's health and strength depend on his digestion. Remove the obstruction by taking Dr. Pierce's Pleasant Pellets. They are a positive cure for constipation and its attendant ills—headaches, sour stomach, flatulence, dizziness, billousness and "heartburn." The "Pellets" are very gentle in their action. They simply assist nature. They give no violent wrench to the system. They cause no pain, nor griping.

M. L. HENRY & CO.

HARE-BRAINED YOUTH.

To the Editor of the Examiner:

SIR—While returning from a pleasure trip along the river the other day I noticed, on nearing the Smith street bridge, a number of boys playing on the track. Two or three of the number, more daring than their fellows, climbed to the top of the superstructure of the bridge and gave an exhibition of mid-air balancing. While this sort of thing is admired by frequenters of the circus, it is not quite the style of amusement for the boys of our town. There will be a drowning accident at this point some day, by reason of one of the performers losing his balance and falling into the river. The parents of the unfortunate one will be looking for redress from some source or other, and will not be able to secure it. If the parents or guardians of these circus-inclined youths do not deem it necessary to look after them, would it not be well for some person possessing the necessary authority to take some steps towards putting a stop to the practice. By so doing they would save the parents of some "white-haired" boy a world of sorrow, and also spare the citizens of Peterborough the perusal of the details of a serious drowning accident.

Yours,
FIDELTY,

One of the best evidences that Ayer's Hair Vigor is an article of exceptional merit is the fact that the demand for it is constantly increasing. No one who uses this incomparable dressing thinks of trying any other preparation for the hair.

THE BASEBALL SCORES.

Toronto Club Again Whitewashed—National League Game.

Toronto, April 15.

Syracuse and Star Willis put up a marvellous game over the Don yesterday. Toronto not only failed to score, but only three men reached first base. Wright made a single in the first, Dunn one in the third, and Freemen was hit on the shins in the fourth. Padden sacrificed Wright to second. Dunn made the only clean steal of the day, and Freeman died on first. Not the semblance of an error could be charged to the Stars, and although only scoring two runs they practically won in a walk. Egan got round in the first on his base on balls, Stuart's muff of Casey's throw to second and Carry's single over second. In the eighth Minihan sent a corking triple over Freeman's head and walked home on Cary's long fly in the same direction. Study this out and you may conclude that the visitors won by two walks. Willis had the Torontos completely at his mercy, while Dunn also pitched a creditable game. Keck was taken out because he failed to attempt to sacrifice in the second with two on bases and no one out. Score:

Syracuse	1 0 0 0 0 0 0 1 0—2
Toronto	0 0 0 0 0 0 0 0 0—0

Earned runs—Syracuse 1. First base on errors—Syracuse 1. Left on bases—Syracuse 7, Toronto 3. First base on balls—Off Dunn 3. Struck out—By Dunn 1, by Willis 5. Three-base hit—Minihan. Two-base hit—Smith (Syracuse). Sacrifice hits—Egan, Minihan, Moss, Padden. Stolen bases—Egan, Dunn. Double plays—Moss to Egan to Cary. Hit by pitcher—Willis 1. Umpires—Gaffney and Lyndon. Time of game—1.30.

THE ONLY HELP.

A Victim of Bright's Disease for Many Years—Cured by Dodd's Kidney Pills.

Neepawa, (Special), May 4th.—Mrs. T. H. McKee, formerly of Listowel, came here as a last resort. Had suffered ten years with Bright's disease. Reported to be past help and dying. Her re-appearance on the street in apparent good health was a pleasant surprise. The explanation given was that her little boy had insisted that she should use Dodd's Kidney Pills, and prophesied that they would cure her. She says:—'From the first few doses I began to feel better, and after taking four and a half boxes I say it with heart-felt gratitude I am perfectly cured." Dodd's Kidney Pills is the only medicine in the world that has ever cured a case of Bright's Disease at such a stage.

THE FIELD SURVEYED

What Will the Patrons Do in the Contest?

A NUMBER OF TRIANGULAR FIGHTS

Sir Charles Tupper's Visit to Winnipeg and the Proffered Bribe—Fighting Joe Martin Sure to Win—Quebec Bishops' Mandement—Political Gossip.

Day by day the blanks in the lists of candidates are being filled up and another week or so will see a full ticket in the field. In a few constituencies the old party leaders are holding back to see what course the Third Party and the Patrons are about to pursue. In all probability there will be a larger number than usual of three-cornered contests, and in some constituencies there will be four candidates in the field, instead of the old straight party fights.

Few meetings beyond the nominating conventions have been held as yet in Ontario. Canvassing is going on vigorously, and organization is being perfected, but the public meetings in which the opposing forces will be brought face to face will not be in full swing before the end of May, and the bulk of the enthusiasm worked up from the platform will be condensed into the last three or four weeks of the contest.

Hon. Mr. Laurier's time will be fully occupied with meetings. He is at present speaking in the Province of Quebec, but will devote considerable attention to Ontario at a later period of the fight. It is probable he will also visit the Maritime Provinces.

Sir Charles Tupper's reception at Winnipeg does not seem to have been so enthusiastic as first reports led the public to believe. It is an easy matter to gather a crowd at a railway station in the evening when a notorious personage is expected to arrive; and the son of his father, Hon. Hugh John Macdonald, especially as a newly-fledged Cabinet Minister, is popular in Winnipeg. The meeting at the rink was a large one, but it must have been a set-back when the reference to National Schools, by the Minister of the Interior, drew forth an outburst of applause, the meaning of which could not be mistaken. The burden of Sir Charles Tupper's speech was a bribe to the people of Manitoba to support him, in exchange for the Hudson Bay Railway and the improvement of Red River. Notwithstanding these promises, and Hugh John Macdonald's popularity, Winnipeg is safe for fighting Joe Martin, and Manitoba promises to send six supporters of the coming Laurier Government. Indeed it would not be surprising if the Prairie Province sent a solid delegation of seven anti-coercionists. Never did a government make a more fatal mistake than the present one when it undertook to ride rough-shod over Manitoba.

The manifesto of the Bishops on the school question will, it is expected, be given out to-morrow (Sunday). It is vain to anticipate its purport. Archbishop Langevin is exerting himself against the Liberals in the Province of Quebec, but whether he speaks the sentiments of the other bishops cannot be told until the joint manifesto is made public. He could hardly adopt any other course after the stand taken by him in the Province where he exercises ecclesiastical jurisdiction.

Considerable dissatisfaction is expressed by a wing of the Conservatives over the nominations in West Toronto. Probably a more popular man than Ned Clarke could not have been chosen from the party ranks, but the other "strong man" upset the hopes of certain aspirants, who are none too well pleased at their claims being set aside in favor of a candidate who, however respectable and talented, has never been conspicuous by devotion to party. The utterances of Sir Charles Tupper, leader, and Mr. E. B. Osler, follower, on Remedial Legislation and the Hudson Bay Railway, stand in strange contrast. But party exigencies in the present contest make strange bedfellows in the Conservative ranks.

The coon having come down in Kingston in compliance with Mr. Metcalfe's demands, the Conservatives have placed Mr. D. M. McIntyre in the field. Mr. Britton should have an easy time, if his friends do not show over-confidence, for, though Mr. McIntyre is a respectable candidate he can hardly be considered a strong one.

Mr. R. R. Pringle has been induced to retire in Cornwall and Stormont in favor of Dr. Bergin, whom he defeated at the convention a year or so ago. What inducement has been held out is not stated, but the breach has not been healed without a salve of some kind. If Dr. Bergin thinks he is a coming Cabinet Minister, he is sure to be a disappointed man.

George Taylor, the whip of the Conservative party, has secured re-nomination in South Leeds, but he will be vigorously opposed. He has by no means so sure a thing in that Tory riding as in former days. Should the electors vote as they talk he may find it necessary to take refuge in that Rideau Canal appointment which it is generally understood he is to have before his party goes out of power.

A. C. Miller, the late member for Prince Edward, is tired of politics and will retire. Wellington Boulter, a brother of the late Dr. Boulter, at one time M.P.P. for North Hastings, takes his place in the field. He is an extensive canner, but a blind adherent of the N.P., and the Patron element being very strong in that county, his election is extremely problematical.

British Columbia is going to show a great change in sentiment. Messrs. Milne and Templeman are making marked headway in Victoria, and have every prospect of redeeming that city. Some of the other constituencies will, without doubt, also return Liberals.

One of the most marked features of the contest is the number of desertions of well-known Conservative workers to the Liberal ranks. The leadership of such a man as Tupper cannot be endured, and not a day passes but the defection of prominent men is chronicled. The Montreal Witness refers at length to this, and from that centre of commerce notes to what an extent the N.P. has lost its hold. The wave of protection which by its flow put the Government into office in 1878 and has since kept them there, is almost certain by its ebb to sweep them out. When to this is added their other sins their doom is certain. The better Mr. Laurier is known the more he is respected, and that he is the coming Premier of Canada there can be no manner of doubt.

The Mail's Change of Front.

The Mail of 18th August, 1890, said: "The proper policy for Ottawa in the interests of the Confederation is to avoid the limitation of purely local powers. What argument can be offered in favor of forcing school systems and languages upon the Western Territories that those Territories absolutely do not want?"

Mail, 4th March, 1892: "Should the Dominion Government undertake by advice to the province, or by Federal legislation, to institute a tax-supported Separate school system, there will undoubtedly be trouble, for the Manitobans will not accept a policy they do not want. There is no precedent as yet for a Dominion law overriding provincial opinion with respect to education. The Government which establishes the precedent at the instigation of the Church is not to be envied. It will set a province by the ears and earn for itself the distrust of the entire Dominion."

MR. LOUNT WILL RUN.

If the Convention Endorses Him He Will Oppose Mr. Cockburn in Centre Toronto—The Young Men Satisfied.

Toronto, May 16.

Mr. G. R. R. Cockburn will have for an opponent in Centre Toronto, Mr. Wm. Lount, Q.C. At least, Mr. Lount will in all probability be the nominee of the Liberal convention to be held in Temperance Hall on Monday evening next.

The committee of the Reform Association, which has been looking for a candidate for some time, last night interviewed Mr. Lount, and that gentleman, it is understood, signified his willingness to represent his party in the contest.

It is stated that even the Young Liberals, who have been kicking against other names suggested by the Liberal executive, will support Mr. Lount. The likelihood now is that Mr. Lount's will be the only name seriously considered by the convention.

The Hon. John Haggart, Minister of Railways and Canals, and the Hon. Dr. Montague, Minister of Agriculture, came up from Ottawa yesterday morning in the private car Cumberland. They spent the day at the Queen's in conference with Robert Birmingham and other party stalwarts, and left again for Ottawa on the evening train. Among those who saw them off were Ald. Scott and Mr. Wm. Laidlaw, Q.C.

The party maintained silence as to the purpose of the Ministers' hurried visit, but it is understood that one of the objects was to discuss the situation in West York.

A gentleman who was in close conference with the Ministers on the station platform just before the train pulled out stated that the Government had practically decided to bring out a straight party candidate to oppose N. Clarke Wallace.

Dr. R. B. Orr, who gave up the returning officership of the riding, is said to be the man selected to stand, but that gentleman refuses to commit himself.

NEWS FROM OTTAWA

Divisions Made in the Great Northwest.

WILL BE SHOWN IN THE NEW MAPS

No Unnamed Territory Left in the Dominion—New Quarantine Regulations—Sale of Timber on Indian Lands—Conservative Candidates Nominated for the City.

Ottawa, May 15.—(Special.)—The next official map of the Dominion of Canada will show a marked change in the divisions of our great northern territory. Heretofore the entire Hudson's Bay, and stretching away to the shores of the Arctic Ocean, has been variously designated or altogether unmarked by a distinctive appellation of any sort. The new maps will show the whole of the far north regularly subdivided into districts. Their names are Ungava, Franklin, Mackenzie and Yukon. Ungava includes all the district between Hudson Bay and the Arctic Ocean, with the exception of the narrow coast line known as Labrador. Franklin includes the great group of islands, small continents some of them, north of Hudson Straits and lying between the 60th and 125th degree of west longitude. West of this again is Mackenzie district, taking in the mainland country between the northern limit of Athabasca and the Arctic Sea and lying betwen the 100th meridian of longitude and a line about 500 miles west of and parallel to the Mackenzie River. Yukon includes the district enclosed between the latter line and the northern boundary of British Columbia, the eastern boundary of Alaska, and the Arctic Ocean. In his forthcoming year book, George Johnson, the Dominion Statistician, devotes a chapter to delimitation of these boundaries and descriptions of the vast territory they enclose, and he has added to his table of areas of provinces a computation of the surface of these newly named districts, which serves adequately to demonstrate their immensity. It will show that while Ontario contains 222,000 square miles, Quebec 228,000 square miles and British Columbia 383,000 square miles, the district of Keewatin is estimated in area at 282,000, Ungava 358,000, Franklin 300,000, Mackenzie 538,000 and Yukon 225,000 square miles. There is thus no unnamed territory now left in British North America from the St. Lawrence River to the N. P., otherwise known as North Pole.

Dr. McEachran, Dominion veterinary inspector, is in Ottawa, engaged with the Deputy Minister of Agriculture revising and perfecting the regulations governing the quarantine of foreign cattle entering Canada either in transit or by importation. In accordance with his recommendations important changes have been made in the rules. These have been rendered more stringent in the case of transit animals. A circular sent to the several ports establishes the following regulations in regard to horses from the United States shipped from Canadian ports for Europe:

"No horses shall be permitted to be placed on board any steamship or other vessel for exportation at any Canadian port until they have been inspected by a duly authorized inspector at such port, and certified by him to be free from contagious diseases; such inspection to be made within 24 hours of embarkation."

New regulations also provide other safeguards against the shipment of diseased American horses from Canadian ports. For instance, a certain time is to be allowed to lapse between the arrival and the inspection of the animals, and each horse, duly inspected, is to be marked with the letters "V.R." These precautions seem to render impossible the shipment from this country of any but healthy stock.

The militia general orders contain official notice of the appointment of Major F. L. Lessard, Royal Canadian Dragoons, to be inspector of cavalry in addition to his present duties.

Lieut.-Cols. Maunsell and Otter have been appointed inspectors of infantry in addition to their present duties in the Royal Regiment of Canadian Infantry.

John Cameron Maclean, second lieutenant of the York Rangers; Douglas Howard McDougall, second lieutenant of the 48th Highlanders.

The long delayed returns of efficiency from No. 1 Military District were received at the Militia Department yesterday and will be promulgated in the militia generals orders of next week. It is understood that these additional returns make no change in the relative position of the 43rd Battalion, which still stands in the lead of all the infantry battalions inspected during the drill season of 1895.

For the sake of uniformity the regulations respecting the sale of timber on Indian lands in Ontario and Quebec have been made applicable to the whole of the Dominion with the exception of British Columbia.

The Board of Customs has concluded its May sitting and the decisions arrived at will shortly be promulgated officially. These will include a number of rulings on intricate questions of customs ratings.

F. E. Kilvert, acting commissioner of customs, expects to be relieved of his departmental duties next week, when he will return to his post of collector at Hamilton. His successor, John McDougall, will arrive from Picton in a few days to assume charge of the office of commissioner at Ottawa.

The Conservative convention, under the presidency of Charles Magee, tonight nominated candidates to contest the city in the party interests. As English candidates (Sir James Grant, ex-M.P., and Hiram Robinson, were placed in nomination, Robinson receiving 120 votes to 64 for Grant. Ald. Champagne and ex-Mayor Durocher went to the convention as French candidates, Mr. Champagne securing 109 to 62 for Durocher. The nominations of Robinson and Champagne were made unanimous. Resolutions were adopted approving the party platform as laid down in Sir Charles Tupper's manifesto.

DROPPING OUT OF THE RANKS.

One striking evidence of popular disapproval of the record and policy of the present government is the large number of prominent Conservatives who represent public opinion in their several sections, who are dropping out of the ranks of the Conservative party, in which they have been life-long and active workers. And that these men are co-operating as actively with Hon. Mr. Laurier and the Liberal party is a sign that the campaign in favour of honest and capable government commands the allegiance of all those who have the interests of the country at heart. A complete list of old-time Conservatives who are throwing in their lot and doing their work for the Liberals, is obviously unobtainable, but a number of leading names whose prominence in the Conservative party has made their course conspicuous, may be mentioned.

We have Mr. J. A. Chipman, one of the most prominent merchants of Nova Scotia, occupying the chair at a Liberal meeting. He took an active part in all the previous political fights of his province in the Conservative interests.

Ex-Mayor Mulhern, of Cornwall, is an old Tory fighter, but he has turned his back upon the present administration.

Mr. T. B. Smith, ex-M.P.P. for Hants, has resigned his position as President of the Conservative Association, and has pledged his active support to the Liberal candidate.

Mr. Frazee, a college professor, who has been a life-long Conservative, has turned his back on Sir Charles Tupper and pledged his support to the Liberals.

Mr. Forbes, president of the Forbes Manufacturing company, of Halifax, a former doughty champion of protection, leaves his old associates and takes service under the Liberal banner.

Mr. Pugsley, a dyed in-the wool Conservative, disgusted with his party as represented by the present government, has refused the candidature of the party for Kings County, New Brunswick.

Mr. Calvin, a former Conservative member of Frontenac, has abandoned the National Policy platform and party.

Dr. McLennan, a former Conservative member of Inverness, Nova Scotia, presents himself as the Liberal candidate.

Mr. M. Howell, one of the leading lawyers of Winnipeg, is in open arms against the present Conservative regime, with which he has previously been in accord.

Why is it there are so many of these ardent but honest Conservatives rallying to the support of Mr. Laurier? Because they are true patriots and desiring to advance the best interests of their country, seek to replace an extravagant and reckless Government animated by no principle but spoil at the people's expense, with a Government that will be administered in the interests of the people alone.

These men and thousands of others have no confidence in a Government led by Sir Charles Tupper, who attained his present eminence by cuckooing Sir Mackenzie Bowell out of his place by a base conspiracy and making a stepping stone of his prostrate body. There is enough British fair play in the Canadian heart to resent such an act and to withhold confidence from a man and a Cabinet capable of gaining and retaining power by such methods.

OUR SUMMER OUTING AND OTHERS'

We are again at the season, when those who have the possibility before them, begin to think of the summer outing; when they seek to overlay the memory of the pent-up period of winter with visions of idle days of enjoyment on the waters in the seclusion of lake-girt islands.

While the vision comes to thousands, it has no part in the day dreams of other thousands, who can look for no break in the weary routine, and battle for a mere place in the world; for enough to keep soul and body together. Wives and mothers there are in thousands to whom rest is only a word; who work early and late, with no break in the toilsome tedium of the daily round.

We, who are more fortunate, should not ignore the duty that lies before us. Instead of selfishly seeking our own enjoyment, forgetful of the greater needs of others, it would be well that some attempt should be made to extend to others the blessed privilege of fresh air and change, which the fortunate appreciate so highly. In some cities the charitably inclined—those who aim at a practice of the spirit of the command to love our neighbours as ourselves—take steps to open to the poor and care-burdened the door that leads to heaven's fresh air and a few days of careless rest. In Montreal, the Fresh Air Fund has brought fresh air and an outing to over thirty thousand cases, and the Montreal Star has headed subscriptions to a fund, with the sum of five hundred dollars.

We cannot hope to do things on so great a scale in Peterborough, but those whose hearts are are in the right place can make some movement whereby, in an inexpensive manner, means can be afforded to give an outing and rest to those who have no hope for such things except through the kindness of others more favoured. We feel that the idea has only to be suggested to meet with a ready response in some form. A beginning could be made on a modest scale, and a few cases of particular hardship selected. All whose hearts are in the right place would enjoy their summer outing all the more if they could feel that, by the help of their exertions, others, otherwise debarred, could in some degree be privileged to enjoy similar rest and recreation.

Every man should read the advertisement of Thos. Slater on page 3 of this paper

THE BAD MEMBER AND THE BAD MINISTER.

The Montreal Star in discoursing upon good and bad members of Parliament says:

"A good member encourages the leaders of his party to practice economy and avoids 'jobs'; is a sure friend of the Finance Minister as he stands on guard at the of the Treasury; and is ever loyal to the principles he was elected to sustain. A bad member endeavours to draw his leaders into extravagant expenditures that shall benefit especially his own neighbourhood; takes advantage of his position within the Parliamentary household to lead assaults upon the Treasury; is the bete noir of the Finance Minister; and can be depended upon to oppose, even openly or by stealth, every bill intended to purify elections or curtail the power of the corrupt politician."

This picture of a bad member is dark enough, but when we have a Finance Minister ready to lend too willingly an ear to the persuasions of a bad member; when we have the controlling spirit of a cabinet, the High Priest of Corruption and the champion exploiter of wild cat schemes, involving enormous expenditure—not for the good of the country but of his party—the bad member becomes doubly dangerous. But with an honest, careful Finance Minister and an honourable, patriotic Premier, the sting of the bad member loses half its venom and he becomes practically harmless. Hon. Alex. Mackenzie knew how to protect the treasury from assaults and Hon. Wilfrid Laurier will better the lesson he learned from his old chief. With Hon. Mr. Foster as Finance Minister the "bad member will find no difficulty in perpetrating Fredericton Bridge jobs and with Sir Charles Tupper as Premier we may expect costly schemes like the Hudson Bay Railway, the Chignecto Ship Railway and similar schemes, to pump the treasury dry and eat deep into big loans that will have to be made to meet such senseless and reckless extravagance in the interests of retaining Sir Charles and his party in power, with such men as we now have at the helm.

SIR Charles Tupper is the only politician the National Policy had made rich.

THE Conservative party is capitally typified by a cartoon in yesterday's Mail and Empire, representing Sir Charles driving a pair of horses, tandem. It's hard to find two Tories that can agree well enough to be driven abreast.

FORCE OF HABIT.

London People have become Used to the Great Specific Remedy.

London, May 11th.—The despatch from Detroit with reference to the cure from Bright's disease and blood poison of Mr. Langley of this city by the use of Dodd's Kidney Pills, has recalled the wonderful facts of the case to the citizens, among whom Mr. Langley is well known. It has reminded them that Mrs. Langely, among others, also made an equally wonderful recovery. The use of the pills, however, has become so universal here, and there have been so many instances in which they have been used with beneficial results that a similar case would hardly excite as much interest now as it did then when the medicine was less known.

HANGED HIMSELF WITH A CHAIN.

David Barrick, Half Brother of a Toronto Doctor, Takes His Own Life.

Port Colborne, Ont., May 15.—A farmer named David Barrick, about 60 years of age, living six miles west of here, in the Township of Wainfleet, committed suicide between 8 and 9 o'clock this morning by hanging himself with a chain fastened around his neck attached to a rafter in his barn and then supposed made the fatal jump. He has been acting strangely of late, his mind being somewhat unbalanced is the only reason assigned for doing the rash act. He is a half brother to Dr. Barrick of Toronto.

The Fools Not All Dead Yet.

Even a blind man can see that more clearly than daylight, or else why should so many continue to use ill smelling, oily, and often useless preparations for the relief of pain, when a preparation just as cheap, elegant, more powerful and penetrating as Nerviline is, can be purchased from any dealer in medicine? Nerviline instantly cures aches and pains. Nerviline is the most efficacious remedy for internal aches and pains. Nerviline applied externally subdues the most intense pain almost at once.

Letters Come.

Letters come day by day telling us that this person has been cured of dyspepsia, that person of Bad Blood, and another of Headache, still another of Biliousness, and yet others of various complaints of the Stomach, Liver, Bowels or Blood, all through the intelligent use of Burdock Blood Bitters.

It is the voice of the people recognizing the fact that Burdock Blood Bitters cures all diseases of the Stomach, Liver, Bowels and Blood.

Mr. T. G. Ludlow, 334 Colborne Street, Brantford, Ont., says: During seven years prior to 1886, my wife was sick all the time with violent headaches. Her head was so hot that it felt like burning up. She was weak, run down, and so feeble that she could hardly do anything, and so nervous that the least noise startled her. Night or day she could not rest and life was a misery to her. I tried all kinds of medicines and treatment for her but she steadily grew worse until I bought six bottles of Burdock Blood Bitters from C. Stork & Son, of Brampton, Ont., for which I paid $5.00, and it was the best investment I ever made in my life. Mrs. Ludlow took four out of the six bottles—there was no need of the other two, for those four bottles made her a strong, healthy woman, and removed every ailment from which she had suffered, and she enjoyed the most vigorous health. That five dollars saved me lots of money in medicine and attendance thereafter, and better than that it made home a comfort to me.

WHERE IS THIS BOY?

Master Willie Meek of Kingston Missing Since Saturday.

Kingston, May 14.—Mrs. Merchant, Vine-street, is seriously distressed over the absence of her 13-year-old son, Master Willie Meek. Last Saturday he left home shortly after 4 o'clock, to deliver papers to various customers and also to sell, and has not been heard of since. The lad was stout, but not tall, fair blue eyes, light hair, wore black serge cap, serge coat, grey tweed pants, black stockings, grey flannel shirt. He had a small brown mark on the back of his neck.

Reservoirs of Poison

The Great Life Fluid Contaminated.

Paine's Celery Compound Cleanses the System and Gives Healthy Circulation.

The Blood is Made Red, Rich and Pure.

Buoyant Health, Elastic Spirits, Clear, Fair Skin and Good Digestion When the Great Health-giver is Used.

Thousands of human beings are veritable reservoirs of poison. The great life-fluid, the blood, is foully contaminated and clogged to such an extent that it circulates but sluggishly. Instead of carrying and distributing nourishment to every part of the system, the poisoned blood is developing disease and death.

Why is it that the blood becomes foul and poisoned? Simply because of debility of the nervous system, which leaves the excretory organs so weak that they cannot remove the waste matter, and noxious seeds remain in the system, carrying death-dealing disease to every tissue of the body.

It is in the healing and curing of blood-poisoned men and women that Paine's Celery Compound shows its victorious and conquering powers.

The great Compound is the only true and effective blood-cleanser and blood-enricher in the world, and its vitalizing and life-giving effects have never been approached by any other medicine.

Salt rheum, scrofula, erysipelas, and the most deadly of blood diseases soon yield to the magical power of Paine's Celery Compound. After the use of a few bottles the life blood circulates healthily, and goes on its regular course to heart, lungs, brain and every part of the body, removing all disturbing elements, giving full spirits, clear and fair skin, good digestion and perfect health.

Now is the time to purify and cleanse the blood, so that the whole system may be put in perfect order to meet the coming hot weather.

The following letter from Mr. A. E. Hammond, Mansonville, P. Q., speaks volumes in favour of the world's best medicine:—

"Some five years ago it was my sad misfortune to be afflicted with scrofula sores, of which I had five on one leg and three on the other. These were running sores for four years. In addition to this I was taken down with rheumatism in the small of my back so badly that I could not get off my bed; and to further intensify my sufferings I had sick-headache in the worst form.

"While in this condition, a friend of mine, Mr. Perkins, a merchant of this place, sold me a bottle of Paine's Celery Compound, with the express understanding that if it did me no good I should pay nothing for it.

"In accepting this offer, I had no idea of ever feeling under any obligation to pay for the Compound, as I had no faith in its doing me good. To my very great surprise, however, I grew better; and by the time I had used three bottles I was as well as ever, and what I never expected to see was realised, viz: the sores on my legs were entirely healed.

"There are many other cases of wonderful cures in this locality from the use of the same great agency, and no case of failure has ever been recorded, nor can there ever be one in my opinion after such tests as I have personally witnessed. I am thirty-six years of age, and have always lived in this place."

Mr. E. W. Hazlett, Reeve of Chatham township, Kent county, Ont., says: "My daughter has been very weakly for some years; she was very pale and always felt tired; she was prevailed upon by a friend to take a box of Miller's Compound Iron Pills. I must say it was a good investment; she at once began to grow stronger and is now quite well." Sold in Peterborough by Wm. Madill, druggist.

SIXTY DEAD BODIES.

Awful Destruction of Human Life in Kansas.

DEADLY WORK OF THE CYCLONE

Handsome Buildings in the Town of Sherman Reduced to Piles of Rubbish—Dead Bodies of Children Found in Trees—Fearful Sights Witnessed.

Dallas, Texas, May 15.—A cyclone struck Sherman, Texas, at 4.30 this afternoon, killing many people and doing great damage. The number dead is reported to be from fifty to one hundred. It is said the cyclone struck the ball park while a game was in progress and that several of the players and many spectators were killed. All the telegraph wries to Sherman have been down since 4.30.

Sherman, Texas, May 15.—A terrific cyclone struck this city at 4.30 this afternoon, killing many people and doing great damage to property. The number of people killed is not known, but it is reported all the way from 15 to 75. There is much excitement, and great confusion, and it will be very late and probably morning before the list can be obtained.

Denison, Texas, May 15.—The city of Sherman was visited by the worst cyclone in the history of North Texas about five o'clock this evening. The path of the destroyer was 150 yards wide. It struck the city at the west end of Post Oak Creek and swept in a westerly direction for several blocks and then spread and spent its force. The track of the cyclone is a gruesome sight, the devastation being complete, and houses, trees, fences and everything in its pathway destroyed. The loss of life will probably reach 100, with as many more bruised and wounded. The City Hall and store room, formerly occupied by S. G. Holmes, have been turned into temporary hospitals, and 18 bruised, mangled and mutilated bodies are awaiting identification.

At Sherman by 9 o'clock fifty dead bodies had been brought in and placed in public buildings, and searching parties are out for more.

The unidentified dead are being taken to the Court House. Gray's Hill and Fairview were both badly damaged and the cyclone passed directly west of the North Texas Female College, barely missing it. E. E. Sayles, a deliveryman, drove down Houston-avenue directly after the cyclone. He stated that he saw at least seven men, women and children lying alongside the avenue dead and many wounded. The devastation in spots where the cyclone was the worst is complete. Trees were stripped of their foliage in some places while in others they are uprooted. Houses are in some instances entirely gone and in others only a pile of rubbish marks the place where they stood. Capt. Ely's fine residence was blown to pieces. His wife and two children were at home, but fortunately escaped without serious injury. Not a thing remains to mark the spot where only a few hours of Capt. Burgess. His family was absent from the house at the time.

Mayor Tone of Denison, who was in Sherman during the storm, gives the following account of the cyclone: "I was on the Court House Square about 5 o'clock, and heard a roaring wind coming from the south. The next thing I knew, the air was thick with mud and small specks resembling ashes. The cyclone did not strike the Court House or jail, but followed up Post Oak Creek. The roaring did not continue over two or three minutes. During all this time it rained hard. In about five minutes rumors began to spread that many lives had been lost, and the reports grew worse and worse as time passed. By 9 o'clock 50 bodies had been brought into the public buildings, and searching parties are out for more.

The dead children have been found in trees, under leveled houses and in Post Oak Creek. An iron bridge over Post Oak Creek was twisted into scrap iron."

Prof. and Mrs. Kohler were both badly injured. Six children of J. B. Irwin are all badly hurt. Dr. Michael was caught in the storm and badly hurt. Dr. Sadler left for the south part of the town just before the storm, and as nothing has been heard from him, it is feared that he was killed.

Mrs. James Davis and Mrs. John Felds, who lived south of the town, were both killed. It is feared that the destruction in that part of the country is serious. A mass-meeting was held to-night at the Court House in Sherman to devise means to relieve the distressed.

Hundreds of homes are blown away. Forty-eight of the dead have been identified. Eighteen unidentified dead are at the City Hall. The seriously injured make a long list and many of them are probably fatally hurt.

PRETTY PRINCE EDWARD ISLAND

William Welsh, M. P. for Queen's, P. E. I., Endorses Dr. Agnew's Catarrhal Powder.

One of the genuinely pretty sections of the Dominion is Prince Edward Island. Those who have not had an opportunity of visiting there hope that some day it may be counted in their vacation. Queen's County is represented in the House of Commons by Mr. Wm. Welsh, one of the many others who have used Dr. Agnew's Catarrhal Powder, and from away off in this pretty section of the Dominion he very cheerfully proclaims to all concerned that he has used Dr. Agnew's Catarrhal Powder, and knows whereof he speaks, when he praises it as a remedy for catarrh or cold in the head. Ten minutes is all the time required for it to give relief. It quickly cures.

HAVE YOU CATARRH?

But One Sure Remedy—Obtain It for 25 Cents, Blower Included, and be Cured.

Catarrh is a disagreeable and offensive disease. It usually results from a cold and often ends in consumption and death. The one effective remedy so far discovered for it is Dr. Chase's Catarrh Cure.

Physicians failed to cure Geo. Belfrey, toll-gate keeper, Holland Landing road. Chase's Catarrh Cure did it.

One box cured William Kneeshaw and two boxes James T. Stoddard, both of West Gwillimbury.

Division Court Clerk Joel Rogers, Robert J. Hoover and Geo. Taylor, all of Beeton, voluntarily certify to the efficacy of Chase's Catarrh Cure.

J. W. Jennison, of Gilford, spent nearly $300 on doctors, but found no permanent relief until he tried a 25-cent box of Chase's.

Miss Dwyer, of Alliston, got rid of a cold in the head in 12 hours.

Henry R. Nicholls, 176 Rectory street, London, tried a box with excellent effect.

Dr. Chase's Catarrh Cure is for sale by any dealer, or by Edmanson, Bates & Co., Toronto. Price 25 cents including blower.

Coughs, colds and bronchial troubles readily cured by the latest discovery, Chase's Linseed and Turpentine. Pleasant and easy to take. 25 cents.

and all wasting diseases, should write to me for advice.

I have been a close student for many years of the subject of weakness in men, the fact is, I was a sufferer myself. Too bashful to seek the aid of older men or reputable physicians, I investigated the subject deeply and discovered a simple but most remarkably successful Remedy that completely cured me, and fully enlarged me from a shrunken, stunted condition to natural size and strength. I want every young or old man to know about it. It is a personal interest in such cases, and no one need hesitate to write me, as all communications are held strictly confidential. I send the recipe of this remedy absolutely free of cost. Do not put it off, but write me fully at once, you will always bless the day you did so. Address,

Nervous

People find just the help they so much need, in Hood's Sarsaparilla. It furnishes the desired strength by purifying, vitalizing and enriching the blood, and thus builds up the nerves, tones the stomach and regulates the whole system. Read this:

"I want to praise Hood's Sarsaparilla. My health run down, and I had the grip. After that, my heart and nervous system were badly affected, so that I could not do my own work. Our physician gave me some help, but did not cure. I decided to try Hood's Sarsaparilla. Soon I could do all my own housework. I have taken

Cured

Hood's Pills with Hood's Sarsaparilla, and they have done me much good. I will not be without them. I have taken 12 bottles of Hood's Sarsaparilla, and through the blessing of God, it has cured me. I worked as hard as ever the past summer, and I am thankful to say I am well. Hood's Pills when taken with Hood's Sarsaparilla help very much." MRS. M. M. MESSENGER, Freehold, Penn.

Death of Mrs. Lefort.

The death of Mrs. Catharine Lefort, aged 75, mother of Mr. Baptiste Lefort, took place early this morning at the family residence, George street. The funeral will take place at 2 o'clock to-morrow afternoon.

Sixty Teams of Horses Wanted.

Messrs. Corry & Lavidure will be prepared to buy on Wednesday, the 20th instant, at the Oriental Hotel, Peterborough, 60 teams of good, sound working horses. 4d114

Telfordian Temperature Topics.

Saturday, May 16.—Dry, warm weather still continues, with very little appearance of a change, for again at this morning's observation the thermometer indicated 52 degrees above zero, with another bright day.—THOMAS TELFORD.

Public School Inspector.

The office hours of Mr. Wherry, Public School Inspector, have been changed. Hereafter, and until July, the Inspector will be in his office, at the Central School, from 3 to 4 in the afternoon, instead of from 9 to 10 in the morning, as previously. The object of the change is to afford the Inspector an opportunity of seeing the morning work in the schools.

Charity for the Homeless.

The families of Messrs. Peck and Gray, who were burned out at Auburn on Thursday last, are in a most destitute condition, as nothing whatever was saved from the flames. Any charitably disposed persons who may feel inclined to leave clothing, furniture, cooking utensils, or in fact anything to go towards making a home, with the police, will have the same forwarded to the destitute families.

Rugby Bicycle Suits.

Genuine waterproof—made from tweed, Scotch, Irish and Serge. Nothing to equal these suits for the man out bicycling, as they are warranted to keep out the rain. Made up in plain sacks and Norfolk Jackets. Also, wide blouse pants, sold separate from suits, in different material. Prices of suits, $5, $6 and $7.50. Fine stock of sweaters and bicycle stockings, very good and very cheap at the City Clothing Store. H. LEBRUN & Co. 2d

Netting Salmon.

Fishery Inspector, O. B. Sheppard, of Toronto, was in town yesterday interviewing Inspector D. Breeze relative to a letter which Mr. Breeze addressed to the department some time ago, advising that authority to net salmon in the back lakes be extended, on permit, to fishermen in October. After hearing the circumstances of the case, as often set forth in the EXAMINER, Mr. Sheppard stated his intention of recommending the Government to act on Mr. Breeze's suggestion.

Stony Lake.

The demand for sites for summer cottages at Stony Lake has been growing so rapidly that very few desirable sites still remain undisposed of. Those who are on the lookout for a choice location will be interested to knew that Mr. E. B. Edwards has had placed in his hands for sale the frontage on the north shore of the lake, opposite the "American Camp" and extending from the point beyond Julian's Landing to Boschink Narrows. An advertisement will appear in a few days giving particulars, but in the meantime any intending purchaser would do well to see Mr. Edwards.

A SOLDIER CALLED TO REST.

He Will be Buried with Military Honours To-morrow Afternoon.

The death of Lieut.-Col. Edwin Poole occurred last evening, as the result of a cancerous growth in his throat, which had been troubling him for some time. Col. Poole was 73 years of age and leaves a wife and one daughter to mourn his death.

The deceased was well known throughout the district, having lived in the country for almost half a century. He was particularly identified with the volunteer force having, in fact, organized the 57th Battalion and been commanding officer until 1875, when he retired and was succeeded by Lt.-Col. Rogers.

The funeral will take place to-morrow afternoon from his late residence, No. 255 George street and will be conducted with military honours, the battalion turning out with both bands to signify the respect in which their late ex-commanding officer was held. The remains will be borne to the cemetery on a gun carriage drawn by four horses and the senior officers of the battalion will be the pall bearers.

SUDDEN DEATH OF MISS CONNIN.

She is Stricken Down With Heart Failure on Her way to the Cathedral.

The death of Miss A. F. Connin, of Water street, occurred last evening in a very sudden manner, and the announcement of the details will prove a very great shock indeed to her many friends in town.

Miss Connin, it seems, was on her way to the Cathedral to attend service, and had proceeded as far as the grounds surrounding St. Peter's when, experiencing a sudden faintness, she stopped and leaned against the railings, where Miss Moran found her a few minutes later. Miss Connin had just time to ejaculate "I am so glad you came, I feel so queer," when she collapsed and was carried into the Convent. Drs. Halliday and King were summoned but as the old lady was nearly eighty years of age she was too feeble to rally from the attack of heart failure from which she was suffering, and passed away inside of an hour.

The deceased was the last of the family of the late Dr. Connin, a retired navy surgeon, who took up his residence in Peterborough, when the town was a little backwoods village. Mr. Ogilvie, who was killed in New York by a dray, as chronicled in the EXAMINER a few weeks ago, was a brother-in-law of Miss Connin.

The funeral will take place on Monday morning next at 9 o'clock.

A FRATERNAL VISIT.

Knight Templars Come Down From Toronto in Full Regalia.

About thirty Knights Templar, of Toronto, arrived on the evening train last night, for a fraternal visit to Moore Preceptory. After putting in some exemplifying work, they were royally entertained at a banquet to which they were invited.

The visitors, who were the Geoffrey de St. Aldemar Preceptory, came down in a special car and included the following members:—R. E. Sir Knight H. A. Collins, E. Sir Knight Wm. Roof, V. E. Sir Knight A. A. S. Andagh, E. Sir Knight C. J. Hold, Sir Knight J. W. Jones, Sir Knight H. P. Blackey, Sir Knight Francis Blackham, Sir Knight Raymond Walker, and Sir Knights A. L. Malone, S. Love, L. Taylor, E. Sir Knight Joseph King, R. E. Sir Knight B. Allen, Sir Knight W. Byrie, R. E. Sir N. T. Lynn, M.E. Sir Knight E. T. Malone, Right Eminent Sir Knight C. H. Fitzsimmons: Provincial Prior was present on an official visit and was introduced by Right Eminent Sir Knight B. Shortly and E. H. D. Hall.

BUSINESS EXPANSION.

Mr. George Carton Expanding and Remodelling his Grocery Business.

In these days of brisk competition when most business men are content with quietly holding their own and pulling through from day to day, on the cautious principle of letting well enough alone, it is encouraging to hear of an occasional man with sufficient confidence in the good times coming, vigorously engaged in putting more "go" into his business.

Mr. George Carton, grocer and pork merchant, is one of the hopeful and energetic men. For the past fifteen years Mr. Carton has carried on a successful grocery business on the corner of George and Charlotte streets, in addition to establishing a large pork packing establishment in the southern part of the town, near the locks. Mr. Carton is known to be a shrewd business man and a very hard worker, who through all the vicissitudes of trade has prospered and maintained a sound financial standing. Men of this stamp are usually live, progressive and enterprising as well, and to "push business" is known to be one of Mr. Carton's dominant characteristics. He has determined to further increase the development of his grocery business, and at the same time permit of closer attention to his pork trade.

With this object in view, he has secured the services of a pratical assistant for his grocery store, in the person of Mr. A. G. Chambers, of Detroit. This gentleman is a nephew of Mr. Carton's, possessed of a valuable experience in some of the largest retail grocery establishments in the United States, and thoroughly acquainted with every department of the trade. In addition to which Mr. Chambers has had careful training in an extensive wholesale tea and coffee house in Detroit, where he made himself successful in the skilful art of tea blending and coffee mixing. Mr. Carton's intention is to cater specially for a larger tea and coffee trade, and he will, in Mr. Chambers, have an expert who will be able to suit the particular tastes of the most particular tea and coffee drinkers.

Mr. Frank Reed, who has been so long in Mr. Carton's employ, will also continue to fill the position which has made him a general favourite with the customers of this store.

So that with an increased staff, and the advantage which Mr. Carton possesses of buying and handling goods in carloads, as well as the improved facilities for better service to the public, there ought to be an increased volume of business transacted at this well-known establishment.

MR. HALL'S THIRD MEETING.

An Excellent Meeting at Ennismore.

A very large and enthusiastic meeting, in the interest of Mr. Hall, was held in the Ennismore town hall last night. The attendance was large. An excellent hearing was given all the speakers, and Mr. Hall was very cordially received.

Mr. Patrick Galvin, the veteran Liberal of the township, occupied the chair.

The meeting was opened by Mr. R. R. Hall, who pointed out to the electors, the financial condition to which the country had been brought through the maladministration of the present government, and contrasting the calibre of the leading men of the respective parties.

Mr. Hall, the Liberal candidate, spoke briefly, explaining to the electors, his *relation to the riding* and the following of Mr. Laurier, with whose general policy upon questions of administration, trade and all other questions he was in complete accord.

Mr. J. H. Burnham followed, endorsing the Conservative policy both in respect of the National Policy, for which he made strong claims, and the Remedial Bill. He held that the high taxation policy must be maintained and the Remedial bill passed. He took strong grounds on both questions.

Mr. W. H. Moore spoke on behalf of Manitoba, and was in favour of Separate Schools for that province and had no doubt that the candidate selected would adopt the same platform.

Mr. James Kendry strongly advocated a protective policy and said that instead of having less or being satisfied with what he had, he wanted *more protection*.

Mr. J. R. Stratton made a vigorous speech arraigning the government on their unsatisfactory record. The failure of their trade policy did more than injure the interests of it, and retard the progress of the country. He referred to the broken promises of the government, both as to the effect of their fiscal policy and also in respect of the Manitoba School question which they had played fast and loose with in the interest of their party alone. He also dealt with the lack of harmony that prevailed in the party on this subject, and in respect of the general record of the Government. The people could expect justice in all matters at the hands of a Liberal administration, headed by Mr. Laurier and Sir Oliver Mowat.

Mr. J. W. Fitzgerald referred to the duty of Roman Catholics to take a dispassionate view of the political situation and to consider carefully as to what party they were indebted for the justice they had received, which was, perhaps, not as much as they were entitled to, and to cast their votes accordingly. He urged the electors not to be carried away by the plausible promises of a party which was more anxious to serve their own party ends, and which had never shown a disposition to do justice to the minority.

Mr. Geo. Ball was the last speaker. He dealt forcibly with the disabilities and disadvantages the working man laboured under, with the present system, and contrasted the condition of the workingmen in England under a free trade system with Canadian workingmen.

The meeting, which, from a party point of view, was a most successful one, closed with cheers for the Queen and the candidate.

A PRESENTATION.

Mr. W. J. White the Recipient of a Handsome Clock, Wednesday Evening.

On Wednesday evening, after the regular prayer meeting in St. Andrew's church, the Sunday School teachers and officers agreeably suprised Mr. W. J. White by presenting him with a very handsome clock in black and gold, in appreciation of his work in connection with the Sunday School for the past 8 years. Mr. White warmly thanked the congregation, for their beautiful gift, and said that his work in St. Andrew's has been of a very pleasant nature owing to the willing assistance of his co-workers. Mr. Mulligan, in a few well chosen words, expressed his regret on behalf of the congregation, that the Misses White were also leaving the church. Mrs. White and family left for Toronto Thursday morning, and we are sure that Peterborough will lose, not only active and energetic church workers, but a family whose hospitality and kindness will long be remembered.

Three Wonderful Agents.

They Give Marvellous Results.

The majority of Canadian women have made use of Diamond Dyes for the work of home dyeing. Thousands are making use every day of those three wonderful agents, Fast Black Diamond Dye for Wool, Fast Black Diamond Dye for Silk and Feathers, and Fast Black Diamond Dye for Cotton and Mixed Goods. The shades of Black from the Diamond Dyes are truly marvellous. You get blacks that are deep and brilliant, that never crock, fade or run, and that stand firm as a rock.

It will never pay you to experiment with the common adulterated package dyes sold by some dealers for the sake of profit. Always ask for, and use the "Diamond" if you would have pleasure and good results.

DAILY MOTTO.

Saturday, May 16th.

Do you know who you are? From that larger world for which we are born comes this summons to our slumbering spiritual nature. Do we feel no inward stirring as we hear that high calling? We are children of the King! If children, then heirs. Fear not; it is our Father's good pleasure to give us the Kingdom.

Thousands have tested the great building-up power of Hood's Sarsaparilla and have found renewed strength, vigor and vitality in its use.

To Keep the Streets Clean.

Councillor Langford does not despair over keeping George street clean, although the action of the merchants in scattering paper broadcast out of the packing cases is most discouraging. Arrangements are being made to keep a man permanently employed on the business streets in keeping them clear of paper.

Sad Drowning Accident.

Percy George Payne, infant son of Mr. George Payne, jr., of Dummer, met a sudden death by drowning the other morning. The little fellow was playing about the mill dam on his father's premises, lot 19, in the 3rd concession, and fell into the wasteway and was drowned. No one saw the accident or heard any cry, although the family were always on the watch when the little lad was out around the water for fear that he should happen to fall into the pond, and although he was not out of their sight but a few minutes it was too late, when the accident was discovered, to save his life. The body was found about 100 yards below the dam. He was three years old and was a very active and healthy child, and it is needless to say that the family are deeply distressed on account of the accident and feel the loss of the little one very keenly.—*Norwood Register.*

Your Physical Condition

Needs attention at this time. If you are tired, weak and nervous, it is clear that your blood is impure, and without doubt there has been too much over-work or strain on brain and body. The course of treatment for such a condition is plain and simple. The blood must first be purified so that the nervous system and in fact all the organs will be fed upon pure blood. Intelligent people without number have testified that the best blood purifier, nerve tonic and strength imparting medicine is Hood's Sarsaparilla. Nervousness, loss of sleep, and general debility all vanish when Hood's Sarsaparilla is persistently taken; in a word, health and happiness follow after taking Hood's Sarsaparilla.

Land of Shakespeare.

There was a good attendance at the George street Methodist church last evening to see Mr. Roy's views of "The Land of Shakespeare," and to hear Rev. Mr. Young deliver a lecture on the subject. The imaginary trip to Stratford-on-Avon, the birthplace of the immortal dramatist, to his house, and to the room in which he was born, and also to the grammar school in which he received his education, was very interesting. The church which he once attended, and his mother's home before she was married, and other scenes of his early days, were excellently portrayed on canvas. Mr. Roy's views of "Rock of Ages," and the clouds moving as in a great storm, were the best that have ever been seen here. Some of these slides were painted by the best artists in England. Rev. W. R. Young's address was full of anecdotes. As some one had been meddling with the slides in the afternoon they were all mixed up, which made quite a lot of trouble for Mr. Roy and Mr. Young. After these views had been shown, Mr. Roy said that as the younger ones had listened so attentively he would give them some funny views. Of course this pleased the little ones, and Mr. Roy became a favourite with young and old.

The Death Rate From Heart Failure.

It hardly needs a census to impress people with great increase in the death rate from heart failure. Evidence meets us every day, at almost every point—some citizen or friend dying constantly from this cause. Can the peculiarly effective virtues of Dr. Agnew's Cure for the Heart be too well made known when death is so near with thousands? It is a medicine that gives instant relief from any affection of the heart, and even in cases that medical science has pronounced incurable it cures. It is a most wonderful heart specific never failing in success.—Sold by H. S. Mcdonald.

A TALK TO THE HOUSEKEEPER.

Suggestions Showing How You Can Save 20 per Cent. on the Meat Bill at John J. Howden's Meat Market.

We mean to sell meat so cheap this summer that everybody will want to send their orders to John J. Howden's cheap meat market. Instead of buying though second hands, and paying out money for commissions to people to buy cattle for us, to butcher for us, and to sell for us, we're hustling early and late to do all this ourselves. That, of course, means power to sell cheaper, and it shows to excellent advantage when we can save you 20 per cent. on your meat bills. Selling high qualities of meat at such close prices may look like a mistake to others in the business who are not practical men, and who have to engage expensive help to do what we can do ourselves. Then, again, we have worked hard for more than a quarter of a century to get our business, but it didn't cost us so much to get it as it is doing today to start a new business on the bonus plan. We can always hold and attract customers with prime meats at closest prices. That's why we do the biggest meat business in town today and on less than half the expenses that some others are doing. Why can't we, therefore, save you one-fifth of every dollar? Our hams and bacon are specially noted for their mildness and fine flavour. Our tasty corned beef is pickled in the old-fashioned wholesome way, and there is none better. Our beef is the best that is raised in the country. Our cooling rooms and refrigerator guarantees everything to be in A-1 condition. Housekeepers, note these facts. Don't pay higher prices if you are asked. Everything best quality, direct from the farm.

THE AUBURN BRIDGE.

Hon. John Haggart is Favourably Disposed Towards the Town's Request.

The Mayor and Messrs. John Carnegie and James Stevenson, who went to Toronto as a deputation to interview the Minister of Railways and Canals, regarding the erection of a general traffic bridge in connection with the new railway bridge at Auburn, have returned after having seen the minister and received an assurance from him, that he would take the matter into his consideration immediately, also giving the deputation to understand that as far as he knew the government would be most favourably inclined toward the project. A telegram is expected at any moment in the local offices of the Trent Valley Canal to change the bridge plans to conform with the request of the town.

OUR SCHOOLS.

To the Editor of the Examiner:

Peterborough is to be congratulated on her schools—both the Public and Separate Schools, and the Collegiate Institute, which is common property, are all of a high order.

Perhaps we fail to realize how important a factor these are in inducing people to locate here for the purpose of educating their children.

Our Institute to-day by reason of its high standing, is highly prized, and very many are drawn to our town that they may reap its advantages. The average attendance is more than double what it was in Mr. Long's time, and though we pay fairly liberal salaries to secure able teachers, the school is in reality less costly to the town than it was ten years ago.

Then we had an indifferent school, which gave unsatisfactory results; now, a first-class Institute, which on its own merits draws enough pupils to yield us, in fees, more than the extra cost of the present able staff of teachers.

The result of the growth of the town has brought about the inevitable result—a want of school accommodation.

The School Board have this to grapple with, and the question arises as to how it is to be met.

It is suggested that the present Institute building be taken for a Public School, and a new Institute building erected. Probably this is the wisest suggestion. There is no doubt about it, if we had finer High School accommodation we should have a stronger drawing card to induce parents and pupils to our town.

Of course a suitable building will cost money and a suitable site will cost money.

Now as to the site—It would be very desirable if we could have four or five acres of land, and since it must accommodate day scholars of the entire city, which, of course, includes Ashburnham, it must be centrally located to enable all to attend with comfort. Where is there such a site? It should if possible be off the noisy thoroughfare, surrounded with trees and grass.

The High School owns the Central school site, and the Public School Board will have to allow its value towards procuring a new site for the Institute. I have scanned the town and I know of no place within half a mile of the post office, where more than two acres could be purchased, unless we take the Ashburnham side and that is not at present to be thought of.

I leave the subject at this point and will ask that correspondents shall through your paper suggest available sites for a new Institute, and presently I will return to the subject.

THE ONLY HELP.

A Victim of Bright's Disease for Many Years—Cured by Dodd's Kidney Pills.

Neepawa, (Special), May 4th.—Mrs. T. H. McKee, formerly of Listowel, came here as a last resort. Had suffered ten years with Bright's disease. Reported to be past help and dying. Her re-appearance on the street in apparent good health was a pleasant surprise. The explanation given was that her little boy had insisted that she should use Dodd's Kidney Pills, and prophesied that they would cure her. She says:—"From the first few doses I began to feel better, and after taking four and a half boxes I say it with heart-felt gratitude I am perfectly cured." Dodd's Kidney Pills is the only medicine in the world that has ever cured a case of Bright's Disease at such a stage.

FAIRWEATHER & CO.

IMPORTING HATTERS, CORNER GEORGE AND SIMCOE STS., PETERBOROUGH.

What a great quantity of work a "good housekeeper" finds to do! There are so many little time-and-strength-taking chores that have no names. And it must all be done whether the housekeeper feels like it or not. This is true of men's work too, but men's manual labor is never so complicated as housekeeping. In some way or other "the world's work must be done." This iron-clad rule is harder on women than it is on men. A man can't be as sick as a woman.

As a man's organization is simpler and stronger, it follows that his ailments are less complicated. He is not subject to the chances and changes, physiologically, that come to the average woman.

If a woman is in good health there is no more healthful employment than housework. Generally speaking, there is no happier woman in the world than the one who is well and busy all day long "making home" for dear ones who depend upon her. But how different when every breath is pain, every step torture! This state of health, in nine cases out of ten comes from derangements of the delicate, feminine organs of generation. The family doctor inquires first concerning these. He most usually insists upon an "examination." From this the modest woman naturally shrinks. She is right. Excepting in very unusual cases of "female weakness" examinations are unnecessary. Dr. Pierce's Favorite Prescription is a simple, natural remedy for these ills. It cures gradually, safely, permanently. Here is one testimonial out of thousands:

"I was ill four years with 'female weakness.' I took two bottles of Dr. Pierce's Favorite Prescription. do my house work now without pain or faintness." Yours truly,

(Mrs.) Lilla M. Fox

PARALYSIS CONQUERED.

AT LAST IT YIELDS TO THE ADVANCE OF MEDICAL SCIENCE.

The Strong Testimony of a Man who was a Half-dead, Bed-ridden Invalid—He now Rejoices in Renewed Health and Strength—Doctors Admit that Paralysis is no Longer Incurable.

There is nothing in life sadder than to see a strong man stricken with paralysis. Alive, yet dead to the duties and activities that belong to life the paralytic until a comparatively recent period, was doomed to pass the remainder of his days in a hopeless and helpless condition. But since the discovery of that wonderful medicine given to the world under the name of Dr. Williams' Pink Pills, those stricken with this formerly incurable disease have now the means of regaining health, strength and activity. Hundreds in various parts of the country who were helpless, bedridden invalids have been restored to health by this incomparable medicine. Among those who have been thus fortunately restored to activity is Mr. Allan J. McDonald, a well-known resident of Nine Mile Creek, P. E. I. Mr. McDonald says:—"In the fall of 1893 I injured my back, and during the year succeeding suffered great pain. I had no less than four physicians attend me at different times but without any benefit. Before the end of the year I was forced to give up all active work and was rapidly falling into a condition of utter helplessness. On two occasions the doctors encased me in plaster paris, but it did no good. My limbs kept getting weaker and weaker, with a twitching motion and I dragged my feet when I tried to walk. Finally I lost all power of locomotion and absolutely all power of feeling from the waist downwards, and I was as helpless as a piece of wood. In this half dead and half alive condition I laid in bed for eleven months not able to help myself in the least. Physically I did not suffer much, but mentally the agony of those long weary months cannot be described. I was at last told by the doctors that there was no hope for me, and that I was doomed to pass the remainder of my days a helpless, half lifeless piece of humanity. Providentially soon after this I read of a case similar to mine cured by the use of Dr. Williams' Pink Pills. It gave me new hope and my friends got me a supply of the pills. After the use of a few boxes I found that life was slowly returning to my limbs. I continued using the pills gradually getting stronger and stronger, until now, after the use of thirty-two boxes I am able walk about smartly and can do light work, and I feel that I am gaining new strength every day. Words cannot express the thankfulness I feel at again being able to go about actively after passing through that horrible ordeal, and I sincerely hope that my experience may be the means of bringing back hope and health to some other sufferer."

Dr. Williams' Pink Pills strike at the root of the disease, driving it from the system and restoring the patient to health and strength. In cases of paralysis, spinal troubles, locomotor ataxia, sciatica, rheumatism, erysipelas, scrofulous troubles, etc., these are superior to all other treatment. They are also a specific for the troubles which make the lives of so many women a burden, and speedily restore the rich glow of health to sallow cheeks. Men broken down by overwork, worry or excess, will find in Pink Pills a certain cure.

Sold by all dealers, or sent by mail, postpaid, at 50c. a box, or six boxes for $2.50, by addressing the Dr. Williams' Medicine Company, Brockville, Ont., or Schenectady, N.Y. Beware of imitations and substitutes alleged to be "just as good."

Gallops at Woodbine—Racing Board Bulletin—Baseball.

Toronto, May 15

The weather yesterday morning was all that could be desired at Woodbine Park and the rain of the previous night was just sufficient to put the track in excellent order. It was certainly a perfect morning, and the followers of the bangtails were on hand in goodly numbers to watch the horses at work. The best "move" was accomplished by William Hendrie's Maximum, who worked a mile and an eighth in 2.01, the first mile in 1.46¾. Melchia another representative of the Hendrie stable, who gives great promise, negotiated six furlongs in 1.22, and a mile a shade better than 1.50. Ogdensburg going three-quarters in 1.24. Lord Lovell breezed a mile in 1.53. The hunter, Royal Bob, was sent two turns of the field, the last time at top speed. Plover, the Plater, was breezed through the stretch.

Lord Nelson, of Charles Boyle's string, covered a mile in 1.49. Havoc the same distance in 1.54. Loorani a half in 50½. Florence Colville and Miss Celestine a mile in 1.52. Maguire a mile in 1.56, but went on another mile before he could be pulled up, the saddle slipping.

Ben Pope gave the Dawes horses strong work. Red Monk and Laurel going a mile in 1.50¼, and the 2-year-olds, Sleepy Belle and Lady Stella, a half in 58.

The Seagram contingent were out in full force. Dandelion joined Joe Miller for a mile and a quarter, which was covered in 2.22, the first mile in 1.52. The balance of the older division were subjected to slow work, while Strathclyde was given an inning in the field under the careful guidance of Johnny Grover. The 2-year-olds, Bon Ino, Abbotsford and Ferdinand, reeled off a half in 51¼. Morpheus, who arrived from the farm on Thursday, was given his first work yesterday on the Newmarket track. It is said that the stable will be divided during the Woodbine meeting, Johnny Walker taking the best ones to Brooklyn, while Jerry Johnson will have charge of the others, which will race through Canada.

The new arrival, Edna D., from Aqueduct, L.I., made her appearance on the track, and took slow exercise. She is a likely-looking filly, and will bear watching.

The hunters, Ebbs and Everett, worked in company a mile and a half in 3.02. Everett afterwards made a circuit of the field.

Ed. Phair's Blue Wing went six furlongs in 1.23, the first being run in 25, and the half in 52.

Mr. Beardmore's clever hunter, Cockatoo, was given a stiff gallop over the jumps. Lawrence and Amos A. also did their work in the field. To-day is the last chance to perform over the jumps.

THE BASEBALL RECORD.

Scranton appeared outclassed against the Torontos yesterday. They fielded like third-class amateurs, and Toronto scored 14 unearned runs. The visitors could not hit Moran, who pitched a good game, notwithstanding his wildness. Herr put an easy ball over the plate, and the locals batted him all over the field. The game was slow and generally poorly played, and many of the small crowd left before the finish. Delehanty has been secured from Pittsburg, and will be played at short. Score:

Peter Wright Again in the Toils.

Detroit, May 15.—Peter Wright, a crook, who had just finished a term in Kingston Ont., penitentiary, was arrested in Wyandotte, Mich., last night by City Marshal Murphy, as a suspicious character. A mask and revolver were found in his pockets. Justice Kewksbury sentenced him to three months' imprisonment for carrying concealed weapons.

Results Tell the Story.

A vast mass of direct, unimpeachable testimony proves beyond any possibility of doubt that Hood's Sarsaparilla actually does perfectly and permanently cure diseases caused by impure blood. Its record of cures is unequalled and these cures have often been accomplished after all other preparations had failed.

Hood's Pills cure all liver ills, biliousness, jaundice, indigestion, sick headache.

Scott Jackson Sentenced to Death.

Oddfellows in Trouble.

Cincinnati, May 14.—The Oddfellows' Temple Co. assigned this morning. Assets $350,000, liabilities $280,000. The cause is lack of capital and failure to sell the stocks and bonds of the company.

Ivorine for the Teeth

Asks only a trial. Boasting will not whiten teeth; Ivorine for the teeth asks you for an opportunity to demonstrate its value. Dentists have affirmed it and the public corroborate professional opinion, but do you know, as every tooth loving man or woman ought to know, Ivorine for the teeth is the best?

Children Cry for Pitcher's Castoria.

He Was With Scott in Winnipeg.

Niagara, Ont., May 14.—Mr. Henry Woodington, merchant, of this town, died very suddenly this afternoon of heart disease, at the age of 54 years. He was one of those prisoners who were incarcerated with Scott during the rebellion of 1871, in the Northwest, and would have shared the same fate as befell Scott had it not been for the arrival of troops in time to rescue him and others on the evening preceding the day set for their execution. A widow, brother and sister are left to mourn his loss.

Fruit Prospects in Massachusetts.

Springfield, Mass., May 14.—Through its regular country correspondent and an additional corps of fruit growers the New England Homestead has made a special investigation of the present fruit outlook. By almost universal agreement the general prospect for all kinds of fruit east of the Rocky Mountains is fully equal to the very best for years. Aside from isolated sections in the Middle and New England States the winter was not severe enough to damage buds nor yet open enough to induce premature growth.

"Ten men out of a dozen are invalids," says a recent medical authority. At least eight out of these ten, it is safe to allow, are suffering from some form of blood-disease which a persistent use of Ayer's Sarsaparilla would be sure to cure. Then, don't be an invalid.

May Kill 30,000 Seals This Years.

Washington, May 14.—Secretary Carlisle has authorized United States Agent Crowley, at the Seal Islands, to permit the North American Commercial Co. to take as the season's catch not to exceed 30,000 male seals, if in his (Crowley's) judgment when the herd arrives so many can be taken without injury to the herd. The limit of catch last season was 15,000.

Her Father Was in Canada.

Buffalo, May 14.—Nellie Howle, a domestic employed in the Damon House at East Aurora, left the house yesterday afternoon at 3 o'clock ostensibly for a walk. To-day her body was found in the Cazenovia Creek. There is said to have been insanity in her mother's family. The girl's father is in Canada, and she has a brother and two sisters in East Aurora. All the indications point to premeditated suicide.

AFTER TEN YEARS SUFFERING

Two Box Cure

MILVERTON, 29TH JULY, 1895.

Gentlemen,—For the last ten years I had been troubled with kidney disease, being so bad at intervals that I could not lie in bed at night nor stoop to the ground.

I had tried all the remedies I could find without effect, but heard of Dodd's Kidney Pills and procured a box.

I am most happy to say it for my own sake as well as for others that I am perfectly cured after using four boxes.

THE BEST

FAMILY MEDICINE

She Has Ever Known. Words of Praise from a New York Lady for

AYER'S PILLS

"I would like to add my testimony to that of others who have used Ayer's Pills, and to say that I have taken them for many years, and always derived the best results from their use. For stomach and liver troubles, and for the cure of headache caused by these derangements, Ayer's Pills cannot be equaled.

When my friends ask me what is the best remedy for disorders of the stomach, liver, or bowels, my invariable answer is, Ayer's Pills. Taken in season, they will break up a cold, prevent la grippe, check fever, and regulate the digestive organs. They are easy to take, and are, indeed, the best all-round family medicine I have ever known."—Mrs. May Johnson, 308 Rider Avenue, New York City.

PROCESSION OF HATS.

BRIGHTNESS AND COLOR, FEATHERS AND FLOWERS EVERYWHERE.

A French Tailor Gown Which Straddles the Fence Beautifully in the Matter of Sleeves—The Materials and Styles for the Spring of 1896.

The procession of hats is beginning, and brilliant, indeed, is the show. Never were flowers so lovely, never were flowers so much used. Nothing is so pretty, after all, as floral decorations for headgear, and they are now made so perfect that the heads of the girls seem to be positively laden with real blossoms. The use of flowers for millinery purposes, moreover, betokens abundant brightness and color everywhere. Hats do not promise to be any smaller than they have been, so, wherever we go with our violet and crocus and tulip-decked heads, we shall convey a pleasing suggestion of spring and sunny days. Somebody—evidently of a cheerful spirit—has predicted that this is also going to be a wonderful year for real flowers. This, too, is good

THE LATEST HEADGEAR.

news especially if it means that flowers will be cheap enough so that we do not need to starve ourselves of the beautiful things! The poke bonnet, they say, is coming in again, but I don't know. Seems to me that is a scare to which we are treated annually. It is one of the things which regularly "bloom in the spring." One of the prettiest things in headwear I have seen of late was a small hat, with black brim and burnt orange crown. It was trimmed with tufts and aigrettes of cream-colored lace, and with delicious masses of yellow roses and pale violets. Osprey—especially black and white—makes diversion in most hats, and there are bewildering poppies of orange silk, and velvet cowslips and buttercups, and great ox-eyed daisies! But of all the new flowers, I think my choice leans toward the starry velvet clusters of sweet Williams, so natural that one could almost seem to have plucked them from their green stems.

The New Sleeves.

Some of the new fashions are hideous examples of the evil of trying to be two things at once. This is particularly noticeable in the matter of sleeves. There has been a sort of sleeve panic among the promulgators of fashion.

"Cut up your old balloons," they say, "and make a half dozen new sleeves of them, for the day of the discovery of the arm is at hand."

The real truth of the sleeve question is that they are just a little less extravagant than they were last year. But they are not the glove fitting arm tights of ten years ago, notwithstanding some of the pictures which certain London designers have sent over here for adoption by those unwitting fashionables who fly at the first light that flickers up from the other side. These people who are always "the first by whom the new is tried," usually find themselves burdened with gowns and other things which have proved either too eccentric or too common for the well dressed woman to appear in.

The London sleeves are good instances of the attempt to straddle the question. They are tight all the way up with some ruffles at the shoulder, or at the elbow, and they are simply hideous.

A French Walking Gown.

The charming tailor-made costume shown is of mixed blue and gray cloth. It is for a walking costume, and while quite plain in effect, is so made as to be suitable to wear for calling and informal receptions. The waist is made somewhat on the model of a short jacket, but is tight fitting. There are three pleats in front, which show between them a vest of dark blue velvet. The pleats are held down by cross-straps finished with three small buttons at either side. These buttons can be either in gold or silver. The sleeves,

A FRENCH TAILOR GOWN.

which droop towards the elbow, are trimmed below the elbow with three straps, also finished with small buttons, like those on the waist. Narrow lines of the blue velvet are on the outside seams of the sleeves. Two narrow line of blue velvet are on either side of the front breadth of the skirt. They start close together at the waist, but widen gracefully towards the hem of the skirt, where they are caught by three of the straps like the waist and sleeve trimming.

A dainty touch is given to the costume by the broad band collar of Liberty silk of pale blue, pleated very full on a black satin ribbon. Three choux of black satin ribbon finish this collar, which is adjustable to any gown.

Zephyr, Ont., Aug. 12, 1895.

Dear Sirs,—It gives me much pleasure to testify to the fact that Scott's Sarsaparilla has caused a most remarkable change in my condition. I was so much run down I had to give up work, and felt as if life was not worth living. Mr. Dafoe, our local merchant, induced me to try Scott's Sarsaparilla. I did so and took four bottles. I am now feeling as I did years ago. I want to say for the benefit of those suffering from indigestion and broken down health, don't despair until you have given Scott's Sarsaparilla a trial.

Dear Sirs.—In reply to your enquiry concerning the effect of your Scott's Sarsaparilla on heart disease I may frankly say it has been most beneficial to me. For a long time past I have frequently been severely ill and sometimes thought I was near death. Smothering spells and palpitation of the heart laid me up for days at a time. I am now at this date of writing as well as ever I was in my life, and have not had a return of heart trouble since taking the first dose of Scott's Sarsaparilla. Yours sincerely,

ROBBERS MADE A HAUL.

Got Away From a Decatur Bank With $11,000—Cashier Bound and Gagged.

Decatur, Ills., May 14.—The Buffalo Bank at Buffalo, twenty miles west of here, was robbed of $11,000 in cash at noon to-day by two strangers, of whom the cashier has been able to furnish only an imperfect description. At that hour Cashier Huffbarger was alone in the bank, and there was no one in the immediate vicinity on the streets. The two men entered as though on business, one stepping up to the cashier's window, while the other walked toward the end of the counter. The cashier arose to wait on the supposed customer and partially leaned over the counter. He was seized by the throat without a word and in an instant the other robber had got behind the counter and grabbed him from behind. The cashier was then bound hand and foot and a gag thrust into his mouth. The money on the counter was shovelled into a gripsack and then the vault was entered and all of the currency taken from it. The cashier was then rolled under the counter, where he was discovered half an hour later by a customer of the bank. No one saw the thieves enter or leave the bank.

YOUR "BAD BACK" RE-BACKED.

HOW IT IS DONE!

The pertinent question of the day is—Does your back ache? Is it lame?

Thousands suffer from what they commonly term "Bad back." When they walk or when they work, when they lie down or rise up, wherever they may be or whatever they may do, the old aching, paining, "lame back" worries and wearies and wears them out.

Few people understand the real cause of their aches, and fewer yet know how easily they can be cured.

Just a word of explanation.

The back is the key-note of the kidneys. When it aches that's a sign that the kidneys are not acting properly. When it is "lame," that indicates that the kidneys are clogged up.

Then all the poisonous products that it is the kidneys special duty to eliminate from the blood, are carried in the blood current to every organ and tissue of the body, bringing on many a kidney trouble which if neglected means disease.

Will you heed the timely warning the back gives you? Will you strike the enemy while you can strike hard? Doan's Kidney Pills are the little enemies of kidney disorders. They strike with no uncertain hand Old backs and young backs are being "re-backed" and freed from never-ceasing pain and many a lame and shattered one, stooped and contracted, is strengthened and invigorated by the use of Doan's Kidney Pills. scrofula

Any doctor will tell you that Professor Hare, of Jefferson Medical College, Philadelphia, is one of the highest authorities in the world on the action of drugs. In his last work, speaking of the treatment of scrofula, he says:

"It is hardly necessary to state that cod-liver oil is the best remedy of all. The oil should be given in emulsion, so prepared as to be palatable."

He also says that the hypophosphites should be combined with the oil.

Scott's Emulsion of cod-liver oil, with hypophosphites, is precisely such a preparation.

Why load them down in ill-fitting leather shackles when you can buy the most foot-fitting footwear in America for the same price as the hit or miss variety? Here is a shoe made by the famous Goodyear Welt process which considers the form and inclinations of your foot,—which yields to its eccentricities and helps it to do its duty. Made from best imported calf-skin—black or tan. Stamped on the sole $3.00, $4.00, $5.00 per pair.

From a Representative Man.

The following letter from D. Lawler, Esq., is self explanatory. Mr. Lawler is a native of Halifax, but has been in business upwards of fifty years in North Sydney, Nova Scotia, being the head of the firm of D. Lawler & Son, merchant tailors. He has a provincial reputation as a temperance man, and is also an active and leading spirit in masonic lodges in the province in which he lives. Commendation from a man of such high standing must necessarily carry great weight :—

WARNER'S SAFE CURE CO.
Toronto, Ont. ; Rochester, N.Y.

GENTLEMEN:—It affords me great pleasure to add my testimony to the curing properties of your medicine, along with many others who have been benefitted by the use of Warner's Safe Cure.

"Several years ago I had a very serious attack of inflammation of the kidneys, and as a result of that attack I have been subject at different times to severe pains in the back. When I notice this trouble coming on I at once resort to Warner's Safe Cure, which always gives me relief, and I may not again be troubled for perhaps six months or a year.

"At the present time I am just finishing a bottle of Safe Cure which has already relieved me of an attack which I think was aggravated by a heavy cold contracted a few weeks ago.

"I have, and would recommend any one troubled in a similar way to give your medicine a trial, and if one bottle does not relieve, then to continue taking it, as relief is sure to come.

I remain, yours,
D. LAWLER.

Air and Ocean Currents.

Our planet is invested with two great oceans ; one visible, the other invisible ; one is underfoot, the other is overhead ; one entirely envelopes it, the other covers about two thirds of its surface, all the water of the one weighs about 400 times as much as all the air of the other.

The meeting place of these two oceans is the scene of the greatest conflicts of the powers of sea, earth and air. They are both in a state of what is called unstable equilibrium, hence the currents of one and the winds of the other.

Roughly speaking we may take the depth of the sea at 4 miles, and of the air at 50.

Air is elastic and compressible, so that layers near the earth bear the weight of about 15 lbs. to the square inch, and are so compressed that ½th of the entire atmosphere are below the mountain tops, the other fourth, rarefied and expanded, extends upwards 40 or 45 miles beyond the mountain tops.

Water is not thus elastic or compressible it may be solidified into ice, or vaporized into steam, but air may be wonderously compressed or wonderously expanded by removal of that pressure.

In the northern hemisphere there is more land, less sea, more fresh water, more atmospheric air, longer annual duration of sun light than in the southern hemisphere.

Both receive the same amount of heat from the sun, yet the northern, without growing cooler, dispenses the greater quantity by radiation. To this unequal distribution of land, light, air and water, we owe in a measure the different climates of the earth. Were it not for the winds the vapours that rise from the sea would from the clouds be returned in showers back to the place in the sea whence they came. On an earth where no winds blow we should have neither green pastures, still waters nor running brooks. Were there no currents in the sea nor vertical movements in the air, the seasons might change, but climates would be a simple affair, depending solely on the declination of the sun in the sky.

In common with all substances the ocean and the air increase in bulk and consequently diminish in weight by heat ; like all fluids, they are mobile, tending to extend themselves equally in all directions, and to fill up all depressions wherever vacant space will admit them, hence, in these respects, the resemblance betwixt their movements.

The constant accumulation of heat at the equatorial regions, and the like accumulation of cold at the polar regions, render it necessary

FOR AN INTERCHANGE

of those surplus commodities in order that the earth may be fitted for the habitation of similar races of beings.

The ease and simplicity with which this is affected surpasses all description. The air, heated near the equator, is expanded and lightened, it ascends, leaving a partial vacuum at the surface into which flow two currents of air from the poles, while the sublimated air flows in the upper regions of space from the equator towards the poles. Two vast whirlpools are thus established, constantly carrying away heat from the torrid towards the icy regions, and there, chilled by ice and snow, they carry back their gelid freight to refresh the torrid zone.

If the earth stood still these effects would be constant ; if these heating and and cooling influences were to cease, and the earth failed in impressing its own motion on the atmosphere, we should have furious hurricanes rushing round the globe at the rate of 1000 miles an hour, sweeping everything before them. A combination of the two influences, modified by the friction of the earth, which tends to draw the air after it, gives us the trade winds, which at the speed of from 10 to 20 miles an hour, sweep around the equatorial region of the globe unceasingly.

Now the law which causes interchange of heat and cold by means of air and water are the same, and like results follow like movements of the waters of the seas.

One cubic inch of water will make one cubic foot of steam, but in the process of conversion 1100 degrees of heat have been absorbed or carried away from the vicinage and rendered latent. This heat is returned in a sensible form the moment the vapour is converted once more into water, and thus all the heat that is used in lifting the vapours from the seas—vapours which are borne away to other climes and there dropped from the clouds in rain, hail or snow, is used to modify climates where cold is in excess.

The evaporation from the seas is sufficient to depress its surface eight or ten feet annually—in fact all the rivers of the earth are lifted from the surface by the dry air, and all the heat required for the formation of these vapours is decriminated over the world as they descend in rain or snow, thus modifying climates and rendering them fit for human habitation. The tides, too, do their share in equalizing and modifying climates and sweep our shores from filth, and purify our rivers and inlets, giving health, freshness and purity wherever they appear.

Thus we find the sea and the air the great vehicles of moisture, heat and cold through the regions of the world,—at one part removing surplus, at another supplying the need to the advantage of all.

The atmosphere forms a spherical shell surrounding the earth ; it presses on us with a load of 15 pounds to every square inch of our bodies, or from 70 to 100 tons on us all. Yet we feel not its weight, softer than the finest down, more impalpible than the finest gossimer, it leaves the cobweb undisturbed, and scarcely stirs the lightest flower that feeds on the dew it supplies, yet it bears the fleets of nations on its wings and crushes the most refractory substance with its power.

In the air and in the sea there are currents or rivers whose courses are constant, steady and certainly defined—and are now marked on charts used by all navigators.

NO INTELLIGENT SEAMAN

ignores these, but on the contrary, he avails himself of their use to speed him on his way—and failure to allow for ocean currents would most certainly bring—and certainly has brought destruction to many a noble ship.

The sea is covered with well known and well defined currents, but the most notable of these is called the Gulf Stream, because it was supposed to owe it birth to the Gulf of Mexico, from which it flows past the straits of Florida and Cuba at a rate greater than that of the Mississippi and a thousand times greater in volume. You will notice with what speed the waters from your hose flows from the contracted nozzle. Every contraction of space or impediment to this great ocean river increases its force and adds to its speed—hence the rapid current as it is forced through the narrow channel between Florida and Cuba.

Down from the Arctic Seas the cold current, bearing icebergs and chilly waters sweeps past Newfoundland and Labrador—filling the harbour of St. John with ice while Liverpool, which is 5 degrees farther north, laved by the north flowing gulf stream, is never known to be frozen.

Thus this great stream of water, light through expansion, salty because of the load of salt left behind by the vast clouds of vapour which ascend from the equatorial regions, warm with its load of equatorial heat, sweeps from the Gulf to the northlaves Bermuda in its tepid waters and, passing on to Europe, makes the British Isles habitable and desirable for man, while at the same time a vast undercurrent and western surface current flows from Arctic regions to the Equatorial, modifying and equalising extremes of temperature where man without these modifying influences could not exist.

The agents which derange equilibrium in the waters of the sea by altering specific gravity, reach from the equator to the poles, and in their operations they are as ceaseless as heat and cold ; consequently they call for a system of perpetual currents to undo their perpetual work.

Early writers maintained that the Mississippi was the father of the Gulf Stream, but the waters which by the Gulf Stream leave the Gulf of Mexico are more than 3,000 times greater than the waters of the great river. The Gulf Stream is saltier than ordinary sea water—the waters of the river are fresh—whence the supply of salt, unless it enters the Gulf otherwise than by the river ? Dr. Franklin's theory, so long accepted, was that the Gulf Stream owed its origin to the trade winds forcing waters into the Gulf of Mexico, which escaped in the Gulf Stream, but to expect one impact to drive these waters from the gulf to the shores of Europe is absurd. How far do the waters of our Niagara go into Lake Ontario before they are lost ? How far do the waters of the mighty Amazon extend into the sea before they are lost ? And these winds, do they follow the stream or does not the stream maintain its course

EVEN AGAINST ADVERSE WINDS ?

The great Japan current and the Gulf Stream of the Pacific does the same.

The explanation of the existence of these great ocean currents is found in nature's untiring effort to restore equilibrium. The constant trade winds lift from the sea 10 to 15 feet of its waters to the clouds in saltless vapours. The salt left behind change the density of the water. It is computed that the salt left yearly by the ascending vapours would cover the British Isles under 14 feet of salt.

The numerous corals and other shellfish are a constant power secreting solids which they take from the seas. All rain finds its way back to the sea tending to freshen the water. This fresh water was taken up from the sea and so left the sea saltier there, while in its return it makes it fresher here, thus doubling the difference.

Now the waters which enter the Carribean Sea as a surface current receive the vast fresh waters of the Amazon, the Orinoco and the Mississippi, and from the clouds, yet they remain saltier than the waters of the extra tropical sea generally, but not quite so strong as in the trade wind regions generally. The waters of the great polar basin and the Baltic are cold and comparatively fresh, and they are light—and between them the fluid seas—through which equilibrium is sought—and here we have one of the great agents concerned in causing the Gulf Stream, and that probably the chief agent. Thus we have the cold waters from the two poles flowing to equatorial regions, and the hot waters from the equator flowing to the poles.

The Mediterranean and the Red Seas, though farther north than the equatorial waters, are hotter, because their contracted mouths at the Straits of Gibraltar and Babelmandeb do not admit the inflow of the cold Arctic current ; on the contrary, into each there is a strong surface current of hot water, and an outflow undercurrent of the colder water.

In each of these seas the evaporation is immensely greater than the inflow from rivers, and this evaporation causes the inflow of surface water to replace the waters taken up in vapour—the salt left by the vapours and the salts borne in from the outer seas would result in making these seas solid were it not for the outflow in the cold undercurrent.

At the Straits of Gibralter in the days of sailing ships as many as one thousand ships have lain for weeks waiting for a favourable wind to bear them out to the Atlantic against the inflowing surface current of four miles an hour. Down deep the cold undercurrent bore out to the Atlantic the heavier water of the Mediterranean, thus equalizing the waters and beautifully displaying Nature's adjustment of conditions which were unequal, and such as would unfit the world for habitation.

Let me hold before you two glass vessels—one contains oil, the other water. Connect both at the top and bottom with tubes ; now open the taps and you perceive that the heavy water enters by the bottom tube the oil vessel, while the oil lifted by the water flows by the upper tube into the water vessel, and presently each glass has its lower half filled with water and its upper with oil. This is the method of action in the Red Sea and Mediterranean, nay, this is the law of equilibrium, which Nature is ever obeying and in it we have the cause of the ocean currents and of the trade winds—Nature aiming to restore that equilibrum which agencies of heat and cold, evaporation and precipation and other agencies are ever disturbing.

Who can calculate the benign influences of these wonderful currents of air and ocean ? In the pursuit of this subject the mind is led from nature up to the Great Architect of nature. Unchanged and unchanging alone of all created things, the ocean is the great emblem of its Everlasting Creator. "He treadeth upon the waves of the sea," and is seen in the wonders of the deep ; yea, "He calleth for its waters, and poureth them out upon the face of the earth." And as for the winds, we have in a sentence the law which science was slow to explain: "The wind goeth towards the south, and turneth about unto the north : it whirleth about continually, and the wind returneth again according to his councils."—Eccl. 1. 6.

The pain that sometimes strikes a man at the most inopportune moment is due to indigestion. It may come in the midst of a dinner and make the feast a mockery. It is a reminder that he may not eat what he chooses, nor when he chooses. He is a slave to the weakness of his stomach. A man's health and strength depend on his digestion. Remove the obstruction by taking Dr. Pierce's Pleasant Pellets. They are a positive cure for constipation and its attendant ills—headaches, sour stomach, flatulence, dizziness, biliousness and "heartburn." The "Pellets" are very gentle in their action. They simply assist nature. They give no violent wrench to the system. They cause no pain, nor griping.

A FEW STRAIGHT FACTS.

We are still keeping up our reputation for HIGHEST QUALITY of meats, and are pleased to learn that our trade is rapidly increasing, which may easily be seen by the way it is affecting other dealers. But how could it be otherwise when "cheap meats" is their cry—enough to drive customers to where they can depend on HIGHEST QUALITY OF MEATS. A few figures may not be amiss here to prove these statements. We venture to say that the average cattle which have been dressed in the town in the near past, by some of our practical men, have not averaged over 50% of beef to the live weight. However, our experience as buyers and dealers in live cattle with some of the most successful men in the business, for the past few years, has taught us that the cattle suitable for a successful meat trade should dress 60% of beef to the live weight of the animal. And we are pleased to assert that we have been successful in securing, so far, this class of stock. Thus a beast weighing 1,200 pounds live weight, in the first instance would dress 600 pounds of beef ; in the second instance a beast the same weight, alive, would dress 720 pounds of beef, 120 pounds more meat on the same bone. It does not take a very practical man, nor yet one with over a quarter of a century's experience to decide which is the most profitable meat to buy.

In fact our customers say, (as all common sense people will say,) "we can not expect YOUR QUALITY OF MEAT at any reduced prices." We simply charge what all dealers in town were charging until their trade started to drop off. We also realize that it is impossible for one man to buy his stock, butcher it and give satisfaction to his customers, for each is a trade in itself. We thoroughly understand the buying ; have engaged the very best skill to do our killing, and as has been admitted, engaged expensive skill for our cutting and curing, which is sure to give the best of satisfaction.

Our customers will be pleased to learn that we still intend keeping up our reputation for the HIGHEST QUALITY of fresh beef, pork, mutton, spring lamb, the choicest corned beef, pickled tongues, etc., also a full line of cured meats, no matter what some of our more practical dealers may say.

Do not forget to-night, our "Special Bonus," a round trip on the Electric Railway free to each customer leaving us an order.

BISHOPS ARE A UNIT

As Regards the Duty of the Hour for Catholics.

THE TEXT OF THAT MANDEMENT

Which Was Read in the Churches of Quebec Province Yesterday—Only One Way Open to the Faithful—Appeal to Protestant Friends to Remain Firm.

Montreal, May 17.—The mandement of the Roman Catholic Bishops, which was read in all the Catholic churches to-day, began by remarking that the bishops as successors in the Apostolate have not only the mission to teach the Catholic truths at all times, but also at certain critical and dangerous moments they have the rights, and it is their duty, to raise their voices either to warn the faithful against certain dangers which threaten their faith, or to direct, stimulate and uphold them in the just maintenance of rights which are not prescribed, but which are manifestly recognized and violated. The mandement goes on: "You all know our dear brethren, the unfortunate condition in which our co-religionists of Manitoba are placed by the unjust laws which deprived them six years ago of their Separate school system, which was guaranteed to them by the Constitution of the country—a most important and necessary school system in a mixed community to the good education and to the bringing up of children according to the principles of the Catholic faith, which is to us on earth our most precious heritage. We do not require, our dearly beloved brethren, the decision of civil courts to be aware of the iniquity of these Manitoba laws against liberty and justice, but it pleased Divine Providence in His wisdom and kindness to help the Catholics by the legal support of the sovereign and irresistible authority, by having acknowledged by the highest court of the Empire, the legitimacy of their complaints, and the legality of Federal Remedial Legislation. In the presence of these facts, the Canadian episcopacy, having before all things the interest of religion and fear for good souls, could not dissemble the gravity of the duty imposed upon its pastoral solicitude, and which obliged it to claim justice, as it has done."

Continuing, the mandement says: "If, in fact there are circumstances where Catholics should openly manifest towards the church all the respect and devotion which it has a right to, it is when, like in the present crisis, our foremost rights and justice are involved, and when they claim from all good men under the direction of their chiefs an efficacious help. We had hoped, dearly beloved brethren, that the last session of the Federal Parliament would put an end to the school difficulty, which has so long divided the minds of the people, but we were deceived in our hopes. History itself will judge the causes which delayed the solution so long expected, as far as we are concerned, and in the presence of the electoral battle now going on, we consider we have an imperious duty to perform. That duty is to indicate to the faithful submitted to our jurisdiction, and whose consciences we are bound to direct, the only line of conduct to follow in the present election."

The mandement then draws the attention of the electors to the important duty given them to cast their votes in favor of the best candidates, and adds, "as a general rule, save a few exceptions, it is a matter of conscience for every citizen to vote, a duty which is of the utmost importance, particularly when important questions are submitted to them, and which may have on their destinies a most decisive influence—that is to say that your vote should be given in a wise and honest manner and worthy of intelligent and Christian men.

"Avoid the excess, against which several times already we have put you on guard—that is, perjury, intemperance, lying, calumny, violence and that party spirit which falsifies the judgment and produces on the intelligence a sort of voluntary and obstinate blindness. Do not exchange your vote for a few pieces of money.

"Your vote is a duty and duty cannot be sold. Do not give your vote to the first man that comes, but to the man whom in your conscience, and under the eyes of God, you judge the most able by his good qualities and firmness of character and the excellence of his principles and conduct, to fulfil the noble duties of the Legislature.

"But under the circumstances the duty of the electors of Canada, principally the Catholic electors, has a special character of importance and gravity to which we desire specially to draw your attention. A grave injustice has been done to the Catholic minority in Manitoba. Their Catholic schools—their Separate schools—were taken from them and parents have to send their children to schools that their conscience does not approve of.

"The Privy Council of England has recognized the claims of Catholics legitimately, of their complaints and the right of intervention of Federal authorities, so that justice be rendered the oppressed. It is thus at present, the duty of Catholics, with the help of well-thinking Protestants of our country, to join forces and their votes, so as to assure the definitive victory of religious liberty and the triumph of rights guaranteed by the constitution.

"The means to attain this object is to only elect, as representatives of the people, men who are sincerely resolved to favor with all their influence and to support in the House a measure which could be an efficacious remedy to the evils suffered by the Manitoba minority.

"In thus speaking to you, dearly beloved brethren, our intention is not to side with any of the political parties now fighting in the political arena. On the contrary, we wish to reserve our liberty. But the Manitoba school question being before all a religious question, intimately bound to the dearest interests of the Catholic faith in this country, to the natural rights of parents, as also to the respect due to the constitution of the country and to the British Crown, we will consider ourselves traitors to the sacred cause of which we are the defences if we did not use our authority to ensure its success.

"Please remark, our dearly beloved brethren, that a Catholic is not permitted, let him be journalist, elector, candidate, or member, to have two lines of conduct in a religious point of view, one for private life, and one for public life, and to trample under his feet, in the exercise of duties not social, the obligations imposed on him by his title of a submitted son of the church. Therefore, all Catholics should only vote for candidates who will formally and solemnly engage themselves to vote in Parliament in favor of the legislation giving to the Catholics of Manitoba the school laws which were recognized to them by the Privy Council of England. This grave duty imposes itself on all good Catholics, and you would not be justifiable, neither before your spiritual guides, not before God Himself, to set aside this obligation.

"We have been able thus far to congratulate ourselves upon the sympathetic support of a large number of our separated brethren, and we wish to make a new appeal to their spirit of justice and to their patriotism, so that by adding their influence to that of the Catholics, they help with all their might to obtain the settlement of the complaints justly made by a portion of our co-religionists. What we ask for is the triumph of right and justice. It is the re-establishment of rights and privileges of the Roman Catholic minority in matters of education to our brothers in Manitoba, so as to shelter the Catholics of that province from all attacks and from all arbitrary and unjust legislation."

TO BUILD A NEW CHURCH.

Five Thousand People Witness the Laying of the Corner Stone at Goderich by Bishop O'Connor.

Goderich, May 17.—(Special)—The people of Goderich and of all the surrounding districts attended in large numbers to-day to witness the cornerstone laying of the new St. Peter's Roman Catholic Church, which will be one of the architectural attractions of the town. The foundations are already completed, and it is expected that the church will be ready for occupation by next November.

The frontage of the building is 60 feet and the total length 116 feet. The style of architecture chosen is early Gothic and the materials to be used local stone with Ohio stone dressings. The main body of the church is 45 feet by 85 feet with seating accommodation for 550 persons. The plans and specifications were furnished by Messrs. Post & Holmes, architects of Toronto, and the work is being carried out under the personal supervision of Mr. A. W. Holmes.

The ceremony was performed by the Rt. Rev. Dr. O'Connor, Bishop of London. Father McBrady of Toronto preached to a congregation of all denominations of 5000 people in the afternoon. The other clergymen in attendance were the Rev. Dr. Kilroy, Stratford; Dean Murphy, Dublin; Father Kennedy, Seaforth; Father Quigley, Ashfield; Father Cortors, Drysdale.

Others who were present at the ceremonies included M. C. Cameron, M.P., Judge Doyle, Mayor Shannon, Goderich; Reeve Proudfoot, Capt. McGregor and American Consul R. S. Chilton.

THE TEXAS CYCLONE

Two Hundred Pesons Dead as a Result of it.

THE PEOPLE ARE HORROR-STRICKEN

Physicians and Nurses Arrive at Sherman—Many Families Homeless and Destitute—A Path Only 150 Yards Wide, But 100 Miles Long—Kansas Suffers.

Sherman, Tex., May 17.—The horror-stricken people of Grayson and Denton counties have been engaged for the last 24 hours in the gruesome work of recovering and counting the dead victims of yesterday's cyclone and alleviating the sufferings of the injured.

Two hundred corpses, by a conservative estimate from all points stricken by the fury of the elements, may cover the fatalities. Another hundred men, women and children have already been reported seriously injured, but two score of these sufferers are not expected to live. The wounded in the neighborhood of Sherman are scattered over territory ten miles in length, being cared for by friends and strangers, who render all the help they can in gathering names.

The special trains which came into the gloom-enshrouded city to-day were filled with volunteers, physicians and nurses and friends of the dead and injured. The women of Sherman were as brave as the men and much work was done for love of humanity. The common sorrow obliterated the line which divides the negro from the Southern white.

Followers of the Red Cross on the field of carnage could not have done more than white men and women did to-day and last night for the suffering survivors of the black race who compose the majority of the victims.

The banks of Post Oak Creek, which the cyclone made a cemetery of, were lined all day with hundreds of anxious and curious visitors. Reports came in from points down the creek that the loss of life outside the city limits had been worse than feared. At the suspension bridge dead and injured lay in every direction and the few houses that had escaped the wind scythe were crowded with living victims. All available wagons were pressed into the service of the volunteer brigade to remove the dead to the Morgue and the living to temporary hospitals.

Many persons are reported missing, which is regarded as equivalent to being numbered with the dead.

The Relief Committee has made the following announcement: "The dead and wounded exceed 200 and the loss of property will exceed $250,000. Sherman is taking good care of all the wounded, but many families have lost their all and are left destitute. All contributions will be thankfully received, as they will help us to give to those who must commence life anew."

But little or nothing had been heard of the cyclone's final course until to-day, when a courier from Denison brought the information that the storm had swept down upon the Choctaw Creek and crossing Red River into the Indian country, havoc was wrought all along its line of travel until it crossed Red River, where it struck the high bluff on the north side of the river, tearing immense oaks loose and filling the air with trees and dirt. A courier from Bokichito, Indian Territory, arrived in this city last night. He passed through the stricken district shortly before noon and declares the devastation wrought as the most awful wreck and ruin of homes that was ever witnessed in that vicinity.

The cyclone travelled 100 miles, but its swath was only 150 yards wide.

A Cyclone in Kansas.

Seneca, Ks., May 17.—A cyclone struck this place at 7 o'clock this evening and destroyed one-third of the residence portion of the city. The Court House and school house and Catholic church were unroofed. Five hundred people are homeless. The dead are two children of M. Everhes, two children of John McConnel and a son of Peter Assessmacher.

Sabetha, Ks., May 17.—Twenty-five people were injured and 20 residences destroyed by a cyclone here this evening.

Kansas City, Mo., May 17.—One hundred houses and two churches were destroyed by a cyclone at Frankfort, Ks., to-day. Twelve persons were injured.

BUSH FIRES NEAR MEAFORD.

The High Wind Makes Matters Look Serious for the Town.

Meaford, May 17.—This morning about 4.30, the citizens were startled by hearing the fire alarms. On arriving at the scene of the trouble it was found that the Methodist Church was being fired by a live electric wire. The appearance of the fire indicated that the whole interior was a mass of flames. Happily a few pails of water prevented any serious damage.

Word has just arrived that several bush fires are raging in the immediate vicinity of the town, and with the very high wind the matter looks serious at the present time.

SIR CARLES TUPPER'S WILD-CAT SCHEME.

Sir Charles Tupper dangled the Hudson Bay Railway scheme before the people of Winnipeg as a bribe. This undertaking, which is to cost some ten or twelve millions of dollars, is to receive two and a half millions from the public chest. To emphasize what a dangerous man Sir Charles is, the scheme into which he proposes to embark twenty-five hundred thousand of the people's money, is a mere visionary dream, pronounced impracticable and impossible by those who know the most about it.

Sir Donald Smith, speaking at a meeting of the Hudson Bay Company directors only last year, declared that "it would be a great misfortune were a money grant given by the Government for the construction of the Hudson Bay Railway, as it would be only throwing it away, and worse, for a Government grant for such a purpose might lead people in England and Europe generally to invest in a venture from which they certainly would never receive one penny in return." The Hudson Bay Company, the Montreal Witness remarks, know the possibilities of the Hudson's Bay route better than anyone else, and are more interested in its development than anyone else, and yet, speaking before its directors, the governor of the company, who is no other than Sir Donald Smith, who has spent the best part of his life in the North West, declares that the railway is an impossible one. Yet Sir Charles Tupper declared at Winnipeg that the government has decided to construct it. Sir Donald Smith says that if the Dominion Government encourages the scheme by making a grant to it, immense financial losses, attended by discredit to Canadian projects, will be the consequence. When we remember the Three Rivers Dead Meat Company, which members of the government lent their names to, and the discredit it brought upon Canada, we fear that Sir Charles Tupper may already have done harm to Canadian credit by declaring that his government had already decided, against all competent advice, to subsidize the construction of such a wild-cat scheme as the Hudson's Bay railway.

COMPARATIVE PRICES OF WHEAT.

Mr. Stevenson's tariff wheat price raiser must have slipped a cog. At the Conservative convention on May 9th, Mr. Stevenson quoted figures to show that the price of wheat was higher in Toronto than in Buffalo, the difference being the amount of duty, 15 cents per bushel. We showed that his figures were incorrect, that the difference was only three or four cents. On Saturday, May 16th, one week after Mr. Stevenson's erroneous claim, red wheat was quoted in Buffalo at 70½ cents, and in Toronto at 71 and 73 cents, a difference of a fraction of a cent. But this proves nothing, only that the brazen claim that a printed figure in a tariff list has no effect whatever on the price of wheat, and that the N. P. is obtaining credit under false pretences. Liverpool fixes the price of Canadian wheat, and the N.P. has nothing whatever to do with it except knocking off the profit on a bushel of wheat, by increasing the cost of raising it, through the duty imposed on agricultural implements and a heavy duty on the raw material of the manufacturers of farm implements.

ONE-SIDED PROTECTION.

The occupations of the people of Canada are reported by the census to be as follows:

Agriculture, mining and fishing	790,210
Trade and transportation	186,695
Manufacturing and mechanical pursuits	320,001
Domestic and personal services	246,183
Professional avocations	63,280
Non-productive class	62,986
Total	$4,659,355

Look at that now! Only one-fifth of those employed in Canada are engaged in connection with manufacturing industries. And they call it a "National" Policy that takes millions out of the pockets of the other four-fifths of our population for the benefit of the one-fifth. Where is the National Policy that should protect, prosper and enrich the whole country. A truly National Policy must include a system that promotes the prosperity and advances the interests of all. A policy that enriches a fragment of the people at the expense of the majority has no valid claim to being styled a National Policy. But a policy that regards the necessities of the public service as the measure of taxation that imposes necessary taxation so that it falls equally as possible on all classes; that will not handicap an important producing class, the manufacturers, by increasing the price of their raw material. Such a policy is that proposed by the Liberal party led by Hon. Wilfrid Laurier and Sir Oliver Mowat.

SENSIBLE AND SEASONABLE ADVICE.

In a recent sermon, Rev. Mr. Pedley, of Winnipeg, in his sermon, "Is Conscience a Safe Guide?" gave the following pithy advice to voters: "I suppose the conscience of every voter before me will tell him that it is his duty to vote in the coming election for the party which will administer the affairs of the country with the greatest probity and the highest regard for the country's best interests; but conscience stops there; it cannot tell him which party this may be. His reason must aid him, and if he is wise he will hear both sides; he will compare records and see where pledges have been kept and where broken; where the good of the country has been subordinated to party interest, and where the reverse has been the case. Having arrived at a decision as to which is the best party for the country, his conscience will teach him to vote for that party at whatever cost. I believe that a man should always follow his conscience; but I also believe that it requires to be educated. Be loyal to your conscience; follow it, follow it while life shall last, but keep your mind open to the light. Be ever on the watch for new truth, so that your conscience may be enlarged and strengthened.

If Sir Charles had been asked his opinion he would have advised against the appointment of Rev. Canon Dumoulin as Bishop of Niagara. Sir Charles has no use for a man who will resign a salary of $5,000 a year to accept another of $3,000, which is just what Right Rev. Bishop Dumoulin did do. Sir Charles has no patience with such foolishness. You wouldn't catch him doing such a thing. If he had been guilty of such weakness, Sir Charles would not have been rated to-day as the only Canadian public man of note that grew rich out of serving his country. All the same, Bishop Dumoulin has shown a spirit of sacrifice in a good cause that unfortunately is too rare amongst gentlemen of the cloth in Canada. He is richer in the esteem of all good men by his abnegation.

The pain that sometimes strikes a man at the most inopportune moment is due to indigestion. It may come in the midst of a dinner and make the feast a mockery. It is a reminder that he may not eat what he chooses, nor when he chooses. He is a slave to the weakness of his stomach. A man's health and strength depend on his digestion. Remove the obstruction by taking Dr. Pierce's Pleasant Pellets. They are a positive cure for constipation and its attendant ills—headaches, sour stomach, flatulence, dizziness, biliousness and "heartburn." The "Pellets" are very gentle in their action. They simply assist nature. They give no violent wrench to the system. They cause no pain, nor griping.

PROPERLY PUNISHED.

Hamilton Highwaymen Sent to Penitentiary for Twelve Years.

Hamilton, May 17.—(Special.)—The sentences Judge Street imposed upon the quintette of highway robbers yesterday are considered in no wise too severe, and general approval and satisfaction is felt that they will be out of harm's way so long. On behalf of Mike Horn and Mark Tompkins, who each got 12 years for assaulting and robbing the Tuckett Company's bookkeeper, George S. Lynch-Staunton asked for a lenient sentence, stating that the prisoners had intended to make restitution of the balance of the $1100, but the portion of it that was hidden under a tombstone in the old Catholic Cemetery had been removed, and they were unable to pay it over. Henry Michaels, who struck down and robbed Arthur Lord, was given four years in Kingston, and John Mitchell, for snatching Miss Grotz's purse, got five years. When arrested he had a loaded revolver and skeleton keys, and has a bad criminal record. His pal, Charles Patterson, who had no previous bad record, got off with six months. He was defended by J. W. Nesbitt, Q.C.

The grand jury recommended that in view of the number of assaults that have recently occurred, the lash should be applied in cases where the law allows. The jury also recommended the establishment of an industrial school and went on record as being opposed to the importation of pauper children.

Started for Moscow.

St. Petersburg, May 17.—The Czar and Czarina started this evening for Moscow. They took with them their infant daughter Grand Duchess Olga. Their departure was made the occasion of the most elaborate civil and military display. The streets from the palace to the railway station were lined with enthusiastic crowds who heartily wished God's speed to their Majesties.

Will Pardon Thousands.

London, May 17.—The Telegraph will to-morrow say that the Czar on the occasion of his coronation will abolish every form of corporal punishment in the Empire. It is expected that he will pardon thousands of the convicts in Siberia.

The Late Col. Cockerill.

New York, May 17.—The remains of the late Col. John A. Cockerill, who died in Egypt on April 10, lay in state at the Press Club rooms to-day. The club was appropriately draped, and floral offerings were displayed in the greatest profusion.

A Husband for Wilhelmina.

London, May 17.—The Standard to-morrow will publish a despatch from Berlin saying it is reported there that Queen Wilhelmina of the Netherlands will be betrothed to Prince Bernard Henry, a grandson of the Grand Duke of Saxe-Weimar-Eisenach.

$500,000 Fire in Atlanta, Ga.

Atlanta, Ga., May 17.—The Markham block, east of the Union Passenger Depot, is on fire. The Patterson stables, the Southern Express Company's storehouse and several disreputable houses on Collins-street are also burning. Thirty horses have been burned. The loss will be at least $500,000.

AN ALARMING INCREASE.

The Prevalence of Female Complaints Found to Result Largely From the Kidneys.

Saginaw, Mich., May 18.—Doctors are beginning to turn their attention more exclusively to the causes for the great increase of what are known as female complaints during the past ten years, and to the remedies for the same. Many cases have been investigated, and among others that of Mrs. Reamy, of Ashland, Wis., who was cured of this form of trouble by the use of kidney medicine known as Dodd's Kidney Pills, which originated in Canada, but has now become widely known and used throughout the Western States. This and other similar cases go to show that these troubles are largely due to the kidneys and that the above mentioned remedy is likely to have a great effect in lessening the number of victims to this form of complaint.

Sawing Wood.

A TORONTONIAN OF 85 YEARS WHO CAN STILL HANDLE A BUCKSAW.

To find a man of 85 sawing and splitting wood without any trouble would surprise most of us to whom such vigorous exercise is—to say the least—distasteful, but to bear the circumstances under which it took place but increases the wonder.

"Our representative visited Mr. John Clyne, 174½ Sackville st., City, a sufferer from kidney trouble for the past 10 years, having undergone two operations during that time. Mr. Clyne was for some 30 years engaged in the express and cartage business for such well-known firms as Swan Bros., Hugh Miller, J.P., Wm. Rennie, etc., and having been a resident of Toronto for 50 years, is well known. Mrs. Clyne was interviewed at their residence and said: 'Mr. Clyne was in a very bad state, his urine almost black with sediment and he was expecting to have another operation such as he had before. The pain in his back was at times very severe and kept him from doing any work. Mr. Clyne got a box of Doan's Kidney Pills at J. R. Lee's drug store and was relieved from the first dose; the urine is now clear, no trouble or burning sensation, and to-day you would say that although 85 years old, he has taken on a new lease of life.' Mrs. Clyne then took our reporter to the yard, and to his surprise found Mr. C. sawing wood for over Sunday. He emphatically endorsed every word Mrs. Clyne had said. 'From the very first they did me good; I am well known here and you can use my name as reference. Two weeks ago I expected to be operated on, perhaps to die—to-day I am well and strong, better than I have felt for a score of years.'"

Wood's Phosphodine.—*The Great English Remedy.*

Is the result of over 35 years treating thousands of cases with all known drugs, until at last we have discovered the true remedy and treatment—a combination that will effect a prompt and permanent cure in all stages of *Sexual Debility, Abuse or Excesses, Nervous Weakness, Emissions, Mental Worry, Excessive Use of Opium, Tobacco, or Alcoholic Stimulants,* all of which soon lead to Insanity, Consumption and an early grave. Wood's Phosphodine has been used successfully by hundreds of cases that seemed almost hopeless—cases that had been treated by the most talented physicians—cases that were on the verge of despair and insanity—cases that were tottering over the grave—but with the continued and persevering use of Wood's Phosphodine, these cases that had been given up to die, were restored to manly vigor and health—Reader you need not despair—no matter who has given you up as incurable—the remedy is now within your reach, by its use you can be restored to a life of usefulness and happiness.

Price, one package, $1; six packages, $5; by mail free of postage.

One will please, six guaranteed to cure. Pamphlet free to any address.

Has Tupper the Elder Joined the P.P.A.?

THE OATHS OF THAT ORGANIZATION

Hatred to the Bench—A Popular Nomination—The Toronto Nominations—An Accurate Description of Sir Charles Tupper's Government in His Own Language.

Sir Charles Tupper, in his speeches, is denouncing the Hon. Wilfrid Laurier, not upon any issue on public questions, but because of the latter's religious belief. The Toronto News (Conservative), in its issue of May 13, supports Sir Charles with the following statement, headed "A Pertinent Query":

"Will you vote to turn out the present Government and put in a French Roman Catholic Premier?" This pointed enquiry from Sir Charles Tupper is causing a flutter among the Liberal politicians and journalists. There are a few constituencies in which the electors will have a choice of two Conservatives, but in all others the issue is exactly as put by Sir Charles in the query quoted above. It s a good thing for Conservative voters to ponder the matter between now and the 23rd of June, and try to figure out how much they will gain by returning Mr. Laurier."

In this way Sir Charles Tupper has placed himself as the leader of the P. P.A., and one of his party newspapers applauds him for so doing. The oaths to be taken for membership in this order are given below. Each man taking the oath has to declare that he is of sound mind and good moral character. He has also to swear that he will discountenance frauds and imposition by acts and tricks upon the people; that he will maintain a rigid enforcement of the principles of honor and honesty.

I ..... herebysolemnly and sincerely promise without any mental reservation or evasion, that I will not reveal anything that I have seen or heard to any person; that I will not disclose or in any manner make known the name, person or individuality of any member of this order, either by word, sign or otherwise, whereby the membership of this order may become known to any person not a member of the same. I further declare that I am of sound mind, of good moral character and a firm believer in a triune God, the Creator of the universe, and not a member of any society opposed to good government, and I am competent to pursue some useful and lawful occupation. I am not a member of the Roman Catholic Church, nor am I married to a Roman Catholic, nor do I keep company with or intend to marry a Roman Catholic, nor have I any sympathy with Roman Catholicism; that in my opinion no Roman Catholic should be allowed any part or parcel in the control of or occupy any position in our Public schools. No person who owes allegiance to or acknowledges the supremacy of the Pope of Rome or any other foreign prelate, prince or potentate, either in ecclesiastical or temporal affairs, should or ought to hold civic, political or military office in this country. I shall do all in my power to prevent such persons from obtaining these offices. I realize that the institutions of our country are in danger from the machinations of the Roman hierarchy. That I do not enter this society for the purpose of using it for any political party purpose; and I also solemnly pledge myself to stand by the principles of this association, and will loyally support the legal nominee of this order if such there be.—Amen.

I, ..., do most solemnly promise and vow that I will not make known to anyone in the world anything I may see, hear or discover in this order, unless directed by authority to confer this degree or communicate this work to a regularly organized and recognized body of the ..... and neither to any of them unless duly advised of the genuineness of the body so to be instructed. That I will, to the best of my ability, preserve the purity of the ballot at any and all elections; that I will discountenance frauds and imposition by acts and tricks upon the people; that I will maintain a rigid enforcement of the principles of honor and honesty against political usurpation and oppression; that I will maintain and defend the Dominion of Canada and the Province in which I live against foreign invasion, against a foreign foe, national or ecclesiastical, against rebellion, treason or the foes of good government; that I will forever renounce and abjure any foreign power, king, prince, potentate or ecclesiastical power, whereby the same may in any way conflict with my rights as a citizen or my rights of conscience, and, if need be, I will take up arms, and by opposing end them. I furthermore promise and vow that I will ever make it the aim of my life to keep the church separate and distinct from the State. (Candidate repeats.) To all of which I do most solemnly promise and vow, so help me God, amen.

I ..... do most solemnly promise and vow that I will not allow anyone a member of the Roman Catholic Church, to become a member of this order, I knowing him to be such; that I will use my influence to promote the interests of all true Protestants everywhere in the world; that I will not aid in building or maintaining by my resources any Roman Catholic Church or institution of their sect or creed whatsoever, but will do all in my power to retard and break down the power of the Pope, that I will not enter into any agreement with a Roman Catholic to strike or create a disturbance, whereby the Roman Catholic employes may undermine and substitute the Protestants; that in all grievances I will seek only Protestants and counsel with them, to the exclusion of all Roman Catholics, and will not make known to them anything of any nature matured at such conferences; that I will not countenance the nomination in any caucus or convention of any person who owes his allegiance to, or acknowledges the supremacy of the Pope of Rome or any other foreign prelate, prince or potentate, either in ecclesiastical or temporal affairs for any office in the gift of the Canadian people, and that I will not vote for or counsel others to vote for any such person, but will vote only for a true Protestant; and that I will endeavor at all times to place the political positions of the Government of this country, in the hands of Protestants. (Repeat.) To all of which I do most solemnly promise and vow so held me, God. Amen.

I hereby denounce Roman Catholicism. I hereby denounce the Pope sitting at Rome or elsewhere. I denounce his priests and emissaries and the diabolical work of the Roman Catholic church, and I hereby pledge myself to the cause of Protestantism to the end that there may be no interference with the discharge of the duties of citizenship; and I solemnly bind myself to obey the rules laid down in the constitution of the order, and I will protect at all times, and with all means in my power the good name of this order and its members in my business transactions; all things being equal, I will give the preference to friends in good standing of this order. I will not wilfully, knowingly and wrongfully injure a worthy member in good standing in the order, nor will I permit others to do so if in my power to prevent it; and I shall give him warning of any injury or injustice intended for him which may come to my knowledge In his absence I will protect his wife, sister or daughter from insult.

ANOTHTR REWARDED.

Another good Tory has gone to his reward. Hon. J. A. Ouimet, late Minister of Public Works, has peen appointed a judge of the Court of Appeal at Montreal, and will therefore not be a candidate for Laval.

A POPULAR NOMINATION.

One of the most popular nominations yet made is that of W. C. Caldwell, ex-M.L.A. for North Lanark. Mr. Caldwell was placed in the field by the Liberal convention held at Almonte on the 15th, and though Mr. Rosamond, the late member, is a prominent Conservative and a large employer of labor in his woolen mills. Mr. Caldwell should be able to beat him, even in a gerrymandered riding.

TRUE TO LIFE.

Sir Charles Tupper once made an attack on the Johnston Government in Nova Scotia, in which he used these words: "The Government should define their policy, else, united on no public question, agreeing on no public policy, they must take the verdict of the country on the anomalous position they occupy, which is that of a number of individuals combined for their mutual benefit alone, and distributing the spoils of office in such a manner as to subserve, not the good of the country, but their own continuance in power."

How accurately he described the Government of which he is now the head.

NOTES.

It is to be regretted that R. C. Clute, Q.C., has felt compelled to decline the nomination in East Hastings. Mr. Clute is an able man and would have made a popular candidate.

A rousing meeting, which shows how many of the prominent manufacturers of the country feel, was held at Georgetown on Friday evening. On the platform were three well-known manufacturers—William Paterson of Brantford, biscuits and confectionery; J. R. Barber, Georgetown, paper, and John Waldie of Toronto, lumber. They all pronounced in favor of tariff reform. Mr. Waldie's election is safe.

Great interest is centered in the convention to be held this (Monday) evening, to nominate a Liberal candidate for the Centre division of Toronto. Among the prominent names mentioned is that of William Lount, Q.C. Conventions in the other two divisions will quickly follow.

Laid Low by Indigestion.

I was so run down I had to give up work.

Scott's Sarsaparilla the kind that cures.

Indigestion or dyspepsia is the bane of thousands, and is one of the most depressing of afflictions. It arises from an impure or impoverished condition of the blood, which weakens the digestive and assimilative organs, rendering them incapable of performing their natural functions, and if neglected, the sufferer loses flesh, complains of exhaustion after slight exertion, and becomes rapidly debilitated.

Mr. Wm. W. Thompson, a prominent resident of Zephyr, Ont., in a letter dated Aug 12th, 1895, says: "It gives me great pleasure to testify to the fact that Scott's Sarsaparilla has caused a most remarkable change in my condition. I was so much run down I had to give up work and felt as if life were not worth living. Mr. Dafoe induced me to try Scott's Sarsaparilla, and after taking four bottles I am now feeling as I formerly did years ago, and I want to say for the benefit of those suffering from indigestion and feeling, to use slang phrase, 'completely knocked out,' don't despair until you give Scott's Sarsaparilla a fair trial."

Scott's Sarsaparilla is a blood food, it stimulates all vital organs to healthy normal action, enabling them to throw off all poisonous and debilitating humors. Sold by druggists at $1, but there is only one Scott's, The kind that cures.

Sleeplessness, Mental and Physical Fatigue

Go hand in hand. The waste of the body that ought to be restored by rest and sleep suffers increasing diminution; then loss of strength and vigor of body and mind follows. It is in this class of diseases that the marvellous properties of Maltine with Coca Wine are most markedly exhibited. It penetrates to the very source of vital action, inasmuch as the nerve centres are impressed by its medicinal power and the digestive functions stimulated to increased and more efficient action. This imparts to the whole system the much needed impetus, the nerves are soothed from a state of irritability to one of repose—sleep, with all its beneficent influences, comes back to lend its aid to the process of restoration. Digestion keeps pace with the improvement of appetite, and in a short time the nervous, miserable sufferer regains his old-time vigor and the capability to enjoy life and all it affords. Maltine with Coca Wine is sold by all druggists.

Gloom

Of ill health, despondency and despair, gives way to the sunshine of hope, happiness and health, upon taking Hood's Sarsaparilla, because it gives renewed life and vitality to the blood, and through that imparts nerve stren gth, vigor and energy to the whole body. Read this letter: "Hood's Sar saparilla helped me wonderfully, changed sickness to health, gloom to sunshine. No pen can describe what I suffered. I was deathly sick, had sick headaches every few days and those terrible tired, despondent feelings, with heart troubles so that I could not go up and

On Saturday afternoon Mr. E. B. Edwards observed a partridge across his lawn just in front of the house, feed on some clover within a stone's throw and afterwards run over to the orchard. A Well Kept Hotel.

The Phelan House hotel has had its annual new spring suit and is now as neat as a pretty girl with a new print wrapper. The interior has been thoroughly renovated. Mr. H. W. Watson did the painting and paper hanging that invaded every portion of the premises inside. From cellar to attic, from foundation to roof, the hand of improvement and renovation has been busy, and now everything is new, clean, bright and attractive. The entire hotel premises, within and without, are renewed and clean and sweet. If the Dominion Government could put the national household in anything like the clean and tidy shape of the Phelan House, they would have a strong claim to public confidence.

OBSEQUIES ATTENDANT UPON THE DEATH OF COL. POOLE.

He was Buried Yesterday with Military Honours—A Firing Squad at the Grave.

The funeral of the late Lieut.-Col. Edwin Poole took place with military honours yesterday afternoon from his late residence, No. 255 George street.

The Battalion turned out in full strength with both the brass and bugle bands and drum corps in attendance, under the command of Lieut.-Col. Bell. A large number of the veterans who served in '66 and aided in repulsing the Fenian Raid under Col. Poole, were also in the line of march.

Interment took place at the Little Lake Cemetery, the service being conducted by Rev. J. C. Davidson, of St. John's. At the conclusion of the ceremony, a firing squad of twenty-four men under Capt. Miller fired a volley over the grave. The pall-bearers were composed of the senior officers of the battalion.

At a meeting of the Scarlet Chapter (Orange Order), the evening previous, the following members were detailed to attend the funeral:—

J. B. McWilliams—County Master.
Robert Weir—Past County Master.
Captain W. J. Green — Past County Master.
Edward Kempt—Past County Master.
H. Armstrong—District Master.
Joseph Jones—Past District Master.

TWO YOUTHFUL PRISONERS.

They are Charged With Robbing Sailsbury's Bookstore.

A couple of young lads were arrested yesterday on suspicion of being concerned in the pilfering of W. A. Sailsbury's store last week. At the request of the police the matter was kept quiet at the time in order that they might work more effectively upon several clues which they had obtained.

Yesterday two boys named Dawson were placed under arrest and it is understood that they have been identified as two of a party of lads who were hanging around the rear of Sailsbury's on the night of the robbery.

Already the prisoners have told half a dozen stories about the affair, blaming a number of other boys and strenuously protesting their innocence. They have been remanded, without bail, until Thursday, and as both are little fellows they raised a great row all morning in the cells, attracting the attention of passers by with their screams.

A QUEER FISH.

A Stranger to these Waters—A Dead Burbot (Lota Americana) Raked Out of the Ashburnham Raceway.

A day or two ago a strange fish was raked out of the raceway in rear of Calcutt's brewery, Ashburnham, by Mr. Scott, an employee. It was dead, apparently the result of an accident. This strange visitor to these waters was about thirty inches in length, and weighed about ten pounds. The burgot is caught in the Great Lakes and the St. Lawrence. It is of poor quality for food, and consequently seldom reaches the market. The burbot sometimes reaches the weight of forty pounds, and is known to the Indians as methemeg and to the voyageurs as la loche (grounding). The head resembles that of the common catfish, and from the middle of the back it resembles an eel, with small imbedded scales. The colour is dark olive, marbled with dark spots, pale underneath. How came Monsieur Burbot in these waters?

A Relic of Long Ago.

A curious find was made last week by the gravedigger at the Lakefield cemetery, Smith. He was engaged in digging a grave, and when about three feet down his spade struck something hard in the middle of the grave, and thinking it was a stone he gave it a smart blow to see if it was loose, and was surprised to find his spade crash into it. On examination it proved to be a human skull, and on further excavation the entire skeleton was uncovered, and was found to be in a sitting position, the arms folded, knees drawn up, and the feet crossing each other. The bones were hard as iron and very large, the high cheek bones and general formation of the skull pointing to Indian origin. There was no sign o any covering having been used, and no arms, trinkets, etc., could be discovered. Everything pointed to its having been there for a long period of time, the dry sandy soil preserving the bones from decay.—Lakefield News.

Salvation Army.

According to the last annual balance sheet of the Salvation Army, just published, the freehold and leasehold properties acquired for the use of the Army corps throughout the United Kingdom were valued at £583,276 1s 6d; furniture and fittings at the international headquarters, officers' quarters and trading garrisons, £9,379, 17s 11d. Investments and loans totalled £131,339 14s 10d; and sundry debtors on "general maintenance," "property" and "insurance" funds owed the army £11,928 11s 6d. Altogether, the assets reached £736,869 0s 11d. Liabilities included £308,781 17s 7d in respect of loans on mortgage on freehold and leasehold properties; £93,277 4s 2d loans for fixed periods; and £3,547 9s 8d on account of insurance, annuity, pension and other reserve funds, sinking fund for leasehold properties, and the redemption of mortgages and specific legacy fund; Salvation Army fund, £232,045 10s 5d.

FLOWER SERVICE AT ST. LUKE'S.

An Interesting an Beautiful Service Yesterday.

"Here Lord we offer Thee all that is fairest,
Bloom from the garden and flowers from the field.
Gifts for the stricken ones, knowing Thou carest
More for our hearts than the fruit that we yield."

The children of St. Luke's Sunday School marched into the church last night, singing these words. Each child bore in his or her hand a bouquet of garden or wild flowers. Proceeding round the church, they placed them upon a large silver tray, which was soon heaped up and overflowing with the fragrant burden. They were then placed upon the altar. The pulpit, reading desk and chancel were also adorned with white and pink flowers, and several beautiful offerings of cut flowers were also added to those of the children. The church was packed to the doors with an attentive and reverent congregation.

An earnest and practical address was delivered by Rev. E. Vicars Stevenson, of St. John's. He congratulated the children upon their very liberal offerings of beautiful flowers. He was well acquainted with the Sick Children's Hospital, Toronto, and knew how great would be the delight of the children when their offering was received. He then proceeded to speak of the lessons we may derive from the study of the flowers, basing his remarks upon the words, "Consider the lilies." From the consideration of their beauty the lesson was drawn that God expects our lives to be beautiful, with the beauty of holiness. This beauty of holiness must be perfected in us, as it is in the flowers, gradually. In the springtime first comes the leaf, then the bud, and afterwards the blossom. By submission to the service of Jesus, and by prayer to the Holy Spirit, we may bring forth the fruits of the Spirit, love, joy, peace, goodness, meekness, temperance.

At the close of the service the flowers were packed in two large cases and taken by Mr. J. J. Turner, jr., to the C. P. R. station in readiness for the 4.42 a.m. train. A note was placed inside bearing these words:

"CONSIDER THE LILIES."

"These flowers are sent with their love by the children of St. Luke's Sunday School, Ashburnham, to the patients of the Sick Children's Hospital, Toronto."

NEWS NUGGETS.

Paragraphs Picked Up and Pencilled for Public Perusal.

—On May 18th, 1895, we had the thermometer down to 33 degrees with frost.

—Wolfe street, east of Aylmer street, is badly in need of repair, the roadway being positively unsafe.

—There has been a light frost for the past few nights, but not of sufficient severity to hurt vegetation.

—The Belleville papers says that the excursion which comes from that city to Peterborough on the 24th will be a perfect exodus.

—The castle I built in hope,
Tinted with rays of love,
Fell at a breath—the breath to which
I forgot to add the clove.

—Fishing poles of all kinds, fishing tackle, tennis balls and tennis racquets, lacrosses and baseball goods, cheapest place in town, at Sailsbury's Bookstore. d

—Seven dog owners were before the Magistrate this morning, charged with neglecting the bylaw relative to dog tags. They were assessed the costs and required to take out licenses.

—Ground was broken to-day on the work of excavating for the new Y. M. C. A. building, opposite the Central Park. The town is taking out the excavation for the material—to be used on the streets.

—George street south will be in a bad condition for the parade of the local and visiting battalions on Sunday and Monday next to and from the agricultural grounds, unless more energy is put into the repairing of the street this week than has been done so far this spring.

—Provincial Detective Murray proposes putting forth in book form an account of his own life. For thirty years back he has carefully kept a diary of his doings, and he therefore has gathered together lots of material for a readable work.

—Last night's blow was evidently the swish of the the tail of the Texas steer, evidently the tail end of the terrible Texas cyclone of Friday. No serious damage was done in town, though leaves, wrenched from their stems, strewed the ground, and in some cases big branches have been broken. Last night strongly built houses shuddered under the blows of the gale.

PERSONAL.

Mrs. Charles Robinson has returned home after a six-weeks' visit with friends in Blackstock.

The Lindsay Post says:—Conductor Wm. Pym is considerably better. He passed through to Peterborough to-day to visit friends.

As the result of the final examinations at the Ontario College of Pharmacy, Toronto, May the 4th, Messrs. A.R. Anderson, G. W. H. Edmison and Geo. T. Stenson, of Peterborough and W. R. Montgomery, of Lakefield, are announced as having successfully qualified and taken a high standing. Congratulations.

Mr. W. H. Kent, superintendent of the Nelson and Vernon (B. C.) Telephone and Telegraph Company, is showing all his old time activity. The Spokane, Wash., Review, reports that Mr. Kent is making arrangements to connect Spokane by telephone with the mining camps. Mr. Kent's many old friends in Peterborough are pleased to hear of his success.

Mr. Charles McKee, son of our respected citizen, Mr. John McKee, has just been notified of having successfully passed his fourth and final year examination in medicine at Toronto University, and is now entitled to write M.D. after his name. Dr. McKee will take a post graduate course in New York prior to beginning practice. THE EXAMINER desires to extend the heartiest congratulations and best wishes for success.

OBITUARY.

The funeral of Mr. John Malane, took place at 3.30 o'clock yesterday afternoon, from his late residence in Ashburnham to the Roman Catholic Cemetery. The deceased was 72 years of age and has lived in the village for the past fifty years. He leaves a son and two daughters, all of whom reside at the homestead.

FAINTING SPELLS FROM KIDNEY DISEASE.

A Sufferer for 18 Months Cured by South American Kidney Cure.

For eighteen long months Mr. J. Hallman, wife of a well known flour and feed merchant, of Berlin, Ont., was troubled with an affection of the kidneys. As illustrating how seriously kidney trouble may develop, the pain in Mrs. Hallam's case would become so severe at times as to cause fainting spells, and it was dangerous to have her left alone in the house. "During all this time," she says, "I never knew what a comfortable night's rest was. I doctored, and, in fact, tried everything; but nothing seemed to relieve me for any length of time. I saw South American Kidney Cure advertised in the local paper, and the case described seemed to be my complaint exactly. I purchased a bottle, and relief came in a few days, and the second bottle cured me of all kidney trouble." Sold by H. S. Macdonald.

LIVERYMAN MOSLEY'S HORSE AND BUGGY FOUND.

Birts has Been Traced to Toronto With the Missing Outfit.

Chief of Police Roasel received a telegram this morning from York, stating that the horse and buggy belonging to liveryman Mosley was in possession of Constable Kennedy, there. A telephone message was also received from Markham, stating just where the missing outfit could be found, and John Dunsford left this afternoon to reclaim the property.

The following extract from the Toronto World fully explains the case, the man and woman mentioned being without doubt Birts and his companion:

"A little before 10 p.m. on Tuesday last a covered buggy pulled up at Crew's Hotel, on the Kingston Road, and a well-dressed young fellow, apparently of about 25, accompanied by a girl, made arrangements with the landlord to keep the rig for them until 9 the following morning, while they went into the city. Parcels innumberable were transferred to a street car, but that was the last seen of the young couple or their baggage. The mare, a big bay with black tail and legs, is still occupying a stall in the hotel stable. The buggy is not far from new, and the same can be said of the harness."

Out of Tooth Powder!

Then get the best. The best is Ivorine. Best because it whitens the teeth and does not destroy the enamel. Good as the best in fragrance and cleansing and polishing properties. Better than most, as it contains no acids to destroy. Better than all because pleasant, fragrant, cleansing and and whitening, all the good qualities combined. Ivorine for the teeth alone can claim the test.

An Accusation Against Officer Stewart.

Policeman Stewart was placed in an embarrassing position this morning in the police court. A number of dog owners were before the magistrate for neglecting to get tags. One of the offenders was a woman and her excuse was that Officer Stewart had given her the dog, telling her that he would never put her to any trouble about the tag. The public would like an explanation.

An Institute Student's Success.

Among the names of the successful candidates at the recent examinations in medicine in Toronto University is that of Mr. C. G. Thomson, Hiawatha, an ex-student of the Collegiate. Mr. Thomson succeeded in obtaining first-class honours in medicine, surgery, diseases of women and medical jurisprudence, and second-class honours in clenical medicine and surgery, mid-wifery and pathology. One secret of success is a right start. Pupils of the Collegiate succeed well in their subsequent studies because the foundation is well laid.

Improving Central Park.

Work, if not begun to-day, will be soon begun on the excavation for the new Y. M.C.A. buildings, opposite Central Park. There is a large quantity of excellent surface soil on the proposed site which is too good to be wasted. The surface of Central Park needs improvement in the matter of soil, and it seems that it would be a good thing if the town authorities made arrangements to have this soil, which must be disposed of in some manner, placed on the park. This park has been somewhat neglected, and now that an opportunity is presented of cheaply adding the necessary element of good soil, it should not be neglected.

The Lock Works' Question of Site.

At a meeting of the directors of the Peterborough Lock Works Company held on Saturday night, at which Mr. George A. Cox, of Toronto, was present, the question was considered as between purchasing the present premises or erecting new buildings at Auburn. It is understood that the feeling is in favour of accepting the proposal of the new buildings with power, this being considered preferable to purchasing the old premises, even at the low figure at which they were offered, considering the alleged disadvantages of building, etc. It is probable, therefore, that the new buildings will be decided upon, as the directors are said to be in favour of this solution of the question.

An Amateur Fire Brigade.

The fire that wiped out Meldrum and McAllister's mills on Friday, demonstrated the fact, that while the town has perhaps sufficient hose for ordinary purposes, it had not enough for this occasion. The fire brigade were compelled to use hydrants south of the site of the fire, and was kept busy for hours. It was due to the energy of the Superintendent of the Waterworks Company that considerable property was saved. Seeing the situation, Mr. Henderson promptly put the old pump house into commission, and there being a few lengths of hose in the house, organized an impromptu fire brigade that did effective service with its two streams in preventing the spread of the fire northward and saving from distruction the flume covers and the woodwork of the top of the dam, and preventing other inevitable damage. The water company gives excellent service for fire purposes, and when to this is added such works of supererogation, we arrive at a higher appreciation of a well constructed and well administered water system.

Dr. Low's Pleasant Worm Syrup removes worms of all kinds from children or adults.

BACK AT THE LAKES.

How Things are Faring up North—Some new Cottages.

The season for campers and tourists will soon be here, and already quite a number have gone back to the lakes to look after their cottages and see how they had gone through the winter. The high water this spring has done quite a lot of damage to wharves, boathouses, etc., and the water had risen so high as to destroy the ice in a number of ice-houses on the islands. As the steamers will make better connection with the trains this season, it is expected that the number of visitors to the lakes will be largely increased.

The steamer Golden City was launched for the season on Monday last, and she is now receiving a few finishing touches in the way of paint, etc. Capt. Wm. V. Reynolds will have charge, and Mr. T. Morin will be found in his accustomed place.

The trim little steamer "Idle Hour" took her first trip of the season from the head of Stony Lake to Lakefield last week, where she received a number of necessary repairs.

One of the Government scows, in course of building here, was launched on Friday last, and presents a fine appearance in the water. Mr. Walters, the contractor, is making a very creditable job of the scows.

Mr. F. J. Tate is building an addition to to his already large summer residence.

Mr. D. Smith, who has been very ill for some time, is now recovering, and is spending a few weeks up the lakes, accompanied by his wife.

Mrs. Dr. Bell and family, Lakefield, are now settled at "Elfinook" for the season.

Mr. Hopkins went up last week to his cottage at Boschinck.

Contractor Gordon, of Peterborough, is building a summer residence for Mr. Brock, of Toronto, in upper Stony Lake.

The steamer Undine was launched on Tuesday last, and is now being fixed up for the season.

Mr. C. Bell, of Toronto, took a trip up the lakes on Tuesday.

Chemong is putting on its summer garb, and is looking as attractive as ever this spring. A number of the cottagers are making preparations to occupy their summer houses almost immediately. On Saturday Mr. Robert Henderson, of Toronto, sent out a load of furniture, and his family will be down next week, in all probability, if the weather remains warm.

MILITARY ENTHUSIASM.

The Veterans of 1866 Will Come to Peterborough From Belleville.

More than ordinary interest centered in the meeting of the Argyle Light Infantry at their armory last night, says the Belleville Intelligencer, for it was understood that a number of men who formed that Battalion at its organization in 1863 and were on active service with it twice, would be present, also that others belonging to other regiments, who took part in the repelling of the Fenian invasion of 1866, would unite with them. After parade had been formed Lieut.-Col. Ponton addressed the Battalion, referring to the past record of the 15th and the men who made that record. He welcomed to the armory the representatives of the men who twice in 1866 gave themselves to their country for active service, also two old veterans, Messrs. A. T. Petrie and Joseph P. Reever, who helped to quell the rebellion of '37. He called for three cheers for these men, which were given "with a vengeance." Then the veterans, not to be outdone by "the boys" of to-day, with lusty lungs gave "the Colonel and the 15th of to-day" three rousing cheers.

The officers' quarters of the 15th Battalion had been placed at the disposal of the veterans for their meeting, and true to their instincts the first item of business was "a song by Sergeant Blaine." Next Corporal N. B. Falkiner was requested and "tuk the flure" and the "old boys" declared he was as witty and incomparable as when he ran the "F and G greatest circus aggregation on earth" at Prescott thirty years ago, and made those hours when they were on duty all night in the freight sheds on the banks of the St. Lawrence "pass with flying feet."

The meeting was organized by appointing Lieutenant U. E. Thompson chairman, and Sergeant William Johnson, secretary.

The first resolution passed was one thanking the officers and men of the Argyle Light Infantry for their generous invitation to accompany them to Peterborough for the Queen's Birthday celebration and accepting the same. The details of this trip were discussed and it was decided that at least twenty-five or thirty of the volunteers of '66 would leave here at 5.45 on Monday morning, the 25th, for Peterborough, take part in the parade, dressed in civilian clothes and wear scarlet badges with "1866" on them.

BATTALION NOTES.

The Belleville Battalion—Arrangements Complete for the Peterborough Trip.

The Belleville papers have the following:—Col. Ponton, Lieut. Hulme and Col.-Sgt. Marsh went to Peterborough yesterday to make arrangements for the regiment's visit to that town on the 23rd, 24th and 25th. They speak in glowing terms of the reception tendered them by the officers of the 57th, who drove them all over town and gave them a choice of several beautiful camping grounds. The agricultural park was selected. The street cars run to the gates, thus allowing the men every opportunity to get to and from the town.

Arrangements were made with seven of the best hotels in Peterborough for meals at a low rate.

The regiment will be met upon arrival at the station on the 23rd by the 57th, who will give them a midnight lunch. Two concerts are being arranged by the 57th Batt. band, and the local band will take part. The one on Sunday evening will be a sacred concert, and there will be another on Monday afternoon. The Non-Coms. of the 57th are making elaborate preparations for entertaining the Non-Coms. of the 15th. They will be given a smoking concert, besides drives to Chemong Park and other points of interest.

If Rev. Mr. Maclean, Chaplain of the 15th, can possibly accompany the regiment the two battalions will have what is known as a "drumhead parade" and service in the open air on Sunday.

OBITUARY.

Two Well Known Residents of the County Pass Away During the Week.

MR. PIERCE BUTLER.

Mr. Pierce Butler, who died at Norwood, on Wednesday morning, was born in the County of Tiperary, Ireland, in 1834. He came to Canada in 1857, and settled in Asphodel, where he worked for several years for Mr. James McCarthy, Mr. T. Miles and others, and moved to Percy in 1884. He came back to Norwood section eight years ago. He was a hard working, industrious man, faithful to his employer, and pleasant and affable to all his acquaintances, by whom he will be greatly missed. He leaves a widow, three sons and two daughters, viz., John, Pierce and James, who reside in Peterborough, Mrs. J. Dingman, of Percy, and Miss Julia Butler, of Norwood. The funeral took place on Friday morning. Service was held in St. Paul's church, after which the remains were interred in the R. C. cemetery, Asphodel. The bereaved family have the sympathy of a wide circle of friends.

MR. JOHN WILSON.

After a brief illness Mr. John Wilson, a well-known and highly esteemed resident of the 10th concession of Dummer, passed away on Tuesday, aged 50 years, 11 months and 18 days. Deceased was the second son of the late John Wilson, and a brother to Mrs. Richard Nicoll and Mrs. Kempt of Norwood, Mrs. Parker and William Wilson of Asphodel. He leaves a wife and three children, one son and two daughters, namely, Arthur, Amy and Stella. The funeral took place on Thursday at 2 p. m. to the Norwood cemetery. The service was conducted by the Rev. J. H. Somerville, pastor of the Presbyterian church, of which church deceased was a member.

FAIRWEATHER & CO.

IMPORTING HATTERS, CORNER GEORGE AND SIMCOE STS., PETERBOROUGH.

The big, hearty, healthy man is a continual irritation to his dyspeptic friend. One man in a hundred is perfectly healthy. The other 99 have some digestive trouble, and perhaps more than 50 per cent. of these could trace their trouble to that most prevalent evil—constipation. It's a simple thing of itself, but like many simple things, it may grow and become complicated. Constipation is the root of nine-tenths of the sickness of men, and of a large proportion of the sickness of women. It can be cured. It can be cured easily, naturally and quickly. There is no reason save that of carelessness why it should cause the trouble that it does. Nature is continually working as hard as she can to throw off impurities, and to force out poisonous refuse matter. Nature is not a dray-horse and should not be overworked. Nature is systematic. Some little thing may interfere with the system, and cause serious derangement. The removal of this little impediment sets the wheels working again without any trouble.

This is exactly what Dr. Pierce's Pleasant Pellets do. They assist nature in a gentle, healthful, efficient way. There is nothing violent about their action, and yet it is just as certain as if it were twice as violent. The use of the "Pellets" doesn't derange the system in any way, and once it is in order, you can stop taking them. There are unscrupulous druggists, who will tell you that something else is "just as good." They are mistaken—or worse. Whether they are ignorant or untruthful matters little to you if you do not get the "Pellets." Insist on getting what you ask for.

WANT "IAN MACLAREN."

The Trustees of Broadway Tabernacle, New York, Have Extended a Call to This Famous Preacher.

New York, May 15.—It is said on excellent authority that the trustees of the Broadway Tabernacle, at Thirty-fourth-street and Broadway, the pulpit of which was recently made vacant through the retirement of the Rev. Dr. Henry A. Stimson, are in correspondence with the Rev. Dr. John Watson ("Ian Maclaren"), the famous preacher and distinguished author, of Liverpool, England, with a view of inviting him to accept the pastorate of the church. It is an open secret among the prominent members of the congregation that a call has already been extended to the great Scotch preacher to occupy the pulpit made notable through the land by his fellow-countryman, the late Rev. Dr. William M. Taylor. Dr. Stimson's immediate predecessor. Whether Dr. Watson is likely to accept the call is not known, but it is said that he is willing to consider the question, and that he will make known his determination in the course of a visit to the United States, which he will make in the coming autumn.

For a long time the affairs in the Broadway Tabernacle Church have been in an unsatisfactory condition, and it is felt by the members of the parish that radical measures must be taken in order to prevent a possible division.

"The only way to save the church," said an outspoken member of the Broadway Tabernacle, "is to do what the trustees are accredited with doing, and that is to call some man like 'Ian Maclaren' to the pastorship. No wiser move could be made. There are those in the church who remember that the greatest success of the Broadway Tabernacle was under the pastorate of a great Scotch preacher, and they feel that the only salvation of the parish lies in summoning another great Scotch preacher to the pulpit."

The Rev. Dr. John Watson is pastor of the Sefton Park Scotch Presbyterian Church, Liverpool, England. It is one of the finest churches in that city, and is constantly crowded by one of the largest and most influential congregations in all England. As a preacher Dr. Watson holds a distinguished place, and as the author of "Beside the Bonnie Brier Bush" and "Days of Auld Lang Syne" he is known throughout the English-speaking world.

HAMILTON GOSSIP.

An Elderly Wedding Couple—$2500 for an Arm—A Youth Killed from Eating Ice Cream in Hot Weather.

Hamilton, May 15.—Last night Mrs. Butler, a widow over 60 years of age, was married to T.B. Barnes, a wealthy old gentleman, also over 60 years old, residing in Algoma district. The groo mmaintained that the marriage was arranged in heaven, he having prayed for a housekeeper, and become acquainted with the bride last Friday. He says he is wealthy.

Robert King, the 17-year-old son of S. S. King, builder, died this morning at his parents' residence, from the effects of eating ice cream. Last Saturday, during the hot spell, he ate some ice cream, which caused an abscess in his bowels, and although an operation was performed, it was impossible to save his life, and he passed away this morning.

The Ladies' Aid Society of Hannah-street Methodist Church elected the following officers yesterday: Mrs. Thomas Allen, president; Mrs. A. W. Semmens, vice-president; and Mrs. E. Healey, secretary-treasurer.

In the action of Washington v. the Grand Trunk Railway Co., the jury returned a verdict for the plaintiff for $2500 and costs. The action was for $10,000 for the loss of an arm, the plaintiff claiming that he was acting under instructions, and the defendants were guilty of negligence in not having the frog, in which his foot caught, filled and protected.

LAUNCH OF THE CANADA.

The Big Dominion Liner Takes Water at Belfast, Ireland.

Montreal, May 14.—(Special)—The twin-screw steamer Canada, the latest addition to the Dominion Line, was launched to-day by the shipbuilding firm of Messrs. Harland & Wolff, Belfast. The steamer is 510 feet long, 58 feet beam, and 36 feet deep, and far exceeds in size anything yet trading between the Old Country and Canada, having a tonnage of nearly 9000, and being in many respects a fac-simile of the Majestic and Teutonic. The steamer is designed to carry a large number of first and second-class and also steerage passengers. The saloon is situated in a deck house erected on the hurricane deck, with seating accommodation for nearly 200 and is surrounded by a very elaborate dome skylight, in handsome stained glass, with decorated panels, having the crest of Montreal, Quebec, Toronto and Liverpool, and also the arms of the Dominion of Canada. On the deck below there is a handsomely arranged second-class saloon, capable of seating about 100, and on this deck there is also a large number of first and second-class staterooms, together with the officers' quarters, icehouse, lavatories, pantries, galleys and other accommodation. The ship has two pole masts and will be driven by twin, triple expansion engines of the latest description. She will be capable of crossing the Atlantic at any season of the year, without cargo if necessary, having large water ballast tanks fitted fore and aft.

Immediately after the launch, the steamer was put under the 100 tons crane to receive her boilers and machinery, and in the course of a month or so no doubt the trial trip and the taking of her sailing on the line will be announced.

IT IS SIMPLY FRIGHTFUL.

The Exiled New York Correspondents Arrive Home from Cuba—Absolutely Nothing Known of the Slaughter.

New York, May 15.—Frederick W. Lawrence and James Creelman, war correspondents, recently exiled from Cuba by order of General Weyler, commander of the Spanish forces on the Island, arrived in this city to-day from Hoffman Island on the quarantine tug Governor Flower.

Mr. Lawrence said that the state of affairs in Cuba could not be adequately described by pen. "It is simply frightful," said he, "and the full facts are impossible to get at, because of their suppression by the Spanish authorities. We know absolutely nothing of the slaughter that is going on inland, where from the very fact that it is capable of being successfully screened from the outside world, it must be 100 per cent. worse than about Havana and other frequented ports, where the news of the butcheries are liable to leak out."

Before the vessel upon which he sailed left Havana Mr. Lawrence wrote a letter to General Weyler. In the letter he stated that before the vessel sailed there was time to order the arrest of the writer, who invited it. Mr. Lawrence made, he says, a proposition to General Weyler. It was that if the latter would guarantee the safety of his witnesses and an impartial court of inquiry, he, Lawrence, would guarantee to produce proof that Weyler was conducting the most brutal military campaign the world had ever seen. He received, he says, no answer to the letter.

Mr. Creelman said that the Spanish have lost control of the island, and those who upheld the Government at first are now helping the Cubans. The latter are not resorting to the same cruel methods as the subjects of Spain, and the story of their using explosive bullets is pure fake, although in some cases he believes they have used what is known as the express bullets.

Died From His Injuries.

Forest, Ont., May 15.—William Archer, son of Edward Archer of the Township of Plympton, was kicked by a colt in the stable on Thursday afternoon and died this morning.

SPAIN WILL PROTEST

At the Manner in Which the United States Authorities are Treating Their Bloody War in Cuba.

Madrid, May 15.—At a Cabinet council held yesterday the Duke of Tetuan, Minister of Foreign Affairs, was authorized to draft a formal remonstrance against the attitude of the United States in regard to Cuba, which will be presented to the Government at Washington, and it is probable that Senor Dupuy De Lome, Spanish Minister at Washington, will also be instructed to protest personally against the policy being pursued by the American Government.

It was also decided that the Government shall send 40,000 troops to Cuba in September.

How Gen. Weyler Puts It.

New York, May 15.—The Herald's Havana correspondent says: The Marquis de Palmerol, Secretary-General of the Government, gave me this authorized statement in the palace today: Captain-General Weyler has no prejudice whatever against American citizens as such, and if it were not absolutely necessary to put a stop to filibustering expeditions, he would take real pleasure in pardoning the condemned prisoners from the Competitor, foreigners, as well as Spanish, but as it is necessary to make an example of them, he must perform his duty.

Spanish Soldiers Deserting.

New York, May 15.—A special to The Herald from Key West says: The large number of desertions from the Spanish ranks is alarming the authorities. The entire garrison in Gibamica has been relieved by order of the Government, who accidentally discovered a conspiracy to go over to the rebels in a body. The principal cause of discontent among the Spanish troops is ill treatment and lack of pay.

TORTUES OF RHEUMATISM.

The pains of rheumatism are removed and the disease driven from the system by the use of Burdock Blood Bitters, the conqueror of thousands of the severest cases.

Mrs. J. M. Monkman, Arkwright, Ont., says: I took inflammatory rheumatism in February, 1894, and doctored for it some weeks, but found I was getting worse. All my joints were swollen very much and I was not able to leave my bed, and could neither sleep nor rest. Hearing from a neighbour that she got your Burdock Blood Bitters for her daughter, who had the same disease and it cured her, I purchased a bottle, and after taking about the half of it I found myself recovering, and after continuing it for some time I recovered, but when the cold weather set in this winter I found it returning again. So I commenced to take the B. B. B. again, when I found, after taking it about a week, that all pain and swelling of the joints had disappeared, and I consider that I am entirely cured.

For a Continental Congress.

London, May 15.—The Times' Rio de Janeiro despatch says:

"The President's message on the opening of Congress favors the idea of a congress of American Republics.

"It also advocates an increase in the navy when the finances will permit.

"The President favors a revision of the tariff in the interests of the revenue and the withdrawal of paper money."

Seeing Distance.

A white object of any size may be seen in sunlight at a distance of 17,250 times its diameter; that is to say, if it is a white ball a foot in diameter, it can be perceived at a distance of 17,250 feet. A red object is not nearly so visible at a distance as one of white. A red globe a foot in diameter can be perceived clearly only a distnce of 8000 feet, and a blue globe a little further.

HOW THE SUN LIFE

FULFILS ITS PROMISES.

A Matured 10 Year Endowment.

Profits Paid by the SUN 21 per. cent more than the Estimates.

The following letter, which speak for itself, was received by the undersigned this morning from a gentleman in Brockville, whose ten year endowment which he held in the Sun Life Assurance Company of Canada matured last week and was paid him. The Sun is modest in promises but UNEQUALLED IN RESULTS. The public are benefitted by results, not by promises unfulfilled

BROCKVILLE, November 7th, 1895.

W. H. HILL, Mgr. Central Ontario Sun Life Assurance Company of Canada, Peterborough, Ontario:—

DEAR SIR,—I should have acknowledged the receipt of yours enclosing cheque for endowment policy No. 12,871 before, only I wanted to write something more than a mere receipt. I am pleased to hear of the continued prosperity of the "SUN" and it speaks well for your Company when the profits are greater (by 21 per cent.) than you as the Company's representative promised or rather estimated, as was the case with this policy.

I hope your Company will continue to prosper and I often regret that I do not carry more Insurance than I am doing. I might have carried twice as much as I do when at Minden without any great effort, still what little I do carry I feel is perfectly safe being in the "SUN."

I must thank you for your promptness and kindness regarding this policy just settled. I hope we will both be alive and well when the new one I now hold will be due in 1905 and assuring you of very best wishes, I remain,

Yours Sincerely,
(Signed) F. R. C.

The above voluntary testimonial is significant and shows in a most practical way the SUN'S standing as a profit paying institution.

She Has Ever Known. Words of Praise from a New York Lady for

AYER'S PILLS

"I would like to add my testimony to that of others who have used Ayer's Pills, and to say that I have taken them for many years, and always derived the best results from their use. For stomach and liver troubles, and for the cure of headache caused by these derangements, Ayer's Pills cannot be equaled.

When my friends ask me what is the best remedy for disorders of the stomach, liver, or bowels, my invariable answer is, Ayer's Pills. Taken in season, they will break up a cold, prevent la grippe, check fever, and regulate the digestive organs. They are easy to take, and are, indeed, the best all-round family medicine I have ever known."—Mrs. MAY JOHNSON, 368 Rider Avenue, New York City.

LOST ALL FOR LOVE.

The Romance of the Daughter of the Marquis Ungaro, of Italy.

Marquise Ungaro, whose father was Italy's royal commissioner at the World's Columbian Exposition, has been reduced almost to penury as the penalty of her marriage to the man she loved. She preferred Luigi Caldarazzo to the groom selected by her regal family, and now finds herself rewarded by faithlessness on the part of her husband an dan income of $20 a month. She was married to Caldarazzo April 2, 1891. The family objected seriously to the match. He was a silk merchant, and under the Italian custom was thus considered beneath the marquise in rank. The opposition was such that the Duchess of Castelluccia, who lived in New York, went to Naples to protest. The young woman refused all counsel, declaring she loved the silk merchant and proposed to marry him. They came to America on their wedding tour and lived for eleven months at the Burlington Hotel, New York. The romance of the marriage soon expired and then began their troubles.

It was finally determined to return to Naples and plead for forgiveness. The mission was unsuccessful, and the wife remained on the other side. Caldarazzo came back to New York. It seems that his ardent love for his royal wife began to wane, and he began to dispose of the property which was her dowry. He had secured power of attorney, and in a short time all the $60,000 worth of real estate which they owned had been converted into cash and spent. He sent his wife a small share in the way of checks. They were drawn in her name, but she now alleges that her disappointed father secured her indorsement and deposited them in his own account. This charge she makes against the man who stood for Italy during the Columbian festivities in Chicago. There were many more curious financial proceedings, leading to a climax in Naples soon after the fair closed. The father made claim to more of the property which was in her name, and one day demanded that she sign to him the last piece—a house she had saved from the wreck in New York. She absolutely refused, and was at once ordered to leave her father's house. This, she says, she did, having but $5 left from all her rights. She went to the Grand Hotel in Naples and awaited developments.

One night her father's lawyer, Margotta, came to the hotel with a ticket for America. He said she must leave the country. She alleges she was forced to get aboard the steamer, and in due time landed in New York, penniless, friendless and alone. She was taken into the house of the duchess and remained there until the latter died.

THE MARQUISE UNGARO.

Suits were brought in the Italian courts to get the balance of the property. She was a winner in some, but the influence of the father was such that she did not get her rights. She charges that she was uninformed when some of them were called and that decrees were entered against her in default. All that she now has left is a mortgage of $6,000 on a house in Sixty-first street that brings her $20 each month. This is her total income, and both the titled father and the trading merchant have stoutly refused to lend assistance. Driven to desperation she applied for a divorce, and Judge Roger A. Pryor has annulled the marriage.

The marquise is 24 years old. She is living at present with Countess Gilda Ruta in Lexington avenue. Marquis Ungaro lives in regal style in the Rione Amedio in Naples.

A SMART WEDDING.

The Finery Worn at the Somerset-st. Albans Nuptials in London.

At a recent smart wedding in London the bride wore a gown of rich white satin, the bodice draped with antique Brussels lace, the ends of which formed a sash and fell down the left side of the skirt with trails of orange blossoms, which came across the corsage. The bodice was cut square at the throat and edged with organge buds, and the full skirt had a long round train. It was a charmingly simple dress, and suited the youthful bride to perfection. A small spray of orange flowers was arranged in the hair under a delicately fine lace veil, fastened in front by a diamond butterfly, which, with a long string of fine pearls, was the gift of Lady Henry Somerset (mother of the bridegroom). She carried a lovely shower of white exotics.

The bridesmaids were in white Oriental satin, with frilled fichus of white chiffon, forming almost a square yoke, and satin sashes tied around the waist with a bow and long ends on the left side. The pretty sleeves were made with a satin puff to the elbow, tied round near the centre with a smart wired bow, the lower part being of chiffon with a frill at the wrist. Their hats, of white velvet, had crowns of white embroidered gauze, with plumes of white ostrich feathers on one side and two La France roses on the other. The youngest bridesmaid, the Countess of Dudley's lovely little girl, made an exquisite picture in a long white satin frock falling straight from an embroidered yoke, and a small cap of delicate lace on her hair.

The bride's traveling costume was of white cloth, with white satin sash and collar, over which was worn a handsome pelisse of sapphire blue velvet, lined with white satin; and a toque of white satin lace and clusters of white violets completed her attire.

Among the gowns in the trousseau were: A visiting gown in pale biscuit-colored cloth, the bodice arranged with a collar of cream guipure over white satin, terminating in front in a broad pleat to the waist; with this is to be worn a pretty cape made of the same cloth lined with white satin, trimmed with many rows of biscuit and brown triangular braid; the cape is pleated on the shoulders and fastened with passementerie buttons to match the braid, and a white lace tie. A black corduroy dress, trimmed with white satin; the coat bodice has a white satin vest and collars, appliqued with black guipure embroidery, the short basque lined white to match. A tea gown in white Oriental satin, with a sacque back, has a fichu of Limerick lace and lovely sleeves of white miroir velvet, slashed so as to show a full soft undersleeve of the satin.

FORCE OF HABIT.

London People have become Used to the Great Specific Remedy.

London, May 11th.—The despatch from Detroit with reference to the cure from Bright's disease and blood poison of Mr. Langley of this city by the use of Dodd's Kidney Pills, has recalled the wonderful facts of the case to the citizens, among whom Mr. Langley is well known. It has reminded them that Mrs. Langely, among others, also made an equally wonderful recovery. The use of the pills, however, has become so universal here, and there have been so many instances in which they have been used with beneficial results that a similar case would hardly excite as much interest now as it did then when the medicine was less known.

Odd Belts and Girdles.

Novelties in belts and girdles will be a conspicuous feature with every variety of feminine garment, from the organdie fete costume to the bathing suit of sombre hue. And every style and kind of materials has been pressed into service—elastic, silk, leather, lace, satin, moire and metal, both stiff and woven. The leather belts appear in a diversity of styles almost without limit, of which the very latest, most swagger and also most expensive are the "horned alligator," in dull and russet brown and fancy dyes. White seal is equally popular and novel and is much worn in half mourning, with a fine cut-steel buckle as a clasp. For full mourning the preference is for duss, gros-grain silk belts, finished with rich jet clasps. Patent leather belts, which are a somewhat startling novelty, are worn with trim-fitting costumes and clasped with plain steel buckles. The appropriateness of the buckle to the belt and the belt to the dress are alike matters of serious deliberation. A green alligator belt requires a buckle of solid gold or plain silver. Oxidized silver would be out of harmony. For white satin or leather belts the appropriate finish is found in gold filigree, in tinted miniatures or mosaics. Rhinestone buckles are also effective with white belts for very dressy toilets. In spite of the pretty and effective things in this line, belts are not to be worn recklessly, but are to be clasped judiciously about the figure with reference to the eternal fitness of things.

A Hebrew Word.

The word "shesh," found in the book of Genesis and translated silk, is the same which elsewhere is rendered by the translators "fine linen."

LACROSSE.

At a meeting at Port Hope, Friday, the following schedule of games for this district of the C.L.A. was drawn up, with the following representatives present:—W. Phelan, Peterborough; J. R. Duncan, Cobourg; L. Norman, district secretary, Cobourg; D. N. Hovey, Port Hope.

June 10, Cobourg at Peterborough.
July 1, Cobourg at Port Hope.
July 13, Port Hope at Peterborough.
July 22, Peterbororough at Cobourg.
August 5, Peterborough at Port Hope.
August 12, Port Hope at Cobourg.

CRICKET.

The first match of the Trinity College School season was played in beautiful weather in Port Hope on Saturday against a district eleven. The School took the field and disposed of their opponents for the small total of 65, to which Watson contributed 28, and Goldsmith of Peterborough, 14. For the School, DuMoulin and Harvey succeeded in putting on 48 for the first wicket by good cricket, and were supported by R. E. McGregor, Robertson and Chadwick. Goldsmith of Peterborough proved deadly amongst the boys, and secured eight wickets for 35 runs, while H. S. McGregor bowled well for the School and got six for 27. The result reflects credit on the coaching of Shelton, the School's professional, and it seems as if the School's eleven would be fully up to the average of former years.

FOOTBALL.

The Otonabee football club held a meeting in Elm Grove school house, Tuesday evening, and organized for the season, electing the following officers:

Pres.—Mr. J. J. Duffus.
Vice-Pres.—Mr. Warren Hunter.
Captain—Mr. M. J. Duffus.
Secretary—Mr. W. Bradshaw.
Treasurer—Mr. G. Gillespie.
Committee—A. Wilson, E. Crowley, C. Munro and W. Duffus.

The boys are very enthusiastic this year and hope to keep up their unparalleled reputation. The secretary is prepared to receive challenges from any of the surrounding clubs, not excepting Bewdley.

WHEEL.

The bicyclists are getting ready to have things pretty much their own way in the streets of New York. They are going to assemble in mass meeting in Madison Square Garden to demand that general travel in the public streets be regulated to better suit their convenience. They demand, for example, that the street cars be stopped before crossing the more frequented cross streets, in order to give ample warning to the stream of riders pouring over the way. They want all rubber-tired vehicles compelled to carry bells as bicyles are commanded to do. And they would require drivers of horse vehicles to hold up the whip when they intend to slacken speed or to stop or to turn.

The bicycle pastime, like the game of baseball, that of golf, and a few others that might be mentioned, seems likely to coin a few new verbs for the English language. For instance there's the present participle "ankling" from the infinitive to ankle. This refers to the proper use of the ankles in pedalling your "bike." If you ankle well you will climb a hill easier than though you pumped yourself up in the old fashioned tiresome manner. Also there is the participle "pedaling," from the verb to pedal; "tracking" from the verb to track, a common use of the word in South Africa; deflate, the reverse of inflate; header, meaning to spill yourself in any plebeian way on the ground or pavement, and a few other trifles in Anglo-Saxon that will be added shortly to Mr. Webster's compendium of alphabetic combinations. But of all the words of tongue and pen those in the game of golf most puzzle men and women, too, until they learn the language.

Many wheelmen do not pay sufficient attention to the lubrication of the chain. It is really remarkable how much easier a wheel will run which has its chain cleaned for every twenty-five or fifty miles ridden. Both the stick graphite and the paste graphite may be used together with advantage.

What can be done in case of emergency was demonstrated a short time ago by a man who had his tire badly punctured on the way home from Coney Island. He detached his injured tire, and, securing a heavy piece of rope, substituted the rope for the tire and made the journey home, some eight miles, in safety.

In driving out a refractory crank key or other part of similar dimensions, where there is danger of "burring" the edges or destroying the thread, if only a hammer or wrench is employed, it is a good plan to use a copper penny to protect the part. In case of a crank key to be removed, for instance, put a piece of shingle, or almost any kind of wooden chip on the underside of the crank boss, against the key, and hold the copper penny on top of the key or cotter pin. You may strike the penny with absolute freedom from fear of injuring the pin, and drive it out, no matter how tight.

A new apparatus for charging pneumatic tires has been invented. It consists of a steel tank perfectly air tight, capable of standing a pressure of 200 pounds to the square inch, the tank being charged with air to that pressure. A guage registers the pressure of the air that is forced into the tire. When it reaches 35 or 40 pounds the tire is ready for road service. A tank of four cubic feet capacity is equal to the task of charging about five hundred tires. The new invention is recommended as a good thing for bicycle clubs, hotels, bicycle agencies, and all public places where wheelmen resort. Wheelmen will be happy to find anything that is an improvement on the old hand pump.

IN THE SPORTING WORLD.

Handspring Captures the Withers Stakes—The Baseball Record.

Morris Park Race Track, May 16.—P. J. Dwyer's great colt Handspring proved himself a worthy son of his famous sire, Hanover, by defeating August Belmont's $37,000 colt Hastings by a short head in the Withers Stakes of one mile to-day. It was a desperate finish for the last two furlongs. Griffin made a mighty effort with Hastings all the way down the stretch, but could not gain an inch on Sims, who rode a grand race.

Hastings took the lead at the start, Abuse second and Handspring third. Abuse leads at the quarter, a length in front of Hastings, a length in front of Handspring. Abuse leads at the half, and still by a length, Hastings second, half a length in front of Handspring. Abuse leads at the three-quarters, with Hastings at his neck, a short head in front of Handspring. Hastings leads into the stretch, a nose in front of Handspring, Abuse third. Handspring wins, a nose on the post, Hastings second, Sherlock third, five lengths away.

TRIALS AT THE TRACK.

As there are but a few more days before the flags will be flying and the horses will be striving for O.J.C. purses, trainers have begun to put on the finishing touches, and the work of the various candidates the past week has been very interesting. On Saturday the majority of the horses were sent along, and some excellent trials were recorded. Connoisseur, in company with Halfling and Silk Gown, covered a mile and a quarter in 2.14. The fractional time was: One-quarter 26, one-half 52, three-quarters 1.18½, seven-eighths 1.32, mile 1.45½, 1⅛ miles 1.59½, 1¼ miles 2.14. Stonemason, Eulalon and Mussulman negotiated six furlongs in 1.18¾. Millbrook a mile and a quarter in 2.21, while Saragossa was given slow work. Lord Nelson reeled off a mile in 1.46½, and Havoc the same distance a shade slower. Royal George worked a mile in 1.49¾, while the Hendrie Plater, Lochinvar, traveled the Plate distance in 2.20. Mr. Duggan's Steppingstone and Minoren reeled off three-quarters in 1.22. The Kapanga colt, accompanied by Gipmont, worked a mile and a quarter in 2.23, and Campayne and Bradlaugh the same distance in 2.21½.

The heavy rain during Saturday night left the track somewhat heavy yesterday morning, but with the aid of Old Sol by 10 o'clock the going was fairly good. Johnny Walker brought over two of the Seagram Platers, Moorland and Springal, and sent them a mile and a quarter, which was covered in 2.21½. Mr. Robert Davies' Plater, Garter King, negotiated a mile in 1.54, while his stable companion, Zeal, worked six furlongs in 1.19¾. Phaeton going the same distance in 1.26. The 2-year-old Parbuckle reeled off a half in 52⅘. Mr. Hendrie's Ogdensburg ran three-quarters in 1.20, and the hunter Royal Rob two miles in 3.52½. Ben Pope sent Laurel a mile in 1.53, and Red Monk and Sweepy Belle a half in 51. The 2-year-old Edna D., from Aqueduct, L.I., worked five furlongs in 1.06. Charlie Phair sent Muscovite through the field.

Mr. Adam Beck's string, numbering 10, arrived from London yesterday morning, and are quartered on the track. The lot includes the hunters Grand Falconer and Long Run, Generosity 4, South Africa 3, Distant Shot 3 and the 2-year-olds, Stray Step, Snap Shot, Barometer, Wadsworth and Dogma. They are looking exceptionally good.

It is said that about 25 horses will come on from Windsor.

THE BASEBALL RECORD.

London, Ont., May 16.—The Western League championship season opened here to-day under the most favorable auspices, the weather being ideal, and a large attendance present. The game was preceded by a band and street car procession to the grounds. Mayor Little pitched the first ball over the plate. Carney, an ex-London man, and Woods, an ex-Maple Leaf, were in the pitchers' points for Guelph and London respectively. Both were hit hard and often, but the Leafs won by bunching their hits. In the fourth innings Plummer succeeded Woods, who had been hitting batters freely, and was also very wild. Plummer sent several Leafs to first on balls and was hit freely, failing to put a stop to the Leafs' run-getting. The fielding of both teams was fair. Following is the score:

Middlesex Patrons Meet.

London, May 16.—At the meeting of the Patrons of Industry of South and East Middlesex held here to-day to nominate a candidate to contest the Dominion election, nothing of importance was done, and the nominations were deferred until next Saturday, when another meeting will be held in the city.

CHEESE MARKETS.

Woodstock, May 13.—Ten factories offered 1,250 boxes of cheese; 520 boxes of white sold at 7 5-16c, 180 coloured at 6¾c. Five buyers were present.

Napanee, May 13.—The cheese board met to-day for the first of the season. There was fair representation of buyers and bidding was lively, starting at 7⅛c for board, followed by sharp decisive bidding, raising by sixteenths until 7⅜c was reached. There were 335 boxes boarded, all white, and all sold at 7⅜c.

Picton, May 13.—At our cheese board to-day the attendance of factory men was small; 148 boxes registered; 7c offered; no sales.

Stirling, May 13.—Cheese offered on the Stirling cheese board to-night as follows:—107 white, 7c coloured; 7 5-16c bid for white, 7c for coloured. Board closed with no sales.

Kingston, May 14.—Only 951 cheese were boarded to-day at the meeting of Frontenac Cheese Board. Of this number 195 boxes were coloured and 896 boxes white. Bidding was started by D. J. Madden, who offered 7c for selections. Mr. Russell made the highest bid, offering 7 7-16c for all the white cheese. Five factories, Cold Springs, Inverary, Rose Hill, Fret and Central accepted. L. W. Murphy got Bar Creek, Morning Star and Pine Grove at 7⅛c. None of the other sellers would accept.

Brockville, May 14—The first meeting of the Cheese Board was held here to-day and 1,966 boxes were offered, of which 750 were coloured, balance white. Sales were 451 boxes white at 7 13-16c and 106 coloured at 7⅛c. The meeting was addressed by Messrs. Grant, Ware and Warrington of Montreal.
